Mission Statement
The University of Oregon is a comprehensive research university that serves its students and the people of Oregon, the nation, and the world through the creation and transfer of knowledge in the liberal arts, the natural and social sciences, and the professions. It is the Association of American Universities flagship institution of the Oregon University System.

The university is a community of scholars dedicated to the highest standards of academic inquiry, learning, and service. Recognizing that knowledge is the fundamental wealth of civilization, the university strives to enrich the public that sustains it through:

- a commitment to undergraduate education, with a goal of helping the individual learn to question critically, think logically, communicate clearly, act creatively, and live ethically
- a commitment to graduate education to develop creators and innovators who will generate new knowledge and shape experience for the benefit of humanity
- a recognition that research, both basic and applied, is essential to the intellectual health of the university, as well as to the enrichment of the lives of Oregonians, by energizing the state's economic, cultural, and political structure
- the establishment of a framework for lifelong learning that leads to productive careers and to the enduring joy of inquiry
- the integration of teaching, research, and service as mutually enriching enterprises that together accomplish the university's mission and support its spirit of community
- the acceptance of the challenge of an evolving social, political, and technological environment by welcoming and guiding change rather than reacting to it
- a dedication to the principles of equality of opportunity and freedom from unfair discrimination for all members of the university community and an acceptance of true diversity as an affirmation of individual identity within a welcoming community
- a commitment to international awareness and understanding, and to the development of a faculty and student body that are capable of participating effectively in a global society
- the conviction that freedom of thought and expression is the bedrock principle on which university activity is based
- the cultivation of an attitude toward citizenship that fosters a caring, supportive atmosphere on campus and the wise exercise of civic responsibilities and individual judgment throughout life
- a continuing commitment to affordable public higher education

Catalog Expiration and Requirements Policies
The University of Oregon Catalog lists requirements for active degrees offered by the university.

Each catalog goes into effect at the beginning of fall term the academic year of issue. It expires at the end of summer session the seventh academic year after publication.

Advisers and other university employees are available to help, but students have final responsibility for satisfying degree requirements for graduation.

Undergraduate Students
1. To receive an undergraduate degree, a student must have satisfied, at the time of graduation, all requirements for the degree listed in one of the following:
   a. the unexpired catalog in effect when the student was first admitted and enrolled at the University of Oregon
   or
   b. any subsequent catalog that has not yet expired

2. To fulfill major or minor program requirements, a student must complete the requirements in effect:
   a. when the student first declared the major or minor
   or
   b. when the student changed to a different major or minor

Exceptions to major or minor requirements may be made by the department or program offering the major or minor.

Graduate Students
1. To receive a graduate degree, a continuously enrolled student must have completed, at the time of graduation, all requirements described in the department and Graduate School sections of the catalog in effect when the student was first admitted and enrolled at the University of Oregon.

2. A student who has not maintained continuous enrollment is subject to the requirements described in the department and Graduate School sections of the catalog in effect the first term the student was readmitted by the Graduate School and reenrolled at the University of Oregon.

Requests for exceptions to graduate degree requirements must be submitted in writing to the Graduate School prior to graduation.
Learning and Research

During 2001-2 academic year, the University of Oregon marks its 125th anniversary. Five generations of leaders and citizens have studied at the University of Oregon since it opened in 1876. Today's students, like the 165,000 alumni who graduated before them, have access to the most current knowledge in classes, laboratories, and seminars conducted by active researchers. In turn, by sharing their research through teaching, faculty members are better able to articulate their findings and to integrate their specialized studies with broader areas of knowledge.

UO students select their courses from departments and programs in the College of Arts and Sciences and from six professional schools and colleges. Some 723 full-time and 334 part-time faculty members—and 1,200 graduate teaching and research assistants—serve as mentors, colleagues, and friends to the 17,850 undergraduate and graduate students enrolled at the university.

Although most students are from Oregon, about 25 percent are from other states and 9 percent from other countries. The mix of backgrounds gives students a chance to know people they might not meet otherwise—a real asset in a world where national and international relations often affect everyday life.

Teaching, research, and a spirit of sharing are characteristics of the campus learning community. In the past year, faculty members and students engaged in active research programs have brought the university more than $62 million in research grants, primarily from federal agencies. UO science departments receive national attention for their work in such areas as computer science, genetics, materials, optics, and neuroscience. Seven UO professors belong to the prestigious American Academy of Arts and Sciences, and six faculty members have been elected to the National Academy of Sciences.

Accreditation

The University of Oregon was elected to membership in the Association of American Universities in 1969. The university has full accreditation from the Northwest Association of Schools and Colleges and the Western Interstate Commission for Higher Education. Individual programs in the university's professional schools and colleges are accredited by the following organizations:

- Accrediting Council on Education in Journalism and Mass Communications
- American Assembly of Collegiate Schools of Business
- American Bar Association
- American Chemical Society
- American Psychological Association
- American Society of Landscape Architects
- American Speech-Language-Hearing Association
- Council for Exceptional Children
- Foundation for Interior Design Education Research
- National Architectural Accrediting Board
- National Association of School Psychologists
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- National Athletic Trainers Association
- Planning Accreditation Board
- Teacher Standards and Practices Commission

Public Service

The sharing of knowledge and the love of learning do not stop at the campus borders. Public service is important to the university.

Members of the UO faculty share their experience and knowledge in numerous community activities including service in local and state governments. They also serve as consultants for businesses, industries, school districts, and government agencies. Students work as interns in a variety of educational programs in the community and volunteer for service activities.

University programs that serve the public include the Continuation Center, which sponsors for-credit and noncredit activities throughout the state, and the UO's classical-music radio station, KWAX-FM, an affiliate of the Public Radio International Classical 24. KWAX programs are rebroadcast on translators in several coastal and central Oregon communities, and it is cybercast overseas on the World Wide Web.

The university's presence is evident at its off-campus facilities—Pine Mountain Observatory in central Oregon near Bend and academic programs in Central Oregon and at the coastal Oregon Institute of Marine Biology in Charleston, the University of Oregon Portland Center, and Portland's Central Center.

The university is one of Lane County's largest employers, with an annual payroll of about $204 million to about 4,000 faculty, staff, and student employees.

The Campus

The university's 295-acre campus is an arboretum of more than 500 species and more than 3,000 specimens of trees. Campus buildings date from 1876, when Deady Hall opened, to 1999, when the William W. Knight Law Center was completed. The Museum of Natural History is located at 15th Avenue and Columbia Street. Across campus the Museum of Art, a member of the American Association of Museums, is noted for its collections of Oriental and Northwest art. The two-million-volume UO Library System, a member of the Association of Research Libraries, is an important research facility for scholars throughout the Northwest.

Campus athletic facilities include the 41,000-seat Autzen Stadium, the Casanova Athletic Center, Ed Moshofsky Sports Center, Papé Field, McArthur Court, Hayward Field's all-weather track, the Bowerman Family Building, the Student Recreation Center, and open-air and covered tennis courts. Student-guided tours of the university are available Monday through Friday. Tours may be arranged by calling (541) 346-3014. Campus maps and pamphlets describing university programs, answers to questions about services and office locations, and general information about the university are available at the campus visits desk in the lobby of Oregon Hall.

Policy Statement on Equal Opportunity

The University of Oregon affirms and actively promotes the right of all individuals to equal opportunity in education and employment at this institution without regard to race, color, sex, national origin, age, religion, marital status, disability, veteran status, sexual orientation, or any other extraneous consideration not directly and substantively related to effective performance. This policy implements all applicable federal, state, and local laws, regulations, and executive orders. Direct related inquiries to the Office of Affirmative Action and Equal Opportunity, 474 Oregon Hall, 5221 University of Oregon, Eugene OR 97403-5221; telephone (541) 346-3123, TTY (541) 346-1021.

This publication will be made available in accessible formats upon request. Call the Office of University Publications at (541) 346-5396.

Reader’s Guide to the Catalog

Organization
The University of Oregon’s largest academic units are its colleges and professional schools. Each consists of smaller units called departments or programs or areas. The academic year is divided into three terms (fall, winter, spring) and one summer session.

Where to Find It
This catalog has three sections. The first contains information about the academic calendar, admission, registration, tuition and fees, financial aid, employment, housing, and academic and career planning. Next is the curriculum section, which describes all the university’s academic programs in detail: faculty members, degree and nondegree programs, and course listings. This section is organized by colleges and schools, beginning with Graduate Studies. Next comes Honors at Oregon, followed by the College of Arts and Sciences, its departments and programs arranged alphabetically. The six professional schools and colleges follow in alphabetical order. The last section contains academic resources and student services.

Still Can’t Find It?
In addition to the Contents, the Faculty and Subject Indexes at the back are invaluable for locating a person or topic quickly. Cross-references within the text refer to listings in the Subject Index; cross-references in bold type indicate major headings.

Definitions
The academic terms defined below are used throughout this catalog.

Certificate. A formal document that recognizes academic achievement in a specific discipline—usually as an adjunct to an undergraduate or graduate degree program. Stand-alone certificates are offered through Continuing Education.

Competency. A specific skill in a specific area.
Corequisite. A course or other educational requirement that must be completed simultaneously with another course.
Course. A subject, or an instructional subdivision of a subject, offered through part of a term, a whole term, or over several terms. Each course offered by the university is assigned a course level. Courses numbered 100–499 are undergraduate courses; 100–299 are lower division, and 300–499 are upper division. Courses numbered 500 and above are graduate or professional.
1 credit. Represents approximately three hours of the student’s time each week for one term in a lower-division undergraduate course. This frequently means one hour in the lecture hall or laboratory in addition to two hours spent in outside preparation. The number of lecture, recitation, laboratory, or other periods required each week for any course is in each term’s UO Schedule of Classes.
Curriculum. An organized program of study arranged to provide integrated cultural or professional education.
Discipline. A branch of learning or field of study (e.g., mathematics, history, psychology).
Electives. Courses that students may choose to take, as contrasted with required courses.
Major. A primary undergraduate or graduate field of specialized study.
Minor. A secondary undergraduate field of specialized study.
Multicultural course. A course that counts toward partial fulfillment of bachelor’s degree requirements in one of three categories: American cultures; identity, pluralism, and tolerance; international cultures.
Option. A subarea of specialized study within an undergraduate or graduate major or undergraduate minor.
Preparatory programs. Undergraduate courses of study taken in preparation for professional or graduate degrees.
Prerequisite. A course or other educational requirement that must be completed prior to registering for another course or before proceeding to more advanced study.
Reading and conference. A particular selection of material to be read by an individual student and discussed in conference with a faculty member.
Repeatable for credit. Only course numbers designated R may be repeated for credit. Except for generic, studio, or performance courses, the circumstances under which a course may be repeated for credit are typically restricted.
Residence credit. Academic work completed while the student is formally admitted and officially registered at the University of Oregon; this includes courses taken in UO overseas study programs.
Semester. One-half the academic year (sixteen weeks) applicable only to the UO School of Law.
1 semester credit. Indicates one semester credit, which equals one and one-half quarter (or term) credits.
Seminar. A small group of students studying a subject under a faculty member. Although practices vary, students may do original research and exchange results through informal lectures, reports, and discussions.
Sequence. Two or three closely related courses that must be taken in specified order.
Subject code. An abbreviation used with a course number to indicate an academic subject area. See the list of subject codes in this section of the catalog.
Term. Approximately one-third of the academic year (eleven weeks), either fall, winter, or spring.
To waive. To set aside without credit certain requirements for a degree or major.

Courses

</table>

**Generic Courses**

Certain numbers are reserved for generic courses that may be repeated for credit (R) under the same number. Except in the School of Law, courses numbered 503, 601, and 603 are offered pass/no pass only. Credit is assigned according to the work load in a particular course. Credit ranges indicate minimum and maximum credits available in a single course for a single term, and departments determine their own credit ranges.

Admissions

Martha Pitts, Director
(541) 346-3201
(541) 346-5815 fax
240 Oregon Hall
http://admissions.uoregon.edu/

Admission requirements apply to all students seeking to enroll at the University of Oregon. Late applications are considered; qualified late applicants are admitted if space is available.

Undergraduate international students are admitted fall term only.

Application Deadlines

The following majors require a separate application in addition to the university application and have strictly enforced deadlines for admission. Students who plan to enter the university as majors in architecture, fine and applied arts, interior architecture, landscape architecture, or music—or who hope to enroll in the Clark Honors College—should be aware of the special admission requirements and application deadlines. These deadlines are given below. Details are in the departmental sections of this catalog.

Music majors audition for placement and take a musicianship examination scheduled on several dates throughout the spring.

Freshman Admission

Freshman Application Procedures

Freshman applicants must submit the following to the Office of Admissions:
1. A completed application for admission and a nonrefundable $50 application fee
2. At the time of application, a transcript showing at least six semesters of the applicant’s high school record
3. The results of either the Scholastic Assessment Test I (SAT I) or the American College Test (ACT)
4. A final transcript of the applicant’s high school record certifying graduation

Freshman Admission Prerequisites

To be admitted to the University of Oregon, students must complete the minimum number of years of study in certain disciplines and meet the grade point average or test score alternatives outlined below.

Fourteen total units (one unit equals one year) of college preparatory coursework are required. Specific subject requirements include:

- English—four years. All four years should include preparatory composition and literature with emphasis on and frequent practice in writing expository prose.
- Mathematics—three years. Study must include first-year algebra and an additional two years of college preparatory mathematics such as advanced algebra, trigonometry, analytical geometry, calculus, finite mathematics, advanced applications, probability and statistics, or courses that integrate topics from two or more of these areas. It is recommended that an advanced mathematics course be taken in the senior year. Regardless of the pattern of mathematics courses or the number of years of mathematics taken, the mathematics course work must culminate at the Algebra II (or equivalent) level or higher.
- Science—two years. Study must include a year each in two fields of college preparatory science such as biology, chemistry, physics, or earth and physical science (one laboratory science recommended).
- Social studies—three years. Study must include one year of United States history, one year of global studies (for example, world history or geography), and one year of a social studies elective (American government strongly recommended).

Second-language proficiency.

1. Two years of the same second language in high school
2. Two terms of college-level study in the same second language

Proficiency test (e.g., SAT II or BYU Foreign Language Assessment). Students admitted as exceptions to the second-language requirement must complete two terms of the same second language before graduating from the university.

Address questions about demonstrating second-language proficiency to the Office of Admissions.

PASS proficiency. The Oregon University System is phasing in the Preparatory-based Admission Standard System (PASS), which will be fully implemented for fall 2005. For fall 2001, PASS may substitute for English, mathematics, and science courses. Students in Oregon public high schools can use the Certificate of Initial Mastery (CIM) to meet some of the standards required for admission, however the CIM is not required for admission. More information about PASS may be found at <http://www.ous.edu/pas>.

Freshman Admission Requirements

1. To be admitted to the University of Oregon, students must have a. Graduated from a standard or accredited high school and...
b. Completed the subject requirements outlined above

2. A cumulative grade point average (GPA) of 3.00 qualifies the applicant for admission. Applicants whose GPA is lower than 3.00 may qualify for admission based on GPA and SAT I or ACT scores. A chart showing the minimum SAT scores needed for admission with a GPA below 3.00 is available from the Office of Admissions and on the admissions website. Such applicants must also submit with their application a one-page personal statement discussing what motivates them to succeed academically.

Fulfilling the minimum admission requirements does not guarantee admission to the University of Oregon.

Students who have not graduated from high school may be considered for admission on the basis of the Test of General Educational Development (GED). Students who have graduated from a nonstandard or unaccredited high school or were home schooled must complete either the SAT I or the ACT and take the SAT II in English, Mathematics I or II, and a third test of the student’s choice. Inquire at the Office of Admissions for more details.

Computing Admission

Grade Point Averages

A numerical point value is assigned to graded work as follows: A=4 points per credit, B=3 points per credit, C=2 points per credit, D=1 point per credit, F or N=0 points. The grade point average (GPA) equals the total points divided by total credits for which grades are received.

Admission Exceptions

Oregon University System policy permits the university to admit a limited number of freshmen who do not meet minimum requirements. Requests for admission as an exception is reviewed by the admissions committee. For information about this option, write or visit the Office of Admissions.

Transfer Admission

Students who have completed between 12 and 35 quarter credits of college work must meet the freshman requirements outlined above and the transfer requirements described here. Students who have completed 36 or more credits of college work, 24 of which must be graded, are considered for admission based only on a review of their college-level study. A minimum grade point average of 2.25 (2.50 for nonresidents) is required. Students must have successfully completed one course each in college-level writing and mathematics with grades of C- or better and must be eligible to return to the last college attended.

Transfer students who have completed 36 or more credits of college work must meet the freshman requirements outlined above and the transfer requirements described here. Students who have completed 36 or more credits of college work, 24 of which must be graded, are considered for admission based only on a review of their college-level study. A minimum grade point average of 2.25 (2.50 for nonresidents) is required. Students must have successfully completed one course each in college-level writing and mathematics with grades of C- or better and must be eligible to return to the last college attended.

Transfer students who have completed 36 or more credits of college work, 24 of which must be graded, are considered for admission based only on a review of their college-level study. A minimum grade point average of 2.25 (2.50 for nonresidents) is required. Students must have successfully completed one course each in college-level writing and mathematics with grades of C- or better and must be eligible to return to the last college attended. Transfer students who graduated from high school spring 1997 or after must meet the freshman second-language requirement. Meeting these minimum standards does not guarantee admission. Priority consideration is given to students who earn an associate of arts degree from an Oregon community college.

Transfer students who apply to one of the professional schools may be expected to show proficiency beyond the minimum requirement for transfer admission. See departmental sections of this catalog for details.

Students who do not meet the minimum requirements for admission may request additional consideration by including an essay and two letters of recommendation with their application. These students are considered for special admission programs.

PASS Proficiency. See heading under Freshman Admission Prerequisites.

Transfer of Credit

The amount of credit transferred depends upon the nature of the applicant’s college work, which is evaluated according to the academic requirements of the University of Oregon. Records from institutions fully accredited by appropriate accrediting associations are evaluated before admission is granted. Up to 108 credits from accredited community or junior colleges may be applied to the bachelor’s degree.

See Group Requirements under Registration and Academic Policies for requirements that apply to new undergraduates.

Transfer Application Procedures

Transfer applicants must submit the following to the Office of Admissions:

1. A completed application for admission and a nonrefundable $50 application fee.
2. An official transcript from each college and university attended (an official transcript is one sent directly to the Office of Admissions by the college or university attended).

Transfer students may submit their applications up to one year before they plan to enroll at the UO. Applications and official transcripts should be received by the university by the deadlines listed above to allow time for a complete evaluation of the transferred credits.

Premajor Status

The departments listed below admit new students only as premajors. The premajor student is eligible to take advantage of the department’s advising services and, in most cases, complete lower-division college work required for the major. Each department screens enrolled premajor students who have completed some university study and decides if they may advance to major status. Professional schools and departments with premajor admission requirements are the Lundquist College of Business; School of Journalism and Communication; College of Education; Computer and Information Science; International Studies; Planning, Public Policy and Management; and Psychology.

Dual Enrollment Program

The University of Oregon and Lane Community College are offering a dual enrollment pilot program for 2001–2 and 2002–3. The program provides students with the academic and administrative advantages of simultaneous enrollment in both institutions. Enrollment is limited to one hundred students during the two-year program. More information and an application for admission is available from the UO Office of Admissions and at the Students First! center at Lane Community College.

International Admission

Applicants who are not United States citizens or immigrants are considered for admission to the university as international students.

Undergraduate applicants from countries other than the United States are admitted fall term only. The admission deadline is April 15. Late applications may not be processed in time for the term of first preference.

International students who are studying at colleges in the United States may apply for a term other than fall. More information and deadlines are available from the Office of Admission.

For undergraduates, a GPA of 2.50 is required to transfer from an American university or college. To obtain graduate application forms, applicants should write directly to the departments or schools in which they plan to study. See Graduate Admission in this section of the catalog.

English Proficiency. Proficiency in the English language is vital to the academic success of international students. Students whose native language is not English must supply results of the Test of English as a Foreign Language (TOEFL) as part of the application process. A TOEFL score of at least 500 is required to be considered for undergraduate or graduate admission. Students who take the computer-based TOEFL must score at least 173. A score of 5.5 on the International English Language Testing System (IELTS) is also acceptable for demonstration of proficiency in English. The TOEFL is given worldwide. For more information write to TOEFL, PO Box 899, Princeton NJ 08540, USA.

After arriving at the university, students whose TOEFL scores are between 500 and 574 (or 173 and 233 for the computer-based TOEFL) must take additional English tests. Students whose scores on these tests indicate that more language training is needed must take courses in the Academic English for International Students (AEIS) program. Students who are placed in AEIS courses may also enroll in regular academic courses. For more information, write to the AEIS Adviser, Office of International Education and Exchange, 5209 University of Oregon 97403-5209, USA. See also American English Institute in the Academic Resources section of this catalog.

International Application Procedure

International applicants must submit the following to the Office of Admissions:

1. A completed application for admission and a nonrefundable $50 application fee.
2. Official transcripts of all schoolwork taken beyond the eighth year of school (e.g., the equivalent of the American secondary school grades nine, ten, eleven, and twelve, and for any college or university work). An official transcript is an original or a certified copy.
3. The results of the Test of English as a Foreign Language (TOEFL).
4. A completed Supplementary Application and Financial Statement for Foreign Students (provided by the Office of Admissions).
5. A statement issued by a bank that indicates an amount covering one year’s expenses.

Specialized Admission Assistance

Assistance is available from the following offices:

- Office of Academic Advising, 364 Oregon Hall; telephone (541) 346-3211
- Office of Admissions, 240 Oregon Hall; telephone (541) 346-3201
Graduate Admission
Students planning to earn graduate degrees at the university must be admitted to the Graduate School and the departments in which they plan to study. General admission requirements for the Graduate School are described in that section of this catalog. Each school and department in the university determines its specific requirements and application deadlines for graduate admission. For this reason, inquiries concerning graduate admission should be directed to the department or school of interest.

Postbaccalaureate Admission
Students who have earned a bachelor's degree and want to earn a second undergraduate degree, or to take additional work without entering a formal degree or certification program, may be admitted with postbaccalaureate nongraduate status. These students pay appropriate undergraduate fees. Applications and information are available from the Office of Admissions.

Notice to Nonresidents of the State of Oregon
Residence Classification Policy and Procedures
In Oregon, as in all other states, instruction fees at publicly supported four-year colleges and universities are higher for nonresident students than for resident students. Currently nonresident students are assessed instruction fees that approximate the full cost of instruction.

The current rules and amendments used in determining residency seek to ensure that only bona fide Oregon residents are assessed the resident fee. Those rules—Oregon Administrative Rules Chapter 580, Division 10—Board of Higher Education—appear below. Only duly authorized residency admissions officers have authority to apply and interpret these rules and procedures. No other indication or determination of residency by any other institutional office, department, program, or staff represents the official institutional determination of residency.

Summary of Key Considerations in Determining Classification as a Resident:
1. Establishment of a domicile in Oregon for a period of 12 months or more prior to the beginning of the term for which residency is sought.
2. Financial dependence on an Oregon resident or financial independence.
3. Primary purpose for being in Oregon other than to obtain an education.
5. Various other indicia of residency (e.g., ownership of Oregon living quarters, permanent Oregon employment, payment of Oregon income taxes).

Oregon Board of Higher Education Administrative Rules
These are the residency rules of the Board of Higher Education currently in effect.

Residence Classification
Definitions 580-010-0029
For the purpose of rules 580-010-0030 through 580-010-0045, the following words and phrases mean:

(1) "Domicile" denotes a person's true, fixed, and permanent home and place of habitation. It is the place where a person intends to remain and to which the person expects to return when the person leaves without intending to establish a new domicile elsewhere.

(2) "Financially independent" denotes a person who has not been and will not be claimed as an exemption and has not received and will not receive financial assistance in cash or in-kind of an amount equal to or greater than that which would qualify him or her to be claimed as an exemption for federal income tax purposes by another person except his or her spouse for the current calendar year and for the calendar year immediately prior to the year in which application is made.

(3) A "dependent" is a person who is not financially independent.

Determination of Residence 580-010-0030
For purposes of admission and instruction fee assessment, OUS institutions shall classify a student as an Oregon resident or nonresident. In determining resident or nonresident classification, the primary issue is one of intent. If a person is in Oregon primarily for the purpose of obtaining an education, that person will be considered a nonresident. For example, it may be possible for an individual to qualify as a resident of Oregon for purposes of voting or obtaining an Oregon driver's license and not meet the residency requirements established by these rules.

An Oregon resident is a financially independent person who, immediately prior to the term for which Oregon resident classification is requested:
(a) Has established and maintained a domicile in Oregon of not less than 12 consecutive months; and
(b) Is primarily engaged in activities other than those of being a college student. (A student may be considered primarily engaged in educational activities regardless of the number of hours for which the student is enrolled. However, a student who is enrolled for more than eight hours per semester or quarter shall be presumed to be in Oregon for primarily educational purposes. (B) Such period of enrollment shall not be counted toward the establishment of a bona fide domicile of one year in this state unless the student proves, in fact, establishment of a bona fide domicile in this state primarily for purposes other than educational.

(3) An Oregon resident is also a person who is dependent on a parent or legal custodian who has maintained a one-year domicile in Oregon in the state primarily for purposes other than educational.

(4) The criteria for determining Oregon resident classification shall also be used to determine whether a person who has moved from Oregon has established Oregon residency requirements of these rules 12 months prior to the term for which Oregon resident classification is requested.

Evidence of Financial Dependency 580-010-0033
(1) In determining whether a student is financially dependent, and whether his or her parent or legal custodian has maintained a bona fide domicile in Oregon for one year, a student must provide:
(a) Legal proof of dependency;
(b) Evidence of established domicile of parent or legal custodian; and
(c) The identification of the student as a dependent on the federal income tax return of the parents or legal custodian.

Additional documentation to substantiate dependency during the current calendar year may be required at a later time if deemed necessary by the institution.

(2) A student who provides evidence that he or she is a dependent of a parent or legal custodian who has maintained a one-year domicile in Oregon shall not be required to establish a one-year domicile prior to classification of resident status, provided such a student may not be classified as a resident while receiving financial assistance from another state or state agency for educational purposes.

Residence Classification of Armed Forces Personnel 580-010-0035
(1) For purposes of this rule, armed services means officers and enlisted personnel of the United States Army, Navy, Air Force, Marine Corps, and Coast Guard.

(2) Notwithstanding OAR 580-010-0030, members of the armed services and their spouses and dependent children who reside in this state while assigned to duty at any base, station, shore establishment, or other facility in this state, or while serving as members of the crew of a ship that has an Oregon port of shore establishment as its home port or permanent station, shall be considered residents for purposes of the instruction fee.

(3) An Oregon resident entering the armed services retains Oregon resident classification until it is voluntarily relinquished.

(4) An Oregon resident who has been in the armed services and assigned on duty outside of Oregon must...
return to Oregon within 60 days after completing service to retain classification as an Oregon resident.
(5) A person who continues to reside in Oregon after separation from the armed services may count the time spent in the state while in the armed services to support a claim for classification as an Oregon resident.
(6) The dependent child and spouse of a person who is a resident under Section (2) of this rule shall be considered an Oregon resident. “Dependent child” includes any child of a member of the armed forces who:
(a) Is under 18 years of age and not married, otherwise emancipated, or self-supporting; or
(b) Is under 24 years of age, unmarried, enrolled in a full-time course of study in an institution of higher learning, and dependent on the member for over one-half of his/her support.

Residence Classification of Members of Oregon Tribes 580-010-0037
(1) Students who are enrolled as members of federally recognized tribes of Oregon or who are enrolled members of a Native American tribe which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon shall be assessed resident tuition regardless of their state of residence.
(2) For purposes of this rule, the federally recognized tribes of Oregon are:
(A) Burns Paiute Tribe
(B) Confederated Tribes of Coos, Lower Umpqua and Siuslaw
(C) Confederated Tribes of Grand Ronde Community of Oregon
(d) Confederated Tribes of Siletz Indians of Oregon
(e) Confederated Tribes of the Umatilla Indian Reservation
(f) Confederated Tribes of Warm Spring Indians Reservation
(g) Cowiche Indian Tribe
(h) Colville Indian Tribe
(i) Coos-Cree Band of Umpqua Indians
(j) Klamath Tribes
(3) For purposes of this rule, the Native American tribes which had traditional and customary boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon are:
(A) CALIFORNIA
(B) Benton Paiute Tribe
(C) Big Bend Rancheria
(D) Big Lagoon Rancheria
(E) Blue Lake Rancheria
(F) Cement Indian Reservation
(G) Fort Bidwell Indian Tribe
(H) Hoopa Valley Tribe
(I) Karuk Tribe of California
(J) Lakota Rancheria
(K) Luckot Rancheria
(L) Lytton Rancheria
(M) Modoc Band of Modoc Indians
(N) Montgomery Creek Rancheria
(O) Pit River Tribe
(P) Quartz Valley Indian Community
(Q) Redding Rancheria
(R) Roaring Creek Rancheria
(S) Smith River Rancheria
(T) Suisun Rancheria
(U) Tolowa-Detun Tribe
(V) Winemucca Colony
(W) Xl Ranch
(X) JADJO
(A) Nez Perce Tribe of Idaho
(B) Shoshone-Bannock Tribes
(c) NEVADA

(2) Idaho
(A) Bear Paw Shoshone-Paiute Tribe
(B) Fall River Paiute-Shoshone Tribe
(C) Fort McDermitt Paiute-Shoshone Tribe
(D) Lovelock Paiute Tribe
(E) Pyramid Lake Paiute Tribe
(F) Reno-Sparks Lake Indian Colony
(G) Summit Lake Paiute Tribe
(H) Walker River Paiute Tribe
(I) Winnemucca Indian Colony
(J) Yerington Paiute Tribe
(k) OKLAHOMA
(A) Moab Tribe of Oklahoma
(B) CHEHALIS Community Council
(C) Coquille Confederated Tribes
(D) Quinault Indian Nation
(E) Shoshone River Bay Tribe
(F) Yakama Indian Nation

(4) A student seeking to be assessed resident tuition under the provisions of this rule shall submit, following procedures prescribed by the OUS institution where the student seeks to enroll, a photocopy of tribal enrollment documents or an affidavit of lawful permanent residence, whichever is applicable for permanent residence in the United States, is eligible to be considered an Oregon resident if OAR 580-010-0030 is otherwise satisfied. The date of receipt of the immigrant visa, the date of approval of political asylum or refugee status, or the date of approval of lawful permanent residence, whichever is earlier, shall be the date on which the 12 months and other residency requirements under OAR 580-010-0030 shall begin to accrue.

(2) Notwithstanding any other rule, an alien possessing a nonimmigrant or temporary visa cannot be classified as a resident.

Changes in Residence Classification 580-010-0041
(1) If an Oregon resident student enrolls in an institution outside of Oregon and later seeks to re-enroll in an OUS institution, the residence classification of that student shall be rescinded and determined on the same basis as for any other person.
(2) A person whose nonresident legal custodian establishes a permanent Oregon residence as defined in OAR 580-010-0030 during a term when the dependent is enrolled at an OUS institution may register as a resident at the beginning of the next term.

(3) Once established, classification as a resident continues as long as the student remains in continuous academic year enrollment in the classifying institution.
(4) A person who seeks classification as a resident under these rules shall complete and submit a notarized Residency Information Affidavit. The affidavit and all required supportive documents and materials must be submitted by the last day to register for the term in which resident status is sought.

(5) A person dissatisfied with the decision of the classification officer may appeal the classification to the Vice Chancellor. An aggrieved person may appeal the classification to the Vice Chancellor for Academic Affairs or designee. An appeal to the Vice Chancellor shall be in writing only. The Vice Chancellor's decision shall be final.

Residents under WICHE 580-010-0047
A certification officer, designated by the Board, shall determine the residence classification of any person seeking certification as an Oregon resident pursuant to the terms of the WICHE Compact. An aggrieved person dissatisfied with the decision of the certification officer may appeal to the WICHE. The decision of the IRC may be final unless further appeal is made to the Vice Chancellor for Academic Affairs pursuant to OAR 580-010-0045(4). Contact the WICHE Certification Officer, PO Box 3175, Eugene OR 97403-0175, telephone (541) 346-5718.

Residency Classification Procedures
To be considered for classification as a resident, certain procedures and materials must be submitted to the institutional residency officer in a complete and timely manner.
(1) Obtain and complete the Residence Information Affidavit, which is available from the institutional residency officer.
(2) Consult with the residency officer on the provision of all required supportive documents and materials.
(3) Submit the affidavit and all other required materials and documents by the last day to register for the term in which resident status is sought. The deadline for UO summer sessions is the first day of classes.

Residency Classification Appeals
Any person may appeal an institutional residency classification decision within ten (10) days of the date of mailing or other notification of the decision. The appeal may be made to the State System's Interinstitutional Residency Committee (IRC) in writing or in person by notifying the institutional residency officer.

The decision of the IRC may be appealed to the Vice Chancellor for Academic Affairs in writing within ten (10) days of notification of the IRC decision. The decision of the Vice Chancellor is final.

More information on assistance with residency classification may be obtained from Larry Waddell, 1217 University of Oregon, Eugene OR 97403-1217; telephone (541) 346-3201; toll free (800) 232-3825. Send e-mail to lwaddell@oregon.uoregon.edu.

Review of Residence Classification Decisions by IRC 580-010-0045
(1) An interinstitutional residency committee (IRC) is established, consisting of the officers determining student residence classification at OUS institutions and a member of the Chancellor's staff appointed by the Chancellor. The member of the Chancellor's staff shall serve as chairperson.
(2) A majority of the members of the Committee shall constitute a quorum. A majority of a quorum may make decisions.
(3) Any person who is aggrieved by the decision of the Committee may, within ten (10) days of the date of mailing or other service of decision, appeal the decision to the IRC. An aggrieved person may supply written statements to the IRC for its consideration in reviewing the case and may also make oral presentation to the IRC. The decision of the IRC shall be final unless appealed.
(4) Any person dissatisfied with the decision may, within ten (10) days of the date of mailing or other service of the IRC decision, appeal the IRC decision to the Vice Chancellor for Academic Affairs or designee. An appeal to the Vice Chancellor shall be in writing only. The Vice Chancellor's decision shall be final.
(5) A person Granted a meritorious hardship exception to residency under this rule prior to July 1, 1990, shall not lose the exception solely because of the repeal of the exception authorization.

Residents under WICHE 580-010-0047
A certification officer, designated by the Board, shall determine the residence classification of any person seeking certification as an Oregon resident pursuant to the terms of the WICHE Compact. An aggrieved person dissatisfied with the decision of the certification officer may appeal the WICHE. The decision of the IRC may be final unless further appeal is made to the Vice Chancellor for Academic Affairs pursuant to OAR 580-010-0045(4). Contact the WICHE Certification Officer, PO Box 3175, Eugene OR 97403-0175, telephone (541) 346-5718.
Registration and Academic Policies

Herbert R. Chereck, University Registrar
(541) 346–3243
220 Oregon Hall

Academic Year
The university divides the academic year into three terms of approximately eleven weeks each (except for the School of Law, which uses a semester calendar).

The summer session supplements the work of the fall, winter, and spring terms; a catalog and announcements are issued for that session.

Students may enter the university at the beginning of any term, with the exception of architecture students, who should see Application Deadlines under Admissions, and international students, who are admitted fall term only. The university's new student orientation, Week of Welcome, is held in September for freshmen and transfer students who enter fall term. All new students are urged to attend. See the Academic Calendar for this and other important dates during the current academic year.

Students are held responsible for familiarity with university requirements governing such matters as registration, academic standards, student activities, student conduct, and organizations. Complete academic regulations are included each term in the UO Schedule of Classes, which may be purchased for $50 at the UO Bookstore and the Erb Memorial Union main desk store.

This publication, the 2001–2 University of Oregon Catalog, is a statement of university rules, regulations, and calendars that go into effect at the opening of fall term 2001. Changes to the university curriculum that were made through fall term 2000 are reflected in this catalog. The UO Schedule of Classes lists changes that were made during winter and spring terms 2001.

A student who is admitted and enrolls at the university during any academic year may graduate under the general requirement provisions of the catalog in effect that year, provided the catalog has not expired. A student may choose to graduate under the general requirements of a subsequent catalog, provided he or she completes all of those requirements. Major requirements are determined by the academic departments and programs; requirements are subject to change for students who are not continuously enrolled. See Catalog Expiration and Requirements Policies, in the Contents section of this catalog, for more information.

Undergraduate and graduate degrees and certificates are listed in the Degrees, Majors, Minors, and Certificates section of this catalog. For details about graduate degrees, see the Graduate School section.

Details on major classification and procedures for change appear in the UO Schedule of Classes.

Grading Systems
The university has two grading systems. When regulations permit, a student may elect to be evaluated for a course with a letter grade or pass/no pass (P/N). Letter-graded work is designated A, B, C, D, or F. Pass/no pass work is designated P or N. An asterisk after the P or N indicates that the course is offered P/N only. See Bachelor's Degree Requirements for regulations on graded credits.

Each department, school, or special program establishes regulations on pass/no pass courses for its majors. Before exercising the P/N option, students should confer with advisers.

Students must choose their grading option at the time of registration and are permitted to change it only within the period allowed. See the academic calendar in the UO Schedule of Classes.

Graded
Student work is graded as follows: A, excellent; B, good; C, satisfactory; D, inferior; F, unsatisfactory (no credit awarded). Instructors may affix + or - to the grades A, B, C, and D.

Pass/No Pass
Courses that are offered pass/no pass (P/N) only are assigned P* or N* grades. Courses offered for letter grades may be pass/no pass or P/N grades without an asterisk.

Student work may be graded as follows: P (pass), satisfactory performance (C- or better for undergraduate course work, B- or better for graduate course work), or N (no pass), unsatisfactory performance, no credit awarded (D+ or worse for undergraduate course work, C+ or worse for graduate course work). The UO Schedule of Classes designates courses that are offered only pass/no pass. Passing credits are also awarded for advanced placement and CLEP work and for work taken at another collegiate institution if the director of admissions cannot equate the quality of the work to the UO grading system.

Marks
AU (audit). A student-initiated mark. Audit enrollments are recorded on the student's academic record, but no credit is earned by audit. Audited classes do not satisfy degree requirements, nor do they count toward the Graduate School's continuous enrollment requirement.

I (incomplete). An instructor-initiated mark. A mark of I may be reported only when the quality of work is satisfactory but a minor yet essential requirement of the course has not been completed for reasons acceptable to the instructor. To remove an incomplete, an undergraduate student must complete the required work within the next four terms of residence at the university or, if absent from campus, no later than three calendar years after the incomplete was awarded, or at such earlier date as the instructor, dean, or department head specifies. Applicants for graduation should see special limitations under Application for a Degree. Graduate students should refer to the Graduate School section of this catalog for time limits on the removal of incompletes.

W (withdrawal). A student-initiated mark. Students may withdraw from a course by using telephone or web registration. See the UO Schedule of Classes for deadlines.

X (no grade or incorrect grading option reported). A registrar-initiated mark. The instructor either did not report a grade or reported a grade that was inconsistent with the student's grading option.

Y (no basis for grade). An instructor-initiated mark. There is no basis for evaluating the student's performance.

Grade Point Average
The grade point average (GPA) is computed only for work done at the University of Oregon. Four points are assigned for each credit of A, three points for each credit of B, two points for each credit of C, one point for each credit of D, and zero points for each credit of F.

The plus sign increases the points assigned the letter grade by 0.30 per credit, and the minus sign decreases the points assigned the letter grade by 0.30 per credit. Marks of AU, I, W, X, Y, and the grades of F and W are disregarded in the computation of the grade point average. The grade point average is calculated by dividing total points by total credits of A, B, C, D, and F.

Application for an Undergraduate Degree
Students who plan to receive a bachelor's degree from the University of Oregon must file an application in the Office of the Registrar by the second week of classes in the term preceding the term of anticipated graduation.

Advance notice to the Office of the Registrar of the intent to graduate permits timely review of degree requirements and notification of deficiencies in general-education requirements, allowing students to plan or change their final term's course schedule to ensure completion of all requirements.

All grade changes, removals of incompletes, and transfer work necessary for completion of degree requirements must be on file in the Office of the Registrar by the Friday following the end of the term of graduation. Corrections to the academic record are made only during the thirty days following the granting of the degree.

Applications for graduate degrees are available from the Graduate School.

Bachelor's Degree Requirements

Students admitted 1999 or after must satisfy general university requirements that went into effect fall 1999 or later. See Catalog Expiration and Requirements Policies for more information. Students who were admitted before fall term 1999 and who graduate fall 2006 or after must satisfy fall 1999 requirements.

To earn a University of Oregon bachelor's degree, students must satisfy the following requirements.

University Requirements Credits
The bachelor of arts, bachelor of science, bachelor of education, and bachelor of music require a total of 180 credits with passing grades. The bachelor of fine arts and the bachelor of landscape architecture require a total of 220 credits. The bachelor of interior architecture requires a total of 225 credits, and the bachelor of architecture requires a total of 231 credits.

Concurrent Degrees
Concurrent degrees are awarded under the following conditions:

1. The second degree is offered by a different school or college.
A student may be awarded a bachelor's degree with a combination of the two. The requirement may be satisfied in one of the following ways:

1. Completion of at least the third term, second year of a second-language course taken in the language, with a grade of C- or P or better.
2. Satisfactory completion of an examination administered by the appropriate language department, showing language proficiency equivalent to that attained at the end of two years of college study. Scores on the second-language examination taken by incoming freshmen indicate the level at which students might begin, not where they must begin.
3. Students whose native language is not English: providing high school or college transcripts to the Office of Admissions as evidence of formal training in the native language and satisfactory completion of WR 121 and either WR 122 or 123.

Bachelor of Science (B.S.) Requirements

The B.S. degree requires proficiency in mathematics or computer and information science or a combination of the two. The requirement may be satisfied in one of the following ways, depending on the student’s experience in mathematics courses must be completed with grades of C- or P or better.

1. Students with a limited background in mathematics can complete the requirement with any two courses chosen from the following:
   - MATH 105, 106, 107, 111 (any three)
   - MATH 105, 111, 243
   - MATH 111, 425, 426
2. Students who placed above the MATH 111 level on the mathematics placement test may complete the requirement with any two courses chosen from the following:
   - MATH 112, 231, 241, 243 or 425
   - CIS 122, 133, 210
3. Students who have MATH 111 skills and an additional prerequisite course or appropriate skills may complete the requirement with one course chosen from the following:
   - MATH 232, 233, 243, 251, 252, 253, 271, 272
   - CIS 211, 212, 254
4. Satisfactory completion of MATH 111 (or a mathematics course for which MATH 111 is a prerequisite) and MATH 211, 212, 213

Group Requirements

To promote educational breadth, bachelor's degree candidates are required to complete work in each of three groups representing comprehensive fields of knowledge: arts and letters, social science, and science. Approved group-satisfying courses must be at least 3 credits each.

Group-satisfying requirements are determined according to the degree to be earned. Only the departments and courses listed below may be used to satisfy group requirements. Courses refer to the current year only. For previous years, consult earlier UO catalogs.

Substituting a Minor or Second Major. Some minors or second majors may be used to satisfy part of one group requirement. Students should consult their advisers for more information.

Group Requirements for Specific Degrees

These requirements apply to all bachelor's degree candidates.

Bachelor of Arts, Fine Arts, or Science

Students must complete a minimum of 48 credits—16 credits in approved group-satisfying courses in each of three general-education groups: arts and letters, social science, and science. Each group must include (1) at least two courses with the same subject code and (2) at least one course with a different subject code. No more than three courses with the same subject code may be used to fulfill the 48-credit requirement.

"Double-Dipping" Restriction. Students who are admitted fall term 1999 or after may not use courses that fulfill the second-language requirement for the bachelor of arts degree to fulfill the arts and letters group requirement.

Bachelor of Architecture, Education, Interior Architecture, Landscape Architecture, or Music

Students must complete a minimum of 36 credits—12 credits in approved group-satisfying courses in each of three general-education groups: arts and letters, social science, and science. Each group must include at least two courses with different subject codes. Two groups must each include at least two courses with the same subject code. No more than three courses with the same subject code may be used to fulfill the total 36-credit requirement.

Group I: Arts and Letters

See "Double-Dipping" Restriction under Group Requirements.

Group III: Science

See "Double-Dipping" Restriction under Group Requirements.

Anthropology (ANTH)
- 170 Introduction to Human Origins
- 171 Introduction to Monkeys and Apes
- 172 Introduction to Human Adaptation
- 173 Evolution of Human Sexuality

Biology (BI)
- 120 Reproduction and Development
- 121 Introduction to Human Physiology
- 122 Introduction to Human Genetics
- 123 Biology of Cancer

Psychology (PSY)
- 201 Mind and Brain
- 304 Biopsychology

Multicultural Requirement

Bachelor’s degree candidates must complete one course in two of the following categories: A: American Cultures; B: Identity, Pluralism, and Tolerance; C: International Cultures. A minimum of 6 credits in approved courses must be earned.

Category A: American Cultures

The goal is to focus on race and ethnicity in the United States by considering racial and ethnic groups from historical and comparative perspectives. Five racial or ethnic groups are identified: African American, Chicano or Latino, Native American, Asian American, European American. Approved courses deal with at least two of these groups in a comparative manner. They do not necessarily deal specifically with discrimination or prejudice, although many do.

Anthropology (ANTH)
- 320 Native North Americans
- 344 Oregon Archaeology

Art History (ARH)
- 442 Northwest Coast Prehistory

English (ENG)
- 151 Introduction to African American Literature
- 240 Introduction to Native American Literature
- 310 African American Prose
- 311 African American Poetry
- 312 African American Drama
- 463 Native American Architecture

Environmental Studies (ENVS)
- 486 African American Folklore

History (HIST)

11. Students may not receive credit for courses that are prerequisites for courses for which they have already received credit.

**Second Bachelor's Degree**

A student who has been awarded a bachelor's degree from an accredited institution may earn an additional bachelor's degree at the University of Oregon. The student must satisfactorily complete all departmental, school, or college requirements for the second degree. Of these requirements, the following must be completed after the prior degree has been awarded:

1. The student must complete an additional 36 credits at the university as a formally admitted student if the prior bachelor's degree was awarded by the University of Oregon, or an additional 45 credits at the university if the prior bachelor's degree was awarded by another institution.

2. A minimum cumulative UO GPA of 2.00 is required for the second bachelor's degree.

3. A minimum of 18 credits must be graded A, B, C, D if the prior bachelor's degree was earned at the University of Oregon, or 23 credits if at another institution.

4. At least 75 percent of all course work required in the major for the second degree must be completed after the conferral of the first degree.

5. The bachelor of arts degree requires proficiency in a second language. Students whose native language is not English may satisfy this requirement by providing high school transcripts as evidence of formal training in the native language and satisfactorily completing WR 121 and either WR 122 or 123. The bachelor of science degree requires proficiency in mathematics and/or computer and information science.

**Bachelor's Degree with Honors**

Information about the Clark Honors College, academic honors, Latin honors, and honor societies is listed in the Honors at Oregon section of this catalog. Fellowship and scholarship information is in the Student Financial Aid and departmental sections of this catalog.

**Academic Standing**

When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Scholastic Review Committee may place students on academic probation or disqualify them from attendance at the university. For information and assistance, students should inquire at the Office of Academic Advising, 364 Oregon Hall.

After grades are processed at the end of each term, term and cumulative UO GPAs are calculated for each undergraduate student, admitted or nonadmitted. A student's academic standing is based on term and cumulative UO GPAs.

If a grade change affects the student's term and cumulative UO GPAs and his or her academic standing, the student should ask the instructor to record the grade change with the registrar's office immediately and notify the Office of Academic Advising as soon as the grade change has been officially recorded. Retroactive changes to a term's academic standing are made only if grade changes are recorded by the last day to register and add classes for the following term. If grade changes that affect GPAs and academic standing are submitted after this, the student's academic standing for the previous term is not amended.

**Academic Warning.** Students receive an academic warning when the term GPA is lower than 2.00 but the cumulative UO GPA is 2.00 or higher. This notation is not recorded on the student's academic transcript.

Academic warning is given as a courtesy to advise a student of potential academic difficulty. Academic probation does not depend on the student receiving prior notice of academic warning.

**Academic Probation.** Academic probation is earned and recorded on the student's permanent record whenever the following conditions exist.

- When the cumulative UO GPA is lower than 2.00, the notation "Academic Probation" is recorded on the student's academic transcript. If the student has earned 45 or more cumulative credits, that student is subject to disqualification at the end of the first term on probation. Students who have earned 44 or fewer cumulative credits are allowed two terms of probation before they are subject to disqualification.

- Students on academic probation are limited to a study load of 15 credits or fewer. A student with probationary status who has a cumulative UO GPA lower than 2.00 and a term GPA of 2.00 or higher remains on academic probation for the following term.

- Incoming students may be admitted on academic probation. Students are notified when such action has been taken.

**Academic Disqualification**

A student on academic probation may be academically disqualified when the next term's cumulative UO GPA is lower than 2.00. The notation "Academic Disqualification" is recorded on the student's academic transcript. The student may enroll again only if the Scholastic Review Committee, upon reviewing the student's record, determines that the student can satisfactorily complete the requirements of a degree program.

**Exceptions to Academic Regulations**

1. Two standing university committees review requests in writing for exceptions to university rules, regulations, deadlines, policies, and requirements: the Academic Requirements Committee and the Scholastic Review Committee. For information about how to submit a petition to the Academic Requirements Committee, inquire at the Office of the Registrar, 220 Oregon Hall; telephone (541) 346-3243. For information about how to submit a petition to the Scholastic Review Committee, inquire at the Office of Academic Advising, 364 Oregon Hall; telephone (541) 346-3211.

2. For information about removal from academic probation and academic reinstatement options, inquire at the Office of Academic Advising.
Registering for Classes

Schedule of Classes
The UO Schedule of Classes is published shortly before registration each term. Copies may be purchased for 50¢ at the UO Bookstore and the Erb Memorial Union main desk store. The schedule lists courses offered for the term; it also describes registration procedures. The booklet includes important dates, deadlines, and explanations of academic regulations and financial aid procedures as well as current figures for tuition, fees, and other charges. The schedule offers abbreviated versions of the Student Conduct Code, the Student Records Policy, grievance procedures, and other policies relevant to a student’s welfare and academic career.

Registration
A registration period takes place before the start of classes each term; the dates are published in advance. Students are not officially registered and are not entitled to attend classes until they have completed the prescribed registration procedures.

Once registered, students are academically and financially responsible for their course enrollments until they officially withdraw. Withdrawal after the term begins results in some financial liability. Appropriate withdrawal procedures are explained in the UO Schedule of Classes.

Freshman Preregistration
Entering freshmen with 44 credits or fewer qualify for IntroDUCtion, offered in mid- to late July. After being notified of admission to the University of Oregon for fall term, freshmen receive information about this program. Space is limited, and the sign-up deadline is in June.

Reenrollment
Students planning to register any time during an academic year (except summer session) after an absence of one or more terms must notify the Office of Admissions by filing a reenrollment form by the end of the first week of the term before the term of planned return to allow time for the preparation of registration materials.

Reenrollment procedures for graduate students are described in the Graduate School section of this catalog.

Summer Session
Students planning to register for summer session should file a Registration Eligibility form, which is provided in the summer session catalog. It is also available from the summer session office and the Office of Admissions. Students who were enrolled spring term need not submit this form.

Transcripts
All students are required to file official transcripts of any academic work taken at other institutions. A student’s official record must be kept complete at all times. Exceptions are made only for special and provisional students who are formally admitted under individual arrangements, and for summer transient and community education students who are not formally admitted. Failure to file required records can result in the cancellation of admission, registration, and credits.

Concurrent Enrollment
University of Oregon students paying full-time tuition may enroll for courses at other universities in the Oregon University System up to over-time levels at no additional cost. Policies and procedures are available in the Office of the Registrar.

Alternate Ways to Earn Credit

The university has established programs through which students may earn credit toward graduation and, at the same time, decrease the cost and time required for standard undergraduate study. Brief descriptions of these programs appear below. Additional information is available from the Office of Admissions and from the Office of Academic Advising.

Advanced Placement
Students who receive satisfactory grades in advanced placement examinations administered by the College Board may, on admission to the university, be granted credit toward a bachelor’s degree in comparable university courses. The fields included in the advanced placement program are American history, art history, biology, chemistry, computer and information science, economics, English language and composition, English literature and composition, European history, French, German, government and politics, Latin, mathematics, music, physics, psychology, and Spanish. Information about advanced placement is available in the Office of Admissions.

College-Level Examination Program
For some courses, departments have authorized the use of subject examinations prepared by the College-Level Examination Program (CLEP). Examinations are available, for example, in American history, principles of economics, calculus, and biology. Students who have not completed their sophomore year (fewer than 90 credits) may also take CLEP general examinations in the humanities, sciences, and social sciences. A score of 500 or better on each general examination earns 12 credits toward graduation and may fulfill a part of the group requirements for the bachelor’s degree. Once a student is admitted to the university, UO accepts as transfer credit the successful completion of CLEP subject and general examinations by students.

Community Education Program
Individuals who want to enroll for 8 credits or fewer in university courses without formally applying for admission may do so through the Community Education Program. Part-time students of all ages choose from a variety of courses. More information about enrollment and credit is available at the Continuation Center, 333 Oregon Hall; telephone (541) 346-5614.

Credit by Examination
A formally admitted student may challenge undergraduate university courses by examination without formally registering in the courses.

1. The student’s petition to the Academic Requirements Committee (available at the registrar’s office) must have the approval of the faculty member who administers the test and of the appropriate dean or department head.

2. Arrangements for the examination must be completed at least one month before the examination date.

3. The student is billed an examination fee of $40 per course.

4. The student is allowed only one opportunity to qualify for credit by examination in any given course.

5. The student may request that the credit be recorded as a pass (F) or graded A, B, C, D, consistent with options listed in the UO Schedule of Classes.

6. Credit by examination may not be counted toward the satisfaction of the residency requirement or the requirement of 45 credits graded A, B, C, D at the University of Oregon. The grading option for credit by examination is based on the course listing in the UO Schedule of Classes.

7. Credit by examination may be earned only in courses whose content is identified by title in the University of Oregon catalog; credit by examination may not be earned for Field Studies (196), Workshop, Laboratory Projects, or Colloquium (198), Special Studies (199); courses numbered 50–99, 200, or 399–410; or for first-year second languages.

8. A student may not receive credit by examination in courses that
   a. substantially duplicate credit already received or
   b. are more elementary than courses in which credit has been received or status has been established.

9. A student must be formally admitted and registered for classes during the term in which the examination is administered.

International Baccalaureate
Students who receive satisfactory grades in international baccalaureate examinations may, on admission to the university, be granted credit in comparable university courses toward a bachelor's degree. Credit can be earned in American history, art, biology, chemistry, East Asian history, economics, European history, second languages, geography, mathematics, physics, psychology, and social anthropology. A complete list of university courses satisfied by international baccalaureate examinations is available from the Office of Admissions.

Military Credit
The university generally grants credit for military education experiences as recommended by the American Council on Education's Guide to the Evaluation of Educational Experiences in the Armed Services, and in accordance with University of Oregon and Oregon University System policies regarding transfer credits. Students may request evaluation of credits earned through the Community College of the Air Force, Defense Language Institute, or military education.

Students must submit official copies of college transcripts or a Certificate of Completion from the Defense Language Institute. An official copy of the student’s DD 214, DD 295, or an AARTS transcript is required for military education and occupational credits.

Tuition Billing

Tuition may be paid in monthly installments. Unpaid balances are assessed a $5 billing fee and are charged 9 percent annual interest. Tuition billings are mailed to students; payments are due on the first of each month.

Community Education Program

Tuition for Community Education Program students enrolling for 8 or fewer credits is determined by the level of the courses taken. Courses accepted for graduate credit are assessed at the graduate tuition level; all others are assessed at the undergraduate level.

Special Fees

Special fees, fines, penalties, service charges, and other additional charges for specific classes, services, or supplies not covered in the tuition fee are set forth on a list available in many departmental offices or in the Office of Business Affairs. (This list is issued each year in accordance with OAR 571-60-005.)

The following fees are assessed to university students under the special conditions noted:

- **Application Fee:** $50. Required of students not previously enrolled at the University of Oregon and payable when the application for admission is submitted. The fee is nonrefundable.
- **Bicycle Registration:** Bicycle registration with the Department of Public Safety is mandatory; there is no charge for a permanent permit. Bicycle racks and ramps are provided throughout the campus, and the development of cycling paths continues on campus and in the community.

Copies of the complete university bicycle parking regulations and fines are available at the Department of Public Safety, 1319 East 15th Avenue.

- **Credit by Examination:** $40 per course. Assessed for taking an examination for advanced credit. The fee applies to each special examination regardless of the number of credits sought.
- **Exceptions to Procedures:** $10-$25. Approved exceptions to procedural deadlines are subject to this fee.

- **Late Registration:** $100. A $100 fee is charged for registration after the eighth day of class.
- **Matriculation Fee:** $150-$200 for undergraduates; $100 for graduate students
- **Parking Permits:** A minimal amount of parking space is available near residence halls and on city streets. Students using university parking lots must purchase and display proper parking permits. One-year student parking permits are $75 for automobiles and $56.25 for motorcycles. Student permits are $25 for summer session only. All parking fees are subject to change.

Parking permits may be purchased from the Department of Public Safety, 1319 East 15th Avenue. Parking regulations are enforced at all times. A city bus system connects the university with most community areas. For the past nine years, student fees have bought each student a pass that allows unlimited free rides.

- **Replacement of Photo I.D. Card:** $15
- **Returned Check:** $15. Charge billed to the writer of any check that is returned to the university by the bank. Exceptions are bank or university errors. If not paid within thirty days, a returned check may be subject to a fine of $100 to $500.
- **Senior Citizens:** There is no charge to Oregon residents 65 years of age and older. Oregon senior citizens who are neither seeking academic credit nor working toward a degree may attend classes if space is available. Charges may be made for any special materials. Incidental fee services are not provided.
- **Staff:** $15 per Credit plus Technology Fee. University employees are permitted to enroll in university classes with the approval of their department head. Employees may enroll at the staff rate for a maximum of 10 credits per term.
- **Family of Staff:** $15 per Credit plus Applicable Fees (e.g., building, health, incidental). Family members may enroll for a maximum of 10 credits per term.
- **Testing:** $3-$50
The university has an appeal process for students or parents contesting that individual circumstances warrant exceptions to published policy if circumstances of withdrawal or course-load reduction are beyond the student’s control. Petitions for exception to the refund policy may be obtained from the Office of the Registrar on the Oregon Hall second floor or from the Office of Academic Advising.

Transcripts. Students must submit a signed, written request to authorize release of their academic record. The mailing address is Transcript Department, Office of the Registrar, 5257 University of Oregon, Eugene OR 97403-5257.

The university reserves the right to withhold transcripts of students who have unpaid financial obligations to the institution. Debtors who are contesting their accounts should contact the collections department for counseling and instructions for a written appeal. The collections department is located in the Office of Business Affairs on the first floor of Oregon Hall. The mailing address is Collections Department, Office of Business Affairs, PO Box 3237, University of Oregon, Eugene OR 97403-0237; telephone (541) 346-3215.

Tuition and Fee Refunds

In the event of complete withdrawal from the university or a reduction in course load, refunds may be granted to students in accordance with the schedule on file in the Office of Business Affairs in Oregon Hall. Refunds may take from four to six weeks to process. All refunds are subject to the following regulations:
1. Refunds are calculated from the date the student officially withdraws from the university, not from the date the student ceased attending classes, except in unusual cases when formal withdrawal has been delayed through causes largely beyond the student’s control.
2. No refunds are made for any amount less than $3 unless a written request is made.
3. In case of complete withdrawal, students who received financial aid are responsible for repayment of that aid in accordance with the university’s financial aid repayment policy and schedule. See the UO Schedule of Classes for details.

For complete withdrawal, obtain withdrawal forms from the Office of Academic Advising, 364 Oregon Hall.

The university has an appeal process for students or parents contesting that individual circumstances warrant exceptions to published policy if circumstances of withdrawal or course-load reduction are beyond the student’s control. Petitions for exception to the refund policy may be obtained from the Office of the Registrar on the Oregon Hall second floor or from the Office of Academic Advising.

Student Financial Aid

Elizabeth Bickford, Director

(541) 346-3221
(800) 760-6953
260 Oregon Hall
http://financialaid.uoregon.edu

Financial aid in the form of scholarships, grants, loans, and employment is available at the University of Oregon to eligible students who need assistance to attend school. The Office of Student Financial Aid provides counseling and information services to students and parents and administers a comprehensive program of financial assistance.

Office hours are 8:00 A.M. to 5:00 P.M., Monday through Thursday, and 9:00 A.M. to 5:00 P.M. on Friday. Telephone service is available 8:00 A.M. to noon and 1:00-5:00 P.M., Monday through Thursday; 9:00 A.M. to noon and 1:00-5:00 P.M. on Friday.

Federal and state regulations are subject to change. Federal and state regulations are subject to change.

Tuition for resident and nonresident law students is listed in the School of Law catalog, available free from the University of Oregon School of Law.

The expenses in the following tables are used by the Office of Student Financial Aid to estimate a student’s educational costs for the 2001–2 academic year.

A transportation allowance is added to the budget of a nonresident student or a participant in the National Student Exchange.

Applying for Financial Aid

Undergraduate, graduate, and law students use the following procedure to apply for financial aid:
1. Complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Free Application for Federal Student Aid and mail it to the federal processor. Students may also apply at the FAFSA web site, http://www.fafsa.ed.gov.
2. List the University of Oregon, code number 003223, as a school to receive the application information.
3. Apply for admission to the University of Oregon.

Deadlines

To be given priority consideration for the Federal Perkins Loan, Federal Work-Study Program, and Federal Supplemental Educational Opportunity Grant for all or part of any given academic year, the application information from the federal processor must be received by the Office of Student Financial Aid on or before March 1 prior to the academic year for which the student is applying. To meet this deadline, mail the FAFSA or the Renewal FAFSA in early February. On-line applicants should mail the FAFSA signature page, obtained from the website, in early February.

Eligibility

Financial aid eligibility for any student is the difference between the cost of education at the University of Oregon and the anticipated financial contribution of the student’s family (a contribution from the student and parents if the student is a dependent; a contribution from student and spouse if the student is married). Students (and their families if appropriate) are expected to bear the primary responsibility for meeting educational costs for college.
costs. When a student’s expected contribution is
less than the cost of education, the university attempts to meet the difference with financial aid.

Assessing Financial Aid Eligibility
The university uses a method prescribed by
law to determine an expected contribution from the student and family toward the cost of the
student’s education. The expected family contri-
bution, derived from using the federal formula, is
based on income and asset information as well as
certain variables such as family size and number of
family members attending college. This system
ensures that students receive consistent and
 equitable treatment. Financial aid counselors
review unique circumstances for individuals.

Financial Aid Packages
After the student’s financial aid eligibility has
been established, the student receives an award
letter. The Office of Student Financial Aid attempts
to meet each student’s financial aid eligibility,
which could include scholarship and grant
money, work-study, and loan eligibility.
A student may not receive assistance from the
Federal Pell Grant, Federal Perkins Loan, Federal
Supplemental Educational Opportunity Grant,
Federal Work-Study Program, Oregon Opportu-
nity Grant, Federal Direct Stafford/Ford Loan, or
Federal Direct Parent Loan for Undergraduate Stu-
dents if:
1. The student is in default on any loan made
   from the Federal Perkins or National Direct
   Student Loan program or on a loan made,
   insured, or guaranteed under the Guaranteed
   Student or Federal Stafford/Ford Loan,
   Supplemental Loan for Students, or Parent
   Loan for Undergraduate Students programs
   for attendance at any institution
2. The student has borrowed in excess of federal
   (Title IV) loan limits
3. The student owes a refund on grants previously
   received for attendance at any institution
   under Federal Pell Grant, Supplemental Educa-
tional Opportunity Grant, Oregon Opportunity
   Grant, or Cash Award programs, or on a
   Federal Perkins Loan due to an overpayment
4. The student has been convicted of violating
   any federal or state drug possession or sale law.
A parent may not borrow from the Federal Direct
Parent Loan for Undergraduate Students if the
parent is in default on any educational loan
or owes a refund on an educational grant as
described above.
Federal law requires that male students born
after 1960 be registered with Selective Service in
order to receive financial aid.

Undergraduates
Federal Pell Grants, Oregon Opportunity Grants,
and university scholarships that are not from an
academic department are considered to be part of
the student’s financial aid package, although
the Office of Student Financial Aid does not
determine eligibility for these programs.

The Office of Student Financial Aid determines
the student’s eligibility for and the amount of
assistance from the Federal Perkins Loan, the
Federal Direct Stafford/Ford Loan, the Federal
Supplemental Educational Opportunity Grant,
the Federal Work-Study programs, and the
Oregon University System Supplemental Fee
Waiver as well as the university’s Technology Fee
Work Program.
Financial aid offers are made in accordance with
federal regulations and university policies. Some
awards are tentative if selected for verification
and may be revised after a review of federal
income tax forms.

Graduate and Law Students
The Office of Student Financial Aid determines
eligibility and the amount of assistance that may
be received from the Federal Perkins Loan,
Federal Direct Stafford/Ford Loan, the Federal
Work-Study programs, and the Oregon Univer-
sity System Supplemental Fee Waiver, as well as
the university’s Technology Fee Work Program.
Offers are made in accordance with federal
regulations and university policies.

Notification of Financial Aid
Financial aid award letters are mailed between
April 15 and May 1 to students who have sup-
plied the necessary information to the Office of
Student Financial Aid and the Office of Admis-
sions on or before March 1. Award letters are
mailed during the summer to students who have
supplied the necessary information between
March 2 and July 31.
When aid is accepted, the student (and spouse if
married) and the student’s parents (if applicable)
may be asked to provide the Office of Student
Financial Aid with documents, such as income tax
forms, to verify the information on the application.
Students should read the financial aid award let-
ter and instructions carefully. Acceptance must
be returned to the Office of Student Financial
Aid by the date specified on the document.
An explanation of revision and appeal policies
and procedures is included with the financial
aid award letter. A financial aid package may
be revised when a student’s eligibility changes. The
student receives a revised notification and, if
necessary, is advised of any repayment of aid.

The federal regulations covering financial aid
programs, the explanation of the federal method
of determining student and family contributions,
and the university policies and procedures for
offering financial aid are available in the Office
of Student Financial Aid. Students are welcome
to review them during office hours.

Financial Aid Programs
To be eligible for certain financial aid programs
that depend on federal or state funding, the
student must be a citizen of the United States or
in the United States for other than a temporary
purpose and with the intention of becoming a
permanent resident. Under some circumstances,
students who are citizens of the Marshall Islands,
the Federated States of Micronesia, or Palau may
receive some types of financial aid from the fed-
eral programs listed below. This is an eligibility
standard for the Federal Pell Grant, the Federal
Supplemental Educational Opportunity Grant,
the Federal Work-Study Program, the Federal
Perkins Loan, the Federal Direct Stafford/Ford
Loan, the Federal Direct Parent Loan for Under-
graduate Students, the Oregon Opportunity
Grant, and the university’s Technology Fee Work
Program, all of which are described below.

Federal Pell Grant
This program provides grants (funds that do not
require repayment) to eligible undergraduates,
who do not have a bachelor’s degree.
To be eligible for a Federal Pell Grant, a student
must be admitted to the university in a program
leading to a degree and enrolled in good standing.
The grant is reduced proportionately if the student
is enrolled less than full time (12 credits a term).
The Federal Pell Grant program determines eligi-
bility based on the student’s and parents’ income
and assets, or the student’s and spouse’s if appli-
cable. The university disbursesthe money.

Federal Supplemental Educational
Opportunity Grant (FSEOG)
Federal supplemental grants, which do not need
to be repaid, are for undergraduates with excep-
tional need. To be eligible, a student must be
admitted to the university in a program leading
to a degree and enrolled full time in good stand-
ing. The federal limitations on an FSEOG are a
minimum of $100 and a maximum of $4,000 an
academic year. The amount a student receives is
determined by university policy and fund avail-
ability.
FSEOG funds are granted to the university by
the federal government to award to eligible students.

State of Oregon Opportunity Grants
Oregon Opportunity Grants are awarded to
eligible undergraduate Oregon residents who
complete the FAFSA, the Renewal FAFSA, or the
on-line FAFSA. Need Grants for the 2000–2001
academic year were $1,224.
An Oregon Opportunity Grant may be renewed
for a total of twelve terms if the student applies
each year, demonstrates financial need, is en-
rolled full time (12 credits a term) in a program
leading to a degree, satisfactorily completes a
minimum of 36 credits per academic year, and
does not have a bachelor’s degree. An Oregon
Opportunity Grant may be transferred to other
eligible institutions in Oregon.

The Oregon Student Assistance Commission de-
termines eligibility and notifies the university. The
funds, which are provided by the state and federal
governments, are disbursed by the university.

Oregon University System
Supplemental Fee Waiver
Supplemental fee waivers were provided by the
Oregon University System to help offset instruc-
tional fees for 2000–2001. Limited funds may be
available in 2001–2 Oregon residents who
demonstrate the greatest financial need. Students
whose instructional fees are paid or waived by
other sources are not eligible to receive the waiver.

Federal Work-Study Program
The Federal Work-Study Program provides jobs
for students who qualify for financial aid and are
in good standing in a program leading to a
degree or certificate and enrolled at least half
time (6 credits a term).

The amount a student may earn is determined by
university policy and fund availability. Students
earn an hourly wage based on the kind of work
and their skills and experience. Students may work
a maximum of twenty hours a week while school is in
session.
University departments and offices and off-campus agencies that are nonprofit and perform services in the public interest list available jobs with Employment Services in the Career Center, 244 Hendricks Hall and from the center’s website. Funds are deposited with the university by the federal government to pay a portion of student wages; the remainder is paid by the employer.

**Technology Fee Work Program**

This is a university-sponsored program that provides part-time jobs on campus. Students must be eligible for financial aid and enrolled at least half time. They earn an hourly wage based on the type of job and their skills and experience. Students may work a maximum of twenty hours a week while school is in session. Availability of the program is subject to continued funding. Job openings are listed with Employment Services in the Career Center and on the center’s website.

**Federal Perkins Loan**

The Federal Perkins Loan Program provides long-term, low-interest loans to eligible students who are admitted to a program leading to a degree or certificate, have good academic standing, and are enrolled at least half time. The maximums that may be borrowed are $4,000 a year for undergraduates, up to a total of $20,000; $6,000 a year for graduate students; $40,000 combined total for both undergraduate and graduate study. The amount a student receives is determined by university policy and fund availability. Repayment of a Federal Perkins Loan begins nine months after the student ceases to be enrolled at least half time. The minimum repayment is $40 a month or $120 a quarter. The university bills quarterly throughout the year. The maximum repayment period is ten years. However, the actual amount of payments and the length of the repayment period depend upon the size of the debt. Interest is charged during the repayment period at the rate of 5 percent a year on the unpaid balance.

Repayment of a Federal Perkins Loan that is not delinquent or in default may be deferred if a borrower is enrolled at least half time in an eligible institution. A borrower of a Federal Perkins Loan may be eligible for other deferments for periods up to three years. For information about deferments write or call the Perkins Loan Office, Office of Business Affairs, 0237 University of Oregon, Eugene OR 97403-0237; telephone (541) 346-3171.

Repayment of a Federal Perkins Loan is canceled upon the death or permanent total disability of the borrower. In addition, repayment of the loan may be canceled, in full or in part, for public service. Information about cancellation provisions is available in the Office of Business Affairs. Federal bankruptcy law generally prohibits student-loan borrowers from the routine discharge of their debts by declaring bankruptcy within seven years after the repayment period begins.

Money available for Federal Perkins Loans is collected from former university borrowers to lend to eligible students. Disbursement, repayment, deferment, and cancellation are transacted with the Office of Business Affairs.

**William D. Ford Federal Direct Loan Program**

The University of Oregon participates in direct lending. Under this program, capital for student loans is provided by the federal government through colleges rather than by banks. The university is responsible for providing, collecting, and forwarding a signed promissory note to a contracted servicer. When loans are due, borrowers repay them directly to the federal government through the servicer. Borrowers are charged a loan fee of 3 percent of the principal.

**Federal Direct Stafford/Ford Loan**

Students must demonstrate need to qualify for a Federal Direct Stafford/Ford Loan. The university determines the amount the student may borrow. The federal government has set loan limits: $2,625 for the first academic year of undergraduate study (up to 44 credits); $3,500 for the second academic year (45–89 credits); and $5,500 an academic year for the remaining years of undergraduate study, up to an aggregate of $23,000. For graduate students the maximum is $8,500 an academic year, with a $65,500 combined total for both undergraduate and graduate study. Not all students are eligible for the maximums.

Student borrowers must be enrolled in good standing at least half time and have been accepted for admission to a program leading to a degree or certificate. Borrowers are charged a variable interest rate capped at 8.25 percent. The rate is adjusted annually on July 1. All Federal Direct Stafford/Ford Loan borrowers are eligible for this rate.

**Federal Direct Unsubsidized Stafford/Ford Loan**

This program provides unsubsidized federal direct loans to students who do not qualify, in whole or in part, for subsidized Federal Direct Stafford/Ford Loans. Interest rates are the same as for the Federal Direct Stafford/Ford Loan; however, the student must pay the interest that accrues during in-school, grace, and authorized deferment periods. Loan limits for dependent undergraduate students (which combine totals for both subsidized and unsubsidized loans) are the same as for the Federal Direct Stafford/Ford Loan.

**Additional Federal Direct Unsubsidized Stafford/Ford Loan**

Independent students and dependent students whose parents are denied access to the Federal Direct Parent Loan for Undergraduate Students (Federal Direct PLUS) program may be eligible for additional Federal Direct Unsubsidized Stafford/Ford Loan money. Students with fewer than 90 credits may borrow a maximum of $4,000 a year in addition to the Federal Stafford/Ford Loan limits. Students who have earned 90 credits or more may borrow a maximum of an additional $5,000 a year; graduate students, $10,000 a year in addition to the Federal Direct Stafford/Ford Loan. Not all applicants qualify for the maximums. The Federal Direct Unsubsidized Stafford/Ford Loan may be used to replace expected family contribution, but total direct loan (subsidized and unsubsidized) borrowing cannot exceed the cost of education.

**Federal Direct Parent Loan for Undergraduate Students (Federal Direct PLUS)**

This program provides loans to parents of dependent undergraduate students. Parents may borrow up to an annual amount that is equal to the cost of education minus any estimated financial assistance the student receives during the periods of enrollment. The borrower may use the amount of the Federal Direct PLUS to replace the expected family contribution for the loan period.

The Federal Direct PLUS is limited to parents who do not have an adverse credit history or who have obtained an endorser who does not have an adverse credit history. A direct loan program servicer, contracted by the federal government, performs the required credit check. The interest on the Federal Direct PLUS is variable, is charged 4 percent on the fifty-two-week to maturity bill plus 3.1 percent, and is capped at 9 percent. Borrowers are charged a 4 percent fee. Parents interested in participating in the Federal Direct PLUS program can obtain application information from the Office of Student Financial Aid.

**Repayment**

Repayment of Federal Direct Stafford/Ford Loans (subsidized and unsubsidized) begins six months after termination of at least half-time enrollment or graduation. Repayment of Federal PLUS loans begins within sixty days of the last disbursement. Borrowers have the right to prepay their loans without penalty. Furthermore, they may choose from the following repayment plans:

- a standard repayment plan with a fixed payment amount (at least $50 a month) over a fixed period of time, not to exceed ten years
- an extended repayment plan with a fixed annual repayment of at least $600 ($50 a month) over a period of twelve to thirty years depending on the total amount owed
- a graduated repayment schedule consisting of two or more graduated levels over a fixed or extended period of time
- an income-contingent repayment plan with varying annual repayment amounts based upon the total amount owed and the annual income of the borrower (and that of the borrower’s spouse, if a joint return is filed) paid over a period not to exceed twenty-five years. PLUS borrowers are not eligible for this plan
- if the borrower does not select one of these four plans, the Department of Education assigns one of the first three listed.

The borrower’s liability for repayment is discharged if the borrower becomes permanently and totally disabled or dies or if the student for whom a parent has borrowed dies. Federal Direct Student Loans are generally not dischargeable in bankruptcy.

**Deferring Repayment**

Repayment of a Federal Direct Student Loan that is not in default may be deferred for

- at least half-time study at an eligible school
- an approved graduate fellowship program or rehabilitation training program for disabled individuals (except medical internship or residency program)
- unemployment (up to three years)
- economic hardship (up to three years)

During periods of approved deferment, a Federal Direct Stafford/Ford Loan borrower does not need to make payments of principal, and the interest does not accrue. For the Federal Direct Unsubsidized Stafford/Ford or PLUS borrower,
The University of Oregon is committed to help-

The refund policy, procedures, and schedule are

sources. Students may also be required to pay the

strategies is available in the Office of Student

of the student’s federal direct loan.

Refunds and Repayment
Students who withdraw from school may be
expected to repay a portion of their financial aid.

Academic Progress
Students receiving financial aid are required to
maintain satisfactory academic progress. A full-
time undergraduate student must satisfactorily
complete a minimum of 12 credits a term. A full-
time graduate student must satisfactorily complete
a minimum of 9 credits a term (or a semester, for
a law student).

Students receiving financial aid must complete
their degree programs within a reasonable period
of time as established by the university.

Students may receive financial assistance as
undergraduates only as long as the cumulative
number of attempted credits, including any
transfer credits, is less than 150 percent of the
number required for the completion of the
bachelor’s degree (180 credits for four-year pro-
grams; 220, 225, or 231 credits for five-year pro-
grams). Students who want consideration for as-

Information concerning monitoring academic
progress and handling any deficiencies is pro-
vided to each student who is offered financial
aid from the Office of Student Financial Aid.

Scholarships Awarded through the
Office of Student Financial Aid
This group of university scholarships, not
attached to a particular department or school,
includes Presidential, Laurel, and general univer-
sity scholarships. Detailed information is avail-
able on the financial aid website. All of these
scholarships require academic achievement (merit). Some of them require financial need.
Scholarships administered by the Office of Stu-
dent Financial Aid are governed by the Univer-
sity Scholarship Committee, whose members are
drawn from the faculty and from the student
body. This committee reviews and formulates
policies and evaluates applicants’ academic
qualifications.

A single application form is used for all the schol-
arships in this group. Application and recom-
mendation forms are available in the Office of Student
Financial Aid and on the financial aid web site.
Applicants must provide copies of academic tran-
scripts from schools they have attended. The dead-
line for submitting a scholarship application and
other necessary documents is February 1 for the
following academic year. Prospective students
also must apply for admission to the University of
Oregon by February 1.

The university’s policy when awarding financial
assistance is to refrain from discrimination on the
basis of race, sex, religion, disability, age,
national origin, veteran or marital status, or
sexual orientation.

Presidential Scholarship: In 1983 the university
established the Presidential Scholarship Program to recognize and reward outstanding Oregon
high school graduates. The University Scholar-
ship Committee selects candidates to receive
scholarships in the amount of tuition and fees
plus a $450 book allowance for each of their four
years at the university. Selection is based on
academic achievement and leadership. To retain
the scholarships for four years, recipients are
expected to maintain a high level of academic
performance at the university.

National Merit Scholarships
The University of Oregon is the only public
institution in Oregon that sponsors the National
Merit Scholarship program. Several four-year
scholarships, ranging from $500 to $2,000 per
academic year, are awarded. Interested high
school students should consult their high school
counselors and arrange to take the Preliminary
Scholastic Assessment Test (PSAT) in their junior
year. This test is usually offered during October.
Target of Opportunity Laurel Award
In 1991 the UO Graduate School created the Target of Opportunity Laurel Award Scholarship to provide undergraduate students of color with incentives to attend graduate school and to support graduate students of color while they complete advanced degrees. Covering instructional fees only, these merit-based scholarships are open to full-time UO undergraduate and graduate students from an ethnic minority that reflects the UO Campus Diversity Plan. Undergraduates must have junior or senior standing with a minimum grade point average of 2.75. Graduate students must have a minimum grade point average of 3.00.

The application deadline each year is in late January or early February. For complete eligibility and selection information, call the Graduate School, (541) 346-5129, or the Office of Multicultural Affairs, (541) 346-3479.

Diversity-Building Scholarship
The University of Oregon Diversity-Building Scholarship recognizes undergraduate and graduate students who enhance the educational experience of all students by sharing diverse cultural experiences. These scholarships are an integral part of the university’s effort to meet the educational-diversity needs of its students, and they complement other programs in the UO Campus Diversity Plan.

This tuition-remission scholarship offers awards ranging from partial to full tuition and fee waivers. The amount of each award is determined by the UO Diversity-Building Scholarship Committee. Scholarships are renewable for up to fifteen terms for entering freshmen; twelve terms for transfer and continuing students, and nine terms for graduate students. Recipients must meet specific scholarship renewal requirements to retain their scholarships.

Scholarship Criteria. In order to be considered for this scholarship, applicants must be a United States citizen or permanent resident and be a currently enrolled UO student in good academic standing or apply for admission and meet standard UO admission requirements. Scholarship recipients are selected competitively by the UO Diversity-Building Scholarship Committee. Factors considered in the selection process include, but are not limited to (1) potential impact on the educational diversity of UO students; (2) commitment to diversity through documented history of community service, leadership or other activities; (3) educational background and performance as documented by official high school and/or college transcripts; (4) financial aid eligibility as determined by federal guidelines; (5) a personal statement submitted to the scholarship committee with the application; and (5) a letter of recommendation. Preference is given to members of an ethnic minority, to first generation and/or nontraditional students as defined by federal guidelines, and to Oregon residents.

Application. The application postmark deadline for the Diversity-Building Scholarship is February 1. Application forms are available in the Office of Financial Aid and on its website.

UO Loan Fund
The University of Oregon Loan Fund has been established through donations and bequests for the purpose of helping University of Oregon students continue their education. Information about available funds and questions about applications should be directed to the Office of Business Affairs. Loans are not disbursed between terms.

Each year the fund grows because of interest on loans or investments of available cash. The fund has short-term loans and UO Student Loans, which are long term.

Short-Term Loans
Under the short-term loan program, a maximum of $300 may be borrowed for thirty to ninety days. A small service charge is assessed on the loans.

To be eligible, borrowers must be enrolled, have no outstanding short-term loans, and have no current or past delinquent university accounts.

Available Loans
Donations and bequests have been made for use as loans to students. Special restrictions apply in some instances.

Unrestricted Funds
Unrestricted funds are considered to be part of the general loan fund and are disbursed according to the policies described above.

University of Oregon Mothers Endowment Grant Loan Fund
Women’s League Loan Fund
Restricted Funds
Funds with special restrictions are described below.

American Association of University Women
Emergency loans to women upon recommendation of the Office of Academic Advising, subject to university regulations.

American Association of University Women
Regular Student Loan Fund
Loans to be issued to women, subject to university loan rules and regulations.

Arthur and Marian Rudd Journalism Fund
Regular long-term loans are noninterest bearing during enrollment and charge 6 percent annual interest after the borrower leaves the university.

Charles Carpenter-Brice Busselle Loan Fund
Long- or short-term loans to be issued to full-time law students in accordance with university loan policy. Requires approval of the assistant dean of the School of Law.

Chemistry Loan Fund
Loans are disbursed upon recommendation of the head of the Department of Chemistry with the concurrence of the director of business affairs.

Class of 1896 Loan Fund
Loan preference is given to lineal descendants of the Class of 1896. Loans may also be given to other university students. Interest charged is usually 4 percent; trustees are sole judge of loan terms. Loan eligibility in accordance with university loan policy.

Coom Bay-North Bend Rotary Scholarship Fund
General fund available for short- or long-term loans to students in priority sequence of (1) 4-H scholar­ship students from Coos Bay, North Bend, or Coos River; (2) other students from Coos Bay, North Bend, or Coos River high schools; and (3) any worthy student.

Douglas and Myrtle Cassman Fund
Long- or short-term loans subject to university loan rules and regulations. Interest earnings may be used for scholarships.

Edith Kerns Chambers Scholarship Loan Fund
Loans not to exceed $500 to upper-division students maintaining a 3.00 GPA. Interest at the annual rate of 2 percent.

Eleanor Anderson Loan Fund
Noninterest-bearing loans approved by the Department of English and disbursed in accordance with university loan policy.

Eugene Mineral Club
Loans limited to registered geological sciences majors, $200 maximum. Applications must be approved by the head of the Department of Geological Sciences.

Foreign Student Fund
Loans to be issued to international students in accordance with university loan policy.
Fred and Elva Cuthbert Fund. Loans may be issued to married students in the fourth, fifth, or graduate year as majors in architecture or in art. No cosigners are required, and the maximum loan is $200. Loans are due within one year from the date of issue and are interest free if paid within four months after the date of issue. After the first four-month period, the interest rate is 3 percent. Loans must be approved by the dean of the School of Architecture and Allied Arts.

Gamma Alpha Chi Fund. Short- or long-term loans to women majoring in journalism. The approval of the dean of the School of Journalism and Communication is required.

Graduate Student Aid Fund. Loans of up to $200 maximum for graduate students. Applications are made through the Office of Student Financial Aid, and loans are issued in accordance with university loan policy.

Harold and Mildred Bechtel Fund. Long- or short-term loans to upper-division and graduate students.

Indian Student Loan Fund. Maximum loan is $50 for three months.

James Coyle Loan Fund. Loans of up to $2,000 for students from Wasco County, Oregon, for graduate courses in engineering, law, or economics at Harvard University or the University of California.

Jennie B. Harris Scholarship Loan Fund. Long- or short-term loans to regularly enrolled women students. Interest earnings are to be used for scholarships.

J. J. Walton Memorial Fund. Loans to be issued to law students in accordance with standard loan policy.

Law School Computer Loan Fund. Loans for law students based on need, for purchasing required computers. Loans up to $2,000 using the standard University of Oregon long-term loan policies and procedures.

Leroy Kerns Loan Fund. Loans to students in the School of Architecture and Allied Arts. Applications require approval by the dean of the school. Interest rate is 2 percent until graduation and 4 percent thereafter.

Lottie Lee Lamb Fund. Loans to be issued to women in librarianship.

L. S. Cressman Loan Fund. Loans are non-interest bearing and due four months from date issued. The loans are available to anthropology majors upon approval by the anthropology department head.

Luella Clay Carson Loan Fund. A general fund for long- or short-term loans to women.

Mary E. McCormack Music Loan Fund. Standard long-term loan fund for music students preparing for a life of religious work as singers and musicians. Applications must be approved by the dean of the School of Music. Interest is 6 percent while a student and 8 percent upon graduation.

Men's Emergency Loan Fund of the Class of 1933. Short-term loans to be issued only to men.

Minnie A. Morden Loan Fund. Loans to aid students who have completed their first two years of premedical study and who intend to specialize in internal medicine. Loans issued in accordance with university loan policy.

Miscellaneous Emergency. Loans not to exceed one year; interest at the same rate as charged on long-term student loans.

Oregon Journal Fund. Long-term loans for students who have a GPA of at least 2.50 in the School of Journalism and Communication. Borrowers must be recommended by the dean of the school. No interest charges while enrolled at the University of Oregon and no interest for two years after leaving the university. If any portion of the loan remains unpaid two years after a student leaves the university, the loan balance bears interest at the standard student loan rate of 9 percent.

Oscar Brun Civil Engineering Fund. Long-term loan funds for preengineering students progressing toward a civil engineering degree.

Panhellenic Emergency. Emergency loans to sophomores, juniors, or senior women not to exceed sixty days.

Phi Beta Alumnae Fund. Loans to students majoring in music or theater arts.

Phi Kappa Psi Gift. Loans for Phi Kappa Psi members with GPAs of 2.00 or better. Loans are due September 1 of the following year. Interest rate is 6 percent.

Ray Ellickson Memorial Fund. Loans, limited to graduate or undergraduate physics students, are approved by the head of the Department of Physics. Loans are for small amounts, $25 to $50, for short periods; university loan regulations apply.

Study Abroad Loan Fund. Loans to students in the study abroad programs. Loans of up to $2,500, repayable within 180 days, are managed through the Office of International Education and Exchange.

Susan Campbell Fund. Loans not to exceed $500 to upper-division students maintaining a 3.00 GPA. Interest at the annual rate of 2 percent.

Thomas Robert Trust. Loans to students not to exceed $200, with annual payments of 4 percent interest. Notes are due on or before five years after the date of issue.

University of Oregon Orchestra Loan Fund. Loans for payment of music fees. If no music fees, the purpose of loan fund is determined by the dean of the School of Music.

Employment Services

(541) 346-3214
Career Center, 244 Hendricks Hall
http://uocareer.uoregon.edu

Employment Services, part of the UO Career Center, provides job listings to students who want part-time or temporary jobs, work-study and technology-fee programs, and full-time job opportunities. All listings are available in 244 Hendricks Hall or on the Career Center's website.

A majority of UO students are employed in part-time work. Students who want part-time work should visit the website after determining class schedules. University students enjoy a well-deserved reputation with Eugene-Springfield employers as reliable, dependable, hard-working, and intelligent employees.

Part-time Job Opportunities. Openings in the community are usually available in the areas of clerical work, childcare, computer support, and general labor. Some jobs are continuing; others are limited to specific projects.

Federal Work-Study Program and Technology-Fee Work Program. These programs are for students who have applied for financial aid and have been awarded either federal work-study or the university's technology-fee work-study. Jobs are listed by type and by department. More information about the work-study and technology-fee programs is available in the Work-Study and Technology-Fee Manual on the website.

Other Sources of On-campus Employment. Resident assistants earn room and board in exchange for residence hall counseling and administrative responsibilities. Appointments are generally made by the end of April for the next year. Apply to University Housing, Walton Hall. Other areas for employment include dining halls, conference services, food service, housekeeping, and family housing.

Instruction and Research. Advanced students who want to be considered for positions as assistants in instruction and research should apply to the heads of their departments. Positions as graders are also handled by the departments or by individual instructors.

Library. Applicants should go to the library personnel office, 115B Knight Library.

Student Union. The EMU offers employment in the areas of childcare, food service, and maintenance; clerical work; and with the various student organizations.
Student Housing

Michael Eyster, Director
Office of University Housing

(541) 346-4277
Walton Complex
University Housing, 1220 University of Oregon,
Eugene OR 97403-1220
housing@darkwing.uoregon.edu
http://housing.uoregon.edu

The Office of University Housing supports the academic mission of the university by providing residence hall and family-student housing and related services. Family housing and university apartments are intended primarily for student families and nontraditional students. Adapted facilities are available for students who identify a need for accommodation on their applications.

University housing is committed to upholding the following statement: "The University of Oregon actively promotes cultural diversity and equal opportunity. We honor the humanity that joins us, and we celebrate the differences that distinguish us. University housing has the expectation that all residents will actively participate in creating welcoming communities that value all members without regard to race, color, sex, sexual orientation, national origin, age, religion, marital status, disability, or veteran status."

The following information describes university-owned housing and procedures for residence halls, family housing, and university apartments.

Residence Halls

The goal of university housing is to provide an environment suited to academic and personal growth in addition to room and board. University housing promotes the quality of life, which respects the rights of individuals and provides opportunities for personal growth and development through students' involvement with their communities.

The university maintains six residence-hall complexes, which house approximately 3,250 students in forty-five halls. Bean, Carson-Earl, Hamilton, and Walton are located on campus. The University Inn and Riley Hall are five blocks west of campus. All halls are coed. Floors are reserved alternately for men and women. Most halls house first-year and upper-division students together. Activities are held to introduce residents to one another and build community. All halls are nonsmoking. Study lounges, big-screen TV lounges, game areas, and laundry facilities are common features of the residence halls. The Student Recreation Center, basketball courts, tennis courts, and a sand volleyball court provide other recreational opportunities.

In the continued effort to help residents develop relationships centered on their academic pursuits, university housing offers the Faculty-in-Residence program and Residential Freshman Interest Groups (FIGs). Faculty-in-Residence pairs residence halls with faculty members, who plan activities and work closely with students during the school year. Residential FIGs are groups of approximately twenty-five freshmen who take fall term courses together based on their academic interests. Members of a FIG are guaranteed enrollment in three thematically linked courses; get a good start on fulfilling general-education requirements; make friends and find study partners, who may also be neighbors; receive faculty mentoring; and attend academic and social gatherings planned by student leaders.

Living in a special interest hall also can help residents develop relationships with people who have similar interests. Some choices include community service hall, creative arts hall, cyber hall, health and fitness hall, intensive academic hall, international hall, music hall, substance-free hall, and tradition hall.

Double-occupancy rooms are available in all halls, as are a limited number of single rooms. Rooms contain a bed, desk, chair, and closet for each resident and have a free connection to UONet, the Internet, local phone service, and basic cable TV service. Long-distance phone service is available through UO Telecommunication Services.

Dining Services

Residence halls have two meal plans. The standard meal plan, worth 80 points, can be distributed as the student chooses throughout the week. The premium meal plan, worth 95 points a week, is the other option.

Students may use their meal plans in several dining facilities. The dining centers in Carson Hall and the University Inn offer all-you-can-eat buffet-style dining. The Hamilton Complex houses Hammy's, a Fifties-style diner, and Grab-'N-Go, a convenience shop for on-the-go food selections. Residents may also dine at Pizzasieria in the Bean Complex or at Clancy Thurber's Underground in the Collier House. Five points purchases an all-you-can-eat meal in one of the dining centers, or individually priced items can be purchased at any of the other venues.

Residence Hall Costs

Students receive a monthly statement of their university account. Payments can be made by mail or at the Cashier's Office in Oregon Hall. Residents are billed by the term in monthly installments for room and board charges. Payments become delinquent after ten calendar days and interest accrues on unpaid balances.

Residence hall rates for 2001-2 are listed below. The rates include an annual $24 social and educational fee for programs to be determined by the residents in each unit. Fall term rates include the $250 prepayment.

University Inn

The University Inn, located at 1000 Patterson St., offers larger rooms, walk-in closets, private baths, and weekly cleaning of the private baths.

Reservations and Contracts

Students who have applied to the University of Oregon and who request one will receive the Residence Hall Preview and an application, which is mailed approximately two weeks after application to the university.

The housing application must be returned with a $30 nonrefundable fee. Applications returned by March 31 are guaranteed a space in the residence halls, and students are mailed a residence hall contract in April. Students whose housing applications are received after March 31 are mailed a housing contract on a rolling basis. Housing spaces are offered to these students based on the date the application is received and the number of spaces available.

Students must return an emergency-notification card, a signed housing contract, and a prepayment of $250 (for fall term) by the deadline date stated in the housing offer letter. Students who miss this deadline are placed at the end of the waiting list. In mid-August, students with a confirmed reservation receive an assignment package with information about their room, mailing address, phone number, roommate information, and check-in procedures.

Cancellations. Cancellations of reservations must be received in writing.

Contracts. Residents must sign a contract—the terms and conditions of occupancy—that explains rights, privileges, and responsibilities of residence hall occupancy. These terms are based on consideration for other residents, health and safety standards, and compliance with established laws and the university Code of Student Conduct. Failure to comply with the terms and conditions of occupancy may lead to eviction.

The contract is an agreement to live in the residence halls for the whole academic year, September 19, 2001, to June 14, 2002, or the remainder of the academic year, ending June 14, 2002, should move-in take place before or after the academic year begins. Students may be released from the housing contract for one of the following reasons: withdrawal, graduation, or participation in a university-planned educational program. Another option is to buy out the contract at a rate of $9 per day for the remaining days of the academic year.
### Calendar of Academic and Career Planning

**Gathering Career Information**

Students can find information about careers in the following resources:

- The career library has information on more than 40,000 career areas organized for easy exploration. The Career Center’s website provides links to career resources and opportunities, including 
  - Workshop: College to Career (CPSY 408), which discusses résumé writing, interview skill building, informational interviewing, and job search strategies.
Three national fraternities offer a traditional fraternity experience without providing housing: Alpha Epsilon Pi, Phi Sigma Kappa, Pi Kappa Phi.

Five fraternities emphasize leadership and scholarship by making their chapter houses substance free: Delta Sigma Phi, Delta Upsilon, Sigma Alpha Epsilon, Sigma Chi, Theta Chi.

Traditional fraternities are Beta Theta Pi, Chi Psi, Delta Tau Delta, Kappa Sigma, Lambda Chi Alpha, Pi Kappa Alpha, Sigma Nu, Sigma Phi Epsilon.

Nonuniversity Housing
The Rental Information Office provides a free service to help students rent off-campus housing. Listings of houses, duplexes, apartments, studios, quads, rooms and roommates, and cooperatives are posted on bulletin boards in Ground Floor Lobby East of the Erb Memorial Union. The Rental Information Office provides free model rental agreements, inventory and condition reports, the Roommate Survival Guide, and a courtesy telephone. Following are off-campus housing options.

Houses and Duplexes. This type of housing is probably the most difficult to find, especially near campus. Rents range from $500 to $2,500, depending on the number of bedrooms and proximity to campus.

Apartments. Apartments located close to campus typically have higher rental rates than those in the outlying areas of Eugene-Springfield. Following are average monthly rental rates for area apartments: one-bedroom, $395-525; two-bedroom, $525-700; and three-bedroom, $700 or more. Many of these apartments require nine- to twelve-month leases, refundable cleaning deposits or nonrefundable fees, or security deposits. Many do not allow pets.

Studios and Quads. A studio is a single-room apartment with private kitchen and bath facilities. Rents for studio apartments range from $325 to $495 a month. A quad is a single sleeping room with kitchen facilities shared with three other units. A quad may have either a private or a shared bathroom. Rents range from $300 to $395 a month during the fall-through-spring academic year, with reduced rates during the summer.

Rooms and Roommates. The most popular style of off-campus living is shared housing. Some students rent large apartments or houses and then rent out rooms or look for roommates. Many private homes offer rooms for rent. Shared housing costs range from $200 to $400 a month. Apartment availability and rates are subject to ever-changing market conditions. Students should contact the Rental Information Office a few months before they intend to arrive to get up-to-date information and advice about the rental situation in Eugene-Springfield.

When to Begin Looking. The best time to find housing for fall term is at the end of spring term, especially if a student needs inexpensive housing or has children or pets. If a student plans to share housing or live in a quad, it might be possible to wait until September.

For more information is available in the office on the ground floor of the EMU; by telephone, (541) 346-3731; or by mail, Rental Information Office, Erb Memorial Union, 1228 University of Oregon, Eugene OR 97403-1228.

Academic and Career Planning
Advising
The University of Oregon offers undergraduate students a choice of more than 2,000 courses. Out of these courses individualized programs emerge, reflecting each student's special interests, goals, and aspirations. Translating these goals and interests into courses, majors, and minors requires careful planning. For this reason, students must seek the assistance of academic advisers and may not complete their first term's registration without discussing options with an advisor.

The importance of program planning cannot be overemphasized. A sound academic program indicates a growing intellectual maturity and sharpening of focus. A poorly planned program demonstrates the lack of clear direction.

The faculty adviser provides the student with an intellectual framework in which intelligent planning and decision-making can be completed, so students are strongly urged to consult advisers regularly. The university considers advising an extension of teaching and regards it as a primary responsibility of faculty members, who schedule time each term especially for advising.

Students who have declared majors are assigned to faculty advisers in their departments. The Office of Academic Advising coordinates advising for students who have not declared majors and for those interested in law and health professions.

General Principles in Program Planning
1. To earn a degree in four years (twelve terms), students should average 15 credits a term. In planning a term's studies, students should anticipate that each credit requires at least three hours a week for class meetings or homework.
2. Each term's schedule should be planned to include the university bachelor's degree requirements and requirements for the major. Major requirements are listed in this catalog under the academic department headings. Students who have not selected a major should spend some time exploring possible majors.
3. Students should read the course descriptions in this catalog and the notes in the UO Schedule of Classes to learn course prerequisites.
4. Many university major disciplines and courses require competence in mathematics. Mathematics should be started in the freshman year.
5. A second language, whether required or elective, should also be started in the freshman year if possible. Students planning to study abroad on an international exchange program during the sophomore or junior year should achieve competence in a language early.
6. Each student should prepare a four-year model program of courses and discuss the program with the assigned departmental faculty adviser.
7. New students might want to explore some special curricular programs: Freshman Interest Groups, Transfer Interest Groups, Freshman Seminars, Pathways, Freshman Honors Colloquium, the Clark Honors College. These courses and programs should be investigated early during the first year.
8. It takes sound planning to design a program that combines courses demanding extensive reading, daily exercises, laboratory work, and lengthy papers.
9. Planning might also include the use of university resources for improving skills in reading, computation, note taking, test taking, and writing.

Academic Majors, Minors, and Careers
University of Oregon undergraduate students must complete at least one academic major to graduate. A minor is another way to focus studies toward career and interest areas. Inquiries about minors should be directed to specific departments. Faculty advisers in the respective departments are the best sources of information about majors and minors.

Career Planning
Career Center
Hendricks Hall, Second Floor
http://uccareer.oregon.edu/

Career Assessment Services
To assist students in career planning, the Career Center offers a website worksheet to track skill development; internships; workshops on job-search strategies, résumé writing and interviewing; job fairs; Campus Interview Program; and job-opportunity listings for part-time, summer, and full-time employment.

Establishing Goals
Setting clear and achievable goals for the college years is very important. Realistic goals include selecting a major near the start of the second year; participating in internships or volunteer work, especially during the junior year; and graduating in four years. It is also important to identify personal skills—such as critical thinking, communication, self-management, and teamwork—that need to be strategically strengthened.

Identifying a Career
Although the availability of immediate employment is important in choosing majors and careers, it should not be the only consideration. Students should determine if their strengths are being used and developed in the major field they have chosen and if their interests lie in that field.

Assistance in determining both strengths and interests is available to students from a variety of sources.

By enrolling in basic, introductory-level courses, students can learn much about their performance and interests.

Career Assessment Program. The program uses inventories to clarify interests, skills, work-related values, and work environment preferences. A counselor helps interpret the results.

Special Studies: Career Exploration (CPSY 199). Similar inventories are used to help participants make career and educational decisions. Students learn how to gather career information in a supportive learning environment.

Special Problems: Career Decisions (CPSY 406). Juniors and seniors who seek in-depth knowledge of themselves and career paths participate in...

Advanced Degrees and Certificates
Through the Graduate School, the University of Oregon offers studies leading to advanced degrees in the liberal arts and sciences and in the professional fields of architecture and allied arts, business, education, journalism and communication, and music. Program offerings are listed below. The advanced degree or certificate granted is noted next to the degree program. Where no degree is listed, the subject is an area of focus within the college, school or department. For information about law degrees, see the School of Law section of this catalog.

Specific program requirements for the majority of these degrees appear in the departmental sections of this catalog; general requirements of the Graduate School are stated in this section.

Graduate Studies
Richard Linton, Vice President for Research and Graduate Studies and Dean of the Graduate School
Graduate students working toward an advanced degree must be enrolled continuously until all requirements for the degree are completed (see Continuous Enrollment). Furthermore, those using faculty assistance, services, or facilities must register each term for at least 3 graduate credits to compensate for usage. This includes students who are taking only comprehensive or final examinations or presenting recitals or terminal projects.

In the term in which a degree is granted, the student must register for at least 3 graduate credits. If the student is completing a master's degree thesis in this final term, registration must include 1 to 3 credits of Thesis (603). If a doctoral dissertation is being completed, registration must include no fewer than 3 credits of Dissertation (603).

Students living elsewhere while writing a thesis or dissertation and sending chapters to an advisor for criticism must register for a minimum of 3 graduate credits a term; they should register for thesis or dissertation credits.

Various on- and off-campus agencies and offices have their own course-load requirements. For example, some agencies offer student loans that require registration requirements. The Office of the Registrar can certify a student's registration only for the credits indicated on an official registration card. Because the minimum registration requirements for the Graduate School may not satisfy some agency requirements, it is the student's responsibility to register for the required number of credits.

Course Enrollment for Faculty and Staff Members
Faculty and staff members who want to take graduate courses should refer to the university's Faculty Handbook or Staff Handbook for information about regulations and fees.

Faculty members may not pursue an advanced degree in the department in which they hold an appointment. To pursue a degree in another department, they must submit a petition to the dean of the Graduate School for approval.

Joint-Campus Program
Graduate students at the university may, with adviser and departmental approval, take graduate courses at any of the other institutions in the Oregon University System. A student registers for these courses with the University of Oregon registrar, who records each grade on the academic record. The minimum registration requirements for the Graduate School may not satisfy some agency requirements, it is the student's responsibility to register for the required number of credits.

Grade Requirements
Graduate students must maintain at least a 3.00 grade point average (GPA) in graduate courses taken in the degree program. Grades of D+ or lower for graduate courses are not accepted for graduate credit but are computed in the GPA. Similarly, the grade of N (no pass) is not accepted for graduate credit. A grade of pass (P) must be equal to or better than a B-.

A GPA below 3.00 at any time during a graduate student's studies or the accumulation of more than 5 credits of N or F grades—regardless of the GPA—is considered unsatisfactory. The dean of the Graduate School, after consultation with the student's home department, may drop the student from the Graduate School, thus terminating the student's degree program.

Other Graduate Classifications
A student not seeking a graduate degree may be classified as a graduate student doing graduate-level work as follows:

- postbaccalaureate
- premaster's
- postmaster's
- postdoctoral
- nonadmitted Community Education Program
- nonadmitted summer session

Credits earned in these classifications are recorded on the student's transcript. Up to 15 graduate credits earned under one or more of the above classifications may later be counted in a master's degree program if endorsed by the school or department and approved by the Graduate School. (This is within the 15-credit maximum of transfer credits to a 45-credit master's degree program.) Approved credits may be used to meet relevant university degree requirements.

I and Y Marks
Graduate students must convert a graduate course incomplete (I) into a passing grade within one calendar year of the assignment of the incomplete.

Students may request more time for the removal of the incomplete by submitting a petition, stating the course requirements that were not initially completed and signed by the instructor, to the dean of the Graduate School for approval. Requirements for additional time include but are not limited to enrollment in a current term, adherence to the seven-year time allocation, and a minimal remaining quantity of work. This policy does not apply to incompletes assigned after the instructor submits a final grade report to the Office of the Registrar. Incompletes that remain on the academic record after the degree is completed may not be removed.

Graduate students may not convert a mark of Y (no basis for a grade) unless the Y was the result of an administrative error.

Continuous Enrollment
Unless on-leave status has been approved, a student enrolled in an advanced degree or graduate certificate program must attend the university continuously until all program requirements have been completed. The student must register for 3 graduate credits each term, excluding summer session, to be continuously enrolled.

On-Leave Status
A student interrupting a study program for one or more terms, excluding summer session, must register for on-leave status to ensure a place upon return. Only graduate students in good standing are eligible.

The Graduate School must receive the application by the last registration day in that term, as noted in the schedule of classes. On-leave status is granted for a specified time period that may not exceed three academic terms, excluding summer session. Students with on-leave status need not pay fees. However, students must register and pay fees if they will be using university facilities or faculty or staff services during that term.

A master's degree student who attends the university only during summer session must obtain on-leave status for each ensuing school year. These summer students must complete all degree requirements within the seven-year time limit.

Master's degree candidates, except summer-only students, may apply for a maximum of three academic terms of on-leave status during the course of study for the degree. Doctoral candidates may apply for a maximum of three academic terms prior to advancement to candidacy, and they may apply for a maximum of three academic terms of registration in absentia after advancement to candidacy. See Continuous Enrollment under Doctoral Degrees.

Permission to Reregister
A graduate student who fails to maintain continuous enrollment or obtain on-leave status is required to file a Permission to Reregister petition in the Graduate School. The petition is reviewed by the student's home department and the Graduate School. This procedure is equivalent to a new admission, and the petitioner may be required to meet departmental admission policies and degree completion requirements that are in effect on the date of reenrollment.

Review of the reenrollment form may result in a change of residency status from resident to non-resident. More information is available from the residency and admission officer in the Office of Admissions.

When reregistration is approved, a master's candidate must register for 3 credits for each term he or she has stopped out. If the accumulated credits
Graduate Classification
Students seeking certificates or advanced degrees are classified as follows:
- Graduate postbaccalaureate
- Graduate premaster's
- Graduate conditional master's
- Graduate master's
- Graduate postmaster's
- Graduate conditional doctoral
- Graduate doctoral
- Graduate postdoctoral

A student from an unaccredited institution, or one that offers the equivalent of bachelor's degree instruction but not the degree itself, may be considered for admission under special procedures. More information is available from the Graduate School.

The university's schools and departments determine their own specific requirements for graduate admission. Students should become familiar with these requirements before applying.

Initial admission may be either conditional or unconditional. If a conditionally accepted student has not been granted unconditional admission after the completion of 36 credits of graduate course work, the Graduate School may ask why and recommend that a decision on the student's status be made as soon as possible.

A former University of Oregon student must be admitted formally to the Graduate School in the same way as a student from any other college or university. A student who has been admitted and wants to change his or her major must be accepted by the new department. Filing a Change of Major form and any official documents the new department requires accomplishes this change.

Students must pay a nonrefundable $50 fee when applying for admission. Applicants should address inquiries about graduate admission to the department or school in which they plan to study, not to the Graduate School or to the Office of Admissions.

Application Procedure
Students seeking admission to the Graduate School must submit an application on an official university application form. The first copy of the application form, the fee, and official transcripts from all colleges or universities from which the student has received a bachelor's or advanced degree must be sent to the Office of Admissions.

The remaining copies of the application form and official transcripts of all college work, both undergraduate and graduate, must be sent to the department or professional school of the university in which the applicant plans to study.

At the option of the school or department, the applicant may be asked to furnish additional materials such as transcripts of test scores (e.g., Graduate Record Examinations, Miller Analogies Test), evidence of foreign-language proficiency, and letters of reference. The applicant should ascertain from the school or department what additional materials, if any, are expected and send them directly to the department.

Admission for Graduate Postbaccalaureate Study. An applicant with a bachelor's degree or the equivalent from an accredited institution who wants to take graduate course work, but does not intend to pursue a specific graduate degree, must submit the official application form and an official transcript from the college or university from which he or she received either the bachelor's degree or a subsequent advanced degree to the Graduate School. (University of Oregon graduates do not need to send an official transcript to the Graduate School.) Graduate postbaccalaureate status is a nondegree classification. A satisfactory record is a major influence in allowing reenrollment. Credits earned by postbaccalaureate students are recorded in the Office of the Registrar. For more information see Other Graduate Classifications below under General Requirements and Policies.

International Students
Applicants who are not United States citizens or immigrants are considered for admission to the university as international students.

Proficiency in the English language is vital to the academic success of international students. Students whose native language is not English must supply results of the Test of English as a Foreign Language (TOEFL) as part of the application process. Each school or department determines its own specific TOEFL requirements (500 or higher) and application deadlines for graduate admission. The TOEFL is given worldwide. For more information write to TOEFL, PO Box 899, Princeton NJ 08540, USA. If a student has been admitted to the university with a score between 500 and 574, the student must take an additional English-proficiency test after arrival on campus. If the score on the English-proficiency test indicates that additional training is necessary, the student must enroll in special English classes. For more information about the Academic English for International Students (AEIS) and its cost, write to the AEIS Adviser, Office of International Education and Exchange, 5209 University of Oregon, Eugene OR 97403-5209, USA.

International students who want English training before beginning their studies at the University of Oregon or another university in the United States may enroll in the American English Institute. For more information write to the American English Institute, 5212 University of Oregon, Eugene OR 97403-5212, USA.

International students must carry health and accident insurance for themselves and their dependent family members living in the United States. Students' insurance policies must meet the minimum University of Oregon health insurance requirements. These requirements may be met by purchasing the health insurance sponsored by the Associated Students of the University of Oregon. This plan may be purchased during the registration process. Questions about the minimum requirements should be directed to the International Student Adviser, Office of International Education and Exchange, 5209 University of Oregon, Eugene OR 97403-5209; telephone (541) 346-3206.

Course Numbering System
500-599 Courses that offer graduate-level work in classes that include undergraduate students
600-699 Graduate courses for graduate students only
700-799 Except in the School of Music, courses of a highly technical nature that count toward a professional degree only, not toward advanced academic degrees, such as an M.A., M.S., or Ph.D. Both 600- and 700-level courses with the MUP subject code denote graduate courses that apply toward advanced academic degrees in the School of Music.

503, 507, 508, 510, 601-610, 704-710 Graduate and professional courses that may be repeated for credit under the same number. Credit ranges indicate the minimum and maximum number of credits available for a single course during a single term. Credit is assigned according to the workload in a particular course. Some departments have established different credit ranges from those given below. The following generic numbers are reserved for special types of work. Credit ranges vary. Except in the School of Law, courses numbered 503, 601, 603 are offered pass/no pass only.

503 Thesis
507 Seminar: [Topic]
508 Workshop: [Topic] or Laboratory Projects: [Topic] or Colloquium: [Topic] or Special Topics: [Topic]
510 Experimental Course: [Topic]
601 Research: [Topic]

605 Reading and Conference: [Topic]
606 Field Studies: [Topic] or Special Problems: [Topic]
607 Seminar: [Topic]
608 Workshop: [Topic] or Colloquium: [Topic] or Special Topics: [Topic]
609 Practicum: [Topic] or Supervised Tutoring or Terminal Project
610 Experimental Course: [Topic]
704 Internship: [Topic]
705 Reading and Conference: [Topic]
706 Field Studies: [Topic] or Special Problems: [Topic]
707 Seminar: [Topic]
708 Workshop: [Topic] or Colloquium: [Topic] or Special Topics: [Topic]
709 Practicum: [Topic] or Supervised Tutoring or Terminal Project
710 Experimental Course: [Topic]

General Requirements and Policies

Course Registration Requirements and Limits
A graduate student may register for up to 16 credits of graduate or undergraduate course work fall through spring terms. Registration in excess of this level, up to a maximum of 18 credits, requires payment of additional fees for each extra credit. During summer session graduate students are limited to a maximum of 12 credits. Minimum registration is 3 graduate credits a term.

International students should request information from the Office of International Education and Exchange about Immigration and Naturalization Service regulations and minimum credit requirements.
family can contribute toward these expenses. See the Student Financial Aid section of this catalog for information about available aid and application procedures.

International Students. International students may work on campus during the school year but should not expect to work off campus. Those who hold student (F-1) visas are expected to have sufficient funds for the period of their studies. Their dependents are not usually allowed to work. However, if it is necessary for a dependent to work, students should write for assistance to the Office of International Education and Exchange, 5209 University of Oregon, Eugene OR 97403-5209, USA.

International students are eligible for the departmental teaching and research fellowships described above.

Master's Degrees

Master's degree candidates must fulfill the requirements of the Graduate School, which are listed below, and the additional requirements set by the school or department in which the degree is to be awarded. Consult the departmental sections of this catalog for these requirements.

Credit Requirements

To earn a master's degree, students must complete an integrated program of study through either a departmental discipline or a program of interdisciplinary studies totaling no fewer than 45 credits in courses approved for graduate credit. Of the total, 24 must be in University of Oregon graded courses passed with a grade point average (GPA) of 3.00 or better.

As noted above, some departments require more than 45 credits. The credits must be taken after admission to the master's program (conditional or unconditional) or approved by petition. A minimum of 30 credits in the major are required for a master's degree with a departmental major. In addition, at least 9 credits in courses numbered 600-699 must be taken in residence.

Students working toward a 45-credit master's degree with thesis must register for a minimum of 36 credits of course work and 9 credits of Thesis (503). Credit for thesis is given pass/no pass.

Second Master's Degree

Students who earned the first master's degree from the University of Oregon may receive a second master's degree in another field by taking at least 30 graduate credits, of which 24 must be in courses taken for letter grades, after official admission as a master's degree candidate in the new major at the university. (This provision does not apply to a second master's degree in the Interdisciplinary Studies: Individualized Program [IS:IP].) Although the second master's degree may be permitted with reduced credits, complete records of the student's graduate-level study must reflect the equivalent of all requirements for completion of the degree as described in the University of Oregon Catalog. Schools and departments may require more than this 30-credit minimum or deny the request. If the first master's degree is from another institution, the second master's degree program must comply with the standard university master's degree requirements (a minimum of 45 credits). A Concurrent Master's Degree form is available in the Graduate School.

Time Limit

Students must complete all work for the master's degree within seven years, including transferred credits, thesis, the language requirement for an M.A., and all examinations.

Residency and Enrollment Requirements

For a master's degree, the Graduate School requires that a minimum of 30 credits (applicable to degree requirements) be taken on the Eugene campus during at least two terms of study. A second master's degree also requires a minimum of two terms of full-time study on the Eugene campus. Individual schools or departments may have additional residency requirements. For example, the master of fine arts degree in studio arts has a residence requirement of two academic years (six terms).

Students enrolled in an advanced degree program must attend the university continuously, except for summers, until all program requirements have been completed, unless on-leave status (maximum of three academic terms) has been approved. In the term the degree is received, the graduate student must register for at least 3 graduate credits. For more information see Course Registration Requirements and Limits, Continuous Enrollment, Graduate Residency, and On-Leave Status under General Requirements and Policies.

Transferred Credit

Graduate Credit. Graduate credit earned while a graduate student in another accredited graduate school may be counted toward the master's degree under the following conditions:

1. Total transferred credits may not exceed 15 credits in a master's degree program.
2. The courses must be relevant to the degree program as a whole.
3. The student's home department and the Graduate School must approve the transfer.
4. The student must have a minimum GPA of 3.00 in the last three terms of work. A grade of A+, A, A-, B+, B, or P is required. The grades earned must be A+, A, A-, B+, B, or P.

Transferred credit may not be used to meet the requirements for another degree.

Examinations and Thesis

Option 1. Include the course in requirements for the bachelor's degree (500-level course only)

Option 2. Reserve the course as graduate credit for consideration by a department after admission as a graduate student

Registration in a graduate-level course is available only to senior-level students with at least a 3.00 GPA in the last three terms of work. A student may take a maximum of three graduate courses while classified as an undergraduate.

Credits in Research (601); Supervised Teaching (602); Internship (604); Reading and Conference (605); Field Studies or Special Problems (606); Workshop, Special Topics, or Colloquium (598 or 698); and Practicum, Terminal Project, or Supervised Tutoring (609) do not qualify.

Transfer of Reserved Graduate Credit. Undergraduates who have passed graduate-level courses that have been approved in Option 2 of the Reservation of Graduate Credit process may apply up to 12 credits toward a master's degree (within the overall 15-credit maximum for transfer credit).

Work in courses taken for letter grades (mid-B or better) and P/N courses, if accompanied by the instructor's statement that the passing grade was equal to a mid-B or better, is eligible for consideration. If approved, these courses can be used to satisfy relevant university master's degree requirements. A Transfer of Reserved Graduate Credit form (available at the Graduate School) must be filed within two terms of acceptance into a master's degree program and within two years of earning the bachelor's degree.

Other University of Oregon Transferred Credit. A maximum of 15 graduate credits earned at the University of Oregon while classified as a graduate postbaccalaureate student, a nonadmitted graduate student enrolled in the community education program or in summer session, or a graduate-certification student may later be counted toward the master's degree (see Other Graduate Classifications and Policies) pending school or department endorsement and Graduate School approval. This is within the overall 15-credit maximum for transfer credit to a 45-credit master's degree program. Grades earned must be A+, A, A-, B+, B, or P.

Distinction between M.A. and M.S. Degrees

Students pursuing an M.A. degree must demonstrate competence in a second language. The minimum requirement is the same as that for fulfilling the second-language requirement for the bachelor of arts degree. (See Requirements for the Bachelor of Arts in the Registration and Academic Policies section of this catalog.) The student's major department may establish a higher level of proficiency or a different method of determining that level. Language competence must be demonstrated within the overall seven-year limitation for completion of a master's degree. There is no language requirement for the M.S. and professional advanced degrees unless the department so specifies.

Examinations and Thesis

The student's major school or department may require qualifying, comprehensive, or final examinations or any combination of these. The
total more than 16, the student may be required to enroll in more than one term of increased registration. Doctoral candidates must register for a new year of residency—three consecutive terms of at least 9 graduate credits in each term. They must also retake the comprehensive examinations if completed prior to stopping out.

Graduate Residency
Each graduate degree at the University of Oregon has a residency requirement, which must be fulfilled by every graduate student who completes that degree. The residency requirement allows graduate students to concentrate exclusively on course work or research; to acquire knowledge, skills, and insights necessary for attaining the degree; and to find opportunities to work closely with faculty members and students. Residency provides significant and tangible advantages to graduate students because it enhances the quality of the academic experience. For example, competence in a field is enhanced by close familiarity with the university's libraries, computing resources, specialized collections, and other unique facilities; valuable experience is gained by attending and participating in formal and informal seminars, colloquia, and discussions led by specialists who visit campus; fluency in the specialized language and vocabulary of the discipline is enhanced by frequent and close association with faculty members and other students in the same field; and thesis or dissertation research is facilitated by frequent interaction with the adviser.

Academic programs in which the majority of course work is delivered away from the Eugene campus or by distance-education technology must obtain prior written approval for waiver of the residency requirement from the dean of the Graduate School. Waiver of the residency requirement is dependent on the program's plans for satisfying the spirit of the residency requirement in the absence of full-time study on the Eugene campus.

Waiver of Regulations
Graduate students may file a petition requesting exemption from any academic requirement. The Graduate School then reviews the educational purpose the regulation in question was designed to serve. Petitions are seldom granted if the only reason given is to save the student from inconvenience or expense.

Graduate School petition forms are available in department, school, and Graduate School offices.

Student Records Policy
Copies of the policy may be obtained at the Office of the Dean of Student Life and the Office of the Dean of the School of Law. The following is a summary of that policy.

Students enrolled in the university generally have the right to inspect records maintained by the university that directly affect them. The university maintains only student records relevant to the educational or related purposes of the university and does not release those records to anyone other than the student except to university personnel who have legitimate interests, at the direction of a court, or in emergency situations. Upon request the university releases directory information about the student, but the student may ask that such information not be released.

The student may request the correction of errors in university records and is also entitled to a hearing, if necessary. Students may review letters of recommendation received after December 31, 1974, unless they have waived that right with the appropriate university department.

Application for a Degree
The application for degree must be filed in the Graduate School by the second week of classes in the term of graduation. All grade changes, removal of incompletes, and transfer work necessary to complete degree requirements must be filed with the Graduate School the term prior to the term of graduation. Corrections to an academic record can be made only during the thirty days following the granting of a degree.

Graduate Tuition, Fees, and Financial Aid
Tuition and Fees
All fees are subject to change by the Oregon University System. The tuition schedule for graduate students each term of the 2000–2001 academic year was as follows:

Authors of doctoral dissertations must submit the dissertation to University Microfilms International in Ann Arbor, Michigan. Copyright registration is optional. Consult the University of Oregon Style and Policy Manual for Theses and Dissertations, available on the Graduate School website.

Fellowships and Financial Aid
One purpose of scholarship and fellowship support provided by the UO Graduate School is to enhance the diversity of the graduate student population by seeking talented students from groups historically underrepresented in graduate education. Broadening the talent pool from which graduate students are chosen enriches the educational and scholarly activities of all students and faculty members and is good academic practice. By bringing diverse individuals together to engage in intellectual activities, graduate programs engender respect for intellect, regardless of source, and help to build a community whose members are judged by the quality of their ideas.

At the University of Oregon, financial aid is available through graduate teaching and research fellowships (GTFs), training grant stipends, scholarships, work-study, loans, and part-time jobs. GTFs are available to qualified graduate students who are enrolled in the Graduate School and have been admitted to an advanced degree program. Inquire at the department for specific application deadlines. Fellowship awards are made based on the student's potential as a graduate student. Graduate teaching assistants and research assistants are represented by the Graduate Teaching Fellows Federation (GTFF), American Federation of Teachers, Local 3544. Recruitment and selection follow established published procedures from departments and the provisions of the GTFF contract. Details of appointment procedures are available from the departments of instruction. Reappointment is subject to departmental policy but is always contingent upon making satisfactory progress toward the degree.

Teaching Fellowships. Nearly all schools and departments award GTFs. For 2000–2001, minimum-level stipends at 0.49 full-time equivalent (FTE) range from $8,347 to $9,958 for the academic year. The minimum appointment is a 0.20 FTE position. GTFs must be enrolled in an advanced degree program and must register for and complete a minimum of 9 graduate credits a term. Audit credits do not count. Tuition for up to 16 credits a term, health insurance, and a portion of the fees are paid by the university. Failure to complete the minimum of 9 credits a term may nullify an appointment.

Nonnative speakers of English who accept teaching-related GTF positions must submit a score for the Test of Spoken English (TSE) or the Speaking Proficiency Assessment Kit (SPEAK) to the Graduate School. Individuals scoring below 50 on the TSE or 230 on the SPEAK test must attend language support classes (at no additional charge to the student) and may be limited in the activities they carry out as GTFs. The TSE is available at many Test of English as a Foreign Language (TOEFL) testing sites. If a TSE score is not submitted to the Graduate School before arrival on campus, the student must take the TSE test at the University of Oregon before the first term of appointment. The test fee is $35.

Research Fellowships. A number of departments and schools employ graduate students to work on research projects under the supervision of faculty members. Funds come from research grants and contracts. Stipends and tuition policy are the same as for graduate students with teaching fellowships. These fellowships may be extended through the summer, thus increasing the total stipend. In addition, some departments have federally supported training grants and consider fellowship applicants for support through these resources.

Fellowships from Other Sources. Graduate students are sometimes eligible for fellowship awards granted by federal agencies and private foundations. The graduate funding center, located in the Graduate School, maintains a database of sources of funding for graduate study as well as for dissertation and postdoctoral research. The center also houses several publications that describe programs that fund graduate education. This is a self-service resource area. The graduate funding coordinator is available for consultation by appointment. More information is available from the Graduate School.

Postdoctoral Fellowships. The University of Oregon participates in several postdoctoral fellowship programs and provides facilities for postdoctoral study under faculty supervision. More information is available from individual schools and departments.

Other Financial Assistance. Some forms of financial aid depend on financial need, defined as the difference between the cost of attending an institution and the amount the student or
Doctoral Degrees

Doctor of Philosophy
The degree of doctor of philosophy (Ph.D.) requires distinguished achievement in both scholarship and original research. The degree is granted chiefly in recognition of the candidate's high attainment and ability in a special field of an academic discipline, as shown by work on required examinations and by the preparation of a dissertation. Minimum university and school or department requirements of residence and study must be satisfied. The requirements for Ph.D. degrees established by the Graduate School are given below. Individual programs have additional specific requirements, which are presented in the departmental sections of this catalog. It is recommended that a student not take all undergraduate and all graduate work at the University of Oregon.

Residency and Credit Requirements
For the Ph.D. degree the student must complete at least three years of full-time graduate-level academic work beyond the bachelor's degree. At least one academic year—the residency year—must be spent in residence on the Eugene campus after the student has been classified as a conditionally or an unconditionally admitted student in a doctoral program. During this year of residency the student is expected to make progress toward the degree by completing course credits and satisfying doctoral degree requirements. The residency year consists of three consecutive terms of full-time study, with a minimum of 9 completed graduate credits in the student's major. Research (601) may be a part of the 9 credits.

A doctoral candidate may fulfill the residency requirement during the period in which he or she works toward a master’s degree on the university campus as long as the student has been officially awarded the master's degree, the doctoral degree program immediately follows the master's degree program, and both the master's degree and the doctoral degree are in the same discipline.

Students working toward a Ph.D. or professional doctorate must register for a minimum of 18 credits in Dissertation (603). Credit for Dissertation is recorded P/N (pass/no pass). See Dissertation Registration for more information.

Language Requirement
Individual schools or departments may require knowledge of a second language or of other specialized disciplines, such as computer science or statistics, as part of a Ph.D. program. Information about these requirements is available from the school or department.

Candidacy for the Doctor of Philosophy Degree
Candidates for the doctor of philosophy degree at the University of Oregon are expected to have proficiency in at least one language in addition to English if a substantial, relevant body of literature in one or more languages exists in the candidate's specialized field of dissertation research. It is the responsibility of the candidate's adviser or doctoral committee to determine which languages the candidate is expected to know before beginning dissertation research. Guidelines for language proficiency are established by the candidate's home department.

Advisory Committee
The advisory committee is appointed by the department and determines the work to be completed in light of the student's academic background and objectives. This committee usually consists of three or four members, and the student's adviser is chair.

Examinations and Advancement to Candidacy
Every student must pass comprehensive examinations (oral, written, or both) that cover the primary areas of the student's program and, if applicable, any supporting area required by the department. The student is responsible for material directly covered in completed graduate courses and for additional independent study in his or her field.

Within two weeks of the student passing these examinations, the home department and the student must submit a report to the dean of the Graduate School recommending advancement to candidacy.

Dissertation
All candidates must submit a dissertation based on independent and original research. The dissertation must contribute significantly to knowledge, show a mastery of the literature of the subject, be written in acceptable literary style, and conform to the standards outlined in the University of Oregon Style and Policy Manual for Theses and Dissertations. The manual is available from the Graduate School's website. Preparation of the dissertation usually requires the greater part of one academic year.

Research Compliance. University policy requires that students who intend to engage in research that involves human or animal subjects receive approval of their research procedures before beginning to collect data. Researchers who want to use human subjects may obtain protocol forms and procedures from the Human Subjects Compliance Office, located in the Riverfront Research Park. Researchers who want to use vertebrate animals may obtain protocol forms and procedures from the Office of Veterinary Services and Animal Care located in Streisinger Hall.

Dissertation Committee. Following advancement to candidacy, the candidate's department proposes the membership of the dissertation committee to the dean of the Graduate School, who appoints the committee after approving it. The committee includes at least four instructional faculty members with the rank of assistant professor or higher. Three of the members are from the department awarding the degree and one is from outside the department. When appropriate, some of the home department committee members may be from another department, with the approval of the dean of the Graduate School and the home department. The committee should be proposed to the dean within one month after advancement to candidacy but in no case later than six months before completion of the dissertation.

A detailed description of the policy on dissertation committees is available in the Graduate School, 125 Chapman Hall.

Dissertation Registration. The dissertation committee cannot be appointed formally, nor can Dissertation (603) credits be earned, until the candidate is advanced to candidacy.
content and methods of conducting such examinations are the responsibility of the school or department.

In some fields, master’s degree candidates must submit a thesis; in others the thesis is optional. A student who writes a thesis must complete the following procedures:

1. Request information from the major school or department about the various steps involved and the standards expected.
2. Consult the University of Oregon Style and Policy Manual for Theses and Dissertations, available on the Graduate School’s website. Only those theses that meet the standards of style and format discussed in that manual are accepted.
3. Find out at the Graduate School the exact number of copies of the thesis to submit.
4. Submit three copies of an abstract (150-word maximum) to the Graduate School.

Research Compliance
See Research Compliance under Doctor of Philosophy in the Doctoral Degrees section of this catalog.

Summary of Graduate School Requirements for a Master’s Degree
The following outline lists minimum Graduate School requirements for master’s degrees. Specific departmental requirements must also be met before the student is awarded an advanced degree. Credit requirements listed below must be met with graduate credits.

- Language requirement
- Minimum GPA
- Minimum thesis credits
- Time limit for program completion
- Total credit minimum
- Registration minimum per term
- Minimum graded credits taken in residence
- Minimum 600-level credits in residence
- Minimum credits in major
- Minimum credits in residence
- Department requirements specified by school or department

The requirements for an M.S. degree in interdisciplinary studies are the same as those for a departmental master’s degree, except those requirements relating to primary or secondary fields. For the M.A. degree, the student must show a reading knowledge of a second language equivalent to satisfactory completion of the second-year college sequence either with the Graduate Student Foreign Language Test or with adequate undergraduate course work. As with all work for the master’s degree, language competence must be demonstrated within the overall seven-year time limit.

Applied Information Management Program
Linda F. Ettinger, Director
(503) 725-2289
(800) 824-2714
CAPITAL Center, 18640 NW Walker Road, Suite 1007, Beaverton OR 97006
aim@continue.uoregon.edu

Kim Sheehan, journalism and communication
Linda F. Ettinger, arts and administration
Steve Knipple, Wacker Siltronics
Curtis D. Lind, Continuation Center
Kim Sheehan, journalism and communication

About the Program
The multidisciplinary master’s degree program in applied information management (AIM) is designed to respond to rapid developments in information technologies and the resulting impact on organizations. The degree program is available both on site at the CAPITAL Center in Beaverton and online. The course of study leads to a master of science (M.S.) degree from the Interdisciplinary Studies Program offered by the Graduate School.

The degree, initially designed to serve midcareer professionals working in high-technology organizations, serves a broad student population. The AIM program offers innovative graduate study in management education as an alternative to the traditional master of business administration (M.B.A.) and to the M.S. in computer science or data processing.

Graduate Study in Applied Information Management
To earn a master of science degree in interdisciplinary studies: applied information management—either at the CAPITAL Center or online, students must complete 54 credits in four areas: information management, business management, information design, and research.

The master’s degree admission process is aimed at selecting students with demonstrated potential to become responsible, effective managers. No specific undergraduate major is required. Factors considered for admission include professional experience; letters of recommendation; a letter of purpose; undergraduate grade point average (GPA); test scores from the Graduate Record Examinations (GRE), the Graduate Management Admission Test (GMAT), or the Miller Analogies Test (MAT); and a minimum Test of English as a Foreign Language (TOEFL) score of 600 (paper-based) or 250 (computer-based).

More information, application materials, and a list of required courses are available on the program’s website and from the AIM program coordinator.

Applied Information Management Courses (AIM)

644 Marketing Management and Planning (3)
646 Creating Business Solutions with Technology (3)
665 Project Management (3)
668 Information Systems and Management (3)
Research Institutes and Centers

The university's interdisciplinary institutes and centers provide opportunities for graduate training and research. Members of centers and institutes hold faculty positions in related academic departments. Graduate students who intend to work in one of the institutes as part of thesis or dissertation research must satisfy the graduate degree requirements of the related department through which they earn their degree.

Students who want to work in any of these fields may obtain detailed information from the institute and center directors about the programs and financial aid. See the Subject Index for other research facilities.

Center for Asian and Pacific Studies

Charles H. Lachman, Director
(541) 346-5088
(541) 346-0802 fax
110 Gertinger Hall
1246 University of Oregon
Eugene OR 97403-1246
caps@darkwing.uoregon.edu
http://darkwing.uoregon.edu/~caps

The Center for Asian and Pacific Studies, founded at the University of Oregon in 1988, is an interdisciplinary research center devoted to promoting understanding of Asia and the Pacific, specifically the regions of East Asia, Southeast Asia, the Pacific Islands, and South Asia, in any historical period. The center’s associates include approximately sixty UO faculty members who teach and do research in the humanities, social sciences, and sciences as well as in the professional schools and colleges. Approximately twenty faculty members from other Oregon public and private institutions of higher education participate in center activities as affiliates.

The center supports University of Oregon faculty research on Asia and the Pacific through the sponsorship of workshops, conferences, lecture series, and visiting scholar affiliations that develop out of the faculty’s research interests. It may also fund curricular development and provide opportunities for UO students to study in Asia and the Pacific. Finally, the center disseminates information about Asia and the Pacific to the university community and the public at large through a variety of outreach activities.

Center for Housing Innovation

Donald B. Corson, Director
(541) 346-4064
264 Onyx Bridge

Participating Faculty

G. Z. Brown, architecture
Donald B. Corson, architecture
Howard Davis, architecture
Stephen F. Duff, architecture
Ronald W. Kellett, architecture
Peter A. Keyes, architecture
Alison G. Kwok, architecture
Robert L. Thallon, architecture
Polly Welsh, architecture

The Center for Housing Innovation is a nonprofit, multidisciplinary research, development, and public-service arm of the University of Oregon. Its purpose is to advance the state of knowledge and professional expertise related to the planning, design, construction, and manufacture of housing in North America, especially the Pacific Northwest. Center members are experts in housing production and manufacture, energy-related issues in housing, regulatory issues such as zoning and building codes, housing design, and user participation in housing and community design. Innovative use of wood products is a particular concern of the center.

With the strong core staff and a wide network of potential resources, the center undertakes research, consulting, educational, and community-service projects. These include research for government agencies, development of design and construction prototypes, creation of innovative community and neighborhood design plans, development of new zoning ordinances, services to architects and planners involved in housing design and construction, and services to civic, community, and neighborhood groups.

Students in degree programs of the School of Architecture and Allied Arts are active participants in center activities through course offerings by center faculty members, student employment opportunities, and research fellowships.

Center for the Study of Women in Society

Sandra L. Morgen, Director
(541) 346-5015
(541) 346-5096 fax
1269 University of Oregon
csws@oregon.uoregon.edu
http://csws.uoregon.edu

The Center for the Study of Women in Society (CSWS), a multidisciplinary research center, is committed to generating, supporting, and disseminating research on women and gender. This mission reflects the breadth of CSWS programs, which include research initiatives, grant and fellowship opportunities, events and sponsored projects, publications, and curriculum and faculty development. An important goal is to work with the university community and with national, regional, and international networks to create conditions that facilitate excellent research and to make connections between education and research, public policy, and advocacy.

The center’s executive committee consists of three members of the center’s professional staff or faculty, five to seven UO faculty affiliates, two graduate students, and an affiliate from the local community.

The center—which fosters collaboration and interchange among researchers interested in questions about women; the intersection of gender, race, and class; and feminist scholarship—supports a series of research interest groups: collaborating scholars or researchers with mutual scholarly interests. Three research initiatives are in place: women in the northwest United States, the feminist humanities project, and women’s health and aging.

Seminars, conferences, and lecture series are part of the program. The center also provides grants and fellowships to faculty members and graduate students and supports efforts of collaborative research groups to secure external grants. A bequest from William B. Harris in honor of his wife, Jane Grant, a writer and feminist, established the fund for the Study of Women, which provided initial support for the center.

Computational Intelligence Research Laboratory

The Computational Intelligence Research Laboratory (CIRL) performs research on basic questions in artificial intelligence including search, knowledge representation, and reasoning. Emphasis is on planning, scheduling, constraint satisfaction, and common-sense reasoning. Laboratory faculty members participate in some activities in the Department of Computer and Information Science, including the supervision of graduate students.

The laboratory provides financial support for students and fosters an intimate relationship among a small group of researchers and the graduate students working in closely related areas. CIRL is committed to having no more than twice as many students as faculty members.

Computation, once viewed as a mere adjunct to theoretical and experimental approaches, is emerging as a principal means of scientific...
Defense of Dissertation. Formal, public defense must take place on campus at a date set by the committee chair and approved by the Graduate School. Tentative approval of the dissertation by the committee is recommended prior to formal defense. This evaluation is based on copies of the final manuscript, which the candidate provides for the dissertation committee at least three weeks before the formal defense.

Four copies of the dissertation abstract (350-word maximum) must also be filed with the Graduate School at this time. The time and place of the defense must be publicly noted. The dissertation committee must be present at the defense, and the chair of the committee must certify to the Graduate School within two weeks following the defense that the defense was held as scheduled.

Completion of Dissertation. Within two weeks following the defense of the dissertation but before the dissertation is submitted in duplicate to the Graduate School, each member of the dissertation committee must confirm in writing either approval or disapproval of the final version. Approval requires a unanimous vote. In the event of a split vote, the dean of the Graduate School determines the review procedure after consultation with the student, the department chair (or the school dean), and the committee. Following final approval of the dissertation, two copies must be submitted to the Graduate School. Committee members should sign approval of the dissertation only if they have seen and approved what is substantially a final draft and if they are willing to delegate the overseeing of remaining minor revisions to the chair. If this is not the case, they should not sign the final oral form. If no signed approval form is received by the Graduate School within two weeks following the scheduled oral examination, another oral examination must be scheduled for defense of the dissertation.

Time Limit
The required year of residency spent on the Eugene campus, the passing of the comprehensive examinations required for advancement to candidacy, and the completion of the doctoral dissertation must all be accomplished within a seven-year period. If this period is exceeded, either a second year of residency or a new set of comprehensive examinations or both are required. In addition, some departments may require that the dissertation be completed within a certain number of years after advancement to candidacy (e.g., three years) to ensure currency of knowledge. Students are responsible for staying informed about individual departmental regulations.

Continuous Enrollment
Unless on-leave status has been approved, a student enrolled in a doctoral program must attend the university continuously until all program requirements, including submission of the dissertation to the Graduate School, have been met. To be continuously enrolled, the student must register for 3 graduate credits each term excluding summer sessions. See On-Leave Status under General Requirements and Policies.

In Absentia Registration
Following advancement to candidacy, only a single academic year of registration in absentia is allowed. When registering in absentia, the doctoral candidate acknowledges that he or she is neither doing any work toward the degree nor using any university or faculty services (e.g., no examinations are being taken, no committee changes are being processed, and no dissertation chapters are being submitted for review). This in absentia registration maintains the student's status as a degree candidate and reserves a place for dissertation supervision and other academic affairs upon the student’s return to active enrollment within the seven-year time limit.

Doctoral candidates must register the term prior to the term of defense to ensure sufficient time for evaluation of the dissertation by every committee member. Students who do not register the term prior to the defense may be required to register retroactively and could incur late fees and petition fees.

Doctor of Education
The doctor of education (D.Ed.) degree is granted in recognition of the candidate’s mastery of theory, practice, and research in professional education.

General Requirements
A student interested in the D.Ed. degree in the College of Education must meet the requirements established by the college. In addition to a primary specialization, the student’s plan of study should include work in supporting areas of education, such as foundation areas, a research area, and some noneducation courses related to the program. With the exceptions noted here, the general requirements for residence, dissertation, examinations, time limit, and continuous enrollment are the same as for the Ph.D. degree.

Dissertation
The student should develop the dissertation proposal early in the doctoral program. The dissertation may be either a report of research that makes an original contribution to knowledge or a study in which the student deals with knowledge already available and produces a constructive result of importance and value for educational practice.

Advancement to Candidacy
Advancement to candidacy for the D.Ed. degree in the College of Education is based on the recommendation of a doctoral advisory committee and demonstrated proficiency in comprehensive examinations. The student may take these examinations only after (1) being admitted to the degree program, (2) substantially completing all of the planned course work, and (3) receiving the adviser’s permission to take the examinations.

Doctor of Musical Arts
Requirements for the doctor of musical arts (D.M.A.) degree include formal admission, proficiency and comprehensive examinations, second languages, a program of study including area of emphasis, and a dissertation. Requirements for residence, time limit, and continuous enrollment are the same as those listed for the Ph.D. degree. See the School of Music section of this catalog for details.

D.M.A. in Performance. The doctor of musical arts degree in performance has two options. Option I requires a written dissertation after completion of the program of courses and seminars, the required recitals or other performances, and the comprehensive examinations. Option II requires the student to give a lecture-presentation and produce a written document of fifty pages in lieu of the traditional written dissertation. The presentation and document are in addition to recitals or performances required in the various areas of performance.

Chronological Summary of Procedures Leading to Doctoral Degrees
1. Admission
2. Continuous enrollment. Students enrolled in advanced degree programs must attend the university continuously (except for summers) until all program requirements are completed, unless on-leave status has been approved. Enrollment minimum is 3 graduate credits a term.
3. Course work and residence. Student’s advisory committee, appointed by the department, school, or college, determines the program, which must include three years of accredited, full-time graduate work beyond the bachelor’s degree, of which at least one academic year (three consecutive terms of full-time study—minimum of 9 completed graduate credits a term) must be spent on the Eugene campus.
4. Second languages or other specialized knowledge. Regulations are set by the department, school, or college.
5. Comprehensive examination, covering the major discipline, advances the student to candidacy for the degree. The examination is taken after the majority of required course work has been completed and after most of the requirements for the degree, except completion and defense of the dissertation, have been satisfied.
6. Appointment of dissertation committee, registration for Dissertation (603), and completion of dissertation. The committee is appointed following advancement to candidacy and at least six months before completion of the dissertation. Typically, the committee consists of at least three members of the graduate faculty of the candidate’s home department, school, or college as well as a Graduate School representative who is a graduate faculty member from outside the candidate’s department, school, or college. A minimum of 18 credits of Dissertation (603) are required after advancement.
7. In absentia. Postadvancement doctoral students are allowed only a single academic year of registration in absentia following advancement to candidacy.
8. Application for degree made to the Graduate School. Deadlines are available from the Graduate School.
9. Defense of dissertation. Application for oral defense, confirmation of agreement to attend, and four copies of final abstract must be filed with the Graduate School no fewer than three weeks before the date of defense.
10. Dissertation publication, arranged through the Graduate School.
11. Granting of degree at end of term in which all degree requirements are satisfied.
12. Diploma, with commencement date, issued by registrar.
prokaryotes, including control of gene expression and development, genetic recombination, replication and transcription of DNA, translocation and folding of proteins and cellular signalling mechanisms. A more fundamental understanding is developed through studies of DNA-protein interactions that control gene expression, macromolecular structure using imaging microscopes, x-ray crystallography and nuclear magnetic resonance, and structure-function relationships in proteins and in membranes.

Members of the institute hold academic appointments in the biology, chemistry, or physics departments. Graduate students are admitted through one of these departments and supported by the institute. Prospective students should indicate an interest in the institute when applying to one of the participating departments.

Along with the Institute of Neuroscience and the cell and developmental biology program, the Institute of Molecular Biology is part of the Biotechnology Center of Excellence at the University of Oregon.

The institute includes the Center for Macromolecular Assemblies, funded by a grant from the Lucille P. Markey Charitable Trust.

Marjorie Woolliscott, exercise and movement science

The interdisciplinary Institute of Neuroscience promotes research training in neuroscience by providing a formal structure that facilitates collaboration among scientists and students from four departments. It provides a graduate curriculum in neuroscience that receives integrated input from participating faculty members.

The institute's focus is experimental neuroscience, with the goal of understanding relationships between behavior and the morphological, chemical, and physiological functions of nervous systems. One aspect of the program is the effective interdisciplinary approach to problems, brought about by the collaboration of scientists from various disciplines who have differing viewpoints about neuroscience. Within the program, a group of developmental neurobiologists is pursuing questions concerning the establishment of nervous-system patterns during growth. Other research programs focus on the neuronal and neuroendocrine control of behavior, visual neurobiology, molecular neurogenetics, membrane biophysics, CNS regeneration, and proprioceptive mechanisms in humans. More information is available on the institute's website.

The 1985 Oregon Legislative Assembly approved funding for five Centers of Excellence at the University of Oregon. Along with the Institute of Molecular Biology and the Department of Biology's Cell Biology Program, the Institute of Neuroscience is part of the Biotechnology Center of Excellence.

Institute members hold appointments in the academic departments of biology, computer and information science, exercise and movement science, and psychology. Research scientists are encouraged to visit the institute for varying periods of time.

A coordinated program of graduate instruction is offered, supported by faculty members associated with the institute. Graduate students who want to enter the program should apply through the appropriate academic department.

The Neuroscience section of this catalog has a list of relevant graduate courses.

Institute of Theoretical Science

The Institute of Theoretical Science provides a center for interdisciplinary research in overlapping areas of theoretical physics, theoretical chemistry, and mathematics. Research focuses on statistical mechanics, chemical physics, theory of solids and liquids, elementary particle theory, accelerators, high-energy nuclear physics, complex systems, quantum optics, astrophysics, general relativity, and applied mathematics.

Graduate students with adequate preparation in one of the science departments may do thesis or dissertation research in the institute.

The institute also sponsors postdoctoral research associateships, usually funded by the United States Department of Energy and the National Science Foundation.

International Institute for Sport and Human Performance
Henriette Heiny, Director
(541) 346-4114
Bowerman Family Building
http://darkwing.uoregon.edu/~iiishp

Established in 1983, the International Institute for Sport and Human Performance promotes and synthesizes interdisciplinary research in sport, exercise, and human movement sciences. It also educates the general public on the benefits of healthy living. The institute's advisory board is made up of community and business leaders and university faculty members.

Microform Publications of Human Movement Studies, a service of the institute, provides the international academic community with research and teaching resources about health, physical education, and recreation; exercise and sport sciences; sport history and philosophy; and dance. Microfiche copies of recently completed U.S. and Canadian theses and dissertations are distributed to subscribing university libraries and research institutions in North America, Europe, Asia, and Australia and by request to researchers and students all over the world. Microform Publications works cooperatively with the Sport Information Resource Centre of Canada to distribute research-based information.

As an affiliate of the Department of Exercise and Movement Science, the institute provides learning opportunities for students. As new professions emerge in the field, the institute identifies educational requirements and provides continuing education programs in cooperation with partners from the health care industry. Since 1998, the institute has served as the home office of the Northwest Chapter of the American College of Sports Medicine (ACSM). The institute, in cooperation with PeaceHealth's Oregon Heart Center, offers ACSM Health/Fitness Instructor and Exercise Specialist certifications for fitness and cardiovascular rehabilitation specialists as well as certificates of enhanced qualification. The institute works with the AMS Sports Medical Trainer Institute to educate Japanese students in athletic training.

Community outreach efforts include an annual newsletter and regularly scheduled programs such as the Athletic Training Service Center and the Health through Exercise and an Active Lifestyle (HEAL) Conference, which focuses on older-adult health and rehabilitation.

Materials Science Institute

research. New technology makes it possible to solve numerical problems that were, until just recently, beyond our reach. As a result, computational methods now applied to models simulate such diverse phenomena as superconductivity, species extinction, molecular dynamics, gene expression, and seismic tomography. Computational science is the study and application of these solution techniques.

Computational science combines research in application areas such as physics, chemistry, and biology with work in applied mathematics and computer science. The University of Oregon, with its strong science departments and its long tradition of interdisciplinary cooperation, provides an ideal environment for this type of work. The Computational Science Institute, established in 1995, is an association of researchers from nine departments formed to support computational science efforts at the university. The Computational Science Institute’s parallel supercomputers are connected via a network to researchers around the state and to the national supercomputing centers. In addition, several members of the institute have joined with faculty members from Oregon State University and Portland State University to form the Northwest Alliance for Computational Science and Engineering.

Institute for a Sustainable Environment

Michael V. Russo, management
Lynda P. Shapiro, biology
Dennis Todd, biology

The Institute for a Sustainable Environment was established to address the long-term sustainability of the earth’s environmental systems. The institute’s goal is to foster research and education at the University of Oregon on environment and development and initiate programs that encompass environmental themes in the natural sciences, social sciences, policy studies, humanities, and the professional fields. Because environment and development problems are seldom adequately addressed by a single discipline, the institute encourages cross-disciplinary research, education, and public service and provides a structure for the development and support of such programs.

The institute sponsors workshops and local, regional, national, and international conferences; publishes a newsletter, SustainAbility, supports visiting speakers; and houses a video library for campus use. Opportunities for student research and work are available through institute projects.

The Institute of Cognitive and Decision Sciences, established in 1987, promotes the study of intelligent systems. The computer revolution has produced important new approaches to understanding the nature and functioning of intelligence as manifested in animals, humans, social organizations, and machines. Institute members study questions ranging from the neural basis of thought processes through the organization of memory and language to how individuals and groups make decisions and manage risks. Common to the institute is the use of observational and experimental methods to formulate and test theories. Faculty members and students from several departments meet weekly to discuss their research. The institute actively collaborates with the Institute of Neuroscience and the UO Center for the Cognitive Neuroscience of Attention.

Research projects include work on human-computer interaction, computer instruction, the perception and comprehension of language, semantics, attention, motor skills, visual cognition, memory, computer models of sensory and cognitive processes, neuropsychology of cognition and emotion, linguistic and conceptual development, social categories and prejudice, deception, social dilemmas, negotiation, decision theory, expert systems, and risk assessment. Off-campus facilities affiliated with the institute include Decision Research, in Eugene, and the Laboratory of Cognitive Neuropsychology, in Portland.

Courses, seminars, and research projects allow graduate and undergraduate students to participate actively in the institute. Students who want to do graduate work in cognitive and decision sciences should apply for admission to one of the participating departments.

Institute of Industrial Relations
James R. Terborg, Director
(541) 346-3306
300 Gilbert Hall

The Institute of Industrial Relations was founded in 1965 to create a program of graduate education in labor-management relations and to stimulate research and public service in the field. Today, the institute seeks to support research and service relevant to employment in a competitive, global marketplace. Research and service takes an integrated look at opportunities and problems in human resource from the perspective of management, the behavioral and social sciences, and the context of union-management relations and from institutional perspectives of public policy and national welfare.

The institute coordinates activities with the Labor and Education Research Center and the Charles H. Lundquist College of Business.

The Institute of Molecular Biology fosters research and training in contemporary biology at the molecular level by bringing together scientists from various disciplines into a common intellectual and physical space. Collaboration is encouraged through the sharing of facilities and ideas. Because a broad range of expertise is focused on related problems, researchers with specialties ranging from molecular genetics to physical biochemistry and protein structure directly benefit from each other.

Research is directed toward understanding basic cellular mechanisms in both eukaryotes and
or advanced level; they may be large lecture classes or small seminars; and they may be team-taught. Through its Distinguished Visiting Lecturers program, the center provides support for leading humanities scholars from other institutions to teach at the University of Oregon during the summer.

Public Programs. The center offers a broad range of public lectures, conferences, symposia, exhibitions, and performances. These include five endowed annual lectures, an annual spring symposium or conference, and weekly work-in-progress talks as well as activities co-sponsored by other groups.

The center understands the term humanities to include literature, philosophy, history; the study of languages; linguistics; religion; ethics; jurisprudence; anthropology; history, theory, and criticism of the arts; and the historical, interpretive, and conceptual aspects of the social and natural sciences and the professions. The center seeks to explore the relation of the humanities to other disciplines and to question traditionally accepted disciplinary boundaries and self-understandings.

The Oregon Institute of Marine Biology is situated on 107 acres of coastal property along Coos Bay on the southern Oregon Coast. The varied marine environments in that area provide the institute with an ideal location for the study of marine organisms. Research focuses on invertebrate physiology and biochemistry, larval biology, the ecology and physiology of marine phytoplankton, animal behavior, and the ecology of coastal environments including estuaries, beaches, and the rocky intertidal zone. The institute facilitates graduate research on a range of related subjects.

The institute offers summer, fall, and spring programs for undergraduate and graduate biology students and students in general science and environmental science or studies. Courses include marine ecology, invertebrate zoology, vertebrate biology, marine birds and mammals, algae, and biological oceanography. Students can conduct research projects in these and related areas. Facilities for individual research are available throughout the year.

The institute sponsors workshops and seminar programs on a variety of topics. For detailed information and applications, write the director of the institute or visit OIMB's website.

Oregon State Museum of Anthropology
C. Melvin Aiakens, Director
(541) 346-3031
1224 University of Oregon, Eugene OR 97403-1224
http://natural-history.uoregon.edu/osma.html

The Oregon State Museum of Anthropology, the research division of the University of Oregon Museum of Natural History, was established by the Oregon Legislative Assembly in 1935 as the official repository for state-owned anthropological collections. It houses research collections resulting from archaeological fieldwork throughout Oregon as well as ethnographic objects from around the world.

Highlights include an extensive collection of prehistoric basketry from excavations in the dry caves of eastern Oregon and historic Native American basketry from across the western United States. Museum holdings also feature large collections from Africa, Asia, and the Pacific.

The museum is the custodian of the historic Condon collection of fossils, assembled through the pioneering paleontological research of Thomas Condon in the late 19th century. A large collection of prehistoric birds' eggs, nests, mounted birds, and study skins forms the core of the museum's zoological holdings.

The museum's research staff conducts research in areas including prehistoric archaeology, paleontology, and cultural anthropology. The museum's collections division-curates archaeological research specimens obtained through its own work in Oregon as well as specimens from other agencies' research projects on state and federal lands.

The Oregon State Museum of Anthropology is described in the Academic Resources section of this catalog.

Oregon Survey Research Laboratory
Patricia A. Gwartney, Director

The Oregon Survey Research Laboratory is a resource and an intellectual home for faculty and staff members and students involved in survey-related research. The laboratory offers a complete range of survey-related services to nonacademic clients, including local, state, and federal government agencies; other research organizations; and nonprofit organizations.

The laboratory designs and conducts surveys on target populations using techniques that fall within the current paradigm of survey research methodology. It is equipped for trained interviewers to conduct computer-aided telephone interviews using random-digit dialing. The laboratory designs studies to meet the needs of the particular investigations, including atypical survey conditions. Survey research services include study design and planning, sampling, instrument design, data collection, coding and direct data entry, data cleaning and file construction, data analysis and computing services, and data archiving.

The laboratory provides training, instruction, and employment for students in survey methods, and it conducts and promotes research in survey methodology. Products of laboratory research are available to the public within a reasonable time after completion of a project. Projects follow appropriate standards for the protection of human subjects.

Solar Energy Center
Frank Vignola, Director
(541) 346-4745
361 Onyx Bridge

Participating Faculty
G. Z. Brown, architecture
Virginia Cartwright, architecture
Alison G. Kwok, architecture
David K. McDaniel, physics
John S. Reynolds, architecture

Associate
John H. Baldwin, planning, public policy and management

The Solar Energy Center emphasizes a regional approach to research into using the sun's radiative energy for heating water; lighting, heating, and cooling buildings; and generating electricity. Work includes expanded collection and improved monitoring of insolation data in Oregon, evaluation of basic solar cell parameters, and development of passive solar design information in solar heating, passive cooling, photovoltaics, and day-lighting. The center's efforts include the development and distribution of information; the development of needed technology and the facilitation of its application; and the study of legal, economic, and technical problems that accompany solar energy development in this region.

University research personnel in the areas of architecture, planning, and physics are active in the center. In addition to continuing publications, the center sponsors frequent seminars attended by university and community people involved in various aspects of solar energy use. Courses in solar energy are offered in the architecture; planning; public policy and management; and physics departments.

Initiated as a state Center of Excellence in 1985, the Materials Science Institute fosters collaboration among materials-oriented research groups in the Departments of Chemistry, Physics, and Geoscience. Members of the institute are active in the study of the synthesis, structure, reactivity, and thermodynamics of materials; the characterization of electronic, magnetic, and optical properties of materials; and condensed matter theory. Materials scientists seek to understand the relationships among the composition, structure, and properties of materials. A broad definition of materials includes organic and inorganic solid-state materials and lower-dimensional condensed phases such as polymer chains, thin films, and certain aspects of liquids. Materials science is by nature an interdisciplinary field, combining expertise from the basic disciplines of physics, chemistry, and geology. All areas of chemistry make important contributions to this field in the synthesis and characterization of various materials. The discovery and improved understanding of new materials that have possible technological applications is a source of exciting and innovative research.

The institute oversees industrial internship programs in semiconductor device processing and polymer science, which are offered in conjunction with master's degree programs in chemistry and physics. Participating students take courses during summer session then work at regional industries in internship positions. See the Chemistry section of this catalog for a description of the program.

A variety of graduate courses are offered in the physics and chemistry of materials, and weekly materials-science seminars feature prominent scientists from around the nation and the world. Researchers working in the institute have access to a variety of modern instrumentation, through individual research laboratories and central facilities. Sharing of facilities and expertise among the various research groups in the institute is an important and valued aspect of the program.

Projects include developing novel synthetic routes for the preparation of inorganic solid-state materials (e.g., high-temperature oxide superconductors, nonlinear optical materials, and refractory metal silicides and carbides); x-ray diffraction studies of reactions between thin elemental films; synthesis and study of novel organic conductors; optical studies of polymers and polymer films; laser-induced dynamics at surfaces and interfaces; ultra-high vacuum surface science; characterization of electronic materials and devices; properties of amorphous semiconductors; fundamental optical, electrical, and thermal transport properties of rationally designed nanoscale structures; and theoretical studies in the area of statistical mechanics.

Oregon Center for Optics

David McIntyre, physics, Oregon State University
Geraldine L. Richmond, chemistry

The Oregon Center for Optics aims to promote and facilitate scientific research and education at the University of Oregon wherever optical science is involved, either in its fundamental aspects or its technological applications. The center promotes scientific interactions among its members and between its members and the wider academic and industrial optics communities. The Oregon Center for Optics, founded in 1997, is an outgrowth of the 1985 Centers of Excellence initiative of the Oregon Legislative Assembly to foster scientific activities that promote economic development.

The field of optics is defined not by a specific set of physical phenomena, as are many fields in science, but by certain enabling technologies, the most important one being the laser. Others include imaging, detection of light, data storage and processing, and modulation—the impression of information on a light beam. In a scientific context, these techniques are used for research in a range of disciplines. In engineering, they are used more and more to achieve myriad practical goals. Optics, an interdisciplinary field, brings together scientists and engineers from many areas—physics, electrical engineering, chemistry, biology, medicine, and vision.

Research and development at the Oregon Center for Optics includes:

- lasers—physical principles, advanced engineering concepts
- nonlinear optics—optical frequency conversion in waveguides and at surfaces
- quantum optics—fundamental quantum interactions of light and matter
- semiconductor optical devices—nanofabrication of submicron structures
- semiconductor device physics—semiconductor lasers, fundamental interactions
- molecular physics—control of processes with ultrashort laser pulses
- atomic physics—laser-cooled atomic vapors, atoms in structured environments
- ultrafast optical detection techniques—subpicosecond photon counting
- optical data storage—time domain holography, new architectures
- optical beam routing—time domain holographic techniques
- light scattering in biological tissue—optical transport and coherence
- optical materials—self-assembled crystals, photonic bond gaps.

The Oregon Humanities Center, established by the Oregon State Board of Higher Education in 1983, is a community of scholars, educators, and friends of the university. It is at once a research institute and catalyst for educational innovation, and provides programs of broad public interest. Its primary activities are described below.

Research. The center stimulates, supports, and disseminates humanistic research. Its program of Oregon Humanities Center Research Fellowships supports full-time research in residence for university faculty members. Its summer program brings to campus leading humanists scholars from other institutions. The center provides support for graduate students during the final year of their study for the Ph.D. or professional degree, and it makes available other forms of support in connection with faculty research publication.

Teaching. The center offers a program of teaching fellowships to University of Oregon faculty members to develop and teach innovative, interdisciplinary humanities courses. Courses may be taught at the introductory, intermediate,

Clark Honors College
The Robert Donald Clark Honors College is a small, liberal arts college of 500 students. The purpose of the college is to bring together excellent students and selected faculty members in a challenging and supportive academic program. Carefully designed small classes, a collegial environment, and close advising prepare students for advanced study leading to the bachelor of arts (B.A.), bachelor of science (B.S.), or any other bachelor's degree offered at the university. Reaching beyond professional or specialized training and beyond the university years, Clark Honors College seeks to inspire students to a lifetime of broad intellectual curiosity and continuing self-sustained inquiry and personal growth.

Honors college courses are taught by its home faculty as well as by faculty members from other campus departments. Two writing specialists are on the college staff.

Honors college courses provide an alternative to university group requirements with a balanced curriculum of humanities, social sciences, and sciences. Survey courses taken in the first two years are supplemented with special colloquia and seminars in the junior and senior years. Course enrollments rarely exceed twenty-five students. Each honors college student selects a major from the academic departments or professional schools of the university.

Work in the major begins by the first term of the junior year. The student's undergraduate education culminates in an advanced research project in the major field of study. The senior thesis, which results from this work, is presented to an oral examination committee made up of faculty members from the major department and the honors college. In this way, each student is given the opportunity to join the benefits of a liberal arts education with those of professional and specialized learning.

Students and Faculty
Students in Clark Honors College pay the same tuition and fees as other university students. Due to the higher costs associated with special instruction and smaller classes, however, honors college students are assessed an additional resource fee, payable at the same time as tuition. For students entering in 2001-2, the first year's fee is $300 a term; the second year, $150 a term; the third year, $100; and in the fourth year and any term beyond the fourth year, the fee is $50 a term. This fee appears on the student's Duck Bill.

Students and Faculty
Those who study and teach in the honors college share an openness to new ideas, a commitment to the energetic pursuit of excellence, and a concern for the full, harmonious development of the individual. Honors college students represent interests in all the scholarly disciplines and come from all over the nation and from abroad.

Honors college students participate in a range of campus and community activities: student and university government and committees; the student newspaper, the Oregon Daily Emerald; University Theatre; Honors College Creative Arts Journal; Honors College Student Association; School of Music productions; debate; and intramural and varsity athletics.

Many honors college alumni continue their education in graduate schools around the country and the world. They study such diverse fields as law, architecture, medicine, molecular biology, and English language and literature. Other graduates go on to endeavors in such areas as public service, private enterprise, and the Peace Corps.

Facilities
The honors college is located in Chapman Hall on the west side of the University of Oregon campus, close to Knight Library and the UO Bookstore.

Honors college facilities consist of a classroom, a seminar room, faculty and administrative offices, the Clark Honors College Lounge, a kitchen, the Robert D. Clark Library, and a computer laboratory.

Entering the Honors College

High school seniors and students who are enrolled in the university or elsewhere are encouraged to consider entering the honors college.

Application Procedure
Application must be made to both the university and the honors college. Information on applying to the university is available from the university's Office of Admissions. Honors college application materials are contained in a brochure that may be obtained from the college office. A complete application consists of the following parts, all of which must be sent directly to the honors college office:
1. Completed application form
2. A concise, well-organized essay of 250 to 500 words that critically evaluates one important aspect of the applicant's education to date and explains, in terms of this evaluation, the important ways
**Academic Honors**

**Departmental Honors**

Many departments at the University of Oregon offer a bachelor's degree with honors in the academic major. Students may graduate with honors in the following majors—in the College of Arts and Sciences unless indicated otherwise: accounting, architectural engineering, anthropology, art history, biochemistry, biology, business administration, chemistry, Chinese, classics, comparative literature, computer and information science, economics, educational studies (College of Education), English; environmental science; environmental studies; exercise and movement science; general science; geography; geological sciences; German; history; humanities; international studies; Japanese; linguistics; mathematics; philosophy; physics; planning; public policy and management (School of Architecture and Allied Arts); political science; psychology; religious studies; Romance languages; Russian; sociology; theater arts.

For specific requirements of departmental honors programs, see the departmental sections in this catalog.

**Freshman Honors Colloquium**

Through the Freshman Honors Colloquium, qualified entering students participate in small, 1-credit seminars that focus on one of the college’s three disciplinary areas—humanities, social sciences, and natural sciences. In these seminars students study the disciplines associated with the area, meet distinguished faculty members from these disciplines, learn about the questions researchers are answering, and investigate career opportunities. For more information about the Freshman Honors Colloquium, write to the Office of Admissions, 1217 University of Oregon, Eugene OR 97403-1217, or telephone (541) 346-3201.

**Honors Lists**

**Dean’s List**

The Dean’s List is announced after each fall, winter, and spring term. To qualify, a student must be an admitted undergraduate and complete at least 12 graded credits with a GPA of 3.75 or better.

**Junior Scholars**

Undergraduates with 90 to 134 credits, the last 45 at the UO, and GPAs of 3.75 or higher are named Junior Scholars by the Mortar Board honorary society during winter term.

**Latin Honors**

Graduating seniors who have earned at least 90 credits in residence at the University of Oregon and have successfully completed all other university degree requirements are eligible for university graduation with Latin honors. These distinctions are based on students’ percentile rankings in their respective graduating classes, as follows:

- Top 10 percent cum laude
- Top 5 percent magna cum laude
- Top 2 percent summa cum laude

The Office of the Registrar computes Latin honors upon graduation.

**Honorary Societies**

**One means of recognizing outstanding students at the University of Oregon is through election to membership in a chapter of the local, national, or international honorary society. Criteria for membership and the scope of activities vary widely. Some focus primarily on scholastic achievement; others consider grades along with other factors such as community service and leadership. Some honorary societies select members by invitation only; for others, students must submit applications.**

**Initiation Fees.** Many, but not all, honorary societies charge initiation fees. The Olwen William Harris Endowment Fund has been established to help students who cannot afford to pay initiation fees. To receive money from this fund, students must complete a request form, available from the Office of Student Life. An advisory committee reviews all requests and dispenses the awards.

**Honories Based on Scholarship**

(membership by invitation)

**Alpha Lambda Delta**

Sharon Loschivo, Adviser

(541) 346-9288

One of two national honorary societies for freshmen, Alpha Lambda Delta is for the cumulative GPA is 3.50 or better, for a minimum of 12 graded credits a term, after winter or spring term of their freshman year. Students who accept the invitation to join are initiated in May. Members participate in activities during their sophomore year. Initiation fee: $15 to $30

**Golden Key**

Hilda Yee Young, Adviser

(541) 346-3211

Golden Key national honorary society recognizes scholastic achievement in all undergraduate fields of study. Eligibility is limited to the top 15 percent of juniors and seniors. Students must have a 3.60 GPA and a minimum of 45 credits at the university to be invited to membership. A membership reception is held in the fall, and two scholarships are awarded annually to outstanding junior and senior initiates. Initiation fee: $50

**Phi Beta Kappa Society**

Nan Coppack-Bland, Adviser

(541) 346-2221

Founded in 1776, the Phi Beta Kappa Society is the oldest and most prestigious honorary society in the nation. Alpha of Oregon became the first chapter in this state in 1923. Although three private schools in Oregon now have chapters, the UO has the only Phi Beta Kappa chapter in the Oregon University System.

The society honors students whose undergraduate academic records fulfill the objectives of a liberal-arts education. Besides electing new members each spring, the chapter brings to campus national scholars to give free public lectures and converse with students. Recent Phi Beta Kappa Visiting Scholars are Stan Brakhage, Elaine Showalter, Marjorie Perloff, and Ramón Gutiérrez.

Selection for Phi Beta Kappa is not automatic, but students do not have to apply or be nominated for consideration. After screening academic records to determine whether they meet the minimum requirements for membership in the society, a faculty-staff committee of Phi Beta Kappa members makes recommendations to the membership at large. Following an election meeting in late May, elected students are invited to join the society. Also elected are the Oregon Six—six students voted the most outstanding of those elected to membership that year. Students who accept the invitation to join are initiated the morning of the spring commencement ceremony. Initiation fee: $45

Below is a summary of the minimum requirements for election to the Phi Beta Kappa Society.

1. 164 credits completed by the beginning of the spring term of the election
2. Cumulative UO grade-point average (GPA) of 3.70, or 3.50 if the last five terms' GPA is at least 3.80. In computing the last-five-term GPA, any term is counted in which a student has earned 9 credits or more of A, B, C, D, or F grades
3. Five terms and 80 credits completed at the UO before the term in which the election is held
4. Either 123 UO credits or 75 percent of the credits earned at the UO in courses considered liberal in character
5. 32 upper-division liberal credits in UO courses of at least 3 credits each. No more than 8 of these 32 credits shall be elective pass/no pass (P/N), i.e., P without an asterisk; at least two breadth courses outside the major subject code must be taken for letter grades. Liberal courses that are outside the College of Arts and Sciences and share the same subject code are assigned to one of the three groups
6. Breadth requirement—distribution among these 32 credits in one of the following three ways:
   a. at least three courses in each of two groups that correspond to the three undergraduate general-education groups (arts and letters, social science, science) or
   b. at least three courses in one of these groups and two courses in each of the other two or
   c. at least three courses in each of two departments in one group and two courses in a third department in any group
   Although some upper-division liberal courses with the same subject code belong to two different groups, only the courses from one of those groups can be counted for breadth.
7. No evidence of academic misconduct or poor character

Fulfillment of the minimum requirements does not guarantee election to the Phi Beta Kappa Society.

Because students are typically invited to join the society shortly before they graduate, those who become members are not expected to participate in chapter activities on this campus. They may, however, become active in chapters at other institutions or in associations—the community equivalents of campus chapters.
the honors college might affect his or her future education.

3. Letters of recommendation from two of the applicant’s teachers

4. High school grade transcripts and results of the College Board Scholastic Assessment Test (SAT I) or American College Test (ACT)

Students who have attended another higher education institution, or who are enrolled in the university but not in the honors college, may apply for admission if they (1) have a sound academic record, (2) have faculty sponsorship in the form of two letters of recommendation from faculty members who can speak positively to the applicant’s qualities, and (3) in particular have a strong desire for a challenging liberal arts education in addition to specialized work in a major.

Transfer students should forward to the honors college transcripts of all college work to date in addition to items 1 through 4 listed above.

The early notification deadline is November 1 for the following academic year. The deadline for regular admission is February 1. Applications received between February 1 and May 1 are considered if space is available. Applications and questions about the honors college may be addressed to the director of the Clark Honors College.

Academic Requirements

Requirements in the honors college substitute for the group requirements that other University of Oregon students must meet for graduation. The honors college core curriculum can be combined with any major at the university. In consultation with advisers, students take full responsibility for understanding and shaping their study programs within the broad context provided by these requirements. This process is itself a significant part of the education offered at the honors college.

Full-Year Sequences

History. Honors College History (HC 107H, 108H, 109H)

Literature. Honors College Literature (HC 101H, 102H, 103H)

Additional Courses

Arts and Letters and Social Science Requirement

Students must take a total of three courses in arts and letters and in social science; at least one course must be taken in each area.

Arts and Letters. Honors College Arts and Letters (HC 311H, 312H)

Social Science. Approved courses. For example, Honors College Social Science (HC 304H) or Honors College Introduction to Microeconomics (HC 204H) and Honors College Introduction to Macroeconomics (HC 205H) or Honors College Introduction to Psychology (HC 212H) or approved courses in one of the social science departments.

Mathematics and Science Requirement

Students must take a total of four courses in mathematics and science; at least one course must be taken in each area. Courses may be chosen from the list below.

Mathematics. Courses chosen from mathematics courses numbered MATH 105 and higher; PSY 302; SOC 412, 413; or other approved courses

Science. Approved courses at the 200 level or above in biology, chemistry, geological sciences, physics, or psychology; or Honors College Introduction to Experimental Psychology (HC 211H); some of the major concepts and areas of research in modern psychology; or Honors College Science (HC 207H, 208H, 209H)

Multicultural Requirement

All university undergraduate students must take one approved course in two of the three multicultural categories described in the Registration and Academic Policies section of this catalog.

Other Requirements

Colloquiums. The two required colloquiums are generally taken in the junior or senior year. Variable topics and fields are designed to be interdisciplinary or intercultural. Recent topics include Arab–Israel, Frontiers in Medicine and Science, Indigenous Cultural Survivals, Literature by and about Gay Men, Literature of Skepticism, The Place of Love in Personal and Political Life.

Senior Thesis Seminar. Coordinated with major departments. Senior Thesis Seminar (HC 407H) aids students in the preparation of the senior thesis or creative project.

Writing. The honors college is committed to excellence in writing. The program integrates instruction and practice in fundamental rhetorical skills—writing, reading, speaking, and listening—with the subject matter of the core courses, particularly in Honors College Literature (HC 101H, 102H, 103H), Honors College History (HC 107H, 108H, 109H), and the Senior Thesis Seminar (HC 407H). Students who graduate from the honors college generally do not take the university’s required writing courses. Students who transfer out of the honors college before completing work for their degree must satisfy the university writing requirement.

Second Language. For either a bachelor of arts (B.A.) or a bachelor of science (B.S.) degree, honors college students must (1) demonstrate second-language proficiency equivalent to completion of the second college year in a second language and (2) satisfy all requirements in a university department that offers a major leading to a B.A. or B.S. degree.

If a department requires more than 90 credits of course work for a major leading to a B.S. degree, the second-language requirement is waived. Such majors include biology, business administration, chemistry, computer and information science, exercise and movement science, general science, geological sciences, and physics. The second-language requirement is also waived for students pursuing the bachelor of architecture degree. In music, where there are several choices of degrees, the second-language requirement is waived only in cases where it is not a requirement for the student’s chosen degree.

University and Major Requirements. Honors college requirements represent roughly one-third of a student’s total four-year schedule, leaving time for general university requirements, major requirements, and electives.

Before graduating, Clark Honors College students must also meet the particular requirements, listed elsewhere in this catalog, of their major department or professional school. They must have a 3.00 or better cumulative grade point average (GPA) at graduation.

Honors College Courses (HC)

101, 102, 103 (H) Honors College Literature (4,4,4) Study of literature and the nature of literary experience through the reading of great works drawn from English and world literatures.

107, 108, 109 (H) Honors College History (4,4,4) Examination, through close study of secondary and primary source materials, of institutions and ideas that have shaped the modern world.

199 (H) Special Studies: [Topic] (1–5R) Topics of current interest.

204 (H) Honors College Introduction to Microeconomics (4) Principles of microeconomic analysis; focus is on demand and supply behavior in specific market situations.

205 (H) Honors College Introduction to Macroeconomics (4) Principles of macroeconomic analysis; focus is on determination of unemployment, inflation, and aggregate output.

207, 208, 209 (H) Honors College Science (4,4,4) How science can be applied and misapplied in answering questions about nature and society. Includes discussions and demonstrations. Primarily for nonscience students.

211, 212 (H) Honors College Introduction to Experimental Psychology (4,4,4) 211: Introduction to perception, memory, learning, and cognition. 212: introduction to the psychological processes affecting social perception and behavior as well as personality development. Sequence.

The following courses are open to sophomores, juniors, and seniors.

304 (H) Honors College Social Science (4) The thought, works, and methods of the social sciences.

311, 312 (H) Honors College Arts and Letters: [Topic] (4,4R) Intensive study of major writers, artists, philosophers, and composers. Topics and areas change each term. R when topic changes.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–21R)

403 Thesis (1–21R)

405 (H) Reading and Conference: [Topic] (1–21R)

406 (H) Special Problems: [Topic] (1–21R)

408/508 (H) Colloquium: [Topic] (1–21R) Offered in a wide range of topics.

409 (H) Practicum: [Topic] (1–21R)

410 Experimental Course: [Topic] (1–5R)

412 (H) Gender Studies: [Topic] (4R) Historical, cultural, and social scientific explorations of topics that focus on gender (e.g., sexuality, the family, androgyny). R twice when topic changes for maximum of 12 credits.

415 (H) World Perspectives: [Topic] (4R) Topics vary but always focus on societies and cultures that are non-European or non-European-American. R thrice when topic changes for maximum of 16 credits.
Phi Alpha Theta
John McCole, Adviser
(541) 346-5906
Phi Alpha Theta was organized for the purpose of recognizing excellence in the study of history. An undergraduate must have completed at least 12 credits with a grade point average of 3.10 or better. Initiation fee.

Phi Beta
School of Music Adviser
(541) 346-5661
Phi Beta is a professional fraternity for students of music, speech, drama, dance, or art. It aims to encourage high professional standards and support for the creative and performing arts. Membership criteria are based on scholarship and intellectual achievement, career development, and the use of students' talents to serve other students, schools, and communities. Initiation fee: $25

Pi Alpha Alpha
Bryan T. Downes, Adviser
(541) 346-3817
Pi Alpha Alpha, a national honorary society, promotes scholarship and recognition among students and professionals in public affairs and administration and fosters integrity and creative performance in government and related public service. To become members, past or present students or teachers must display high academic achievement or outstanding public service in public-affairs or public-administration programs of universities that belong to the National Association of Schools of Public Affairs and Administration. Initiation fee: $30

Psi Chi
Michael C. Anderson, Adviser
(541) 346-4796
The purpose of the national Psi Chi society is to encourage, stimulate, and maintain scholarship among psychology undergraduate and graduate students. Potential members must be in the top 35 percent of their class and have at least 12 credits in psychology. A 3.00 GPA is required of graduate students. Selection by application takes place throughout the year. Initiation fee: $30

Service Organizations
Alpha Phi Omega
Chris Loschiavo, Adviser
(541) 346-1141
A service honorary organization for undergraduate and graduate students, Alpha Phi Omega develops leadership skills and promotes friendship by serving the local community. Applications are accepted round year in 164 Oregon Hall. Initiation fee: $15

Circle K International
John H. Baldwin, Coordinator
(541) 346-3895
Sponsored by the Emerald Empire Kiwanis Club, the campus chapter of Circle K is part of the world’s largest collegiate service organization. Membership is open to all students interested in working on campus and community service projects. Activities include sponsoring speakers, maintaining campus fountains, carving pumpkins for nursing homes, and raising funds for charities.

Awards and Prizes
Individual and Organization Awards
Listed are major university awards presented during Family Weekend in May. Selection criteria are available from the honors and awards coordinator in the Office of Student Life.

Phi Alpha Theta
American Association of University Women Senior Recognition Award (women)
Bess templeton Cristman Award (junior woman)
Burt Brown Barker Vice Presidential Cups (men's and women's living organizations)
Centurian Awards (undergraduate students)
Dean's Award for Service (senior)
Doyle Higdon Memorial Trophy (sophomore student-athlete)
Emerald Athletic Award (senior student-athlete)
Friendship Foundation Awards (international student)
Frohnmayer Award (fifth-year senior)
Gerlinger Cup (junior woman)
Global Citizen Award (any student)
Golda Parker Wickham Scholarship (any student)
Graduate Service Awards (master's or doctoral students)
Jackson Athletic Trophy (senior woman athlete)
Jewel Hairston Bell Award (person of color)
Koyl Cup (junior man)
Mary Hudziikowski Award (freshman)
Maurice Harold Hunter Leadership Scholarship (junior man from Oregon)
Mother's Club Scholarships (any student)
Ola Love Fellowship, American Association of University Women (graduate student)
Outstanding International Student Awards (any student)
Paul Olum Award (senior)
Ray Hawk Award (senior)
School of Music (any student)
Theresa Kelly Janes Award (any student)
Vernon Barkhurst Award (sophomore)
Wilson Cup (senior)

Psi Chi
James C. Stovall Fellowship Fund (awards to undergraduate students of geological sciences)

Service Organizations
Alpha Phi Omega
Chris Loschiavo, Adviser
(541) 346-1141
A service honorary organization for undergraduate and graduate students, Alpha Phi Omega develops leadership skills and promotes friendship by serving the local community. Applications are accepted round year in 164 Oregon Hall. Initiation fee: $15

Circle K International
John H. Baldwin, Coordinator
(541) 346-3895
Sponsored by the Emerald Empire Kiwanis Club, the campus chapter of Circle K is part of the world’s largest collegiate service organization. Membership is open to all students interested in working on campus and community service projects. Activities include sponsoring speakers, maintaining campus fountains, carving pumpkins for nursing homes, and raising funds for charities.

Psi Chi
James C. Stovall Fellowship Fund (awards to undergraduate students of geological sciences)

Prizes
Several cash prizes are awarded for student essays and other competitions. The Women's Studies Program administers the Bruce M. Abrams Award in Lesbian/Gay/Bisexual Studies. The winning undergraduate project may be from any discipline and is honored with a $500 prize. The Department of Mathematics administers the William Lowell Putnam examination, a national competition offering prizes to top finishers. The George W. Cherry Speech Award is a scholarship given to the best public speaker in the forensics program. The Department of Philosophy oversees the George Rebec Essay Contest. Prizes of $200 each are awarded for the best undergraduate and graduate essays on any area of philosophy. Walter and Nancy Kidd Writing Prizes for undergraduate students are administered by the Creative Writing Program. Students should inquire at their home departments about additional contests or competitions for expository or creative writing or other student projects.

Fellowships and Scholarships
For information about fellowships and scholarships besides the ones mentioned here, see the Student Financial Aid and departmental sections of this catalog.

Neil D. Blackman Memorial Scholarship (political science award to undergraduate and graduate students studying humanities or political philosophy relevant to human rights and the responsibilities of individuals to democratic institutions)
Thomas Condon Fellowship in Paleontology (graduate student of paleontology)
Eric Englund Scholarship (senior or first-year graduate student in English or history)
Alice Henson Ernst Scholarship (first-year graduate student in English)
Barry M. Goldwater Scholarship (sophomore or junior math and science majors)
Fulbright Grants for Overseas Study (graduate students)
Fulbright-Hays Dissertation Research Abroad Program (doctoral candidates)
German Academic Exchange Service Study Grant
Walter and Nancy Kidd Scholarships (undergraduate students)
Marshall Scholarship
Outstanding Graduate Teaching Fellow Award (graduate teaching fellow in geological sciences)
Rhodes Scholarship
Rotary International Ambassadorial Scholarship (junior- or senior-year undergraduate or graduate)
Stanley Maveety Scholarship (first-year graduate student in English)
Lloyd Staples Fellowship (undergraduate and graduate students in geological sciences)
Truman Scholarship (junior-year undergraduate student)
James C. Stovall Fellowship Fund (awards to undergraduate students of geological sciences)

Prizes
Several cash prizes are awarded for student essays and other competitions. The Women's Studies Program administers the Bruce M. Abrams Award in Lesbian/Gay/Bisexual Studies. The winning undergraduate project may be from any discipline and is honored with a $500 prize. The Department of Mathematics administers the William Lowell Putnam examination, a national competition offering prizes to top finishers. The George W. Walter and Nancy Kidd Writing Prizes for undergraduate students are administered by the Creative Writing Program. Students should inquire at their home departments about additional contests or competitions for expository or creative writing or other student projects.
Alpha Kappa Delta is open to students who meet the following criteria: a cumulative GPA of at least 3.00, and completion of at least four sociology courses. Members investigate sociological issues and social problems through social and intellectual activities that lead to improvement of the human condition. Initiation fee: $36

Phi Eta Sigma
Sharon Loschiavo, Adviser
(541) 346-9288
UO freshmen who have a cumulative GPA of 3.50 and at least 12 graded credits a term after winter or spring term are invited to join Phi Eta Sigma. New members are initiated in the spring and are active the following year. Initiation fee: $15 to $30

Honorary Based on Scholarship, Leadership, and Service
(membership by invitation and application)

Ancient Order of the Druids
Beth Pfeiffer, Adviser
(541) 346-6009
Druids is an honorary society for juniors who exhibit outstanding scholarship, leadership, service, character, and participation in student activities. It is open to anyone with a 3.20 GPA or better who will have completed 90 credits by the following fall term. Availability of applications is announced each spring in the Oregon Daily Emerald. Membership is limited to approximately twenty-five students. New members are elected by unanimous vote of the active members.

Friars
Laura Blake Jones, Adviser
(541) 346-5393
Established in 1910, Friars is the oldest honorary on campus. Membership is composed of faculty members and of students who have completed at least three years of study. Criteria are contributions to the university, potential for community leadership, and commitment to the university as alumni. No application is required. Prospective members are nominated by the active membership. New members are selected each spring.

Mortar Board
Katie Bryant, Adviser
(541) 346-5393
A national honorary society for seniors, Mortar Board emphasizes leadership, scholarship, and service. To be eligible for membership, students must have at least a 3.20 GPA and be entering their senior year the term following initiation. Selection and initiation of qualified candidates takes place spring term. Initiation fee: $55

Professional Organizations

Alpha Kappa Psi
Anne M. Forrestel, Adviser
(541) 346-3458
Alpha Kappa Psi is a national, professional fraternity for majors and minors in business, computer and information science, and economics. Founded to enhance the business education of men and women, the organization’s mission is to develop well-trained, ethical, skilled, resourceful, and experienced business leaders. To achieve this goal, each chapter supplements the traditional classroom experience with business field trips, seminars, career activities, research surveys, and other professional events. A cumulative GPA of at least 2.75 is required for membership. Alpha Kappa Psi stands for the highest ideals of conduct and achievement in university and professional life. Initiation fee: $60

Asklepiads
Stephen Stopf, Adviser
(541) 346-3211
Asklepiads is a scholastic honorary society for students taking courses in the prehealth sciences. Activities include dispensing prehealth sciences literature, maintaining information files on medical schools, supervising preceptorships in health fields, and arranging tours of the Oregon Health Sciences University in Portland. Potential members must have earned a high GPA in science courses, completed at least one term of organic chemistry, and participated in extracurricular activities. Applications are available in 164 Oregon Hall. Initiation fee: $20

Beta Alpha Psi
Steven R. Matsunaga, Adviser
(541) 346-3340
The primary objective of Beta Alpha Psi, a national scholastic and professional accounting fraternity, is to encourage and recognize excellence in the accounting field. A cumulative GPA of at least 3.00 is required for membership. The fraternity provides members and practicing accountants with opportunities for self-development and encourages a sense of ethical, social, and public responsibility. Initiation fee: $50

Beta Gamma Sigma
Jeanne Coe, Adviser
(541) 346-3257
Beta Gamma Sigma, a national scholastic honorary society in business administration, promotes the advancement of education in the art and science of business and fosters integrity in the conduct of business operations. To be eligible for membership, a student must rank in the top 5 percent of the junior class, the top 10 percent of the senior class, or the top 20 percent of a master’s degree program, or be a graduating doctoral candidate. Membership is by invitation only. Selection is by a faculty committee. Beta Gamma Sigma is strictly an honorary organization with no formal meetings other than the social functions accompanying initiation. Initiation fee: $40

Delta Phi Alpha
Jonathan S. Skolnik, Adviser
(541) 346-4059
Chartered in 1936, Delta Phi Alpha is a national honorary society dedicated to promoting the study of German language, literature, and civilization; to furthering an interest in and a better understanding of German-speaking people; and to fostering a sympathetic appreciation of German culture. Membership is open to graduate and undergraduate students who have completed two years of college German. Students must have an overall GPA of 2.75 and a GPA of 3.20 in their German courses. Initiation fee: $10

Kappa Tau Alpha
Alan G. Stavitsky, Adviser
(541) 346-5848
Kappa Tau Alpha is a national society that recognizes and encourages high scholastic and professional standards among journalism majors. Potential members must have a bachelor’s or master’s degree in journalism with a cumulative GPA of 3.50 or better and be in the top 10 percent of their graduating class. Faculty members in the School of Journalism and Communication select new members. Initiation fee: $12

Mathematics Association of America
Elizabeth A. Housworth and Allan J. Siedadski, Advisers
(541) 346-5630
The student chapter of the Mathematics Association of America, a mathematics society, sponsors films and talks on subjects that are not usually encountered in the classroom. The talks, by students and faculty members, are geared to undergraduates at all levels. All students are welcome regardless of whether they choose to join the chapter.

Mu Phi Epsilon
Claire L. Wachter, Adviser
(541) 346-3758
An international music fraternity, Mu Phi Epsilon enables members to gain experience in public performances. Music majors or minors who have reached second-term freshman standing in the music-major curriculum are eligible for election on the bases of scholarship, musicianship, character, and personality. Activities include presenting musical programs on and off campus, organizing receptions at musical events, and hosting guest artists. Initiation fee: $43

Order of the Coif
Laird C. Kirkpatrick, President
(541) 346-3854
Chartered at the UO in 1934, Order of the Coif is a national law school honorary society that recognizes superior scholarship and promotes the ethical standards of the legal profession. The School of Law faculty selects members from the top 10 percent of each graduating class. Initiation fee: $25
About the College

The College of Arts and Sciences is the central academic division of the University. It enrolls a majority of UO students and provides a nucleus of courses that satisfy general-education requirements and more advanced courses for majors and graduate students in specialized fields. The fundamental academic mission of the college is to supply a solid and broad general education: an introduction to social and intellectual history; basic training in quantitative, analytic, and communication skills; and an understanding of the nature and uses of critical thought. This strong liberal arts core is essential to the strength and excellence of the University of Oregon.

Liberal Education

The increasingly technological nature of our society makes a broad educational base ever more important. The Chronicle of Higher Education noted a “growing recognition that a solid foundation of liberal learning . . . is an essential part of all undergraduate education.” Even students who plan to move into specialized postgraduate careers need to develop fundamental tools offered in a general-education program. These tools are essential to a lifetime of work and growth, in which the particular demands of specific jobs require constant reeducation in new or changing fields.

Indeed, surveys of liberal arts and sciences graduates show that their initial salaries are lower than those of graduates from professional schools. In as little as four to five years time, the liberal arts and sciences graduate fares better, not worse, than graduates from more vocationally oriented fields.
BACHELOR'S DEGREE REQUIREMENTS

The department offers work leading to bachelor of arts (B.A.) and bachelor of science (B.S.) degrees. Major requirements are the same for each. Differences between the two degrees are explained under Requirements for Bachelor of Arts and Bachelor of Science in the Registration and Academic Policies section of this catalog.

MAJOR REQUIREMENTS

The major in anthropology requires 48 credits distributed as follows:

1. ANTH 110, 150, and 270
2. 8 credits in physical anthropology at the 300-499 level
3. 8 credits in cultural anthropology at the 300-499 level
4. 8 credits in archaeology or prehistory at the 300-499 level
5. 12 credits in electives in anthropology selected from ANTH 196, 198, 199, 300-400

All majors must meet with an anthropology adviser at least once a year.

Of the 48 credits required in anthropology, 40 must be graded and at least 12 must be at the 400 level. No more than 8 credits with grades of D+, D, or D– may be counted. To ensure a liberal education, the department strongly recommends that students limit their undergraduate work in anthropology to a maximum of 52 credits. Students planning to do graduate work are advised to complete two years of one or more second languages. Preparation in statistics and computer science is also desirable.

SAMPLE PROGRAM

Major requirements may be met by the following schedule:

FRESHMAN YEAR. Three introductory courses in anthropology—including 110, 150, and 270—are recommended.

SOPHOMORE YEAR. 12 credits in 300-499-level anthropology course from the archaeology, cultural, and physical offerings (in any combination or order)

JUNIOR YEAR. 12 credits in 300-499-level anthropology courses

SENIOR YEAR. 12 credits in 300-499-level anthropology courses

CULTURAL RESOURCE MANAGEMENT

ARCHAEOLOGY OPTION (44 CREDITS)

Undergraduate and graduate anthropology majors may choose this option, which satisfies most of the requirements listed above.

REQUIRED COURSES

12 CREDITS

Workshop: Archaeological Field School (ANTH 498/508) or equivalent .................... 8
Cultural Resource Management (ANTH 449/549) ............................................. 4

ELECTIVE COURSES

32 CREDITS

Two courses selected from each of the following areas:

Cultural Anthropology. ANTH 320, 323, 344, 407/507, 417, 425/525, 607, 695 .................. 8
Regional Prehistory. ANTH 310, 342, 343, 407/507, 410/510, 442/542, 443/543, 444/544, 607 .................. 8
Method and Theory. ANTH 366, 407/507, 447/547, 471/571, 607, 681, 697 ...................... 8
Practical Applications. Special Problems: Cultural Resource Management Archaeology Internship (ANTH 406, 606), Practicum: Cultural Resource Management Archaeology (ANTH 409, 609) ...................... 8

The following complementary courses are recommended:

Geography, Cartographic Methods (GEOG 311, Advanced Cartography (GEOG 411/511), Introductory Geographic Information Systems (GEOG 416/516)

Historic Preservation. Introduction to Historic Preservation (AAAP 411/511), Historic Survey and Inventory Methodology (AAAP 451/551)

HONORS

Application for graduation with honors must be made through the student's departmental adviser no later than winter term of the senior year.

Approval for graduation with honors is granted to a student who
1. Maintains a 4.00 or higher grade point average (GPA) in anthropology and at least a 3.50 overall GPA
2. Maintains at least a 3.75 GPA in anthropology and at least a 3.50 overall GPA and submits an acceptable honors thesis written under the guidance of a departmental faculty member serving as thesis adviser

MINOR REQUIREMENTS

The minor in anthropology is intended to complement the student's major in another discipline. Courses used to complete the minor must be chosen in consultation with an anthropology adviser. The 24 credits required for the minor must include at a minimum:

1. 4 credits in 100- or 200-level courses
2. 16 credits in 300- or 400-level courses of which 8 credits must be at the 400 level
3. 4 elective credits at any level

The 24 credits required in anthropology, 20 must be graded; no more than 4 credits with a grade of D+, D, or D– may be counted.

MIDDLE AND SECONDARY SCHOOL TEACHING

The College of Education offers a fifth-year program for middle-secondary teaching licensure in social studies. This program is described in the College of Education section of this catalog.

GRADUATE STUDIES

Three advanced degrees are offered in anthropology: the master of arts (M.A.), the master of science (M.S.), and the doctor of philosophy (Ph.D.). These degrees entail work in the following subfields: archaeology, cultural anthropology, anthropological linguistics, and physical anthropology. Graduate students must demonstrate competence in three subfields, ordinarily in work at the master's level. Consequently, the first year, and in some instances the first two years, of graduate study are devoted to achieving a broad foundation in anthropology.

Graduate students are members of the Association of Anthropological Graduate Students and are represented in the Student Senate.

MASTER'S DEGREE REQUIREMENTS

The master's degree requires a minimum of 45 credits of graduate work, of which at least 32 must be in anthropology, and the successful completion of special courses—or in some cases a special examination—in three of the four subfields of anthropology mentioned above. A master's paper is required, but a thesis is not.

To earn the M.A., the candidate must demonstrate competence in a second language. There is no language requirement for the M.S., but the candidate for that degree must demonstrate proficiency in a special skill, such as statistics, computer science, or paleogeography, approved by the department faculty.

There are no absolute requirements for admission to the master's degree program. A bachelor's degree in anthropology is helpful but not required. Admission is limited, and preference is given to applicants with excellent academic records and Graduate Record Examinations (GRE) scores who have had at least a solid beginning in anthropology, who have had some second language training, and who can demonstrate evidence of a sincere interest in the field. It typically takes two years to complete the program.

PH.D. DEGREE REQUIREMENTS

Admission to the doctoral program is contingent on the possession of a valid master's degree in anthropology from a recognized institution or on the completion of the three of the master's core courses. Those who enter with a master's degree in another discipline, therefore, take the master's core courses early in the program.

Formal requirements of time and credit are secondary, but no candidate is recommended for the degree until the minimum Graduate School requirements for credits, residence, and study have been satisfied.

The department also requires competence in two modern second languages, one language and one special skill, or two skills (including those earned for an M.A. or M.S.) approved by the department faculty. The student’s progress is measured by performance in the core courses, coursework, research papers; a comprehensive examination covering two special fields of concentration in anthropology, a formal dissertation prospectus; and, finally, a doctoral dissertation. The dissertation should be based upon original research, which ordinarily involves fieldwork or laboratory work, and should be written in a professional and publishable style appropriate to the subfield of specialization.

For information about general requirements, see the Graduate School section of this catalog.

More information about programs in anthropology may be obtained from the department.

Biological Anthropology. Applicants who meet the requirements for admission to the doctoral program may apply to enter the biological anthropology specialization. Drawing on faculty expertise in the UO Department of Anthropology and in anthropology departments from other schools in the Oregon University System, the specialization comprises paleoanthropology;

Undergraduate Studies

Anthropology, the study of human development and diversity, includes social or cultural anthropology, physical anthropology, and archaeology. Courses offered by the Department of Anthropology span the natural sciences, social sciences, and humanities and provide a broad understanding of human nature and society for students in all fields and for anthropology majors.

Anthropology offers a broad perspective on Western and non-Western cultures and can augment studies in many other fields, including second language study; history; international studies; art history; and planning, public policy and management.

Preparation
High school students planning to major in anthropology should take two years of high school mathematics, preferably algebra, and some work in a modern second language. They should also have a sound background in English.

Students transferring with two years of college work should come with a year’s work in social sciences, preferably anthropology. Introductory biology, introductory computer science, and the equivalent of two years of college instruction in a second language are recommended.

Careers
Graduates of bachelor’s degrees in anthropology can find employment in the pursuits normally open to graduates in the liberal arts or as teachers of social studies in secondary schools. Anthropology provides a suitable background for positions with a variety of federal, state, and local agencies and prepares the student for citizenship in a multicultural nation.

Students seeking work as professional anthropologists should plan for advanced degrees in anthropology. Graduates with master’s or Ph.D. degrees may find work in government, community
419/519 Anthropology and Folklore (4)
Explores the theoretical convergences and divergences between the two disciplines, mutual topical foci, and historical connections. Emphasizes the period 1965 to the present. Prereq: 4 credits in cultural anthropology or instructor's consent. Silverman.

421/521 Anthropology of Gender (4)
Overview of the anthropology of gender as an emerging focus in anthropology: strengths, weaknesses, promises, possibilities. Prereq: sophomore standing; 8 credits in social sciences, humanities, and/or women's studies. Kelsky, Stephen.

425/525 Topics in Pacific Ethnology: [Topic] (4R)
In-depth introduction to various topics bearing on historical and/or contemporary regions of the Pacific. Prereq: upper-division or graduate standing. Biersack. R when topic changes.

427/527 Peoples of Central and East Africa (4)
Culture, history, and ethology of contemporary African peoples in Central and East Africa, including Ethiopia. Prereq: 8 credits in a social science or instructor's consent.

428/528 Peoples of West Africa and the Sahara (4)
Societies of the West African coast, the Sudan, and the Sahara from the 19th century to the present. Prereq: 8 credits in social science or instructor's consent. Wooten.

429/529 Jewish Folklore and Ethnology (4)
Traditional expressive culture of East European Jews including narrative, proverbs, jokes, folk beliefs, rituals, holidays, food, customs, music, gender, and immigrant folklore in the United States. Silverman.

430/530 Balkan Society and Folklore (4)
Explores ethnic groups of the Balkans with attention to the roles of folklore, nationalism, rural-urban relationships, gender, music, and folk arts. Silverman.

432 Latin American Society and Development (4)
Emphasizes an understanding of history, culture, gender, race, and political economy in shaping the lives of people in contemporary Latin America. Prereq: introductory course in cultural anthropology, international studies, political science, history, or sociology; or instructor's consent. Stephen, Young.

433/533 Native Central Americans (4)
Contact period and contemporary ethnography of native peoples' ecological adaptation, socioeconomic organization, and culture change. Prereq: 4 credits in cultural anthropology or instructor's consent. Stephen.

434/534 Native South Americans (4)
Contact period and contemporary ethnography of native peoples; ecological adaptation, socioeconomic organization, and culture change. Prereq: 4 credits in cultural anthropology or instructor's consent. Silverman, Sugiyama.

435/535 Approaches to the Symbolic (4)
Surveys the frameworks used in and outside anthropology: structuralism, hermeneutics, symbolic interactionism and performance, cultural Marxism, and the new textualism. Prereq: junior standing, 8 credits in social science or humanities or both. Biersack.

436/536 Cultures of Island Southeast Asia (4)
Pueoples and cultures of Indonesia, Malaya, and the Philippines. Topics include precolonial state systems; colonialism; gender, kinship, and religion; local economies and industrialization. Prereq: 4 credits in social science or instructor's consent.

437/537 Cultures of Mainland Southeast Asia (4)
Pueoples and cultures of Thailand, Burma, Vietnam, Laos, and Cambodia. Overview of precolonial state systems and impact of colonialism, Indigenous gender, kinship, religious, and economic systems. Prereq: 8 credits of social science or instructor's consent.

439/539 Feminism and Ethnography (4)
Uses current literature to explore the relationship between feminism, postmodernism, and ethnography. Investigates reflexivity, subjectivity, multiple voicings, and the politics of fieldwork and the text. Prereq for 439: instructor's consent; for 539: 8 credits in social science or humanities. Silverman.

440/540 Topics in Old World Prehistory: [Topic] (4R)
Archaeology of prehistoric cultures in selected regions of the Middle East, Southeast Asia, or Africa, from the first human cultures to the historic periods. Prereq: 4 credits in archaeology or prehistory or instructor's consent. Ayres. R when topic changes for maximum of 12 credits.

442/542 Northwest Coast Prehistory (4)
Archaeological and prehistoric cultural development of peoples indigenous to the Northwest Coast of North America, from Alaska to northern California, from earliest settlement through Western contact. Prereq: ANTH 150. Moss.

443/543 North American Prehistory (4)
Survey of interdisciplinary research applied to prehistoric cultures and environments in North America. Prereq: ANTH 150 or instructor's consent. Moss.

444/544 Middle American Prehistory (4)
Archaeology and prehistory of Mexico and Central America. Prereq: 4 credits in archaeology or prehistory or instructor's consent. Silverman.

447/547 Prehistoric Technology (4)

448/548 Gender and Prehistory (4)
Discussion of gender as an emerging focus of archaeological theory, method, and interpretation. Examination of case studies from around the world during prehistory. Prereq: ANTH 150. Moss.

449/549 Cultural Resource Management (4)
Objectives, legal background, operational problems, ethical and scholarly considerations in the management of prehistoric and historic cultural resources. Prereq for 449: ANTH 443 and 4 credits of upper-division archaeology or prehistory, or instructor's consent; prereq for 549: graduate standing in anthropology or instructor's consent. Moss.

450/550 The Anthropology Museum (3)
Introduction to the operation of anthropology and natural history museums; organization, collection management, exhibit and public programs, funding. Alken, Krier.

461/561 Primate Systematics and Taxonomy (4)
Development of taxonomy, methods, and principles of evolutionary classification; numerical genetics and taxonomic theory; primate and hominid classification. Prereq: ANTH 360, 361; or instructor's consent. P. Simonds.

462/562 Paleoprimatology (4)
The fossil record and theoretical implications of the Cenozoic primates with special reference to their various adaptations: locomotion, special senses, dentition. Prereq: ANTH 361 or instructor's consent. Lukacs.

463/563 Primate Behavior (4)
Ecology and ethnology of free-ranging primates. Classification, distribution, and ecological relationships of the living primates; social structure and social organization of a variety of species. Prereq: instructor's consent. P. Simonds.

464/564 Methods and Perspectives in Human Biology (4)
Biological study of human populations with practical experience in analysis and interpretation of data on growth and development, nutrition, health, and demography. Prereq: ANTH 363 or 367 or instructor's consent. Moreno.

465/565 Gender Issues in Nutritional Anthropology (4)
Discussion of gender differences in nutritional status, dietary requirements, and diet-related diseases. Topics include gender-related aspects of food, politics, economics, and policies. Prereq: ANTH 365 or instructor's consent. Moreno.

467/567 Paleoecology and Human Evolution (4)
The relationship between ecology and comparative morphology as a basis for theories of hominid phylogeny; analysis of methods of paleoecological inference; current theories of hominid origins. Prereq: ANTH 365 or instructor's consent. Lukacs.

469/569 Anthropological Perspectives of Health and Illness (4)
The relationship between ecology and cultural perspectives of health and illness. Prereq: ANTH 150 or instructor's consent. Lukacs.

471/571 Zooarchaeology (4)
Hands-on experience with analysis and interpretation of bone and shell animal remains from archaeological sites. Seminar, laboratory. Prereq: ANTH 150; one upper-division prehistory course, instructor's consent. Moss.

473/573 Paleoanthropology (4)
Traces the development of hominid cultures.
survey of the main fossil discoveries, archaeological sites, and human skeletal collections. Prereq: ANTH 150, 170. Lukacs.

486/586 Japanese Society and Culture (4) Introduction to contemporary Japan; covers the family, work, gender, media, nationalism and transnationalism, and popular culture. Kelsky.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R)

606 Special Problems: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R) Current topics are California Prehistory, Great Basin Archaeology, Paleoanthropology of South Asia, Plateau Archaeology, and Spatial Archaeology.

608 Workshop: [Topic] (1–16R)

609 Practicum: [Topic] (1–16R)

610 Experimental Course: [Topic] (1–5R)

611 Ethnographic Research: Epistemology, Methods, Ethics (4) Introduces a variety of techniques in ethnographic research. Examines the relationships between methods, theory, and ethics.

612 Ethnographic Writing and Presentation (4) Focuses on field notes, ethnographic writing, and presentation. Students write from their own research. Prereq: ANTH 611.

680 Basic Graduate Physical Anthropology (5) Introduction to major subfields of physical anthropology; geochronology, primate classification, paleoprimatology, paleoanthropology, human biology and diversity, processes of evolution, and primate ethology.

681 Archaeology and Anthropology (5) Use by archaeologists of concepts drawn from anthropology; modifications and additions made necessary by the nature of archaeological data. Prereq: graduate standing in anthropology or instructor's consent.

682 Social Theory (5) Advanced theoretical topics in social anthropology and cultural studies. Topics and readings vary. Prereq: background in cultural anthropology or instructor's consent.

683 Anthropological Linguistics (5) Prereq: LING 421/521 or equivalent; instructor's consent.

685 Professional Writing (2–4) Covers the basics of professional writing for grant proposals, journal articles, and papers presented at professional meetings. Requires short proposal, longer proposal or article, and workshop participation. Prereq: instructor's consent. Biersack.

Anita M. Weiss, international studies (South Asia)

Undergraduate Studies

The Asian Studies Program's interdisciplinary programs lead to a bachelor of arts (B.A.) degree in major in Asian studies with an emphasis on Asia. Students who complete three years or equivalent in South Asian language study other institution may, with support of an Asian studies faculty adviser, construct a major in Southeast Asian studies.

Students may enhance majors in other departments with a minor in East Asian studies or Southeast Asian studies.

Students who major in Asian studies often complement their course work with a year or more of residence in Asia or double major to combine a profession with their area of expertise. Job possibilities are increasing in such fields as business, journalism, government, and education. Many students go on to graduate studies.

The curriculum includes courses in anthropology; art history; Chinese language and literature; dance; geography; history; international studies; Japanese language and literature; linguistics; political science; and religious studies. The program is administered by the Asian studies committee, which is composed of faculty members with Asian specializations.

Declaring a Major

To be accepted into the Asian studies major program, a student must

1. Request acceptance as a major in the Asian studies office before attending senior status
2. Submit a one-page statement of purpose designed to show sufficient understanding of Asian studies to conceptualize an interdisciplinary course of study leading to the B.A. degree
3. Have a minimum cumulative grade point average of 3.00

Depending on interests and career objectives, students are encouraged to discuss with their advisers or the program director the advisability of pursuing a second major in a supporting discipline or preprofessional program

Major Requirements

The major in Asian studies offers (1) strong training in at least one Asian language, (2) knowledge of the histories and cultures of the societies in which that language is used, (3) a sense of how academic disciplines contribute to interdisciplinary study, and (4) a knowledge of Asia beyond the primary language and civilization focused on in (1) and (2) above. The requirements for the major are derived from these objectives.

Students must complete 40 credits as specified below. Up to 8 of these credits may be taken pass/no pass. All other courses used to satisfy major requirements must be taken for letter grades and passed with grades of C- or better. Students should consult their advisers in planning programs of study.

1. History (12 credits). Three upper-division history courses (300 or 400 level) in the chosen civilization or region
2. Electives (16 credits). Four courses, chosen in consultation with an adviser
3. Discipline (12 credits). Three courses in one discipline other than history or language
4. Regional Breadth (8 credits). From the courses chosen in categories 2 and 3 above, at least two courses must be in areas outside the student's primary focus. For example, if the primary focus is Japan, the 8 credits must deal with China, Southeast Asia, or South Asia

5. Seminar (at least 3 credits). One 400-level seminar pertaining to the chosen civilization
Language Requirement. Students who major in Asian studies must complete three years of an Asian language: Chinese and Japanese are taught through the fifth year in the Department of East Asian Languages and Literatures. Languages must be taken for letter grades and passed with grades of C- or better. Under special circumstances, students may demonstrate an equivalent competence by examination or by work in advanced language courses.

Minor Requirements
Students should consult with the Asian studies director to determine whether a course has a full or partial focus on East Asia or Southeast Asia. A list of preapproved courses for either minor is available in the Asian studies office. Students should acquaint themselves with the availability of experimental courses offered each term and may pursue directed readings with East Asian or Southeast Asian specialists. First- and second-year language courses cannot be used to satisfy requirements for either minor.

East Asian Studies
Students who want a minor in East Asian studies must complete 24 credits distributed as follows:
1. 20 credits in courses with a focus entirely on East Asia. At least 12 credits must be upper division
2. 4 credits in courses with a partial focus on East Asia

Southeast Asian Studies
Students who want a minor in Southeast Asian studies must complete 24 credits distributed as follows:
1. 20 credits in courses with a focus entirely on Southeast Asia. At least 12 credits must be upper division
2. 4 credits in courses with a partial focus on Southeast Asia

Graduate Studies
The university offers an interdisciplinary program in Asian studies with an emphasis on East Asia leading to the master of arts (M.A.) degree. Students who complete three years or equivalent of Southeast or South Asian language study abroad or at another institution may, with support of an Asian studies faculty adviser, construct a concentration in Southeast Asian and/or South Asian studies. The M.S. degree program is inactive.

The curriculum includes courses in anthropology, art history, Chinese language and literature, geography, history, international studies, Japanese language and literature, linguistics, political science, and religious studies. The program is administered by the Asian studies committee, which is composed of faculty members with Asian specializations.

A bachelor's degree is required for admission, and it is expected that applicants have some undergraduate preparation in courses relating to Asia. Students lacking adequate Asian language or disciplinary training must take appropriate preparatory courses, for which no graduate credit is earned.

Prior to registration, the Asian studies committee assigns each student an adviser, who helps the student develop an individual program. At the end of the first year, the student should request that an Asian studies graduate committee be formed to provide guidance through the second year of study and thesis preparation. Graduate students should meet with their advisers at least once a term.

Application for Admission
An applicant for admission to the master's program must hold a bachelor's degree from an accredited four-year university. Required materials for admission and financial aid are:
1. University of Oregon application form and application fee
2. Transcripts of all college or university course work, including the final transcripts for any degree received
3. Three letters of recommendation
4. Statement of objectives
5. Test score for Graduate Record Examinations (GRE) or Test of English as a Foreign Language. International applicants must submit a score of at least 575 (paper-based test) or 233 (computer-based test) from the TOEFL if they have not received a bachelor's degree from a college or university in an English-speaking country
6. Supplementary Application and Financial Statement for International Students must be submitted by international students
7. Application for Graduate Award, if applying for a graduate teaching fellowship (GTF).
   a. GTF in Chinese. All applicants must submit a cassette tape of spoken Chinese
   b. GTF in Japanese. Nonnative speakers must submit a cassette tape of spoken Japanese

Applicants may read a story or essay on any subject for the tape submission
Application information and materials are available from the Asian studies office.

Second Master's Degree
Students enrolled in graduate programs of other departments may earn a second master's degree in Asian studies.

Besides satisfying the degree requirements set by their departments, such students must (1) complete 32 graduate credits in approved Asian-related courses and (2) demonstrate the language competence required for the M.A. degree in Asian studies. A required thesis applies the methodology of the student's discipline to an Asian subject.

The requirements for both the Asian studies and the departmental degree programs must be completed at the same time. A student completing this option is granted two master's degrees, one in Asian studies and another in the departmental discipline.

Master's Degree Requirements
Students pursuing an M.A. in Asian studies must complete 48 credits of graduate study, including at least 44 in Asian-related courses. Graduate credit for language study may only be earned for work beyond the third-year level.
1. Of the 44 credits, at least 12 must be earned in seminars or colloquia, including Perspectives on Asian Studies (ASIA 611) and Issues in Asian Studies (ASIA 612), which should be taken during the first year of study
2. To ensure interdisciplinary breadth, students must complete at least two courses in each of the following areas
   a. Humanities—courses in architecture, art history, literature, music, religious studies
   b. Social science—courses in anthropology, economics, geography, international studies, political science
   c. History
3. To ensure a cross-regional awareness, at least 8 credits of the 44 must be in courses about a culture or civilization other than the student's primary language and civilization focus
4. At least 9 of the 44 credits are earned in Thesis (ASIA 503). In unusual circumstances, students may petition the program committee to waive the thesis requirement for the degree. If the waiver is granted, the student is expected to complete 56 graduate course credits (of which at least 44 are Asia related), submit two substantial research papers on Asian topics developed in seminars or colloquia, and pass a general Asian studies field examination

A list of Asia-related courses approved for inclusion in the Asian studies graduate curriculum is available from the program coordinator.

The M.A. candidate is required to demonstrate competence in an approved Asian language equivalent to at least three years of college training. The language requirement is a critical part of the program and must be planned from the outset of graduate work, particularly if the student has no training in an Asian language. Languages offered at the University of Oregon are Chinese and Japanese. Graduate credit for language courses is earned only for work beyond the third year of language study.

Students should also review the Graduate School's regulations for information on the university's general master of arts degree requirements.

Undergraduate Studies
Biologists investigate a broad spectrum of questions about living organisms and life processes—the physical and chemical bases of life, how organisms and their component parts are structured, how they function, how they interact with their environment, and how they have evolved. Departmental teaching and research emphases in cellular and molecular biology, developmental biology, ecology and evolution, marine biology, and neurobiology offer students opportunities to learn from and work with scientists who are making important contributions to knowledge in these broad areas. Students also benefit from departmental research in science education, the results of which are being used to improve teaching at the university and throughout the country.

Students may enter the program with a high school education or transfer from a community college or university. The curriculum includes courses for majors in biology and related disciplines and for pre-professional courses that serve as important elements in a liberal education for students in other majors. Course work for the biology major provides an exceptional foundation for students who plan to study at a graduate or professional school.

Advising Center and Student Lounge
At the biology advising center, students can meet with trained peer advisors or the director of undergraduate advising to receive help in planning a program of study. The advising center also provides various resources including job and internship files, a file of special study opportunities, and graduate bulletins from many schools.

Nonmajors
Nonmajors courses, offered at the 100 level, are intended for students with little or no college
background in biology or chemistry. Content may vary from year to year, but focuses on the biological basis of topics in ecology, evolution, behavior, human physiology, and genetics.

Students who are contemplating a major in the sciences are advised to begin their biology course work with either of the 200-level introductory sequences. Students who want an overview of biology as part of preprofessional training for health-related fields, psychology, education, or environmental sciences should consider the three-term general biology sequence (BI 211–213). This sequence requires some background in mathematics and chemistry and prepares students to take many upper-division courses in biology. Some preprofessional students may want to take the biology major’s sequence (BI 261–264) even though they are not biology majors. Students who want help selecting appropriate courses should seek guidance from the biology undergraduate advising center.

**Majors**

**Preparation.** Modern biology is a quantitative science. Students planning to specialize in biology should include in their high school preparation as much mathematics, chemistry, and physics as possible.

**Transfer Students.** Students who intend to transfer after two years typically need to complete part of the introductory sequence for biology majors at the University of Oregon. In addition to completing the course work outlined for the first year, these students can facilitate completion of major requirements by taking a year of general physics for science majors, mathematics through two terms of calculus if not completed previously, and the organic chemistry required for the major.

**Careers.** Many students use the biology major as preparation for graduate programs or health-related professional programs. Others find employment in a variety of settings as exemplified by the following list of some positions held by graduates of the Department of Biology: wetlands biologist, biology preparator at a university, quality-control biologist, physician’s assistant, science teacher with the Peace Corps, pharmaceutical sales representative, medical technologist, marine-biology research scientist, environmental education technician, research scientist, U.S. Forest Service botanist, high school biology teacher, physical therapy assistant, owner of a software company, forensic scientist with the state police crime lab, owner of an oyster farm, fisheries biologist.

Biology majors are encouraged to become involved in a variety of learning experiences in addition to their college courses. Internships, community service, or similar experiences are increasingly important in securing jobs or a position in professional programs. Career-related information is available in the Career Center, 44 Hendricks Hall. Students are also encouraged to pursue resources in the biology undergraduate advising center.

**Major Requirements**

A major in biology leads to a bachelor of science (B.S.) or to a bachelor of arts (B.A.) degree. The latter requires completion of the foreign-language requirement. Twenty-four credits of biology that are applied to the major must be taken at the University of Oregon. Biology majors must either meet the major requirements in effect at the time they are accepted as majors or complete subsequent major requirements. Specific courses required for a major in biology are listed below.

1. General Chemistry (CH 221, 222, 223) or Honors General Chemistry (CH 224H, 225H, 226H)
2. General Chemistry Laboratory (CH 227, 228, 229) or Advanced General Chemistry Laboratory (CH 237, 238, 239)
3. Mathematics, to include Calculus I (MATH 251, 252) courses designed for life scientists; a course in statistics is recommended
4. General Physics (PHYS 201, 202, 203) or General Physics with Calculus (PHYS 211, 212, 213)
5. Organic chemistry sequence (CH 331, 332 or CH 331, 335, 336)
6. Foundations of Biology I,II,III,IV (BI 261–264). This curriculum is essential to understanding modern biology regardless of a student’s intended area of specialization. Because the sequence has specific and stringent prerequisites for enrollment, students should consult advisers in the biology undergraduate advising center for help in evaluating eligibility
7. A minimum of 40 upper-division biology credits with the following restrictions:
   a. At least one course in each of the three areas—cellular-molecular, systematics-organisms, and ecology-evolution
   b. At least 12 credits with a BI subject code and numbered 420 to 499
   c. At least two courses at the 300 or 400 level with significant laboratory or fieldwork

9. Handouts containing detailed information about limitations and allowances within the 40 upper-division credit requirement, descriptions of the 300-level areas, a list of approved courses from other departments, and a list of courses that fulfill the significant laboratory or fieldwork requirement are available at the biology undergraduate advising center

**Emphasis Areas in the Major**

Fulfilling the requirements for an undergraduate degree in biology provides a solid, general foundation in the discipline. Some biology majors may want to concentrate their studies in one of five emphasis areas: ecology and evolution; human biology; marine biology; molecular, cellular, and developmental biology; or neuroscience and behavior. The requirements listed for each emphasis may be fulfilled as the student completes the biology major. Upon graduation, students who complete the requirements for an emphasis area receive written recognition from the department.

**Ecology and Evolution credits**

- Evolution (BI 370) ........................................... 4
- Probability and statistics (MATH 243 or 425 or equivalent) .................................................. 4

At least two courses that provide an emphasis in ecology selected from Forest Biology (BI 307), Freshwater Biology (BI 308), Special Studies: Pollination Biology (BI 399), Marine Birds and Mammals (BI 455), Field Ornithology (BI 459), Quantitative Ecology (BI 473), Marine Ecology (BI 474), Freshwater Ecology (BI 475), and Botany (BI 480). At least three courses selected from Research (BI 401): Experimental Courses: Evolutionary Biology of Disease, Population Genetics, Experimental Design (BI 410); Algae and Photosynthetic Bacteria (BI 431), Mycology (BI 432), Systematic Botany (BI 442), Population Ecology (BI 471), Community Ecology (BI 472), Microbial Ecology (BI 477), Quantitative Genetics (BI 481), Conservation Biology (BI 483), or Molecular Evolution (BI 484) ........................................... 12

Students may apply up to 8 credits of course work from other departments to the emphasis in ecology and evolution. Select courses from Anthropology: Primates, Systematics and Taxonomy (ANTH 461), Paleoprimatology (ANTH 462), Primate Behavior (ANTH 463), Paleoecology and Human Evolution (ANTH 467)

**Geography.** Biogeography (GEOG 323), Advanced Climatology (GEOG 421), Advanced Biogeography (GEOG 423), Soil Genesis and Geography (GEOG 424), Vegetation History and Ecosystem Dynamics (GEOG 431)

**Geology.** Paleontology I (GEOL 431), Paleontology II (GEOL 432), Paleontology III (GEOL 433), Paleopedology (GEOL 435)

**Landscape Architecture.** Principles of Applied Ecology (LA 441)

**Human Biology credits**

- Practicum (BI 409) in biomedical research, medicine, allied health, or clinical practice ................................................. 2
- Career Center Mentor Program (BI 407) ........................................... 1
- Two cellular-molecular courses selected from Genetics (BI 320), Cell Biology (BI 322), Developmental Biology (BI 328), Neurobiology (BI 360), Special Studies: Human Genetics (BI 399) ........................................... 8
- Two systematics-organisms courses selected from Microbiology (BI 330) and Microbiology Laboratory (BI 331); Vertebrate Form and Function (BI 354); Vertebrate Evolution and Development (BI 355); Animal Physiology (BI 356); Special Studies: Investigations in Medical Physiology, Sensory Physiology (BI 399) ........................................... 8–9
- Two courses selected from Experimental Courses: Computational Neurobiology, Evolution of Development, Evolution of Nervous Systems, Experimental Design, Human Molecular Genetics, Mitochondria (BI 410); Systems Neuroscience (BI 461); Hormones and the Nervous System (BI 467) ........................................... 8
- Course work outside of departmental requirements selected from the list below ........................................... 12

- Anatomy, Human Anatomy I (ANAT 311), Human Anatomy II (ANAT 312)

- Anthropology. Human Ecology (ANTH 360), Human Evolution (ANTH 361), Human Biological Variation (ANTH 362), Nutritional Anthropology (ANTH 363), Evolutionary Biology of Primates (ANTH 364), Human Osteology Laboratory (ANTH 366), Human Adaptation
**Neuroscience and Behavior credits**

**Animal Use in Teaching Laboratories**

Students should be aware that the biology major program requires them to take courses in which they may have to perform experiments on a variety of organisms, including vertebrate animals.

Prospective biology majors who are concerned about this should discuss it with their advisers before beginning the biology program. Students are encouraged to review the syllabi for laboratory courses before enrolling. Each syllabus contains a list and brief descriptions of the laboratory exercises for that course or sequence. Syllabi are available in the biology undergraduate advising center and on the department’s web page.

Department and university policies require that the use of live vertebrate animals be minimized in teaching laboratories and be approved by the Curriculum Committee of the Department of Biology and the Institutional Animal Care and Use Committee of the University of Oregon. Students who have ethical objections to animal use in a course that requires it should consult the director of undergraduate advising before enrolling.

**Recommended Program**

Every student should consult an adviser in the biology undergraduate advising center for help in determining a program of study. Freshman biology majors enrolled in a calculus course typically take general chemistry with laboratories, and the first two terms of the biology sequence for majors (BI 261, 262). In the sophomore year, these majors take organic chemistry (CH 331, 332 or CH 331, 335, 336) and complete the last two terms of the major’s introductory sequence (BI 263, 264).

Upper-division biology electives and General Physics (PHYS 201, 202, 203) are typically taken by majors after successful completion of the major’s introductory sequence.

**Preprofessional Students**

Prehealth students who want to major in biology need to plan carefully to complete the biology major requirements and meet entrance requirements of professional schools. These students should consult a biology adviser as well as the professional area of their choice. See Preparatory Programs in the Educational Support Services section of this catalog for more information about these requirements.

---

**Marine Biology credits**

One cellular molecular course selected from Genetics (BI 320), Cell Biology (BI 322), Developmental Biology (BI 328), Neurobiology (BI 360) or equivalent.............. 4

One systematics organisms course selected from Microbiology (BI 330) and Microbiology Laboratory (BI 331), Plant Diversity and Physiology (BI 340), Vertebrate Form and Function (BI 354), Vertebrate Evolution and Development (BI 355), or Animal Physiology (BI 356) .......... 4-5

One ecology evolution course selected from Marine Biology (BI 357), Ecology (BI 370), Biological Diversity (BI 375), Evolution (BI 380), or Animal Behavior (BI 390) ....... 4

Course work selected from Experimental Course: Marine Molecular Physiology (BI 410), Invertebrate Zoology (BI 451), Biological Oceanography (BI 455), Marine Ecology (BI 474), Marine Birds and Mammals (BI 455), Marine Biology (BI 457) ...... 13

Spend at least one term (fall or spring) or a summer session at the Oregon Institute of Marine Biology in Charleston, Oregon, and take the marine biology seminar (BI 407)

**Molecular, Cellular, and Developmental Biology credits**

**Animal Use in Teaching Laboratories**

Students should be aware that the biology major program requires them to take courses in which they may have to perform experiments on a variety of organisms, including vertebrate animals.

Prospective biology majors who are concerned about this should discuss it with their advisers before beginning the biology program. Students are encouraged to review the syllabi for laboratory courses before enrolling. Each syllabus contains a list and brief descriptions of the laboratory exercises for that course or sequence. Syllabi are available in the biology undergraduate advising center and on the department’s web page.

Department and university policies require that the use of live vertebrate animals be minimized in teaching laboratories and be approved by the Curriculum Committee of the Department of Biology and the Institutional Animal Care and Use Committee of the University of Oregon. Students who have ethical objections to animal use in a course that requires it should consult the director of undergraduate advising before enrolling.

**Recommended Program**

Every student should consult an adviser in the biology undergraduate advising center for help in determining a program of study. Freshman biology majors enrolled in a calculus course typically take general chemistry with laboratories, and the first two terms of the biology sequence for majors (BI 261, 262). In the sophomore year, these majors take organic chemistry (CH 331, 332 or CH 331, 335, 336) and complete the last two terms of the major’s introductory sequence (BI 263, 264).

Upper-division biology electives and General Physics (PHYS 201, 202, 203) are typically taken by majors after successful completion of the major’s introductory sequence.

**Preprofessional Students**

Prehealth students who want to major in biology need to plan carefully to complete the biology major requirements and meet entrance requirements of professional schools. These students should consult a biology adviser as well as the professional area of their choice. See Preparatory Programs in the Educational Support Services section of this catalog for more information about these requirements.
Although Organic Chemistry Laboratory (CH 337, 338) and Introductory Physics Laboratory (PHYS 204, 205, 206) are not required for the biology major, they are required for programs at most professional schools, including many programs at the Oregon Health Sciences University in Portland.

Honors Program in Biology

Biology majors who satisfy the following requirements are eligible to graduate with honors in biology.

1. Complete all of the requirements for the major in biology
2. Earn a minimum GPA of 3.30 in biology courses that are applied to the major
3. Take biology courses used to satisfy biology major requirements for letter grades
4. Register for the honors program through the biology undergraduate advising center, which includes obtaining an acceptance signature from the faculty research adviser and an honors committee member, before beginning research
5. Complete a minimum of 9 credits in Research (BI 401) during three consecutive terms
6. Complete a thesis based on laboratory or library research that is approved by the biology honors committee and the faculty adviser
7. Defend the thesis in a public forum

For more information, see an adviser in the biology undergraduate advising center.

Special Opportunities for Biology Undergraduates

Students majoring in biology may take advantage of opportunities to participate in research: attend department research seminars; work as a teaching assistant, computer laboratory assistant, tutor, or a peer adviser; spend a term at OIMB; or participate in other related activities.

Credit may be earned for conducting research under the supervision of a faculty member by enrolling in BI 401. For more information, consult individual faculty members in the department.

Students are invited to attend seminars that feature visiting and local scientists.

Students may assist in teaching laboratory sections of some biology courses. Applications are filed with the department for the limited number of assistantships available.

Peer advising is another way for students to become involved in the department. Interested students are trained during the spring term before the year they plan to work in the advising center.

Students interested in marine biology may spend one or more terms at OIMB, the university’s marine laboratory. Interested students should plan to attend during their junior or senior years.

Students are encouraged to express ideas and offer suggestions about curriculum and student relations to the chair of the department’s curriculum committee, the director of undergraduate advising, the chair of the student relations committee, or the head of the department.

Students are asked to evaluate their biology courses and instructors near the end of each term. This information is available to instructors after the end of the term and placed on file for possible use in promotion and tenure deliberations. Student answers to summary questions are available in electronic format in Knight Library and in the Office of Academic Advising and Student Services.

Efforts to improve biology education through student feedback is highlighted by the Biology Teacher Recognition award. Initiated by student nominations, the award recognizes faculty members and teaching assistants who excel in one or more aspects of teaching effectiveness.

Minor in Biology

Students interested in a minor in biology should develop a plan for the minor in consultation with an adviser in the biology advising center. Students completing the minor in biology must provide the biology adviser with a transcript or transfer evaluation that shows any transfer courses applied to the minor.

Requirements

At least 28 credits of biology that includes

1. Completion of an introductory biology sequence: BI 211–213 or its equivalent or BI 261–264
2. At least 16 credits of upper-division biology course work. No more than 8 credits from BI 401–419 may be applied to the minor. Including no more than 4 credits from BI 401–409. Students who complete BI 261–264 may apply 4 credits to the 401–419 category
3. At least 16 credits of biology applied to the minor must be taken at the University of Oregon
4. Course work must be completed with grades of C-, or better

Middle and Secondary School Teaching

The College of Education offers a five-year program for middle-secondary teaching licensure in biology and integrated sciences. This program is described in the College of Education section of this catalog.

Graduate Studies

The department offers graduate work leading to the degrees of master of arts (M.A.) and master of science (M.S.) and the doctor of philosophy (Ph.D.) degree. The department’s primary emphasis for graduate study is the Ph.D. program.

Applications are reviewed by members of the following programs:

1. Molecular and cellular biology
2. Neurosciences and development
3. Ecology and evolution
4. Marine biology

Interdisciplinary opportunities are available among the programs in biology as well as between biology and other departments, e.g., chemistry, physics, and psychology. Financial support for graduate students is available through teaching grants, research grants, and teaching assistantships.

Detailed information about the graduate program, faculty research interests, and physical facilities is available at the biology department web site.

Master’s Degree. Master’s degrees earned on the UO campus generally emphasize ecology and evolution and can involve research on terrestrial, aquatic, or marine organisms.

Candidates for the master’s degree complete one of the following sets of requirements:

1. A minimum of 60 credits of course work and the preparation of a critical essay
2. 45 credits of course work and the completion of a research project that is presented as a thesis

Two years are typically required for completion of the master’s degree. More information is available from the biology department graduate secretary.

A two-year master’s degree with a specialty in marine biology is offered at the Oregon Institute of Marine Biology in Charleston. Master’s degree students enrolled in the program at the institute must be admitted to the thesis master’s option. These programs provide training for a variety of careers in aquatic or marine biology or serve as preparation for advancement to a Ph.D. program at another institution.

Students may be able to accelerate completion of a master’s degree program by completing graduate courses while still in the undergraduate program. For information see Reservation of Graduate Credit in the Graduate School section of this catalog.

Ph.D. Degree. During the first year, students take courses in their area of interest and participate in a laboratory rotation program. The rotations provide direct exposure to research activities in three laboratories and are therefore invaluable in choosing a laboratory in which to carry out dissertation research. After the first year in the program, students devote nearly all their efforts to research. These activities culminate in the public defense of a dissertation.

Admission

An application, reference forms, and additional information may be obtained from the department’s web site or from the department office.

Requirements for admission to the graduate program include the following:

1. A completed application for admission form
2. Three letters of recommendation
3. Transcripts of all college work
4. Scores on the quantitative, verbal, and analytical sections of the Graduate Record Examinations
5. TOEFL score of 600 or better for international students

Completed application forms, copies of college transcripts, and letters of reference should be sent to the department’s graduate secretary. Official transcripts of all college work must be sent directly to the UO Office of Admissions.

Application Deadline. Application materials must be received by the department by January 10 when the graduate admissions committee begins reviewing applications.

Institute of Molecular Biology

To foster research and training, the institute brings together scientists from various disciplines who have common intellectual goals and provides them with a well-maintained, shared facility. Research is directed toward understanding basic cellular, genetic, and developmental mechanisms
in both eukaryotes and prokaryotes. The faculty members of the institute hold appointments in biology, chemistry, or physics departments. The research community also includes approximately twenty affiliated faculty members, sixty postdoctoral fellows, and ninety doctoral students. Graduate students are admitted into academic departments and subsequently receive their degrees through those departments. They may, however, choose any faculty member as a dissertation adviser. For more information see the Research Institutes and Centers section of this catalog, or send inquiries to the director of the institute.

Institute of Neuroscience
Neuroscientists in the biology, computer and information science, exercise and movement science, and psychology departments have formed an interdisciplinary institute in the neuroscience. Faculty members are engaged in research in cellular neuroscience, developmental biology, systems neuroscience, neural plasticity, and cognitive neuroscience. A coordinated graduate-degree program of instruction and research is available to students through any of the participating departments. For more information see the Research Institutes and Centers section of this catalog.

Ecology and Evolution Program
The ecology and evolution program is strong in the areas of population biology and evolutionary genetics. Active research programs emphasize life-history evolution, photoperiodism and seasonal development, ecological genetics, plant-fungus and plant-insect interactions, molecular evolution, theoretical ecology, and microbial ecology. Most laboratories use several approaches to answer a variety of questions and capitalize on the wealth of habitats near the Eugene campus.

Developmental Biology Program
A rigorous graduate training program investigates the mechanisms that lead from a fertilized egg to an adult organism. Various laboratories in the Institute of Neuroscience and of Molecular Biology are investigating how cell polarity is established in yeast, C. elegans embryos, and Drosophila stem cells; how asymmetric cell division is regulated; how signals program cell-fate choice in vertebrates, invertebrates, and plants; how vertebrate Drosophila and C. elegans embryos establish major body axes; how neuronal diversity is generated in zebrafish and C. elegans embryos. Most laboratories institute hold appointments in the Institutes of Neuroscience and of Molecular Biology. For more information see the Research Institutes and Centers section of this catalog.

Oregon Institute of Marine Biology
The Oregon Institute of Marine Biology offers a full program of study and research for graduate students. Graduate courses are offered mainly during summer session and fall and spring terms, and research is conducted year round. The graduate program coordinator, See also the Research Institutes and Centers section of this catalog.

Environmental Studies
An interdisciplinary master’s degree is offered by the Environmental Studies Program. Graduate courses in geography, planning, public policy and management, biology, economics, and other disciplines constitute the program. Address inquiries to the Director, Environmental Studies Program, 10 Pacific Hall, 5223 University of Oregon, Eugene OR 97403-5223.

Biology Courses [BI]
Current course syllabi, detailed course descriptions, and a tentative schedule of the year’s course offerings can be found on the department’s website and in the undergraduate advising center. An extra fee may be charged for courses that have laboratories or field trips.

120 Reproduction and Development (4)
Intended to help nonscientists understand biomedical information encountered in daily life. Human reproduction and development in the light of modern scientific experience. Lectures, laboratory.

121 Introduction to Human Physiology (4)
Study of normal body function at the organ level, emphasizing basic physiological principles. No chemistry background required. Lectures, laboratory.

122 Introduction to Human Genetics (4)
Basic concepts of genetics as they relate to humans. Blood groups, transplantation and immune reaction, prenatal effects, the biology of twinning, selection in humans, and sociological implications. Lectures, discussion.

123 Biology of Cancer (4)
Comparison of cancer cells with normal cells; causes of cancer, including viral and environmental factors; and the biological basis of therapy. Lectures, discussion.

130 Introduction to Ecology (4)
The concept of an ecosystem; organismal energetics; biogeochemical cycles; succession; population growth; species interactions, species diversity; implications for human ecosystems. Lectures, discussion.

131 Introduction to Evolution (4)
Darwinian evolution; examples from modern ecology, population genetics, the fossil record. Mechanisms of evolution, speciation, and extinction. Lectures, discussion.

132 Introduction to Animal Behavior (4)
Animal behavior, its evolutionary origins, and its neural mechanisms. Readings and films illustrate the adaptive nature of orientation, navigation, communication, and social behavior. Lectures, discussion.

196 Field Studies: [Topic] (1–2R)
198 Laboratory Projects: [Topic] (1–2R)
199 Special Studies: [Topic] (1–5R)
Topics include Introduction to Health Professions, Medical Terminology, and a variety of freshman seminars.

211 General Biology I: Cells (4)
How cells carry out functions of living organisms; genetic basis of inheritance; how genes and proteins work. Lectures, laboratory-discussion. Pre- or coreq: one term of college-level general chemistry (CH 111 or higher) or equivalent.

212 General Biology II: Organisms (4)
How cells develop and interact within complex organisms. Comparative anatomy and physiology of plants, animals, and fungi. Lectures, laboratory-discussion. Prereq: C– or better in BI 211.

213 General Biology III: Populations (4)
How organisms interact with their environments and with each other: ecology, evolution, and behavior. Lectures, laboratory-discussion. Prereq: C– or better in BI 211, MATH 95 or higher.

261 Foundations I: Genetics and Evolution (5)
Genetic basis of life and evolutionary basis of biological diversity. Prereq: grade of P or C– or better in first or third term of college-level general chemistry; pre- or coreq: second term of college-level general chemistry.

262 Foundations II: Molecular Genetics (5)
Biological processes of reproduction and variation at the molecular level. How genes and proteins interact. Lectures, laboratory. Prereq: grades of P or C– or better in BI 261 and second term of general chemistry; pre- or coreq: third term of general chemistry.

263 Foundations III: Biochemical Basis of Life (5)
How macromolecules generate the structural elements of living cells and direct universal cellular functions such as the interconversion of food and energy. Lectures, laboratory. Prereq: grades of P or C– or better in BI 262 and third term of general chemistry. Pre- or coreq: CH 391.

264 Foundations IV: Biological Interactions (5)
How living organisms develop, function as a whole, and interact with each other. Lectures, laboratory. Prereq: grade of P or C– or better in BI 263.

307 Forest Biology (4)
Structure and function of forest ecosystems emphasizing the Pacific Northwest. Interactions among trees, micro-organisms, and animals; disturbance and recovery, forest management. Lectures, laboratory, field trips. Prereq: BI 213 or 264 or instructor’s consent.

308 Freshwater Biology (4)
Environments of lakes and streams. Effects of physical and chemical factors on organisms, biological interactions, nutrient cycles, results of human activities. Lectures, laboratory. Prereq: BI 213 or 264 or instructor’s consent.

320 Genetics (4)
Molecular mechanisms regulating control of gene expression. Topics include chromosome structure, transcription and processing of RNA, control of transcription, translational control, and genetic rearrangement. Prereq: BI 264 or instructor’s consent.

322 Cell Biology (4)
Eukaryotic cell nuclear structure and exchange, protein trafficking, endocytosis, chaperones, cytoskeletal functions, intercellular junctions, extracellular materials, signaling, cell division mechanics and controls, aging and death. Lectures, laboratory-discussion. Prereq: BI 211–213 or BI 264 or instructor’s consent.

328 Developmental Biology (4)
Topics include gene regulation, nuclear-cytoplasmic interactions, organogenesese, morphogenesis, pattern formation, cell differentiation, and neoplasia. Lectures, laboratory. Prereq: BI 264 or instructor’s consent.

330 Microbiology (3)
Biology of bacteria: photosynthetic, heterotrophic, and others. Cell structure and function, metabolism including anaerobic and O2-producing photosynthesis, nitrogen fixation, species interactions, and role in major geochemical cycles. Prereq: BI 263 or instructor’s consent.

331 Microbiology Laboratory (2)
Microbial diversity through laboratory projects involving enrichments, culture isolations, and partial
characterizations. Pre- or coreq: BI 330 or instructor's consent. Two scheduled laboratories per week; additional unscheduled time required.

340 Plant Diversity and Physiology (4) Structure, development, and physiology of the important plant divisions, including adaptations essential for colonization and survival in various aquatic and terrestrial environments. Lectures, laboratory. Prereq: BI 211–213 or BI 264 or instructor's consent.

354 Vertebrate Form and Function (4) Evolution of the skeleton and locomotor adaptations. Comparative anatomy and evolution of major body systems of vertebrates and their adaptations to various environments. Lectures, laboratory. Prereq: BI 213 or 264 or instructor's consent. Offered at Oregon Institute of Marine Biology.

355 Vertebrate Evolution and Development (4) Comparisons of vertebrate organs and tissues with emphasis on evolutionary trends, development, and diversification. How origins of novel structures may arise by changes in regulatory gene activities. Prereq: BI 264.

356 Animal Physiology (4) Neurophysiology, endocrinology, muscle contraction, and homeostatic mechanisms of circulation, respiration, metabolism, ionic regulation, and excretion in mammals; comparison with those in other animals. Lectures, laboratory. Prereq: BI 211–213 or BI 264 or instructor's consent.

357 Marine Biology (4) Ecology and physiology of marine plants and animals. Comparisons of various marine habitats. Human influences on marine systems. Prereq: BI 213 or 264 or instructor's consent. Not open to students who have credit for BI 453 or 474.

360 Neurobiology (4) Function of the nervous system from the single neuron to complex neural networks. Topics range from molecular and cellular neurobiological mechanisms to systems and behavioral analyses. Prereq: BI 211–213 or BI 264 or instructor's consent.

370 Ecology (4) The relationship of organisms to their environment in space and time. Factors controlling the distribution and abundance of organisms, introductions to community systems, and paleoecology. Required fieldwork. Prereq: BI 211–213 or BI 264 or instructor's consent. Calculus or statistics recommended.

375 Biological Diversity (4) Patterns of global biological diversity in space and time; major systematic groups of organisms and their ecological roles; historical and human effects on biological diversity. Prereq: BI 213 or 264 or instructor's consent.

380 Evolution (4) Origin and maintenance of genetic variability. Speciation and geographic patterns of variation. Application of population genetics to understanding evolutionary processes; modes of speciation. Prereq: college algebra and BI 264, or instructor's consent.

399 Special Studies: [Topic] (1–5R) R when topic changes.

401 Research: [Topic] (1–16R)

402 Supervised College Teaching (1–6R) R for maximum of 9 credits.

403 Thesis (1–16R)

404 Reading and Conference: [Topic] (1–16R)

406 Field Studies: [Topic] (1–16R)

407/507 Seminar: [Topic] (1–2R) Topics vary from year to year.

408/508 Laboratory Projects: [Topic] (1–16R) Special laboratory training in research methods. A fee may be charged for supplies and materials that become the property of the student.

409 Practicum: [Topic] (1–6R)

410/510 Experimental Course: [Topic] (1–16R) Topics vary from year to year.

417/517 Techniques in Electron Microscopy (5) Techniques in biological electron microscopy, including fixation, embedding, thin section, positive and negative staining, shadowing, and microscope operation. Emphasis on transmission electron microscopy. Prereq: instructor's consent.

424/524 Advanced Molecular Genetics (4) Structure and function of chromosomes with emphasis on unsolved genetic problems such as genomic imprinting, position effects, and gene silencing. Prereq: BI 320 or instructor's consent.

428/528 Developmental Genetics (4) Genetic regulation of development, including investigations of molecular mechanisms and studies of developmental mutants. Topics include molecular biology of eukaryotic chromosomes, genetic mosaics, and models of gene regulation. Prereq: BI 320 or 328 or instructor's consent.

432/532 Mycology (5) Physiology, ecology, structure, and classification of fungi; emphasis on structural and functional adaptations to saprophytic, parasitic, and symbiotic modes of existence. Prereq: BI 264 or instructor's consent.

448/548 Field Botany (4) Field study and identification of the higher plant flora of northwest Oregon. Recognition of principal families and of diverse plant communities; utilization of materials for laboratory teaching. Prereq: one year of biology or instructor's consent. Offered summer session only.

451/551 Invertebrate Zoology (5–8) Representative invertebrate groups with emphasis on marine forms; morphology, systematics, life history, and ecology. Lectures, laboratory. Prereq: instructor's consent. Offered at Oregon Institute of Marine Biology.

458/558 Biological Oceanography (5) Examines patterns of biological productivity and controlling physical and chemical mechanisms in the various environments of the world's oceans. Lectures, laboratory. Prereq: BI 264 or instructor's consent. Offered at Oregon Institute of Marine Biology.

459/559 Field Ornithology (4) Natural history and identification of birds. Fieldwork emphasizes adaptation, behavior, breeding, distribution, migration, and ecology. Offered summer session only.

461/561, 462/562, 463/563 Biochemistry (4,4,4) See Chemistry

463/563 Cellular Neuroscience (4) Physiology of excitation, conduction, and synaptic transmission. Prereq: BI 360 or instructor's consent.

466/566 Developmental Neurobiology (4) Mechanisms underlying development of the nervous system. The genesis of nerve cells; differentiation of neurons; synaptogenesis and neuronal specificity; plasticity, regeneration, and degeneration of nervous systems. Prereq: BI 320 and 328, or instructor's consent.

467/567 Hormones and the Nervous System (4) Effects of hormones on neuronal structure and function in vertebrates and invertebrates, particularly during development and metamorphosis. Relationship between neural and behavioral changes. Prereq: BI 360 or instructor's consent.

467/567 Biochemistry Laboratory (4) See Chemistry

471/571 Population Ecology (4) Theoretical, experimental and applied aspects of growth, population estimation; demographic analysis; life-history theory. Prereq: BI 370 or instructor's consent.

472/572 Community Ecology (4) Quantitative and conceptual approaches to the study of biological communities. Biodiversity measurement. Effect of climate and climate change on ecosystem structure and function. Prereq or coreq: BI 370 or BI 380 or instructor's consent.
Canadian Studies
Bryan T. Downes, Committee Chair

102 Hendricks Hall

Steering Committee
John H. Baldwin, planning, public policy and management
Doug Blandy, arts and administration
Gaylene Carpenter, arts and administration
Bryan T. Downes, planning, public policy and management
Paul Goldman, educational leadership
Steven Hecker, labor education and research
Jon L. Jacobson, law
Ronald W. Kellett, architecture
Glen A. Love, English
Madoona L. Moss, anthropology
Larry L. Neal, academic affairs
Deanna M. Robinson, journalism and communication
Everett G. Smith Jr., geology
Ted D. Smith, library
Janet Wasko, journalism and communication

About the Program
The University of Oregon does not have a formal department of Canadian studies. The Canadian studies committee seeks to integrate existing instructional and research activities on Canada and Canadian–United States relations and to stimulate research and course work. Through the auspices of the Canadian Publishing Centre, the University of Oregon Library System is a selected repository for Canadian federal documents. Grant programs—available through the Academic Relations Division of the Canadian Embassy—to support new course development, faculty and doctoral research, conferences, and outreach programs—have provided funds for a number of university faculty members and graduate students. Canadian studies courses enhance American students’ understanding of Canada’s economy, politics, culture, and social system as well as the strong ties that exist between the United States and Canada. For more information, contact the committee chair.

Information about other courses with content on Canada is available from the committee chair.
The Department of Chemistry offers bachelor of arts and bachelor of science degrees with majors in chemistry or biochemistry. The department enjoys a strong national reputation. A recent American Council on Education survey identifies the department among the thirty strongest in the nation.

The curriculum in chemistry is designed to provide broad knowledge of the field as a part of the liberal education offered by the College of Arts and Sciences. Chemistry course work is a sound foundation for students interested in advanced work in such fields as biochemistry, molecular biology, biology, pharmacy, pharmacology, physiology, medicine, medicinal chemistry, materials science, metallurgy, neuroscience, oceanography, forensic science, geochronology, geological sciences, atmospheric science, and environmental sciences. Chemists also find jobs in science writing, public relations, personnel, plant production, sales, management, safety management, market research, patent law, and financial analysis. The alumni newsletter, Chemistry News, has examples of careers UO majors have chosen. Follow the links from the department's web page.

Chemistry Major

The program described below is the recommended curriculum for chemistry majors. It includes courses in chemistry and related fields. Courses taken to satisfy major requirements must be passed with grades of C- or better. Variations in courses and order may be worked out in consultation with an adviser. Advisers can also provide lists of substitute courses and courses that are recommended but not required.

Students are encouraged to participate in Research (CH 401).

Related Science Requirements

- Introduction to Differential Equations (MATH 256)............................ 12
- Several-Variable Calculus I (MATH 281)........................................ 8
- Foundations of Physics I (PHYS 251, 252, 253)................................ 12
- General Physics I (PHYS 201, 202, 203)........................................ 12
- Introductory Physics Laboratory (PHYS 204, 205, 206)........................ 6

Advanced Electives

- Mechanics, Electricity, and Magnetism (PHYS 412, 413)......................... 8
Honors Program
The criteria used for the selection of students who graduate with departmental honors in chemistry or biochemistry are:
1. Grade point average (GPA) of 3.50 or higher in all graded courses
2. Suitable accomplishment in undergraduate chemical or related research. Specifically, the student must pursue a research problem for one academic year or longer and be recommended as worthy of honors by the faculty supervisor. Positive accomplishment and publishable results are expected but not required.
3. Completion of two years of a college-level second language
4. Endorsement for a major with honors by a member of the university faculty
5. Completion of all course requirements for the B.S. degree in chemistry. Waivers or substitutions allowed with the chemistry faculty’s approval.

Academic Minors for Chemistry Majors
A carefully chosen minor can complement and enhance undergraduate study in chemistry. Following is a selection of academic minors that chemistry majors might want to consider: biology, business administration, computer and information science, economics, environmental studies, exercise and movement science, geological sciences, mathematics, or physics.

Middle and Secondary School Teaching
The College of Education offers a fifth-year program for middle-secondary teaching licensure in chemistry and integrated sciences. This program is described in the College of Education section of this catalog.

Graduate Studies
Graduate work in chemistry is a research-oriented Ph.D. program with options in organic chemistry, organometallic chemistry, inorganic chemistry, physical chemistry, materials science, biochemistry, and molecular or cell biology. Master of science (M.S.) and master of arts (M.A.) degrees are also offered.

A strength of the University of Oregon program is its interdisciplinary approach to research and teaching. Many important advances in chemistry occur at the junctions of classically defined divisions of science. Collaborative interaction of these divisions is fostered through interdisciplinary research institutes. Chemical scientists may be interested in the Institute of Molecular Biology, the Institute of Theoretical Science, the Materials Science Institute, the Oregon Center for Optics, and the programs in cell biology and in molecular synthesis, structure, and dynamics.

First-year students are offered financial assistance through graduate teaching fellowships (GTFs). Research assistantships are typically available for students with advanced standing. These research appointments are funded through grants to the university by federal agencies and private (industrial) sources for support of the basic research programs in the department. Students are selected for these positions based on their interest in a particular research area and by mutual agreement of the student and the faculty member directing the work.

Although subject to variation, stipends for students with advanced standing. These research appointments are funded through grants to the university by federal agencies and private (industrial) sources for support of the basic research programs in the department. Students are selected for these positions based on their interest in a particular research area and by mutual agreement of the student and the faculty member directing the work.

structure-property relationships of condensed phase materials and foster collaboration among the materials science departments. These programs are interdepartmental and research-oriented.

One of the most active areas of research is the study of the molecular bases of cell function, including synthesis of macromolecules, regulation of gene expression, development, cell movement, and the structure and function of biological membranes. Research in these areas has been fostered by close collaboration among biologists, chemists, and physicists. The interdisciplinary nature of these programs has been greatly strengthened by the Institute of Molecular Biology and the program in cell biology. Eight members of the chemistry department are affiliated with these programs. Entering graduate students are in an excellent position to take advantage of the molecular-oriented avenues to the study of biological problems.

Biochemistry, Molecular Biology, Cell Biology

The synthesis of new chemical substances and physical properties is at the heart of organic, bioorganic, organometallic, inorganic, and materials chemistry. Research and teaching in these traditionally distinct subareas is unified through a single, cohesive organic-inorganic area in the chemistry department.

Undergraduate students, graduate students, and postdoctoral researchers in organic-inorganic chemistry enjoy an especially broad education in physical chemistry. The synthesis of new chemical substances and physical properties is at the heart of organic, bioorganic, organometallic, inorganic, and materials chemistry. Research and teaching in these traditionally distinct subareas is unified through a single, cohesive organic-inorganic area in the chemistry department. biological applications, and environmental studies. Topics include atomic structure, solutions, acids, bases, stoichiometry, equilibrium, biomolecules, and functional groups. Lecture, demonstration. Prereq: MATH 95.

196 Field Studies: [Topic] (1–2R)

198 Workshop: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R) R when topics change.

211, 212, 213 Introductory General Chemistry (4,4,4) Students can receive credit for only one of the following sequences: CH 211–213 or 221–223 or 224–226H. Not offered 2001–2.

221, 222, 223 General Chemistry (4,4,4) First-year university chemistry: atomic and molecular structure, thermodynamics, equilibrium, physical properties, and the chemical reactions of the elements. Lectures. Prereq: high school chemistry; coreq: MATH 111, 112 or equivalents. Concurrent calculus recommended. Students can receive credit for only one of the following sequences: CH 211–213 or 221–223 or 224–226H.

224, 225, 226 (H) Honors General Chemistry (4,4,4) First-year university chemistry for students with excellent backgrounds in high school chemistry, physics, and mathematics. Chemical structure, equilibrium dynamics, reactions, thermodynamics, and an introduction to quantum chemistry. Pre- or coreq: calculus. Coreq: CH 237, 238, 239. Limited to selected students; primarily for prospective chemistry and science majors and for Clark Honors College students. Students can receive credit for only one of the following sequences: CH 211–213 or 221–223 or 224–226H.

277, 278, 229 General Chemistry Laboratory (2,2,2) Teaches laboratory skills through chemical reactions and writing equations, phase diagrams, equilibrium constants, acid-base titrations, volumetric analysis, voltaic cells, exercises in kinetics and inorganic chemistry. Pre- or coreq: CH 211, 212, 213 or CH 221, 222, 223 or instructor's consent.

237 Advanced General Chemistry Laboratory (2) Experiments in chemistry emphasize gravimetric techniques, periodic relationships, chemical equations, phase diagrams, volumetric and spectrophotometric techniques. Coreq: CH 224H or instructor's consent.

238, 239 Advanced General Chemistry Laboratory (2,2) Experiments in chemistry use spectrophotometric, titrmetric, and electrochemical techniques and culminate in a laboratory research project. Coreq for 238: CH 225H; coreq for 239: CH 226H; or instructor's consent.

331 Organic Chemistry I (4) Structure, properties, and bonding of organic molecules. Prereq: CH 213 or 223 or 226H. Concurrent CH 337 recommended.

332 Organic Chemistry of Biological Molecules (4) Organic chemistry of the major classes of biomolecules (carbohydrates, lipids, amino acids, proteins, nucleic acids) with a focus on biological aspects. Prereq: CH 331. Concurrent CH 338 recommended. For biology majors and students in prehealth sciences, environmental sciences, and programs that do not require a full-year sequence in organic chemistry. Students cannot receive credit for both CH 332 and 333.

336 Organic Chemistry III (4) Organic chemistry of biomolecules with a focus on chemical aspects. Prereq: CH 335. Concurrent CH 339 recommended. For chemistry majors, premedical and predental students. Students cannot receive credit for both CH 332 and 336.

337, 338 Organic Chemistry Laboratory (3,3) Principles and techniques of laboratory practice in organic chemistry. Prereq: CH 229 or 239; pre- or coreq: CH 331, 332 or CH 331, 335.

339 Organic Analysis (4) Qualitative analysis and structure determination of unknowns. Pre- or coreq: CH 337, 338 with grades of C– or better and CH 331. 335, 336 or equivalents or instructor's consent. For chemistry majors and others who require a year of organic laboratory.

360 Physiological Biochemistry (4) Topics include protein structure and function, enzyme mechanisms, central metabolism and bioenergetics, integration and regulation of metabolism, cytoskeleton, muscle and hormone action, and muscle physiology. Prereq: CH 332 or instructor's consent. Not offered 2001–2.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–21R) An introduction to methods of chemical investigation for advanced undergraduates by arrangement with individual faculty members.

403 Thesis (1–21R) Open to students eligible to work for a bachelor's degree with honors in chemistry or biochemistry.

405 Reading and Conference: [Topic] (1–21R)

406 Field Studies: [Topic] (1–21R)

407/507 Seminar: [Topic] (1–5R) Biochemistry seminar for undergraduates who have completed or are enrolled in CH 461, 462, 463. No graduate credit.

408/508 Workshop: [Topic] (1–21R)

409 Special Laboratory Problems (1–21R) Nonresearch-oriented laboratory instruction and off-campus research and laboratory experience. Prereq: instructor's consent.

410/510 Experimental Course: [Topic] (1–5R)

411/511, 412/512, 413/513 Physical Chemistry (4,4,4) Methods of physics applied to chemical problems in chemistry, including inorganic, organic, and biochemistry. Introduction to chemical thermodynamics, rate processes, and quantum chemistry. Prereq: two years of college chemistry (except for physics majors), PHYS 211, 212, 213 or PHYS 201, 202, 203; MATH 253; MATH 256, 281, 282 strongly recommended.

417/517, 418/518, 419/519 Physical Chemistry Laboratory (4,4,4) Experiments in physical chemistry, chemical kinetics, and molecular spectroscopy to illustrate theoretical principles. Prereq: PHYS 204, 205, 206; pre- or coreq: CH 413/511, 412/512, 413/513.

429 Instrumental Analysis (5) Use of instrumental methods for quantitative determinations of unknown chemical samples. Prereq: CH 417 or instructor's consent.

431/531, 432/532, 433/533 Inorganic Chemistry (4,4,4) 431/531: Introduction to chemical bonding and group theory for molecular symmetry. Multielectron approximations, valence bond and molecular orbital theories, and crystal field theory of transition metal compounds. 432/532, 433/533: syntheses, structures, reactions, and reaction mechanisms of coordination complexes, solid state materials, and biomimetic molecules. Prereq: CH 413/513; concurrent CH 441/541 recommended.

441/541 Quantum Chemistry (4) The principles of time-independent quantum mechanics and their application to model atomic and molecular systems. Prereq: CH 413/513 or equivalent.

442/542, 443/543 Quantum Chemistry and Spectroscopy (4,4) 442/542: Molecular structure theory, perturbation theory, time-dependent quantum mechanics, theory of spectra, selection rules. 443/543: Experimental spectra of atomic and molecular systems and surfaces. Prereq: CH 441/541 or equivalent.

444/544 Chemical Thermodynamics (4) The laws of thermodynamics and their applications, including those to nonideal chemical systems. Prereq: CH 413/513 or equivalent.

445/545 Statistical Mechanics (4) Molecular basis of thermodynamics. Applications to the calculations of the properties of noninteracting and weakly interacting systems. Prereq: CH 413/513 or equivalent.

460/546 Chemical Kinetics (4) Description and interpretation of the time evolution of chemical systems. Prereq: CH 413/513 or equivalent.

451/551, 452/552, 453/553 Advanced Organic-Inorganic Chemistry (4,4,4) 451/551: principles of organic–inorganic reaction dynamics; kinetics and mechanisms, linear free-energy relationships, isotope effects, substitution reactions, dynamic behavior of reactive intermediates, electron transfer chemistry, 452/552: principles and applications of stereochemistry with examples from organic, organometallic, and inorganic chemistry; stereochemical applications of computer graphics and computational chemistry; asymmetric synthesis and catalysis. 453/553: strategies and tactics for the synthesis of complex organic molecules. Sequence.

461/561 Biochemistry (4) Structure and function of biomolecules, CH 336 or CH 332 and BI 263. Prior exposure to calculus and physical chemistry recommended.

462/562 Biochemistry (4) Metabolism and metabolic control processes. Energy and sensory transduction mechanisms. Prereq: CH 461/561 or CH 332 and BI 263 or instructor's consent.

463/563 Biochemistry (4) Mechanisms and regulation of nucleic acid and protein biosynthesis. Other current topics in biochemical genetics. Prereq: CH 462/562 or CH 332 and BI 263 or instructor's consent.

467/567 Biochemistry Laboratory (4) Methods of modern molecular biology and protein purification. Prereq: instructor's consent.

470/570 Research Instruments: [Topic] (1–3R) Advanced experimental and theoretical concepts and the operation of instrumentation used in chemical research. Topics include Fourier transform nuclear magnetic resonance (FT-NMR), Fourier transform infrared spectroscopy (FT-IR), electron pair magnetic resonance (EPR), and computers. Prereq: instructor's consent.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

Martha J. Bayless, English

Marianne S. Nics, arts and sciences

Undergraduate Studies

The field of classics embraces all aspects of Greek and Roman culture from the prehistoric to the medieval periods. The study of the Greek and Latin languages is essential to the discipline.

The undergraduate’s primary aim in studying classics at the university is to learn Greek or Latin (or both) well enough to read the ancient authors in their original languages.

Through the study of classical literature in the original and in English translation, and through the study of other areas encompassed by the classics, such as ancient history, philosophy, art history, mythology, and rhetoric, a student gains an understanding of the culture and ideals of the classical world and their influence on the languages and institutions of Western civilization.

Students who intend to major in classics begin the study of one or both of the classical languages as early as possible in their undergraduate careers. Those who expect to do graduate work should take French or German while they are undergraduates.

Careers. A bachelor’s degree in classics prepares students for entry into graduate programs in classics, linguistics, comparative literature, ancient history, and archaeology, eventually leading to careers in college teaching, fieldwork, or the editorial professions.

Many prestigious professional schools look upon broad and thorough schooling in the humanities with greater favor than upon narrow preprofessional undergraduate training. Accordingly, students graduating from classics departments throughout the country have had notable success in schools of law, medicine, and business.

Major Requirements

The department offers the bachelor of arts (B.A.) degree in four majors. Students may choose to focus on Latin language and literature (Latin major), Greek language and literature (Greek major), or a combination of Greek and Latin (classics major). Students may also study the literature and culture of the ancient civilizations through courses that use secondary sources and translated texts (classical civilization major).

Courses used to satisfy major requirements must be taken for letter grades and passed with grades of mid-C or better.

Greek

In preparation, students must complete one year of college Greek (GRK 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Greek Major Requirements 52 credits

Greek courses beyond the first-year level, selected from GRK 201, 202, 203, repeated with departmental approval, or other 300- or 400-level courses, GRK 411-412, 414-415, 416-417, 418-419.

Ancient Greece (HIST 412) 8

Three upper-division Greek or Latin courses beyond the first year or courses in translation or from related departments. A list of approved courses is available from the department.

Latin

In preparation, students must complete one year of college Latin (LAT 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Latin Major Requirements 52 credits

Latin courses beyond the first-year level, selected from LAT 201, 202, 203, repeated with departmental approval, or other 300- or 400-level courses, LAT 411-412.

Ancient Rome (HIST 414) 8

Three upper-division Latin or Greek courses beyond the first year, or courses in translation or from related departments. A list of approved courses is available from the department.

Classics

In preparation, students must complete one year of college Greek and one year of college Latin or demonstrate proficiency in both languages at the introductory level. For the major, students must complete the following:

Leading to careers in college teaching, fieldwork, or the editorial professions.

Many prestigious professional schools look upon broad and thorough schooling in the humanities with greater favor than upon narrow preprofessional undergraduate training. Accordingly, students graduating from classics departments throughout the country have had notable success in schools of law, medicine, and business.

Major Requirements

The department offers the bachelor of arts (B.A.) degree in four majors. Students may choose to focus on Latin language and literature (Latin major), Greek language and literature (Greek major), or a combination of Greek and Latin (classics major). Students may also study the literature and culture of the ancient civilizations through courses that use secondary sources and translated texts (classical civilization major).

Courses used to satisfy major requirements must be taken for letter grades and passed with grades of mid-C or better.

Greek

In preparation, students must complete one year of college Greek (GRK 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Greek Major Requirements 52 credits

Greek courses beyond the first-year level, selected from GRK 201, 202, 203, repeated with departmental approval, other 300- or 400-level courses, GRK 411-412.

Ancient Greece (HIST 412) 8

Three upper-division Greek or Latin courses beyond the first year or courses in translation or from related departments. A list of approved courses is available from the department.

Latin

In preparation, students must complete one year of college Latin (LAT 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Latin Major Requirements 52 credits

Latin courses beyond the first-year level, selected from LAT 201, 202, 203, repeated with departmental approval, other 300- or 400-level courses, LAT 411-412.

Ancient Rome (HIST 414) 8

Three upper-division Latin or Greek courses beyond the first year, or courses in translation or from related departments. A list of approved courses is available from the department.

Classics

In preparation, students must complete one year of college Greek and one year of college Latin or demonstrate proficiency in both languages at the introductory level. For the major, students must complete the following:

Leading to careers in college teaching, fieldwork, or the editorial professions.

Many prestigious professional schools look upon broad and thorough schooling in the humanities with greater favor than upon narrow preprofessional undergraduate training. Accordingly, students graduating from classics departments throughout the country have had notable success in schools of law, medicine, and business.

Major Requirements

The department offers the bachelor of arts (B.A.) degree in four majors. Students may choose to focus on Latin language and literature (Latin major), Greek language and literature (Greek major), or a combination of Greek and Latin (classics major). Students may also study the literature and culture of the ancient civilizations through courses that use secondary sources and translated texts (classical civilization major).

Courses used to satisfy major requirements must be taken for letter grades and passed with grades of mid-C or better.

Greek

In preparation, students must complete one year of college Greek (GRK 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Greek Major Requirements 52 credits

Greek courses beyond the first-year level, selected from GRK 201, 202, 203, repeated with departmental approval, other 300- or 400-level courses, GRK 411-412.

Ancient Greece (HIST 412) 8

Three upper-division Greek or Latin courses beyond the first year or courses in translation or from related departments. A list of approved courses is available from the department.

Latin

In preparation, students must complete one year of college Latin (LAT 101, 102, 103) or demonstrate proficiency at the introductory level. For the major, students must complete the following:

Latin Major Requirements 52 credits

Latin courses beyond the first-year level, selected from LAT 201, 202, 203, repeated with departmental approval, other 300- or 400-level courses, LAT 411-412.

Ancient Rome (HIST 414) 8

Three upper-division Latin or Greek courses beyond the first year, or courses in translation or from related departments. A list of approved courses is available from the department.

Classics

In preparation, students must complete one year of college Greek and one year of college Latin or demonstrate proficiency in both languages at the introductory level. For the major, students must complete the following:
Classics Major Requirements 52 credits
Latin and Greek courses beyond the first year with no fewer than 12 credits devoted to either language. Courses selected from LAT 301, 302, 303 or GRK 301, 302, 303, repeated with departmental approval; other 300- or 400-level courses in either language except LAT 421; Latin and Greek prose composition .................................. 8
Ancient Greece (HIST 412) and Ancient Rome (HIST 414) ................................................................. 36
Upper-division Latin or Greek courses, courses in translation or from related departments, or Greek or Latin composition. A list of approved courses is available from the department .............. 8

Majors in classics are encouraged to take electives in ancient literature in translation and in ancient art, religion, or mythology.

Classical Civilization
In preparation, students must demonstrate proficiency in Greek or Latin by completing LAT 301, 302, 303 or GRK 301, 302, 303 or their equivalents with grades of mid-C or better. Students whose Greek or Latin was taken entirely in high school must take one year of second- or third-year Greek or Latin (301, 302, 303, or 411) at the University of Oregon in works not read in their high school courses.

For the major, students must complete 44 credits, distributed as follows:

Classical Civilization Major Requirements 44 credits
Ancient Greece (HIST 412) and Ancient Rome (HIST 414) ................................................................. 8
Two courses in classical literature in translation (e.g., CLAS 301, 302, 303, or, with department head's consent, HUM 101) ................................................................. 8
Two courses in ancient art, selected from ARH 322, 323, 422, 423, 424 ............................................ 8
Chosen in consultation with a classics department adviser, electives in Greek (GRK), Latin (LAT), classics (CLAS), or relevant courses in art history (ARH), English (ENG), history (HIST), philosophy (PHIL), religious studies (REL) .................................................. 20

Honors
The honors program in classics provides an opportunity for a student to focus on an area of concentration in a written thesis. The requirements for a bachelor's degree with honors in classics are as follows:

1. Satisfaction of the requirements for the major
2. A grade point average (GPA) of 3.50 or better in courses taken to meet the upper-division requirements of the major
3. A senior thesis of substantial quality, approved by the thesis director and at least one member of the program committee

Minor Requirements
Greek. The minor in Greek requires 24 credits distributed as follows:
8 credits in 400-level courses in Greek (GRK)
16 upper-division credits in related courses in classics (CLAS), history (HIST), Latin (LAT), art history (ARH), English (ENG), philosophy (PHIL), religious studies (REL)

Students must have a grade point average of 2.50 or higher in courses applied to the minor. At least 15 credits must be earned at the University of Oregon.

Latin. The minor in Latin requires 24 credits distributed as follows:
8 credits in 400-level courses in Latin (LAT)
16 upper-division credits in related courses in classics (CLAS), history (HIST), Greek (GRK), art history (ARH), English (ENG), philosophy (PHIL), religious studies (REL)

Students must have a grade point average of 2.50 or higher in courses applied to the minor. At least 15 credits must be earned at the University of Oregon.

Secondary School Teaching
The Department of Classics offers work for preparation to teach Latin in Oregon public secondary schools. Licensure as a secondary teacher requires completion of a graduate-level teacher preparation program. All work for the Latin endorsement should be completed before entering the teacher preparation program. For specific information about departmental requirements for the Latin endorsement, students should contact the departmental adviser. The College of Education offers a five-year program for teaching licensure in a second language. This program is described in the College of Education section of this catalog.

Interdisciplinary Program in Classical Archaeology
With the existing curricular resources of the university, it is possible to arrange an undergraduate program that provides sound preparation for graduate study and an eventual career in Greek and Roman archaeology. A student would most profitably fulfill major requirements in one of the three departments contributing to the program, adding courses selected from the other two departments. The following are the three programs recommended for a specialization in classical archaeology. Approved Seminars (407) are also recommended.

Art History. Departmental major, with an option in Greek and Roman art, to include Art of Ancient Greece (ARH 322) or Art of Ancient Rome (ARH 323), Aegean Art (ARH 422), Classical Greek Art (ARH 423), Greek Architecture (ARH 427), Greek Art (ARH 322), Classical Greece (ARH 423), and Greek Architecture (ARH 427)

Latin. Latin and Greek courses beyond the first year with no fewer than 12 credits devoted to either language except LAT 421; Latin and Greek prose composition .................................. 8

Upper-division Latin or Greek courses, courses in translation or from related departments, or Greek or Latin composition. A list of approved courses is available from the department .............. 8

Majors in classics are encouraged to take electives in ancient literature in translation and in ancient art, religion, or mythology.

Classical Civilization
In preparation, students must demonstrate proficiency in Greek or Latin by completing LAT 301, 302, 303 or GRK 301, 302, 303 or their equivalents with grades of mid-C or better. Students whose Greek or Latin was taken entirely in high school must take one year of second- or third-year Greek or Latin (301, 302, 303, or 411) at the University of Oregon in works not read in their high school courses.

For the major, students must complete 44 credits, distributed as follows:

Classical Civilization Major Requirements 44 credits
Ancient Greece (HIST 412) and Ancient Rome (HIST 414) ................................................................. 8
Two courses in classical literature in translation (e.g., CLAS 301, 302, 303, or, with department head's consent, HUM 101) ................................................................. 8
Two courses in ancient art, selected from ARH 322, 323, 422, 423, 424 ............................................ 8
Chosen in consultation with a classics department adviser, electives in Greek (GRK), Latin (LAT), classics (CLAS), or relevant courses in art history (ARH), English (ENG), history (HIST), philosophy (PHIL), religious studies (REL) .................................................. 20

Honors
The honors program in classics provides an opportunity for a student to focus on an area of concentration in a written thesis. The requirements for a bachelor's degree with honors in classics are as follows:

1. Satisfaction of the requirements for the major
2. A grade point average (GPA) of 3.50 or better in courses taken to meet the upper-division requirements of the major
3. A senior thesis of substantial quality, approved by the thesis director and at least one member of the program committee

Minor Requirements
Greek. The minor in Greek requires 24 credits distributed as follows:
8 credits in 400-level courses in Greek (GRK)
16 upper-division credits in related courses in classics (CLAS), history (HIST), Latin (LAT), art history (ARH), English (ENG), philosophy (PHIL), religious studies (REL)

Students must have a grade point average of 2.50 or higher in courses applied to the minor. At least 15 credits must be earned at the University of Oregon.

Latin. The minor in Latin requires 24 credits distributed as follows:
8 credits in 400-level courses in Latin (LAT)
16 upper-division credits in related courses in classics (CLAS), history (HIST), Greek (GRK), art history (ARH), English (ENG), philosophy (PHIL), religious studies (REL)

Students must have a grade point average of 2.50 or higher in courses applied to the minor. At least 15 credits must be earned at the University of Oregon.

Secondary School Teaching
The Department of Classics offers work for preparation to teach Latin in Oregon public secondary schools. Licensure as a secondary teacher requires completion of a graduate-level teacher preparation program. All work for the Latin endorsement should be completed before entering the teacher preparation program. For specific information about departmental requirements for the Latin endorsement, students should contact the departmental adviser. The College of Education offers a five-year program for teaching licensure in a second language. This program is described in the College of Education section of this catalog.

Interdisciplinary Program in Classical Archaeology
With the existing curricular resources of the university, it is possible to arrange an undergraduate program that provides sound preparation for graduate study and an eventual career in Greek and Roman archaeology. A student would most profitably fulfill major requirements in one of the three departments contributing to the program, adding courses selected from the other two departments. The following are the three programs recommended for a specialization in classical archaeology. Approved Seminars (407) are also recommended.

Art History. Departmental major, with an option in Greek and Roman art, to include Art of Ancient Greece (ARH 322) or Art of Ancient Rome (ARH 323), Aegean Art (ARH 422), Classical Greek Art (ARH 423), Greek Architecture (ARH 427), Greek Art (ARH 322), Classical Greece (ARH 423), and Greek Architecture (ARH 427)

Latin. Latin and Greek courses beyond the first year with no fewer than 12 credits devoted to either language except LAT 421; Latin and Greek prose composition .................................. 8

Upper-division Latin or Greek courses, courses in translation or from related departments, or Greek or Latin composition. A list of approved courses is available from the department .............. 8

Majors in classics are encouraged to take electives in ancient literature in translation and in ancient art, religion, or mythology.
Plan 1: Write a thesis in one of the fields mentioned above. Up to 9 credits of Thesis 503 may be counted toward the 45-credit minimum.

Plan 2: Pass a comprehensive examination in three parts: translation, textual interpretation, and culture. The candidate must, in consultation with his or her advisers, define a reading list for the translation part of the examination. Additional information may be obtained from the classics department and is included with the letter of admission.

Interdisciplinary Program in Classical Civilization

The Department of Classics administers an interdisciplinary master of arts degree in classical civilization to provide predoctoral training for prospective candidates in classical archaeology and ancient history, or for students interested in a general graduate program in ancient studies. The candidates must satisfy requirements (1), (2), and (3) required for the master of arts degree in classics; pass with a grade of mid-B or better Authors (LAT or GRK 511); and define, with the help of an advisory committee, a coherent program of study. More information may be obtained from the department office.

Classics in English Translation (CLAS)

199 Special Studies: [Topic] (1–5R)
201 Greek Life and Culture (4) Uses literary sources, art, and architecture to examine Greek civilization from Mycenaean times to the conquest of Rome. Wilson.
202 Roman Life and Culture (4) Examines Roman civilization from the founding of Rome in the 8th century B.C. to the victory of Constantine and his religion early in the 4th century A.D. Calhoon, Jaeger.
301 Greek and Roman Epic (4) Analysis of the heroic tradition and epic themes in the Homeric poems, the works of Hesiod, and the Aeneid. Emphasis on literary criticism and intellectual history. Lowenstam.
302 Greek and Roman Tragedy (4) Examination of Aeschylus, Sophocles, Euripides, and perhaps Seneca from the viewpoint of literary criticism and intellectual history. Bowditch.
303 Classical Greek Philosophers (4) Introduction to the philosophies of Plato and Aristotle from the viewpoint of Greek intellectual history. Lowerstam.
314 Gender and Sexuality in Antiquity (4) Introduction to construction of the categories of norms of Western sexuality through study of Greek and Roman attitudes toward gender roles, homo- and heterosexuality, the family, and privacy. Bowditch, Jaeger.
399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–21R)
403 Thesis (1–21R)
405 Reading and Conference: [Topic] (1–21R)
407/507 Seminar: [Topic] (1–5R)
408/508 Colloquium: [Topic] (1–21R)
409 Supervised Tutoring (1–21R)

Greek Courses (GRK)

410/510 Experimental Course: [Topic] (1–5R)
503 Thesis (1–16R) Prereq: second-year proficiency in Greek or Latin.
601 Research: [Topic] (1–16R)
602 Supervised College Teaching (1–5R)
605 Reading and Conference: [Topic] (1–16R)
606 Special Problems: [Topic] (1–16R)
607 Greek Seminar: [Topic] (1–5R)
608 Colloquium: [Topic] (1–16R)
609 Terminal Project (1–16R)
610 Experimental Course: [Topic] (1–5R)

Latin Courses (LAT)

101, 102, 103 Basic Latin (5,5,5) Fundamentals of Latin grammar; selected readings from classical and medieval authors. Bowditch, Calhoon, Jaeger.
199 Special Studies: [Topic] (1–5R)
301, 302, 303 Authors: [Topic] (4,4,4R) Second-year Latin: selections from major Roman authors with focus on reading and syntax. 301: Caesar. 302: Virgil’s Aeneid. 303: Recent authors are Caesar, Cicero, Virgil. R when reading material changes. Bowditch, Calhoon, Jaeger, Lowerstam, M. Nicols, Wilson.
347, 348, 349 Latin Composition (1,1,1) Survey of Classical Latin syntax; extensive practice in prose composition. Designed for majors and prospective teachers.
399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–21R)
403 Thesis (1–21R)
405 Reading and Conference: [Topic] (1–21R)
407/507 Seminar: [Topic] (1–5R)
408/508 Colloquium: [Topic] (1–21R)
409 Practicum: [Topic] (1–21R)
410/510 Experimental Course: [Topic] (1–5R)
411/511 Authors: [Topic] (4R) Each term devoted to a different author or literary genre: Catullus, Tacitus, Juvenal, Pliny, Ovid, Lucretius, comedy, philosophy, elegy, epic, satire. R when topic changes.
450/510 Experimental Course: [Topic] (1–5R)
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
602 Supervised College Teaching (1–5R)
605 Reading and Conference: [Topic] (1–16R)
606 Special Problems: [Topic] (1–16R)
607 Seminar: [Topic] (1–5R)
608 Colloquium: [Topic] (1–21R)
609 Terminal Project (1–16R)
610 Experimental Course: [Topic] (1–5R)

Virpi Zuck, Germanic languages and literatures

About the Program

The University of Oregon offers major programs in comparative literature leading to the bachelor of arts (B.A.), master of arts (M.A.), and doctor of philosophy (Ph.D.) degrees.

Comparative literature is perhaps the central discipline of the humanities, a field of and for our times. Closely allied with literary and critical theory, philology, historicism, and cultural studies, but identical with none of them, comparative literature creates its own subject matter by the ways in which it approaches texts. Where the national literatures designate their subjects by language or nation, comparative literature allows a pluralistic, speculative approach to any material that can be considered to be—or to influence—literature.

Oregon's graduate program, established in 1962, has an international reputation. It is the home of the principal journal in the field, Comparative Literature, and is closely involved with the leading national organization, the American Comparative Literature Association.

Every year the program sponsors a major lecture series on a topic of broad interest to literary scholars and the humanities community. The series typically comprises not only public lectures but workshops, seminars, and other events for undergraduates, graduate students, and the public. The program maintains an active schedule of other lectures and seminars. Recent visitors include Nancy Armstrong, Charles Bernstein, Eduardo Cadava, Hans Ulrich Gumbrecht, David Harvey, Michael Henry Heim, Heather James, Mary Layoun, Kanna Lochrie, Franco Moretti, Andrew Parker, Thomas Pfau, Mary Louise Pratt, Andrew Ross, Henry Sayre, Ella Shohat, Peter Stallybrass, John Whittier Treat, and Gang Yue.

Library holdings, which are strong in all areas of research in literature, include an outstanding collection of journals, many of which come to the library in exchange for Comparative Literature.

Undergraduate Studies

The undergraduate program offers a unique major that cuts across disciplines, teaches critical skills, and provides an intellectually challenging curriculum while preparing students for possible careers in the media, law, government, business, or teaching. Students with a good background in one or more languages other than English find that the program gives them the opportunity to study literature and related cultural productions, including canonical and emerging writings, in a variety of historical and theoretical perspectives.

The program provides maximum flexibility for developing the major. Working with the chair of undergraduate studies or an adviser, the student plans a course of study suited to her or his interests. Two honors options are described later in this section.

Major Requirements

Required Courses

- Literature, Language, Culture (COLT 101) ........................ 4
- One course selected from The World of Epic (COLT 201), The World of Drama (COLT 202), The World of Fiction (COLT 204), The World of Autobiography (COLT 206). Genre (COLT 208) ................................. 4
- Approaches to Comparative Literature (COLT 301) ......................... 4

At the time of declaring the major, a student designates two national-linguistic traditions in which to concentrate (e.g., French and Italian, German and Russian, Japanese and English).

Major Focus. Within one year of declaring the major, but no later than the beginning of the junior year, the student designates a focus. The focus describes the major for the student. It does not represent additional course work; rather, the focus is a way to coherently organize it. The focus may be defined as a genre (the novel, tragedy, autobiography), a period or movement (Romanticism, the baroque), a theoretical or methodological problem (literature and psychoanalysis, art and politics), or an issue (literature and resistance, nationalism).

Upper-Division Requirements. Upper-division requirements are divided into three core areas, which ensures that the student (1) achieves linguistic and literary depth and comparative breadth, (2) acquires methodological tools appropriate to the core areas, and (3) develops a focus that is personal and consistent. To satisfy these requirements, the student chooses from courses in the Comparative Literature Program and in other departments. Given the number of choices, the student should confer regularly with the undergraduate adviser, who can help identify courses that meet the criteria of each core area.

Core Areas

Comparative Literature. Four upper-division courses, three of which must be taken under the COLT subject code. A fourth course, taken in another department or program and subject to the approval of the undergraduate adviser, is chosen in accordance with the student's focus and should contribute to the definition of that focus.

Primary National Literature. Four upper-division courses in the student's primary national-linguistic tradition. In three of these courses, the literature is read in the original language, and the courses will likely be offered by the department that teaches the language. The fourth course should be one offered under the COLT subject code and intersect with the primary national literature.

Secondary National Literature. Four upper-division courses in the student's secondary national-linguistic tradition. In at least two of these courses, the literature is read in the original language, and the courses will likely be offered by the department that teaches the language. The other two may be courses offered under the COLT subject code and should intersect with the secondary national literature.
Foreign Language Proficiency
Completion of three years of a foreign language or the equivalent is required. Entry-level advising ascertains what each student needs to become linguistically proficient.

Honors in Comparative Literature
Majors may request approval to pursue one of the two honors options.

Second Foreign Literature Honors. Completion of three upper-division courses in a second foreign literature, read in the original language.

Senior Thesis Honors. Successful completion and presentation (by the end of the second term of the senior year) of an essay written under the direction of a comparative literature faculty member and a second faculty reader. Students who choose this option enroll for two terms of Thesis (COLT 403).

Graduate Studies
Students are admitted to the graduate program with the expectation that they will work toward the Ph.D. degree. The M.A. is typically granted after the student passes the qualifying examinations, not as a terminal degree.

The Oregon program in comparative literature is based on the conviction that a scholar in the discipline should be closely trained in a national literature as well as in its international contexts; that literary and cultural theory in its widest sense has become indispensable to the field; that every comparatist should have a multidimensional training that allows him or her to contribute to several distinct areas of the field over a career; and that an education in the discipline includes explicit preparation in such areas as philology, bibliography, and pedagogy as well as exposure to current issues in comparative literature’s self-definition. The program is intended to take about seven years from admission to the Ph.D.

Admission
A complete application for admission includes the university’s application form, a transcript of college- and graduate-level work to the date of application, three letters of recommendation, a statement of purpose, a ten- to twenty-page sample in English of critical writing about literature, and, if appropriate, the application for a graduate teaching fellowship (GTF). The application deadline is January 15 for entrance the following fall term. Application packets may be obtained from the address above.

Candidates for admission typically have an undergraduate major in one literature and competence in two of the following languages: Chinese, Danish, French, German, Greek, Italian, Japanese, Latin, Norwegian, Russian, Spanish, Swedish. Under special circumstances arrangements may be made with the program director to study other literatures.

Overview of Requirements
Between entrance and advancement to doctoral candidacy, students must complete ten courses in the primary and contextual fields, four courses in the focus field, four courses in the theory and methodology field, and a professional course.

Graduate Studies in Comparative Literature (COLT 614); pass the relevant language examinations; submit the first-year statement; have a satisfactory second-year report; identify a committee of advisors; and pass the qualifying examination. Course work must be completed with a minimum grade point average (GPA) of 3.25.

The requirements after candidacy are an approved prospectus, enrollment in Comparative Literature in the Academy (COLT 612), at least one term of Dissertation Work in Progress (COLT 611), and the dissertation.

Primary Field. The primary field is the basis of the student’s graduate education and may become the formative element in his or her professional identity. The primary field reflects the conventions of a chosen national literature: often it is defined as a period (e.g., medieval Italian, 20th-century peninsular Spanish), but where appropriate may be defined as a genre (e.g., the English novel) or in other ways (e.g., modern Japanese, contemporary Luso-Brazilian). This field typically consists of five courses.

Contextual Field. The contextual field builds international, multilingual, and interdisciplinary contexts around the primary field. Where the primary field is a period in a national literature (e.g., 19th-century French), the contextual field may treat that period in wider perspective (e.g., 19th-century western Europe, including courses in German and English literature and European history). The contextual field largely entails literature courses in the student’s second and third languages.

Focus Field. The focus field establishes a basis for scholarship and teaching in an area that isn’t defined in national or period terms: it is often a genre, a discipline (e.g., art history, psychology), an approach (e.g., feminism, Marxism), a problem (e.g., interpretation, the politics of literature), or another interest. It typically involves work in more than one language and should be sufficiently unlike the primary and contextual fields to give the student a distinctive intellectual outlook.

Theory and Methods Field. This field ensures that the student has at least four courses in these areas, as defined by his or her interests.

Professional Field. The professional field consists of three courses, two of which are taken after the qualifying examinations. Graduate Studies in Comparative Literature (COLT 614) must be taken within the student’s first two years in the program. Comparative Literature in the Academy (COLT 612) should be taken within a year of completing the examination; and Dissertation Work in Progress (COLT 611) is required at least once, but may be repeated. Students whose GTF appointments require course work in pedagogical methodology may count one such course toward this field.

Timetable from Entrance to Examinations
Language Examinations. Work in at least three languages and their respective literatures is required in each phase of the program. As early as possible in the first year (and no later than the start of spring term), students are examined for their knowledge of at least one language of which they are not native speakers. No one is examined on English. Students holding a GTF in a language typically have that language requirement waived with the approval of the chair of graduate studies. Language examinations are set by members of the participating faculty and administered through the program office in the sixth week of the term. Typically the examination consists of passages of primary or secondary literature, to be translated in two hours with the use of a dictionary. In unusual circumstances this examination may be waived, examination of a qualified faculty member and with the approval of the chair of graduate studies. Language examinations may be retaken, but competence in all relevant languages must be demonstrated before the end of the second year.

Statement of Purpose. By the last week of the first year’s winter term, each student in consultation with his or her adviser submits a brief statement of purpose to that adviser and to the chair of graduate studies. Two to three pages long, the statement identifies and justifies the student’s primary, contextual, and focus fields. It is understood that these fields depend to some degree on available courses, and that they may be adjusted in response to the curriculum. The final draft of the statement must be submitted no later than the first week of spring term.

First-Year Conversation. In weeks three or four of spring term, the student, the adviser, and two participating faculty members meet to discuss the statement of purpose. The student’s progress to date is evaluated, including course work and language examinations, the intended fields are discussed, and guidance for the remaining two years leading to the qualifying examination is offered. With approval of the statement and the student’s general plan and the completion of first-year course work with a GPA of 3.25, the student may proceed to the second year.

Second-Year Report. In spring term of the second year, the adviser reports in detail on the student’s progress, based on performance in courses as reflected in grades, written work, and narrative evaluations from faculty members who have taught the student in comparative literature courses. If the student’s progress is unsatisfactory at this point, he or she may be advised against continuing the program.

Qualifying Examinations and Dissertation
Students take qualifying examinations upon completion of at least sixteen courses, between the third and seventh weeks of the following term. The examination has two parts, written and oral.

Committee. The student identifies three faculty members who represent the primary, contextual, and focus fields and obtains their agreement to participate in the qualifying examination, filling the form for this purpose, the Proposal to Form a Committee. The examination committee must be approved by the chair of graduate studies no later than three months before the date of the examination.

Reading List. For the primary, contextual, and focus fields the student compiles, in consultation with advisers, a comprehensive reading list of not fewer than fifty titles. This list must be submitted to the examiners and the chair of graduate studies one month before the examinations.

Written Examination. The student writes three essays, one on each of the three relevant fields, over three periods of twenty-four hours. At the student’s option, the minimum extent of the written examination process is three days; the
maximum, three weeks. The format, determined by the committee, is typically two or three questions on each topic from which the student chooses one. If one of these essays is judged unsatisfactory, the student retakes that part of the examination no later than the seventh week of the following term. The examination may be retaken no more than once. If two or three fields are judged unsatisfactory, the student does not continue in the program, but may be eligible for a terminal M.A.

Oral Examination and Doctoral Candidacy. The oral examination takes place after the committee has evaluated the written examination—typically within two weeks. In preparation for the oral, the student compiles a shorter list, synthesized from the reading list for the written examination. This list should form the basis of the bibliography for the dissertation. In the oral, the committee and the student go over the written examination, discussing areas of strength and weakness. The oral examination itself is neither passed nor failed, but contributes to the student’s plans for the dissertation. On successful completion of written and oral examinations, the student advances to doctoral candidacy.

Prospectus. The prospectus for the dissertation should be submitted to the adviser and committee during the term following the written and oral examinations. The prospectus, typically fifteen to twenty pages long, should include a clear, concise examination of the problem to be studied; a statement of the project’s argument or hypothesis; a consideration of the larger issues at stake in the project, both for the immediate topic and for the field at large; an account of how the chosen authors and/or works address the topic of the project; a narrative account of the project’s structure and an outline of chapters; and a selective bibliography of the primary and secondary texts most important to the dissertation.

Once a prospectus is approved by the student’s committee, it is forwarded to the graduate committee for final approval. The graduate committee may offer advice, make suggestions for the bibliography, or otherwise comment on the project. Dissertation. The dissertation is typically completed within two years of advancement to candidacy and is defended in a final oral presentation. Dissertations in a discipline such as comparative literature can hardly be said to follow a methodological orientation. The dissertation itself is neither passed nor failed, but contributes to the student’s stake in the project, both for the immediate topic and for the field at large.

Comparative Literature Courses (COLT)

198 Workshop: [Topic] (1–2R)
199 Special Studies: [Topic] (1–3R)
201 The World of Epic (4) Explores a comprehensive introduction to the international study of literature in its historical, cultural contexts. Concentrates on the principal theories of production and reception. Calhoon.
202 The World of Drama (4) Studies drama as a genre, a critical paradigm, and a social and cultural phenomenon.
203 The World of Poetry (4) Surveys poetry of different languages, periods, and cultures.

204 The World of Fiction (4) Explores novels and short stories. Examines narrative features—point of view, authority, voice, style, structure—in cultural and international contexts.
206 The World of Autobiography (4) Explores the nature and problems of writing about the self. Explores autobiography and its subgenres in cultural and international contexts.
301 Approaches to Comparative Literature (4R) Introduction to theory and methods in comparative literature, with some attention to the history and problems of the discipline. Hokanson.
360 Gender and Identity in Literature (4) Introduction to the study of gender in literature. From Asia to Europe to the Americas, and from the classics to the late 20th century.
399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–2IR)
403 Thesis (1–2IR)
405 Reading and Conference: [Topic] (1–5R)
407/S07 Seminar: [Topic] (1–5R)
419/519 Study of the Contemporary: [Topic] (4–5R) Approaches to the critical study of the present, including topics such as postmodernism, digital culture, cyberpunk. R twice when topics change for maximum of 15 credits.
438/538 Latino Poetry of the United States (4–5) Investigates the works of Chicano and Chicana, Puerto Rican, Cuban, and other Latino and Latina identities and literatures. R twice when topics change for maximum of 15 credits.
463/563 Comparative Feminisms (4) Uses a comparative feminist approach on a series of important debates within feminism to find the commonalities and differences among various European and American voices.
464/564 Cross-Cultural Investigations of Gender: [Topic] (4–5R) Advanced study of gender in settings of historical and/or cultural difference with explicit attention to the theoretical premises underlying comparison. R twice when topics change for maximum of 15 credits.
479/579 Literature and Testimony (4–5) The literature of testimony as both a historical phenomenon and a challenge to the critical and ethical canons of comparative literature. Lollini.
490/590 Philosophical Problems and Literary Contexts: [Topic] (4–5R) Establishes a dialogue between philosophy and literature as disciplines, as historical constructions, as value systems. Topic for 2001–2: Aesthetics and Self in the classical Period and the Middle Ages. Ginsburg. R twice when topics change for maximum of 15 credits.
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
603 Dissertation (1–16R)
605 Reading and Conference: [Topic] (1–16R)
607 Seminar: [Topic] (1–5R)
610 Experimental Course: [Topic] (1–5R)
611 Dissertation Work in Progress (2R) Presentation of work in progress and related intellectual matters by doctoral candidates. Prereq: coursework toward candidacy. R once for maximum of 4 credits.
612 Comparative Literature in the Academy (1–2) Explores professional issues for graduate students who plan careers in college and university teaching and scholarship. Prereq: instructor’s consent.
614, 615, 616 Graduate Studies in Comparative Literature (5,5,5) 614: overview of the state of the discipline. Treats historical and theoretical developments in literary studies including philology and cultural studies; reconsiders the place of comparative literature in a global, pluricentric curriculum. 615: survey of contemporary literary theory. 616: problems and methods in practical criticism.
Computer and Information Science

Sarah A. Douglas, Department Head

Faculty

Eugene M. Luks, professor (algebraic algorithms, computational complexity, symbolic computation). B.S., 1960, City University of New York City College; Ph.D., 1966, Massachusetts Institute of Technology. (1983)

Confucius (M. Kantor, courtesy professor (combinatorics, finite geometries, finite groups). See Mathematics)

Charles R. B. Wright, courtesy professor (group theory). See Mathematics

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Participating

Brian Drabble, Computational Intelligence Research Laboratory

David W. Etherington, Computational Intelligence Research Laboratory

Matthew L. Ginsberg, Computational Intelligence Research Laboratory

Andrew J. Parker, Computational Intelligence Research Laboratory

General Information

Computer science offers students the challenge and excitement of a dynamically evolving science whose discoveries and applications affect every arena of modern life. Computer science is the study of the computer as a machine, both concrete and abstract; it is the study of the management of information; and it involves the design and analysis of algorithms, programs, and programming languages.

The Department of Computer and Information Science is committed to a strong research program and a rewarding educational experience for undergraduate and graduate students.

The department offers instruction and opportunities for research in the following areas:

- theoretical computer science (computational complexity, models of computation, algorithm design)
- computer architecture
- operating systems, parallel processing, distributed systems, performance evaluation
- human-computer interaction, graphics, visualization
- software engineering
- networking
- database systems
- programming languages and compilers
- artificial intelligence (natural language processing, expert systems, human interfaces, vision)

The department offers two undergraduate minors and a selection of service courses for students who want introductory exposure to computers and computer applications. The computer science programs at the university are continually evolving as the discipline matures and as students’ needs change.

Facilities

The Department of Computer and Information Science is housed in Dechutes Hall. This three-story, 27,000-square-foot science facility holds faculty and graduate student offices and extensive laboratory space for research and instruction.

The departmental computing environment is a mix of Unix, Apple Macintosh, and Intel-based computers. The main servers are two Sun SPARC systems and several SPARC workstations. These provide NFS file service and support World Wide Web, ftp, email, USENET News, and other network services. First year undergraduates use Intel-based computer labs in the Computing Center, while upper-division undergraduates and graduate students use a Sun Ultra SPARC workstation lab.

Research labs operate a variety of Unix workstations and Intel-based computers. The Human-Computer Interaction Lab is equipped with Sun workstations, Macintoshes, and several Pentium processors. Specialized equipment for interactive systems research includes a PHANTOM force feedback control device and the DecTalk speech synthesizer. Usability studies are supported by a laboratory with multiple video cameras, video cassette recorders, and audio recording. The Computer Graphics Laboratory includes color monitors, color film recorders, color calibrated monitors and video-editing equipment, and high-performance Unix and PC graphics workstations.

Research in high-performance computing is supported by the facilities in the Computational Science Institute. The institute has a Power Onyx with 8 R10000 CPUs, Reality Engine graphics, and Sigma Video; and, two Silicon Graphics Power Challenge systems with ten and twelve CPUs. These machines are connected with 100mb Fast Ethernet to a dedicated Ethernet switch. Research in the institute is also supported by a four-processor Origin 2000, four Jaguar 2 High Impact workstations, and eight 02 desktop workstations.

The Network Research Lab contains a model of a wide-area network that is used to develop and prototype new Internet applications. Any of the computers may be used for simulations and as general-purpose workstations. The network is composed of custom-built PCs running the FreeBSD operating system.

The department network is primarily a switched 100-Base-T network, connected to the UO’s one-gigabit network. The university is a member of Internet2, a high-speed network, connecting major research institutions.

Affiliated Institutes

Computational Intelligence Research Laboratory. The laboratory’s research focuses on basic questions in artificial intelligence, including search, knowledge representation, and reasoning. The laboratory provides financial support for students and fosters an intimate relationship among a small group of researchers who work in closely related areas.

Computational Science Institute. The institute combines research in the physical sciences with work in applied mathematics, linear algebra, and computer science. This association of researchers from nine departments supports computational science efforts at the University of Oregon.

Careers

The CIS undergraduate program is designed to prepare students for professional careers or for graduate study. Students with a B.A. or a B.S. degree in computer science have ever-expanding career opportunities. Possibilities range from the development of time-critical software for aerospace applications to the design of graphics and animation software to implementation and testing of next-generation Internet protocols. The field of computer science, which has become increasingly interdisciplinary over the past decade, offers a rich array of opportunities in...
fields as disparate as medicine, manufacturing, and the media, as well as abundant possibilities in the computer industry itself.

The CIS program prepares students for these challenges by emphasizing the fundamental concepts needed to be a successful computer scientist in the face of continuously evolving technology. Hence our graduates come away with confidence that they can specify, design, and build large software systems; analyze the effectiveness of computing techniques for a specific problem; and work effectively in dynamic, problem-solving teams. The Master of arts (M.A.) or master of science (M.S.) degree program prepares students for higher-level positions in the areas described above as well as for teaching positions in community colleges. The Ph.D. degree program trains students as scientists for advanced research in a specialized area of computer science and for teaching in universities.

**Undergraduate Studies**

The Department of Computer and Information Science offers a major and a minor in computer and information science, a major in mathematics and computer science, and a minor in computer and information technology.

**Majors.** The computer and information science major is intended for students who want to study computers and computer programming with computer technologies. This program, administered jointly with the Department of Mathematics, is described in Mathematics and Computer Science section of this catalog. Both of these majors lead to the bachelor of science (B.S.) degree program trains students for higher-level positions in the areas described above as well as for teaching positions in community colleges. The Ph.D. degree program prepares students for advanced research in a specialized area of computer science and for teaching in universities.

**Undergraduate Studies**

The Department of Computer and Information Science offers a major and a minor in computer science, a major in mathematics and computer science, and a minor in computer and information technology.

**Majors.** The computer and information science major is intended for students who want to study computers and computer programming with computer technologies. This program, administered jointly with the Department of Mathematics, is described in Mathematics and Computer Science section of this catalog. Both of these majors lead to the bachelor of arts (B.A.) or bachelor of science (B.S.) degrees.

**Minors.** The computer and information science minor, which consists of a subset of courses required for the major, is often chosen by students majoring in mathematics or the sciences; it is also attractive to students who have solid backgrounds in mathematics. The minor in computer and information technology is the study of computers with a strong practical emphasis and involves hands-on use of tools and technology for modern work environments. This minor complements such majors as business, economics, planning, public policy and management, arts and architecture, and liberal arts.

**High School Preparation.** High school students who plan to major in computer and information science should pursue a strong academic program, including substantial work in mathematics and the sciences. High school courses in computer programming or computer technology are useful but not required. Upon arrival at the university, freshmen should consult with a CIS adviser to find the entry-level course best suited to the student’s background. A placement test may be required for enrollment in some of the introductory level courses.

**Major Admission Policies and Premajor Requirements**

Students not declaring computer and information science as their intended major after fall 2001 are classified as computer and information science premajors and must formally apply for admission to the major after completing five premajor core courses—Computer Science UUI,III (CIS 210, 211, 212) and Elements of Discrete Mathematics UUI (MATH 231, 232)—typically during the sophomore or junior year. Students must achieve a GPA of 2.60 or better in these courses, and the courses must be completed with grades of C– or better. Premajor courses may be retaken once, but all earned grades are used to compute the GPA. Students must submit a formal application for admission to the major by the end of the term in which they complete CIS 212 (fall or winter term).

**Transfer or Second Baccalaureate Students**

Students who have completed the equivalent of the premajor core at another institution and satisfied the minimum GPA and grade requirements are admitted conditionally to the major. Unconditional admission is granted after completing, with a GPA of 2.60 or better, two UO courses that are required for the major. These courses are selected in consultation with a CIS adviser. Transfer students who plan to complete most of the requirements for the CIS major at the University of Oregon should fulfill many of the general-education requirements as possible before entering the university, including at least one year of calculus (equivalent to MATH 251, 252, 253), but at a minimum the equivalent of Elementary Functions (MATH 112).

**Major Requirements**

Computer and information science majors must complete a total of 54 credits of CIS courses of which 24 must be completed in residence at the University of Oregon. In addition, majors must complete a total of 32 credits in mathematics, 12 credits in the sciences, and 4 credits of technical or business writing. Required CIS and mathematics courses must be taken for letter grades and passed with a C– or better except for Data Structures Laboratory (CIS 323), which may be taken pass/no pass (P/NP). Mathematics and CIS electives, science courses, and the writing course may be taken for letter grades or pass/no pass. Grades of C– or P or better must be earned in these courses.

**Premajor Core**

Major course work begins with a year-long sequence, Computer Science UUI,III (CIS 210, 211, 212), taken concurrently with Elements of Discrete Mathematics UUI,III (MATH 231, 232, 233). Permission to enroll in CIS 210 is determined by the results of the mathematics and CIS placement tests, administered by the university’s Testing Office. Programming experience, obtained through a high school course, employment, or a course such as CIS 122, is recommended.

**Upper-Division Electives**

The 16 credits in upper-division electives allow students to explore areas beyond the core courses and to probe into areas of particular interest. Eight of these 16 credits must be taken from the following approved list: CIS 399, 410, 413, 420, 423, 429, 432, 442, 445, 452, 461, 462, 471, 490. CIS 399 and CIS 410 courses must have a prerequisite of CIS 313 and have regular weekly class meetings and homework assignments. Only eight credits in CIS 401–499 may be used as the upper-division electives. None of these credits can be taken for more than four credits when used to satisfy this requirement.

Majors may specialize in a subarea of computer science by selecting appropriate upper-division electives in CIS and in other departments. Information about the following areas of specialization is available in the department office: cognitive science, computational science, networking, software engineering, and pregraduate studies.

**Mathematics**

**Writing**

In addition to the university’s writing requirement, CIS majors must take either Scientific and Technical Writing (WR 320) or Business Writing (WR 321).

**Science**

Majors must take at least 12 credits in one of the following four options:

1. General Physics (PHYS 201, 202, 203) or Foundations of Physics I (PHYS 251, 252, 253).
2. Introductory General Chemistry (CH 211, 212, 213), General Chemistry (CH 221, 222, 223), or Honors General Chemistry (CH 224H, 225H, 226H).
3. General Biology (BI 211, 212, 213).
4. Psychology. Psychology courses at the 200 level or above, of which at least eight must be from the experimental and physiological fields (PSY 430–468).

**Major Progress Review and Major in Good Standing**

Each major must meet with his or her adviser and file the Major Progress Review form after completing 8 to 12 credits of the upper-division core. Failure to file this form may result in lower priority registration for CIS courses. A student who receives two grades below C– in the upper-division core is removed from the major.

**Prerequisites**

Prerequisites for CIS core courses must be completed with grades of C– or better. Students who can present evidence of equivalent academic experience may submit a petition to the Undergraduate Education Committee to waive a prerequisite.

**Internships**

Practical work experience in the software industry is seen as a valuable complement to academic
course work. Majors may receive academic credit for internships performed during the academic year or summer. To earn upper-division elective credit for an internship, the work experience must be at a technical level beyond CIS 313 and sponsored by a CIS faculty member. A contract signed by the faculty sponsor, internship supervisor, and the student must be filed with the department before the internship begins.

Sample Programs for Majors

Students can use the following sample programs to plan their schedules. Individual programs vary, based on each student’s preparation, interests, and personal goals. Students should meet regularly with their academic advisors for assistance in designing a program that meets their needs and fulfills major requirements.

Sample Program I

Students who have experience in computer science and a strong background in mathematics should follow this program. It allows motivated students to take upper-division courses beyond the minimum requirements and allows qualified students to fulfill the requirements for the honors program. Students who follow this plan may want to consider applying to the department’s accelerated M.S. program, which is described under Graduate Studies.

### Freshman Year

**42–46 credits**

- Computer Science I, II, III (CIS 210, 211, 212) … 12
- Elements of Discrete Mathematics I, II, III (MATH 231, 232, 233) … 12
- College Composition I or III (WR 121, WR 122 or 123) … 3
- Upper-division courses … 8–12
- Multicultural requirement … 4

### Sophomore Year

**46–50 credits**

- Introduction to Data Structures (CIS 313), Computer Organization (CIS 314), Introduction to Algorithms (CIS 315), Data Structures Laboratory (CIS 323) … 14
- Calculus I, II, III (MATH 251, 252, 253) … 12
- CIS-major science requirement … 12
- Social science group-satisfying courses … 4

### Junior Year

**43–48 credits**

- Operating Systems (CIS 415), Software Methodology I (CIS 422), Principles of Programming Languages (CIS 425) … 12
- Upper-division mathematics electives … 7–8
- Upper-division CIS elective … 4
- Multicultural requirement … 4
- Arts and letters group-satisfying courses … 8–12
- Social science group-satisfying course … 4
- Electives … 8–12

### Senior Year

**40–44 credits**

- Computer Architecture (CIS 429) … 4
- Upper-division CIS electives … 8
- CIS electives or honors courses … 8
- Scientific and Technical Writing (WR 320) or Business Communications (WR 321) … 4
- Electives … 16–20

### Sample Program II

Students who need to acquire introductory skills in mathematics or computer programming should follow this plan. It is also suitable for students who decide to major in CIS during the sophomore year or later.

### Freshman Year

**42–46 credits**

- Concepts of Computing: Algorithms and Programming (CIS 122) … 4
- Calculus I, II, III (MATH 251, 252, 253) … 12
- College Composition I or III (WR 121, WR 122 or 123) … 3

### Sophomore Year

**40–48 credits**

- Introduction to Algorithms (CIS 315), Data Structures Lab (CIS 323) … 12
- Arts and letters group-satisfying courses … 8–12
- Multicultural requirement or elective … 4

### Junior Year

**46–50 credits**

- Computer Science I, II, III (CIS 310, 211, 212) … 12
- Elements of Discrete Mathematics I, II, III (MATH 231, 232, 233) … 12
- Arts and letters group-satisfying courses … 4–8
- Social science group-satisfying course … 4
- Multicultural requirement or elective … 4
- Electives … 4–8

### Senior Year

**43–48 credits**

- Operating Systems (CIS 415), Software Methodology I (CIS 422), Principles of Programming Languages (CIS 425) … 12
- Upper-division CIS electives … 12
- Electives … 9–12

### Honors Program

Students with a GPA of 3.50 or higher in computer and information science and a cumulative GPA of 3.00 or higher are encouraged to apply to the department honors program after completing CIS 313, 314, and 315. To graduate with departmental honors, a student must write a thesis under the supervision of a faculty member.

### Minor Requirements

#### Computer and Information Science

The minor in computer and information science introduces the theories and techniques of computer science and develops programming skills that are applicable to the student’s major.

Before enrolling in CIS 313 or other upper-division courses, students planning to minor in computer and information science should file an application form with the CIS department. Each student should consult with his or her CIS faculty adviser to plan the minor program. Before graduating, the student must supply the department with an up-to-date transcript.

The CIS minor requires completion of 24 credits. Courses applied to the CIS minor must be completed with grades of C– or better. CIS 409 may not be used to fulfill requirements for the minor.

### Lower-Division Courses

**12 credits**

- Computer Organization (CIS 314)

### Upper-Division Courses

**12 credits**

- Introduction to Data Structures (CIS 313)

### Computer Information Technology

The minor in computer information technology prepares students to work with evolving technologies for work environments that require development and management of business databases, computer networks, web applications, and software systems. The minor requires 24 credits, 12 lower-division and 12 upper-division.

Lower-division courses must be completed with grades of B– or better. After completing lower-division courses, students must file an application form with the department declaring the minor. They are then eligible to enroll in the upper-division courses. Upper-division courses must be taken in sequence and are offered only once a year. Upper-division courses must be completed with grades of C– or better.

### Lower-Division Courses

**12 credits**

- Concepts of Computing: Information Processing (CIS 110)

### Upper-Division Courses

**12 credits**

- Database Systems (CIT 381)

### Graduate Studies

The department offers programs leading to the master of arts (M.A.), master of science (M.S.), and doctor of philosophy (Ph.D.). The department also offers a master of software engineering (M.S.E.) through a joint program with three other institutions.

### Master's Degree Program

**Admission**

Admission to the master’s degree program in computer and information science is competitive. It is based on prior academic performance, Graduate Record Examinations (GRE) scores, and computer science background. Minimum requirements for admission with graduate master’s status are:

1. Documented knowledge of the following:
   a. Principles of computer organization
   b. Assembly and structured programming languages
   c. Program development and analysis
   d. Data structures and algorithms analysis and design
2. GRE score on the general test. The computer science test is recommended, especially for Ph.D. applicants and international students seeking graduate teaching or research assistantships
3. A score of at least 600 on the Test of English as a Foreign Language (TOEFL) for applicants who have not spent at least three years in an English-speaking institution of higher learning.

Applicants may be required to study one or more terms at the university’s American English Institute (AEI) or elsewhere before taking any graduate work in the department. International applicants for teaching assistantships must also take the Test of Spoken English (TSE)

Application materials should be submitted by January 15 for admission the following fall term.

**Admission to the master’s degree program requires the substantive equivalent of an undergraduate degree in computer science. A second bachelor's degree program can be used to gain the required level of computer science background.

### Basic Degree Requirements

The 54-credit master's degree program consists of core courses, cluster depth-and-breadth courses, and elective courses.
Core Courses (12 credits) Algorithms and Complexity (CIS 621), Structure of Programming Languages (CIS 624), Computer Architecture (CIS 629)

Cluster Courses (12 credits). Each student must take the required course (4 credits) and two depth courses (8 credits) from one cluster of related courses. A list of clusters is available in the department office.

Elective Courses (30 credits). Twelve of the 30 credits may be taken outside the department in an area closely related to the student’s professional goals, subject to approval by the student’s adviser; options include courses in linguistics, mathematics, physics, and psychology. Elective options within the department include:

1. Up to 8 credits in Reading and Conference (CIS 605), with prior approval by the adviser.
2. Up to 12 credits in Thesis (CIS 503) or Final Project (CIS 609).
3. Experimental Courses (CIS 610), which are new courses awaiting permanent status, with prior approval by the graduate education committee.

Software Systems. Students must show competency in the design and implementation of software systems by taking one course from the following list: Computer Graphics (CIS 542), Advanced Operation Systems (CIS 630), Parallel Processing (CIS 631), Computer Networks (CIS 652), Software Engineering (CIS 650).

Grade Requirements. The 24 credits in the required courses and the cluster courses must be passed with grades of B- or better. Up to 12 of the 30 elective credits may be taken pass/no pass (P/N); graded elective courses must be passed with grades of mid-C or better. A 3.00 GPA must be maintained for courses taken in the program.

Master’s Thesis. The research option requires a written thesis and 9 to 12 credits in Thesis (CIS 503). Thesis research is supervised by a faculty adviser; this adviser and other faculty members constitute the thesis committee. The master’s thesis is expected to be scholarly and to demonstrate mastery of the practices of computer science. This option is strongly recommended for students who plan subsequent Ph.D. research.

Master’s Project. The project option requires a master’s degree project and up to 12 credits in Final Project (CIS 609). Under the supervision of a faculty member, the project may entail a group effort involving several master’s degree students. The project is subject to approval by the department’s graduate affairs committee.

Accelerated Master’s Degree Program

This program is open to students who earn a B.S. degree in computer and information science at the University of Oregon and who want to enter the master’s degree program.

Admission procedure. Application to the master’s program should be made by February 1 of the graduation year. Students should submit a Graduate Record Examinations (GRE) score, Test of English as a Foreign Language (TOEFL) score if not a native English speaker, three letters of recommendation, and a statement of goals. If a UO undergraduate takes one or two 400-level electives that have a corresponding 500 level, the student can petition the department to have four or eight credits deducted from the total number of credits required for the master’s degree. The student must earn an A- or better in the 400-level course and have an overall GPA of 3.50 in upper-division CIS courses to participate in this accelerated master’s program.

Candidates for the degree must still complete the 24-credit core and cluster requirements for breadth and depth.

Oregon Master of Software Engineering

Richard Lytle, Program Director

CAPITAL Center, Room 1310
18640 NW Walker Rd., Beaverton OR 97006-1975
(503) 725-2900
(503) 725-2910 fax
omse@omse.org
http://www.omse.org

The Oregon Master of Software Engineering (OMSE), a professional degree program, provides advanced, state-of-the-practice knowledge and skills that are needed by Oregon software, software-intensive, and computer-related industries. The program is intended for individuals with a computer science or engineering background and significant industrial experience in software engineering. Courses are offered to nonadmitted students, provided prerequisites are met, or as part of the degree program. The courses focus on principles, methods, and tools that can be used to create high-quality products that serve the needs of customers. Courses are taught at the CAPITAL Center in Beaverton. Some courses are offering in a distance-learning format.

Requirements. The M.S.E. degree requires 48 graduate credits: 21 credits in software engineering foundations, 12 credits in software development in context, 9 credits in program integration and strategic development skills, which includes a 6-credit practicum; and 6 credits of electives.

Admission. Application is made first to the OMSE program at the CAPITAL Center. Admitted students select one of the four partnership schools as the degree-granting institution. The OMSE program is offered jointly by Oregon Graduate Institute and three Oregon University System institutions: University of Oregon, Oregon State University and Portland State University. Students admitted to UO for the M.S.E. degree are assigned a UO faculty member who serves as the student’s graduate adviser.

Doctoral Degree Program

The doctor of philosophy in computer and information science is above all else a degree of quality that is not conferred simply for the successful completion of a specified number of courses or years of study. It is a degree reserved for students who demonstrate both a comprehensive understanding of computer science and an ability to do creative research. Each Ph.D. student produces a significant piece of original research, presented in a written dissertation and defended in an oral examination.

The Ph.D. program is structured to facilitate the process of learning how to do research. Students begin by taking required courses to build a foundation of knowledge that is essential for advanced research. Early in the program the student gains research experience by undertaking a directed research project under the close supervision of a faculty member and the scrutiny of a faculty committee. In the later stages of the program, students take fewer courses and spend most of their time exploring their dissertation area in order to learn how to identify and solve open problems. The final step is to propose an independent research project, do the research, and write and defend a dissertation.

Admission. Application materials should be submitted by February 1 for the following fall term. Materials include everything required for admission to the master’s program as well as a discussion of the anticipated research area. Successful applicants are admitted conditionally.

Degree Requirements

1. Breadth Courses. Complete six breadth courses consisting of two each from the core groups of (a) computer architecture, (b) theory, and (c) programming languages, software engineering, and artificial intelligence. These six courses must include CIS 621, 624, and 629. The breadth courses must be passed with grades of B- or better, and the cumulative GPA for all six courses must be 3.50 or better. This requirement may be waived for students who have taken these or equivalent courses in another program or at another university.

2. Directed Research Project. Complete a directed research project, which is supervised by a faculty member and evaluated by a faculty committee. The research project comprises:
   a. The definition and expected results of the project in the form of a Directed Research Project Contract
   b. Delivery of the materials constituting the results of the project and oral presentation of the results
   c. A private oral examination by the committee members

3. Unconditional Status. Successful completion of the six breadth courses and the directed research project leads to a change in the student’s doctoral status from conditional to unconditional.

4. Secondary Concentration. Complete a secondary concentration consisting of two additional courses from any one of the three core groups described in the breadth requirement. These courses should be outside the student’s research area.

5. Oral Comprehensive Examination. Choose an area of research and work closely with an adviser to learn the area in depth by surveying the current research and by learning research methods, significant achievements, and how to pose and solve problems. The student gradually assumes a more independent role and prepares for the oral comprehensive examination, which tests depth of knowledge in the research area. The graduate education committee appoints the oral comprehension examination committee, typically three members, after considering nominations from the student and the adviser. The examination comprises:
a. A survey of the area in the form of a position paper and an annotated bibliography
b. A public presentation of the position paper
c. A private oral examination by committee members

6. Advancement to Candidacy. After the oral comprehension examination, the committee decides whether the student is ready for independent research work; if so, the student is advanced to candidacy

7. Dissertation and Defense. Identify a significant unsolved research problem and submit a written dissertation proposal to the dissertation committee. The dissertation committee, which typically comprises three department members in that section of the catalog, authorizes the graduate education committee after considering nominations from the student and the advisor. In addition to members from the department, the dissertation committee typically includes an outside examiner. This outside examiner should be a leading researcher in the candidate’s field who is not at the University of Oregon. The outside member should be selected a year before the candidate’s dissertation defense, and certainly no later than six months before. The department makes every effort to bring the outside examiner to campus for the dissertation defense. The dissertation committee, which guides and evaluates the student’s progress through completion of the degree, may request an oral presentation similar to the comprehensive examination to allow questions and answers about the proposed research. The student then carries out the required research. The final stage is writing a dissertation and defending it in a public forum by presenting the research and answering questions about the methods and results. The dissertation committee, augmented by outside members according to university regulations, may accept the dissertation, request small changes, or require the student to make substantial changes and schedule another defense

8. Seminar Requirement. Doctoral candidates must register for 6 credits of Seminar (CIS 607) each year

9. Graduate School Requirements. Meet all requirements set by the Graduate School as listed in that section of the catalog

Research Areas. It is important that a Ph.D. student be able to work effectively with at least one dissertation adviser. Hence the student should identify, at an early stage, one or more areas of research to pursue. The student should also find a faculty member with similar interests to supervise the dissertation.

Computer and Information Science Courses (CIS)

110 Concepts of Computing: Information Processing (4) Integration of technology and information systems for creation, storage, and dissemination of information used in decision-making. Labs cover word processing, spreadsheets, database, Telnet, FTP, web site creation.

111 Concepts of Computing: Computers and Computation (4) Principles and practices of programming for the web using a scripting language: basic concepts of problem analysis, program design, implementation, and testing; web application architectures. Prereq: CIS 110, MATH 111.

115 Multimedia on the Web (4) Introduces the principles and practice of web communication using digital media, including graphics, animation, video, and sound. Labs cover software used to create interactive multimedia documents. Prereq: CIS 110.

131 Introduction to Business-Information Processing (4) Introduction to information systems technology and the role of business-information processing systems in organizations. Application of software tools (spreadsheet data manager and word processor) to business problem solving. Prereq: MATH 111 or two years of high school algebra. Not offered 2001-2.

133 Introduction to Numerical Computation with FORTRAN (4) Basic concepts of problem analysis, computation, and solution. Programming a computer using the language FORTRAN. Prereq: MATH 111 and a CIS course or equivalents. Not offered 2001-2.

196 Field Studies: [Topic] (1-2R)

198 Workshop: [Topic] (1-2R)

199 Special Studies in Computer Science: [Topic] (1-5R) Topics vary with the interests and needs of students and faculty members. Typical topics include Multimedia, Programming in Java, and Problem Solving with Microcomputers.

210, 211, 212 Computer Science I,II,III (4,4,4) Basic concepts and practices of computer science. Topics include algorithmic problem solving, levels of abstraction, object-oriented design and programming, software organization, analysis of algorithm and data structures. Sequence. Prereq: programming course and MATH 112; coreq for CIS majors: MATH 231, 232, 233.

313 Introduction to Data Structures (4) Design and analysis of basic data structures as means of engineering efficient software; attention to data abstraction and encapsulation. Tables, lists, trees, heaps, queues, dictionaries, priority queues. Prereq: CIS 212, MATH 232; coreq for CIS majors: CIS 323.

314 Computer Organization (4) Introduction to computer organization and instruction-set architecture—digital logic design, binary arithmetic, design of central processing unit and memory, microprogramming, machine-level programming. Prereq: CIS 212, MATH 231.

315 Introduction to Algorithms (4) Algorithm design, worst-case and average behavior analysis, correctness, computational complexity. Prereq: CIS 313, MATH 233.

323 Data Structures Laboratory (2) Programming laboratory. Data structures and object-oriented implementation. Prereq: CIS 212, MATH 232; coreq for CIS majors: CIS 313.

399 Special Studies: [Topic] (1-5R)

401 Research: [Topic] (1-2R)

403 Thesis (1-2R)

404 Internship: [Topic] (1-4R) Prereq: CIS 333.

405 Reading and Conference: [Topic] (1-2R)

406 Field Studies: [Topic] (1-2R)

407/507 Seminar: [Topic] (1-5R) Opportunity to study in greater depth specific topics arising out of other courses.

408/508 Workshop: [Topic] (1-2R)

409 Practicum (1-2R) The student assists other students who are enrolled in introductory programming classes. For each four hours of scheduled weekly consulting, the student is awarded 1 credit. Prereq: departmental consent. R for maximum of 6 credits.

410/510 Experimental Course: [Topic] (1-5R) New courses are offered under this number, the first year or two, before final definition of the courses and pending permanent approval by the University Senate and the State Board of Higher Education.

420/520 Automata Theory (4) Provides a mathematical basis for computability and complexity. Models of computation, formal languages, Turing machines, solvability. Nondeterminism and complexity classes. Prereq: CIS 315 or instructor’s consent, MATH 233.

422/522 Software Methodology I (4) Technical and nontechnical aspects of software development, including specification, planning, design, development, management and maintenance of software projects. Student teams complete three projects. Prereq: coreq: CIS 315.

423 Software Methodology II (4) Application of concepts and methodologies covered in CIS 422/522. Student teams complete a large system design and programming project. Final system specification, test plan, user documentation, and system walk through. Prereq: CIS 422/522.

429 Computer Architecture (4) RISC (reduced instruction-set computer) and CISC (complex instruction-set computer) design, storage hierarchies, high-performance processor design, pipelining, vector processing, networks, performance analysis. Prereq: CIS 313, 314.

441/541 Introduction to Computer Graphics (4) Introduction to the hardware, geometrical transforms, interaction techniques, and shape representation schemes that are important in interactive computer graphics. Programming assignments using contemporary graphics hardware and software systems. Prereq: CIS 313; pre- or coreq: CIS 314.

443/543 User Interfaces (4) Introduction to user interface software engineering. Emphasis
on theory of interface design, understanding the behavior of the user, and implementing programs on advanced systems. Prereq: CIS 313, 314.

445/545 Modeling and Simulation (4) Theoretical foundations and practical problems for the modeling and computer simulation of discrete and continuous systems. Simulation languages, empirical validation, applications in computer science. Prereq: CIS 314, 315.

451/551 Database Processing (4) Fundamental concepts of DBMS. Data modeling, relational models and normal forms. File organization and index structures. SQL, embedded SQL, and concurrency control. Prereq: CIS 315.

452/552 Database Issues (4) Covers central database issues such as access methods, security, tuning, and concurrency control. Examines alternative database models. Prereq: CIS 451/551.

455/555 Computational Science (4) Solving scientific problems with high-performance computers: algorithms, languages, and software used in scientific computing and visualization. Group projects on current research in physics, chemistry, biology, and other sciences. Prereq: CIS 314, 422 or instructor's consent.

461/561 Introduction to compilers (4) Lexical analysis, parsing, attribution, code generation. Prereq: CIS 314, 425 or 624. CIS 420/520 strongly recommended.

471/571 Introduction to Artificial Intelligence (4) Basic themes, issues, and techniques of artificial intelligence, including agent architecture, knowledge representation and reasoning, problem solving and planning, game playing, and learning. Prereq: CIS 315.

490/590 Computer Ethics (2) Addresses ethical issues and social impacts of computing. Topics include crime, hacking, intellectual property, privacy, software reliability, employment, and worldwide networks. Prerequisites to graduate-level CIS courses are strongly recommended. Students who are uncertain about eligibility for enrollment in a course are encouraged to consult the instructor.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

622 Algorithms and Complexity (4) Design and analysis of algorithms, strategies for efficient algorithms, introduction to complexity theory including NP-completeness. CIS 420/520 strongly recommended.

622 Theoretical Foundations: [Topic] (4R)

624 Structure of Programming Languages (4) Introduction to axiomatic, operational, and denotational semantics. Environments, stores, and continuations. Type theory, subtypes, polymorphism, and inheritance. Functional and logic programming.

629 Computer Architecture (4) Advanced readings in computer architecture research. Topics may include storage hierarchies, input-output subsystems, instruction- and data-level parallelism, symbolic computation, multiprocessor networks and consistency algorithms, performance modeling. Prereq: CIS 429.

630 Advanced Operating Systems (4) Principles of distributed computer systems: interprocess communication, distributed file systems, distributed timing and synchronization, distributed programming, transactions, process scheduling, distributed shared memory. Prereq: CIS 415, CIS 629

631 Parallel Processing (4) Advanced topics in parallel processing including massively parallel computer architecture, supercomputers, parallelizing compiler technology, performance evaluation, parallel programming languages, parallel applications. Prereq: CIS 629

632 Computer and Information Networks (4) Advanced issues in computer networks, focusing on research to extend the services offered by the Internet. Prereq: CIS 432/532

650 Software Engineering (4) Examines recent models and tools in software engineering including modifications to the traditional software lifecycle model, development environments, and speculative view of the future role of artificial intelligence.

677 Knowledge-Based Interfaces (4) Examination of research knowledge-based user interface with particular attention to cognitive modeling. Topics include intelligent tutoring systems, natural language interfaces, and expert systems explanation. Prereq: CIS 671.

Computer Information Technology Courses (CIT)

381 Database Systems (4) Introduction to database systems, emphasis on database design and access. Database concepts, data modeling, normalization, data warehousing, query languages, formulation of complex queries. Prereq: CIT 281.

382 Information Architectures and Intraneats (4) Organization of information on the web and applications of Internet technology. Emphasis on planning, implementation, and issues that apply to building and maintaining business Intraneats. Prereq: CIT 381.

383 Enterprise Networks (4) Planning and development of an enterprise network. Network components, connecting to the Internet, network management, security. Laboratories design a network for a virtual enterprise. Prereq: CIT 382.

Oregon Master of Software Engineering Courses (OMSE)

These courses are offered at the CAPITAL Center

500 Principles of Software Engineering (3) Introduction to engineering of software processes in industry. Emphasizes process modeling and improvement and current best practice in core software engineering activities.

511 Managing Software Development (3) Introduction to software engineering. Emphasizes the nature of software engineering, the software process, and the problems and solutions in real development and modification projects. Prereq: OMSE 500.
Creative Writing

Program Director
(541) 346-3944
144 Columbia Hall

Faculty

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

While there is no undergraduate major in creative writing, the program does offer undergraduate-level creative writing courses. Undergraduate English majors who want to emphasize creative writing should complete Introduction to Imaginative Writing: Fiction, Poetry, or Writing and Conference (CRWR 241, 243) and Introduction to Creative Writing: Literary Nonfiction (CRWR 244). Other students should consult their major advisors about integrating creative writing courses into their programs.

Kidd Tutorial Program

Implemented through the generosity of the Walter F. Kidd family, this yearlong tutorial for juniors and seniors offers the chance to study writing and literary craft using literary models. The program, which requires a three-term commitment from participants, accommodates highly flexible and individualized study of fiction, poetry, and literary nonfiction writing. Each group of four to six students studies under the supervision of a graduate teaching fellow and is overseen by a head tutor and a faculty member. Participants earn 12 credits in CRWR 411. Information about application procedures is available from the tutorial program director.

Graduate Studies

Master of Fine Arts Degree

Admission Requirements
1. Bachelor’s degree
2. Other materials submitted for admission that give evidence that the applicant will be able to complete the prescribed course of study satisfactorily

Admission Procedures
1. Obtain a Graduate Admission Application from the director of the Creative Writing Program
2. Send the first copy to the university Office of Admissions with a $50 fee and the remaining copies to the director of creative writing
3. Arrange to have two official copies of graduate and undergraduate transcripts sent, one to the university Office of Admissions and the other to the director
4. Submit or have sent to the director:
   a. Letters of recommendation from three people familiar with the applicant’s potential as a writer
   b. Sample of the applicant’s creative writing Application materials must be received by February 1 for admission to the program the following fall term.

Degree Requirements

The candidate for the M.F.A. degree must complete 72 credits of graduate work during six consecutive terms in residence at the university. Of the 72 credits, 36 must be in graduate creative writing (CRWR) courses, 18 in Thesis (CRWR 503) or Writing and Conference (CRWR 605) or both, and 18 in literature or literature in translation. The candidate must also pass a written examination on a reading list of works of fiction or poetry.

Creative Writing Courses (CRWR)

199 Special Studies: [Topic] (1–5R)
244 Introduction to Creative Writing: Literary Nonfiction (4) Techniques of writing creative nonfiction. Development of a critical appreciation of the art of writing.
324, 325, 326 Intermediate Creative Writing: Short Story Writing (4, 4, 4) Examination of the basic techniques and structure of the short story; extensive analyses of student work and established models. Prereq: CRWR 241.
334, 335, 336 Intermediate Creative Writing: Literary Nonfiction (4, 4, 4) Examines basic techniques and structure of literary nonfiction (the literary essay). Extensively examines student work and established models. Prereq: CRWR 244 or instructor’s consent.
401 Research: [Topic] (1–21R)
403 Thesis (1–21R)
405 Writing and Conference: [Topic] (1–21R)
407 Seminar: [Topic] (1–5R)
410 Experimental Course: [Topic] (1–5R)
411 Kidd Tutorial (4R) Tutorial creative writing focused on poetry, fiction, or literary nonfiction. Prereq: cumulative GPA of 3.30 (B+) or better, or one course selected from CRWR 324–343, or instructor’s consent. R twice for maximum of 12 credits. Limited to six juniors and six seniors.
East Asian Languages and Literatures

Steven T. Brown, Department Head
(541) 346-4041
308 Friendly Hall
1248 University of Oregon
Eugene OR 97403-1248

Faculty

Students must enroll for at least 6 pass/no pass (P/N) credits in Thesis (CHN or JPN 403) in addition to meeting the standard major requirements. Transfer work and P/N credits are not included in determining the GPA.

**Minor Requirements**

**Chinese.** The minor in Chinese requires 15 credits of modern Chinese language above the 200 level and two courses from History of Chinese Literature (CHN 305, 306, 307). Upper-division language courses must be taken at the University of Oregon or through an Oregon University System program in China. Lower-division courses must be passed with grades of P or C- or better; upper-division courses must be passed with grades of C- or better.

**Japanese.** The minor in Japanese requires 15 credits of modern Japanese language above the 200 level and Introduction to Japanese Literature (JPN 305, 306). Upper-division language courses must be taken at the University of Oregon or through an Oregon University System program in Japan. Lower-division courses must be passed with grades of P or C- or better; upper-division courses must be passed with grades of C- or better.

**East Asian Studies.** See the Asian Studies section of this catalog for a description of the minor in East Asian studies.

**Overseas Study**

The University of Oregon has one overseas study program in China and one in Tokyo, Japan. Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

**Secondary School Teaching**

The College of Education offers a fifth-year program for those with an Oregon secondary teaching with a Japanese endorsement, which is described in the College of Education section of this catalog. The department’s graduate program in Japanese language and pedagogy offers in-depth training for a career in teaching.

**Graduate Studies**

The Department of East Asian Languages and Literatures offers programs of study leading to the degrees of master of arts (M.A.), master of science (M.S.), and doctor of philosophy (Ph.D.) in East Asian languages and literatures. Students may choose to specialize in Chinese or Japanese literary studies or in Japanese language and pedagogy. In addition to departmental requirements, graduate students must fulfill the general requirements of the Graduate School listed in that section of this catalog.

The Chinese and Japanese literature programs, which prepare students to work in a variety of professional and academic fields, provide intensive training in linguistic and textual analysis and an extensive exposure to literary theory and comparative and cultural studies. The department encourages students to develop their specialization in Asian literatures in broader, more comparative, and more interdisciplinary perspectives than has been the case in traditional programs. The faculty’s research and teaching interests cover the major fields and genres, and chronological divisions of Chinese and Japanese literature. They encourage creative connections and challenges to conventional disciplinary boundaries by exploring the relationships between literature and such areas as cinema, law, history, politics, religion, philosophy, sociology, theater and performing arts, and women’s studies.

The department’s Japanese language and pedagogy degree allows students to pursue advanced training and research in Japanese language teaching, learning, and linguistics. Three faculty members specialize in Japanese language pedagogy and/or linguistics, and students can consult specialists from the Department of Linguistics. The presence in the Eugene school district of a Japanese-immersion school and the university’s Yamada Language Center, a state-of-the-art foreign-language laboratory and research center, offer an extraordinary support network to graduate students who want to pursue individual and collaborative research projects.

**Comparative Literature.** Several members of the department’s faculty participate in the Comparative Literature Program. For more information, see the Comparative Literature section of this catalog. Complete details and answers to specific questions about graduate programs in the Department of East Asian Languages and Literatures are available from the department graduate secretary.

**Admission**

An applicant for admission to the M.A. program should have completed an undergraduate major in Chinese or Japanese language, literature, or linguistics, or have equivalent experience. Applicants are accepted only for admission fall term.

An applicant for admission to the Ph.D. program should have completed a master of arts degree in either Chinese or Japanese language and literature or its equivalent.

**Application Procedure**

1. Obtain a Graduate Admission Application from the department’s graduate secretary
2. Send the first copy to the university Office of Admissions with a $50 fee, and the remaining copies to the department’s graduate secretary
3. Submit or have sent to the department’s graduate secretary:
   a. Official transcripts of college-level work as of the date of application
   b. A 750-word statement of purpose describing the applicant’s academic experience, future career goals, reasons for wanting to do graduate work in the UO Department of East Asian Languages and Literatures, and career goals
   c. Three letters of recommendation from teachers who can comment personally on the applicant’s language competence and aptitude for graduate study
   d. Test of English as a Foreign Language (TOEFL) scores of at least 600 for international students
   e. Applicants to the literature programs must submit a substantial writing sample (e.g., graduate seminar paper, undergraduate research paper on a relevant topic)

Ph.D. candidates should submit a master’s thesis or equivalent

Priority is given to applicants whose files are complete by February 15. A departmental faculty committee reviews the completed file and notifies the applicant of its decision.

**Graduate Teaching Fellowships**

A number of graduate teaching fellowships (GTFs) are available each year for new graduate students in the department. Students are encouraged to apply to the department by February 15 for admission and appointment the following fall term. During each term of the appointment, graduate teaching fellow must register for at least 9 credits of course work that can be applied to the degree program.

All GTFs must teach East Asian Languages and Literatures at College Level (EALL 560) in the fall term of the first and second years of their fellowship appointment.

**Master of Arts Program Requirements**

**Chinese**

**Option One.** This is the usual option for students seeking the M.A. degree in East Asian languages and literatures with a specialization in Chinese literature, and it prepares students for study at the doctoral level. This option requires successful completion of a minimum of fourteen graduate-level courses including Issues in Early Chinese Literature (CHN 523); Issues in Medieval Chinese Literature (CHN 524); Issues in Modern Chinese Literature (CHN 525); two graduate courses in literary theory or another literature; Chinese Bibliography (CHN 550); one course in language pedagogy, Asian history, or another field relevant to the student’s career objectives; and five Chinese seminars. With the adviser’s approval, one course in Reading and Conference (CHN 665) may be counted as one of the fourteen courses. Students must pass a comprehensive written examination at the end of study or write a master of arts thesis. Students who elect to write a thesis must register for 9 credits of Thesis (CHN 503).

**Option Two.** A master’s student may, in consultation with the student’s adviser, apply for early entry to the Ph.D. program. Such applications are typically made in spring term but, in any event, only after at least two terms at the university. Applications must include transcripts, three recommendations, and a statement of the student’s prospective course of study. Students who elect this option have an opportunity to apply for a degree upon completion of the course work for the Ph.D. degree. This option requires successful completion of a minimum of twelve 4-credit graduate-level courses including Issues in Early Chinese Literature (CHN 523); Issues in Medieval Chinese Literature (CHN 524); Issues in Modern Chinese Literature (CHN 525); two graduate courses in literary theory or another literature; Chinese Bibliography (CHN 550); one course in language pedagogy, Asian history, or another field relevant to the student’s career objectives; and five Chinese seminars. With the adviser’s approval, one course in Reading and Conference (CHN 665) may be counted as one of the fourteen courses. Students must pass a comprehensive oral examination that covers the student’s primary areas of study.
Japanese
Language and Pedagogy. The M.A. degree in East Asian languages and literatures with a specialization in Japanese language and pedagogy requires successful completion of twelve graduate-level courses, all of which must be taken for letter grades. These courses must include seven courses in Japanese linguistics and pedagogy; 4 credits of Practicum (JPN 609); two courses in general linguistics, two electives; and 9 credits of Theses (JPN 503) or a comprehensive examination and two electives or a curriculum or material development project and one elective.

Literature. The M.A. degree in East Asian languages with a specialization in Japanese literature requires successful completion of a minimum of 12 graduate-level courses including:
1. Topics in Premodern Japanese Literature (JPN 524), Topics in Modern Japanese Literature (JPN 525), and Modern Japanese Writers (JPN 526)
2. Two graduate courses in literary theory and criticism, which may include Experimental Course: Critical Theories and Japanese Contexts (JPN 510) or Graduate Studies in Comparative Literature (COLT 614)
3. Three adviser-approved, seminar-level courses in Japanese culture, which may include a term of Advanced Readings in Japanese Literature (JPN 534, 535, 536) or one of the first two terms of Classical Japanese (JPN 537, 538).
4. The final term of Classical Japanese (JPN 539).
5. Japanese Bibliography (JPN 550)
6. Field study (JPN 561, 562, 563)

The student answers one question a day on the student's primary areas of study. Three hours are allotted to answer each question.

Doctor of Philosophy Degree Program
The Ph.D. program in East Asian languages and literatures is designed to provide students with a high level of competence in their area of specialization and a familiarity with applicable methodologies and theories. Specific courses and projects used to fulfill requirements must be approved by the student's adviser, who works with the other faculty members to develop the student's program.

Chinese
The Ph.D. degree in East Asian languages and literatures with a specialization in Chinese literature requires completion of a minimum of six 4-credit graduate-level courses beyond those required for the M.A. degree. On the student's background or preparation at the time of admission to the Ph.D. program, the number of required courses may be nine or twelve. Courses must be chosen in consultation with the student's adviser.

Course Work
1. Complete successfully
   a. Six courses in Chinese literature or film
   b. Three methods courses—Issues in Early Chinese Literature (CHN 523), Issues in Medieval Chinese Literature (CHN 524), Issues in Modern Chinese Literature (CHN 525) or equivalents—unless the student has already taken these courses
2. Choose one of the following options:
   a. Demonstrate the ability to use a second foreign language substantively in research or pass a translation examination in the language
   b. Demonstrate advanced knowledge of a particular methodology or theory by taking three graduate-level courses, including one course in Reading and Conference (CHN 605) for which the student writes a paper applying the methodology to Chinese literature
   c. Complete three courses in a secondary literature

Examination and Dissertation
1. Pass a qualifying examination, which advances the student to degree candidacy. The examination consists of three questions, selected from six on the student's primary areas of study. The student answers one question a day on three successive days. Three hours are allotted to answer each question.
2. Present and orally defend a dissertation proposal and bibliography—paying attention to methodology, sources, historical background, and theory—within two terms of becoming a degree candidate.
3. Write and successfully defend a Ph.D. dissertation. The Graduate School requires at least 18 credits in Dissertation (CHN 603)

Japanese
Language and Pedagogy. The Ph.D. degree with a specialization in Japanese language and pedagogy requires students to successfully complete twelve graduate courses beyond those required for the M.A. degree. These courses include general and Japanese linguistics, second-language acquisition, pedagogy, statistics, and research methods. Other courses may be approved by the student's adviser. The candidate must write a paper suitable for publication and pass a doctoral examination. After the examination, the student presents a dissertation proposal to the faculty committee for approval. The final step is to write and orally defend an original Ph.D. dissertation.

Literature. The Ph.D. with a specialization in Japanese literature requires students to successfully complete nine graduate courses beyond the number required for the M.A. degree. These courses must be chosen in consultation with the student's adviser, taking into account the background, equivalent work and experience, the needed and interests of the student, the approved program should ensure coverage of the recommended minimum of courses in each of the following fields. Appropriate courses in related fields deemed appropriate (e.g., Japanese history, religion) may be substituted with the adviser's approval.
1. Two or three courses in Japanese literature and/or film
2. Two or three courses in a period- or genre-based comparative field and/or in a minor literature
3. Two courses in critical theory

4. Two courses in professional methodology and skills (which may include Japanese Bibliography (JPN 550) or Japanese language pedagogy courses)

Where appropriate for the student's program, demonstration of acceptable reading knowledge of additional foreign or classical languages, or the successful completion of the third-year level literature courses in that language.

The student must successfully complete an advancement to candidacy examination, which typically consists of the writing and presentation for approval to the faculty committee of a substantial prospectus (twenty to twenty-five pages) for the dissertation. The student who successfully completes the prospectus advances to candidacy and writes a doctoral dissertation according to the guidelines laid out by the Graduate School. Upon completion of the dissertation and following a successful oral defense, the student is recommended for the degree of doctor of philosophy.

East Asian Languages and Literatures Courses (EALL)

196 Field Studies: [Topic] (1–2R)
198 Workshop: [Topic] (1–2R)
199 Special Studies: [Topic] (1–5R)
210 China: A Cultural Odyssey (4) Introduction to the distinctive features of China's linguistic, literary, artistic, and religious-philosophical heritage. Includes guest lectures, films.
211 Japan: A Cultural Odyssey (4) Introduction to distinctive features of Japan's linguistic, literary, artistic, and religious-philosophical heritage. Includes guest lectures, films.
399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–2R)
405 Reading and Conference: [Topic] (1–2R)
406 Field Studies: [Topic] (1–2R)
407 Seminar: [Topic] (1–5R)
408/508 Workshop: [Topic] (1–2R)
409 Supervised Tutoring: [Topic] (1–3R)
410 Experimental Course: [Topic] (1–5R)
Prereq: instructor's consent.
460/560 Teaching East Asian Languages and Literatures at College Level (2R) Training in Chinese and Japanese language instruction through lectures, observations, and teaching practicums. Prereq: for non-GTFs: instructor's consent. R thrice for maximum of 8 credits.
608 Colloquium: [Topic] (1–3R) R twice when topic changes for maximum of 9 credits.

Chinese Courses (CHN)
Placement examinations are required for new students who have exposure to Chinese, either through formal course work or through informal conversation. Native speakers of Chinese or students whose competence in the language already exceeds the scope of the material may not enroll in Chinese-language courses.
101, 102, 103 First-Year Chinese (5,5,5) Provides thorough grounding in listening comprehension, speaking, reading, and writing. Emphasis on oral-aural skills. For students with no background in Mandarin Chinese.
150 Introduction to the Chinese Novel (4) Introduction to one long or several short novels.
East Asian Languages and Literatures

151 Introduction to Chinese Film (4) Introduction to fifth-generation films by directors Zhang Yimou, Hu Mei, and Chen Kaige. Discussion focuses on family, gender, cultural difference. No background in Chinese necessary; taught in English.

152 Introduction to Chinese Popular Culture (4) Introduction to popular Chinese cultures in China, Hong Kong, Taiwan, and the United States. Discussion focuses on religion, literature, art, and media. No background in Chinese necessary; taught in English.

196 Field Studies: [Topic] (1-2R)

198 Workshop: [Topic] (1-2R)

199 Special Studies: [Topic] (1-5R)

201, 202, 203 Second-Year Chinese (5,5,5) Training in aural-oral skills designed to build listening comprehension and fluency. Development of proficiency in written Chinese. Prereq: one year of Chinese or equivalent.

301, 302, 303 Third-Year Chinese (5,5,5) Continued training in listening, speaking, reading, and writing. Prereq: two years of Chinese or equivalent.

350 Women in Traditional Chinese Literature (4,4,4) Survey focusing on family, gender, cultural difference. No background in Chinese necessary; English subtitles.

351, 352, 353 Advanced Chinese (4,4,4) Exclusive use of authentic materials, both spoken and written. Sequence. Prereq: four years of Chinese or instructor’s consent.

363, 365, 367 The Confucian Canon (4) Examines Han interpretations of classic poetry and on questions of thematic and linguistic transmission. Prereq: instructor’s consent.

390 Japanese (4,4,4) Development of speaking and reading skills in Japanese. Native speakers of Japanese or students whose competence in the language already exceeds the scope of the material may not enroll in Japanese-language courses.

410/411, 412/412, 413/413 Fourth-Year Spoken Japanese (4,4,4) Development of speaking and listening skills related to concrete and abstract topics. Emphasis on sociolinguistic skills. Prereq: three years of Japanese or instructor’s consent.

414/415, 416/416 Fourth-Year Reading and Writing Japanese (4,4,4) Development of reading skills, vocabulary, and knowledge of kanji. Writing exercises include message writing, letter writing, and short essays. Prereq: three years of Japanese or instructor’s consent.

609 Practicum: [Topic] (1-4R) Prereq: instructor’s consent. R for maximum of 18 credits.

Japanese Courses (JPN)

Placement examinations are required for new students who have exposure to Japanese, either through formal course work or through informal conversation. Native speakers of Japanese or students whose competence in the language already exceeds the scope of the material may not enroll in Japanese-language courses.

101, 102, 103 First-Year Japanese (5,5,5) Provides thorough grounding in listening, speaking, reading, and writing Japanese. Special stress on aural-oral skills. For beginners or by placement.

196 Field Studies: [Topic] (1-2R)

198 Workshop: [Topic] (1-2R)

199 Special Studies: [Topic] (1-5R)

201, 202, 203 Second-Year Japanese (5,5,5) Continuation of JPN 101, 102, 103. Additional training in oral-aural skills designed to build listening comprehension and fluency. Development of basic proficiency in reading and writing Japanese.

301, 302, 303 Third-Year Japanese (5,5,5) Provides a solid foundation in listening, speaking, reading, and writing. Prepares students for advanced study. Prereq: two years of Japanese or equivalent.

305, 306, 307 History of Chinese Literature (4,4,4) Survey ranging from early Confucian and Daoist classics through Tang and Song poetry, short fiction and novels, the 1919 May Fourth Movement writers, and into the contemporary period. Readings in English.

350 Women in Traditional Chinese Literature (4) Literature by and about women in traditional Chinese culture. Readings in English.

351, 352, 353 Third-Year Chinese (5,5,5) Continued training in listening, speaking, reading, and writing. Prereq: two years of Chinese or equivalent.

409 Supervised Tutoring (1-4R) Prereq: instructor’s consent. R for maximum of 18 credits.

409 Supervised Tutoring (1-4R) Prereq: instructor’s consent. R for maximum of 18 credits.

410/410 Experimental Course: [Topic] (1-5R) Prereq: instructor’s consent. R for maximum of 18 credits.

410/410 Experimental Course: [Topic] (1-5R) Prereq: instructor’s consent. R for maximum of 18 credits.

425/425 Issues in Modern Chinese Literature (4) Explores scholarship on and questions raised about Chinese poetry and its characteristics. Prereq: instructor’s consent.

426/426 Issues in Medieval Chinese Literature (4) Explores scholarship on and questions raised about Chinese poetry and its characteristics. Prereq: instructor’s consent.

453/453 Cultural Chinese Texts: [Topic] (4R) Ranges from early Confucian and Daoist classics through Tang and Song poetry, short fiction and novels, the 1919 May Fourth Movement writers, and into the contemporary period. Readings in English.

461/461 The Tale of Genji, Kawabata, and Mishima. Readings in English.

465/465 Traditional Chinese History: [Topic] (4R) Ranges from early Confucian and Daoist classics through Tang and Song poetry, short fiction and novels, the 1919 May Fourth Movement writers, and into the contemporary period. Readings in English.
Japanese or instructor's consent.

471/571 The Japanese Cinema (4) Major filmmakers and works are introduced. Comparative analysis of Japanese cinema as narrative form and artists' efforts to grapple with the Japanese experience of modernity. Readings, films, and discussions in English.

472/572 Japanese Film and Literature (4) Contemporary Japanese culture examined through film and fiction. Focus on writers' and filmmakers' efforts to define an autonomous art. Topics vary. Prereq: JPN 471/571. Readings, films, and discussions in English.

503 Thesis (1–6R)

601 Research: [Topic] (1–10R)

602 Supervised College Teaching (1–16R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R) Prereq: instructor's consent. R as approved by the faculty.

642 Japanese Discourse Structure (4) Examination of Japanese discourse structure. Topics include paragraph and thematic structure, cohesion, referential choice, and sentence styles. Prereq: JPN 441/541 or instructor's consent.

Korean Courses (KRN)

Native speakers of Korean or students whose competence in the language already exceeds the scope of the material may not enroll in Korean-language courses.

101, 102, 103 First-Year Korean (5, 5, 5) Introduction to basic Korean grammar, syllabary, conversation, and characters. Prereq: instructor's consent.

201, 202, 203 Second-Year Korean (5, 5, 5) Continued development of skills in speaking, reading, and writing Korean. Introduction of additional characters. Prereq: KRN 103 or equivalent.

Economics

Van W. Kolin, Department Head (541) 346–4661 435 Prince Lucien Campbell Hall

Faculty

Special Staff

Cathleen S. Leue, associate professor (econometrics, labor); director, Social Science Instructional Laboratory; director, Social Science Data Services Laboratory. B.A., 1978, California State, Chico; Ph.D., 1985, Washington State. (1987)

Emeriti

Robert Campbell, professor emeritus. B.A., 1947, California, Berkeley; B.S., 1950, U.S. Merchant Marine Academy; Ph.D., 1953, California, Berkeley. (1952)

Economics is the social science that addresses the problem of using scarce resources to satisfy society's unlimited wants. The discipline is divided into two general areas—microeconomics and macroeconomics. Microeconomics explores questions about the way society allocates resources; it applies to public policy in such areas as urban, industrial organization, and labor economics. Macroeconomics considers such questions as the causes of inflation and unemployment; it applies to such areas as monetary development and international economics.

The Department of Economics offers an undergraduate major leading to a bachelor's degree. Undergraduate courses in economics provide broad knowledge of the field as a part of the program of liberal education offered by the College of Arts and Sciences. They also give a substantial foundation in economics to students interested in professional graduate training in economics or in careers in business, law, government, or journalism.

For more detailed information students are encouraged to inquire at the department office.

Preparation. Suggested preparation for freshmen is four years of high school mathematics. Prospective majors are strongly urged to satisfy part of their science group requirement with an introductory calculus sequence, to be taken in the freshman or sophomore year. Suggested preparation for second-year college transfers is (1) the equivalents of Introduction to Economic Analysis: Microeconomics (EC 201) and Introduction to Economic Analysis: Macroeconomics (EC 202). Should be completed by the end of the sophomore year and (2) Calculus for Social Science I, II (MATH 241, 242) or Calculus I (MATH 251, 252). Should be completed by the end of the sophomore year.

Major Requirements

1. Introduction to Economic Analysis: Microeconomics (EC 201) and Introduction to Economic Analysis: Macroeconomics (EC 202). Should be completed by the end of the sophomore year.
2. Calculus for Business and Social Science I, II (MATH 241, 242) or Calculus I, II (MATH 251, 252). Should be completed by the end of the sophomore year.
3. Introduction to Methods of Probability and Statistics (MATH 243) or Econometrics (EC 423) for students who have completed MATH 253. Should be completed by the end of the sophomore year.
4. Intermediate Microeconomic Theory (EC 311) and Intermediate Macroeconomic Theory (EC 313) or Advanced Microeconomic Theory (EC 411) and Advanced Macroeconomic Theory (EC 413). Should be completed by the end of the junior year. Should be completed by the end of the junior year.
5. Introduction to Econometrics (EC 420, 421) or Econometrics (EC 423, 424). EC 425 is recommended. Should be completed by the end of the junior year.
6. Additional 28 credits in economics courses numbered 300 or above, with at least 20 credits in courses numbered 400 or above. At least 12 of the 28 credits must be taken at the UO, and no more than 8 of the 28 may be in courses numbered 401, 404, 405, 407, or 408.
7. Grades of C- or better in all courses taken to satisfy the major requirements.

A student who has already received credit for a 400-level course cannot apply credit earned in a corresponding 300-level course to the economics major. For example, if a student has earned credit for one of the 400-level courses in international economics (EC 480, 481), the student cannot use International Economic Issues (EC 380) to satisfy part of the major course requirements.

Professional Concentrations

Given the breadth of a degree in economics, students are encouraged to choose one or more professional concentrations that are consistent with their career goals. Suggested course work for seven professional concentrations is described below. Sample programs for each concentration, descriptions of career possibilities, and recommendations for additional preparation are available in the undergraduate resource center and the department office.

Business Economics—Banking and Finance

1. Complete major requirements including
   a. Money and Banking (EC 370) or Monetary Policy (EC 470)
   b. Issues in Industrial Organization (EC 360) or Experimental Course: Multinational Corporations (EC 410) or Theories of Industrial Organization (EC 460) or Industrial Organization and Public Policy (EC 461)
   c. International Economics (EC 380) or International Finance (EC 480), or International Trade (EC 481)

2. Complete a minor or approved equivalent in business administration

Business Economics—Management, Marketing, and Accounting

1. Complete major requirements including
   a. Labor Market Issues (EC 350) or Labor Economics (EC 450) or Topics in Labor Economics (EC 451)
   b. Urban and Regional Economics (EC 430) or Economics of the Pacific Northwest (EC 432) or Public Economics (EC 440)
   c. Issues in Industrial Organization (EC 360) or Experimental Course: Multinational Corporations (EC 410) or Theories of Industrial Organization (EC 460) or Industrial Organization and Public Policy (EC 461)

2. Complete a minor or approved equivalent in business administration

Economics and Public Policy and Administration

1. Complete major requirements including
   a. Issues in Public Economics (EC 340) or Public Economics (EC 440)
   b. Urban and Regional Economics (EC 430) or Economics of the Pacific Northwest (EC 432)
   c. Issues in Industrial Organization (EC 360) or Experimental Course: Multinational Corporations (EC 410) or Theories of Industrial Organization (EC 460) or Industrial Organization and Public Policy (EC 461)
   d. Labor Market Issues (EC 350) or Labor Economics (EC 450) or Topics in Labor Economics (EC 451)

2. Complete a minor or equivalent in political science or planning, public policy and management

Environmental Economics

1. Complete major requirements including
   a. Resource and Environmental Economic Issues (EC 333) or Environmental Economics (EC 433)
   b. Issues in Public Economics (EC 340) or Public Finance (EC 440)
   c. Issues in Industrial Organization (EC 360), Theories of Industrial Organization (EC 460), or Industrial Organization and Public Policy (EC 461)

2. Complete the environmental studies minor or an approved equivalent
The master's degree program consists of the following departmental requirements in addition to university and Graduate School requirements for the master of arts (M.A.), or the master of science (M.S.) degree. Each master's degree candidate chooses either the course work or the research option.

**Credit Requirements.** The course work option requires a minimum of 48 graduate credits. The research option requires a minimum of 45 graduate credits if the candidate writes a research paper or a minimum of 51 graduate credits if the candidate writes a thesis.

**Course Requirements**

1. Three terms of Econometrics (EC 523, 524, 525) or equivalent to be completed by the end of the first full academic year
2. Two terms of economic theory (EC 511, 513) to be completed by the end of the first full academic year.
3. Elective economics courses excluding EC 503, 601, 605, 609, and Ph.D.-level micro- and macroeconomics core courses (EC 607). Ph.D. students who transfer to the master's program and who have completed the micro- and macroeconomics core courses (EC 607) may apply those courses to master's degree requirements.

**Course Work Option.** Seven elective field courses, at least four of which must be at the 600 level and include Seminar: Econometrics I (EC 607) or Seminar: Econometrics II (EC 607). The 600-level courses must be approved by the candidate's adviser before the course work option is begun.

**Research Option.** Five elective field courses, at least two of which must be at the 600 level. No more than 5 credits in EC 601 may be applied to the 45-credit minimum for the research paper and no more than 9 credits in EC 503 may be applied to the 51-credit minimum for the thesis. The thesis or research paper, on a topic from the area of economics in which a 600-level field course was taken, must be approved by two department faculty members. The candidate's committee must have approved a prospectus for the thesis or research paper before the term in which the thesis or research paper is approved.

4. All courses taken to satisfy the master's degree requirements (except EC 503, 601, and 605) must be taken for letter grades with at least a 3.00 cumulative grade point average.

**Time Limits.** Students who choose the course work option must complete all master's degree requirements within three years. Students who choose the research option must complete all master's degree requirements within five years. The master's degree typically requires five to six terms of full-time work. A few well-qualified students have satisfied requirements for the degree in four terms, including a term spent completing the research paper or thesis.

**Environmental Studies**

An interdisciplinary master's degree is offered by the Environmental Studies Program. Graduate courses in biology; economics; geography; planning, public policy and management; and other disciplines make up the program.
The Graduate School's seven-year time limit for completion of all Ph.D. degree requirements begins with the most recent year of three consecutive terms of full-time study in the doctoral program. More detailed information is given in the department's pamphlet, Graduate Studies in Economics.

Support Services

Social Science Data Services Laboratory
Cathleen S. Leue, Director
(541) 346-1335
451 Grayson Hall
The Social Science Data Services Laboratory specializes in data acquisition, access to online data, and the archiving of local data. The laboratory's membership in the Inter-University Consortium for Political and Social Research entitles the university community to order data from the largest data archive in the world. Data available to consortium members include panel study of income dynamics, international financial statistics, census data, national crime statistics, and current population surveys. The laboratory also participates in the National Center for Health Statistics Public Use Data Tape Program. The laboratory stores data from the panel study of income dynamics, international financial statistics, Citibase, and the Organization for Economic Cooperation and Development. Users can easily obtain data at their desks by using file transfer protocol (FTP). Laboratory services include locating and ordering data and creating subsets of those data, training users to use the basic system and the SAS statistics package, and moving data to the university's VMScluster. The laboratory also archives data sets generated by campus researchers.

Social Science Instructional Laboratory
Cathleen S. Leue, Director
(541) 346-2547
442 and 445 Grayson Hall
The Social Science Instructional Laboratory is a state-of-the-art microcomputer laboratory. Staff members assist social science instructors with real-world data, and provide research assistance to social science graduate students. Any UO student may use the laboratory when it is not in use by a class.

The Social Science Instructional Laboratory consists of a twenty-three-station laboratory and a thirty-three-station laboratory. Both contain state-of-the-art, Pentium-based computers with sound, high-end video, twenty gigabytes of storage, and zip and CD drives. Each laboratory is equipped with an instructor station, a wheelchair-accessible station, a scanner, and a computer projector system. Printing capabilities include two laser printers, a color laser printer, a large-format color printer, and a high-speed printer.

The Social Science Instructional Laboratory houses the instructional geographic information systems (GIS) laboratory, in which students can use the powerful Arc/Info software to create maps and conduct spatial analyses.

Economics Courses (EC)

101 Contemporary Economic Issues (4) Examines contemporary public policy using economic principles. Topics may include balanced budgets and tax reform, unemployment, health care, poverty and income redistribution, environmental policy, and international trade policy.

199 Special Studies: [Topic] (1–5R)
201 Introduction to Economic Analysis: Microeconomics (4) First term of introductory sequence in principles of economics. MATH 111 recommended.

HC 204 (H) Honors College Introduction to Microeconomics (4) See Honors College HC 205 (H) Honors College Introduction to Macroeconomics (4) See Honors College 311 Intermediate Macroeconomic Theory (4) Consumer and firm behavior, market structures. General equilibrium theory, welfare economics, collective choice, rules for evaluating economic policy. Prereq: EC 201, MATH 111. Students cannot receive credit for both EC 311 and FINL 311.

350 Labor Market Issues (4) Topics may include the changing structure of employment, the minimum wage, the dual labor market hypothesis, collective bargaining, discrimination, and health and safety regulation. Prereq: EC 201, 202. Singell, Stone, Ziliak.

360 Issues in Industrial Organization (4) Topics may include analysis of market power, trends in industrial structure, the role of
advertising, pricing policies and inflation, impact of social regulation (e.g., OSHA, EPA), and international comparisons. Prereq: EC 201, 202. Blonigen, Wilson.

390 Problems and Issues in the Developing Economies (4) Topics may include the role of central planning, capital formation, population growth, agriculture, health and education, interaction between economic and cultural change, and the "North-South debate." Prereq: EC 201, 202. Chakraborty.

399 Special Studies: [Topic] (1–3R)

401 Research: [Topic] (1–2R)

405 Reading and Conference: [Topic] (1–2R)

407/507 Seminar: [Topic] (1–5R) Weekly offerings vary depending on interests and needs of students and on availability of faculty members.

408/508 Workshop: [Topic] (1–2R)

410/510 Experimental Course: [Topic] (1–5R)

413/513 Advanced Macroeconomic Theory (4) Advanced theory about the determination of aggregate income, employment, unemployment; evaluation of macroeconomic policies. Prereq: EC 411/511. Thoma.

423/523, 424/524, 425/525 Econometrics (4, 4, 4) Regression problems of autocorrelation, heteroskedasticity, multicollinearity, and lagged dependent variables; special single-equation estimating techniques; the identification problem in a simultaneous equation setting; development of simultaneous equation estimating procedures; the properties of these estimators; applications of these procedures to the problem of obtaining estimates of structural parameters in economic models containing many equations. Prereq: MATH 251, 252, 253 and elementary statistics. Haynes, Kolpin, Singell, Thoma.

429/529 Topics in Mathematical Economics (4) Mathematical formulations of economic theory. Linear programming, elementary growth models, matrices, stability analysis and equilibrium behavior under uncertainty, production functions, and Slutsky equation analysis of consumer demand. Prereq: EC 311, 313 and elementary calculus. Kolpin, van den Nouweland.

430/530 Urban and Regional Economics (4) Location theory; urbanization and metropolitan growth; regional analysis; intraurban rent, location and land use, size distribution of urban areas; welfare economics, political economy, and urban problems. Prereq: EC 311. Whiteal.

432/532 Economy of the Pacific Northwest (4) Locational factors influencing development of the region's major industries; recent changes in income and population; problems and governmental policies in the areas of taxation, environment, and planning. Prereq: EC 311. Whiteal.

441/541 Public Finance (4) Public budgeting, detailed consideration of the principles of taxation and expenditure, analysis and comparison of various forms of taxation, government enterprises. Prereq: EC 311, 313. Ellis.

450/550 Labor Economics (4) Supply and demand for labor wage determination under various market structures, low-wage labor markets, segmentation, the role of trade unions, wage differentials, discrimination, and the nature of work. Prereq: EC 311. Singell, Stone, Ziliak.

460/560 Theories of Industrial Organization (4) Theories, quantitative measures, and institutional descriptions of the structure, conduct, and results that characterize American industry. Emphasis is on the determinants and consequences of market power. Prereq: EC 311. Blonigen, van den Nouweland, Wilson.

461/561 Industrial Organization and Public Policy (4) Major policy instruments that have been developed to cope with social problems created by market power. The two principal instruments are antitrust and income policies. Prereq: EC 311. Blonigen, Kolpin, Wilson.

481/581 International Trade (4) Theories of international trade, direction of trade flows, determination of prices and volumes in international trade, tariffs, quotas, customs, unions, free versus restricted trade. Prereq: EC 311, 313. Blonigen, Davies, Stone.
Honors Program Admission. Students are recommended by a faculty member for admission to the honors program during their sophomore year. However, admission is possible as late as the junior year. Entry into the program is determined by the honors program director after a review of the student’s achievement in literature courses and other evidence of superior academic ability.

Honors Program Admission. Students are recommended by a faculty member for admission to the honors program during their sophomore year. However, admission is possible as late as the junior year. Entry into the program is determined by the honors program director after a review of the student’s achievement in literature courses and other evidence of superior academic ability.

Middle and Secondary School Teaching
The College of Education offers a five-year program for middle-secondary teaching licensure in language arts. This program is described in the College of Education section of this catalog.

Graduate Studies
The Department of English offers graduate study in English and American literature. It offers the master of arts (M.A.) and doctor of philosophy (Ph.D.) degrees in English. A detailed description of these programs is sent with the Graduate Admission Application form.

Master of Arts Degree
The Department of English offers an M.A. that focuses on English and American literature for students who want to study beyond the B.A., but who do not plan to complete a Ph.D. The department also offers an emphasis in film studies. Students whose goal is a doctorate specializing in English and American literature should apply for admission to the department’s doctoral program (described below). Students who complete the M.A. program at the University of Oregon and want to enter the Ph.D. program must reapply to the department for admission into that program.

Admission Requirements
1. An undergraduate grade point average (GPA) of at least 3.30 (B+) or, if the student has 12 or more credits of graduate work in English, a graduate GPA of 3.30 or better
2. A minimum score of 550 on the verbal section of the general test of the Graduate Record Examinations (GRE)
3. For non-native speakers: a minimum score of 600 on the paper-based Test of English as a Foreign Language (TOEFL) or a minimum score of 250 on the computer-based test

Admission Procedures
1. Obtain a Graduate Admission Application from the department’s graduate secretary
2. Send the first copy to the UO Office of Admissions with a $50 admission fee and the remaining copies to the graduate secretary
3. Arrange to have two official copies of graduate and undergraduate transcripts sent, one to the UO Office of Admissions, the other to the graduate secretary
4. Submit or have sent to the graduate secretary
   a. An official record of GRE scores
   b. Letters of recommendation from three people familiar with the applicant’s academic background and intellectual abilities
   c. A brief statement of background and objectives in pursuing the course of study
   d. A copy of a course paper that demonstrates the applicant’s ability in literary studies

The application deadline for fall-term admission is July 1; for winter term, October 1; for spring term, January 10; for summer session, April 1. The completed file is reviewed by the department’s graduate admissions committee, which notifies the applicant of its decision. All admissions are conditional.
Degree Requirements

Completion of the degree requires reading competence in one foreign language. Reading competence may be demonstrated by a B+ average in the yearlong Old English sequence; a grade of mid-B or better in the last term of a second-year language course or an approved 300-, 400-, or 600-level literature course with readings in the target language; scoring at the 25th percentile or better on the Graduate Student Foreign Language Test (GSFLT); or passing the Toronto Medieval Latin examination at the master's level.

Students must take twelve formal 600-level seminars for the M.A. degree. A master's thesis may be substituted for one of these seminars, with the prior approval of the director of graduate studies in consultation with the faculty thesis adviser. The M.A. thesis is a substantial scholarly essay.

A minimum cumulative GPA of 3.30 in all graduate course work at the UO is required for completion of the M.A. degree. At least nine courses must be taken in residence at the University of Oregon.

Emphasis in Film Studies

The emphasis in film studies is a way to focus course work for the M.A. in English. The emphasis is oriented toward students who want a career in the media or who plan advanced graduate work in film studies. Candidates work closely with a faculty adviser whose specialty is film studies. The adviser oversees Reading and Conference (ENG 605) during the first term; helps the student develop an individual plan of study, which must be approved by the director of graduate studies; and directs the master's thesis during the final term of study.

Course requirements

- Reading and Conference (ENG 605) in media aesthetics and film theory
- Three 500-level film courses
- One 600-level film seminar
- Two 600-level seminars in theory, criticism, or 20th-century literature or offered through the Folklore Program
- Two 600-level seminars in the School of Journalism and Communication
- Two or more graduate courses in film studies or related courses in other departments
- Thesis (ENG 503)

Interdisciplinary M.A.

For information see the description of the Interdisciplinary Studies: Individualized Program (IS:IP) in the Graduate School section of this catalog.

Doctor of Philosophy Degree

Students who want to pursue a Ph.D. at the University of Oregon should apply directly to the doctoral program. Students in the doctoral program who have not earned an M.A. prior to being admitted may receive the M.A. at the appropriate stage of their course of study, typically at the end of the second year (subject to the fulfillment of department and university M.A. requirements listed in the Graduate School section of this catalog.) The number of places in the Ph.D. program is limited, and admission is competitive.

Admission Requirements

1. A bachelor of arts (B.A.) or a master of arts (M.A.) in English or a related field, with at least a 3.50 graduate grade point average (GPA)
2. A combined Graduate Record Examinations (GRE) score of 1250 on the verbal section of the general test and the literature in English test
3. For nonnative speakers: a minimum score of 600 on the paper-based Test of English as a Foreign Language (TOEFL) or a minimum score of 250 on the computer-based version

Admission procedures are the same as for M.A. degrees. The application deadline for fall term is January 15; candidates are admitted only for fall term.

Residency Requirements

The Graduate School requires at least three years of full-time work beyond the bachelor's degree for the doctorate with at least one year spent in continuous residence on the Eugene campus. The Graduate School requires three consecutive terms (fall, winter, spring) with a minimum of nine graduate credit hours of formal course work per term for the Ph.D. year of residency; graduate teaching fellows must also enroll for a minimum of nine graduate credits each term they hold a GTF appointment.

Degree Requirements

Second Language

The graduate language requirement for the doctoral degree is reading competence in two languages or high proficiency in one. Reading competence may be demonstrated in each of two foreign languages as specified under the language requirement for the M.A. degree. High proficiency may be demonstrated by a grade of A– or better in an approved 400-, 500-, or 600-level literature course, with readings in the target language; scoring at the 75th percentile or better on the GSFLT; or passing the Toronto Medieval Latin examination at the Ph.D. level.

Students may petition the graduate committee to test in languages that don't fit the above criteria.

Teaching

Doctoral candidates must have experience as classroom teachers in the department before they receive the degree.

Courses

The student must take eighteen seminars, six in designated distribution areas:

- Introduction to Graduate Studies in English (ENG 690)
- Pre-1500
- Renaissance
- 1660-1800
- 19th century
- Literary theory

Individual Plan of Study

The twelve remaining seminars, constituting the individual plan of study, may be distributed among any areas, and the plan must be approved by the student's graduate faculty adviser and the director of graduate studies before the second year of study.

Structured Emphasis

Students may define their individual plan of study according to one of three structured emphasis options: medieval studies, language and literature, or rhetoric. Each emphasis has a focused set of courses and may have a special section on the qualifying examination. Graduate course work should be done at the 600 level. Exceptions to this policy must be made in advance by the director of graduate studies in consultation with the individual faculty adviser.

A cumulative GPA of 3.50 or better in all graduate work at the University of Oregon is the minimum requirement for satisfactory progress toward the Ph.D.

Qualifying Examination

Doctoral candidates must take the Ph.D. qualifying examination at the beginning of the second year of study. This examination, which covers the whole of English and American literature, is based on a reading list compiled by members of the faculty. This reading list may be changed periodically. A committee of faculty members administers the examination once a year in the fall term. Students who fail the qualifying examination may retake it once, the following spring term.

Students who pass the qualifying examination complete their remaining course work during the next three terms and begin preparing for the Ph.D. oral examination. Those who have completed twelve graduate-level English courses (nine taken at the university), attained reading knowledge of one second language, and maintained a cumulative GPA of 3.30 or better may apply with an adviser to advance to a specialty in English or American literature.

Students whose work at this stage does not demonstrate sufficient potential for successful completion of the Ph.D. may not continue in the graduate program in English. If they have satisfactorily completed twelve graduate-level English courses (nine taken at the university), attained reading knowledge of one second language, and maintained a cumulative GPA of at least 3.30, they may apply for the M.A. degree.

Ph.D. Oral Examination

After students in the Ph.D. program have completed their course work, they must take a two- and-a-half-hour oral examination. Typically taken fall term following completion of all course work and the language requirement, the Ph.D. oral examination provides each student with the opportunity to present and defend a short paper on a topic related to the dissertation. The examination also allows the student to demonstrate expertise in his or her field of specialization. It is divided into two parts:

1. A prepared presentation by the student on a topic or problem of the student's choice that is related to the dissertation, followed by a discussion of that topic
2. A discussion of a relatively broad field that provides a context for the topic or problem examined in part 1

The topic and areas covered by the oral examination are defined, in the form of a project description and reading list, by the student in consultation with an adviser or advisers and must be approved by the English department graduate committee. As a supplement to the Ph.D. oral
examination, a student may choose to complete a one- to two-hour written examination on part 2. The Ph.D. oral examination may be retaken only once.

Ph.D. Dissertation
After completing all other degree requirements, the candidate should consult with a faculty adviser willing to work in the area of the student’s interest and submit a dissertation prospectus for approval by the student’s dissertation committee. Once the prospectus is approved by the committee and the director of graduate studies, the student is advanced to candidacy. A three-year period for completion of the dissertation begins when the Graduate School approves the advancement to candidacy. The department requires a considerably faster rate of progress toward completion of the degree for students holding graduate teaching fellowships. See the English department’s Appointment and Reappointment of Graduate Teaching Fellows regulations, available in the office.

The dissertation may be a work of literary or linguistic scholarship or, with the approval of the committee, a collection of three substantial essays exhibiting internal coherence though not necessarily treating a single subject. The candidate gives an oral presentation or defense of the dissertation when it is completed and found acceptable by the committee.

Expository Writing
The English department offers required and elective courses in expository writing for all university students to help them improve their ability to write clearly and effectively. Students must fulfill the university writing requirement of two composition courses or be cleared according to established waiver and exemption policies. The requirement is WR 121 and either WR 122 or 123, or their approved equivalents. Students should complete the writing requirement—work course by work, by examination, or by waiver examination—early in their studies.

Exemptions. A score of 710 and above on the SAT I waives the first-term writing requirement. Students who take the American College Test (ACT), a score of 32 waives WR 121. No credit is given for this waiver. A test score of 650 on the SAT I-Verbal examination taken before recentering (April 1995) also waives WR 121. A student with a CB score of 5 on the Advanced Placement (AP) English Language and Composition examination, or a 4 or 5 on the AP English Language and Composition examination, receives credit for both WR 121 and 122. A student with a score of 4 on the AP English Literature and Composition examination, or a 3 on the AP English Language and Composition examination, receives credit for WR 121 only. For students who take the American College Test (ACT), a score of 32 waives WR 121. No credit is given for this waiver.

Waiver Examinations. Waiver examinations for WR 121 and 122 are offered during the first week of classes, fall through spring terms, at the UO Testing Office, 238 University Health and Counseling Center Building: telephone (541) 346-3230. Call or visit the Testing Office to sign up for an examination. No credit is awarded for waiver examinations, and students may not take waiver examinations for both courses in the same term. The essay exams are graded pass/no pass by three members of the Department of English composition committee. Students who do not pass may not take the examination and should register for the appropriate writing course as soon as possible. Students who pass the exam have an “exemption by exam” notation for either WR 121 or 122 placed on their transcripts.

Placement
Students for whom English is the native language are placed in their first writing course based on the Test of Standard Written English (TSWE), which is required of all new students and of transfer students who have not satisfied the writing requirement. Students should sign up for the TSWE at the University Counseling Center Testing Office before registration. Depending on TSWE scores or placement test results, students may be required to satisfy additional prerequisites for placement in WR 121. These may include WR 49 or AEIS 110, 111, 112 (taught in the Department of Linguistics).

Nonnative Speakers. Students for whom English is not the native or primary language are placed in their first writing course on the basis of a placement test, which is administered before registration. Nonnative speakers should inquire at the Academic English for International Students office in the American English Institute, 112C Pacific Hall, for placement test dates.

Transfer Students. Transfer students in doubt about the equivalency of courses taken elsewhere should bring transcripts and catalog descriptions to the composition office, Department of English, for evaluation.

English Courses (ENG)
Not every course listed here can be offered every year; students should consult the current UO Schedule of Classes.

107, 108, 109 World Literature (4, 4, 4) Reading and analysis of selected works ... (prose, fiction, drama, poetry, autobiography, folklore) examined in the context of current feminist literary theories. R when topic changes. Clark, Dugaw, Karlyn, Lesage.

200, 201, 202 Survey of American Literature (4, 4, 4) American literature from its beginnings to the present: 200: to 1850. 201: 1850 to 1900. 202: 1900 to the present. Clark, Diehl, Paly, Stearn.
Hardy. 323: Conrad to the present. Bohls, Duncan, Stevenson.
325 Literature of the Northwest (4) Survey of significant Pacific Northwest literature as set against the principles of literary regionalism. Clark, Love.
326 Western American Literature (4) Major literary works of the American West from frontier times to the present. Huhndorf, Kintz, Love, Pyle.
340 Jewish Writers (4) Forms and varieties of fiction, poetry, and drama by Jewish writers from the 19th century to the present. Stein.
400-1evel courses.
421/521
419/519
422/522
400-1evel courses.
351/531 Renaissance Thought (4) Major Continental and British theorists in aesthetics, metaphysics, theology, and statecraft such as Petrarch, Pico della Mirandola, Machiavelli, Castiglione, Boccaccio, Erasmus, Montaigne, More, and Francis Bacon. Freinkel, Rowe.
434/534 Spenser (4) Examines the works of Edmund Spenser. Rowe.
436/536 Advanced Shakespeare (4) Detailed study of selected plays and/or poetry. Freinkel, Rowe, Saunders.
437/537 Medieval and Tudor Drama (4) Development of English drama from its medieval origins to the death of Christopher Marlow. Rowe.
451/551 19th-Century Studies: [Topic] (4R) Comparative studies of selected problems and figures on both sides of the Atlantic; treating topics in literature, the fine arts, and social history. Duncan, Pyle, Rossi, Stein, Stevenson, Teich. R when topic changes.
461/561 American Literature to 1800 (4) Readings in American poetry, nonfiction prose, drama, and fiction. Rossi, Sayre.
476/576 Modern Fiction (4) Representative modern fiction writers in English, American, and Continental literatures, such as Joyce, Woolf, Stein, Faulkner, Proust, Kafka, and Mann. Peppis, Wickes.
479/579 Major Authors: [Topic] (4R) In-depth study of one to three major authors from medieval through modern periods. R when topic changes.
480/580 Native American Representation in Film (4) Examines the representation of Native Americans in films from 1910 to the present, focusing on issues of identity, colonialism, and liberation movements. Prereq: junior standing or above. Huhndorf. Not offered 2001–2.
482/582 Studies in Mythology (4) Survey of comparative mythologies of many cultures through time, with attention to world views,
484/584 American Folklore (4) American folklore; its connections in American history and culture; its role in the development of the writings of selected American authors (e.g., Hawthorne, Melville). Sherman, Wojcik.
488/588 Race and Representation in Film (4) Screening, interpretation, and analysis of films from Latin America and other developing non-European cultures and by people of color. Mechanisms of racism in dominant U.S. media. Huhndorf, Karlyn, Lesage.
492/592 History of Rhetoric and Composition (4) History of rhetoric as related to the theory and practice of writing, relations between rhetoric and poetics, and rhetorical criticism through the 19th century. Crosswhite, Gage.
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
602 Supervised College Teaching (1–16R) P/N only
603 Dissertation (1–21R) Prereq: instructor's consent.
604 Internship: [Topic] (1–6R) Prereq: instructor's consent.
605 Reading and Conference: [Topic] (1–16R)
607 Seminar: [Topic] (1–5R) Selected seminars offered each year.
608 Workshop: [Topic] (1–16R)
610 Experimental Course: [Topic] (1–5R)
611 Composition Graduate Teaching Fellow Seminar I (1–3) Issues in pedagogy related to the university's writing requirement. Laskaya.
612 Composition Graduate Teaching Fellow Seminar II (1–3) Discussions designed to increase the effectiveness of first-year graduate teaching fellows as teachers of courses that fulfill the university's writing requirement. Laskaya.
613 Graduate Teaching Fellow Composition Apprenticeship (1–3) Supervised practical experience in all aspects of teaching WR 121, 122. Prereq: ENG 611 or equivalent or instructor's consent. Laskaya.
614 Advanced Studies in Literary Theory: [Topic] (5R) Intensive study of one to three major theorists or a significant theoretical problem. Clark, Crosswhite, George, Li, Westling, Wood. R when topic changes.
620 Medieval Literature: [Topic] (5R) Recent offerings include Chaucer's Troilus and Criseyde, Humor and Vulgarity in Medieval Literature. Bayless, Boren, Earl, Ginsberg, Laskaya. R when topic changes.
630 Renaissance Literature: [Topic] (5R) Recent offerings include Hamlet, Jacobean Potboilers, Renaissance Irrationalities. Freinkel, Gil, Rockett, Rowe, Saunders. R when topic changes.
645 18th-Century Literature: [Topic] (5R) Intensive study of one to three major authors or selected topics from the 18th century. Recent includes include Enlightenment and Revolution. Bohls, Dugaw, Sayre, Shankman. R when topic changes.
670 Modern Literature: [Topic] (5R) Recent offerings include H. James, Modernist Politics. Gage, Kintz, Peppis, Westling, Wickes. R when topic changes.
680 Folklore: [Topic] (5R) Intensive study of selected topics in folklore. Recent offerings include Topics in Folk Art, Film and Folklore Fieldwork. Dugaw, Sherman, Wojcik. R when topic changes.
690 Introduction to Graduate Studies in English (5) Examination of selected professional, methodological, and theoretical issues. Ford.
691 Composition Theory: [Topic] (5R) Intensive study of topics related to rhetorical theory and the teaching of writing. Crosswhite, Gage, Laskaya, Teich. R when topic changes.
695 Film Studies: [Topic] (5R) Intensive study of selected topics related to film studies and literature. Recent topics include Introduction to Film Theory, Feminism, Comedy, and the Carnivalesque; Melodrama. Karlyn, Lesage. R when topic changes.

Expository Writing Courses (WR)

WR 49 is a self-support course offered through the Continuation Center, 333 Oregon Hall. A separate fee that is assessed for students enrolled in these courses must be paid in addition to regular tuition. This course carries credit for enrollment (eligibility) but not toward graduation; it satisfies no university or college requirement.

49 Developmental Composition (5) Concentrates on components of clear, focused essay writing. Emphasis on revision, identifying and correcting grammar and punctuation errors, and peer reviewing. Not primarily a course in grammar, but students deal with grammatical problems as they arise within the context of their

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Program Committee
Gregory D. Bathum, physics
Bart Johnson, landscape architecture
Galen R. Martin, environmental studies
Patricia F. McDowell, geography
Daniel Udovic, biology
Peter A. Walker, geography
Louise Westling, English

Participating Faculty
Keith Aoki, law
William S. Ayres, anthropology
Michael D. Axline, law
John H. Baldwin, planning, public policy and management
Patrick J. Bartlein, geography
Carol Ann Bassett, journalism and communication
Ann Bettman, landscape architecture
Aletta Biersack, anthropology
James Blanchard, physical activity and recreation
Shawn Boles, education
John E. Bonine, law
William E. Bradshaw, biology
G. Z. Brown, architecture
Aileen R. Buckley, geography
George C. Carroll, biology
Lawrence R. Carter, sociology
Katharine V. Cashman, geological science
Richard W. Castenholtz, biology
Suzanne Clark, English
Shaul E. Cohen, geography
Robin Morris Collin, law
John S. Conery, computer and information science
James R. Crosswhite, English
Robert G. Darst, political science
James L. Dawson, political science
Matthew Dennis, history
Irene Diamond, political science
Alan Dickman, biology
Jerome Diethelm, landscape architecture
Rebecca J. Dorsey, geological science

Bryan T. Downes, planning, public policy and management
Michael C. Drelling, sociology
Richard B. Emlet, biology
Paul C. Engelking, chemistry
Arthur M. Farley, computer and information science
John B. Foster, sociology
John T. Gage, English
Daniel Goldrich, political science
Patricia A. Gwartney, sociology
William T. Harbaugh, economics
Susan W. Hardwick, geography
Kenneth L. Helphand, landscape architecture
Michael Hibbard, planning, public policy and management
Richard G. Hildreth, law
Janet Hodder, Oregon Institute of Marine Biology
Garrett K. Hong, creative writing
Carl J. Hosticka, planning, public policy and management
David Hulse, landscape architecture
James E. Hutchison, chemistry
Jon L. Jacobson, law
Mark Johnson, philosophy
Ronald W. Kellett, architecture
Lauren J. Kenler, journalism and communication
Joanna E. Lambert, anthropology
Kenneth B. Liberman, sociology
John T. Lysaker, philosophy
Gregory McAulachlan, sociology
Jerry F. Medler, political science
Robert Z. Melnick, landscape architecture
Ronald B. Mitchell, political science
Geraldine Moreno, anthropology
Madonna L. Moss, anthropology
Alexander B. Murphy, geography
Jeffrey Ostler, history
Stephen E. Ponder, journalism and communication
Daniel A. Pope, history
David C. Povey, planning, public policy and management
Robert C. Proudfoot, international studies
Mark H. Reed, geological sciences
Gregory J. Retailleau, geological sciences
John S. Reynolds, architecture
Robert G. Ribe, landscape architecture
William Rossi, English
Bitty A. Roy, biology
Charles W. Rusch, architecture
Michael V. Russo, management
Gordon M. Sayre, English
Alan Shanks, biology
Lynda P. Shapiro, biology
Paul Slovic, psychology
Michael Strong, physical activity and recreation services
Lawrence S. Sugiyama, anthropology
Richard P. Suttmeier, political science
Nora B. Terwilliger, biology
Dennis Todd, honors college
Douglas R. Toonney, geological sciences
Terry Warnpinski, fine and applied arts
Peter B. Weathers, biology
Ray J. Weldon, geological sciences
Cathy Whitlock, geography
A. Michelle Wood, biology
Mary C. Wood, law
Philip D. Young, anthropology

writing. Recommended for students with Test of Standard Written English (TSWE) scores of 30 to 37. Mariner.

AEIS 110 Beginning Writing for International Students (3) See Linguistics

AEIS 111 Intermediate Writing for International Students (3) See Linguistics

AEIS 112 Advanced Writing for International Students (3) See Linguistics

121 College Composition (4) Written reasoning as discovery and inquiry. Frequent essays explore relationship of thesis to structure and audience. Strong focus on the process of revising. Regular work on editing. Prereq: Test of Standard Written English (TSWE) score of 36 or better, WR 49, or equivalent.

122 College Composition II (4) Written reasoning as a process of argument. Developing and supporting theses in response to complex questions. Attention to critical reading in academic setting. Continuing focus on revising and editing. Prereq: WR 121 or equivalent.

123 College Composition III (4) Written reasoning in the context of research. Practice in writing documented essays based on the use of sources. Continuing focus on revising and editing. Prereq: WR 121 or equivalent.

198 Independent Writing Project: [Topic] (1–3R) Supervised writing projects in nonfiction prose. Prereq: WR 122 or equivalent, composition director's consent.

199 Special Studies: [Topic] (1–5R)

312 Principles of Tutoring Writing (4) The practice and ethics of tutoring writing in the context of writing in various academic disciplines. Theories of teaching, tutoring techniques, and assessment of writing. Prereq: instructor's consent.

320 Scientific and Technical Writing (4) Emphasis on form and style of scientific, professional, and technical writing; weekly writing assignments include reports, proposals, instructions, and correspondence. Use of graphics and documentation in publication. Prereq: completion of university writing requirement, upper-division standing.

321 Business Communications (4) Practice in writing and analyzing internal and external messages common to business, industry, and professions. Suggested for business and management students. Prereq: completion of university writing requirement, upper-division standing.

399 Special Studies: [Topic] (1–5R) R when topic changes. Prereq: sophomore standing or above.

408/508 Independent Writing Projects (1–4R) Supervised writing projects in nonfiction prose. Prereq: WR 122 or equivalent, composition director's consent.

410 Experimental Course: [Topic] (1–5R) R when topic changes. Prereq: junior standing or above.

423/523 Advanced Composition (4) Emphasis on critical thinking skills and rhetorical strategies for advanced written reasoning in different academic disciplines. Prereq: WR 122 or equivalent, upper-division standing, Crosswhite, Gage, Teich.
About the Program

Environmental studies crosses the boundaries of traditional disciplines such as the sciences, social sciences, humanities, management, policy, design, and law. It challenges faculty members and students to look at the relationship between humans and their environment from a new perspective. The Environmental Studies Program is dedicated to gaining greater understanding of the natural world from an ecological perspective; devising policies and behaviors that address contemporary environmental problems; and promoting a rethinking of basic cultural premises, ways of structuring knowledge, and the root metaphors of contemporary society.

Faculty. The program committee and participating faculty members listed above have demonstrated professional interest in environmental studies by researching environmental issues, teaching courses that meet program requirements, and participating in a variety of program activities. They are available to advise students who are interested in environmental studies. More information about the faculty is available on the program's website.

Resources. The program's resource center has a small collection of books, journals, newsletters, and documents related to environmental topics. University of Oregon students and faculty and staff members may borrow items for up to two weeks.

Undergraduate Studies

The program offers undergraduate training through two majors, leading to a bachelor of arts (B.A.) or a bachelor of science (B.S.) degree. A minor in environmental studies is also offered.

The environmental studies majors provide a broad, solid, interdisciplinary perspective on the relationship between humans and nature. Their goals are to develop awareness of environmental issues and to develop an understanding of (1) the nature and scope of the forces underlying environmental problems, (2) the various approaches used to bring environmental problems to the public's attention, and (3) the methods and approaches used to solve these problems. Majors learn the skills necessary to contribute to understanding the relationship between humans and nature and the complexity of environmental challenges and to help meet these challenges. Majors gain an appreciation of the interdisciplinary nature of environmental studies, and they master content and skills associated with a number of different disciplines.

Majors and minors have considerable latitude in designing a course of study that combines theory and practice; invites active participation; and fits specific interests, needs, and aptitudes. The majors—which provide a well-rounded basic education, prepare students for entry-level positions in business, government, nongovernmental organizations, and for a variety of graduate and professional degree programs. Students are encouraged to take advantage of career planning services offered by the Career Center.

The environmental studies major focuses on social sciences, policy studies, and the humanities. It is designed for students who are interested in such areas as environmental policy, planning, ethics or philosophy, ecocriticism, ecofeminism, environmental justice, sustainable development, international environmental issues, or social theory and the environment.

The environmental science major is designed for students who want to focus on scientific careers in conservation biology; climate; pollution prevention and abatement; or ecosystem protection, restoration, and management.

Students should plan their programs early in their undergraduate careers with the aid of an environmental studies academic advisor. Majors are urged to consider completing a second major or a minor in a related field. A tip sheet listing courses that meet environmental studies major and minor requirements is published each term. Up-to-date information and the tip sheet are available in the program office or on the website.

Major Requirements

The environmental studies curriculum is designed to provide a solid foundation in the sciences, social sciences, and humanities; to build on that foundation in advanced course work in a variety of disciplines and across disciplines; to develop the skills needed to study human-environment interactions; and to encourage participation in experiential learning activities that help students prepare for active participation in the work force and in local and global communities. Students should have a strong foundation in written and verbal skills and a thorough understanding of environmental policy and social behaviors.

Courses applied to the major, except environmental studies courses numbered 401 through 409, must be taken for letter grades and passed with grades of C– or better. Up to four upper-division courses may be used to fulfill requirements of another major. At least 24 credits must be taken at the University of Oregon.

Environmental Studies Major

This major requires a minimum of 84 credits including 40 lower-division credits and a minimum of 44 upper-division credits. Upper-division credits may be earned through course work or through a combination of course work and a student-initiated project or honors thesis.

1. Core (12 credits).
   a. Introduction to Environmental Studies: Social Sciences (ENVS 201), Introduction to Environmental Studies: Natural Sciences (ENVS 202), Introduction to Environmental Studies: Humanities (ENVS 203). These courses may be taken in any order.
   Consult an advisor for possible substitutions.

2. Basic Requirements in Mathematics and Natural Science (20 credits)
   a. Majors must take at least one university-level mathematics course numbered 100 or higher; MATH 111 is recommended.
   b. Choose a three-course combination from one of the following four groups

      Chemistry. General chemistry (CH 211–212) or (CH 221–222) or transfer equivalent.
      Earth Sciences. Earth's Dynamic Interior (GEOL 101), Environmental Geology (GEOL 102), The Evolving Earth (GEOL 103).
      Earth and Environment (GEOL 201). Earth Surface and Environmental Geology (GEOL 202), Evolution of the Earth (GEOL 203) or The Natural Environment (EOG 141), Global Environmental Change (EOG 143), Evolution of the Earth (GEOL 203).
      Life Sciences. Introduction to Chemical Principles (CH 111) and General Biology (BI 111, 113, 115, 117, 119). Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life, Biological Interactions (BI 261–264).
      Physical Sciences. Introduction to Chemical Principles (CH 111), Physics of Energy and Environment (PHYS 161), Solar and Other Renewable Energies (PHYS 162) or General Physics (PHYS 201–203) or transfer equivalent.
   c. Choose one course from a different group from the following list of additional approved lower-division courses: Introduction to Human Origins (ANTH 170); Introduction to Human Adaptability (ANTH 172); Introduction to Ecology (BI 130), not in conjunction with BI 213, Introduction to Evolution (BI 131), not in conjunction with BI 213.

3. Upper-Division Electives
   a. Science Courses (8 credits).
      Choose two courses (except GEOG 341 and GEOG 461) from the upper-division environmental science core listed under the environmental science major.
   b. Social Science and Humanities Courses (8 credits in preparatory courses and 32 upper-division credits).
      Courses must be taken from a minimum of two departments in each theme. No more than four courses may be taken from any one department.
   (1) Complete one preparatory course and three upper-division courses in two thematic groups listed below.
   (2) Complete two elective courses selected from the other themes. One elective must be a humanities course.

4. Capstone Experience (minimum of 4 credits)
   b. Practical learning experience—complete upper-division course work that involves significant practical experience in sustainable living or participate in an approved practical learning experience, examples of which are listed below.
      • Environmentally oriented internship or practicum; must be approved by the program advisor.
      • Student-initiated project; must be approved by the coordinator for student-initiated projects.
      • One term of study abroad; must include a substantial environmental component.
      • One term of study at a field station (e.g., Oregon Institute of Marine Biology or Malheur Field Station); must include a substantial environmental component.
      • Approved course work selected from Urban Farm (LA 390), Outdoor Pursuits—
The environmental science major requires a minimum of 104 credits, including 60 lower-division credits and 44 upper-division credits. Upper-division credits may be earned through transfer credit or completion of courses at the university. Students are encouraged to consult with an academic advisor to plan their course of study.

Environmental Science Major

The requirements of the major are divided into the following four areas:

1. Core (12 credits). The core courses provide a foundation in the natural and social sciences.

2. Basic Requirements in Mathematics and Natural Science (48-54 credits). Students must complete courses in mathematics, chemistry, and physics.

3. Humanities (12 credits). Students must complete courses in the humanities to develop a broad knowledge base.

4. Social Science (12 credits). Students must complete courses in social science to understand the human dimension of environmental issues.

5. Preparatory Courses. Students must complete preparatory courses to prepare for upper-division courses.

6. Upper-Division Courses. Students must complete upper-division courses to develop a deeper understanding of environmental science.

Environmental Science courses are available in a variety of areas, including

- Physical Science
- Chemistry
- Biology
- Geology
- Geography
- Environmental Science

Students are encouraged to consult with an academic advisor to plan their course of study.
Global Change (GEOG 432), Environmental Alteration (GEOG 461)

3. Upper-Division Electives (16 credits).
Choose four approved electives. Two courses must be from the natural sciences listed below and two from the social sciences or humanities listed under Thematic Groups in the environmental studies major. Courses taken to satisfy the upper-division core requirements cannot be used to satisfy the electives requirement. No more than three upper-division courses from one department (except the Environmental Studies Program) may be applied to the requirements of the environmental science major.

4. Capstone Experiences (a minimum of 4 credits)
   a. Environmental Issues (ENVS 411) or approved course
   b. Practical learning experience—may be satisfied in any of the following ways:
      • One term of study at a field station such as Oregon Institute of Marine Biology or Malheur Field Station
      • Two terms of research experience with a UO faculty member in environmental sciences
      • An internship with a substantial component in environmental science; requires approval by the program’s internship coordinator
      • A science-oriented student-initiated project; requires approval by the program’s student-initiated project coordinator
      • Other science-oriented experiential learning opportunities approved by the program’s director or head adviser

Approved Upper-Division Electives
Consult the program’s term-by-term tip sheet about courses numbered 399, 407, or 410 that fulfill upper-division elective requirements.

Natural Sciences
Anthropology. Human Ecology (ANTH 360), Human Evolution (ANTH 361), Food and Culture (ANTH 365), Human Adaptation (ANTH 367)
Biology. Forest Biology (BI 307), Freshwater Biology (BI 308), Microbiology (BI 330), Microbiology Laboratory (BI 331), Plant Diversity and Physiology (BI 340), Marine Biology (BI 357), Ecology (BI 370), Biological Diversity (BI 375), Evolution (BI 380), Animal Behavior (BI 390), Marine Field Studies (BI 412), Algae and Photosynthetic Bacteria (BI 431), Mycology (BI 432), Systematic Botany (BI 442), Field Botany (BI 448), Invertebrate Zoology (BI 451), Insect Biology (BI 452), Marine Birds and Mammals (BI 455), Marine Biology (BI 457), Biological Oceanography (BI 458), Field Ornithology (BI 459), Population Ecology (BI 471), Community Ecology (BI 472), Quantitative Ecology (BI 473), Marine Ecology (BI 474), Freshwater Ecology (BI 475), Microbial Ecology (BI 477), Advanced Evolutionary Genetics (BI 482), Conservation Biology (BI 483)
Chemistry. Organic Chemistry I (CHEM 331)
Computer and Information Science. Modeling and Simulation (CIS 445), Computational Science (CIS 455)

Environmental Studies. Special Studies: Environmental Data Analysis (ENVS 399)
Geography. Climatology (GEOG 321), Geomorphology (GEOG 322), Biogeography (GEOG 323), Watershed Science and Policy (GEOG 360), Advanced Geographic Data Analysis (GEOG 414), Introductory Geographic Information Systems (GEOG 416), Fundamentals of Remote Sensing (GEOG 418), Advanced Climatology (GEOG 421), Advanced Geomorphology (GEOG 422), Advanced Biogeography (GEOG 423), Soil Genesis and Geography (GEOG 424), Hydrology and Water Resources (GEOG 425), Fluvial Geomorphology (GEOG 427), Long-Term Environmental Change (GEOG 430), Vegetation History and Ecosystem Dynamics (GEOG 431), Climatological Aspects of Global Change (GEOG 432), Environmental Alteration (GEOG 461)

Geological Sciences. Earth Materials (GEOG 311), Geophysics (GEOG 325), Sedimentology and Stratigraphy (GEOG 334), Structural Geology (GEOG 350), Geologic Hazards (GEOG 353), Sedimentary Petrology (GEOG 416), Geology of Ore Deposits (GEOG 425), Paleontology I: Paleozoic Marine Fossils (GEOG 431), Paleontology II: Mesozoic and Cenozoic Marine Fossils (GEOG 452), Paleontology III: Nonmarine Fossils (GEOG 453), Paleopedology (GEOG 435), Hydrogeology (GEOG 431), Neotectonics and Quaternary Geology (GEOG 452), Tectonics (GEOG 453), Geological and Environmental Fluid Mechanics (GEOG 454), Environmental Field Geophysics (GEOG 464), Aqueous Geochemistry (GEOG 472)

Mathematics (only for environmental science majors). Matrix Algebra (MATH 440)

Physics. Physics of the Atmosphere (PHYS 403)

Options for Majors

Student-Initiated Project
Admission to this enrollment-limited option is competitive. Students submit a formal proposal for their project which must discuss the focus of the project, and the desired distribution of credits. Admission is based on the quality of the proposal—general focus, integration of activities, detailed planning—and an evaluation of the student’s academic record.

A minimum of 12 credits are required. Credits are earned in Research (ENVS 401), Thesis (ENVS 403), Field Studies (ENVS 406), Workshop (ENVS 408), or Practicum (ENVS 409) for work that focuses on an environmental theme or issue and leads to a written product.

Environmental studies majors may substitute the project for the two upper-division natural science elective courses.

Environmental science majors may substitute the project for the two upper-division natural science elective courses.

Honors
Students who want to graduate with honors in environmental studies must have a 3.0 overall grade point average (GPA) and a 3.50 GPA in courses required for the major. Honors candidates must also complete a research-based thesis or creative project under the direction of a faculty advisor. Students preparing to graduate with honors should notify the honors coordinator no later than the first term of their senior year.

Honors students who do not complete a student-initiated project must earn 8 credits of Research (401) and/or Thesis (403) in environmental studies to satisfy the other appropriate department. These credits must be distributed over at least two terms. Environmental science majors may substitute these credits for one upper-division natural science elective, environmental studies majors for one upper-division social science or humanities elective.

Honors students who complete a student-initiated project must have the project reviewed by the student’s project supervisor and the honors coordinator to determine whether the project meets the thesis or creative-project standards expected for graduation with honors. Environmental science majors may substitute the project for both upper-division natural science electives, environmental studies majors for both upper-division social science or humanities electives.

Minor Requirements
The interdisciplinary minor in environmental sciences includes five required courses and five upper-division elective courses for a minimum of 40 credits. Courses applied to the minor, except environmental studies courses numbered 401 through 410, must be taken for letter grades and passed with grades of C- or better. At least 16 of the 40 credits must be taken at the University of Oregon. No more than 8 upper-division credits from the major may be applied to minor requirements.

With the adviser’s consent, a course numbered 407, 408, or 410 can be substituted for one of the elective courses. Students may also submit a petition to the minor adviser to substitute other courses.

Required Courses: 20 credits
Choose two courses from Introduction to Environmental Studies: Social Sciences (ENVS 201), Introduction to Environmental Studies: Natural Sciences (ENVS 202); Introduction to Environmental Studies: Humanities (ENVS 203). These courses may be taken in any order.

Choose two courses from one of the three-course combinations listed under Basic Requirements in Mathematics and Natural Science of the environmental studies major.

Choose an additional course from a different science group or from the list of additional natural-science courses.

Advance Course Requirements: 20 credits
Choose one natural-science elective from the environmental studies major.

Choose four social-science or humanities electives from the thematic groups of the environmental studies major. At least three courses must belong to one thematic group. No more than two courses may be taken in any one department.

Graduate Studies
The Environmental Studies Program offers graduate study leading to a master of arts (M.A.) or master of science (M.S.) in environmental studies and an interdisciplinary doctor of philosophy (Ph.D.) degree in environmental sciences, studies, and policy.
Students may choose from courses offered in appropriate disciplines to design their own course plans based on their individual goals and backgrounds.

Limited financial support for graduate students in the Environmental Studies Program may be available through graduate teaching fellowships. Support generally consists of a small stipend and a tuition waiver. There is no separate application for consideration as a GTA.

A brochure containing admission requirements, answers to frequently asked questions, and details of the master's and doctoral programs may be obtained from the program office. The admission packet contains a program brochure, application forms, and a list of faculty members and their research interests. Students applying for graduate admission must submit all necessary materials by January 15. New students are accepted for fall term only.

**Master's Degree**

Students admitted to the two-year master's degree program must complete 63 credits distributed as follows:

- **Breadth-Area Courses (16 credits)**. These courses may overlap the concentration areas. One course each in areas of natural systems; resource law, policy, and planning; environment and society; and perspectives on the environment.
- **Seminars (3 credits)**. Three terms of weekly, 1-credit environmental studies graduate seminars.
- **Internship (3 credits)**. Ninety hours or more of environmental internship.
- **Concentration Areas (minimum of 45 credits)**. Four graduate-level courses related to an environmental theme in each of three concentration areas.

**Thesis or Terminal Project (9 credits)**. For graduate admission, students must submit all necessary materials by January 15. New students are accepted for fall term only.

**Doctor of Philosophy Degree**

The interdisciplinary Ph.D. degree is offered by the Environmental Studies Program under the umbrella of the Joint-Campus Graduate Program in Environmental Sciences, Studies, and Policy, established by Oregon State University, Portland State University, and the University of Oregon. The environmental sciences, studies, and policy program requires three to four years of post-master's degree study. Faculty members from the three participating institutions contribute to program seminars and workshops.

**Admissions Procedure**

Admission to the Ph.D. program must be granted by both the Environmental Studies Program and by an academic unit that offers a Ph.D. degree—the focal department. Applications are reviewed independently by the admissions committees in the Environmental Studies Program and in the focal department, and both committees must approve the application before the applicant can be accepted into the program.

**Requirements**

Ph.D. students satisfy breadth and concentration requirements established by the Environmental Studies Program and the requirements of the focal department. After admission to the program, each student meets with a preliminary advisory committee to discuss a proposed course plan for completion of the degree.

Students should consult the Graduate School section of this catalog for information about university admission, residency requirements, and degree requirements. A handbook for new students, which outlines departmental requirements, is available in the program office.

**Focal Department Course Work.** Varies by department.

**Environmental Studies Breadth Course Work (16 credits)**

- **Concentration Area Course Work (16 credits)** in each of two areas outside of the focal department.
- **Seminars (5 credits)**. Five terms of weekly, 1-credit environmental studies graduate seminars.

**Assessments of Competency.** After passing assessment of competency in the focal department and in the Environmental Studies Program, students are advanced to candidacy and begin work on the doctoral dissertation.

**Doctoral Dissertation (18 credits)**. Every degree candidate must submit a dissertation that is the result of original research and shows evidence of ability in independent investigation. The dissertation must be a real contribution to knowledge, show a mastery of the literature, and be written in a creditable prose style. A formal, public defense must take place on the UO campus at a date set by the committee chair and approved by the Graduate School.

**Graduate Courses**

Graduate students typically choose courses that contribute to their individual environmental focus from the Departments of Anthropology; Architecture; Biology; Chemistry; Economics; English; Geography; Geological Sciences; History; Landscape Architecture; Philosophy; Physics; Planning; Public Policy and Management; Political Science; and Sociology and from the International Studies Program and the School of Law. Consult the individual department listings in this catalog for course descriptions.

**Environmental Studies Courses (ENVS)**

- **196 Field Studies: [Topic] (1–5R) R with instructor's consent.**
- **198 Laboratory Projects: [Topic] (1–2R) R with instructor's consent.**
- **199 Special Studies: [Topic] (1–5R)**
- **201 Introduction to Environmental Studies: Social Sciences (4) Contributions of the social sciences to analysis of environmental problems. Topics include human population; relations between social institutions and environmental problems; and appropriate political, policy, and economic processes.**
- **202 Introduction to Environmental Studies: Natural Sciences (4) Contributions of the natural sciences to analysis of environmental problems. Topics include biological processes, ecological principles, chemical cycling, ecosystem characteristics, and natural system vulnerability and recovery.**

- **203 Introduction to Environmental Studies: Humanities (4) Contributions of the humanities and arts to understandings of the environment. Emphasis on diverse ways of thinking, writing, creating, and engaging in environmental discourse.**
- **399 Special Studies: [Topic] (1–5R)**
- **401 Research: [Topic] (1–3R) R with instructor's consent.**
- **403 Thesis (1–6R)**
- **404 Internship: [Topic] (1–18R)**
- **405 Reading and Conference: [Topic] (1–18R)**
- **406 Field Studies: [Topic] (1–5R) R with instructor's consent.**
- **407/507 Seminar: [Topic] (1–5R)**
- **408/508 Workshop: [Topic] (1–5R)**
- **409 Practicum: [Topic] (1–5R) R with instructor's consent.**
- **410/510 Experimental Course: [Topic] (1–5R)**
- **411/511 Environmental Issues: [Topic] (4R) In-depth examination of a particular environmental issue such as global warming, ecosystem restoration, energy alternatives, geothermal development, public lands management, or environmental literature. R twice when topic changes for maximum of 12 credits.**
- **420/520 Perspectives in Nature and Society (4) Comparative exploration of social science approaches to environmental issues. Focus on interaction of social institutions, culture, politics, and economy with the physical landscape. Prereq: ENVS 201. Walker.**
- **450/550 Political Ecology (4) Examines how social relations and economic, social, and cultural contests over control of natural resources shape human interactions with the environment. Theory and case studies. Prereq: ENVS 201. Walker.**
- **503 Thesis (1–9R)**
- **601 Research: [Topic] (1–9R) R with instructor's consent.**
- **602 Supervised College Teaching (1–5R) R with instructor's consent.**
- **603 Dissertation (1–16R)**
- **604 Internship: [Topic] (1–5R) R for maximum of 10 credits.**
- **605 Reading and Conference: [Topic] (1–5R) R with instructor's consent and faculty approval.**
- **606 Field Studies: [Topic] (1–5R) R for maximum of 10 credits.**
- **607 Seminar: [Topic] (1–5R)**
- **608 Workshop: [Topic] (1–5R)**
- **609 Terminal Project (1–9R)**
- **610 Experimental Course: [Topic] (1–5R)**

About the Program
The Ethnic Studies Program examines the construction and context of ethnicity in the United States with a primary focus on Americans of African, Asian, Latino, and Native American descent. As an element of American identity that cuts across disciplinary categories, ethnicity requires a mode of study that draws on the humanities and the social sciences as well as interdisciplinary sources such as cultural studies. Ethnicity also must be addressed historically and comparatively, paying attention to the five centuries of experience of underrepresented communities in North America and the perspectives of other societies—such as Mexico, Brazil, and Peru—where cognate experiences have had their own cultural and political expressions. In that spirit, the participating faculty of the program is an open roster of scholars committed to giving students a wide array of approaches to this challenging topic. Many courses, including the introductory sequence, are interdisciplinary. Above all, the program seeks to convey knowledge and understanding of ethnicity in the United States and to help students learn about the opportunities and responsibilities they have as citizens in an increasingly multicultural nation.

Undergraduate Studies
Students may earn a major or minor in ethnic studies; the certificate program is inactive. The program's goal is to encourage students to become more aware of the ethnic and culture-based dimensions and applications of their particular major fields. Students of literature, social sciences, education, urban planning, art history, humanities, and Asian or other international studies—to name only a few—find that related ethnic studies courses can enrich their academic programs.

See Group Requirements and Multicultural Requirement in the Registration and Academic Policies section of this catalog for ethnic studies courses that satisfy university general-education requirements.

Courses applied to a major or minor in ethnic studies may not be used to satisfy major or minor requirements for other programs.

Major Requirements
The Ethnic Studies Program offers an undergraduate major in ethnic studies leading to a bachelor of arts or a bachelor of science degree. A total of 52 credits are required, distributed as follows:

Lower Division 20 credits
Introduction to Ethnic Studies (ES 101, 102) 8
One two-course sequence selected from African American Experience (HIST 250, 251), Introduction to the Asian American Experience (ES 252, 253), Introduction to the Chicano and Latino Experience (ES 254, 255), Introduction to the Native American Experience (ES 256, 257) 8
One 200-level ES course or an approved 100- or 200-level course from another department (e.g., anthropology, English, geography, history, international studies, linguistics, sociology) 4

Upper Division 32 credits
Five approved courses in ethnic studies and other departments (e.g., anthropology, comparative literature, economics, English, geography, history, humanities, international studies, political science, sociology, Spanish, theater arts) 20
Two approved courses, selected from Special Studies (ES 399), Research (ES 401), Reading and Conference (ES 405), Field Studies (ES 406), Seminar (ES 407), Practicum (ES 409), Experimental Course (ES 410) 8

Ethnic Studies Proseminar (ES 499) 4

Majors must complete required courses with grades of mid-C or better and a grade-point average of 2.50 or higher. At least 24 of the required upper-division credits must be taken in residence at the University of Oregon.

Minor Requirements
The interdisciplinary minor in ethnic studies requires a minimum of 27 credits, with at least 15 upper-division credits, distributed as follows:

Course Requirements 27 credits
Introduction to Ethnic Studies (ES 101, 102) 8
Special studies course (ES 199) 4
Related upper-division courses from areas such as anthropology (ANTH), comparative literature (COLT), East Asian languages and literatures (EALL), English (ENGL), folklore (FLR), geography (GEOG), history (HIST), international studies (INTL), law (LAW), religious studies (REL), sociology (SOC), Spanish (SPAN), theater arts (TA), and women's studies (WST) 15

The minor program must be planned in consultation with an ethnic studies advisor at least two terms before graduation.

With the consent of ethnic studies faculty members, students may use appropriate courses numbered 405, 406, 407, and 410, taught in participating departments, as electives. A grade of mid-C or better must be earned in any course applied to the minor; at least four of the courses must be taken at the University of Oregon.

Ethnic Studies Courses (ES)
101, 102 Introduction to Ethnic Studies (4,4)
Multidisciplinary study focuses on Americans of African, Asian, Latino and Latina, and Native American descent. Topics include group identity, language in society and culture, forms of resistance, migration, and social oppression. Sequence. 196 Field Studies: [Topic] (1–2R)
European Studies

About the Program
European studies offers an interdisciplinary certificate for undergraduates in any major or professional school discipline. The program is designed for students who seek to enhance work in the major with a broad and comparative knowledge of Europe. The program of study provides a focus on Europe emphasizing both coherence and diversity.

“Europe” is here understood in the broadest conceptual and regional sense, including the variety of territories, cultures, and political units of the European region, as well as the several topical themes, constructs, and experiences of Europe, considered both historically and in contemporary settings. The program seeks to elicit new interests and perspectives on Europe in a manner consistent with the individual student’s needs, career goals, and intellectual and personal pursuits. Individual advising by a European studies adviser is therefore essential early in the student’s program planning.

Certificate Requirements
The College of Arts and Sciences administers an undergraduate certificate program in European studies, overseen by the European Studies Committee.

To earn a certificate, a student must take the two core courses, in any order, and four elective courses approved by the European studies adviser, and must complete the foreign-language and the independent-project requirements as specified below.

Core and elective courses applied to the certificate must be taken for letter grades and passed with grades of C- or better.

Students seeking to qualify for a European studies certificate should consult the program director as early as possible to be assigned a European studies adviser with whom a program of study is planned. Students must obtain the adviser’s approval for the four elective courses and for the topic of the independent project and may not determine on their own the manner in which they fulfill these requirements.

No later than two terms before graduation, the student must notify the program director of intent to graduate for verification of European studies course work and transcript evaluation. Students must complete major requirements for an undergraduate degree in another department or school of the university.

Core (8 credits)
Geography of Europe (GEOG 202) and The Idea of Europe (HIST 420)
Electives (12–16 credits)
Four 3- or 4-credit courses—at least two at the 300 or 400 level—that provide a combination of diversity (linguistic, national, subregional, disciplinary, or methodological) and coherence. The courses must be offered by a department other than the student’s major department and must be approved by the student’s European studies adviser.

Possible courses might be in anthropology, classics, comparative literature, economics, English, Finnish, French, geography, German, Greek, history, honors college, humanities, international studies, Italian, Latin, linguistics, Norwegian, philosophy, political science, Romance languages, Russian, Russian and East European studies, Scandinavian, Spanish, Swedish, theater arts, and women’s studies. Selected courses in art, history, marketing, music, and the natural sciences are other possibilities.

Foreign Language
For bachelor of arts degree candidates, one European second language through the third-year college level. For other bachelor’s degree candidates, one European second language through the second-year college level.

Independent Project
A research paper or project that requires performance or creative work and is appropriate to the student’s interests and major is the final requirement for the certificate. The project should integrate different perspectives on Europe or on any of its constituent cultures, nations, or subregions. The student undertakes this project, under the supervision of an adviser in the appropriate discipline, for 3 graded credits (e.g., 403 Thesis). The project may, but need not, be developed from an existing course. Whatever the origin or context of the project, the topic must be approved in advance by the European studies adviser. The project adviser evaluates the project.

European Studies Courses (EURO)
399 Special Studies: [Topic] (1–5R)
403 Thesis (1–9R)
405 Reading and Conference: [Topic] (1–6R)
407 Seminar: [Topic] (1–6R)
410 Experimental Course: [Topic] (1–6R)

Additional Courses
Other upper-division courses with related subject matter may be included in an ethnic studies major or minor program by arrangement with a course’s instructor and the director of ethnic studies.

Core (8 credits)
Geography of Europe (GEOG 202) and The Idea of Europe (HIST 420)
Electives (12–16 credits)
Four 3- or 4-credit courses—at least two at the 300 or 400 level—that provide a combination of diversity (linguistic, national, subregional, disciplinary, or methodological) and coherence. The courses must be offered by a department other than the student’s major department and must be approved by the student’s European studies adviser.

Possible courses might be in anthropology, classics, comparative literature, economics, English, Finnish, French, geography, German, Greek, history, honors college, humanities, international studies, Italian, Latin, linguistics, Norwegian, philosophy, political science, Romance languages, Russian, Russian and East European studies, Scandinavian, Spanish, Swedish, theater arts, and women’s studies. Selected courses in art, history, marketing, music, and the natural sciences are other possibilities.

Foreign Language
For bachelor of arts degree candidates, one European second language through the third-year college level. For other bachelor’s degree candidates, one European second language through the second-year college level.

Independent Project
A research paper or project that requires performance or creative work and is appropriate to the student’s interests and major is the final requirement for the certificate. The project should integrate different perspectives on Europe or on any of its constituent cultures, nations, or subregions. The student undertakes this project, under the supervision of an adviser in the appropriate discipline, for 3 graded credits (e.g., 403 Thesis). The project may, but need not, be developed from an existing course. Whatever the origin or context of the project, the topic must be approved in advance by the European studies adviser. The project adviser evaluates the project.

European Studies Courses (EURO)
399 Special Studies: [Topic] (1–5R)
403 Thesis (1–9R)
405 Reading and Conference: [Topic] (1–6R)
407 Seminar: [Topic] (1–6R)
410 Experimental Course: [Topic] (1–6R)
Exercise and Movement Science

Faculty

Steven Chatfield, courtesy associate professor. See Dance

Stephanie A. Harris, courtesy assistant professor. B.A., 1972, California; San Diego; M.D., 1979, Oregon Medical School. (1997)

Emeritus

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Discipline

The study of exercise and movement science involves the exploration and understanding of the functional and structural mechanisms that underlie human performance in all of its manifestations from fundamental motor skills to sustained and demanding exercise. The analysis of movement and exercise requires the integration of several subdisciplines, which are rooted in the fields of biology, chemistry, and physics. Human performance is influenced by the quality of physiological regulation, sensorimotor control, and tolerance to mechanical and psychological stresses.

Undergraduate Studies

The Department of Exercise and Movement Science offers a program leading to either a bachelor of science (B.S.) or a bachelor of arts (B.A.) degree. The undergraduate curriculum emphasizes depth and breadth in the biological and physical sciences that are relevant to the study of exercise and movement science.

Careers. The exercise and movement science program provides the scientific foundation necessary for postgraduate study in medicine, nursing, physical therapy, occupational therapy, and podiatry as well as sports medicine, biomechanics, motor control, and physiology of exercise. (See Health Sciences Option.)

Preparation. High school preparation should include a strong background in English, mathematics, biology, chemistry, psychology, and sociology.

Transfer students. Before transferring, students should have completed as many university requirements and prerequisites to major courses as possible.

Major Requirements

Prerequisite and major requirement courses must be taken for letter grades. Students must maintain at least a 2.0 grade point average overall in courses required for the major. The introductory chemistry sequence should be taken in the first year.

Prerequisites

General Biology I,II,III: Cells, Organisms, Populations (BI 211, 212, 213) or Foundations I,II,III: Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life (BI 261, 262, 263) ........ 12-15

Introductory General Chemistry (CH 211, 212, 213) or General Chemistry (CH 221, 222, 223) .... 12

Calculus I (MATH 251) ................. 4

General Physics (PHYS 201, 202, 203) ........ 12

General Chemistry Laboratory (CH 204, 205, 206) ........ 12

Mind and Brain (PSY 201) or Mind and Society (PSY 202), and either Thinking (PSY 330) or Development (PSY 375) or Abnormal Psychology (PSY 427) ....... 8

Major Requirements

Human Anatomy I,II (ANAT 311, 312) and laboratories ........................................ 10

Motor Control (EMS 333) ................. 4

Motor Development (EMS 335) ........... 4

Sports Medicine (EMS 361) ............... 4

Physiology of Exercise (EMS 371) ........ 4

Biomechanics (EMS 381) ................. 4

Human Physiology I,II (HPHY 313, 314) and laboratories (HPHY 316, 317) ........... 10

Minimum of two 400-level courses excluding courses numbered 402, 403, 404, and 409. Majors must obtain departmental permission before they may use courses numbered 406, 407, 408, and 410 ........... 8

Health Science Option

Students who plan careers in medicine, physical therapy, nursing, or other allied health sciences may want to choose this option. Most of the standard requirements for admission to medical schools or allied health science programs are included in the course work for this major in exercise and movement science. In addition to EMS prerequisites and core requirements, the health science option includes the following courses:

Organic Chemistry I (CH 331) ................. 4

Organic Chemistry of Biological Molecules (CH 332) ................. 4

Organic Chemistry Laboratory (CH 337, 338) ........ 6

Physiological Biochemistry (CH 360) ........... 4

Internship (EMS 404) ......................... 1-15

Students who choose the health science option should work closely with their faculty advisers and plan their programs of study to meet the specific admission requirements of the postgraduate schools in which they are interested.

Honors

To apply to graduate with departmental honors, a student must have an overall GPA of 3.50 or better. Candidates must complete an honors thesis under the supervision of a thesis committee, which consists of two exercise and movement science faculty members.

University bachelor's degree requirements are described in the Registration and Academic Policies section of this catalog.

Graduate Studies

The Department of Exercise and Movement Science offers graduate programs leading to the master of science (M.S.) and the doctor of philosophy (Ph.D.) degrees. Each student's program of study is planned in consultation with the student's adviser and program committee.

An integral part of the graduate program is the exchange of information and inquiry with other disciplines throughout the university.

Departmental Focus

The department's focus is the role of movement and exercise in human biological development and adaptation across the life span. This focus is studied from mechanical and physiological perspectives.

Graduate Teaching and Research Fellowships

The Department of Exercise and Movement Science, in cooperation with Physical Activity and Recreation Services, offers graduate teaching and research fellowships (GTFs) to qualified students. GTFs teach undergraduate laboratories or assist in research projects, teach physical-education activity courses, or assist with the administration or provision of recreation and intramural programs and athletic training. Each term a GTF with an appointment greater than or equal to 0.20 full-time equivalent (FTE) receives a monetary stipend based on the level of the appointment and pays no tuition on the first 16 credits of course work. Applications are available from the department's director of graduate studies.

General Requirements

Master's Degree

The master's degree program requires a minimum of 45 credits of graduate work, 30 of which must be taken in the Department of Exercise and Movement Science.
The degree requires a thesis, a published research paper, a research project, or a comprehensive examination. Department faculty members, in consultation with the student, decide which option the student should complete.

Requirements for the degree must be completed within seven years.

**Doctoral Degree**

The doctoral degree program consists of a minimum of 135 credits beyond the bachelor's degree; at least 60 of these credits must be completed in exercise and movement science courses. Written and oral doctoral comprehensive examinations are taken after completing a substantial portion of the program of study. Upon passing these examinations the student is advanced to candidacy and may enroll in Dissertation (EMS 603). A final oral defense is held after completion of the dissertation and after all other degree requirements have been met.

**Admission Requirements**

Applications for admission to the master's or the doctoral degree program are available from the director of graduate studies. Admission into the doctoral degree program are available from the director of graduate studies. Admission into the doctoral degree program are available from the director of graduate studies. Admission into the doctoral degree program are available from the director of graduate studies. Admission into the doctoral degree program are available from the director of graduate studies. Admission into the doctoral degree program are available from the director of graduate studies.

1. Minimum Graduate Record Examinations (GRE) scores
   - Master's degree program: 470 verbal, 500 quantitative or combined GRE verbal and quantitative scores of 1000 with neither below 450
   - Doctoral degree program: 520 verbal, 560 quantitative or combined GRE verbal and quantitative scores of 1100 with neither below 500

2. A minimum GPA of 3.00

3. A minimum score of 550 (paper based) or 213 (computer based) on the Test of English as a Foreign Language (TOEFL) if the applicant's native language is not English

4. Candidate's statement of up to 500 words that indicates
   - goals and objectives for pursuing the graduate degree
   - the applicant's background and interests as they relate to the department's central focus and specific faculty interests as they are described in the department's graduate brochure

5. At least two letters of recommendation from individuals who can attest to the applicant's potential for master's or doctoral study

**Eugene Evonuk Memorial Graduate Fellowship**

This award was established to aid promising advanced doctoral students whose research focus is applied physiology, particularly environmental or stress physiology. The amount of the award varies from year to year; $5,000 is the amount for 2000–2001. The application deadline is March 1; direct inquiries to the department's director of graduate studies.

**Jan Broekhoff Graduate Scholarship**

This award was established in 2000 to aid the department's graduate students. The amount of the award for 2001–2 is $1,000. The application deadline is November 15, 2001.

**Athletic Training Program**

The department offers a program in athletic training with curriculum approved by the National Athletic Trainers Association. Admission is granted only to students who are certified by the NATA Board of Certification or who have qualified for the certification examination. The program enhances the preparation of the athletic trainer through advanced study of supporting disciplines and development of critical thinking skills in the clinical and research environments. Each student, in conjunction with the program director, designs a supporting area of study from courses offered in the department or in related areas. Success in the program demands a solid undergraduate preparation in athletic training and supporting disciplines such as anatomy and physiology.

Graduate teaching fellowships (GTF) are available for highly qualified students who are certified as athletic trainers. The GTF award provides a full tuition waiver and a monthly stipend that varies in amount according to the assignment. Employment settings include intercollegiate athletics, high schools, sports medicine clinics, recreational and intramural sports, and professional athletics.

Qualified students can find more information on the department website or direct inquiries to the director of graduate studies, telephone (541) 346-5430.

**Required Courses**

Seminar: Special Topic in Sports Medicine (EMS 507), Research (EMS 601), Seminar (EMS 607), Practicum (EMS 609), Sports Medicine (EMS 663, 664, 665), Clinical and Functional Anatomy (EMS 674)

**Support Area Options (18 credits)**

Course work required in exercise physiology, biomechanics, motor learning and motor control.

**International Institute for Sport and Human Performance**

The institute promotes research and synthesizes findings in research related to human movement that benefits the inter- and cross-disciplinary areas in sport, exercise, and human movement sciences. The institute works in collaboration with the Department of Exercise and Movement Science to inform lay people, athletes, coaches, athletic trainers, teachers, and allied health and medical professionals about issues in health and exercise sciences. Communication occurs by means of publications, workshops, symposiums, conferences, continuing-education courses, and alliances with health-care providers. For more information see the Research Institutes and Centers section of this catalog.

**Exercise and Movement Science Courses (EMS)**

101 Exercise as Medicine (4) The effects of exercise on health and in the prevention and treatment of disease.

102 Exercise and Wellness across the Life Span (4) Processes affecting physical activity and exercise from childhood to old age. Topics include physiological, sensory-motor, and cognitive factors across the life span.

103 Exercise and Performance (4) Structure and function of the human body including movement analysis. Topics include training and exercise responses; sport, daily living, and workplace performance; and injury adaptations.

199 Special Studies: (Topic) (1–4R)

335 Motor Development (4) The development of motor skill: understanding the integration of neuropsychological, morphological, and cognitive function in producing changes in motor skills across the life span. Prereq: ANAT 311, HPHY 313.

361 Sports Medicine (4) Analysis of exercise as a physical sensor and resulting bodily adaptations. Prereq: ANAT 311, 312; pre- or coreq: HPHY 313.

371 Physiology of Exercise (4) Physiological effects of muscular exercise, physical conditioning, and training: significance of these effects for health and performance in activity programs. Prereq: HPHY 313, 314.

399 Special Studies: (Topic) (1–4R)

401 Research: (Topic) (1–21R)

403 Thesis (1–4) For honors students during the terms in which they conduct research or write a thesis.

404 Internship: (Topic) (5–16R)

Field experience in an agency, institution, or business. Emphasizes application of knowledge from previous courses: planning, organizing, directing, evaluating, and developing professional competence.

405 Reading and Conference: (Topic) (1–21R)

Reading and assignments in connection with other courses for extra credit. Honors readings. Prereq: instructor's consent.

406 Special Problems: (Topic) (1–21R)

407/507 Seminar: (Topic) (1–5R) Topics are offered regularly in such areas as health sciences, motor control, biomechanics, and physiology.

408/508 Workshop: (Topic) (1–21R)

409 Practicum: (Topic) (1–21R) Current topics include Preoccupational Therapy and Prephysical Therapy.

410/510 Experimental Course: (Topic) (1–5R)

432/532 Typical and Atypical Motor Development (4) Normal and abnormal development of sensory, motor, and higher cognitive functions related to the acquisition of postural, locomotor, and eye-hand coordination skills. Prereq: EMS 335, ANAT 312; pre- or coreq: HPHY 313.

503 Thesis (1–16R)

601 Research: (Topic) (1–16R)

602 Supervised College Teaching (1–5R)

511 Special Studies: (Topic) (1–16R)

603 Practicum: (Topic) (1–24R)

Special studies in the area of nutrition, exercise science, and human movement. Prereq: instructor's consent.
Anatomy Courses (ANAT)

311 Human Anatomy I: Bones, Muscles, Nerves (4) Gross human anatomy; the skeletal, muscular, and neural systems. Lectures, laboratory. Prereq: BI 212 or 264 or instructor’s consent. College anatomy strongly recommended.

606 Special Problems: [Topic] (1–6R) R when topic changes.

607 Seminar: [Topic] (1–5R) R when topic changes.

608 Workshop: [Topic] (1–6R) R when topic changes.

609 Practicum: [Topic] (1–6R) R when topic changes.

610 Experimental Course: [Topic] (1–5R) R when topic changes.

Human Physiology Courses (HPHY)

313 Human Physiology I: Nerve, Muscle, Senses (3) Physiological principles as they operate in normal function. Neuronal resting and action potentials, muscle contraction, synaptic transmission, sensory transduction, special senses, neural reflexes, and central processing of information. Lectures, laboratory. Prereq: BI 212 or 264 or instructor’s consent. College anatomy strongly recommended.

606 Special Problems: [Topic] (1–6R) R when topic changes.

607 Seminar: [Topic] (1–5R) R when topic changes.

608 Workshop: [Topic] (1–6R) R when topic changes.

609 Practicum: [Topic] (1–6R) R when topic changes.

610 Experimental Course: [Topic] (1–5R) R when topic changes.

About the Program

The interdisciplinary Folklore Program offers perspectives on ethnic, regional, occupational, age, gender, and other traditional identities of individuals in specific societies and cultures. Students in the program explore the extent to which tradition continues to enrich and express the dynamics of human behavior throughout the world. Folklore courses examine the historical, cultural, social, and psychological dimensions of such expressive forms of behavior as myth, legend, folktale, music, folksong, dance, art, and architecture; delve into specific cultures; and make cross-cultural comparisons. Theoretical analysis, research methods, and fieldwork techniques, with emphasis on film and video documentation and presentation, are integral parts of the program offerings in folklore.

Resources

Film and Folklore

Among its many approaches to the study of folklore, a major strength of the Folklore Program is its emphasis on the use of film and video. Students who want to use film and video in their study of folklore receive the theoretical and practical training necessary to document and present folklore visually. Tutorial training is available in equipment use, fieldwork methodologies, and editing. Although the program encourages shooting in the field, the School of Journalism and Communication and the off-campus Community Cable Access Center offer studio training.

Folklore Archive

The Randall V. Mills Archive of Northwest Folklore, the largest facility of its kind in the Northwest, is a research repository available to folklore scholars and students. It houses raw field data, student and faculty research projects, and audio and visual materials including audio- and videotapes and more than 7,000 slides. A six-part indexing and cross-referencing system makes the data easily retrievable. Located in 453 Prince Lucien Campbell Hall, the archive is open to the public.
Undergraduate Studies

Students may earn a certificate in folklore while completing major and degree requirements in another department or school. A primary goal of the program is to encourage students to become more aware of the culture-based dimensions and applications of their particular major fields. Students of literature, social sciences, education, urban planning, art history, humanities, and Asian or other international studies—to name only a few—find that related folklore courses can enrich their degree programs.

Certificate in Folklore

Students may satisfy requirements for a folklore certificate by completing, with grades of mid-C or better, the folklore core and approved electives listed below:

**Folklore Core** 12 credits

- Introduction to Native American Literature (ENG 240) .................. 4
- Introduction to Folklore (ENG 250) .................. 4
- Either Introduction to Cultural Anthropology (ANTH 110) or Native North Americans (ANTH 320) .................. 4

**Approved Electives** 20 credits

- Field Studies (FLR 406) or Practicum (FLR 409) or field-based courses (e.g., American Folklore (ENG 484)) .................. 8
- Related upper-division courses .................. 12

At least two terms before graduation, students who want to apply for a folklore certificate must consult a folklore adviser to obtain authorization and course-work approval.

Graduate Study in Folklore

To earn a master of arts (M.A.) or master of science (M.S.) degree in Interdisciplinary Studies: Individualized Program: Folklore, students create a plan of study that combines folklore and two additional areas of interest. Students typically select English or anthropology as the second area, and the third area from such disciplines as history, music, art, journalism, or geography. A thesis or terminal project is required for completion of the degree. Students working toward an M.A. degree must demonstrate competence in a second language.

Folklore may also be selected as an area of concentration in a master's or doctoral degree program in the English or anthropology departments.

**Folklore Courses (FLR)**

- Experiences the role of folklore in people's religious lives with particular emphasis on narrative, beliefs, rituals, celebrations, pilgrimage, and ecstatic states. Wojcik.
- Examines recent research on subcultures, especially the relation of folklore to subcultural identity and communication, and the ways folklore may challenge or reinforce dominant ideologies. Wojcik.
- Related upper-division courses .......

At least two terms before graduation, students who want to apply for a folklore certificate must consult a folklore adviser to obtain authorization and course-work approval.

**Additional Courses**

Other undergraduate and graduate courses with related subject matter—including approved Reading and Conference (405, 605), Seminar (407/507, 607), and Experimental Course (410/510, 610)—may be applied to folklore certificate programs by arrangement with the instructors and the folklore director. For descriptions of the folklore courses, see departmental sections of this catalog.

**Anthropology.** Native North Americans (ANTH 320), Anthropology and Folklore (ANTH 419/519), Topics in Pacific Ethnology (ANTH 425/525), Peoples of Central and East Africa (ANTH 427/527), Peoples of West Africa and the Sahara (ANTH 428/528), Jewish Folklore and Ethnology (ANTH 429/529), Native Central Americans (ANTH 433/533), Native South Americans (ANTH 434/534), Cultures of Island Southeast Asia (ANTH 436/536)

**Architecture.** Vernacular Building (ARCH 434/534)

**Art History.** Muscology (ARTH 411/511)

**Arts and Administration.** Art in Society (AAD 450/550)

**Dance.** Dance and Folk Culture (DAN 301), Dance in Asia (DAN 302)

**English.** Introduction to African American Literature (ENG 151), Introduction to Native American Literature (ENG 240), Introduction to Folklore (ENG 250), African American Prose (ENG 310), African American Poetry (ENG 311), African American Drama (ENG 312), Native American Women Writers (ENG 463/563), Native Americans in Literature and Law (ENG 464/564), Native American Representation in Film (ENG 480/580), Studies in Mythology (ENG 482/582), American Folklore (ENG 484/584), American Popular Literature and Culture (ENG 487/587), Race and Representation in Film, (ENG 488/588), Native American Literature (ENG 489/589), Topics in Folklore (ENG 680)

**Geography.** Geography of Languages (GEOG 444/544), Culture, Ethnicity, and Nationalism (GEOG 445/545)

**History.** African American History (HIST 250, 251), Precolonial Africa (HIST 325), Colonial and Postcolonial Africa (HIST 326), The African West (HIST 466/566, 467/567), American Indian History (HIST 469/569)

**International Studies.** Cross-Cultural Communication (INTL 431/531)

**Music.** East European Folk Ensemble (MUS 190, 390), Music in World Cultures (MUS 358), Music of the Americas (MUS 359), History of Gospel Music (MUS 450/550), Introduction to Ethnomusicology (MUS 451/551), Musical Instruments of the World (MUS 452/552), Folk Music of the Balkans (MUS 453/553), Music of India (MUS 454/554)

**Religious Studies.** Great Religions of the World (REL 201, 202), Japanese Religions (REL 302), Japanese Religions (REL 303), Buddhism and Asian Culture (REL 330, 331)

**Romance Languages.** Survey of Spanish American Literature (SPAN 318, 319)

**Sociology.** Race, Class, and Ethnic Groups (SOC 345), Sociology of Race Relations (SOC 445/545)

**Theater Arts.** Multicultural Theater (TA 472/572)

About the Program

The general science curriculum allows students to design academic programs that satisfy the requirements for a bachelor of science degree and provide more breadth than traditional science programs. Many exciting areas of scientific inquiry, such as the neurosciences, environmental sciences, and biophysical sciences, require broad science backgrounds and encompass several disciplines. Students planning graduate study or technical careers in one of these areas or careers in the health sciences, in science education, or in a science-related business or social service might be best served by a well-designed multidisciplinary science program.

One strength of the General Science Program is its flexibility. To exploit that strength, students need to design their programs carefully, consulting frequently with the general science adviser and taking advantage of the expertise of faculty members who serve on the program committee. Course sequences that meet requirements for professional schools and training programs should be selected in consultation with program advisers or committee members. Students should seek assistance in program planning when they identify or change career goals, because success­ful application to professional schools and training programs may require completion of additional courses beyond those required for the general science major.

Examples of cross-disciplinary fields, and the subject-matter areas that might be combined in designing a program, are given below:
Animal behavior and ethology: anthropology, biology, psychology
Biophysical sciences: biology, chemistry, exercise and movement science, physics
Cognitive sciences: computer and information science, mathematics, psychology
Environmental sciences: biology, chemistry, geography, geological sciences, physics
Neurosciences: biology, chemistry, psychology
General science majors are encouraged to consult with their advisers during the junior year to ensure that their remaining course work is structured to meet all the requirements for the major. Students should notify the General Science Program office of their intention to graduate at least one term before the proposed graduation date.

Preparation. High school students planning to major in general science should take as much mathematics as possible, including two years of algebra and trigonometry. They should also take science courses in their areas of interest. Students planning to transfer into the General Science Program after two years at a community college or at another college or university should complete courses equivalent to the lower-division requirements listed below and as many as possible of the general university graduation requirements for a bachelor’s degree. Acceptance of transfer courses and credits is determined by evaluators in the Office of Admissions in consultation with general science advisers or committee members.

Upon admission, transfer students should consult a general science adviser in the program office.

Careers. Through the General Science Program, prehealth science students preparing for careers in medicine, dentistry, or related fields can meet professional school admission requirements. General science, when combined with a minor or a second major, can work well for students planning careers in science-related business, public relations, and human services.

Graduate Studies. Most graduate programs in science require a year each of physics and organic chemistry.

Major Requirements

Lower Division

The following lower-division courses must be completed with grades of C- or better. Courses graded N (no pass) or F may be repeated for credit.

1. Calculus I, II, III (MATH 251, 252)
2. Three of the sequences or three-course combinations listed below. At least two of the sequences must include or be accompanied by the corresponding laboratories:

   Anthropology. Introduction to Human Origins (ANTH 170), and two from Introduction to Monkeys and Apes (ANTH 171), Introduction to Human Adaptation (ANTH 172), Human Evolution (ANTH 361), Biological Anthropology (ANTH 362), Human Osteology Laboratory (ANTH 366)

   Astronomy. The Solar System (ASTR 221), The Birth and Death of Stars (ASTR 222), Cosmology (ASTR 223)

   Biology. General Biology I, II, III: Cells, Organisms, Populations (BI 211, 212, 213) or three from Foundations I, II, III; IV: Genetics and Evolution (BI 261), Molecular Genetics (BI 262), Biochemical Basis of Life (BI 263), Biological Interactions (BI 264)

   Chemistry. Introductory General Chemistry (CH 211, 212, 213) with laboratories (CH 227, 228, 229) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229) or Honors General Chemistry (CH 224H, 225H, 226H) with laboratories (CH 237, 238, 239)

   Computer and Information Science. Computer Science I, II, III (CIS 210, 211, 212)

Geography. The Natural Environment (GEOG 141), Global Environmental Change (GEOG 143), and one from Climatology (GEOG 231), Geomorphology (GEOG 232), or Biogeography (GEOG 332)

Geological Sciences. Earth’s Dynamic Interior (GEOG 101), Earth’s Geology and Landform Development (GEOG 102), The Evolving Earth (GEOG 103) with laboratories (GEOG 104, 105, 106) or Earth’s Interior Heat and Dynamics (GEOG 201), Earth Surface and Environmental Geology (GEOG 202), Evolution of the Earth (GEOG 203)

Physics. General Physics (PHYS 201, 202, 203) or General Physics with Calculus (PHYS 211, 212, 213) with laboratories (PHYS 204, 205, 206)

Upper Division

The upper-division requirements listed below are for students who declared the general science major fall 2000 or later. Students who declared the major before fall 2000 follow the requirements that were in effect when they declared the major.

1. Complete a minimum of 32 credits in approved science courses numbered 300 and above. At least 24 of these credits must be taken for letter grades and passed with grades of C- or better.
2. Two areas of emphasis are required. At least 12 upper-division credits must be completed in each of two sciences. Courses applied to the emphasis requirement must be taken for letter grades.
3. Tutorials may not be included. Courses numbered 400–410, 507, 508, or 510 may not be included unless approved in advance by the general science coordinator.
4. Upper-division credits used to satisfy minimum requirements of another major may not be used to satisfy upper-division requirements in general science.
5. At least 24 upper-division science credits must be completed at the University of Oregon to meet the general science residency requirement.

Upper-division courses may be selected from:

   Anatomy. ANAT 311, 312
   Anthropology. Courses in human and primate anatomy and evolution (ANTH 461–463, 467, 469, 471, 473)
   Astronomy. ASTR 321, ASTR 323 and PHYS 492, 493
   Biology. BI 307 or a higher numbered course (including Oregon Institute of Marine Biology courses)
   Chemistry. CH 331–339, CH 360, and CH 411–470
   Computer and Information Science. CIS 313–315 and CIS 413–471
   Exercise and Movement Science. EMS 333–381, 432, 463, 471
   Geography. Physical geography courses (GEOG 421–432)
   Geological Sciences. GEOL 311–350 and GEOL 414–473
   Human Physiology. HPHY 313, 314
   Mathematics. MATH 315–352 and MATH 411–466 (MATH 425 only with completion of 426)
An

Preparation for Teaching
ested in teaching general science in middle
of Education offers a fifth-year program for
middle-secondary teaching licensure in science.
Upon approval of the thesis by the adviser and
are awarded.
To graduate with honors, students must have at
least a 3.50 overall grade point average and a
GPA of 3.50 or better in the sciences. In addition,
information about program planning and
are available in the General Science Program office. Prehealth
science students who choose the general science
major should design their programs to meet the
admission requirements of the professional
school of their choice. See also Preparatory
Programs in the Educational Support Services
section of this catalog.

Preparation for Teaching
An academic major in general science can
provide a strong background for certain teacher-
education licensure programs. Students inter-
ested in teaching general science in middle
school and junior high school should be aware that
the integrated science endorsement requires
broader preparation than the minimum require-
ments for the general science major. The College
of Education offers a five-year program for
middle-secondary teaching licensure in science. See the College of Education section of this
catalog.

Preparation for Teaching
An academic major in general science can
provide a strong background for certain teacher-
education licensure programs. Students inter-
ested in teaching general science in middle
school and junior high school should be aware that
the integrated science endorsement requires
broader preparation than the minimum require-
ments for the general science major. The College
of Education offers a five-year program for
middle-secondary teaching licensure in science. See the College of Education section of this
catalog.

Undergraduate Studies
Undergraduate students in the Department of
Geography develop an awareness of the natural and
cultural landscapes of several regions of the
world and investigate the processes that form
them. Lower-division courses are open to any
student at the university; with the exception of
Global Environmental Change (GEOG 143),
none have prerequisites or require particular
high school background. For students transfer-
ing to the university in their third year, prepara-
tion in introductory college geography courses is
desirable.
An undergraduate major in geography follows
a broadly based general degree program. Both
bachelor of arts (B.A.) and bachelor of science
(B.S.) degrees are offered in the department.
Majors must take one of the following four
sequences, which must be passed with grades
of C- or P (pass) or better:
1. Three from MATH 105, 106, 107 or 111—
emphasizes problem solving and the interpre-
tation of quantitative information
2. MATH 111, 425, 426—emphasizes the analysis
of data
3. MATH 241, 242 or MATH 251, 252, 253
4. Two from CIS 111, 122, 210—introduces
computer programming
Majors planning graduate study should choose
option 2, 3, or 4.
All geography majors must demonstrate profi-
cency in a second language by passing the third
term of a second-year university language course
with a grade of C- or better or by an examination
indicating an equivalent level of proficiency.
The B.A. degree is recommended for students
who plan to emphasize cultural or regional
geography. The B.S. degree is recommended for
students planning to emphasize physical geography.
Although a degree in geography is a liberal arts
degree, many graduates have found related voca-
tional opportunities in government or private
employment, principally in planning, environ-
mental research, cartography, or geographic
information systems.
Group Requirements. All undergraduates must
satisfy group requirements. For details see Group
Requirements in the Registration and Academic
Policies section of this catalog.

Geography majors should consult their advisers
to determine which group-satisfying courses best
support their major.

Major Requirements
A grade of at least C- or P (pass) is required in
each of the twelve geography courses used to
fulfill a major in geography. A grade point aver-
age (GPA) of 2.25 or better in graded geography
courses is required for majors. At least eight
courses in the major must be taken for letter grades.

Introductory Geography. Three courses: The
Natural Environment (GEOG 141), Human
(GEOG 142), Global Environmental Change
(GEOG 143).

Techniques for Geographers. Two courses
selected from Cartographic Methods (GEOG 311),
Geographic Field Studies (GEOG 313), Geo-
graphic Data Analysis (GEOG 314), Advanced

Physics, Physics and astronomy courses
( PHYS 351-390; PHYS 411-490; and PHYS 492,
493)
Psychology. Courses in the experimental and
physiological areas (PSY 302-304, 430-450, 494)

Honors Program
Students preparing to graduate with honors in
general science should notify the program direc-
tor no later than the first term of their senior year.
Honors in general science center on a thesis, which
is the culmination of research conducted
under the direction of a faculty adviser. The
adviser does not need to be a member of the
general science committee.
To graduate with honors, students must have at
least a 3.50 overall grade point average and a
GPA of 3.50 or better in the sciences. In addition,
they must complete 9 credits of Research (401) or
Thesis (403) or both in the appropriate depart-
ment. These credits must be distributed over at
least two terms and cannot be used to fulfill
emphasis-area requirements.

For guidelines and calendar, see a general
science adviser.

Program Planning
Information about program planning and
detailed sample programs are available in the
General Science Program office. Prehealth
science students who choose the general science
major should design their programs to meet the
admission requirements of the professional
school of their choice. See also Preparatory
Programs in the Educational Support Services
section of this catalog.

The date in parentheses at the end of each entry is
the first year on the University of Oregon faculty.
Graduate Studies

Graduate work leading to the master of arts (M.A.), master of science (M.S.), and doctor of philosophy (Ph.D.) degrees is offered.

A special option in the master's program emphasizing geography and education is available for students with public school teaching licensure.

The department's graduate programs emphasize human geography, physical geography with an emphasis on environmental change and Quaternary studies, and environmental studies. The master's program may be a more generalized study of cultural, physical, or environmental geography. The Ph.D. program closely follows the research interests of the geography faculty.

Most students follow an individualized program that also includes courses and seminars in related disciplines. Although the department requires knowledge of the fundamentals of geography, it welcomes students whose undergraduate work has been in other disciplines and who can apply their training to geographic problems.

Admission

To apply for admission, send to the university Office of Admissions the original copy of the Graduate Admission Application form and the application fee and transcripts as explained in the Graduate School section of this catalog. Application materials should be received by January 15 for admission the following fall term.

The applicant should also send the following application materials directly to the Department of Geography:

1. The two carbon copies of the admission application
2. Official transcripts of all undergraduate and graduate college work
3. Three letters of reference from people familiar with the applicant's academic background or relevant professional experience
4. A score from the Graduate Record Examination (GRE) general test
5. A statement about interests to be pursued at the university. Applicants to the Ph.D. program must include three items in the statement specific research directions or possible dissertation topics
6. If appropriate, the application for a graduate assistantship or fellowship award
7. For international applicants, a Test of English as a Foreign Language (TOEFL) score of at least 550

General Requirements

Students in the master's and the Ph.D. programs are expected to develop a broad background in the discipline of geography; in-depth knowledge in an area of emphasis; and the ability to conduct and report independent research, including the use of appropriate geographic techniques. The area of emphasis may include more than one traditional subfield of geography. The Ph.D. requires development of more in-depth knowledge in a subfield in emphasis and a substantial independent research project resulting in a dissertation. Areas of emphasis in human geography include political and ethnic geography, cultural geography, and human-environment relations. Areas of emphasis in physical geography include biogeography, vegetation history and palynology, climatology, and geomorphology. Environmental studies in the department focus on global environmental change, forest issues, water and watershed issues, and policies, politics, and law. In geographic techniques, cartography, data analysis, visualization, and geographic information systems are emphasized. Geographic education is another area of focus. The department also offers courses in urban studies and the American West, Europe (both West and East), Russia and neighboring states, Latin America, and Africa.

To ensure breadth of knowledge in the discipline, Ph.D. and master's degree candidates must complete the following courses or their equivalents:

- Cartographic Methods (GEOG 311) or Introductory Geographic Information Systems (GEOG 516)
- Geographic Data Analysis (GEOG 314) or Quantitative Analysis of Geographic Data (GEOG 416)
- two upper-division courses in physical geography from different subfields; and two upper-division courses in human geography from different subfields

Theory and Practice of Geography (GEOG 620) must be taken during the first fall term the graduate student is in residence, and Current Trends in Geography (GEOG 621) must be taken during winter term. Each graduate student must take 1 credit of Workshop (GEOG 609) every winter and spring term that student is in residence.

For students following the master's degree option in geography and education, some substitutions for these course requirements may be authorized by the department coordinator for that option.

Master's Degree Program

The general master's degree in geography emphasizes broad understanding of physical and human geography and basic techniques in geography. Students develop specialized research skills during work on the thesis. Beyond the general requirements for all graduate students in geography, two graduate seminars in geography (GEOG 507 or 607), one in human geography and one in physical geography, are required of each candidate.

Students must demonstrate skill in a second language, which may be met by passing a second-year college-level second-language course during the seven-year period preceding receipt of the master's degree or by passing the Graduate Student Foreign Language Test (GSFLT) in the twenty-fifth percentile or better. Where appropriate for the thesis or dissertation topic and with the approval of the advisory committee, computer programming skills may be substituted for the second language. These skills are typically demonstrated by completing a minimum of two approved courses and writing a program used in the thesis research.

A committee of two geography faculty members supervises the research and writing of a master's thesis that shows evidence of original research and writing. The student must enroll for 9 credits of Thesis (GEOG 503), at least 3 of which must be taken during the term the degree is granted. Every master's thesis must be presented at a public lecture.

Geography and Education. The geography and education option relates geographic research methods and perspectives to the teaching of
After completing appropriate course work, skills requirement, advancement to candidacy is achieved by passing comprehensive written examinations in (1) a systematic field of geography, (2) a topic that integrates several fields of geography or a world region, and (3) geographic thought and methodology. The student, in consultation with a faculty committee, writes four questions in each area for the comprehensive examination. Two or three questions in each area are then selected by the advisory committee, and the student prepares written answers to them during a six-week period.

Within nine months of completing the comprehensive examination, the student must present a dissertation proposal for approval by the student's dissertation committee. The completed dissertation, the capstone of the doctoral program, presents the results of substantive and original research on a significant geographic problem. It is defended in a public oral presentation.

**Financial Assistance**

A limited number of graduate teaching fellowships (GTFs) or research assistantships are available. Fellowships receive a modest stipend and a tuition waiver but must pay a small fee each term. GTFs usually register for 15 credits of course work each term and are assigned duties for 88 hours per term for each 0.20 full-time equivalency of their fellowship. Applications for fellowships should be received by January 15.

Other forms of financial assistance—scholarships, loans, and work-study—are available through the university. To apply for these programs, a separate request for forms should be made to the Office of Student Financial Aid, 1278 University of Oregon, Eugene OR 97403-1278.

**Geography Courses (GEOG)**

104 Geography and Environment (4) Ways in which the major physical systems and ecosystems of the earth have been modified by human actions. Emphasizes human systems. Not offered 2001–2.

141 The Natural Environment (4) The earth’s physical landscapes, vegetation patterns, weather, and climate; emphasis on the dynamic interactions among climate, landforms, vegetation, and soils. Markus.

142 Human Geography (4) Ways in which various cultures have evaluated and used their environments. Discussion of the changing distributions of major cultural elements. Wixman.

196 Field Studies: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R)

201 World Regional Geography (4) Introduction to the world's cultural regions. Study of the cultural and environmental factors that make different parts of the world distinct.

202 Geography of Europe (4) Physical and cultural processes that have shaped the rural and urban landscapes of Europe. Murphy.

205 Geography of Pacific Asia (4) Physical, cultural, and economic processes that have shaped the rural and urban landscapes of Pacific Asia. Wixman.

206 Geography of Oregon (4) Development of Oregon's natural and cultural landscapes, its natural and human resources, and its economic development and environmental problems.

207 Geography of the United States (4) Natural and cultural landscapes, settlement patterns and urban systems, regional divisions and integration. Hardwick.

209 Geography of the Middle East and North Africa (4) Physical and cultural processes that have shaped the rural and urban landscapes of the Middle East and North Africa. Cohen. Not offered 2001–2.

214 Geography of Latin America (4) Physical, cultural, and economic processes that have shaped the rural and urban character of Latin America. Nelson.

311 Cartographic Methods (4) Theory and laboratory production of thematic maps; study of the nature of map data, symbols, design, layout, and the history of cartography. Special fee. Buckley.

313 Geographic Field Studies (4) Research techniques in geography applied to local areas and problems. Field trip fee.

322 Geomorphology (4) Landforming processes with emphasis on mass movements, rivers, eolian, glacial, and coastal processes. Special fee. Prereq: GEOG 143 or GEOL 102. McDowell.

323 Biogeography (4) Relation of plants and animals to the environments, distributions of individual species, historical changes in plant distribution. Prereq: GEOG 143. Whitlock.

341 Population and Environment (4) Patterns of population growth over history and place. Current policies and programs, and impacts and trends in United States and international contexts. Includes method and theory. Prereq: GEOG 142 or instructor's consent. Cohen.

343 Society, Culture, and Place (4) Examines ways in which geographical context reflects and shapes cultural and social processes. Importance of place and territory in human affairs. Prereq: GEOG 142 or instructor's consent. Hardwick.

360 Watershed Science and Policy (4) Physical and biological processes by passing oceanic problems of land use, water quality, riparian zones, aquatic ecology, scientific basis of watershed management and policy. Prereq: GEOG 141, or GEOL 102 or 202, or BI 130 or 213. McDowell.

401 Research: [Topic] (1–2R)

403 Thesis (1–2R)

405 Reading and Conference: [Topic] (1–2R)

406 Field Studies: [Topic] (1–2R)

408/508 Workshop: [Topic] (1–16R)

409 Practicum: [Topic] (1–2R)

410/510 Experimental Course: [Topic] (1–4R)

Topics offered in 2001–2 are Cultural Migrations,

416/516 Introductory Geographic Information Systems (4) Covers such fundamental topics as data sources, input, manipulation, analysis, output, and product generation. Special fee. Prereq: GEOG 311 or other course in geographic techniques or instructor's consent. Buckley.

418/518 Fundamentals of Remote Sensing (4) Introduces fundamentals of the use and interpretation of remote sensing and aerial photography imagery. Prereq: GEOG 311, 416 or instructor's consent. Marcus.

427/527 Fluvial Geomorphology (4) Hydraulics and hydrology of stream channels; channel morphology and processes; drainage network development; fluvial deposits and landforms; field and analytical methods. Required field trips. Prereq: GEOG 322; MATH 111, 112. McDowell.

430/530 Long-Term Environmental Change (4) Evolution of the physical landscape during the Quaternary period. Elements of paleoclimatology, paleoecology, and geomorphology. Required field trips. Special fee. Prereq: GEOG 321, 322, 323 or instructor's consent. Whitlock.

431/531 Vegetation History and Ecosystem Dynamics (4) Vegetation change through the Quaternary period as it appears in the paleoecological record; implications for modern ecology and biogeography. Special fee. Prereq: GEOG 323 or 310 or 370 or instructor's consent. Whitlock.

432/532 Climatological Aspects of Global Change (4) Role of the climatic system in global change, the Earth's climatic history, and potential future climatic changes. Prereq: GEOG 321, 322, 323 or instructor's consent. Bartlein.

444/544 Geography of Languages (4) Present distribution of languages in the world—who, where, and how many. Historical evolution and present linguistic patterns. The significance of other cultural phenomena to languages. Prereq: GEOG 142 or instructor's consent. Wixman.

445/545 Culture, Ethnicity, and Nationalism (4) Relationship of ethnic groups and nationality to landscapes, perception, and cultural geographic phenomena. Distribution of ethnic and national groups. Prereq: GEOG 142 or instructor's consent. Wixman.

446/546 Geography of Religion (4) Origin and diffusion of religions; religion, world-view, environmental perception and alteration; religion, territory, the organization of space. Prereq: GEOG 142 or instructor's consent. Wixman. Not offered 2001–2.

463/563 Geography, Law, and the Environment (4) Values underlying American legal approaches to environmental issues; the role of laws in reflecting and shaping human understanding and use of the environment. Special fee. Prereq: GEOG 143 or ENV 201 or instructor's consent. Murphy. Not offered 2001–2.

466/566 Geography of Water Policy and Politics (4) Examines water conflicts at various scales and in differing political and cultural contexts. Case studies from the Pacific Northwest, elsewhere in the United States, and in international contexts. Prereq: GEOG 341 or 342 or instructor's consent. Cohen. Not offered 2001–2.

470/570 Advanced Geographic Information Systems (4) Use of advanced GIS software for analytical and cartographic purposes. Special fee. Prereq: GEOG 416/516 or equivalent; instructor's consent. Buckley.

475/575 Advanced Geography of Non-European-American Regions: [Topic] (4R) Examination of the settlement patterns, regional economies, political organization, and character of the landscapes of selected major regions of the non-European and American world. Prereq: GEOG 201, another course on the region of study or equivalent or instructor's consent. R when region changes. Hardywick.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R)

606 Field Studies: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R) Topics offered in 2001–2 are Concept of Region, GIS Science, Geography, Ethics and Democracy, River History. Buckley, Cohen, McDowell, Murphy.

608 Workshop: [Topic] (1–16R) Murphy.

609 Practicum: [Topic] (1–16R)

610 Experimental Course: [Topic] (1–5R)

620 Theory and Practice of Geography (4) Overview of the nature of geography, its development as an academic discipline, contemporary issues, and problems in major subfields. Emphasizes metatheory. Prereq: graduate standing. GEOG 620. Murphy.

Lloyd W. Staples, professor emeritus. A.B., 1929, Columbia; M.S., 1930, Michigan; Ph.D., 1935, Stanford. (1939)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

The Department of Geological Sciences undergraduate program is designed to provide an understanding of the materials that constitute the earth and the processes that have shaped the earth from deep in its interior to the surface environment. Geology is a science that applies all the basic sciences—biology, chemistry, mathematics, and physics—to understanding earth processes in the historical context of geologic time. It is a science that explores problems by combining field investigations with laboratory experiments and theoretical studies.

Geology addresses many natural hazards—such as flooding, earthquakes, and volcanic eruptions—that affect humans. It also addresses the impact of humans in degrading the earth's surface environment, where we pollute rivers and ground water, cause rapid erosion and landslides, or attempt to re-engineer rivers and shorelines.

Preparation. High school students planning to major in geological sciences should include in their high school program algebra, geometry, trigonometry, geography, and science (physics, chemistry, biology, or earth science).

Students who transfer to the department after two years of college work elsewhere should have completed a year of general chemistry, a year of general physics, and a year of calculus. If available to the student, a year of general geology with laboratory is recommended. In addition, transfer students should have completed as many as possible of the university requirements for undergraduate degrees.

Careers. Career opportunities for geologists are best for students holding advanced degrees. Professional positions that are open to students with master of science degrees include work in applied geology with petroleum and mining companies, environmental consulting firms, and state and federal agencies. Geologists and geophysicists with doctor of philosophy degrees have opportunities in university and college teaching as well as research positions in federal agencies and private industry. Students are therefore advised to earn a graduate degree for most professional positions. Graduates with bachelor's degrees can qualify for positions as laboratory technicians or field assistants and for limited professional positions as junior geologists or geophysicists.

Geological Sciences Curriculum

The Department of Geological Sciences offers a bachelor of science (B.S.) or a bachelor of arts (B.A.) degree with a major in geological sciences.

Grade Options and Standards. Undergraduate majors must take for letter grades (the pass/no pass option is not acceptable) all courses required in their degree program. Required courses must be completed with grades of C- or better. Exceptions for honors students are noted under Honors in Geological Sciences.

Major Options. Earth science is an unusually broad subject. It addresses everything from the chemical processes that make rocks and minerals to the physics behind plate tectonics and the travel of earthquake shock waves through the planet. It explores the history of the evolution of life revealed in fossils, and it probes the earth processes that affect how humans can survive on the surface of the planet. To address this breadth, the department offers four curricular options for a major in geological sciences: geology, geophysics, environmental geoscience, and paleontology.

All of the options require a common core of general chemistry, calculus, general geology, and physics, except that paleontology-option students may take biology in place of physics. Every option includes introductory geology—either GEOL 201-203 or GEOL 101-106. The courses in each option are divided into three categories: core, additional requirements, electives. Several 2- and 3-credit courses are half-term (five-week) courses.

Chemistry. General Chemistry Laboratory (CH 227, 228, 229) or Advanced General Chemistry Laboratory (CH 237, 238, 239), Organic Chemistry I,II,III (CH 331, 335, 336), Physical Chemistry (CH 411, 412, 413), Inorganic Chemistry (CH 431, 432, 433), Chemical Thermodynamics (CH 444), Statistical Mechanics (CH 445)

Computer and Information Science. Introduction to Numerical Computation with FORTRAN (CIS 133), Computer Science I,II,III (CIS 210, 211, 212), Algorithms (CIS 315)

Geography. Geomorphology (GEOG 322), Introduction to Geographic Information Systems (GEOG 416), Advanced Geomorphology (GEOG 422), Soil Genesis and Geography (GEOG 424), Hydrology and Water Resources (GEOG 425), Fluvial Geomorphology (GEOG 427), Long-Term Environmental Change (GEOG 430)

Mathematics. Introduction to Differential Equations (MATH 256), Several-Variable Calculus I (MATH 281, 282), Elementary Linear Algebra (MATH 341, 342), Functions of Complex Variables I,II (MATH 411, 412), Differential Equations I,II (MATH 420, 421), Statistical Methods I,II (MATH 425, 426)

Physics. Introductory Physics Laboratory (PHYS 211, 212, 213), Foundations of Physics I (PHYS 351, 352, 353), Mechanics, Electricity, and Magnetism (PHYS 411, 412, 413), X-ray Crystallography (PHYS 427)

Geophysics Option

Core 59-62 credits
See requirements under Geology Option Core

Additional Requirements 28 credits
Geophysics (GEOG 325) 4
Introduction to Differential Equations (MATH 256) (MATH 281, 282) 12
Foundations of Physics II (PHYS 351, 352, 353) 12
Mechanics, Electricity, and Magnetism (PHYS 411, 412, 413) 12

Electives 16 credits
Structural Geology (GEOG 350), Structural Geology Problems (GEOG 351), Structural Geology Laboratory and Field (GEOG 352), Hydrogeology (GEOG 425), Tectonics (GEOG 453), Geological and Environmental Fluid Mechanics (GEOG 454), Environmental Field Geophysics (GEOG 464), Geodynamics (GEOG 466), Introduction to Seismology (GEOG 468), Aqueous Geochemistry (GEOG 472), Physical Chemistry (CH 411), Geographic Information Systems (GEOG 416) 16

Environmental Geoscience Option

Core 59-62 credits
Requirements are the same as for the geology option except PHYS 201, BI 211 and BI 212 or 213 may be substituted for that option’s physics requirement

Additional Requirements 17 credits
Earth Resources and Environment (GEOG 310) 4
Sedimentology and Stratigraphy (GEOG 334) 4
Structural Geology (GEOG 350), Structural Geology Problems (GEOG 351), Structural Geology Laboratory and Field (GEOG 352) 5
Geologic Hazards (GEOG 353) 4

Electives 28 credits
Up to 8 credits can be from Group B—courses from outside the geosciences. The remainder must be selected from the geological sciences or geography courses listed in Group A.

Group A (at least 20 credits).

Geology. Geology of Ore Deposits (GEOG 425), Paleopedology (GEOG 435), Hydrogeology (GEOG 451), Neotectonics and Quaternary Geology (GEOG 452), Geological and Environmental Fluid Mechanics (GEOG 454), Environmental Field Geophysics (GEOG 464), Aqueous Geochemistry (GEOG 472)

Geography. Introduction to Geographic Information System (GEOG 416), Advanced Climatology (GEOG 421), Advanced Geomorphology (GEOG 422), Soil Genesis and Geography (GEOG 424), Hydrology and Water Resources (GEOG 425), Fluvial Geomorphology (GEOG 427), Long-Term Environmental Change (GEOG 430), Climatological Aspects of Global Change (GEOG 432)

Group B (up to 8 credits). Select courses from geology-option electives, especially the upper-division physics courses, and, with departmental permission, engineering courses offered at Oregon State University.

Paleontology Option

Core 55 credits
Earth’s Interior Heat and Dynamics (GEOG 201), Earth Surface and Environmental Geology (GEOG 202), Evolution of the Earth (GEOG 203) or Earth’s Dynamic Interior (GEOG 101), Environmental Geology and Landform Development (GEOG 102), The Evolving Earth (GEOG 103) with Introductory Geology Laboratory (GEOG 104, 105, 106) 12
General Physics I,II: Cells, Organisms, Populations (BI 211, 212, 213) or General Physics (PHYS 201, 202, 203) or General Physics with Calculus (PHYS 211, 212, 213) or General Physics (PHYS 201), General Biology I: Cells (BI 211), and General Biology II: Organisms (BI 212) or General Biology III: Populations (BI 213) 12
General Chemistry (CH 221, 222, 223) or Honors General Chemistry (CH 224H, 225H, 226H) 12
Calculus I,II,III (MATH 251, 252, 253) 12
Earth Materials (GEOG 311) 5
Introduction to Field Methods (GEOG 318) 2

Additional Requirements 39 credits
Essentials of Mineralogy (GEOG 321) 2
Determinative Methods in Mineralogy (GEOG 332) 4
Introduction to Petrology (GEOG 323) 3
Sedimentology and Stratigraphy (GEOG 334) 4
Structural Geology (GEOG 350), Structural Geology Problems (GEOG 351), Structural Geology Laboratory and Field (GEOG 352) 5
Paleontology I: Paleozoic Marine Fossils (GEOG 321) 4
Paleontology II: Mesozoic and Cenozoic Marine Fossils (GEOG 432) 4
Paleontology III: Nonmarine Fossils (GEOG 433) 4
Field Geology (GEOG 450) 10

Electives 12 credits
Select courses from geology-option electives, Earth Physics (GEOG 315), and Introduction to Hydrogeology (GEOG 316) 12

Honors in Geological Sciences

Application for graduation with honors in geological sciences must be made no later than spring term of the student’s junior year. To be eligible for graduation with honors, a student must
1. Maintain either a 3.50 grade point average (GPA) or better in geological sciences courses or a 3.00 GPA or better in all science courses
2. Submit and orally present an acceptable honors thesis written under the supervision of a department faculty member and evaluated by a committee consisting of three faculty members including the supervisor. The thesis should be presented no later than three weeks before final examinations during the term the student plans to graduate

Honors students should register for 3 credits of Research: Thesis (GEOG 407) the term before they intend to graduate, and for 3 credits of Thesis (GEOG 403) the term of graduation. These 6 credits may be applied toward the option electives.

Minor Requirements

Students with majors in other departments who want a minor in geological sciences must begin with either of the introductory sequences: GEOG 201-203 or GEOG 101-106. In addition, a minimum of 15 credits must be earned in other geological science course numbers 213 or 300-499. Any such geological science courses listed in the UO Catalog may be used to meet this requirement, except that no more than 8 credits in GEOL 213, 304, 306, 307, 308, or 310 may be applied to the minor. Possible choices are suggested below. A grade of C– or better is required in all courses.

Suggested Minor Curricula

Science Majors
Science majors should begin with Earth’s Interior Heat and Dynamics (GEOG 201), Earth Surface and Environmental Geology (GEOG 202), Evolution of the Earth (GEOG 203), then earn at least 15 credits in courses listed under the appropriate major.

Biology Majors. The Fossil Record (GEOG 304), Oceanography (GEOG 307), Geology of Oregon and the Pacific Northwest (GEOG 308), Sedi­mentology and Stratigraphy (GEOG 334), Paleontology I,II,III (GEOG 431, 432, 433)

Chemistry Majors. Earth Materials (GEOG 311), Essentials of Mineralogy (GEOG 321), Determinative Methods in Mineralogy (GEOG 322), Introduction to Petrology (GEOG 323), Igneous and Metamorphic Petrology (GEOG 414), Introduction to Geochmistry (GEOG 470), Thermo­dynamic Geochemistry (GEOG 471), Aqueous Geochemistry (GEOG 472), Isotope Geochemistry (GEOG 473)

Physics Majors. Geophysics (GEOG 325), Structural Geology (GEOG 350), Neotectonics and Quaternary Geology (GEOG 452), Tectonics (GEOG 453), Geological and Environmental Fluid Mechanics (GEOG 454), Environmental Field Geophysics (GEOG 464)

Nonscience Majors
Earth’s Dynamic Interior (GEOG 101), Environmental Geology and Landform Development (GEOG 102), The Evolving Earth (GEOG 103) with Introductory Geology Laboratory (GEOG 104, 105, 106) or Earth’s Interior Heat and Dynamics (GEOG 201), Earth Surface and Environmental Geology (GEOG 202), Evolution of the Earth (GEOG 203), plus at least 15 credits of course work compatible with the student’s interests. Students with minimal mathematics and science backgrounds may want to select two courses from Geology of National Parks (GEOL 213), The Fossil Record (GEOL 304), Volcanoes and Earthquakes (GEOL 306),
Oceanography (GEOL 307), Geology of Oregon and the Pacific Northwest (GEOL 308), Earth Resources and the Environment (GEOL 310). Three additional geological science courses must be chosen. Students with strong science backgrounds may choose from Earth Materials (GEOL 311), Essentials of Mineralogy (GEOL 321), Determinative Methods in Mineralogy (GEOL 322), Introduction to Petrology (GEOL 323), Sedimentology and Stratigraphy (GEOL 354), Structural Geology (GEOL 350), Paleontology I, II, III (GEOL 431, 432, 433), Paleopedology (GEOL 435)

Group Requirements
Thirteen geological sciences courses satisfy university science group requirements. See the Group Requirements section of this catalog under Registration and Academic Policies.

Middle and Secondary School Teaching
The College of Education offers a fifth-year program for middle-secondary teaching licensure in science. See the College of Education section of this catalog.

Graduate Studies
The Department of Geological Sciences offers programs of graduate study leading to master of science (M.S.), master of arts (M.A.), and doctor of philosophy (Ph.D.) degrees with opportunity for research in a wide variety of specialty fields. Course work is designed to meet individual needs, and students may pursue independent research in geochemistry, geophysics, mineralogy, petrology, volcanology, paleontology, stratigraphy, sedimentary petrology, structural geology, and ore deposit geology. The master's degree program requires two years or more for completion.

Admission to the graduate program is competitive and based on academic records, scores on the Graduate Record Examinations (GRE), and letters of recommendation. Nonnative speakers of English must also submit scores for the Test of English as a Foreign Language and the Graduate Record Examinations (GRE). Students with strong science backgrounds may choose from Earth Materials (GEOL 311), Essentials of Mineralogy (GEOL 321), Determinative Methods in Mineralogy (GEOL 322), Introduction to Petrology (GEOL 323), Sedimentology and Stratigraphy (GEOL 354), Structural Geology (GEOL 350), Paleontology I, II, III (GEOL 431, 432, 433), Paleopedology (GEOL 435)

Volcanology-Petrology-Geochemistry
The department has excellent analytical and other research facilities for studies in these sub-disciplines, and the volcanic and metamorphic terranes of the Northwest offer unsurpassed opportunities for field studies. Active research programs are diverse and include studies of eruption dynamics, magma volatile inventories, and magma rheology; experimental studies of igneous phase equilibria and trace element partitioning; calculations of multicomponent equilibria in aqueous systems and volcanic gases; and studies of igneous protogenesis.

Stratigraphy-Surface Processes
The stratigraphic record of tectonically active sedimentary basins indicates the dynamic interactions among basin subsidence, sediment input from eroding sources, evolution of depositional systems, and active faulting and folding that govern these processes. Research in this area combines field-based stratigraphic, sedimentologic, and geomorphic analysis with provenance studies and concepts derived from theoretical models to decipher the complex structural and climatic controls on the filling histories of active basins.

Surface processes regulate how tectonics and climate affect landscape evolution. Field observations, numerical simulations, topographic measurements, and experimental facilities are used to study sediment transport processes over a range of spatial and temporal scales. Projects incorporate links between active tectonics and structural geology, biology, geomorphics and surface processes to address problems such as land-siding and hill-slope evolution, biological contributions to soil creep and landscape lowering, and the geomorphic implications of seismic-induced land sliding.

Paleontology-Paleopedology
Studies of fossil soils, plants, and vertebrates aim to reconstruct life on land and its role global change. Global changes of interest include Neo­gene paleoclimate and paleoenvironment of ape and human evolution in East Africa, environ­mental effects of terminal Cretaceous impact and dinosaur extinction in Montana, consequences of mass extinction and methane clathrate degassing at the Permian-Triassic boundary, and the effect of early land plants and forests on weathering and atmospheric composition during the early Paleozoic.

Paleozoic paleontology and biostratigraphy includes research on global brachiopod and conodont evolution with particular emphasis on projects in Nevada, Alaska, Australia, and Britain. The brachiopod research provides information about lateral and vertical changes in paleoclimates and marine ecology, whereas the conodont research provides a detailed time frame based on conodont zonation.

Structural Geology-Geophysics
Graduate work in the structural geology-geophysics area involves the study of the earth's dynamic processes on all scales. Seismic imaging techniques using regional arrays provide tools for understanding regional tectonics. Studies of upper-mantle and lithosphere beneath the Rocky Mountains and in the Pacific Northwest subduction zone are providing essential constraints, unavailable from surface geology, for detailed dynamical models of plate-lithospheric deformation.

Structural geology focuses on applying modern field and analytical techniques to solving problems in Cenozoic tectonics and active faulting. Detailed field mapping, trench logging, and geomorphic analysis are combined with seismic array data, land- and space-based geodetic data, electromagnetic imaging, and theoretical modeling to address problems including Oregon's Basin and Range province and coastal deformation, active tectonics of the San Andreas Fault system, and seismic risk along the Pacific margin of the United States and southeast and central Asia.

Geophysical experiments conducted at sea investigate the nature of sea-floor spreading including the segregation, transport, and storage of melt; the rifting of oceanic lithosphere; and the spatial and temporal connectivity between magmatic, tectonic, and hydrothermal processes.

Mineral Deposits
Current research on ore deposits includes studies of porphyry copper deposits, epithermal veins, sediment-hosted base metal deposits, and active geothermal systems. These research efforts combine field mapping, petrography, and chemical analyses with theoretical chemical modeling of processes of ore fluid generation, alteration, and mineralization (e.g., red bed–brine reaction, boiling epithermal solutions, effects of cooling hydrothermal solutions).

Related Research Activities
The Condon Museum of Geology, administered by the geological sciences department, contains an extensive collection of vertebrate fossils, paleobotanical specimens, and recent vertebrates that are available to interested researchers for study.

Research Facilities
Students may use a variety of analytical facilities and equipment including a three-component broad-band (0.05–50Hz) seismic array, an electron microscope, a scanning electron microscope, a fiber optic image analysis, x-ray diffraction, atomic absorption and emission, and wet-chemical analysis.

An experimental petrology laboratory covers a wide range of crustal temperatures and pressures and includes equipment for doing experiments in controlled atmospheres. Four piston-cylinder apparatus with pressure-temperature capability to 60 kilobars and 1500°C are available for studying crystalline, partly molten, and molten silicate under mantelike conditions. Other equipment measures transport properties and viscosity in melts and rocks at high temperatures.

Computers are used for much of the research in the department including acquisition of analytical and magnetotelluric data, acquisition and processing of seismic and gravity data, and numerical modeling of geophysical processes and geochemical reactions. Two geochemistry laboratories are equipped with various sophisticated computer programs for thermal-dynamic calculations of gas–liquid–solid equilibria and reaction processes important in metamorphic, volcanic gas, hydrothermal, and diagenetic systems. The department houses a local network of Sun workstations, which supports the seismic array, as well as a Novell network for PCs and...
Macintosh computers. A computation and visualization laboratory housing ten Indigo 2 Silicon Graphics workstations and a link to a parallel-processing machine in the Department of Computer and Information Science is available for research in fluid mechanics and seismology. The Internet can be accessed through the UONet fiber-optic link. A student computer facility, equipped with IBM and Macintosh computers and laser printers, is also connected to the networks.

The sedimentological and paleontological laboratories have, in addition to standard laboratory equipment, an electronic-particle-size analyzer, an x-radiography unit, photomicroscopes, a Leitz Aristophot unit, a fully maintained catalog of foraminifera, an acid room, and a conodont-processing laboratory.

Financial Aid for Graduate Students
The department provides support to a limited number of graduate students through graduate teaching fellowships. Other students receive research assistantships from individual faculty members whose research is supported by grant funds. Sponsors of grant-funded research include department policies for awarding and renewing these assistantships. The department provides support to a limited number of graduate students through graduate teaching fellowships. Geological Sciences Courses (GEOL)

101 Earth's Dynamic Interior (4) Plate tectonics, mantle flow, and magmatism. Volcanoes, earthquakes, mountain building, generation of Earth's crust; rocks and minerals; Earth's internal structure. Comparison with other planets. Waff.

102 Environmental Geology and Landform Development (4) Landforms, surface processes, and interactions between humans and the environment. Weathering, erosion, sedimentation, groundwater, streams, glaciers, deserts, oceans, and coastal processes; geological hazards.

103 The Evolving Earth (4) History of the Earth. Geologic time, sedimentary environments; oceans, mountains, and climate through time; stratigraphic history of North America; evolution of plants and animals. Retallack.

104, 105, 106 Introductory Geology Laboratory (L,1,1) Properties of minerals and rocks; reading topographic and geologic maps; use of aerial photographs; model simulations of geologic processes; fossils.

198 Laboratory Projects: [Topic] (1–5R)

199 Special Studies: [Topic] (1–6R) Studies of geologic topics combine background lectures with guided field trips to areas of geologic interest.

201 Earth's Interior Heat and Dynamics (4) Processes that cause earthquakes, volcanism, mountain building, and plate tectonics. Includes Earth's origin and internal structure, rocks and minerals, gravity and magnetism. Weekly lectures, two-hour laboratory. For students with majors or backgrounds in science, or Clark Honors College students. Toomey.

202 Earth Surface and Environmental Geology (4) Earth materials, the rock record, human interactions with surface environment. Sedimentary rocks and environments, chemical and physical weathering, mineral and energy resources, hydrogeology, ground-water contamination, surface processes, human impacts. Weekly lectures, two-hour laboratory. For students with majors or backgrounds in science, or Clark Honors College students.

203 Evolution of the Earth (4) Origin, history, and physical evolution of the Earth; geologic time scales, development of the global stratigraphic section. Weekly lectures, two-hour laboratory. For students with majors or backgrounds in science, or Clark Honors College students. Savage.

213 Geology of National Parks (4) Examines selected geologic features in United States national parks and the processes that form them. Focuses on parks in the western states. Miller.

304 The Fossil Record (4) Origin of life in Precambrian; evolution of plants and invertebrate animals; evolution of early chordates, fish, amphibians, reptiles, dinosaurs, birds, and mammals; speciation and extinction. Intended for junior and senior nonmajors but also open to geological sciences majors. Savage.

307 Oceanography (4) Characteristics and physical, chemical, and biological processes of the world's oceans. Includes sections on origin of the oceans, plate tectonics, and human use and misuse of oceans. Orr.

308 Geology of Oregon and the Pacific Northwest (4) The region's geologic and tectonic history and the plate tectonic processes responsible for its evolution. Gole.

310 Earth Resources and the Environment (4) Geology of energy, mineral, and water resources and environmental issues related to their use. Topics include fossil fuels, metals, nuclear waste disposal, and water pollution. Reed.

311 Earth Materials (5) Chemical and mineralogical composition of rocks, sediment, and soil. Properties of common minerals; origin of rocks; microscopic study of rock textures; environmental issues. Prereq: GEOL 201, 202 or GEOL 101, 102, 104, 105; coreq: CH 211 or 221 or 224. Rice.

315 Earth Physics (2) Physics of basic Earth processes. Application of physics to analysis of convection in Earth, plate tectonics and lithospheric deformation, movement of magma or water through Earth. Prereq: MATH 112, PHYS 201 or 211. Humphreys, Toomey, Waff.

316 Introduction to Hydrogeology (2) Focuses on the interrelationships of geologic materials and processes with water. Topics include ground water, soil water, the water cycle, and water quality. Prereq: MATH 112, PHYS 201 or 211. Waff.

318 Introduction to Field Methods (2) Introduction to geologic mapping and related field skills, rock descriptions, cross sections, and
diagrams, mineral thermodynamics, magma geochemistry and tectology, metamorphic facies, geothermometry and geobarometry. Prereq: CH 213 or 223 or 226. GEOl 323. Johnston.

425/525 Geology of Ore Deposits (5) Porphyry copper–molybdenum, epithermal, massive sulfides in volcanic rocks, and base and precious metals in sedimentary rocks. Geologic setting, alteration and ore mineral assemblages, and geochemistry of ores for each type. Prereq: CH 221, 222, 223; GEOl 311, 323. Reed.

432/532 Paleontology II: Mesozoic and Cenozoic Marine Fossils (4) Mesozoic and Cenozoic marine invertebrates. Laboratory exercises on fossil specimens. Prereq: GEOl 103 or 203, GEOl 106, or instructor’s consent. Retallack.

433/533 Paleontology III: Nonmarine Fossils (4) Fossil plants, fish, amphibians, reptiles, and mammals. Laboratory exercises on fossil specimens. Prereq: GEOl 103 or 203, GEOl 105, or instructor’s consent. Retallack.

435/535 Paleopedology (4) Soil formation; mapping and naming fossil soils; features of soils in hand specimens and petrographic thin sections; interpretations of ancient environments from features of fossil soils. Prereq: GEOl 311, 312. Retallack.

450 Field Geology (10) Geological fieldwork in selected parts of Oregon; emphasizes mapping at several scales in sedimentary, igneous, and metamorphic areas. Mapping on topographic and air-photo bases. Prereq: GEOl 318, 334, 350. A course in mineralogy and lithology recommended. Offered summer session only; meets in the field for six weeks immediately after spring term.

451/551 Hydrogeology (4) Study of the origin, motion, and physical and chemical properties of ground water. Emphasizes quantitative analysis of flow and interaction with overall hydroosphere. Prereq: GEOl 101, 102, 103 or instructor’s consent; MATH 256; one year each of calculus, chemistry, and physics. Not offered 2001–2.

452/552 Neotectonics and Quaternary Geology (4R) Interpretation of active structures from deformed Quaternary sediments and surfaces using case histories. Field project uses air photos and field techniques. Prereq: GEOl 350, GEOl 334 or 470/570. Weldon. R once for maximum of 8 credits.

453/553 Tectonics (3) Tectonic processes and examples. Global kinematics of plates and the forces that drive them. Continental deformation in compressional, shear, and extensional settings. Prereq: GEOl 350 and calculus or instructor’s consent. Toomey.

464/564 Environmental Field Geophysics (4) Application of reflection and refraction seismology, electrical conductivity, and magnetic methods to problems in subsurface environmental contamination, contaminant migration, ground-water characterization, and geological structure determination. Prereq: PHYS 201, 202 or PHYS 211, 212 or equivalents. Waif.

466/566 Geodynamics (4) Introduction to the process of the earth’s physical workings. Includes thermodynamics, bending of lithosphere, viscous flow, and heat transport. Prereq: one course in differential equations. Humphreys.

470/570 Introduction to Geochemistry (4) Analytical techniques of geochemistry; distributions of elements in the hydrosphere, atmosphere, and geosphere; overview of terrestrial igneous, metamorphic, and sedimentary geochemistry; oceans and atmosphere. Prereq: GEOl 311, 323 or CH 411/511, 412/512, 413/513 or instructor’s consent. Goles.

472/572 Aquaeous Geochemistry (4) Aqueous chemistry applied to natural waters (geothermal, diagenetic, continental brines). Equilibrium calculations applied to aqueous-mineral gas systems. Prereq: CH 213 or 223; MATH 252. Reed.

473/573 Isotope Geochemistry (3) Introduction to nuclear physics and isotopic systems; techniques of isotopic analysis; applications of stable (nonradiogenic and radiogenic) and radioactive isotopes in geochronology and as tracers for geological processes. Prereq: GEOl 470/570 or equivalent. Goles.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R)
Germanic Languages and Literatures

Virpi Zuck, Department Head

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

The Department of Germanic Languages and Literatures offers a bachelor of arts (B.A.) degree with a major in German. Students can focus their studies by emphasizing either German language, literature, and culture or German and Scandinavian.

The department does not accept a grade of C- or lower in any course used to fulfill requirements for a major in German.

Preparation. The Department of Germanic Languages and Literatures has no particular requirements for high school students beginning the language. However, it is recommended that students with one or two years of high school German take a placement examination during registration week to help with proper placement. Undergraduate students preparing for graduate work in German are advised to begin study of a third language. They should also take related courses either in English or in another European literature, or both, or in philosophy or history.

Careers. A bachelor’s degree in German enables students to pursue careers in college and secondary teaching, international business, government and foreign service, and translation and editorial work. Graduates of the department have been especially successful in being accepted into graduate programs in German, Scandinavian, linguistics, history, and comparative literature. Many professional schools look favorably on a student with a degree in Germanic languages. Recent graduates of the department have been successful applicants to schools of law and business.

Major Requirements

The following courses cannot be applied to the major: German for Reading Knowledge (GER 327, 328, 329), Special Studies (GER 199), Reading and Conference (GER 405), Special Problems (GER 406), Workshop (GER 408), Practicum (GER 409). Courses taken outside the Department of Germanic Languages and Literatures may not be used to satisfy major requirements.

Majors must be proficient in the German language, typically demonstrated by satisfactory completion of at least the third term of Second-Year German (GER 203) or the second term of Intensive Second-Year German (GER 205).

German Language, Literature, and Culture Focus

1. Five upper-division German-language courses (20 credits)

2. Seven upper-division German literature and culture courses (28 credits)

3. Of the twelve courses from (1) and (2):
   a. Six courses must be taken on the UO campus
   b. At least four must be 400-level GER—subject code courses, two of which must be taken at the UO
   c. One course may be taken pass/no pass
   d. Only one course taught in English may count toward the major

4. One credit in the German advising conference workshop, taken pass/no pass (PIN)

5. Two credits in the foreign language retreat workshop

Students who want to study in Germany should plan their course work carefully.

German and Scandinavian Focus

1. Proficiency in a Scandinavian language, demonstrated either by evaluation by the Scandinavian adviser or by successful completion, with grades of mid-C or better, of either FINN or DANE or NORW or SWED 203

2. Completion of GER 203 or equivalent with a grade of mid-C or better

3. Eleven graded upper-division Scandinavian courses (44 credits) including:
   a. Three language courses in one Scandinavian language
   b. Eight Scandinavian literature or culture courses, of which one must be a culture course. One upper-division German literature or culture course may be substituted for a Scandinavian course

4. One credit in the German advising conference workshop, taken pass/no pass (PIN)

One course may be taken pass/no pass

Honors

To earn a bachelor of arts degree with departmental honors, a student must maintain at least a 3.50 grade point average (GPA) and write an honors essay or thesis approved by the departmental honors committee for 4 credits in Thesis (GER 403). More information is available from departmental undergraduate advisers.

Minor Requirements

The Department of Germanic Languages and Literatures offers a minor in German, one in Scandinavian, and one in German area studies.

German Minor. The German minor correlates well with studies that have an international or European concentration. It is particularly useful for students of international studies, international business, European history, medieval studies, sociology, political science, journalism, linguistics, art history, music history, other languages, theater, and related fields.

The German minor requires seven courses in German (28 credits) at the upper-division level. These may include courses in language, literature, and culture and civilization. Only one course taught in English may be applied to the minor. No courses from other departments count toward the minor in German. Grades of at least mid-C or P (pass) must be earned in all courses used to satisfy requirements for the minor. One course may be taken pass/no pass. At least three courses (12 credits) must be taken on the UO campus. One credit in the foreign language retreat workshop is strongly recommended.

The following courses do not count toward the German minor: Special Studies (GER 199), German for Reading Knowledge (GER 327, 328, 329), Reading and Conference (GER 405), Special Problems (GER 406), Workshop (GER 408), Practicum (GER 409).

Since all courses are not offered every year, plans should be made well in advance so that students can take prerequisites for 400-level courses. Specific questions should be addressed to departmental undergraduate German advisers.

German Area Studies Minor. The German area studies minor requires—in addition to second-year language proficiency—28 credits distributed as follows:

28 credits

Three courses selected from Intermediate Language Training (GER 311, 312, 313),
Introduction to German Culture and Society (GER 340, 341), Introduction to German Literature (GER 360, 361, 362), Themes in German Literature (GER 366, 367, 368), Special Studies (GER 399), Seminar (GER 407), Experimental Course (GER 410), Advanced Language Training (GER 411, 412, 413), Play Performance (GER 423), Film and German Culture and Society (GER 440), German Literature to the End of Enlightenment (GER 450), Special Topics in German Literature (GER 460) ........................................... 12

Four courses selected from the following, at least two at the 400 level and no more than two from the same department: Political Systems of Post-war Germany (PS 336), Politics of Western Europe (PS 424)—with German emphasis, Germany (HIST 340, 341, 342), Early Modern German History (HIST 442); The Music of Bach and Handel (MUS 351); 17th- and 18th-Century Philosophers (PHIL 433), 19th-Century Philosophers (PHIL 453)—both on German philosophers only; Modern German Art (ARCH 454); other upper-division topical courses if approved by advisor. .............................................................. 16

Three courses must be taken on the UO campus, at least one of them in the Department of Germanic Languages and Literatures. Grades of at least mid-C or P (pass) must be earned in all courses used to satisfy requirements for the minor. Only one course may be taken pass/no pass.

To count toward the German area studies minor, generic courses numbered 399, 407, 410 and permanently numbered courses with changing topics are subject to adviser’s approval to ensure that the course has a substantive emphasis on German studies.

Scandinavian Minor. The Scandinavian minor correlates well with studies that have international or European concentration. It is particularly useful for students of international business, European history, sociology, political science, theater arts, and art history.

The minor requires:

1. Proficiency in a Scandinavian language, demonstrated either by evaluation by the Scandinavian adviser or by successful completion, with grades of mid-C or better, of either FINN or DAN or NORW or SWED 203

2. Seven upper-division Scandinavian courses (28 credits) including

   a. Three language courses in one Scandinavian language
   b. Three Scandinavian literature courses
   c. One Scandinavian culture course

One course may be taken pass/no pass.

Specific questions about the Scandinavian minor should be addressed to departmental undergraduate advisers in Scandinavian.

General-Education Requirements

The Department of Germanic Languages and Literatures offers many courses, including several taught in English, that satisfy university general-education requirements. See the Group Requirements and Multicultural Requirement sections of this catalog under Registration and Academic Policies.

Study Abroad

The department encourages students of German to study in Germany on one of the University of Oregon-sponsored exchange programs—the yearlong Baden-Württemberg program or the spring intensive German-language program in Tubingen. Students may also study for one or two terms in Vienna through the Northwest Council on Study Abroad. Another opportunity is to study during the summer at the Deutsche Sommerschule am Pazifik in Portland.

Students in all University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

For more information students should consult departmental representatives and the Office of International Education and Exchange. Students working toward a German major or minor must consult an undergraduate adviser before beginning any study-abroad program in order to ensure that departmental requirements can be met. Study in Germany (GER 317) is also recommended in preparation for the German university-language qualifying examination and for general orientation.

German majors must complete six courses on the UO campus, two of which must be 400-level courses with the GER subject code, unless they intend to graduate in absentia while enrolled through the Baden-Württemberg program.

Students may submit petitions to the Germanic languages and literatures department requesting exceptions to the above.

Denmark, Finland, Norway, and Sweden. Students in Scandinavian are strongly encouraged to spend a year studying in an exchange program at Denmark’s International Study Program in Copenhagen, at Aalborg University in Denmark, at the University of Tampere in Finland, at the University of Bergen in Norway, or at the University of Uppsala in Sweden. For more information consult departmental advisers in Scandinavian.

Secondary School Teaching

The College of Education offers a five-year program for teaching licensure in foreign language. This program is described in the College of Education section of this catalog.

Graduate Studies

The graduate program in German, which offers the master of arts (M.A.) and the doctor of philosophy (Ph.D.) degrees, concentrates on the analysis of literary and critical discourses, such as romanticism, idealism, historicism, psychoanalysis, expressionism, and intellectual history of ideology, that helped shape the European intellectual tradition.

The graduate curriculum acquaints students with the history of German letters, places this history in the European context, and provides tools for a critical analysis of the discourses involved. This flexible program encourages comparative, theoretically oriented work.

The core curriculum consists of six courses: GER 621, 622, 623, 624, 625, 690. Students take one course each term. These courses are grouped according to common themes to give the program a topical and critical coherence. Core courses are paired with seminars of related or complementary content, and students are encouraged to explore connections between courses.

In the first year the core courses are genre oriented (narrative, drama, and lyric). While their content may vary with the instructor, they are intended to present in general terms the history of the genre itself and of critical thinking about that genre. In the second year the core courses have less traditional themes and present a broader concept of textuality:

1. Critical and Philosophical Prose (GER 624) acquaints students with important aspects of German philosophical discourse since Kant

2. Translations-Transformations (GER 625) presents the theory and practice of translation. "Transformations" is added to suggest that translation is not limited to written texts (e.g., the sister arts, literature into film)

3. Various topics in research methods, literary theory, history of German literature, and advanced methodology

Students should consult an appropriate adviser in the Germanic languages and literatures department for information about the M.A. degree for teaching German.

German Courses (GER)

Because every course listed here cannot be offered every year, students should consult the most recent UO Schedule of Classes.

101, 102, 103 First-Year German (5,5,5) Provides a thorough grammatical foundation and an elementary reading knowledge of German as well as an understanding of the spoken language.

104, 105 Intensive First-Year German (7,8) Covers the same work as GER 101, 102, 103. Sequence. Offered only during summer session.

196 Field Studies: [Topic] (1–2R)

198 Workshop: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R)

201, 202, 203 Second-Year German (4,4,4) Grammar and composition, reading selections from representative authors, conversation. Sequence. Prereq. GER 103 or equivalent.

204, 205 Intensive Second-Year German (6,6) Covers the same work as GER 201, 202, 203. Sequence. Prereq: one year of college German or equivalent or instructor’s consent. Offered only during summer session.

221 Postwar Germany: Nation Divided (3) Introduction to literary and cultural movements of public dissent, including 1960s student revolutions, in postwar Germany.

222 Voices of Dissent in Germany (3) Compares controversial East and West German literary movements that examined private life to criticize the public and political spheres.

223 Germany: A Multicultural Society (3) Examines complexities of the increasingly multi-ethnic German society through the writings of African, Turkish, and Jewish Germans.

311, 312, 313 Intermediate Language Training (4,4,4) Extensive practice in speaking and writing German; complex grammatical structures in writing. Prereq. GER 203 or equivalent.
317 Study in Germany (4) Intensive German grammar review in preparation for DHIS (Deutsche Sprachprüfung für den Hochschulzugang ausländischer Studienbewerber), a required test for students in German exchange programs. Pre- or coreq: GER 203 or equivalent.

327, 328, 329 German for Reading Knowledge (4,4,4) Intensive practice in grammar; reading texts in the student's own field. Sequence. Primarily for graduate students in other disciplines; recommended for students who want extra training in translation.

340, 341 Introduction to German Culture and Society (4,4) Writings by such figures as Kant, Marx, Freud, and Weber. 340: the emergence of Germany as a cultural and political entity explored through literature, film, and art. 341: the German crisis of modernization. Prereq: two years of college German or instructor's consent. Readings, discussion, and written assignments in German. Not offered 2001–2.

350 Genres in German Literature (4) Studies on such genres in German literature as Novelle, 20th-century drama, political poetry. No knowledge of German required; readings and discussions in English. Not offered 2001–2.

351 Diversity in Germany (4) Examines the social construction of identity in German literature and culture. Addresses topics of plural voices and tolerance in German-speaking cultures. Topics vary.

352 Authors in German Literature (4) Representational works by writers such as Lessing, Schiller, Hoffmann, Brentano, Droste-Hülshoff, Kafka, Fleisser, Brecht, and Nietzsche. No knowledge of German required; readings and discussions in English.

354 German Gender Studies (4) Student oral presentations and written papers on such topics as men and women writers of German romanticism, mothers and daughters in German literature, comparison of men and women dramatists. No knowledge of German required; readings and discussions in English.

355 German Cinema: History, Theory, Practice (4) In-depth analysis of various facets of German cinema. Topics include film and the Third Reich, postcolonial travel, Travels. 411, 412, 413 Advanced Language Training (4,4,4) Constant practice in speaking and writing with emphasis on complex syntactic structures as well as idiomatic nuances in German. 411: grammar; 412: writing; 413: speaking. Prereq: GER 311, 312, 313 or instructor's consent.

425 Play Performance: [Topic] (4R) Extensive practice in effective oral communication with emphasis on correct pronunciation. Reading of the play and scene rehearsals in class; public performance at end of term. Prereq: two years of college German or instructor's consent.

440/540 German Culture and Society: [Topic] (4R) Cultural and sociopolitical aspects of Germany. Typical topics are the cultural history of the German forest, the politics of unification, women and German film, peace movements. Prereq: GER 340 or 341 or instructor's consent. R when topic changes.

500/550 German Literature to the End of Enlightenment (4) German literature from the medieval period, the Reformation, the baroque, and the Enlightenment. Literary history of these periods. Prereq: GER 360, 361, 362 or instructor's consent.

660 Genres of German Literature: [Topic] (4R) Generally focuses on a single genre such as drama, poetry, or prose. Further limited by a time frame or subgenre such as historical drama, ballad, or Novelle. Prereq: graduate standing or instructor's consent. R when topic changes. Not offered 2001–2.

680 Seminar: [Topic] (1–5R) Topics include Grimmschauseen.

685 Reading and Conference: [Topic] (1–16R)

690 Literary Studies: [Topic] (4R) Research methods, literary theory, history of German literature, and advanced methodology. Typical topics include contemporary theory, major German critics, literature and nonliterary forms. Prereq: graduate standing or instructor's consent. R when topic changes. Not offered 2001–2.

Scandinavian Courses (SCAN)

196 Field Studies: [Topic] (1–2R)

198 Workshop: [Topic] (1–2R)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Danish (4,4,4)
Review of grammar; composition, conversation. Selections from representative texts in Danish. Sequence. Prereq for 201: DANE 103 or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Danish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Danish (4,4,4)
Review of grammar; composition, conversation. Selections from representative texts in Danish. Sequence. Prereq for 201: DANE 103 or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Finnish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Norwegian (4,4,4)
Thorough grammatical foundation in idiomatic Norwegian with emphasis on both reading and speaking the language. Sequence. Not offered 2001–2.

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Swedish (4,4,4)
Thorough grammatical foundation in idiomatic Swedish with emphasis on both reading and speaking the language. Sequence. Not offered 2001–2.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Finnish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Norwegian (4,4,4)
Thorough grammatical foundation in idiomatic Norwegian with emphasis on both reading and speaking the language. Sequence. Not offered 2001–2.

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Finnish (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Finnish. Sequence or instructor's consent.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Norwegian (4,4,4)
Review of grammar; composition, conversation. Readings from various texts in Norwegian. Sequence.

101, 102, 103 First-Year Swedish (4,4,4)
199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Swedish (4,4,4)

**Emeriti**
Edwin R. Bingham, professor emeritus. B.A., 1941, M.A., 1942, Occidental; Ph.D., 1951, California, Los Angeles. (1949)
Earl Pomeroy, Beekman Professor Emeritus of Northwest and Pacific History. B.A., 1936, San José State; M.A., 1937, Ph.D., 1940, California, Berkeley. (1949)
The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

**Participating**
Judith R. Baskin, Judaic studies
James D. Fox, library
Joseph G. Fracchia, honors college
Marianne S. Nicolas, arts and sciences
Barbara Corrado Pope, women's studies
Daniel Rosenberg, honors college

**Undergraduate Studies**
The study of history offers a framework for a liberal education and the background that is essential for understanding the contemporary world. Through analyzing interpretive studies, accounts by witnesses to past events, and historiographical records, students come to appreciate more fully the complexity of human experience. By examining changes in the past, they develop a broad perspective and the ability to weigh evidence and argument.

**Preparation.** Students who plan to major in history should include in their high school studies four years of social studies, four years of English, and preparation in a second language. Students who transfer to the university at the end of their sophomore year should have completed a year of Western civilization, a year of United States history, and at least one year of a second language.

**Careers.** History provides a foundation for careers in teaching, journalism, international endeavors, law, foreign service, business, government, ministry, librarianship, museum and archival work, and historic preservation. Work beyond the bachelor's degree is required in many of these fields.

**Advising and Entering the Major.** The Department of History requires students to have formal advising at the time that they enter the major. The advising coordinator assigns each student a faculty adviser who reviews departmental requirements and helps the student develop a plan that directs the course of study and ensures timely completion of the requirements. The faculty adviser is available for periodic review of the program and of progress in the major.

A staff of undergraduate peer advisers is available in the history peer advising office to help majors and prospective majors at any stage of their academic careers. Peer advisers are trained in university and history major requirements, and they are a resource for information about graduate programs in history, careers in history, and history-related activities in the university and the community. Students may obtain a checklist outlining the major in the history office and in the history peer advising office.

**Major Requirements**
The Department of History offers a bachelor of arts (B.A.) and a bachelor of science (B.S.), but all history majors must fulfill the second-language requirement for the university's bachelor of arts degree. They must demonstrate proficiency in a second language either by completing, with a C- or P or better, at least the third term, second year of a second language. History courses that satisfy major requirements must be taken for letter grades. Twenty-one upper-division credits, including three courses numbered 410-499, and all courses taken to fulfill the research paper requirement must be taken at the University of Oregon.

Specific requirements follow:

1. 45 graded credits in history courses, 33 of which must be upper division including at least 21 at the 400 level. (Majors who declared before September 16, 2001, need only 29 upper-division credits.) No more than 6 graded credits of Reading and Conference (HIST 405) may be used to fulfill major requirements
2. 8 upper-division credits in history before 1800
3. Plan 2000. (For majors who declared before September 16, 2001) 8 upper-division credits in two of the following three fields and 4 credits in the third:
   a. European history
   b. United States history
   c. African, Asian, or Latin American history (if 8 credits, all 8 must be taken in one of the three areas)

**Plan 2001.** (For majors who declared on or after September 16, 2001.) 8 upper-division credits in three of the following fields:

- European history
- United States history
- African history
- Asian history
- Latin American history

**History Paper Written in a Seminar (HIST 407).** In exceptional circumstances a term paper written in a colloquium (HIST 408) or in a 400-level lecture course may be expanded into a research paper. Students who have secured approval from the director of undergraduate studies for this option enroll in Reading and Conference (HIST 405) for 2 graded credits.

The arrangement for writing a research paper based on the term paper is one that requires not only the approval of the director of undergraduate studies but also the agreement of the instructor in the relevant 400-level course to teach the reading and conference course and to supervise the writing of the research paper. This procedure for writing a research paper does not duplicate the seminar experience. It should not be used to compensate for a student's lack of planning or preparation. It is permitted only when there are strong pedagogical reasons for pursuing it.

5. A grade point average (GPA) of 2.50 or higher in history courses taken at the University of Oregon. A mid C or better is required in courses taken to fulfill the research paper requirement

**History Honors Program**
The honors program provides an opportunity for capable and highly motivated history majors to develop their interests in historical research by writing a thesis during the senior year. To be eligible for admission to the program, students must have completed at least 28 credits in history, of which at least 16 upper-division credits must have been taken at the University of Oregon. The grade point average in all history courses must be 3.50 or better. Students who satisfactorily complete the thesis and related work and fulfill the requirements of the history major are eligible for a bachelor's degree with honors in history. Information about procedures for admission to the honors program, the course of study, the nature of the thesis, and the oral examination on the thesis may be obtained from the history department.

**Minor Requirements**
The minor requires 25 credits in history taken for letter grades. Of these credits 21 must be upper division and include one course in history before 1800 in any field. Thirteen of the upper-division credits must be in 400-level courses. Twenty-one upper-division history credits, including two courses numbered 410-499 and a seminar (HIST 407), must be taken at the University of Oregon.

Students must have earned a grade point average (GPA) of 2.50 or higher in history courses taken...
at the University of Oregon. A grade of mid-C or better is required in a seminar taken to fulfill the minor requirement.

**Middle and Secondary School Teaching**

The College of Education offers a five-year program for middle-secondary teaching licensure in social studies. This program is described in the College of Education sections of this catalog.

**Graduate Studies**

The department offers graduate instruction leading to the degrees of master of arts (M.A.) and doctor of philosophy (Ph.D.) specializing in the United States, European, East and Southeast Asian, and Latin American history.

**Admission**

Applicants must submit the following items to be considered for admission to the graduate program in history:

1. A completed Graduate Admission Application
2. Transcripts of all college work
3. Three letters of recommendation
4. Scores on the verbal and quantitative sections of the Graduate Record Examinations (GRE)
5. Test of English as a Foreign Language (TOEFL) scores for international students
6. A sample of written work and a statement of academic purpose

A number of graduate awards in the form of graduate teaching fellowships are available each year for entering graduate students.

**Fields of Study**

The primary fields are ancient history, medieval Europe, Europe 1400–1815, Europe since 1789, Russia, United States, East Asia, Southeast Asia, Latin America, and Africa.

**Master of Arts**

Applicants are expected to have completed an undergraduate degree in the liberal arts with emphasis on history. The M.A. program is typically completed in two years of full-time study. Students in their first year take Historical Methods and Writings (HIST 612, 613, 614). They must take at least 5 additional seminar credits (HIST 507 or 607). Before receiving the degree, they must demonstrate competence in a second language.

Students must write a master's thesis or complete two substantial research papers in the primary field and defend the thesis or research papers in an oral examination.

**Doctor of Philosophy**

Applicants are expected to have completed a master's degree in history or a closely allied field. All first-year doctoral students without equivalent training must take Historical Methods and Writings (HIST 612, 613, 614). Doctoral students must take two seminars or colloquia (HIST 507 or 607, HIST 508 or 608). They must pass a comprehensive oral examination in a primary field in history, complete a syllabus in their major field, and demonstrate mastery of a minor field. Mastery of the minor field, which must be in history, is demonstrated by completing three courses and preparing either a course syllabus or a bibliographic or historiographic essay of at least twenty-five pages. Before advancing to candidacy, students must demonstrate competence in at least one second language. Additional language requirements may be set by individual faculty advisers according to the demands of their fields.

After satisfactorily completing the field and syllabus requirements and demonstrating language competence, the doctoral student advances to candidacy. The doctoral candidate must write a dissertation that makes an original scholarly contribution to the field and shows evidence of ability in independent investigation. Finally, the candidate defends the dissertation in a formal, public session.

**History Courses (HIST)**

101, 102, 103 Western Civilization (4,4,4)
- Historical development of the Western world; major changes in value systems, ideas, social structures, economic institutions, and forms of political life.

104, 105, 106 World History (4,4,4)
- Survey of world cultures and civilizations and their actions.
- Includes study of missionary religions, imperialism, economic and social relations.

190 Foundations of East Asian Civilizations (4)
- Introduction to traditional China and Japan; Confucianism, Buddhism, Daoism; floating worlds; family and gender; traditional views of the body; literati class; samurai; Mongols and Manchus. Brokaw, Goble, Hanes.

191 China, Past and Present (4)

192 Japan, Past and Present (4)

199 Special Studies: [Topic] (1–5R)
- Problem-oriented course designed for students interested in history who might or might not become majors.

201, 202, 203 United States (4,4,4)
- Creation and development of the United States socially, economically, politically, culturally.

240 War and the Modern World (4)
- Evolution of the conduct of war in the 19th and 20th centuries as a reflection of social, political, and technological developments.

250, 251 African American History (4,4,4)
- 250: the African background, development of slavery, abolitionism, the Civil War and Reconstruction.

252 African Americans in the West (4)
- Focuses exclusively on the African American population west of the Mississippi with particular reference to Blacks in the Pacific Northwest.

273 Introduction to American Environmental History (4)
- Introduction to concepts, concerns, and methods of environmental history, especially in the context of American history to the present.

301, 302, 303 Modern Europe (4,4,4)
- Political, social, cultural, intellectual, and economic trends from the 18th century to the present.

307 The Study of History (4)
- Introduction to historical reasoning and research methods.

308, 309 History of Women in the United States (4,4,4)
- Survey of the diverse experiences of American women from colonial times to the present.

311 Women and Social Movements in Europe from 1750 to the Present (4)
- Methods used by women to improve their position in society (e.g., participation in revolution and voting). Reasons for success or failure of these methods. B. Pope.

318 Western Europe in the Middle Ages [Topic] (4R)

325 Precolonial Africa (4)
- Survey of African history to the mid-19th century, analyzing processes of state formation, regional and long-distance trade, religion, oral tradition, and systems of slavery. Fair.

326 Colonial and Postcolonial Africa (4)
- Survey of African history since the late 19th century. Emphasis on the internal dynamics of change as well as the impact of colonialism. Fair.

327 The Age of Discoveries (4)
- European exploration and seaborne empires, 1270–1600. Motives, technology, and institutions of the Italian and Iberian empires. Medieval travels to Asia; Venetian and Genoese empires; Spanish conquest of Mexico. HIST 101, 102 or equivalents recommended.

332 England (4)
- British history from Roman times to the 20th century—economic, political, religious, and social change. McGowen.

335, 336, 337 France (4,4,4)
- 335: the Middle Ages to the French Revolution—establishment of centralized monarchy; society in ancien régime; 17th-century classicism; collapse of the old order. 336: 1789–1870—French Revolutions of 1789, 1830, and 1848, Napoleonic Empire; monarchy, republicanism, and dictatorship; society, art, and religion in post-Revolutionary France. 337: 1870 to the present—the Paris Commune and Third Republic; the Dreyfus affair; popular front, fall of...
France and Resistance; Algeria, de Gaulle, the 1968 student movement. Birn, Sheridan.
345, 346, 347 Russia and the Soviet Union (4, 4, 4) 345: the Kievan state and the emergence of Muscovy. 346: creation of the Russian Empire; political, social, and economic developments to 1917. 347: revolutionary Russia, 1917 to the present. Hessler, Kimball.
353, 354 American Foreign Relations since 1933 (4, 4, 4) 353: origins of U.S. entry into World War I; significant diplomatic developments during that war. 354: Cold War; U.S. and the underdeveloped world; post–Cold War foreign relations. May.
357 The South (4) Regional history of the South and of successive Southern ways of life. Evolution of the South as a slaveholding society, its bid for independence, and its subsequent redefinitions and adaptations to national norms. Maddex.
359 Religious Life in the United States (4) Planning, adaptation, development, and role of religious groups and traditions in the United States from the colonial period to the present. Maddex.
360 The American City: [Topic] (4R) I: To 1900. Growth of port, river, canal, and railroad towns; urban economies, cultural leadership, expanding populations. II: 20th Century. Progressive reforms, city planning, urban-federal relations in the Depression, experience of Blacks and immigrants in cities, suburban growth and the urban prospect. R when topic changes.
363 American Business History (4) American businesses from their colonial origins to the present. Focus on interaction between the political, social, economic, and ideological environment and the internal structure and activities of business enterprises. D. Pope.
380, 381, 382 Latin America (4, 4, 4) Major economic, political, and cultural trends and continuities. 380: pre-Columbian and Iberian history, the colonial period up to 1750. 381: transition from late colonial mercantilism to political independence and national definition, 1750–1910. 382: reform and revolution in modern Latin American history, 1910 to the present. Sophomore standing recommended. Aguirre, Haskell.
385, 386 India (4, 4) 385: history of India from the Mauryan Empire to the establishment of East India Company and the 19th century. 386: history of India under British rule, the rise of nationalist politics, and the subcontinent in the years since independence. McGown.
387 Early China (4) Survey from the beginnings to the 10th century focuses on the development of Chinese thought and religion and the growth of the imperial state and bureaucracy. Brokaw.
401 Vietnam and the United States (4) Vietnamese society and history; the First Indochina War, origins and escalation of United States involvement in Vietnam; de-escalation and defeat. May. 402 Special Studies: [Topic] (1–5R)
403 Research: [Topic] (1–9R)
403 Thesis (1–9R)
405 Reading and Conference: [Topic] (1–6R)
407 507 Seminar: [Topic] (5R) Recent topics include Ancient Slavery, Japan, Machiavelli, Medicine and Society in America, and Stalinism.
408 508 Colloquium: [Topic] (1–6R) Current topics include Ancient and Modern Empires. 409 Supervised Tutoring Practicum: [Topic] (1–3R)
410 510 Experimental Course: [Topic] (1–6R)
411 511 Social History: [Topic] (4R) Variable topics include popular culture, peasants, family history, elites, popular uprisings, and popular movements. R when topic changes.
417 517 Society and Culture in Modern Africa: [Topic] (4R) Explorations in various topics with attention to class, gender, and generational and political struggles. I: Postcolonial African Film and Politics. II: Colonial Urban Africa. Prereq: HIST 325 or 326, depending on topic, or instructor’s consent. Fair. R twice when topic changes for maximum of 12 credits.
418 518 Social and Economic History of Medieval England, 1050–1530 (4) Detailed studies of selected topics such as towns, women and family, demography, and impact of war on society. Prereq: instructor’s consent. Mate.
420 520 The Idea of Europe (4) The concept and experience of “Europe” explored creatively throughout history from multiple disciplinary perspectives. Sheridan.
426 526 Society and Culture in 18th-Century Europe (4) Urbanization, secularization, the growth of literacy, and the emergence of the writer as cultural icon. HIST 102 or 301 recommended. Birn.
434 534 Modern British History: [Topic] (4R) Selected topics in modern British history from 1700 to the present. Emphasis varies. McGown. R twice when topic changes for maximum of 12 credits.
435 535 The French Revolution and Era of Napoleon (4) The crisis of ancien régime, the revolution of 1789–92, radicalism and terrorism, the Thermidorian Reaction, Directory, international revolutionary ideology, Napoleonic Empire, Waterloo, and reconstruction of Europe in 1815. Prereq: HIST 102 or equivalent. Birn.
439 539 Renaissance Europe: [Topic] (4R) Cultural and intellectual history from 1200 to 1600. New religious movements, social and political change in cultural context, theology and philosophy, humanism, the rise of vernacular literatures. R twice when topic changes for maximum of 8 credits.
441 541 16th-Century European Reformations (4) History of religious, personal, and institutional reforms. Includes late medieval reform movements and the ideas of Erasmus, Luther, Calvin, Ignatius Loyola, and Teresa of Avila.
442 542 Early Modern German History: [Topic] (4R) Variable topics include peasant society, the foundations of absolutism, the German Enlightenment, protoindustrialization. Luebke. R twice when topic changes for maximum of 12 credits.
449 549 Race and Ethnicity in the American West (4) Explores the growth of communities of color in western cities of the United States, with particular reference to competition and cooperation between groups.
American History: \[\text{[Topic]} \ (4R)\] Reviews current scholarly literature on American history. Selected problems may include Oregon, California, or New York history and culture, crime and violence. R: When topic changes for maximum of 16 credits.

American Foreign Relations: \[\text{[Topic]} \ (4R)\] Chronological and thematic topics in American foreign relations. May. R when topic changes.

Revolutionary America: \[\text{[Topic]} \ (4R)\] Origins, consequences, meanings of American Revolution; changing social, economic, and political contexts; intellectual, religious, and ideological trends; Constitution, institutional, and mythic legacy. Dennis.

American Environmental History: \[\text{[Topic]} \ (4R)\] Historical survey beginning with the 15th century. Emphasizes social, economic, and political transformations. I: 1450-1580. II: 1580 to the present. R once when topic changes for maximum of 8 credits.

American Indian History: \[\text{[Topic]} \ (4R)\] Variable chronological, thematic, and regional topics, including Indian history to 1860; 1860 to the present; Indians and colonialism; Indians and environments; Indians and gender; regional histories. Dennis, Ostler. R twice when topic changes for maximum of 12 credits.

American West: \[\text{[Topic]} \ (4R)\] Regional history to the mid-20th century. How the Pacific Northwest mirrors the national experience and how the region has a distinctive history and culture. Ostler.

American Indian History: \[\text{[Topic]} \ (4R)\] Variable chronological, thematic, and regional topics, including Indian history to 1860; 1860 to the present; Indians and colonialism; Indians and environments; Indians and gender; regional histories. Dennis, Ostler. R twice when topic changes for maximum of 12 credits.

American Environmental History: \[\text{[Topic]} \ (4R)\] Variable topics examine the social, cultural, economic, and political history of the American landscape; how Americans have understood, transformed, degraded, conserved, and preserved their environments. I: To 1800. II: 19th Century. III: 20th Century. Herman. R twice when topic changes for maximum of 12 credits.

Revolutions in Modern Latin America: \[\text{[Topic]} \ (4R)\] Analyzes social revolutions in Mexico, Cuba, Nicaragua, and other 20th-century revolutionary movements. Discusses politics, hemispheric relations, and construction of revolutionary cultures and traditions.

Mexico: \[\text{[Topic]} \ (4R)\] Mexican history from pre-Hispanic times to the present. Special attention to nationhood, economic development, church-state relations, the Mexican identity, and the Revolution of 1910. Haskett.

Latin American Regional History: \[\text{[Topic]} \ (4R)\] Explores the social, political, economic, and cultural dynamics of historical change that have affected the peoples and countries of Latin America. Sophomore standing and HIST 380, 381, 382 recommended. Aguirre. R once when topic changes for maximum of 8 credits.

Latin America's Indian Peoples (4) Impact of Iberian conquest and settlement on the lives of the indigenous peoples of the Caribbean, Mexico, Central America, and South America. Haskett.

Latin America: \[\text{[Topic]} \ (4R)\] Variable topics include the experience of blacks and Indians; the struggle for land, reform, and revolution. Aguirre, Haskett. R thrice when topic changes for maximum of 16 credits.

Philippines (4) \[\text{[Topic]} \ (4R)\] Philippine history from pre-Hispanic times to the present with particular emphasis on the past hundred years. May.

Southeast Asian History: \[\text{[Topic]} \ (4R)\] Historical survey beginning with the 15th century. Emphasizes social, economic, and political transformations. I: 1450-1580. II: 1580 to the present. R once when topic changes for maximum of 8 credits.

Peasant Uprisings in Southeast Asia: \[\text{[Topic]} \ (4R)\] Examines lower-class rebellions in the 19th and 20th centuries. Refers to key theoretical texts; focuses on specific uprisings. Topics include Indonesian revolution and the first Indochina war. Prereq: instructor's consent. R when topic changes for maximum of 8 credits.

China: \[\text{[Topic]} \ (4R)\] Survey from the 10th century. Foundations and transformations of state and society; popular rebellions; impact of imperialism; issues of modernity; state building; political, cultural, and social revolutions. I: Song and Yuan. II: Ming and Qing. III: Late Qing. IV: Republican China. V: China since 1949. Prereq: Goodman. R thrice when topic changes for maximum of 16 credits.

Population Culture: \[\text{[Topic]} \ (4R)\] Modern society and culture from the bottom up. 1600-present. Tokugawa urban subcultures of Edo, Osaka, and Kyoto; 20th-century entertainment culture; megalopolis; contemporary mass culture. I: Tokugawa Urbanism. II: Media Culture. III: Consumer Lifestyles. Hanes. R when syllabus changes.

General Information
The curriculum of the Humanities Program provides opportunities for the student seeking intellectual coherence and integration, awareness of cultural contexts and traditions, and the connection of humanistic theory to practice. To meet these goals, the program is pluralistic and multicultural in its vision and interdisciplinary in its approach. It is designed to provide essential skills and understanding for intelligent action. As an added benefit, humanities courses provide preparation for a wide range of careers.

Major Requirements
The humanities major is an interdisciplinary bachelor of arts (B.A.) degree program. Proficiency in at least one second language, a requirement for the B.A. degree, is central to the humanities major. Although majors are not required to do more than meet the B.A. requirement, it is strongly recommended that they continue language study in upper-division courses. The major in humanities requires 48 or 52 credits. Grades of mid-C or better must be earned in courses taken to satisfy major requirements. For graduation, humanities majors must maintain at least a 2.00 grade point average (GPA) in required courses. No upper-division course may be used to satisfy more than one major requirement.

Introduction to the Major (4 or 8 credits)
Two courses from Introduction to the Humanities I,Y,II,III (HUM 101, 102, 103) or Themes in the Humanities (HUM 300), recommended for students who declare the major in the junior or senior year.

Breadth Requirement (16 credits)
One course taken in each of the four areas listed below. At least two of these must be upper-division courses, and all four courses must be group satisfying.
1. Arts (music history, theater history, art history)
2. Philosophy
3. Classics
4. History

Concentration (28 upper-division credits) Students must submit a brief essay defending the coherence of the concentration and outlining the seven courses they plan to take. No more than three of the seven courses may be taken in any one department. Students should choose at least one Seminar (407) as part of their concentration.

Medieval Studies Option
Some humanities majors specialize in medieval studies. See the Medieval Studies section of this catalog.

Courses from Other Departments
In addition to courses required for the humanities major, students may be interested in the following courses. See home departments for descriptions.

Classics. Greek and Roman Epic (CLAS 301), Greek and Roman Tragedy (CLAS 302), Classical Greek Philosophers (CLAS 303), Classic Myths (CLAS 321)

History. Ancient Greece (HIST 412), Ancient Rome (HIST 414), Society and Culture in 18th-Century Europe (HIST 426), Intellectual History of Modern Europe (HIST 427), The Book in History (HIST 440)

Philosophy. Philosophy in Literature (PHIL 331), Introduction to Philosophy of Science (PHIL 339)

Theater Arts. Studies in Theater and Culture (TA 471)

Middle and Secondary School Teaching
The College of Education offers a fifth-year program for middle-secondary teaching license in language arts and social studies. This program is described in the College of Education section of this catalog. Students who want to teach language arts need additional preparation in grammar, literature, and writing. Students who want to teach social studies need additional preparation in history, economics, American government, culture, and society.

Humanities Courses (HUM)
Introduction to the Humanities I,II,III (HUM 101, 102, 103) is offered every year; other humanities courses may be offered periodically. For current offerings, refer to the UO Schedule of Classes.

101 Introduction to the Humanities I (4) Ideas and modes of vision Western culture has inherited from the classical period. Readings and discussions focus on literature, philosophy, history, the arts, and religion.

102 Introduction to the Humanities II (4) Ideas and modes of vision Western culture has inherited from the medieval to the Renaissance periods. Readings and discussions focus on literature, philosophy, history, the arts, and religion.

103 Introduction to the Humanities III (4) Ideas and modes of vision Western culture has inherited from the Age of Enlightenment to the modern period. Readings and discussions focus on literature, philosophy, the arts, and science.

199 Special Studies: [Topic] (1–5R)

210 Special Topics in the Humanities: [Topic] (4R) Content varies from term to term; focus may be on different aspects of a particular culture. A recent topic is Introduction to Middle Ages.

251 The Ancient City (4) Examines urban cultures of the ancient world, particularly the relationships between law, culture, and systems of belief. Hurwit, Jaeger, Nicols.
This program is open to any UO undergraduate individual goals and designs a schedule of courses. Applications for the Independent Study Program study, and writing. They must have specific, scholarly studies in an area not represented in department or school—must be presented to the director of the Humanities Program and then to the undergraduate adviser. Applications with the committee, each student sets independent work. A proposal is required for admission. Students who want to major in international studies should apply for admission. Advising. The role of the faculty adviser as mentor is central to the program. Students interested in applying to the program should suggest a faculty member with whom they have a common area of interest to act as their adviser and mentor, typically one of the committee members named above or a faculty member from the student’s concentration area. Advising about specific major requirements is available from the program’s undergraduate advisers.

Undergraduate Studies

The interdisciplinary bachelor of arts degree offers students a rigorous education in the basic elements of the field. The program provides a sound general education for the student interested in the complex interrelationships (political, economic, social, and cultural) that exist among nations in the interdependent modern world. Advising. The role of the faculty adviser as mentor is central to the program. Students interested in applying to the program should suggest a faculty member with whom they have a common area of interest to act as their adviser and mentor, typically one of the committee members named above or a faculty member from the student’s concentration area. Advising about specific major requirements is available from the program’s undergraduate advisers.

Admission. Students who want to major in international studies should apply for admission during their sophomore or junior year at the university and should have at least a 3.00 grade point average (GPA). Premajor advising and help with application procedures are available at the international studies office. Applicants must meet with an international studies undergraduate adviser to review the application before submitting it for consideration. Applications are due on Monday of the fourth week of fall, winter, and spring terms.
Major Requirements

The major consists of work in three core blocks: international core foundation, regional cultures and area studies, and professional concentration area. A minimum of 48 credits, 24 of which must be upper division, are required in these blocks. Courses must be passed with grades of C- or better to satisfy the major requirements. In addition, three years of a second language or the equivalent is required.

The major may include courses from a number of departments. The minimum requirement is 16 credits in each block. All courses taken for the major, with the exception of the language requirement and up to 9 credits in INTL 406 or 409, must be graded.

A maximum of 12 credits in courses taken to fulfill the university group requirements may be applied toward the international studies major. A maximum of 24 credits in courses taken in a single department may be applied toward the international studies major, exclusive of the language requirement.

Block A: International Core Foundation. Four courses are required: Perspectives on International Development (INTL 240), Value Systems in Cross-Cultural Perspective (INTL 250), Cooperation, Conflict, and Global Resources (INTL 251), and International Leadership (INTL 350).

Block B: Regional Cultures and Area Studies. This block pertains to groups of nations that share common cultural, historical, geographic, and linguistic experiences. In satisfying the Block B requirement, students concentrate on one cultural area. To satisfy the language requirement for the major, students should choose one that is relevant to their regional specialization.

Areas of focus may include Africa, East Asia, Europe, Latin America, the Middle East, Pacific islands, Russia and Eastern Europe, South Asia, and Southeast Asia. In developing a program of study, a student may want to consult the area studies sections of this catalog.

Appropriate Block B courses should have significant course content on the region of study.

Block C: Professional Concentration Area. Students select one of fourteen professional concentration areas.

Students may design their own professional concentration area if none of the predefined areas fits the student's professional goals. Students who choose this option must designate one of the four core faculty members of the International Studies Program as an adviser and work with that individual in designing the concentration.

Block C professional concentration areas are listed later in this section.

International Studies Honors Thesis. Students who have a grade point average (GPA) of 3.50 or higher and want to graduate with program honors write a thirty- to fifty-page thesis. An adviser must be selected and a proposal approved by the program faculty two terms before graduation. Students may apply up to 6 Thesis (403) credits to the appropriate block of the 48 credits required for the international studies major.

The completed thesis must be awarded a grade of mid-B or better by the adviser (P, or pass, for a Clark Honors College thesis) and be approved as meeting thesis guidelines by the director of the program. This includes addressing an international or cross-cultural topic and using second-language sources for all projects, including the honors college thesis.

Language Requirement. To satisfy this requirement, students must achieve proficiency in a second language at a level associated with three years of study. Proficiency in the language may be demonstrated by passing three terms of a 300-level language sequence with grades of mid-C or better, or by an examination.

Overseas Experience. Majors must have "a significant international experience" to complete requirements for the major. This is usually satisfied by at least one term of study or work in another country. The international studies internship advisor is a resource for opportunities abroad. For information about study abroad, see International Education and Exchange in the Academic Resources section of this catalog and index entries under "Overseas study." Advice is available from the Office of International Education and Exchange, 330 Oregon Hall.

Internship Option. Students may receive passing (P) credit for work done as interns. Interested students should inquire at the international studies internship office.

Block C: Professional Concentration Areas

Comparative International Development

Required Courses (8 credits)
International Community Development (INTL 420) and Aid to Developing Countries (INTL 422)

Elective Courses (minimum of 8 credits)
Economics, Problems and Issues in the Developing Economies (EC 390), Economic Growth and Development (EC 490), Issues in Economic Growth and Development (EC 491)

International Studies. Gender and International Development (INTL 421), Development and the Muslim World (INTL 423), Cross-Cultural Communication (INTL 431), The Pacific Challenge (INTL 440), South Asia: Development and Social Change (INTL 442), Journalism and Communication (INTL 496), Third World Development Communication (J 455)

Planning, Public Policy and Management. Socioeconomic Development Planning (PPPM 446), Managing Nonprofit Organizations (PPPM 480)

Sociology. World Population and Social Structure (SOSC 303), Political Economy (SOSC 420), Sociology of Developing Areas (SOSC 450)

Cross-Cultural Communication, Indigenous Cultural Studies, and Ethnic Identity

Required Course (4 credits)
Cross-Cultural Communication (INTL 431)

Elective Courses (minimum of 12 credits)
Ethnic Studies. Adviser-approved courses
Geography. Political Geography (GEOG 441), Geography of Languages (GEOG 444),

Culture, Ethnicity, and Nationalism (GEOG 445), Geography of Religion (GEOG 446), Advanced Geography of European-American Regions: Ethnic Geography of the United States and Canada (GEOG 470)

Humanities. Multicultural Studies in the Humanities (HUM 350)

International Studies. Seminar: Indigenous Cultural Survival (INTL 407), Gender and International Development (INTL 421)

Linguistics. Languages of the World (LING 211)

Sociology. Systems of War and Peace (SOC 464)

Culture and Art

Required Course (4 credits)
Art and Human Values (AAD 250) or Music in World Cultures (MUS 358)

Elective Courses (minimum of 12 credits)
Anthropology. Anthropology and Folklore (ANTH 419), Cultural Resource Management (ANTH 449), The Anthropology Museum (ANTH 450)

Art History. Critical Approaches to Art-Historical Study (ARH 300), Museology (ARH 411)

Arts and Administration. Art and Human Values (AAD 250), The Arts and Visual Literacy (AAD 251), Arts Administration (AAD 460)

Dance. Dance and Folk Culture (DAN 301)

Folklore. Folk Art and Material Culture (FLR 413), Film and Folklore (FLR 485)

Historic Preservation. Introduction to Historic Preservation (AAAP 411)

International Studies. Cross-Cultural Communication (INTL 431)

Music. Music in World Cultures (MUS 358), Introduction to Ethnomusicology (MUS 451), Musical Instruments of the World (MUS 452)

Planning, Public Policy and Management. Managing Nonprofit Organizations (PPPM 480)

Theater Arts. Multicultural Theater (TA 472)

Diplomacy: Law and International Relations

Required Courses (8 credits)
Aid to Developing Countries (INTL 422) and either Introduction to International Relations (PS 205) or International Political Economy (PS 340)

Elective Courses (minimum of 8 credits)
Geography. Political Geography (GEOG 441)

History. American Foreign Relations (HIST 451)

International Studies. Cross-Cultural Communication (INTL 431), South Asia: Development and Social Change (INTL 442)

Political Science. United States Foreign Policy I (PS 326), International Organization (PS 420), United States Foreign Policy II (PS 426), Theories of International Politics (PS 455), United States–Chinese Relations (PS 459), International Environmental Politics (PS 477)

Sociology. Political Economy (SOC 420), Systems of War and Peace (SOC 464)

International Business

Required Courses (8 credits)
Managing across Borders (MGMT 420) and International Marketing (MKTG 470)

Elective Courses (minimum of 8 credits)
Business Environment. Global, Legal, Social Environment of Business (BE 325)
Elective Courses (minimum of 8 credits)

Anthropology. Women and Culture II: Creativity and Symbols (ANTH 315), Anthropology of Gender (ANTH 421), Feminism and Ethnography (ANTH 439)

Journalism and Communication. Third World Development Communication (J 455)

Sociology. Sociology of Women (SOC 355), Issues in Sociology of Gender (SOC 455), Feminist Theory (SOC 456)

Women's Studies. Introduction to Women's Studies (WST 101), History and Development of Feminist Theory (WST 301, 302), Global Feminisms (WST 431)

International Tourism

Required Course (4 credits)

Political Geography (GEOG 441)

Elective Courses (minimum of 12 credits)

Geography. Geography of the World Economy (GEOG 342)

International Studies. Gender and International Development (INTL 421), Aid to Developing Countries (INTL 422), Cross-Cultural Communication (INTL 431)

Landscape Architecture. Understanding Landscapes (LA 260)

Marketing. Marketing Management (MKTG 311), International Marketing (MKTG 470)

Planning. Public Policy and Management. Managing Nonprofit Organizations (PPPM 480)

Political Science. Introduction to Environmental Politics (PS 297)

Sociology. Political Economy (SOC 420)

Tourism. Inquire at the program office about approved courses

Media: Journalism and Communication

Required Courses (8 credits)

International Communication (J 396) and Cross-Cultural Communication (INTL 431)

Elective Courses (minimum of 8 credits)

International Studies. South Asia: Development and Social Change (INTL 422)

Journalism and Communication. The Mass Media and Society (J 201), Introduction to Media Systems (J 312), Public Relations Writing (J 351), Telecommunication Policy (J 415), Third World Development Communication (J 455), International Journalism (J 492)

Marketing. Marketing Communications (MKTG 420), International Marketing (MKTG 470)

Sociology. Sociology of the Mass Media (SOC 317)

Peace Studies: Human Rights and Conflict Resolution

Required Course (4 credits)

Cross-Cultural Communication (INTL 431)

Elective Courses (minimum of 12 credits)

Geography. Political Geography (GEOG 441), Culture, Ethnicity, and Nationalism (GEOG 445)

History. War and the Modern World (HIST 240), The Study of History (HIST 307)

International Studies. Gender and International Development (INTL 421), Aid to Developing Countries (INTL 422)

Political Science. Introduction to Environmental Politics (PS 297)

Sociology. Systems of War and Peace (SOC 464)

Teaching English as a Second Language

Required Courses (16 credits)

Linguistic Principles and Second-Language Learning (LING 440) or Second-Language Acquisition (LING 444), Second-Language Teaching (LING 445), Second-Language Teaching Practice (LING 446), English Grammar (ENG 495)

Urbanization: Migration and Refugees

Required Courses (8 credits)

Urban Geography (GEOG 442) and Aid to Developing Countries (INTL 422)

Elective Courses (minimum of 8 credits)

Economics. Urban and Regional Economics (EC 430)

Geography. Culture, Ethnicity, and Nationalism (GEOG 443)

International Studies. Indigenous Cultural Survival (INTL 407), International Community Development (INTL 420), Cross-Cultural Communication (INTL 431)

Political Science. Introduction to Urban Politics (PS 230)

Sociology. World Population and Social Structure (SOC 303), Issues in Sociology of the Environment (SOC 416), Urbanization and the City (SOC 442)

Minor

The minor in international studies is inactive.

Graduate Studies

An interdisciplinary master of arts (M.A.) degree program in international studies is offered for students who contemplate careers in international affairs, international development, diplomacy, international organizations, or domestic organizations with an international focus. A minimum of 73 credits must be completed for the degree.

The M.A. degree program in international studies can be tailored to meet the unique professional needs of each student. In close consultation with a faculty adviser, the student develops a program of study that combines expertise in a specific professional area with interdisciplinary training in international studies. Areas of professional concentration include comparative development, cross-cultural training, cultural arts, gender and development, health education and nutrition, international business, international community development, international education, international tourism, journalism, management of nongovernmental organizations, and private voluntary organizations, and public policy and planning. Concentrations in other professional areas can be arranged.

Graduates of the International Studies Program serve as international technical advisers, career diplomats, community development professionals, international business and trade experts, analysts in developing countries, international educators, administrators of international programs, and cross-cultural communication consultants.
Admission. The applicant must be a graduate of an accredited four-year college or university with a grade point average (GPA) of 3.00 or better in all academic work. The application deadline is February 1 for the following academic year. A Graduate Record Examinations (GRE) score is optional. Students whose native language is not English must verify a score of 575 (paper-based test) or 233 (computer-based test) or better on the Test of English as a Foreign Language (TOEFL) unless they have graduated from an accredited U.S. college or university. Application forms and additional information about the graduate program may be obtained from the International Studies Office.

International Students. International as well as United States students are encouraged to apply. Study programs are individually designed to meet their professional needs and those of the student’s home country. Approximately half of the program’s graduate students are international students.

Graduate Curriculum
Of the 73 course credits needed to complete the degree, students must take a minimum of 28 graded credits: 12 in the interdisciplinary core and 16 in the professional concentration area. A maximum of 24 credits may be taken in any one department in order to allow an appropriate degree of specialization.

Interdisciplinary Core. Students take 16 credits of interdisciplinary courses that form the common core of the curriculum. The core is composed of three major competence areas: cross-cultural communication and understanding; international relations, development theories, and approaches; and cross-cultural research methods. Students may select from a range of specified courses to satisfy this requirement. A minimum of one course must be taken from each competence area.

Professional Concentration Area. Students take a minimum of 24 credits in their area of professional concentration. In consultation with an adviser, students choose courses from relevant departments or professional schools. Concentration areas are tailored to individual student interests. Students interested in agricultural extension, forestry, and public health may take courses at Oregon State University. (For information on concurrent enrollment, see the Registration and Academic Policies section of this catalog.)

Proseminar Series. The International Studies Program conducts three required 1-credit proseminars in which students and faculty members explore the field of international studies: Proseminar (INTL 655), Research and Writing in International Studies (INTL 656), and Ethical Issues in International Research (INTL 657). Students take these courses in their first year of graduate study.

Geographic Focus. Students must take a minimum of 12 credits in their area of geographic focus (e.g., Africa, East Asia, Europe, Latin America, the Middle East, South Asia, or Southeast Asia). Students who earned their undergraduate degrees from institutions outside the United States may substitute an additional 12 credits in the professional concentration for the 12 credits of geographic focus. Students are encouraged to choose a geographic focus outside their native region.

Language Study and Competence. Students must demonstrate a third-year level of proficiency in a second language relevant to their professional or geographic focus before completing the program. Students who want to improve their language skills as part of their M.A. program may take course work in Chinese, Japanese, Russian, or other non-European languages; study languages through self-instruction at the Yamada Language Center; or take third- and fourth-year Romance- or Germanic-language courses. These language courses may be taken in lieu of up to 4 credits in the geographic focus, 8 credits in the professional concentration area, or 12 credits of the field internship if the language is studied in a country where it is commonly spoken. No more than 16 total credits of second-language study may be applied toward fulfillment of program requirements. International students whose high school or university instruction was not in English demonstrate proficiency in English as a second language through completion of the master’s degree requirements. It is recommended that international students study a language from their region of concentration.

Supervised Field Internship. A 12-credit internship is required. The program assists students in locating internships and funding, both domestic and overseas, with various organizations. The internship experience should be related to the student’s career plans to enhance future job opportunities. International students may do their internship in the United States. Students must pay all or most of the costs of many internships. Many graduate students in the program have competed successfully for funding to support internship experiences.

The international studies faculty expects the student to gain the following from the internship: (1) a reasonably in-depth experience in a culture other than the student’s own, (2) greater fluency in the language of the culture in which the internship takes place, and (3) knowledge and experience useful to the career goals of the intern.

Exit Project. Each student must write a thesis or policy paper or have an article accepted for publication in an approved refereed journal. Nine credits are awarded for a thesis and 6 credits for a policy paper or a published article.

Focuses on how people seek to improve their quality of life. Stephen.

350 International Leadership (4) Interdisciplinary introduction to international and cross-cultural perspectives on leadership. Focuses on leadership in a wide array of multicultural and international contexts.

399 Special Studies | [Topic] (1–5R) | |
| 403 Thesis | (1–12R) | Prereq: instructor’s consent. Majors only. |
| 405 Reading and Conference | [Topic] (1–12R) | Prereq: instructor’s consent. |
| 408/508 Workshop | [Topic] (1–12R) | |
| 409 Practicum | [Topic] (1–12R) | Closely supervised participation in the activities of public or private organizations, institutes, and community service agencies. Prereq: instructor’s consent. |
| 410/510 Experimental Course | [Topic] (1–5R) | R when topic changes. |
| 420/520 International Community Development | Introduction to village communities and their development. Examines the critical skills necessary for effective community development work. Emphasis on values and alternative development strategies. |
| 421/521 Gender and International Development | Analysis of the changing roles, opportunities, and expectations of Third World women as their societies undergo social upheavals associated with the problematic effects of development. Weiss. |
| 422/522 Aid to Developing Countries | Examines the history and current dynamics of international bilateral and multilateral development assistance, the possibilities and constraints of aid, and other related issues. Weiss. |
| 423/523 Development and the Muslim World | Introduction to current development in various Muslim societies. Focuses on North Africa, the Middle East, South Asia, and Southeast Asia. Weiss. |
| 430/530 World Value Systems | Compares and analyzes major belief and value systems. Examines how societies construct value systems and the emergence of a global value system. Carpenter. |
| 431/531 Cross-Cultural Communication | Focuses on skills and insights needed by professionals working in cross-cultural settings. Considers values, development, education, politics, and environment as central to cross-cultural understanding. Prereq: INTL 250. Proudfoot. |
| 432/532 Indigenous Cultural Survival | Explores case studies of global indigenous peoples who are facing cultural survival issues and developing strategies and institutions to deal with this complex process. Proudfoot. |
| 440/540 The Pacific Challenge | Introduction to developments and trends in the dynamic and increasingly interdependent Pacific region. |
Evaluates prospects for an emerging Pacific community.

441/541 Southeast Asian Political Novels and Films: Changing Images (4) Critical review of political novels and films that have distorted images of Southeast Asia. Discussion of strategies for developing genuine understanding of Southeast Asia.

442/542 South Asia: Development and Social Change (4) Introduction to the vast social changes and development issues confronting the South Asian subcontinent. Weiss.

503 Thesis (1–12R) Prereq: exit project committee’s consent.

601 Research: [Topic] (1–12R) Prereq: instructor’s consent.

602 Supervised College Teaching (1–5R) Prereq: instructor’s consent.

605 Reading and Conference: [Topic] (1–12R) Prereq: instructor’s consent.

606 Field Studies: [Topic] (1–12R) Prereq: graduate standing and exit project committee’s consent.

608 Special Topics: [Topic] (1–12R)

609 Practicum: [Topic] (1–12R) Closely supervised participation in the activities of public or private organizations, institutes, and community service agencies. Prereq: instructor’s consent.

610 Experimental Course: [Topic] (1–5R)

640 Gender Analysis in Development Planning (4) Explores specific ways in which gender analysis is considered in development planning. Focuses on economic empowerment, political participation, and shaping international agendas. Prereq: INTL 521 or instructor’s consent. Weiss.

650 International Research Methods (4) Survey of quantitative and qualitative research approaches relevant to international research. Emphasis on practical applications and strategies for linking research to policy in international settings.

655 Proseminar (1) Introduction to the field of international studies and the international studies graduate program.

656 Research and Writing in International Studies (1) Focus on conceptualizing research topics; accessing bibliographic databases; writing grant applications, reports, and theses. Weiss.

657 Ethical Issues in International Research (1) Focuses on ethical issues and dilemmas that may arise in conducting field research in cultural settings outside the United States.

About the Program

The interdisciplinary Harold Schnitzer Family Program in Judaic Studies is organized around inquiry in Jewish society, thought, and creative traditions, considered in the context of the history of Western culture. The program offers a major leading to a bachelor of arts (B.A.) degree and a minor, and it sponsors courses, lectures, and other events of interest to the general student population and the wider community.

Undergraduate Studies

The Judaic studies program consists of a core of courses taught under the JDST subject code and a broad range of related courses taught in the disciplines of participating faculty members, including anthropology, art history, comparative literature, English, geography, Germanic languages and literatures, landscape architecture, music, philosophy, political science, religious studies, Romance languages, sociology, and women’s studies.

The program’s focus on central issues in the humanities and in the history of Western culture provides a broad liberal-arts background suitable to careers in many professional fields and to graduate work in Judaic studies or related fields. The major combines flexibility and focus. Majors must satisfy the university’s foreign language requirement for the bachelor of arts with Hebrew. Introduction to Study of the Bible (REL 111), first-year language study, and contextual courses occupy the first year. Lower-division contextual courses place Judaic studies in the broad context in Western history and culture.

In the second year, majors take the yearlong sequence of foundations of Judaic studies courses (JDST 201, 202, 203) and continue studying Hebrew.

The third and fourth year are devoted to fulfilling upper-division requirements. Majors take three topics courses, which focus on significant issues in Judaic studies as defined from the perspective of the instructor’s academic discipline. These courses must be taken in at least two departments. Recently offered topics courses include Early Judaism (REL 315), Jewish Writers (ENG 340), and Jewish Folklore and Ethnology (ANTH 429) as well as Experimental Courses: Geography of the Middle East (GEOG 410) and Judaism and Ecology (PS 410). The program director has information about courses that satisfy this requirement.

The two discipline-based courses (in which Judaic studies–related issues are discussed but are not the main focus of the courses) allow students to develop their knowledge of Judaic studies in relation to broader disciplinary considerations. To receive major credit for these courses, students must develop, with the approval and direction of the course instructor, independent projects centered on the topics related to Judaic studies. Recently offered courses include The Bible and Literature (ENG 421), Geography of Religion (GEOG 446), and Sociology of Religion (SOC 461) as well as Experimental Courses: Religion, Gender, and the Body (ANTH 410) and Freud (COLT 410). Permanently numbered discipline-based courses in other departments include Philosophy of Religion (PHIL 320), Religious Life in the United States (HIST 359), Themes in German Literature (GER 368), Europe in the 20th Century (HIST 428), and New World Poetics (COLT 473).
Consult the program director about how to obtain approval for courses and project designs.

In the senior year, majors take the capstone course, designed to integrate the four-year program, and complete a substantial senior project. Majors are strongly encouraged to take advantage of the university’s study-abroad program by attending the Rothberg School of the Hebrew University of Jerusalem.

**Major Requirements**

The major requires a minimum of 82 credits, including at least 28 upper-division credits and two years of modern Hebrew.

**Course Requirements**

- **Lower Division**
  - 54 credits
  - First-Year Hebrew (HBRW 101, 102, 103) ........ 12
  - Introduction to the Study of the Bible (REL 111) .................................................... 4
  - Select two courses from Western Civilization (HIST 101, 102, 103), Introduction to the Humanities I,II,III (HUM 101, 102, 103), Philosophical Problems (PHIL 101), History of Western Art I,II,III (ARH 204, 205, 206), Great Religions of the World (REL 201, 202) .......... 8
  - Foundations of Judaic Thought (JDST 201) ........ 4
  - Foundations of Judaic History (JDST 202) ....... 4
  - Foundations of Judaic Culture (JDST 203) .......... 4

- **Upper Division**
  - 28 credits
  - Five courses. At least three must be approved “topics in Judaic studies” courses offered by at least two other departments. Two of these courses may be approved discipline-based courses .................................................. 20
  - Judaic Studies Capstone (JDST 414) ............ 4
  - Senior Project (JDST 415) ........................ 4

**Minor Requirements**

The minor in Judaic studies requires 32 credits, including 20 upper-division credits.

Students are encouraged to establish a broad context for the Judaic studies minor by taking courses in some area of Western history and culture—e.g., Western Civilization (HIST 101, 102, 103) or courses in religious studies, art history, philosophy, or a combination thereof.

**Course Requirements**

- **Lower Division**
  - 12 credits
  - Foundations of Judaic Thought (JDST 201) ...... 4
  - Foundations of Judaic History (JDST 202) ....... 4
  - Foundations of Judaic Culture (JDST 203) .......... 4

- **Upper Division**
  - 20 credits
  - Five courses. At least three must be approved “topics in Judaic studies” courses offered by at least two other departments. Two of these courses may be approved discipline-based courses .................................................. 20

**Judaic Studies Courses (JDST)**

- 199 Special Studies: [Topic] (1–12R)
- 201 Foundations of Judaic Thought (4)
  - Fundamental ideas and texts of Judaic intellectual tradition: monotheism, covenant, law, prophetic vision, mysticism, ethics.
- 202 Foundations of Judaic History (4)
  - Survey of Judaic history, from ancient Hebrews to the 20th century.
- 203 Foundations of Judaic Culture (4)
  - Survey of Judaic cultural traditions in literature, art, architecture, and music.

Mónica Szurmuk, Romance languages
Stephanie Wood, history
Phil D. Young, anthropology

**About the Program**

The University of Oregon offers undergraduate and graduate programs of concentration in Latin American studies under the auspices of the interdisciplinary Committee on Latin American Studies. A minor in Latin American studies is available. An emphasis on Latin America is available for master of arts (M.A.) degrees with majors in anthropology, history, international studies, and Spanish. See the Anthropology, History, International Studies, and Romance Languages sections of this catalog.

**Study Abroad**

See index entries in this catalog under “Overseas study.”
Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

Undergraduate Studies

Preparation. High school students who have taken courses in political science, economics, history, or other approaches to international affairs, or who have participated in extracurricular activities (such as the Oregon High School International Relations League) may well be interested in Latin American studies.

Community college students who have taken courses in international relations may be interested in specializing in Latin American studies.

Careers. Career opportunities for students completing Latin American studies are available through such avenues as the Peace Corps, the United States Foreign Service (including U.S. Information Agency), the foreign aid programs of the United States government, the United Nations and other international organizations, private foundations, international businesses, and international nongovernmental organizations (including church, human-rights, and environmental organizations).

Minor Requirements

Students who want to earn a minor in Latin American studies must satisfy the following requirements.

Language Requirement

Students must satisfactorily complete, with grades of P or C– or better, two years of college-level Spanish- or Portuguese-language courses. The University of Oregon does not offer Portuguese.

Language credits may be earned at the University of Oregon or on an approved overseas program, or transferred from another accredited college or university. Alternatively, students may satisfy the language requirement by examination, demonstrating a level of competence equivalent to two years of college Spanish or Portuguese.

Students whose native language is either Spanish or Portuguese may substitute equivalent competence in English in lieu of this requirement.

Credit Requirement

In addition to the language requirement, students must satisfactorily complete, with grades of P or C– or better, 28 credits of course work in Latin American studies. Latin American courses are, generally, those with a minimum of 50 percent content related to Latin America.

Of these 28 credits:

- A minimum of 20 credits must be earned in University of Oregon courses; the other 8 credits may be earned through successful completion of preapproved courses in an approved overseas program at an accredited Latin American college or university. Transfer credits from universities outside Latin America are considered individually, following existing procedures in appropriate departments for determining their equivalence to UO courses.

- A minimum of 16 credits must be in upper-division (300- or 400-level) courses

- A minimum of 20 credits must be taken for letter grades

- A minimum of 4 credits must be earned through successful completion of a course or courses whose focus is on pre-20th-century Latin America

- A maximum of 8 credits can be in comparative, global, ethnic, and similar courses that are relevant to Latin American studies but lack a minimum of 50 percent content directly related to Latin America

- No more than 12 credits from any single department can count toward the minor

- Courses from no more than four departments, disciplines, or programs can count toward the minor

Advising

Students who want a minor in Latin American studies should frequently consult a Latin American studies adviser to determine which courses offered during any given academic year may be applied to requirements for the minor.

In Spanish, only upper-division literature and culture courses count toward satisfaction of the 28-credit requirement. Below is a representative sample—not a comprehensive list—of regularly offered courses.

Sample Courses that Satisfy Minor Requirements

<table>
<thead>
<tr>
<th>Course Name</th>
<th>Department</th>
</tr>
</thead>
<tbody>
<tr>
<td>Political Science (PS 255)</td>
<td></td>
</tr>
<tr>
<td>Government and Politics of Latin America (PS 463, 464)</td>
<td></td>
</tr>
<tr>
<td>Spanish: Survey of Spanish American Literature (SPAN 318, 319)</td>
<td></td>
</tr>
<tr>
<td>Hispanic Literature in the United States (SPAN 328)</td>
<td></td>
</tr>
<tr>
<td>Colonial Latin American Literature (SPAN 450)</td>
<td></td>
</tr>
<tr>
<td>20th-Century Latin American Literature (SPAN 490)</td>
<td></td>
</tr>
</tbody>
</table>

In addition, many departments and programs periodically offer courses that might satisfy minor requirements. Among these departments and programs are art history, ethnic studies, geography, international studies, sociology, and women’s studies.

Individual departments or programs may allow courses counted toward the minor in Latin American studies to count also toward the disciplinary major. Students should inquire at their major departments about this.

Graduate Studies

Specialization in Latin American studies at the graduate level is possible in a number of departments in the College of Arts and Sciences. Anthropology, economics, history, international studies, political science, sociology, and Spanish (in the Romance languages department) have faculty members who are competent and interested in the area. It is possible to arrange graduate degree programs in these departments with a concentration in Latin American studies.

Linguistics

Theodore Stern, anthropology
Philip D. Young, anthropology
About the Department

The Department of Linguistics offers instruction in linguistics leading to a bachelor of arts (B.A.), a master of arts (M.A.), and a doctor of philosophy (Ph.D.) degree in linguistics with interdisciplinary emphasis.

Undergraduate Studies

The program offers instruction in the nature of human language, the structural variety of individual languages, and the methodology of conducting a linguistic investigation. The primary aim of linguistics as a science is to study the use and organization of human language in coding and communicating knowledge. Although linguists may study specific facts of many languages, they do so to gain insight into the properties and processes common to all languages. Such common features may in turn reflect universals of human cognitive, cultural, and social organization.

Language occupies a central position in the human universe, so much so that it is often cited as a major criterion for defining humanity. Its use in the coding and processing of knowledge makes it relevant to psychology. As a tool of reasoning, it verges on logic and philosophy. As a computational system, it relates to computer science and language-data processing. As a repository of one's cultural world view, it is a part of anthropology. As an instrument of social intercourse and a mark of social identity, it intersects with sociology. As a biological subsystem lodged in the brain, it is highly relevant to neurology. As the primary vehicle of learning and maturation, it is important for education. As an expressive medium, it is the crux of literature and rhetoric.

Careers. To gain understanding into the complexities of human language is thus to gain entrance into numerous fields of academic investigation and practical use. Indeed, computer programmers, conflict mediators, cryptologists, elementary school teachers, language teachers, lawyers, psychiatrists, speech therapists, and translators all depend heavily on understanding language. Psychologists and sociologists also profit from a knowledge of human language.

The B.A. degree in linguistics provides a solid foundation for graduate study in anthropology, communication, communication disorders and sciences, computer-science education, journalism, linguistics, literature and languages, philosophy, psychology, or sociology. It is also a strong entry point into the practical applied fields listed above.

Advising. Undergraduate students in linguistics consult the departmental undergraduate adviser each term about their study program.

Major Requirements

1. Two years of one second language and one year of another
2. The following courses: 32 credits
   - Introduction to Linguistic Analysis (LING 290) 4
   - Analytical Methods in Morphology and Syntax (LING 351) 8
   - Phonetics (LING 411) 4
   - Introduction to Phonology (LING 490) 4
   - Syntax and Semantics I,II (LING 451, 452) 8
   - Historical and Comparative Linguistics (LING 460) 8
   - Sociolinguistics (LING 490) 4
3. At least 12 additional credits selected either from linguistics courses or from courses in other departments listed as relevant to linguistics. At least 6 of these must be upper-division credits, including at least one undergraduate Seminar (LING 407)
4. Courses applied to the major in linguistics must be taken for letter grades. A course in which a grade of D+ or lower is earned cannot count toward the major
5. The study program of linguistics undergraduate majors must be approved by the departmental undergraduate adviser

Honors in Linguistics

By fulfilling the following requirements, any linguistics major may graduate with honors.

Grade Point Average. On entry to the honors program at the end of the junior year, have a grade point average (GPA) of 3.75 or better in linguistics courses and at least 3.50 overall. At the end of the senior year, have a GPA of 3.75 or better in linguistics courses.

Senior Thesis. Write an original honors thesis under the guidance of a thesis adviser from the linguistics faculty, chosen in consultation with the undergraduate adviser. The thesis must be a substantial piece of work; it may be a revised and expanded version of a term paper. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 credits in Honors Thesis (LING 403), taken pass/no pass (PIN). Upon fulfilling these requirements, the candidate is approved to receive a B.A. degree with honors in linguistics.

Minor Requirements

The Department of Linguistics offers a minor in linguistics that gives the student a grounding in the basics of linguistic analysis and the opportunity to pursue areas of special interest. The minor in linguistics requires a minimum of 28 credits in linguistics courses. Under special circumstances substitution of the minor in linguistics courses for specific courses in other departments may be possible. Students should obtain permission from the undergraduate adviser to pursue an alternative program of study.

Minor Requirements 28 credits

- Introduction to Linguistic Analysis (LING 290) 4
- Two courses chosen from Languages of the World (LING 211), Language, Culture, and Society (LING 295), Language and Cognition (LING 396) 8
- Phonetics (LING 411) 4
- Introduction to Phonology (LING 490) 4
- Syntax and Semantics I,II (LING 451, 452) 8

Certificate in Second-Language Acquisition and Teaching

In collaboration with several UO departments, the Department of Linguistics offers an undergraduate certificate that focuses on the theory of second-language acquisition and teaching and its application in pedagogical settings. The certificate is designed to complement any other major.

To earn a certificate, the student must complete an approved set of courses in consultation with the certificate adviser, including 12 approved credits in second-language acquisition theory and methodology, 8 to 15 approved credits in linguistic description of a target language; 3 to 4 credits in practicum, internship, or supervised tutoring; and college-level second-language study (two years of a second language if the certificate target language is English; three years if the target language is Japanese, French, Spanish, or Russian).

Foreign-Language Teaching

Second-Language Acquisition (LING 444/544) and Second-Language Teaching (LING 445/545) can be incorporated into a foreign-language teacher education program. Students who take either course for this purpose must complete their field research in the targeted language.

Graduate Studies

Solid preparation in linguistics is indispensable to any specialization at the graduate level, applied or theoretical. Although the faculty and courses deal with a variety of linguistic topics, three facets of linguistics are strongly emphasized in the graduate program:
1. A functional approach to the study of language structure, acquisition, and use
2. An empirical, live-data, fieldwork, experimental, and cross-linguistic approach to the methodology of linguistic research
3. Interdisciplinary emphasis on the place of human language in its wider natural context

Advising and Review Practices

Graduate students meet each term with the departmental graduate adviser. In addition, students are assigned a faculty member to advise them in the areas of their academic interest. The faculty reviews the performance of each graduate student at the end of each academic term. In case a student falls below what the faculty considers minimal standards of performance in the graduate program, a representative of the faculty notifies the student and suggests appropriate remedial steps.

Financial Aid

The department offers several graduate teaching fellowships (GTFs) in linguistics and at the American English Institute as well as a number of graduate research fellowships. Other types of support are occasionally available.

Certificate in Second-Language Acquisition and Teaching

Certificate is designed to complement any other major.

Degree Requirements

The 47-credit master’s degree requirements consist of 27 credits in core courses. No course with a grade lower than B– may be used to satisfy degree requirements.
Linguistics Theory: Syntax (LING 615) ........................ 4
Linguistic Theory: Semantics (LING 616) ................. 4

Electives. Students working toward an M.A. degree must take an additional 20 credits in graduate-level courses chosen from linguistics or other relevant, related disciplines. Students are encouraged to select electives in consultation with the department's graduate adviser and members of the linguistics department faculty.

Second-Language Requirement. Candidates for the M.A. must have completed two years of a second language during the previous seven years.

M.A. Thesis or Substitute. Students in good standing may form an M.A. committee consisting of two faculty members who indicate their agreement to serve by signing a standard form and who share equal responsibility for directing the thesis. For the M.A. to be granted, both members of the committee must approve the thesis and the main content of the thesis must be presented as a departmental colloquium.

Students who elect not to write a thesis or who are unsuccessful in forming the two-member thesis committee may complete the degree by taking an additional 8 credits of course work approved by the graduate adviser.

Doctor of Philosophy

The doctor of philosophy (Ph.D.) program in linguistics is individually tailored to meet the needs and professional goals of the student, drawing strong interdisciplinary support from related fields at the university. These fields may include—but are not limited to—animal communication, anthropological linguistics, applied linguistics, cognitive science, communication disorders and sciences, discourse and text analysis, English linguistics, first- and second-language acquisition, language-data processing, neurolinguistics, psycholinguistics, and sociolinguistics.

Admission Requirements. Applicants must have a baccalaureate degree in linguistics or related fields. Applicants without an M.A. may be admitted conditionally and must complete all prerequisite M.A.-level linguistics courses before they receive unconditional doctoral status. Each applicant is required to submit, along with the graduate application, a sample graduate research paper (or M.A. thesis) at least thirty pages in length.

Residency Requirement. The Graduate School requires at least three years of full-time work beyond the bachelor’s degree for the doctorate, with at least one year spent in continuous residence on the Eugene campus. The Department of Linguistics interprets the latter requirement to mean that at least six courses, including seminars, must be taken in the program while the student is in continuous residence for three academic terms.

Second-Language Requirement. Students in the Ph.D. program must demonstrate proficiency in two second languages, either by examination or through course work. These languages are typically Chinese, French, German, Japanese, Russian, or Spanish. A student may submit a petition to substitute another language for one of the above if the student's study program or other special circumstances justify such a substitution.

Required Courses. A student must complete at least 32 credits of graduate courses in linguistics or related fields approved by a doctoral adviser.

Courses applied to the M.A. degree cannot count toward Ph.D. course requirements. The 32-credit doctoral program must include (1) and either (2) or (3):
1. At least two seminars, one of which must be in syntax, semantics, or pragmatics
2. Field Methods I, II, III (LING 617, 618, 619) or
3. Applied and experimental linguistics sequence consisting of a course in statistics approved by the doctoral adviser, a cognitive science laboratory course, and Empirical Methods in Linguistics (LING 621)

Doctoral Adviser. The department head appoints a doctoral adviser for each student upon admission to the Ph.D. program.

Doctoral Examination. The doctoral examination consists of two publishable papers in different subfields of linguistics. An unmodified M.A. thesis cannot be used as one of these papers. A committee of three faculty members is appointed by the department head to referee each paper; the student's adviser sits on both committees. The committee functions much like a journal review: the adviser works with the student to prepare the paper, and the other two committee members give written comments as though they were reviewers. The student responds to the comments within one month. The paper is considered "publishable" once it is accepted by the committee and submitted to a refereed journal or other appropriate refereed publication.

Upon successful completion of two papers and other requirements, the student is advanced to candidacy.

Doctoral Dissertation. The Ph.D. is granted upon completion of the preceding requirements, writing an original dissertation acceptable to the doctoral committee, and passing an oral examination on the dissertation. A student may submit a petition to the department to waive the oral examination under special circumstances. The doctoral committee must include at least three linguistics faculty members, and it must be either chaired or co-chaired by the student's doctoral adviser in linguistics. The student must submit a dissertation prospectus in writing, and it must be approved by the doctoral committee before the student begins writing the dissertation.

American English Institute

The American English Institute provides English as a second language (ESL) instruction to non-native speakers of English. It offers teaching, training, and employment opportunities for graduate students in ESL methodology, second-language acquisition, and curriculum development as well as research opportunities in the acquisition and teaching of language and related fields. See also American English Institute in the Academic Resources section of this catalog.

Cognitive and Decision Sciences

Several linguistics faculty members are associated with the Institute of Cognitive and Decision Sciences. For more information, see that institute in the Research Institutes and Centers section of this catalog.

Neuroscience

See the Neuroscience section of this catalog for information about the study of neuroscience at the university.

Linguistics Courses (LING)

101 Introduction to Language (4) Nontechnical introduction to language. Issues of general concern such as language attitudes; language and legislation, nationalism, gender, language learning; and human language versus animal communication.

150 Structure of English Words (4) Word structure and derivation in English Greek and Latin, derived vocabulary; Germanic and Romance-deriven derivational rules. Understanding the dynamic structure of the English lexicon, prefixes, suffixes, and morphology.

196 Field Studies: [Topic] (1–2R)
198 Workshop: [Topic] (1–2R)

211 Languages of the World (4) Survey of the variability and distribution of the languages of the world in terms of linguistic typology, genetic relationships, and geographic location.

290 Introduction to Linguistic Analysis (4) Study of human language and linguistics as a scientific and humanistic discipline. Basic concepts of the lexicon, phonology, syntax, semantics, and language change.

295 Language, Culture, and Society (4) Ways in which language reflects culture and in turn determines cultural world view, interaction between language and social structure, social relations and interpersonal communication.

351 Analytical Methods in Morphology and Syntax (4) Methods of determining the morphological and syntactic patterns of natural language data. Prereq: LING 290.

396 Language and Cognition (4) How human thought is coded by language. Topics include meaning, categorization, linguistic units and speech behavior, language use and memory.

399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–21R) Individual research supervised by a faculty member. Prereq: instructor's consent.
403 Honors Thesis (1–21R)
405 Reading and Conference: [Topic] (1–21R) Individual reading and bibliographic work supervised by a faculty member. Prereq: instructor's consent.

406 Field Studies: [Topic] (1–21R)
407/507 Seminar: [Topic] (1–5R) Topics include history of linguistics, language contact, morphology, discourse pragmatics, conversational analysis, acoustic phonetics, psycholinguistics, language acquisition, applied linguistics.

408/508 Workshop: [Topic] (1–21R)
409 Supervised Tutoring (1–21R)
410/510 Experimental Course: [Topic] (1–5R)
Recent topics are Classical Tibetan, English Phonetics and Phonology, First-Language Acquisition, Old Irish.

411/511 Phonetics (4) The articulatory and acoustic properties of the classification of speech sounds; relevance of this phonetic base to phonological analysis. Pre- or coreq: LING 290.

422/522 Language Planning and Policy (3)
Basic concepts including political, economic, and sociolinguistic factors in language planning and policy. Official, standard, symbolic language roles, language maintenance and development, development of orthographies and dictionaries. Prereq: LING 451/551.

490/590 Sociolinguistics (4) Language in relation to social and interpersonal interaction. Topics may include dialect geography, social and ethnic dialects, language contact, bilingualism and multilingualism, pidgins and creoles, or conversational analysis. Prereq: LING 450/550.

503 Thesis (1–16R) Individual research on M.A. thesis supervised by a faculty member. Prereq: instructor’s consent.

601 Research: [Topic] (1–16R) Individual research on a specific topic supervised by a faculty member. Prereq: instructor’s consent.

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R) Individual work on Ph.D. dissertation supervised by a faculty member.

605 Reading and Conference: [Topic] (1–16R) Individual reading and bibliographic work supervised by a faculty member. Prereq: instructor’s consent.

606 Field Studies: [Topic] (1–16R)

609 Teaching English as a Second Language Practicum: [Topic] (3) Supervised practicum in teaching English as a second language to adults or to children. Prereq: LING 444/544, 445/545.

610 Experimental Course: [Topic] (1–5R)

615 Linguistic Theory: Syntax (4) Issues in syntactic theory. Topics may include universals of semantic, pragmatic, and discourse function and their relation to syntax, syntactic typology and universals, formal models in syntactic description. Prereq: LING 452/552.

616 Linguistic Theory: Semantics (4) Detailed investigation of issues in semantic and pragmatic theory. Topics may include universals of lexical semantics and discourse pragmatics and their interaction. Prereq: LING 452/552.

617, 618, 619 Field Methods LII, III (5,5,5) Supervised linguistics fieldwork with language informants, both in and out of class. Application of language universals to the elicitation, analysis, and evaluation of data from particular languages; the writing of phonological, lexical, and grammatical descriptions; sentence versus text elicitation. Sequence. Prereq: LING 450/550, 452/552. Not offered 2001–2.

621 Empirical Methods in Linguistics (4)
Empirical quantified methods of data collection and analysis; statistical evaluation of results. Data derived from discourse, conversation, psycholinguistics, first- and second-language acquisition, speech pathology, speech and writing deficiencies. Prereq: LING 450/550, 452/552 or instructor’s consent.

644 Advanced Second-Language Acquisition (4) Characterization of major theoretical frameworks from which to view second language acquisition issues and research paradigms associated with each framework: universal grammar, sociolinguistic, psycholinguistic. Prereq: LING 444/544.

645 Advanced Second-Language Teaching (4) Current issues in and research on theory and practice. Topics may include curriculum development, classroom research, testing, communicative language learning, learner-centered approaches to teaching. Prereq: LING 445/545.

660 Historical Syntax (4) Topics in the study of syntactic change. Prereq: LING 452/552, LING 460/560 or equivalent.

Academic English for International Students Courses (AEIS)

81 English Pronunciation for International Students (2) Practice in the pronunciation of English; diagnosis of pronunciation problems; practice in accurately producing English sounds, sound sequences, stress, and intonation.

105 Producing Oral Academic Discourse (4) Covers conventions of oral academic discourse including negotiating meaning, information gathering, reporting, and small-group interaction. Prereq: TOEFL score of 500–574, English-proficiency examination administered by UO Testing Office.

107 Comprehending Written Academic Text (4) Provides interactive reading model for effective processing of academic texts. Emphasizes development of critical reading skills, use of content schemata, and the role of context in resolving ambiguity. Prereq: TOEFL score of 500–574, English-proficiency examination administered by UO Testing Office.

110 Written Discourse I (4) Introduces conventions of expository essay writing. Emphasizes clear, effective written communication and development of editing skills. Covers grammar in context. Prereq: TOEFL score of 500–574, English-proficiency examination administered by UO Testing Office.
Thai Courses (THAI)

112 Written Discourse II (4) Intermediate writing for nonnative speakers of English. Critical analysis of literary readings leading to summary, paraphrase, essay-examination responses, and expository essays. Prereq. TOEFL score of 500-574, AEIS 110 or English-proiciency examination administered by UO Testing Office.

12 Written Discourse III (4) Advanced writing for nonnative speakers of English. Critical reading of academic texts for response in various academic modes: reporting research, critical analysis, and argumentation. Prereq. TOEFL score of 500-574, AEIS 111 or English-proficiency examination administered by UO Testing Office.

Indonesian Courses (INDO)

101, 102, 103 First-Year Indonesian (5,5,5) Not offered 2001–2.
301, 302, 303 Third-Year Indonesian (3,3,3) Not offered 2001–2.

Thai Courses (THAI)

101, 102, 103 First-Year Thai (5,5,5) Not offered 2001–2.
301, 302, 303 Third-Year Thai (3,3,3) Not offered 2001–2.

Vietnamese Courses (VIET)

101, 102, 103 First-Year Vietnamese (5,5,5) Not offered 2001–2.

Faculty

Emeriti

Fred C. Andrews, professor emeritus. B.S., 1946, M.S., 1948, Washington (Seattle); Ph.D., 1953, California, Berkeley. (1957)
Mathematics Library. The Hilbert Space, the beginning of fall term.

The department offers two calculus sequences. Calculus II, III (MATH 251, 252, 253) is the standard sequence recommended to most students in the physical sciences and mathematics. Calculus for Business and Social Science II (MATH 241, 242) and Introduction to Methods of Probability and Statistics (MATH 243) are designed to serve the mathematical needs of students in the business, managerial, and social sciences. The choice between these two sequences is an important one; choosing MATH 241, 242, 243 effectively closes the door to most advanced mathematics courses. Students need to consult an adviser in mathematics or their major field about which sequence to take.

Mathematics majors usually take calculus in the freshman year. It is useful to complete the mathematical structures requirement as well during that year, because these courses show another side of mathematics.

In the sophomore year, majors often take MATH 256, 281, 282, or MATH 315, 341, 342. Usually students interested in a physical science take the first sequence, while students in pure mathematics or in computer and information science find the second more appropriate. The sequences can be taken simultaneously, but it is possible to graduate in four years without taking both at once.

In the junior and senior years, students often take two mathematics courses a term, finishing MATH 256, 281, 282 or MATH 315, 341, 342 and completing the four required upper-division courses.

Major Requirements

The department offers undergraduate preparation for positions in government, business, and industry and for graduate work in mathematics and statistics. Each student’s major program is individually constructed in consultation with an adviser.

Upper-division courses used to satisfy major requirements must be taken for letter grades, and only one D grade (D+ or D or D-) may be counted toward the upper-division requirement. At least 12 credits in upper-division mathematics courses must be taken in residence at the university.

The following upper-division mathematics courses cannot be used to satisfy requirements for a mathematics major: Statistical Methods II (MATH 425, 426), Multivariate Statistical Methods (MATH 427).

To qualify for a bachelor’s degree with a major in mathematics, a student must satisfy the mathematical structures requirement and the requirements for one of the options listed below.

Mathematical Structures Requirement. Majors must take a course that focuses on mathematical structures. Students can satisfy this requirement by taking Elementary Theory of Groups I (MATH 231), a prerequisite for many computer and information science courses. Students may also meet this requirement by taking one of the following courses: Fundamentals of Abstract Algebra I (MATH 391), Introduction to Analysis I (MATH 413), Introduction to Topology (MATH 431), Linear Algebra (MATH 441), Introduction to Abstract Algebra I (MATH 444).

Option One: Applied Mathematics. Introduction to Differential Equations (MATH 256), Several-Variable Calculus II (MATH 281, 282), Elementary Analysis (MATH 315), Elementary Linear Algebra (MATH 341, 342), and four courses selected from: Elementary Numerical Analysis II, I (MATH 351, 352), Functions of a Complex Variable II (MATH 411, 412), Differential Equations II (MATH 420, 421). Fourier Series and Orthogonal Functions (MATH 422), Fourier and Laplace Integrals (MATH 423), Introduction to Numerical Analysis II, III (MATH 451, 452, 453), Mathematical Modeling (MATH 435), Networks and Combinatorics (MATH 456), Discrete Dynamical Systems (MATH 457), Introduction to Mathematical Methods of Statistics III, II (MATH 461, 462), Mathematical Methods of Regression Analysis and Analysis of Variance (MATH 463).
Option Two: Pure Mathematics. Introduction to Differential Equations (MATH 256), Several-Variable Calculus III (MATH 281, 282), Elementary Analysis (MATH 315), Elementary Linear Algebra (MATH 341, 342), and four courses selected from: Fundamentals of Abstract Algebra I,II,III (MATH 391, 392, 393), Geometries from an Advanced Viewpoint II (MATH 394, 395), Introduction to Analysis II,III (MATH 413, 414, 415), Introduction to Topology (MATH 431, 432), Introduction to Differential Geometry (MATH 433), Linear Algebra (MATH 441), Introduction to Abstract Algebra I,II,III (MATH 444, 445, 446), Mathematical Statistics I,II,III (MATH 464, 465, 466)

Option Three: Secondary Teaching. Elementary Analysis (MATH 315), Number Theory (MATH 346), Elementary Linear Algebra (MATH 341), Fundamentals of Abstract Algebra I,II,III (MATH 391, 392, 393), Geometries from an Advanced Viewpoint II (MATH 394, 395), Introduction to Mathematical Methods of Statistics I (MATH 461), and Problem Solving in Pascal (CIS 134) or another programming course approved by an adviser

Option Four: Design-Your-Own. Introduction to Differential Equations (MATH 256), Several-Variable Calculus III (MATH 281, 282), Elementary Analysis (MATH 315), Elementary Linear Algebra (MATH 341, 342), and four courses chosen in consultation with an adviser from the lists of courses for the applied or pure mathematics options above.

It is important to get approval in advance; the four elective courses cannot be chosen arbitrarily. In some cases, upper-division courses can be substituted for the lower-division courses listed in the first sentence of this option.

Students are encouraged to explore the design-your-own option with an adviser. For example, physics majors typically fulfill the applied option. But physics students interested in the modern theory of elementary particles should construct an individualized program that includes abstract algebra and group theory. Another example: economics majors typically take statistics and other courses in the applied option. But students who plan to do graduate study in economics should consider the analysis sequence (MATH 413, 414, 415) and construct an individualized program that contains it.

Mathematics and Computer Science

The Department of Mathematics and the Department of Computer and Information Science jointly offer an undergraduate major in mathematics and computer science, leading to a bachelor of arts or a bachelor of science degree. This program is described in the Mathematics and Computer Science section of this catalog.

Mathematics Courses Recommended for Other Areas

Students with an undergraduate mathematics degree often change fields when enrolling in graduate school. Common choices for a graduate career include computer science, economics, engineering, law, medicine, and physics. It is not unusual for a mathematics major to complete a second major as well. The following mathematics courses are recommended for students interested in other areas:

Actuarial Science. Elementary Numerical Analysis II (MATH 351, 352) or Introduction to Numerical Analysis I,II,III (MATH 451, 452, 453); Introduction to Mathematical Methods of Statistics I,II,III (MATH 461, 462) and Mathematical Methods of Regression Analysis and Analysis of Variance (MATH 463) or Mathematical Statistics I,II,III (MATH 464, 465, 466). Courses in computer science, accounting, and economics are also recommended. It is possible to take the first few actuarial examinations (on calculus, statistics, and numerical analysis) as an undergraduate student.

Computer and Information Science. Elements of Discrete Mathematics I,II (MATH 231, 232, 233); Elementary Numerical Analysis II (MATH 351, 352) or Introduction to Numerical Analysis I,II,III (MATH 451, 452, 453) or Introduction to Mathematical Methods of Statistics I,II,III (MATH 461, 462); Networks and Combinatorics (MATH 456)

Physical Sciences and Engineering. Functions of a Complex Variable I,II (MATH 411, 412), Differential Equations I,II (MATH 420, 421), Fourier Series and Orthogonal Functions (MATH 422), Fourier and Laplace Integrals (MATH 423)

Honors Program

Students preparing to graduate with honors in mathematics should notify the department's honors adviser no later than the first term of their senior year. They must complete two of the following four sets of courses with at least a mid-B average (3.00 grade point average): MATH 413, 414, 415; MATH 441, 445; MATH 446; MATH 461, 462, or MATH 464, 465. They must also write a thesis covering advanced topics assigned by their adviser. The degree with department honors is awarded to students whose work is judged truly exceptional.

Minor Requirements

The minor program is intended for any student, regardless of major, with a strong interest in mathematics. While students in such closely allied fields as computer and information science or physics often complete double majors, students with more distantly related majors such as psychology or history may find the minor useful. To earn a minor in mathematics, a student must complete at least 30 credits in mathematics at the 200 level or higher, with at least 15 upper-division mathematics credits; MATH 425, 426, 427 cannot be used. A minimum of 15 credits must be taken at the University of Oregon. Only one D grade (D+ or D or may be counted toward fulfilling the upper-division requirement. All upper-division courses must be taken for letter grades. A final written or oral examination or both is required for master's degrees except under the pre-Ph.D. option outlined below. This examination is waived under circumstances outlined in the departmental Graduate Student Handbook.

Minor Requirements

The minor program is intended for any student, regardless of major, with a strong interest in mathematics. While students in such closely allied fields as computer and information science or physics often complete double majors, students with more distantly related majors such as psychology or history may find the minor useful. To earn a minor in mathematics, a student must complete at least 30 credits in mathematics at the 200 level or higher, with at least 15 upper-division mathematics credits; MATH 425, 426, 427 cannot be used. A minimum of 15 credits must be taken at the University of Oregon. Only one D grade (D+ or D or may be counted toward fulfilling the upper-division requirement. All upper-division courses must be taken for letter grades. The flexibility of the mathematics minor program allows each student, in consultation with a mathematics adviser, to tailor the program to his or her needs.

Middle and Secondary School Teaching

The College of Education offers a five-year program for middle-secondary teaching licensure in mathematics. This program is described in the College of Education section of this catalog.

Graduate Studies

The university offers graduate study in mathematics leading to the master of arts (M.A.), master of science (M.S.), and doctor of philosophy (Ph.D.) degrees.

Master's degree programs are available to suit the needs of students with various objectives. There are programs for students who intend to enter a doctoral program and for those who plan to conclude their formal study of pure or applied mathematics at the master's level.

Admission depends on the student's academic record—both overall academic quality and adequate mathematical background for the applicant's proposed degree program. Application forms for admission to the Graduate School must be submitted to the head of the Department of Mathematics. Prospective applicants should note the general university requirements for graduate admission that appear in the Graduate School section of this catalog.

Transcripts from all undergraduate and graduate institutions attended and copies of Graduate Record Examinations (GRE) scores in the verbal, quantitative, and mathematics tests should be submitted to the department.

In addition to general Graduate School requirements, the specific graduate program courses and conditions listed below must be fulfilled. More details can be found in the Department of Mathematics Graduate Student Handbook, available in the department office. All mathematics courses applied to degree requirements, including associate reading courses, must be taken for letter grades. A final written or oral examination or both is required for master's degrees except under the pre-Ph.D. option outlined below. This examination is waived under circumstances outlined in the departmental Graduate Student Handbook.

Master's Degree Programs

Pre-Ph.D. Master's Degree Program. Of the required 45 credits, at least 18 must be in 600-level mathematics courses; at most, 15 may be in graduate-level courses other than mathematics.

Students must complete two 600-level sequences acceptable for the qualifying examinations in the Ph.D. program. In addition, they must complete one other 600-level sequence or a combination of three terms of 600-level courses approved by the master's degree subcommittee of the graduate affairs committee.

Master's Degree Program. Of the required 45 credits, at least 9 must be in 600-level mathematics courses, excluding MATH 605; at most, 15 may be in graduate-level courses other than mathematics.

Students must take a minimum of two of the following sequences and one 600-level sequence, or two 600-level sequences and one of the following: MATH 513, 514, 515; MATH 531, 532, 533; MATH 544, 545, 546; MATH 551, 552, 553; MATH 564, 565, 566.
Students should also have taken a three-term upper-division or graduate sequence in statistics, numerical analysis, computing, or other applied mathematics.

**Doctor of Philosophy**

The Ph.D. is a degree of quality not to be conferred in routine fashion after completion of a specific number of courses or after attendance in Graduate School for a given number of years. The department offers programs leading to the Ph.D. degree in the areas of algebra, analysis, applied mathematics, combinatorics, geometry, mathematical physics, numerical analysis, probability, statistics, and topology. Advanced graduate courses in these areas are typically offered in Seminar (MATH 607). Each student, upon entering the graduate degree program in mathematics, reviews previous studies and objectives with the graduate advising committee. Based on this consultation, conditional admission to the master’s degree program or the pre-Ph.D. program is granted. A student in the pre-Ph.D. program may also be a candidate for the master’s degree.

**Pre-Ph.D. Program.**

To be admitted to the pre-Ph.D. program, an entering graduate student must have completed a course of study equivalent to the graduate preparatory bachelor’s degree program described above. Other students are placed in the master’s degree program and may apply for admission to the pre-Ph.D. program following a year of graduate study. Students in the pre-Ph.D. program must take the qualifying examination at the beginning of their second year during the week before classes begin fall term. It consists of examinations on two basic 600-level graduate courses, one each from two of the following three categories: (1) algebra; (2) analysis; (3) numerical analysis, probability, statistics, topology, or geometry.

**Ph.D. Program.**

Admission to the Ph.D. program is based on the following criteria: satisfactory performance on the qualifying examination, completion of three courses at a level commensurate with study toward a Ph.D., and satisfactory performance in seminars or other courses taken as a part of the pre-Ph.D. or Ph.D. program. Students who are not admitted to the Ph.D. program because of unsatisfactory performance on the fall-term qualifying examination may retake the examination at the beginning of winter term.

A student in the Ph.D. program is advanced to candidacy after passing two language examinations and the comprehensive examination. To complete the requirements for the Ph.D., candidates must submit a dissertation containing substantial original work in mathematics. Requirements for final defense of the thesis are those of the Graduate School.

**Mathematics Courses (MATH)**

**Mathematics Courses (MATH)**

70 Elementary Algebra (4) Basics of algebra, including arithmetic of signed numbers, order of operations, arithmetic of polynomials, linear equations, word problems, factoring, graphing lines, exponents, radicals. Credit for enrollment (eligibility) but not toward graduation; satisfies no university or college requirement. Additional fee.

95 Intermediate Algebra (4) Topics include problem solving, linear equations, systems of equations, polynomials and factoring techniques, rational expressions, radicals and exponents, quadratic equations. Credit for enrollment (eligibility) but not toward graduation; satisfies no university or college requirement. Additional fee.

105 University Mathematics I (4) Variety of modern mathematical topics based on contemporary applications. Topics include networks with applications to planning and scheduling; linear programming; descriptive statistics, statistical inference. Prereq: MATH 95 or satisfactory placement test score.

106 University Mathematics II (4) Topics include decision-making with applications to voting and apportionment. Game theory: study of growth with applications to finance, biology, Patterns and symmetry. Prereq: MATH 105.

107 University Mathematics III (4) Non-technical introduction to basic concepts and applications of calculus through the use of geometrically presented functions. Applications include optimization and estimation in a variety of contexts. Prereq: MATH 105; 106 recommended.

111 College Algebra (4) Algebra needed for calculus including graph sketching, algebra of functions, polynomial functions, rational functions, exponential and logarithmic functions, linear and nonlinear functions. Prereq: MATH 95 or satisfactory placement test score; a programmable calculator capable of displaying function graphs.

112 Elementary Functions (4) Exponential, logarithmic, and trigonometric functions; mathematical induction. Intended as preparation for MATH 251. Prereq: MATH 111 or satisfactory placement test score; a programmable calculator capable of displaying function graphs.

185 Mathematical Tools (2) An introduction to mathematical computer software, using Mathematica. Applications to graphing, algebraic calculations, and mathematical problems from other fields. Prereq: MATH 112 or instructor’s consent.

199 Special Studies: [Topic] (1–5R)
427/527 Multivariate Statistical Methods (4) Multiple linear regression, analysis of variance, correlation techniques, applications to problems and data from various fields, use of statistical software. Prereq: MATH 426/526.

431/531, 432/532 Introduction to Topology (4,4) Elementary point-set topology with an introduction to combinatorial topology and homotopy. Sequence. Prereq: upper-division mathematics sequence or instructor's consent.

455/555 Mathematical Modeling (4) Introduction to discrete and continuous models for various problems arising in the application of mathematics to other disciplines, e.g., biological and social sciences. Prereq: MATH 241. MATH 256 recommended.

456/556 Networks and Combinatorics (4) Fundamentals of modern combinatorics; graph theory; networks; trees; enumeration, generating functions, recursion, inclusion and exclusion; ordered sets, lattices, Boolean algebras. Prereq: MATH 231 or 346.

457/557 Discrete Dynamical Systems (4) Linear and nonlinear first-order dynamical systems; equilibrium, cobwebs, Newton's method. Bifurcation and chaos. Introduction to higher-order systems. Applications to economics, genetics, ecology. Prereq: MATH 256 or instructor's consent.

461/561, 462/562 Introduction to Mathematical Methods of Statistics I,II (4,4) Discrete and continuous probability models; useful distributions; applications of moment-generating functions; sample theory with applications to tests of hypotheses, point and confidence interval estimation; Neyman-Pearson theory and likelihood tests; sufficiency and exponential families; linear regression and analysis of variance. Sequence. Prereq: MATH 282, 341, 342.

503 Thesis (1-12R)

601 Research: [Topic] (1-9R)

602 Supervised College Teaching (1-16R)

603 Dissertation (1-16R)

605 Reading and Conference: [Topic] (1-5R)

616, 617, 618 Real Analysis (4-5,4-5,4-5) Measure and integration theory, differentiation, and functional analysis with point-set topology as needed. Sequence.

619 Complex Analysis (4-5) The theory of Cauchy, power series, contour integration, entire functions, and related topics.

634, 635, 636 Algebraic Topology (4-5,4-5,4-5) Development of homotopy, homology, and cohomology with point-set topology as needed. Sequence.

637, 638, 639 Differential Geometry (4-5,4-5,4-5) Topics include curvature and torsion, Serret-Frenet formulas, theory of surfaces, differentiable manifolds, tensors, forms and integration. Sequence.

647, 648, 649 Abstract Algebra (4-5,4-5,4-5) Group theory, fields, Galois theory, algebraic numbers, matrices, rings, algebras. Sequence.

671, 672, 673 Theory of Probability (4-5,4-5,4-5) Measure and probability spaces, laws of large numbers, central-limit theory, conditioning, martingales, random walks. Sequence.

681, 682, 683 Advanced Topics in Algebra: [Topic] (4-5,4-5,4-5) Topics selected from theory of finite groups, representations of finite groups, Lie groups, Lie algebras, algebraic groups, ring theory, algebraic number theory.

684, 685, 686 Advanced Topics in Analysis: [Topic] (4-5,4-5,4-5) Topics selected from Banach algebras, operator theory, functional analysis, harmonic analysis on topological groups, theory of distributions.

688, 699 Advanced Topics in Differential Equations and Mathematical Physics: [Topic] (4-5,4-5,4-5) Topics selected from the theory of ordinary and partial differential equations; boundary-value problems; elliptic, parabolic, and hyperbolic systems; inverse problems; general relativity and Yang-Mills theory; fluids; quantum field theory.

690, 691, 692 Advanced Topics in Geometry and Topology: [Topic] (4-5,4-5,4-5) Topics selected from classical and local differential geometry; symmetric spaces; low-dimensional topology; differential topology; global analysis; homology, cohomology, and homotopy; differential analysis and singularity theory; knot theory.
Mathematics and Computer Science

Richard M. Koch and Eugene M. Luks, Advisers

General Information

The undergraduate major in mathematics and computer science leads to a bachelor of arts or bachelor of science degree. The major combines elements of the mathematics and computer science curricula into a four-year program that offers an alternative to the undergraduate degree programs in either field. It serves students who want knowledge in both fields but who are not ready to specialize in either. The courses selected for the program provide a solid foundation for professional work or for advanced study without overspecialization in either subject.

The program is designed to develop team players for information-based occupations. Its graduates have the tools to analyze complex problems and to compute the answers to them. Consistent with its emphasis on teamwork and communication, the program requires college-level exposure to an additional scientific field and an upper-division writing course.

Students with strong mathematics backgrounds in high school are frequently advised to major in computer science at the university, often without a clear idea of what the field of study is actually like. The joint major program offers such students the chance to experiment with computer science while retaining the anchor to mathematics. It also allows students the possibility of changing easily to the single-major program in either mathematics or CIS with no loss of credit and, at least through the junior year, without jeopardizing degree completion in four years.

Careers

Graduates with this major can enter industrial positions that require computer science skills and mathematical problem-solving ability. They are particularly well suited for positions in the high-performance computing industry, developing the software tools for large-scale scientific computation. The combination of mathematics and computer science forms an excellent professional background for secondary-school mathematics teachers, and the major program also provides a solid foundation for actuarial, financial, and related professions. Graduates are also prepared to enter advanced programs of study in either mathematics or computer science, or in applied areas such as biological computational science.

Preparation

A high school student planning to major in mathematics and computer science should pursue a strong academic program with four years of mathematics, including a year of mathematics as a senior. Courses in algebra, geometry, trigonometry, and more advanced topics should be included. Experience preparing substantial written reports is highly desirable.

Transfer Students. College transfer students who have completed a year of calculus should be able to fit the remaining mathematics courses for the degree into just two years, provided that they have already completed the bulk of their general education requirements before they transfer.

Transfer students should call or write to the Department of Computer and Information Science to determine whether computer courses they have taken can be counted toward the joint major requirements. Sequential subjects such as mathematics and computer science typically require several years to progress from introductory to senior-level courses. The joint program lets students move forward in both fields at once with limited prerequisites, making it relatively accessible both to transfer students and to students who want to change from other major programs. Students who want to pursue the material in greater depth, however, need to consider prerequisite paths carefully.

Facilities and Facilities

The facilities and faculty in both the mathematics and the computer and information science departments are available to students in the combined major program. For detailed descriptions, see those sections of this catalog. Information is also available on the World Wide Web.

Admission to Major

Students who declare a mathematics and computer science major fall 2001 or after are classified as premajors and must formally apply for admission to the major after completion of premajor core courses:

- Elements of Discrete Mathematics I, II (MATH 231, 232)
- Calculus II, III (MATH 251, 252, 253)
- Computer Science I, II, III (CIS 210, 211, 212)

A minimum GPA of 2.60 in these eight courses is required for admission to the major. Each course must be completed with grades of C– or better. Each course may be retaken once, but the GPA is computed from all earned grades.

Transfer students who have completed the equivalent of the premajor core at another institution and satisfied the minimum GPA and grade requirements are provisionally admitted to the major. Full admission is granted after completion of two additional upper-division courses that are required for the major, with a GPA of 2.60 or better. These courses are selected in consultation with a mathematics and computer science adviser.

Major Requirements

The specific requirements for the joint major fall into four categories: mathematics, computer and information science, writing, and science.

Courses in Mathematics

Premajor Core Courses

Calculus I, II, III (MATH 251, 252, 253)

Elements of Discrete Mathematics I, II (MATH 231, 232)

Upper-Division Courses

Elementary Analysis (MATH 315)

Elementary Linear Algebra (MATH 341, 342)

Elementary Numerical Analysis I, II (MATH 351, 352) or Introduction to Mathematical Methods of Statistics I, II (MATH 461, 462)

One upper-division mathematics course excluding Statistical Methods I, II (MATH 425, 426), and Multivariate Statistical Methods (MATH 427)

Mathematics courses used to satisfy major requirements must be taken for letter grades and passed with grades of C– or better. At least 12 of the upper-division credits applied to the degree must be taken in residence at the university.

Courses in Computer and Information Science

Premajor Core Courses

Computer Science I, II, III (CIS 210, 211, 212)

Upper-Division Courses

Introduction to Data Structures (CIS 313)

Computer Organization (CIS 314), Introduction to Algorithms (CIS 315)

Choose one from Software Methodology I (CIS 422), Introduction to Computer Graphics (CIS 441), and Modeling and Simulation (CIS 445)

Principles of Programming Languages (CIS 425)

Two other 4-credit upper-division CIS courses

Computer and information science courses used to satisfy degree requirements must be passed with letter grades of C– or better.

Writing Requirement

In addition to the university's two-course writing requirement, CIS majors must take Scientific and Technical Writing (WR 320) or Business Writing (WR 321).

Science Requirement

In addition to the course work in mathematics and computer and information science, 12 credits are required in science selected from one of the following four options:

1. General Physics with Calculus (PHYS 211, 212, 213) or General Physics (PHYS 201, 202, 203).

2. Introductory General Chemistry (CH 211, 212, 213) or General Chemistry (CH 221, 222, 223)

3. General Biology I, II, III: Cells, Organisms, Populations (BI 211, 212, 213)

4. 12 credits in psychology courses at the 200 level or above, of which at least 8 must be from the experimental and physiological fields (PSY 430–450)

Major Progress Review

Each major must meet with his or her adviser and file the Major Progress Review form after completing 12 credits of the upper-division core—MATH 315, 341, 342; CIS 313, 314, 315, 425, 422 (or 441 or 445)—including at least one course from each department. Failure to file this form may result in lower priority registration for CIS courses. A student who receives two grades below C– in the upper-division core is removed from the major.

Advising and Program Planning

Each student seeking a degree in this major is assigned two advisers, one in the Department of Mathematics and one in the Department of Computer and Information Science. One of the two is designated as the adviser of record for the student, but both cooperate in planning the student's program. Because of the interrelationship between mathematics and computer science courses, it is especially important that a student planning for the combined major consult closely with both advisers. The sample program shown below broadly indicates a possible plan for
meeting degree requirements in four years. Individual student interests may suggest changes in the order in which courses are taken. Since both mathematics and computer science are sequential subjects, the suitability of rearrangements should be discussed with the student's advisers.

Programming Experience. Students who take CIS 210, 211, 212 are expected to have programming experience, which may have been acquired in a high school course, through employment, or in a course such as CIS 122. Students who are unsure about their level of preparation should meet with a CIS adviser.

The schedule shown below allows flexibility during the senior year. Instead of (or in addition to) the CIS and MATH electives, qualified students may sign up for special topics courses or for up to 12 credits of senior thesis.

Honors Program

Both of the cooperating departments offer departmental honors programs to their undergraduate majors. After obtaining advance approval from both of their advisers, students in the joint degree program are eligible to attain honors in mathematics and computer science by meeting the honors requirements of either department, including the writing of a thesis.

Minor

Minors are offered by the Department of Mathematics and the Department of Computer and Information Science. There is no joint minor in mathematics and computer science.

Medieval Studies

Martha J. Bayless, Program Director

(541) 346-3930

Stephen J. Shoenaker, religious studies
Christine L. Sundt, library
Richard A. Sundt, art history
Cynthia M. Vakareliyska, linguistics

About the Discipline

Medieval studies, an interdisciplinary undergraduate program, integrates various approaches to the Middle Ages by medievalists in several departments. The program is administered by the Humanities Program. Medieval studies provides an excellent general education or a solid base for graduate work in a more specialized area. Undergraduates interested in medieval studies should declare a humanities major with the medieval studies option. It can be an area of specialization for students majoring in any of the related departments. Study abroad is strongly encouraged.

Medieval studies concentrates on the period from 300 to 1500, combining courses in art and architecture, history, language, literature, music, philosophy, and religion. A typical course of study includes diverse topics, such as the Bible, the early Church, Byzantium, Islam, the Vikings, the Crusades, women in the Middle Ages, mysticism, romance, the Gothic cathedral, Chaucer, Dante, and medieval China and Japan. The program aims to provide a comprehensive introduction to the medieval world-view in Europe and beyond, and the origins of the modern world.

Humanities Major, Medieval Studies Option

Courses offered for a major in humanities with a medieval studies option must be passed with grades of mid-C or better. Variations in these requirements can be approved by the program director and the Medieval Studies Committee.

Humanities majors who specialize in medieval studies must complete Special Topics in the Humanities: Introduction to the Middle Ages (HUM 210), seminar in medieval studies (HUM 407), and ten medieval courses in at least three departments. Two years of Latin are recommended for those who want to do graduate work in medieval studies.

Minor Requirements

A minor in medieval studies must include seminar in medieval studies (HUM 407) and six medieval courses in at least two departments. Two years of Latin are recommended.

Suggested Courses

Students should plan their programs as early as possible with the aid of a medieval studies faculty adviser. With the adviser's consent, courses numbered 399, 407, 408, or 410 may be substituted for suggested courses. At least five of the courses must be taken at the University of Oregon. More information is available from the humanities office or from the Medieval Studies Program director.

Art History. History of Western Art II (ARH 430), Byzantine Art (ARH 431), Romanesque Sculpture (ARH 432), Gothic Sculpture (ARH 433), Text and Image: Medieval Manuscripts (ARH 435), Romanesque Architecture (ARH 437), Gothic Architecture I (ARH 438, 439), Islamic Art and Architecture (ARH 490)

Chinese. Issues in Medieval Chinese Literature (CHN 424)

English. The Bible and Literature (ENG 421), The Age of Beowulf (ENG 423), Medieval Romance (ENG 425), Chaucer (ENG 427), Old English I, II, III (ENG 428, 429, 430), Medieval and Tudor Drama (ENG 437)

History. Perceptions and Roles of Women from the Greeks through the 17th Century (HIST 310), Western Europe in the Middle Ages (HIST 318), The Age of Discoveries (HIST 327), Social and Economic History of Medieval England, 1050-1350 (HIST 418)

Humanities. Introduction to Humanities II (HUM 102), Special Topics in the Humanities: Introduction to the Middle Ages (HUM 210)

Japanese. Premodern Japanese Literature (JPN 424)

Judaic Studies. Foundations of Judaic History (JDS 202)

Music. Survey of Music History (MUS 267)

Philosophy. History of Philosophy: Ancient and Medieval (PHIL 310)

Religious Studies. History of Christianity (REL 321, 322), History of Eastern Christianity (REL 324), Medieval Christian Mysticism (REL 422)

Romance Languages. Survey of Peninsular Spanish Literature (SPAN 316), French Survey: Medieval and Renaissance (FR 317), Italian Survey: Medieval and Renaissance (ITAL 317), Medieval Italian Culture (ITAL 441), Medieval and Renaissance Literature (ITAL 444), Introduction to Medieval Spanish Literature (SPAN 444)

Graduate Study in Neuroscience

Neuroscience is the interdisciplinary study of neural function, development, and behavior. At the University of Oregon the graduate training program in neuroscience is centered in the Institute of Neuroscience, housed in modern quarters in the science complex. Participating faculty members are drawn from the Departments of Biology, Computer and Information Science, Exercise and Movement Science, and Psychology.

Curriculum

To obtain essential background in neuroscience, most first-year graduate students take a sequence of core courses that are taught cooperatively by the faculty. The core consists of a comprehensive series of lectures and laboratories in neuro-anatomy and cellular neurophysiology. Most students also take lecture courses in neurochemistry, neuroethology, and/or developmental neurobiology. Elective courses are available in a large variety of subjects (see Neuroscience Courses below).

Faculty-Student Seminars. Faculty members and graduate students participate in weekly informal seminars that feature lively discussion of research papers in specific areas of neuroscience. Students and faculty members also participate in the Neuroscience Seminar, a weekly series featuring visiting scientists. The purpose of the Neuroscience Seminar is to keep both the faculty and students abreast of current developments in the broad field of neuroscience.

Research. Students are encouraged to participate in laboratory research from the very beginning of their graduate training. A laboratory rotation program is directed toward this objective. In the rotation program new students take part in the activities of a different laboratory group during each of the three terms of the first year. Participation may include a research project, ongoing experiments, or other activities. This program allows students to learn firsthand about different approaches to the study of neuroscience before choosing an area of concentration.

Doctoral Study

Students who want to enter the neuroscience program should apply to the Ph.D. program of a participating department and indicate their interest in neuroscience. Such applications are reviewed by the neuroscience faculty as well as the departmental admission committee. Answers to specific questions about prerequisites and deadlines may be obtained by writing directly to one of the participating departments, University of Oregon, Eugene OR 97403. Additional information about the Institute of Neuroscience may be obtained by writing to the graduate secretary. See also the Research Institutes and Centers section of this catalog.

Neuroscience Courses

Biology. Neurobiology (BI 360), Systems Neuroscience (BI 461/561), Cellular Neuroscience (BI 462/562), Developmental Neurobiology (BI 465/565), Hormones and the Nervous System (BI 467/567), Neuroethology (BI 468/568)

Chemistry. Biochemistry (CH 461/561, 462/562, 463/563), Biochemistry Laboratory (CH 467/567), Advanced Biochemistry (CH 662, 663), Physical Biochemistry (CH 664, 665)

Computer and Information Science. Introduction to Artificial Intelligence (CIS 471/571)

Exercise and Movement Science. Motor Development (EMS 331), Motor Control (EMS 332)

Psychology. Biopsychology (PSY 304), Learning and Memory (PSY 433/533), Cognition (PSY 435/535), Human Performance (PSY 436/536), Perception (PSY 438/538), Brain Mechanisms of Behavior (PSY 445/545), Human Neuropsychology (PSY 449/549), Hormones and Behavior (PSY 450/550)

Pacific Island Studies

About the Program

The Pacific Island Studies Program, part of the Center for Asian and Pacific Studies, offers individualized programs of study and research related to Pacific island cultures. The University of Oregon has a long-standing educational and scholarly interest in the Pacific islands involving active researchers and teachers in many fields. The committee began as a formal body in 1987 and has worked since to coordinate instructional, research, and exchange programs at the university that are related to the Pacific islands. The program emphasizes interdisciplinary perspectives essential for understanding natural and cultural environments, cultural history and change, and educational and modern socioeconomic issues in the Pacific.

Courses about the Pacific cover a range of topics. Students can enroll in undergraduate courses and advanced degree programs in various departments and through the Asian Studies Program. Students may also work with committee members from Pacific island studies toward an Interdisciplinary Studies: Individualized Program (ISP) master’s degree (M.A. or M.S.). Information is available in the Graduate School section of this catalog.

The Pacific island studies faculty participates in the Asian studies B.A. and M.A. degree programs by teaching courses that may be used to satisfy degree requirements (e.g., in developing a
secondary cultural or geographical area with Southeast Asia). Undergraduate- and graduate-level courses are available in anthropology and archaeology, art history, biology, geological sciences, international studies, political science, and sociology.

The Pacific Island Archaeological Project, directed by William S. Ayres, offers students opportunities to participate in archaeological and anthropological study in the Pacific. A field school is offered through the Department of Anthropology.

Training in selected Pacific island languages is possible through individual study using tutors and materials developed for use at the Yamada Language Center. The center now has language-study modules for Pohnpeian and Kosraen. Tutoring in Samoan and other island languages is possible.

Courses
Anthropology. Pacific Basin: Polynesia and Micronesia (ANTH 323), Pacific Basin: Melanesia and Australia (ANTH 324), Pacific Islands Archaeology (ANTH 343), Topics in Pacific Ethnology (ANTH 425/425), Cultures of Island Southeast Asia (ANTH 436/536), Topics in Old World Prehistory (ANTH 440/540)
Art History. Art of the Pacific Islands I,II (ARH 391, 392)
Geological Sciences. Oceanography (CEOL 307)
International Studies. The Pacific Challenge (INTL 440/540)
Sociology. Sociology of Developing Areas (SOC 450/550)
Approved Seminars (407/507) and Experimental Courses (410/510) are additional possibilities in these and other departments.

Peace Studies
David A. Frank and Cheyney C. Ryan, Committee Cochairs
(541) 346-4198
308 Chapman Hall

Steering Committee
Irene Diamond, political science
David A. Frank, honors college
Gregory McLauchlan, sociology
Cheyney C. Ryan, philosophy

About the Program
The Peace Studies Program offers students the opportunity to study, systematically, the problem of peace—what it means and how it is achieved. Interdisciplinary in its orientation, peace studies encourages students to approach the problem of peace from a variety of viewpoints. The focus of the program is threefold: it addresses the conditions that give rise to violence and how to prevent them; the conditions that constitute alternatives to violence and how to promote them; and the strategies for achieving peace in its various forms.

The peace studies minor is available to university undergraduates. There are no requirements for admission to the program.

Graduate students who want to concentrate on peace studies should contact a member of the steering committee. Most 400-level courses, including courses numbered 407 and 410, are offered for graduate credit under 500-level numbers.

Minor Requirements
The interdisciplinary minor in peace studies requires a minimum of 32 credits, 15 of which must be upper division. A grade of mid-C or better must be earned in each of the eight courses taken to fulfill requirements for the peace studies minor. Course requirements consist of three core courses and five elective courses selected from the three groups listed below.

Core
Choose three courses for a total of 12 credits:
Value Systems in Cross-Cultural Perspective (INTL 250) or World Value Systems (INTL 430)
Social and Political Philosophy (PHIL 307)
Systems of War and Peace (SOC 464)

Group I: Conditions that Give Rise to Violence
Choose two courses for a total of 8 credits:
History. War and the Modern World (HIST 240), American Foreign Relations since 1933 (HIST 353, 354)
Political Science. International Security (PS 496)
Psychology. Attitudes and Social Behavior (PSY 456)
Sociology. Race, Class, and Ethnic Groups (SOC 345), Sociology of Race Relations (SOC 445), Systems of War and Peace (SOC 464)

Group II: Values and Arrangements Necessary to Transcend Violence
Choose one or two courses for a total of 4–8 credits:
Geography. Political Geography (GEOG 441)
International Studies. Value Systems in Cross-Cultural Perspective (INTL 250), Cooperation, Conflict, and Global Resources (INTL 251)
Philosophy. Law and Society (PHIL 446)
Planning, Public Policy and Management. Introduction to Public Service Management (PPPM 322), Communities and Regional Development (PPPM 445)
Political Science. Political Ideologies (PS 225), Environmental Politics (PS 497)
Sociology. Sociology of Developing Areas (SOC 450)

Women's Studies. History and Development of Feminist Theory (WST 301, 302)

Group III: Strategies for Achieving Peace
Choose one or two courses for a total of 4–8 credits:
Anthropology. Women and Culture I: Politics, Production, and Power (ANTH 314)
History. American Radicalism (HIST 350, 351)
International Studies. International Community Development (INTL 420), Gender and International Development (INTL 421), Cross-Cultural Communication (INTL 431)
Planning, Public Policy and Management. Socioeconomic Development Planning (PPPM 446)
Political Science. International Organization (PS 420)
Sociology. Social Issues and Movements (SOC 313)

Internships are offered through some of the departments listed above. Students may take a maximum of 9 credits of courses in any one department. With adviser's consent, students may substitute a course numbered 199, 407, 408, or 410 for one approved group-satisfying course for the minor.

More information about peace studies is available from a codirector.
Students whose first or only major is philosophy must satisfy the university’s bachelor of arts (B.A.) degree requirements—including competence in a foreign language—to graduate with a bachelor’s degree in philosophy. Students who complete another first major and the bachelor of science (B.S.) degree requirements may fulfill philosophy requirements as a second major without completing the requirements for a B.A. degree.

Major Requirements
The minimum major requirement is 52 credits of course work in philosophy with grades of P (pass) or C- or better, including 40 credits in upper-division courses. No more than 8 credits may be taken pass/no pass. The 52 credits must include three terms of History of Philosophy: Ancient and Medieval, Modern, 19th Century (PHIL 310, 311, 312); one term of informal or formal logic (PHIL 103 or 461); and 8 credits in courses on the works of specific philosophers (e.g., PHIL 421, 433, 453, or 463).

Honors in Philosophy
Any philosophy major may, by fulfilling the requirements described below, graduate with honors.

Grade Point Average. To enter the honors program, the student must have a grade point average (GPA) of at least 3.00 in philosophy courses at the end of the junior year; to complete the program the student must have a GPA of at least 3.50 in philosophy courses at the end of the senior year.

Courses. Besides the courses required of philosophy majors, a candidate for departmental honors must take 16 of the 52 credits in philosophy at the 400 level.

Senior Thesis. The candidate must write an honors thesis under the guidance of a member of the philosophy faculty chosen as thesis adviser. The thesis must be a substantial piece of work, and it may be a revised and expanded version of a term paper. The thesis must be approved by a thesis committee consisting of two faculty members from the philosophy department. Approval of the thesis depends in part on a public defense attended by the committee.

Upon fulfilling these requirements, the candidate is approved to receive a bachelor’s degree with honors in philosophy.

Minor Requirements
The minimum requirement for a philosophy minor is 24 credits in philosophy with grades of P (pass) or C- or better, including 16 upper-division credits. No more than 8 credits of the required 24 may be taken pass/no pass. The 16 credits must include three terms of History of Philosophy: Ancient and Medieval, Modern, 19th Century (PHIL 310, 311, 312) and 4 credits in a course on the work of a specific philosopher.

Graduate Studies
The department offers a graduate program leading to the master of arts (M.A.) and the doctor of philosophy (Ph.D.) degrees. The program, which is pluralistic in orientation, requires students to develop a broad knowledge of the history of philosophy, major fields, and various approaches and methods. Students are urged to concentrate in a specific area at the advanced level. In addition to the major periods in the history of philosophy, concentrations are supported in American philosophy, continental philosophy, social and political philosophy, feminist philosophy, ethics, philosophy of language, philosophy of science, and aesthetics.

Each student designs a program in consultation with the graduate adviser. Two or more years are typically required to complete the master’s degree and four or more years for the doctorate. A complete and detailed list of the university and department requirements for graduate degrees is available from the department office.

Master of Arts
The master’s program is designed to provide a broad knowledge of the history of philosophy and of recent developments in the basic fields of philosophy. It requires 48 credits of graduate course work, satisfaction of the second-language requirement, and either the completion of three distribution requirement courses or the acceptance of a master’s thesis by a thesis adviser.

The distribution requirements can be satisfied by receiving a mid-B or better in (1) three courses in each of three sub-disciplinary fields; (2) one course from each of three historical periods; and (3) two courses from each of the four philosophical traditions that ground the diverse philosophical perspectives of the department. Each course taken may be used to satisfy up to two distribution requirements.

Doctor of Philosophy
The Ph.D. degree requires a minimum of 81 credits of graduate-level course work, of which 18 must be in Dissertation (PHIL 603). Students must demonstrate proficiency in a second language, complete three course distribution requirements, and pass two comprehensive examinations—one in history and one in the student’s area of specialization.

The distribution requirements may be satisfied by receiving a mid-B or better in (1) three courses in each of three sub-disciplinary fields; (2) one course from each of four historical periods; and (3) two courses from each of the four philosophical traditions that ground the diverse philosophical perspectives of the department. Each course taken may be used to satisfy up to two distribution requirements.

The comprehensive examinations are passed by completing two substantial research papers under the supervision of faculty. Students are advanced to candidacy upon completion of the comprehensives. A dissertation prospectus must be accepted by the candidate’s committee after a preliminary oral examination. The written dissertation must receive the approval of the dissertation committee after a final examination.

Admission
Applicants for admission to graduate studies are asked to write a brief letter explaining their philosophical background and their specific philosophical interests. This helps the department’s admissions committee decide whether this is the most appropriate philosophy department for the applicant’s goals. They should also submit a writing sample, a college transcript, and a notification of
their scores on the Graduate Record Examinations (GRE). International students must provide proof of competence in English. A score of 600 on the Test of English as a Foreign Language (TOEFL) is required of international students unless the native language is English.

In addition to general university regulations governing graduate admission (see the Graduate School section of this catalog), the Department of Philosophy requires applicants to submit three confidential report forms completed by teachers (preferably philosophy teachers) familiar with the applicant's academic background. Applicants should write to the department, explaining their interest in graduate studies at the university and requesting a Graduate Admission Application. The first copy and one complete set of transcripts, together with the $50 application fee, should be sent to the Office of Admissions, 1217 University of Oregon, Eugene OR 97403-1217. The other four copies of the application, along with another set of transcripts, should be forwarded to the Department of Philosophy. Confidential report forms should be sent directly to the department by the faculty members recommending the applicant.

Graduate teaching fellowships are the only form of financial aid available in the philosophy department; the application deadline is February 15 for the following academic year. An application form is provided upon request.

**Philosophy Courses (PHIL)**

101 Philosophical Problems (4) Introduction to philosophy based on classical and modern texts from Plato through the 20th century. Sample topics include free will, the mind-body problem, the existence of an external world.

102 Ethics (4)Philosophical study of morality (e.g., ethical relativism; justification of moral judgments; concepts of duty, right, and wrong).

103 Critical Reasoning (4)Introduction to thinking and reasoning critically. How to recognize, analyze, criticize, and construct arguments.

170 Love and Sex (4)Attitudes toward love and sexuality in the Western world that have led, in the United States, to a hostility toward sex and an elevation of purified images of love.

199 Special Studies: [Topic] (1–5R)

211 Existentialism (4)Basic ideas of the Christian and atheistic divisions of the existentialist movement; some attention to the philosophical situation that generated the existentialist rebellion.

213 Eastern Philosophy (4)Introduction to classic writings in the Chinese, Indian, Japanese, and other Asian philosophical traditions.

215 Philosophy and Feminism (4)Explores feminism's contribution to philosophy in complete accounts of knowledge and morality by considering the adequacy of theories that ignore gender and feminist development.

216 Philosophy and Cultural Diversity (4)Philosophical investigation of the implications of cultural diversity for identity, knowledge, and community, from the perspectives of several American cultures.

221 Formal Logic (4)Propositional and lower predicate calculus. Translation into symbolic notation, derivations, and truth-table tests. Quantifiers, consistency, and completeness.

307, 308 Social and Political Philosophy (4,4)Major social and political theorists from Plato through Marx. Inquiry into such ideas as justice, natural law, natural rights, and the social contract.

310 History of Philosophy: Ancient and Medieval (4)Focuses primarily on Plato and Aristotle. Examines their roots in pre-Socratic philosophy and their influence on medieval philosophers such as St. Augustine and St. Thomas Aquinas.

311 History of Philosophy: Modern (4)Survey of European philosophy through Hume, including the work of Descartes, Locke, and Spinoza.

312 History of Philosophy: 19th Century (4)Traces Kant's influence on such philosophers as Hegel, Nietzsche, and Marx.

320 Philosophy of Religion (4)Philosophical investigation of the nature of "religion" (e.g., the nature of the sacred, spirituality, and transcendence). Prereq: one philosophy course.

321 Theory of Knowledge (4)Considers conceptions of rationality and truth as well as the role of reason, sense, and emotion in the pursuit of knowledge. Prereq: one philosophy course.

322 Philosophy of the Arts (4)Survey of classical and contemporary theories of art and aesthetic experience, with examples from various arts. Prereq: one philosophy course.

323 Moral Theory (4)Study of the most important traditional ethical theories; modern philosophical analysis of moral terms and statements. Prereq: one philosophy course.

331 Philosophy in Literature (4)Selective study of major philosophical ideas and attitudes expressed in the literature of Europe and America. Prereq: one philosophy course.

339 Introduction to Philosophy of Science (4)Examines theories of scientific practice, rationality, objectivity, values in science, and the role of science in society. Prereq: one philosophy course.

340 Environmental Philosophy (4)Considers the nature and morality of human relationships with the environment (e.g., the nature of value, the moral standing of nonhuman life).

344 Introduction to Philosophy of Law (4)Introduces central problems in the law; examines the nature of legal reasoning.

350 Metaphysics (4)Traditional issues in metaphysics selected from among such topics as substance, existence, time, causation, God, the nature of individuals, and the meaningfulness of metaphysics. Prereq: one philosophy course.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–21R)

403 Thesis (1–21R)

405 Reading and Conference: [Topic] (1–21R)

470/570 Seminar: [Topic] (1–5R) Recent topics include Art and Politics, Critical Theory, Eastern Philosophy, French Feminism, Philosophy of Film. Prereq: three philosophy courses.

410/510 Experimental Course: [Topic] (1–5R)

415/515 Continental Philosophy (4)The theory and writings of Heidegger, Husserl, Derrida, Foucault, and others. Prereq: junior, senior, or graduate standing.

417/517 Topics in Critical Theory (4R)Introduction to the Frankfurt School. Themes vary, but central concerns include rationality, political dimensions of art, and the philosophy of history. Prereq: PHIL 312 or instructor's consent. R once with instructor's consent for maximum of 8 credits.

420/520 American Philosophy (4)Historical survey of American philosophy including the work of Franklin, Emerson, Douglass, Peirce, William James, and John Dewey. Prereq: junior, senior, or graduate standing.

425/525 Philosophy of Language (4)Philosophical theories of language and meaning, with special attention to the nature of concepts and reasoning. Prereq: junior, senior, or graduate standing.

441/541 Topics in the Philosophy of the Arts (4)Systematic study of the meaning and value of aesthetic experience in everyday life and in the arts: painting, music, literature. Prereq: junior, senior, or graduate standing.

443/543 Topics in Feminist Philosophy: [Topic] (4R)Examines contemporary feminist contributions to philosophy. R once with instructor's consent for maximum of 8 credits.
Physics

Dietrich Belitz, Department Head

Faculty

Dietrich Belitz, professor (condensed matter theory).

Paul L. Gorka, professor (elementary particle theory); director, Clark Honors College. Ph.D., 1963, Johns Hopkins. (1968)

John T. Moseley, professor (molecular physics); provost and vice president for academic affairs. B.S., 1964, M.S., 1966, Ph.D., 1969, Georgia Institute of Technology. (1979)

David S. Sokoloff, professor (physics education). B.A., 1966, City University of New York, Queens; Ph.D., 1972, Massachusetts Institute of Technology. (1978)

Special Staff

Emeriti

Bernd Crasemann, professor emeritus. A.B., 1948, California, Los Angeles; Ph.D., 1953, California, Berkeley. (1953)

Harlan Lefevre, professor emeritus. B.A., 1951, Reed; Ph.D., 1961, Wisconsin. (1961)

Jack C. Overley, professor emeritus. B.S., 1954, Massachusetts Institute of Technology; Ph.D., 1960, California Institute of Technology. (1968)

John I. Powell, professor emeritus. B.A., 1943, Reed; Ph.D., 1948, Wisconsin. (1955)

George W. Rayfield, professor emeritus. B.S., 1958, Stanford; Ph.D., 1964, California, Berkeley. (1967)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

Physics, the most basic of the natural sciences, is concerned with the discovery and development of the laws that describe our physical universe.
Because of its fundamental nature, the study of physics is essential for work in the natural sciences and for students who want to comprehend our technological world. In addition to major and minor programs, the Department of Physics offers a variety of courses for nonmajors as well as for prehealth science students.

**Preparation.** Entering freshmen should have taken as much high school mathematics as possible in preparation for starting calculus in their freshman year. High school study of physics and chemistry is desirable, as is study of one of the scientific languages—French, German, or Russian.

**Transfer Students.** Because of the sequential nature of the physics curriculum, students from two-year colleges should try to transfer to the university as early in their studies as possible. Those who transfer after two years should prepare for upper-division course work by taking one year of differential and integral calculus (the equivalent of MATH 251, 252, 253), one year of general physics with laboratory (the equivalent of PHYS 201, 202, 203 and either PHYS 204, 205, 206 or PHYS 251, 252, 253), general chemistry (the equivalent of CH 211, 212 or CH 221, 222), and, if possible, one term of differential equations and two terms of multivariable calculus (the equivalent of MATH 256 and MATH 281, 282).

Students who transfer after attending a four-year college or another university for more than two years should have completed a second year of physics. Transfer students should also have completed as many as possible of the university requirements for the bachelor’s degree (see Bachelor’s Degree Requirements under Registration and Academic Policies).

**Careers.** Graduates with bachelor’s degrees in physics may find employment in the technology industry or as secondary school teachers. Alternatively, students who earn an undergraduate degree may continue their studies in a graduate degree program, leading to a career in teaching or research or both at a university, at a government laboratory, or in industry. Students who have demonstrated their ability with a good record in an undergraduate physics program are generally considered very favorably for admission to medical and other professional schools.

**Major Requirements**

Because of the sequential nature of physics courses, it is imperative to start planning a major program in physics early. Interested students should consult the advising coordinator in the Department of Physics near the beginning of their studies. Requirements for the bachelor’s degree are outlined below.

Complete requirements are listed under Bachelor’s Degree Requirements in the Registration and Academic Policies section of this catalog. The bachelor of arts (B.A.) degree has a foreign-language requirement. One of the scientific languages—French, German, or Russian—is recommended for students planning graduate study in physics.

Complete the following required lower-division courses or their equivalents:

<table>
<thead>

Introduction to Differential Equations (MATH 256) .......................... 4
Several-Variable Calculus II (MATH 281, 282) ................................ 8

**Senior Year** 42 credits

Mechanics, Electricity, and Magnetism (PHYS 411, 412, 413) ................ 12
Quantum Physics (PHYS 414, 415, 416) .................................. 12
Advanced Physics Laboratory (PHYS 490) and other laboratory courses .... 6

**Honors**

To be recommended by the faculty for graduation with honors in physics, a student must complete at least 46 credits in upper-division physics courses, of which at least 40 credits must be taken for letter grades, and earn at least a 3.50 grade point average in these courses.

**Minor Requirements**

Students seeking a minor in physics must complete a minimum of 24 credits in physics, of which at least 15 must be upper division. These credits must include Foundations of Physics II (PHYS 351, 352, 353) or Mechanics, Electricity, and Magnetism (PHYS 411, 412, 413). Three credits in Intermediate Physics Laboratory (PHYS 390) or a 4-credit 400-level physics course completes the upper-division requirements. Course work must be completed with grades of P or C- or better. At least 12 of the upper-division credits must be completed in residence at the University of Oregon.

Prospective minors must take either General Physics with Calculus (PHYS 211, 212, 213) or Foundations of Physics I (PHYS 251, 252, 253). General Physics (PHYS 201, 202, 203) may be substituted with the physics undergraduate adviser’s approval.

**Engineering**

Students interested in engineering may complete preparatory course work at the University of Oregon before enrolling in a professional engineering program at Oregon State University (OSU) or elsewhere. The Department of Physics coordinates a three-plus-two program that allows a student to earn a bachelor’s degree in physics from the University of Oregon and one in engineering from Oregon State University. For more information, see Preparatory Programs in the Educational Support Services section of this catalog.

**Middle and Secondary School Teaching**

The College of Education offers a five-year program for middle-secondary teaching licensure in physics and integrated sciences. This program is described in the College of Education section of this catalog.

**Graduate Studies**

The Department of Physics offers graduate programs leading to the master of science degree in applied physics or to the master of arts (M.A.), master of science (M.S.), and doctor of philosophy (Ph.D.) degrees in physics with a variety of opportunities for research. Current research areas include astronomy and astrophysics, atomic and molecular physics, biophysics, chemical physics, condensed matter theory,
Degree Requirements

Entering students should consult closely with their assigned advisers. Students showing a lack of preparation are advised to take the necessary undergraduate courses in order to remedy their deficiencies.

Students should consult the Graduate School section of this catalog for general university admission and degree requirements. Department requirements, outlined in a handbook for incoming students that is available in the department office, are summarized below.

Industrial Internships for Master's Degrees in Chemistry or Physics

These internships, sponsored by the Materials Science Institute, are described in the Chemistry section of this catalog. Information and application materials are available through the institute.

Master of Science in Applied Physics

The program in applied physics leads to a master of science (M.S.) degree, a professional alternative to the research-based Ph.D. degree. Qualified students can complete the program in one year.

Requirements

1. A total of 45 graduate credits must be completed, including 36 in graded courses from a list approved by the department. Other courses may be substituted with approval of the dissertation research adviser.

2. Research practicum for 9 credits, which may be fulfilled in the following ways:
   a. Participation in an industrial internship program
   b. A master's thesis, which is defended orally
   c. Development of a new module for the graduate-level of Advanced Physics Laboratory (PHYS 590)

Candidates who choose (a) or (c) above must submit and orally present a technical report to the applied physics oversight committee for evaluation.

3. Pass the physics master's final examination

Master of Science or Arts

Course requirements for a master of science in physics typically include, in addition to the equivalent of the undergraduate physics degree, at least one three-term physics sequence taken at the 600 level and three 500- or 600-level mathematics courses selected from a list of approved courses, or others with the preregistration approval of the director of graduate studies.

A total of 45 graduate credits must be completed, including 32 in graded physics courses. Courses other than physics or approved mathematics courses must be in related fields approved by the director of graduate studies. A maximum of 15 credits earned at another accredited graduate school may be applied, and a minimum GPA of 3.00 (B) must be maintained.

Candidates must either pass a master's final examination—which is part I of the Ph.D. qualifying examination—or submit a written thesis or dissertation research adviser.

Doctor of Philosophy

The physics department has few course requirements for the doctor of philosophy (Ph.D.) degree, relying primarily on demonstrated competence in the qualifying examination, comprehensive examination, and doctoral-dissertation research.

Qualifying Examination. The master's final examination is part I of the Ph.D. qualifying examination. All candidates must pass the written master's examination. This requirement may be waived by the director of graduate studies if the candidate already has a master's degree in physics. Parts II and III of the qualifying exam, a written examination given each fall and spring, cover the graduate physics core (theoretical mechanics, statistical mechanics, quantum mechanics, electromagnetic theory, methods of mathematical physics). After rectifying any deficiencies in undergraduate background, students typically prepare for the qualifying examination by taking 600-level courses in the core areas. Students are expected to take the parts of the examination they haven't passed every time they are offered beginning spring of the first year for part I and the fall of the second year for parts II and III. Candidates must pass part I by spring of the second year of graduate study and parts II and III by spring of the third year.

Within one year of passing all three parts of the qualifying examination, students should secure a dissertation research adviser.

Before taking the comprehensive examination, students must round out their personal knowledge of physics and pursue advanced studies in at least three specialized fields. Typically, the advanced studies requirement is satisfied by taking eight terms of course work chosen from a list of courses in three of the following groups:

1. Condensed matter physics
2. Nuclear and particle physics
3. Atomic, molecular, and optical physics
4. Astronomy and general relativity
5. Experimental and theoretical techniques
6. Other sciences

Foreign-Language Proficiency. The department encourages students to have foreign-language proficiency, but it has no foreign-language requirement for the Ph.D. degree. All incoming graduate students are expected to be fluent in English. Deficiencies must be rectified before the student takes the comprehensive examination.

Comprehensive Examination. The comprehensive examination should be taken within three
Physics Courses (PHYS)

101, 102, 103 Essentials of Physics (4,4,4) Fundamental physical principles. 101: mechanics. 102: heat, waves, and sound; electricity and magnetism. 103: modern physics.

152 Physics of Sound and Music (4) Introduction to the wave nature of sound; hearing; musical instruments and scales; auditorium acoustics; and the transmission, storage, and reproduction of sound. Prereq: PHYS 101.

153 Physics of Light and Color (4) Light and color, their nature, how they are produced, and how they are perceived and interpreted. Prereq: PHYS 102.

161 Physics of Energy and Environment (4) Practical study of energy generation and environmental impact, including energy fundamentals, fossil fuel use, global warming, nuclear energy, and energy conservation.

162 Solar and Other Renewable Energies (4) Topics include photovoltaic cells, solar thermal power, passive solar heating, energy storage, geothermal energy, and wind energy.

196 Field Studies: [Topic] (1–2R)

198 Workshop: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R)

204, 205, 206 Introductory Physics Laboratory (2,2,2) Practical exploration of the principles studied in general-physics lecture. Measurement and analysis methods applied to experiments in mechanics, waves, sound, thermodynamics, electricity and magnetism, optics, and modern physics. Sequence. Prereq: PHYS 201, 202, 203 or PHYS 211, 212, 213 or instructor’s consent.

211, 212, 213 General Physics with Calculus (4,4,4) Introductory sequence covers roughly the same topics as PHYS 201, 202, 203 but in greater mathematical depth. Sequence. Prereq: MATH 251, 252, 253 or equivalent.

251, 252, 253 Foundations of Physics I (4,4,4) Kinematics including relativistic treatments; force; energy; momentum. 252: relativistic energy and momentum; collisions; photoelectric effect; Compton scattering; rotational motion; Bohr atom. 253: electricity and magnetism. Coreq: MATH 251, 252, 253 or equivalent.

301, 302 Physicists’ View of Nature (4,4) Physics illustrates physics concepts through the work of prominent physicists. 301: the classical view—mechanics, electrical science, thermal physics. 302: the 20th-century view—relativity, cosmology, and quantum physics. Prereq: MATH 251, 252, 253 or equivalent.

311 Physics of the Atmosphere (4) Introductory treatment of physical processes governing the structure and circulation of our atmosphere. Topics include thermodynamics, general circulation, clouds, winds, and observational tools. Prereq: PHYS 201, 202, MATH 251, 252.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–16R)

403 Thesis (1–21R)

405 Reading and Conference: [Topic] (1–16R)

406 Field Studies: [Topic] (1–21R)

407/507 Seminar: [Topic] (1–4R)

408/508 Workshop: [Topic] (1–21R)

409 Supervised Tutoring (1–3R)

410/510 Experimental Course: [Topic] (1–4R) Current topics are listed in the UO Schedule of Classes.

414/514, 415/515, 416/516 Quantum Physics (4,4,4) Planck’s and de Broglie’s postulates, the uncertainty principle, Bohr’s model of the atom, the Schroedinger equation in one dimension, the harmonic oscillator, the hydrogen atom, molecules and solids, nuclei and elementary particles. Sequence. Prereq: PHYS 252. Only nonmajors may earn graduate credit.

417/517 Topics in Quantum Physics (4) Perturbation theory, variational principle, time-dependent perturbation theory, elementary scattering theory. Prereq: PHYS 415/515. Only nonmajors may earn graduate credit.

422/522 Electromagnetism (4) Study of electromagnetic waves. Topics include Maxwell’s equations, wave equation, plane waves, guided waves, antennas, and other related phenomena. Prereq: PHYS 413/513.

423/523 Introduction to Statistical Physics (4) Development of statistical techniques to describe physical systems with applications to classical and quantum ideal gases, nonideal gases, phase transitions, photon gas, and transport. Prereq: PHYS 353.

425/525 Modern Optics (4) Special topics in modern applied optics such as Fourier optics, coherence theory, resonators and lasers, holography, and image processing. Prereq: PHYS 424/524 or equivalent.

426/526 Modern Optics Laboratory (4) A series of experiments with a variety of lasers and modern electro-optical instrumentation. Prereq: PHYS 425/525.

427/527 X-ray Crystallography (4) X-ray diffraction, Bragg’s law, crystal symmetry, the reciprocal lattice, structure factors and Fourier syntheses, the phase problem, small and macromolecular crystal structures. Prereq: instructor’s consent. Includes laboratory work.

431/531 Analog Electronics (4) Passive and active discrete components and circuits. General circuit concepts and theorems. Equivalent circuits and black box models.Integrated circuit operational amplifiers. Prereq: general physics or equivalent; knowledge of complex numbers; MATH 256.

432/532 Digital Electronics (4) Digital electronics including digital logic, measurement, signal processing and control. Introduction to computer interfacing. Prereq: general physics or equivalent; MATH 256.

433/533 Physics Instrumentation (4) Basic components of a personal computer and interface implementation. Applications to scientific instrumentation. Prereq: PHYS 432/532.

481/581 Design of Experiments (4) Applies statistics to practical data analysis, data-based decision making, model building, and the design of experiments. Emphasizes factorial designs.

492/592 Stellar Structure and Evolution (4) Introduction to the physics of stars. Topics include equations that govern stellar structure and evolution, thermodynamics, radiation transport, interstellar medium, nebulae and supernovae. Prereq: PHYS 282. PHYS 353.

493/593 Observational Cosmology (4) Introduction to observational cosmology. Topics include cosmological models, physics of the early universe, large-scale structures, and the extragalactic distance scale. Prereq: MATH 282.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

603 Dissertation (1–16R)

604 Internship: [Topic] (1–16R) Coreq: good standing in applied physics master’s degree program.

605 Reading and Conference: [Topic] (1–16R)

606 Field Studies: [Topic] (1–16R)

607 Seminar: [Topic] (1–4R) Recent topics are listed in the UO Schedule of Classes.
Condensed Matter, High Energy Physics, Physics Colloquium, Theoretical Physics.

608 Workshop: [Topic] (1-16R)
609 Supervised Tutoring (1-3R)
610 Experimental Course: [Topic] (1-4R)
611, 612 Theoretical Mechanics (4,2)
613, 614 Statistical Physics (2,4) Thermodynamics, statistical mechanics, kinetic theory, application to gases, liquids, solids, atoms, molecules, and the structure of matter.
621, 622, 623 Electromagnetic Theory (4,4,4)
624, 625 Quantum Mechanics (4,4,4) Time-dependent formulation of scattering, relativistic equations and solutions, hole theory, symmetry properties, second quantization, Fock space.
661, 662, 663 Elementary Particle Phenomenology (4,4,4) Classification and quantum numbers of elementary particles; elements of group theory, Lorentz group and spin; discrete and continuous symmetries; phenomenology of weak, electromagnetic, and strong interactions; quark model of hadron structure. Prereq: PHYS 633.
671, 672, 673 Solid State Physics (4,4,4)
677 Semiconductor Device Physics (4) Theory of inorganic solids, particularly semiconductors; carrier transport phenomena and semiconductor characteristics of positive-negative junctions, unipolar devices, photonic devices, and integrated circuits. PHYS 671 recommended. Offered summer session only.
678 Semiconductor Processing and Characterization Techniques (4) Structure, crystal growth, and epitaxy of solid-state materials; reactivity of inorganic surfaces; doping and solid-state diffusion; photoreists and etchants; surface analysis. Prereq: PHYS 677. Offered summer session only.

694, 695 General Relativity (4,4) Tensor analysis and Riemannian geometry, Einstein’s field equations, experimental observations, symmetries and conservation laws, gravitational radiation, other theories of gravity, applications to astrophysics and cosmology. Sequence. Prereq: PHYS 611, 612.

Astronomy Courses (ASTR)
121 The Solar System (4) Naked-eye astronomy, development of astronomical concepts, and the solar system.
123 Birth and Death of Stars (4) The structure and evolution of stars.
124 Galaxies and the Expanding Universe (4) Galaxies and the universe.
221 (H) Honors Astronomy: The Solar System (4) Development of astronomical concepts and the solar system. Pre- or coreq: MATH 111. Students may not receive credit for both ASTR 121 and ASTR 221H.
222 (H) Honors Astronomy: The Birth and Death of Stars (4) The structure and evolution of stars. Prereq: ASTR 221H, MATH 112. Students may not receive credit for both ASTR 122 and ASTR 221H.
223 (H) Honors Astronomy: Cosmology (4) Galaxies and the universe. Prereq: ASTR 221H. Students may not receive credit for both ASTR 123 and ASTR 223H.
321 Topics in Astrophysics (4) Problem solving of the orbits, kinematics, and dynamics of astronomical systems, structure and evolution of stars and galaxies. Pre- or coreq: MATH 251, 252; PHYS 251, 252 or equivalents; instructor’s consent for nonscience majors.
322 Astrophysical Techniques (4) Instruction in the development and application of astronomical tools and techniques. Extensive use of computers and ground and space-based data sets. Pre- or coreq: MATH 251, 252; ASTR 321 or equivalents; instructor’s consent for nonscience majors.

Participating
Gordon Lafer, labor, education and research

About the Department
The Department of Political Science offers courses on a variety of topics, including U.S. politics, international relations, comparative politics, political theory, and methods of social science research. Areas in which the department specializes include Asian, environmental, Latin American, and East European politics.

Careers. Political science majors follow many different paths after earning their undergraduate degrees. Many apply for admission to law schools throughout the country. Others go on to graduate work in political science or public administration. With the bachelor's degree, political science graduates may find jobs in federal, state, and local government agencies: nonprofit organizations; private industry; teaching; and self-employment. Recent surveys indicate that students who combine university studies with either work or internships in local governmental agencies are most likely to majors without such experience to obtain governmental employment after graduation.

Undergraduate Studies
The Department of Political Science offers a program leading to a bachelor of science (B.S.) or a bachelor of arts (B.A.) degree. This program is designed to (1) provide a systematic understanding of the political process; (2) provide a broad background for students preparing for careers in local, state, and national government as well as in law, journalism, and the teaching of social studies; (3) prepare students for graduate work leading to professional careers in political science.

Review of Courses Offered
Courses at the 100 and 200 levels are introductory, basic to building a major in political science. Courses at the 300 level introduce the chief areas and concerns of political science. Advanced and specialized courses are at the 400 level. At the discretion of the instructor, certain 300- and 400-level courses may have prerequisites. Students should have at least 8 credits in political science before taking 400-level courses.

Bachelor Degree Requirements
Undergraduates must satisfy the university's general-education requirements described under Bachelor's Degree Requirements in the Registration and Academic Policies section of this catalog.

Major Requirements
1. A minimum of 48 credits in undergraduate political science courses; of these a minimum of 32 credits must be upper division.
2. The 48 credits used to satisfy major requirements must be taken for letter grades and passed with C- or better. Thesis (PS 403), offered pass/no pass (P/N only), may be applied to the 48 credits.
3. No more than a total of 16 credits in Research (PS 401), Thesis (PS 403), Reading and Conference (PS 405), Field Studies (PS 406), and Workshop (PS 408) may be applied toward the 48-credit requirement. These courses do not fulfill the subfield requirement.
4. No more than 10 credits of Field Studies (PS 406) may be applied toward the 48 credits. This work must be done under the direction of a faculty member who, prior to registration, must approve and set up academic criteria to evaluate the work. The student must be registered at the university to earn credit. Credits earned in Practicum (PS 409) may not be applied to the major.
5. Work completed in Special Studies (PS 199 or 399), Seminars (PS 407), or Experimental Courses (PS 410) may be included in the 48-credit requirement and counted toward the subfield requirement. A complete list of courses and their subfields is available on the political science website.
6. Of the 48 credits, 8 must be taken in each of the three subfields listed below for a total of 24 credits. Some courses may appear in more than one subfield, but a course may only be used once to satisfy major requirements.

Political Theory (minimum of 8 credits)
Introduction to Contemporary Political Theory (PS 207); Introduction to the Tradition of Political Theory (PS 208); Political Ideologies (PS 225); Introduction to Political Psychology (PS 280); United States Political Thought (PS 308); Introduction to Political Economy (PS 321); Social Justice (PS 331); Political Power, Influence, and Control (PS 347); Introduction to Political Science Research (PS 360); Political Theory: Ancient and Medieval (PS 430); Political Theory: Renaissance, Reformation, and Early Modern (PS 431); Political Theory: Modern and Contemporary (PS 432); Marxism and Radical Thought (PS 433); Feminism and Ecology (PS 434); Evolution, Cooperation, Ethics (PS 439); Methods for Politics and Policy Analysis I (PS 445, 446); Democratic Processes (PS 456); Outsider Jurisprudence (PS 471); Introduction to Rational Choice I (PS 480, 481); Politics of Cyberspace (PS 490); Politics of Everyday Life (PS 491)

United States Politics (minimum of 8 credits)
Problems in United States Politics (PS 104); United States Politics (PS 201); State and Local Government (PS 203); Introduction to Urban Politics (PS 230), American Political Fiction (PS 270), Legal Process (PS 275); Introduction to Environmental Politics (PS 297), Art and the State (PS 301), United States Political Thought (PS 308), Coastal Resources Management Policy (PS 317), Women and Politics (PS 348), Mass Media and American Politics (PS 349), Political Parties and Interest Groups (PS 352), Campaigns and Elections (PS 353), Oregon Government and Politics (PS 355), United States Social Movements and Political Change (PS 386), Public Opinion and Foreign Policy (PS 429), The United States Presidency (PS 467), Congress (PS 468), Constitutional Law (PS 470), Outsider Jurisprudence (PS 471), United States Supreme Court (PS 484), Civil Rights and Civil Liberties (PS 485), American Political Development (PS 487), Politics of Cyberspace (PS 490), United States Political Economy (PS 495), Environmental Politics (PS 497)

World Politics (minimum of 8 credits)
Modern World Governments (PS 101); Introduction to Comparative Politics (PS 204); Introduction to International Relations (PS 209); Mexican Politics (PS 255); Art and the State (PS 301); European Politics (PS 324); United States Foreign Policy I (PS 326); Southeast Asia in Modern Times (PS 338); International Political Economy (PS 340); Politics of China I (PS 342); International Organization (PS 420); Science, Technology, and International Relations (PS 421); Human Rights—U.S. Foreign Policy (PS 422); Politics of Western Europe (PS 424); Politics of the European Union (PS 425); United States Foreign Policy II (PS 426); Crimes against Humanity (PS 427); Politics of Eastern Europe (PS 428); Public Opinion and Foreign Policy (PS 429); Feminism and Ecology (PS 434); Politics of China II (PS 442); Japanese Politics (PS 454); Theories of International Politics (PS 455); United States-China Relations (PS 459); Environmental Politics in Industrialized Societies (PS 461); Politics of Russia and the Newly Independent States (PS 462); Government and Politics of Latin America II (PS 463, 464); International Environmental Politics (PS 495), United States International Security (PS 496); Environmental Politics (PS 497)

Freshmen and Transfer Students. There are no departmental requirements for entering freshmen. Students planning to transfer to the university from two-year colleges should take the basic introductory political science courses offered at those institutions. At least 20 credits in upper-division graded political science courses must be completed in residence at the University of Oregon to qualify for a B.A. or B.S. degree in political science. Transfer students must meet the subfield distribution requirement.

Second Bachelor's Degree or Second Major. Students who want to obtain a second bachelor's degree or a second or double major in political science must complete 48 credits in political science, as outlined above under Major Requirements.

Honors in Political Science
In order to graduate with honors in political science, a student who has earned a 3.50 grade point average by the end of the junior year must sign up for 3 credits of Thesis (PS 403) under supervision of a faculty member. The thesis must be completed at least one term before the term of graduation. An honors committee reviews the student's performance on the thesis and on
4. A statement of career plans prepared by the student.

5. Other evidence that may be helpful in reaching a decision. Although an undergraduate major in political science is not a prerequisite for admission, the committee takes into consideration the student's academic work in political science.

Application forms, recommendation forms, and additional information about the student's preparation and background may be obtained by visiting the department's website or sending an e-mail request. The deadline for graduate teaching fellowship applications and fall-term admission is February 15. The deadline for winter-term admission is October 15; the deadline for spring-term admission is January 20.

Master's Degree Program

The master's degree program prepares students for promotion to the doctoral program and professional careers in teaching and research. Two years is the typical period for completing the program. The master's degree program has the following requirements:

1. Completion of 48 credits of graduate course work
2. Completion of required courses as specified by the department
3. Demonstrated competence in social science methodology
4. Completion of a master's degree thesis

See the Graduate School section of this catalog for the distinction between M.S. and M.A. degree requirements.

Doctoral Program

This program is designed to allow the well-prepared student to complete course requirements for the Ph.D. in two years of full-time study. Students take comprehensive examinations during their third year, followed by preparation of a dissertation. Requirements for the Ph.D. in political science include:

1. Completion of 81 credits (18 credits are for dissertation) beyond the bachelor's degree. PS 601, 602, 605, 606, 608, 609, and 610 may be taken pass/no pass, but no more than 8 credits may be counted toward the total of 81. All other course work must be taken for letter grades.
2. Completion of State of the Discipline (PS 620) to be taken the first time it is offered
3. Completion of three seminars, selected from PS 621-626, in the three area fields in which the student takes the comprehensive examination. Students should take these seminars as early as possible
4. Demonstrated proficiency in quantitative and qualitative research methods
5. After completion of course work, passing a comprehensive examination in one primary field and two secondary fields selected from the list below. Each field comprises several themes from which the student must choose a subset.
   a. Political theory
   b. Comparative politics
   c. International relations
   d. Formal theory and methodology
   e. United States politics
6. An oral and written examination covers material from the other secondary field

7. Students may use a customized secondary field as one of the two subfields. The content of this subfield is decided by consensus of the student and at least three faculty members.

8. Completion of the 18 credits of Dissertation (PS 603), as required by the Graduate School. These credits must be taken while completing the Ph.D. dissertation, which is written after passing the comprehensive examination

9. Defense of the written dissertation in an oral examination

A complete description of graduate requirements, including an explanation of themes and field requirements, is available on the department website.

Political Science Courses (PS)

Because not every course listed here can be offered every year, students should consult the most recent UO Schedule of Classes or inquire at the department office.

101 Modern World Governments (4) Introduction to the political systems, practices, and institutions of leading contemporary nations including Britain, France, Russia, China, and selected nations in Africa and Latin America. Suttmeier

104 Problems in United States Politics (4) Current policy issues in American politics (e.g., unemployment, education, crime). Medler

199 Special Studies: [Topic] (1–5R)

201 United States Politics (4) Theoretical introduction to American institutions, political doctrines, and ideology as these affect the course of politics and public policy in the United States. Berk, Southwell

203 State and Local Government (4) Linkage between elites and masses with attention to values, beliefs, participation, and process. Topics include mass participation, state and community elites, violence, public policy. Diamond

204 Introduction to Comparative Politics (4) Major concepts and approaches in the study of comparative government and politics. Dawson, Kraus, Suttmeier

205 Introduction to International Relations (4) Introduction to theoretical and methodological tools for the analysis of world politics. Baugh, Darst, Kraus, Mitchell, Skalnis

207 Introduction to Contemporary Political Theory (4) Theories of collective action, power, conflict of interest in the context of political institutions. Orbell, Southwell

208 Introduction to the Tradition of Political Theory (4) Selected issues in political theory such as political obligation, rationality, democracy, and relativism. Covers contemporary and classical theories. Baumgold

225 Political Ideologies (4) Origins, functions, and political implications of several ideologies such as liberalism, fascism, communism, feminism, environmentalism, and nationalism.

230 Introduction to Urban Politics (4) Conflict in cities; power structures; protest movements and political participation; urban political institutions; critiques of urban politics; black politics.

235 Mexican Politics (4) Introduction to contemporary Mexican politics: historical overview; government and politics; political economy, global economic integration, impacts; popular

455/555 Theories of International Politics (4) Competing theories of international relations and strategies for testing the theories. Baugh, Mitchell, Skalnes.

459/559 United States–China Relations (4) Examines the sources and consequences of China's foreign policies since 1949. Kraus.

461/561 Environmental Politics in Industrialized Societies (4) Compares the characteristics and political impact of environmental movements in the advanced capitalist democracies and the communist/postcommunist world. Dawson.

463/563 Government and Politics of Latin America I (4) Historical impact of international economic integration on democracy, equity, and sustainability; Cuban revolution; national security states; new social movements; case studies: Chile, Brazil, Mexico. Goldrich.

467/567 The United States Presidency (4) An ambivalent view of the presidency as the key institution in the United States political system: source of great good but also of great harm. Not offered 2001–2.

468/568 Congress (4) The study of Congress as an institution: congressional elections, the committee system and the internal distribution of influence, relations with the President and the Supreme Court. Southwell. Not offered 2001–2.

470/570 Constitutional Law (4) Surveys how the U.S. Constitution works as a structure for government. Addresses how the federal courts interact within the U.S. system of government. Prereq: PS 275 or instructor's consent. Novkov.

471/571 Outsider Jurisprudence (4) Surveys critiques of American legal theory. Covers criticisms from thinkers who perceive themselves as outsiders in the legal system because of their beliefs. Prereq: PS 470/570 or 485/585 or instructor's consent.

480/580, 481/581 Introduction to Rational Choice I, II (4, 4) Introduces the paradigm of rational choice and game theory that is of special significance to politics. Sequence. Myagkov.

484/584 United States Supreme Court (4) The Supreme Court as a political body; the judicial role in the context of the economic, political, social, and psychological factors that influence the court’s decisions.

485/585 Civil Rights and Civil Liberties (4) Overview of the role of rights in the United States legal system. Particular emphasis on the role of freedom and equality in a federal system. Prereq: PS 275 or instructor’s consent. Novkov.

491/591 Politics of Everyday Life (4) Examines how we try to influence each other’s behaviors in the course of everyday life. Readings from several disciplines. Myagkov, Orbell.

495/595 United States Political Economy (4) Examines United States political-economic institutions from a comparative and historical perspective. Topics include rise and fall of mass production, labor and the law, and regional development. Berk.

496/596 International Security (4) Security as a fundamental national and international political concern, including economic, environmental, military, political, and societal aspects. Emphasis on decision-making and policy consequences. Baugh.

497/597 Environmental Politics (4) Global corporate-led international economic integration’s impact on world environment and equity (e.g., the United States and poor countries. U.S.–Mexico agricultural integration; transnational citizens’ organizing for alternatives). Goldrich.

503 Thesis (1–15R)

601 Research: [Topic] (1–15R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–15R)

605 Reading and Conference: [Topic] (1–15R)

606 Field Studies: [Topic] (1–15R)

607 Seminar: [Topic] (1–4R)

608 Workshop: [Topic] (1–16R)

609 Practicum: [Topic] (1–3R)

610 Experimental Course: [Topic] (1–3R)

620 State of the Discipline (4) Introduction to trends in the political science profession and to the faculty at the University of Oregon.

621 United States Politics (4) Survey of major works in the field of American government.

622 Political Theory (4) Survey of major works in the field of classical and contemporary political theory.

623 Comparative Politics (4) Survey of major works in the field of comparative politics.

624 International Relations (4) Survey of major works in the field of international relations.

625 Public Policy (4) Survey of major works in the field of public policy.

627 Formal Theory and Methodology (5) Reviews basic formal theory as developed in political science since 1957. Baugh, Medler, Myagkov, Orbell.

Faculty

struggles, human rights politics, militarization, United States role; border politics. Goldrich.

275 Legal Process (4) Overview of the United States legal system. Covers a range of sociological writing and provides a context for the legal system under which the U.S. operates. Novkov.

280 Introduction to Political Psychology (4) Not offered 2001–2.

297 Introduction to Environmental Politics (4) United States environmental policy and alternative environmental political futures. Diamond, Goldrich.

301 Art and the State (4) Comparative analysis of issues raised by state intervention in production and distribution of art: censorship, artistic freedom, ideological domination, regulation of artistic marketplace, cultural imperialism. Kraus.

317 Coastal Resources Management Policy (4) Assessment of coastal zone resource management policies, emphasizing Oregon and the Pacific Northwest. Land use, ocean and territorial sea planning involving multiple levels of government. Medler.

324 European Politics (4) Overview of political developments in post–Cold War Europe. Darst, Southwell.

326 United States Foreign Policy I (4) Basic concepts underlying the formulation and implementation of United States foreign policy; relationships between American society and foreign policy; the relationship of the U.S. to its international environment. Baugh, Kraus, Mitchell, Southwell.

338 Southeast Asia in Modern Times (4) Not offered 2001–2.

426/526 United States Foreign Policy II (4) Processes by which United States foreign policy is made and executed; problems leading to suboptimal outcomes; predicting future policy problems and outcomes. Prereq: PS 326 or instructor’s consent. Baugh.

427/527 Crimes against Humanity (4) Definition, causes, and consequences of genocide, war crimes, and other egregious violations of basic human rights. Development and enforcement of international humanitarian law. Darst.

428/528 Politics of Eastern Europe (4) Examines diverse social and political responses to communist oppression across Eastern Europe (1949–89) and the impact of the communist legacy on post-1989 attempts to achieve capitalist democracy. Darst, Dawson.

430/530 Political Theory: Ancient and Medieval (4) Greek, Roman, and medieval political thought covering Socrates, Plato, Aristotle, Cicero, Augustine, and Aquinas. Baumgold.

432/532 Political Theory: Modern and Contemporary (4) Political theory during the 19th and 20th centuries including utilitarianism and radical, revolutionary, and liberal democratic traditions. Baumgold.

433/533 Marxism and Radical Thought (4) Surveys utopian socialist thought, anarchism, Marxism, and Leninism. Central themes include the nature of radical theory, the role of the state, human nature and the new society.

434/534 Feminism and Ecology (4) Ecofeminism as a mode of thought and social movement. Explores political and cross-cultural origins, conceptions of the social and natural, critiques of development, and approaches to population issues. One course in ENVS, INTL, or WST recommended. Diamond.

439/539 Evolution, Cooperation, Ethics (4) Examines the relevance of modern evolutionary psychology for roots of human political and social behavior, in particular cooperative and ethically bound behaviors. Orbell.

442/542 Politics of China II (4) Recent trends in the study of the modern Chinese state. FS 342 or a course in modern Chinese history or society recommended. Kraus.

curriculum planning. This should be done in close and frequent consultation with the adviser.

Peer Advising. The psychology department's peer advisers attempt to make academic advising more effective, welcoming, and efficient. At the beginning of the Week of Welcome, each freshman and transfer psychology major must make an appointment to see one of the peer advisers for an informal and informative advising session.

Questions about any aspect of the university system—how to read the schedule of classes, grading procedures, where to seek financial assistance, how to plan a course schedule, and similar matters—and specific inquiries about the department's norms, opportunities, facilities, and faculty members are welcome at these sessions. After meeting with a peer adviser and designing a tentative term course schedule and a concise list of specific questions, students make appointments with their assigned faculty advisers.

The peer advising stations are open eight hours a day during the Week of Welcome for drop-in consultations and scheduled appointments. During the peer advising office in 141 Straub Hall has regularly scheduled hours. All psychology students are invited to use the facilities (a small library, test file, journals, and graduate school brochures) and to talk informally with a friendly peer adviser.

Liberal Arts Curriculum

Some students are interested in studying psychology with a view toward understanding the diversity of human nature; its relation to literature, science, and the arts; and its contribution to general intellectual currents. They place less emphasis on technical skills in giving tests, running experiments, or analyzing data, and more emphasis on the theories and ideas that serve as a background for research. It is difficult to design any single recommended curriculum for such students. However, the curriculum should combine psychology with a strong emphasis on work in the humanities in addition to courses in science that stress the relation of psychology to philosophy and human concerns. Other courses would, of course, be advisable in programs that stress the relation between psychology and the natural sciences.

Professional Curriculum

The professional curriculum is designed for students who are not planning to do graduate work in psychology but who might want to work in counseling, social work, or school psychology. It is also for students who plan to enter government or business administration. It provides a broad knowledge of psychology as well as experience in a variety of settings in which psychology is applied. Special emphasis is on statistics, writing, computer programming, and other skills that make the student a more attractive job candidate or give an advantage once employment is begun.

Of special importance are opportunities to work on applied psychological projects or papers. These opportunities may be gained through courses in Research (PSY 401), Reading and Conference (PSY 405), or Seminar (PSY 407). By graduation, the student should have prepared a number of papers applying psychology in real settings. The exact curriculum designed depends on the setting or the department in which advanced study is sought.

Preparation for Graduate Study
A bachelor's degree is seldom sufficient qualification for professional work in psychology; at least a master's degree is required for most positions. Students should not undertake graduate work unless their grades in undergraduate psychology and related courses have averaged mid-B (3.00) or better.

Prospective graduate students in psychology are advised not to take a large number of psychology credits beyond the minimum of 40, but to leave time for work in related fields such as anthropology, biology, computer science, chemistry, mathematics, physics, and sociology. Strong preparation in quantitative methods is advisable and might include mathematical statistics. Reading knowledge of at least one second language appropriate to psychology (German, French, Japanese, Russian) may be useful.

Honors Curriculum

Students with good records who plan to pursue a career in psychology may consider applying to the departmental honors program at the end of their sophomore year. The honors program centers on an independent research project, which the student develops and carries out under the supervision of a departmental committee. Information about admission criteria and how to apply is available from the department.

Minor Requirements

The department offers a psychology minor in two options: psychology or psychology with cognitive science emphasis. All courses must be passed with grades of P or C- or better. Special Studies (PSY 199) does not count toward the minor. The psychology option requires 28 credits in psychology; the cognitive science option requires 57 credits in psychology, to be distributed as follows:

<table>
<thead>
<tr>
<th>Option</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>28-29</td>
</tr>
<tr>
<td>Mind and Brain (PSY 201)</td>
<td>8</td>
</tr>
<tr>
<td>and Society (PSY 202)</td>

</tr>
</tbody>
</table>

At least 20 of the 37 credits must be taken for letter grades, and at least 16 must be upper division.

Middle and Secondary School Teaching
The College of Education offers a fifth-year program for middle-secondary teaching licensure in social studies. This program is described in the College of Education section of this catalog.

Graduate Studies

The department emphasizes graduate work at the doctoral level, but an individualized master's degree program is available to a limited number of students.

Master's Degree Program

The individualized master's degree program does not lead to a Ph.D. The degree—either a master of arts (M.A.) or a master of science (M.S.)—requires 45 credits of course work. Application materials and information may be obtained from the department's graduate secretary. Clinical training is not available in the master's program.

Doctoral Degree Programs

The five chief Ph.D. program options are cognitive, physiological psychology, which emphasizes an interdisciplinary neuroscience program with biology and chemistry; clinical; developmental; and social-personality.

The department maintains a psychology clinic; specialized facilities for child and social research, experimental laboratories for human research, including a variety of large and small computers for on-line experimental control; and well-equipped animal laboratories.

Applicants to the Ph.D. program in psychology must take the aptitude test and submit the score from the Graduate Record Examinations (GRE) and provide three letters of recommendation on special forms provided by the department. Detailed information about admission, including application forms and information about awards and graduate teaching fellowships (GTFs), may be obtained from the department.

During the first year of graduate work, students acquire a broad background in psychology and are introduced to research. Each student's program is planned in relation to background, current interests, and future goals. Research experience and a dissertation are required of Ph.D. candidates; teaching experience is recommended, and opportunities to teach are available. For general regulations governing graduate work at the university, see the Graduate School section of this catalog.

Clinical Program

Clinical psychology at the University of Oregon is defined as a psychological science directed toward the understanding, assessment, amelioration, and prevention of intrapersonal and interpersonal problems. Committed to integrating science and practice, the program is designed to train students as clinical scientists through a wide range of activities, all in the context of scientific methodology and scientific skepticism.

First-year graduate study includes department courses required of all students: a year-long sequence surveying the areas of psychology,

Emeriti
Robert F. Farber, professor emeritus. B.S., 1946, Massachusetts Institute of Technology; Ph.D., 1956, Stanford. (1956)
The date in parentheses at the end of each entry is the first year of the University of Oregon faculty.

Undergraduate Studies
Undergraduate courses in psychology provide a sound basis for later professional or graduate training in psychology. They also satisfy the needs of students, majors and nonmajors, who are interested in psychology primarily as a part of a liberal education. In addition, they provide a background in psychological principles and techniques as intellectual tools for work in other social and biological sciences and in such professional fields as education, business, law, and journalism.

Preparation. High school preparation should include courses in social sciences as well as the natural sciences (physics, biology, chemistry).

Language and mathematical skills are also highly desirable. In general, the broad liberal-arts training that prepares students for college studies is appropriate for majoring in psychology at the university.

Careers. Some students major in psychology to prepare for graduate training and careers in related fields such as personnel relations, vocational and personal counseling, medicine and dentistry, social and case work, marketing, administration, the legal profession, or counseling in the public schools. Others prepare for careers as academic psychologists (teaching and research), clinical psychologists (mental health centers, institutions, and private practice), industrial and organizational psychologists, and government psychologists (testing, research, and administration). Career information is also available from the American Psychological Association, 1200 17th Street Northeast, Washington DC 20036, or http://www.apa.org.

Review of Courses
Among lower-division courses, PSY 201 and 304 offer instruction in psychology as a natural science. PSY 202, 231, and 375 introduce psychology as a social science. Honors College Introduction to Experimental Psychology (HC 211H, 212H) is also available. Transfer students should plan to take no more than two lower-division courses before starting upper-division work. The introductory courses should be chosen with an eye toward prerequisites for upper-division courses and toward providing a broad background in the field. Transfer equivalents for lower-division courses are evaluated case by case. Check with the departmental head adviser to determine equivalency of completed introductory work.

Upper-division courses fall into three categories: 1. PSY 302 and 303 are designed to teach research skills and methodologies 2. Other 300-level courses and courses numbered 400 to 429 are of broad interest to many different majors throughout the university as well as to psychology majors 3. Area courses, numbered 430 to 478, are designed for psychology majors, are open to other students who fulfill the prerequisites

Curricular planning aids are fully explained in the Psychology Undergraduate Handbook available in the psychology department office and on the department’s website.

Group Requirements. For psychology courses approved to fulfill social science or science group requirements, see Group Requirements in the Registration and Academic Policies section of this catalog.

Premajor Requirements
Before being formally admitted as psychology majors, students must fulfill the premajor requirements. Students intending to major in psychology are required to take these requirements. After establishing a file in the psychology main office, each premaj or is assigned an adviser.

Premaj or requirements or their equivalents must be passed with grades of C- or better. Set I requirements should be completed by the end of the sophomore year and Set II by the end of the junior year. Delays could postpone graduation.

Set I. College Algebra (MATH 111), Mind and Brain (PSY 201), Mind and Society (PSY 202)

Set II. Statistical Methods in Psychology (PSY 302), Research Methods in Psychology (PSY 303)

MATH 111 in Set I may not be counted as part of the required minimum of 40 psychology credits. If MATH 243, 425, 426, 461, or 462 is substituted for PSY 302 in Set II, the mathematics course may be counted toward the minimum of 40 psychology credits.

After completing premajor requirements, the student must fill out a Change of Major form in the psychology main office.

Major Requirements
Required courses for the premaj or and major must total a minimum of 40 credits in psychology—at least 32 upper division and at least 12 taken at the University of Oregon. A maximum of 4 credits in Field Studies (PSY 406) and Practicum (PSY 409) may be applied to the 32 upper-division credits. Practicum credits must be earned at a practicum site approved by the head undergraduate faculty adviser. Required courses must be passed with grades of C- or better. Elective psychology courses may be taken pass/no pass.

1. 16 credits are distributed as follows:
   a. At least 8 credits selected from E MS 333, PSY 430-450, PSY 494
   b. At least 8 credits selected from EMS 335, PSY 420, PSY 451-478
2. One year of college-level biology, chemistry, or physics

Planning a Program
Besides attending lecture courses, students may participate in seminars, reading and conference courses, laboratory work, fieldwork, and other means of gaining experience. With the aid of advisers, students design programs directed toward one of three options: liberal arts, professional, or honors.

Sample Program
The sample program below provides an idea of a typical course load during the freshman year.

469/569 Psychopathology (4) Major descriptive and theoretical approaches to etiological, developmental, and social factors in emotion and personality disorders. Includes assessment, diagnosis, treatment, and special topics. Prereq: PSY 302, 303. Majors may not receive credit for both PSY 427/527 and 469/569.

470/570 Psychological Assessment (4) Application of psychological methods to the study of the individual; rationale of test construction and interpretation; problems in the prediction of human behavior; psychological assessment techniques. Prereq: PSY 302, 303.

471/571 Personality (4) Theory and methods for studying human traits, including personality measures and tests; studies of age, gender, and culture. Current research in personality. Prereq: PSY 302, 303.

473/573 Marital and Family Therapies (4) Behavioral basis of dyadic interactions; adult intimacy and love relationships. Clinical-counseling approaches; assessment, marital therapies, and evaluation. Models of marital adjustment and assessment of interpersonal relationships. Prereq: PSY 302, 303.

475/575 Cognitive Development (4) Intellectual development in children from infancy to adolescence with a focus on early childhood. Topics covered include perception, attention, memory, reasoning, conceptual structure, social cognition. Prereq: PSY 302, 303.

478/578 Social Development (4) Theoretical issues and empirical studies of social-emotional development. Topics may include attachment, temperament, moral development, family interaction, self-image, aggression, and sex-role development. Prereq: PSY 302, 303.

490, 491, 492 Honors in Psychology (1,1,1R) Reading and conference. R twice for maximum of 3 credits each. Honors psychology majors only.

503 Thesis (1–21R)

501 Research: [Topic] (1–21R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–21R)

607 Seminar: [Topic] (1–5R)

609 Practicum: [Topic] (1–9R)

610 Experimental Course: [Topic] (1–21R)

611 Data Analysis I (4) Introduction to probability, hypothesis testing, and analysis of variance with applications. Includes training in the statistical analysis of data by computer. Prereq: graduate standing in psychology or instructor’s consent. With laboratory.

612 Data Analysis II (4) Multiple regression and advanced topics in analysis of variance. Includes training in the statistical analysis of data by computer. Prereq: PSY 611, graduate standing in psychology or instructor’s consent. With laboratory.

613 Data Analysis III (4) Multivariate techniques including MANOVA, factor analysis, principal components. Includes training in the statistical analysis of data by computer. Prereq: PSY 612, graduate standing in psychology or instructor’s consent. With laboratory.

614 Issues in Biology and Cognition (5) Examination of major issues in the psychological study of cognitive and physiological processes. Theory, research, and application discussed and placed in historical perspective. Prereq: graduate standing in psychology or instructor’s consent.

615 Issues in Personality and Social Foundations (5) Examination of major issues in the psychological study of personality and social processes. Theory, research, and application discussed and placed in historical perspective. Prereq: graduate standing in psychology or instructor’s consent.

616 Issues in Development (5) Examination of major issues in the psychological study of development. Theory and research discussed and placed in historical perspective. Prereq: graduate standing in psychology or instructor’s consent.

620 Psychopathology (3) Definition, measurement, and diagnosis of deviant behavior; includes critical reviews of research on the etiology, intervention, and outcome of major mental disorders. Prereq: graduate standing in psychology or instructor’s consent.

621 Clinical Psychobiology (3) Research and theory from the neurosciences applied to clinical problems and biological therapies. Prereq: graduate standing in psychology or instructor’s consent.

623 Personality Assessment (3) Theory, methods, and related research in approaches to personality assessment; includes projective and objective techniques. Prereq: graduate standing in clinical psychology or instructor’s consent.

625 Individual Psychotherapy (3) Research and major theoretical perspectives in dyadic psychotherapy. Ethics of individual psychotherapy. Prereq: graduate standing in clinical psychology or instructor’s consent.

Jack P. Maddex, history
Elizabeth Reis, history
Sharon B. Sherman, English
Anita M. Weiss, international studies
Ronald Wixman, geography
Daniel N. Wojcik, English

About the Department

The Department of Religious Studies offers courses about the teachings and practices of the world’s major religions. The department does not represent the viewpoint of any religious group, nor does it acknowledge any religion to be superior to others. Rather, courses focus on the history and philosophy of religions including their origins, sacred texts, rituals and practices, beliefs, and subgroups. The courses provide a broad understanding of the nature and role of religion in the world’s many cultures, present and past, for students in all fields, as well as integrated programs for majors in religious studies.

The department annually sponsors two programs for majors in religious studies. The department annually sponsors two programs, the Ira E. Gaston Lecture in Christianity and the Distinguished Visiting Lecturer in Asian Religion, which bring eminent scholars to campus for lectures and seminars.

Preparation. The best high school or community college preparation for an undergraduate program in religious studies is a good general background in social science and literature.

Careers. An undergraduate major in religious studies can lead to graduate work in preparation for teaching religious studies or to religious education at a seminary in preparation for a career as a religious leader. Social service
statistics sequence, and a research project. In addition, clinical students must take a practicum (PSY 629) in clinical methods, assessment, and ethics. Program requirements include six additional courses: Psychopathology (PSY 620), Clinical Psychobiology (PSY 621), and Psychological Interventions: Science and Practice (PSY 625); the other three courses are assessment, intervention, and a clinical elective.

Two year-long clinical practicums are required. Practicums are available through the department's psychology clinic as well as in various settings in the community. Departmental practicums train students in the delivery of empirically supported psychotherapies.

The program's supporting area requirement can be completed through a selection of course work, research, and teaching. Recent examples of supporting areas have been women's studies and developmental psychopathology. By the end of the third year, a student is expected to have completed required course work, the supporting area, and a preliminary examination. The fourth year is devoted mainly to research for the Ph.D. dissertation. In the fifth year, students typically take a year-long clinical internship approved by the American Psychological Association and receive their degrees.

Neurosciences
Neuroscientists in the biology, chemistry, computer and information science, exercise and movement science, and psychology departments have formed an interdisciplinary program in the neurosciences. The focus of the program is experimental neuroscience with the goal of understanding relationships between behavior and the chemical, morphological, and physiological functions of nervous systems. A coordinated graduate degree-granting program of instruction and research is available to students through any of the participating departments.

For more information see the Neuroscience section of this catalog.

Cognitive Science
Cognitive science is an interdisciplinary field concerned with the study of natural and artificial intelligence, culture, and communication.

Psychology faculty members in cognitive psychology have joined with those in other departments to offer work in this field. Psychology undergraduate and graduate students can receive training in cognitive science while pursuing studies in the psychology department. For more information see the Institute of Cognitive and Decision Sciences in the Research Institutes and Centers section of this catalog.

Psychology Courses (PSY)
Transfer students should have the psychology head advisor evaluate courses taken at another institution that might duplicate these courses. Credit is not given for repeating equivalent courses.

199 Special Studies: [Topic] (1–5R)
201 Mind and Brain (4) Introduction to perception, memory, learning, and cognition.

With laboratory.

202 Mind and Society (4) Introduction to topics in personality, social, and developmental psychology. With discussion.

HC 211, 212 (F) Honors College Introduction to Experimental Psychology (4,4) See Honors College

302 Statistical Methods in Psychology (4) Probability and statistics applied in psychological research. Topics include descriptive statistics, hypothesis testing, correlation, regression, and design of experiments. Prereq: MATH 111, PSY 201, 202. With laboratory.

304 Biopsychology (4) Relationships between brain and endocrine activity and behavior. Topics include sensation, perception, sexual behavior, drug effects, eating, drinking, sleeping, dreaming, and learning.

306 Thinking (4) Psychological methods involved in problem solving, complex learning, and various forms of rational and irrational reasoning and belief systems.

375 Development (4) Survey of social, intellectual, and personality development.

380 Psychology of Gender (4) Critical analysis of evidence for sex differences, gender roles, and the effect of gender on traditional issues in psychology. Topics include parenthood, violence, and sexual orientation.

383 Psychoactive Drugs (4) Physiological and behavioral effects of psychoactive drugs such as alcohol, opiates, barbiturates, and excitants. The psychology of use and overuse; therapies for correcting drug problems.

388 Human Sexuality (4) The nature of human sexuality; hormonal, instinctual, and learned factors in sexuality, psychosexual development, sexual orientation; frequency and significance of various types of sexual behavior; sexual inadequacy; sexual deviation.

401 Research: [Topic] (1–21R)
403 Thesis (1–21R)
405 Reading and Conference: [Topic] (1–21R)
406 Field Studies: [Topic] (1–21R)
407/507 Seminar: [Topic] (1–5R)
408 Laboratory Projects: [Topic] (1–9R)
409 Practicum: [Topic] (1–9R)

410/510 Experimental Course: [Topic] (1–5R)
412/512 Applied Data Analysis (4) Intermediate-level practical data analysis and interpretation. Topics include experimental design, analysis of variance, multiple regression; exploratory data analysis. Extensive computer use. Prereq: PSY 303 or instructor's consent.

420/520 Psychology and Law (4) Introduction to topics of concern to both psychology and the law. Includes eyewitness identification, legal decision-making, criminal defenses, profiling, polygraphy, and mental-health law. Prereq: PSY 302, 303 or instructor's consent.

423/523 Abnormal Psychology (4) Unusual behavior including anxiety states, hysteria, hypnotic phenomena, and psychoses. Normal motives and adjustments considered in their exaggerations in the "neurotic" person. Prereq: PSY 201 or 202 or HC 211, 212. PSY 302 recommended. Psychology majors may not receive credit for both PSY 423/523 and 469/569. Not available for credit to psychology Ph.D. candidates.

427/527 Abnormal Psychology (4) Unusual behavior including anxiety states, hysteria, hypnotic phenomena, and psychoses. Normal motives and adjustments considered in their exaggerations in the "neurotic" person. Prereq: PSY 201 or 202 or HC 211, 212. PSY 302 recommended. Psychology majors may not receive credit for both PSY 427/527 and 469/569. Not available for credit to psychology Ph.D. candidates.

430/530 Cognitive Science with Laboratory (5) Psychological approaches to topics in mental representation, language, and other mental processes. Taught in a laboratory environment; includes experiments and simulations of human information processing. Prereq: PSY 302, 303; instructor's consent.

435/535 Learning and Memory (4) Processes underlying learning and memory, including evolution. Topics range from simple forms of behavior change to the acquisition, retention, forgetting, and retrieval of symbolic information. Prereq: PSY 302, 303.

435/535 Cognition (4) Issues of memory; coding for storage, control processes for storage; attention and cognitive control; analysis of more complex cognitive tasks; approaches to problem solving. Prereq: PSY 302, 303.

436/536 Human Perception (4) Motor and intellectual capacities; analysis of flow of information within the nervous system; applications of performance principles to human-machine systems. Prereq: PSY 302, 303.

438/538 Perception (4) Topics covered are color, size, shape, depth, distance, and movement. Examines the relationships between stimuli and perception, stimuli and the neural response, and the neural response and perception. Prereq: PSY 302, 303.

456/556 Social Psychology (4) Processes underlying social perception and social interaction. Topics include aggression, the self-concept, stereotyping and prejudice, conformity, persuasion, attraction, and helping. Prereq: PSY 302, 303.

457/557 Group Dynamics (4) Topics in small-group dynamics, including decision-making, conflict, and changes over time in group structure and behavior. Prereq: PSY 302, 303, 456/556.

460/560 Advanced Social Psychology: [Topic] (4R) Selects a specific topic of inquiry from social psychology (e.g., person perception, self-concept, empathy) and examines research and debates on the topic. Prereq: PSY 302, 303, 456/556. Hodges, Malle, Mauro. R thrice when topic changes for maximum of 16 credits.
Romance Languages

Evelyn Gould, Department Head
(541) 346-4021
(541) 346-4030 fax
102 Friendly Hall
1233 University of Oregon
Eugene OR 97403-1233
http://bapel.uoregon.edu/romance.html

Faculty
Emeriti

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Department

The Department of Romance Languages offers an extensive range of courses and degree programs, from instruction in beginning languages through the study of the literatures and cultures of French-, Italian-, and Spanish-speaking countries. Students can earn a bachelor of arts (B.A.) degree in French, Italian, Spanish, or Romance languages; the master of arts (M.A.) is also available in these areas. The doctor of philosophy (Ph.D.), awarded in Romance languages, encompasses a primary language and literature and a supporting area. Romance languages is a liberal-arts major, providing a solid background for students interested in graduate work, teaching, and, increasingly, other professional and international careers.

Preparation. The department recommends the following preparation for study leading to a major in any of the Romance languages:

1. As much work as possible in the student’s major language. Knowledge of a second Romance language is helpful but not required.
2. Knowledge of the history and geography of the European, Latin American, or African areas where the student’s major language is spoken.
3. Communication skills, speech, and essay or theme writing that help the student convey ideas logically. In literature courses, papers or essay examinations are generally required.
4. Experience in literary studies.

Careers. Students who graduate with a B.A. degree in Romance languages enter a variety of occupations. Language teaching is an obvious possibility. Proficiency in a second language and knowledge of other cultures enhances study and career opportunities in other areas as well.

Students who have a B.A. in Romance languages, especially those who have a second major in another discipline (e.g., art history, business administration, economics, finance, history, international studies, journalism, management, marketing, music, or political science) find positions in communications media, government foreign service, international business and law, libraries, social work organizations, and travel and tourist-related agencies, among others.

Interdisciplinary Faculty

Faculty members in the Department of Romance Languages actively participate in other UO interdisciplinary programs and departments (e.g., African studies, comparative literature, European studies, Latin American studies, linguistics, medieval studies, and women’s studies). For descriptions see those sections of this catalog.

Scholarships

The department administers scholarships for undergraduate and graduate students of second languages. The Perry J. Powers Scholarship is awarded annually to an outstanding Romance languages student. The Charles Stickles Endowment Scholarship is awarded for study in a Spanish-speaking country. The Emmanuel Hatzianthenis Scholarship is awarded every year to a Romance languages major or minor who is studying in Italy with the university’s overseas study program. The Helen Fe Jones Spanish Student Fellowship supports study abroad. The Leona M. Kail Scholarship is awarded every other year to an outstanding student with financial need. The James T. Wetzel Memorial Scholarship is awarded every year to an outstanding graduate student in the Department of Romance Languages. More information may be obtained in early January in the department office.

Undergraduate Studies

Major programs leading to undergraduate degrees are offered in French, Italian, Spanish, and Romance languages (two languages). Majors concentrate on Romance languages, literatures, and cultures. Attention is given to developing the skills of understanding, speaking, reading, and writing the modern idiom. The Yamada Language Center, in 121 Pacific Hall, provides a valuable complement to classroom exercises. Students who intend to do graduate work in Romance languages are advised to begin a second Romance language early in their studies. Courses in English and other literatures are also
organizations such as the YMCA, YWCA, Red Cross, community services, and international relief agencies also provide career possibilities. A major in religious studies provides broad training and enrichment for any of the humanitarian professions.

Undergraduate Studies

Major Requirements

The major requires 44 credits in religious studies courses, not all of which carry the REL subject code. (See Additional Courses listed after the religious studies courses.) Of the 44 credits, 8 must be in Great Religions of the World (REL 201, 202) and 28 must be upper division. All courses satisfying major requirements must be taken for letter grades. A grade of D+ or lower is not accepted as a passing grade in more than one course.

Honors in Religious Studies

Requirements for a degree with honors in religious studies include the following:

1. Satisfaction of the requirements for a major
2. A cumulative grade point average of 3.50 in courses taken to satisfy the major requirements

The candidate for honors typically registers for 4 credits of Research (REL 401) winter term of the senior year, in order to prepare for writing the thesis, and for 4 credits of Thesis (REL 403) spring term, when writing the thesis. A faculty committee of two supervises the thesis project. A first draft of the thesis must be submitted six weeks before the end of the term in which the student expects to graduate and the final draft four weeks before the end of the term.

Minor Requirements

The minor in religious studies requires 24 credits, including 8 in Great Religions of the World (REL 201, 202) and 16 upper-division credits in religious studies. All courses must be taken for letter grades. Grade requirements for the minor are the same as those for the major.

Graduate Studies

The University of Oregon does not offer formal graduate degrees through the Department of Religious Studies. However, students may work with faculty members from religious studies as well as other university departments toward an Interdisciplinary Studies: Individualized Program (IS:IP) master's degree (M.A. or M.S.) focusing on religious studies, offered through the Graduate School. Information is available in the Graduate School section of this catalog.

Advanced Degrees in Other Departments

Another possibility for students interested in graduate work in religious studies is to fulfill requirements for an advanced degree in another university department or program. After each department below are listed the available degrees in a relevant study area and names of participating faculty members (in the given department, unless specified otherwise). Each faculty member's areas of specialization are provided in his or her home department's section of this catalog. Additional information is available from the listed departments.

Asian Studies, M.A. East Asian religions: Andrew E. Goble (history), Mark Unno, (religious studies).

Classics, M.A. Classical civilization; ancient religions in or related to ancient Greece and Rome: Jeffrey M. Hurwitt (art history), Steven Lowenstam, John Nickols (history), J. T. Sanders (religious studies), Steven Shankman (English).

Folklore, M.A. Sharon R. Sherman (English), Carol T. Silverman (anthropology), Daniel N. Wojcik (English).

Religious Studies Courses (REL)

111 Introduction to the Study of the Bible (4) Content and organization of the various Jewish and Christian scriptures; scholarly method and standard research tools used in the study of the Bible. Seniors may be required to meet a higher grade standard than other students. Falk.

199 Special Studies: [Topic] (1–5R)

201, 202 Great Religions of the World (4,4) Hinduism, Buddhism, Confucianism, Taoism, Shinto, Judaism, Christianity, and Islam. Examination of beliefs, practices, and institutions in history and culture.

302 Chinese Religions (4) Prehistoric roots of Chinese religion, Confucius and his followers, philosophical Taoism, Han Confucianism, religious Taoism, Chinese Buddhism, Neo-Confucianism, religion in China today.

314 Greek and Roman Religions (4) Ancient Greek and Roman religions (Greece, Italy, Oriental religions in Roman paganism).

315 Early Judaism (4) Development of the Jewish religion from its earliest existence until the Christian era. Falk.

321, 322, 323 History of Christianity (4,4,4) Course of Christian history in East and West; relations between spirituality, doctrine, and institutional forms. 321: the ancient period, from the Apostolic Fathers to the Islamic conquests (90–650); 322: medieval Western Christianity, from the Germanic invasions to the Reformation (400–1500); 323: modern Western Christianity, from the Reformation to the present (1500 to the present).

330, 331 Buddhism and Asian Culture (4,4) History, doctrine, and practices of Buddhism.

330: introduction to Buddhism. Basic teachings of Buddha and their subsequent development and systematization in India. 331: Buddhism in East Asia. Continuity and change in Buddhist traditions of China, Korea, and Japan. Interaction between indigenous religions and Buddhism.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–4R)

403 Thesis (1–4R)

405 Reading and Conference: [Topic] (1–4R)

407/507 Seminar: [Topic] (1–4R)

408/508 Colloquium: [Topic] (1–4R)

409 Supervised Tutoring (1–4R)

410/510 Experimental Course: [Topic] (1–4R)

422/522 Medieval Christian Mysticism (4) Readings in translation from 12th- to 16th-century Christian mystics including Bernard of Clairvaux, Hildegard of Bingen, Gregory of Palamas, Meister Eckhart, Julian of Norwich.

440/540 Readings in Buddhist Scriptures (4) Readings in representative scriptures in English translation. Selection based on their import in development of Indian Buddhist philosophy and their impact on evolution of East Asian forms of Buddhism.

605 Reading and Conference: [Topic] (1–16R)

608 Colloquium: [Topic] (1–16R)

609 Supervised Tutoring (1–16R)

Additional Courses

For descriptions of the following courses, see the listed departmental sections of this catalog.

Anthropology. Anthropology and Folklore (ANTH 419/519), Topics in Pacific Ethnology: Religions in Oceania (ANTH 425/525), Jewish Folklore and Ethnology (ANTH 429/529), Approaches to the Symbolic (ANTH 435/535)

Art History. Chinese Buddhist Art (ARH 387), Japanese Buddhist Art (ARH 397), Early Christian Art (ARH 430/530), Byzantine Art (ARH 431/531), Romanesque Architecture (ARH 437/537), Islamic Art and Architecture (ARH 490/590)

English. The Bible and Literature (ENG 421/521), Studies in Mythology (ENG 482/582)

Folklore. Folklore and Religion (FLR 411/511)

Geography. Geography of Religion (GEOG 446/546)

History. Religious Life in the United States (HIST 359), 16th-Century European Reformations (HIST 441/541), Early Japanese Culture and Society: Buddhism and Society in Medieval Japan (HIST 498/598)

Philosophy. Philosophy of Religion (PHIL 320), Topics in the Philosophy of Religion (PHIL 439/539)

Sociology. Sociology of Religion (SOC 461/561)
program allows students to focus on a specific field of interest. Both graduate programs offer students solid training as teacher-scholars. The department is proud of its high-quality teaching methods courses, and it offers funding to graduate students who present papers at national academic conferences.

The UO Library System’s resources for research are outstanding. The library’s holdings of learned periodicals are extensive.

Admission

An applicant for admission to the master of arts (M.A.) program should have completed an undergraduate major in a Romance language and literature or its equivalent (e.g., licenciatura, laurea, licenciatura). Students with a degree in another discipline may apply, provided they have a good knowledge of at least one Romance language and are familiar with one Romance literature.

An applicant for admission to the Ph.D. program should have completed a master of arts degree in a Romance language and literature or its equivalent (e.g., licenciatura, laurea). Students with a degree in another discipline may apply, provided they have good knowledge of at least one Romance language and are familiar with one Romance literature.

Admission Procedure

1. Obtain a Graduate Admission Application from the department’s graduate secretary.
2. Send the first copy to the university Office of Admissions with a $50 fee and the remaining copies to the department’s graduate secretary.
3. Submit or have sent to the department’s graduate secretary:
   a. An official transcript showing college-level work as of the date of application.
   b. A 750-word statement of purpose describing academic experience, the reasons for wanting to do graduate work in the UO Department of Romance Languages, and eventual career goals. Students applying to the Ph.D. program must also specify their research interests.
   c. Three letters of recommendation from faculty members who can directly comment on the applicant’s language competence and aptitude for graduate studies in literature. One letter may refer to potential teaching ability.
   d. An official record of verbal and quantitative Graduate Record Examinations (GRE) scores for native English speakers. International students must demonstrate proficiency in English by passing the Test of English as a Foreign Language (TOEFL) with a minimum score of 550 on the paper test or 173 on the electronic test.
4. Submit a substantial writing sample (e.g., master’s thesis, graduate seminar paper, or undergraduate research paper on a relevant topic) if applying to the Ph.D. program.

Priority is given to applicants whose files are complete by February 1. The department’s graduate admissions committee reviews the completed file and notifies each applicant of its decision. New students are typically admitted to the program for fall term.

Graduate Teaching Fellowships

A number of graduate teaching fellowships are available each year for new graduate students in the department. Students should apply to the department by February 1 for fall admission and appointment priority. In exceptional cases, these fellowships may be supplemented by academic scholarships and awards.

During each term of the appointment, graduate teaching fellows must register for and complete at least 9 credits of course work that can be applied to the degree program.

All graduate teaching fellows must take Workshop: Teaching Methods (RL 608) in the fall term of the first year of graduate studies. Students who do not hold GTF appointments are also encouraged to take the workshop.

Master of Arts Program

Students entering the master of arts program may major in French, Italian, or Spanish, or combine two of these languages for a major in Romance languages. The degree program is typically completed in two years.

Degree Requirements

The M.A. degree in French, Italian, or Spanish requires 48 credits of course work. The degree in Romance languages requires that the 48 credits include 32 credits in courses in the primary language and 16 in the secondary language. Course work applied to the degree must be taken for letter grades, and a grade point average (GPA) of 3.00 or better must be maintained.

Students whose knowledge of their major language (French, Italian, or Spanish) is found to be deficient must take remedial work in that area. Students who enter the master’s program with no knowledge of a second Romance language are encouraged to start learning one as soon as possible during their graduate studies. Remedial foreign-language course work may not be applied to the 48 credits required for the M.A. degree.

Besides course work, the master of arts degree program has three additional components: two written examinations and an essay. For the Spanish major, two of the four components must address Spanish American literature and two must address Peninsular literature.

Distribution of Course Work. As part of the 48 credits required for the M.A., French and Spanish majors must complete one course in each of six literary periods. Italian majors must complete one course in each of five periods. All majors must complete a two-course concentration in one literary period or in linguistics, which may not duplicate periods covered by the examination questions or the master’s essay.

Examinations. M.A. candidates take two four-hour written examinations during the seventh week of the spring term of the second year. Students who fail one or both examinations have one chance to take all or part of them again.

1. Students construct individualized reading lists of at least thirty-six works from which examination questions are drawn. A departmental reading list is available as a resource. Students who are combining two Romance languages for the M.A. should construct a reading list that includes twenty-four works for the primary language and twelve for the secondary.

2. One examination question covers historical perspectives and the other explores a theme, a critical problem, or an intellectual issue. At least one of the questions must be answered in the primary language. Students whose major is Spanish must address Peninsular literature in one examination question and Spanish American literature in the other.

3. Literary periods are distributed as follows for each language:
   a. French—Middle Ages, 17th century, 18th century, 19th century, 20th century
   b. Italian—Middle Ages, Renaissance, baroque, 18th and 19th centuries, 20th century
   c. Spanish
     1. Peninsular literature: Middle Ages and Golden Age, 18th and 19th centuries, 20th century
     2. Spanish American literature: colonial, 19th century, 20th century

Master of Arts Essay. The master’s essay—twenty-five to thirty pages—is a revised paper originally written for a graduate seminar. This essay should be written in formal academic prose, present an interpretation, construct an argument, document sources and references, and include honest persuasive strategies. If the essay is deemed unsatisfactory, it may be replaced by an examination question on the same topic.

Overseas Study and Teaching

Several opportunities for study and teaching abroad are available each year. One position is graduate assistant to the director of the Oregon Study Center at the University of Lyon, France, concurrent with studies at the University of Lyon. Another is an assistantship to teach English in a French secondary institution while pursuing studies at a French university, whenever the appointment location allows. A third is an assistantship to direct a one-semester program in Querétaro, Mexico.

Doctor of Philosophy

The Ph.D. program in Romance languages is designed to provide (1) a thorough familiarity with several fields (e.g., a movement, a genre, a period, or a literary problem), (2) the opportunity to situate the student’s special interests in the wider context of Romance languages and literatures as well as in the context of trends inside and outside Western European culture, (3) the tools necessary to engage literary issues at a high level, and (4) the ability to examine new and challenging literary or theoretical perspectives.

The Ph.D. program has five components: course work, comprehensive examination, dissertation prospectus, original dissertation, and final oral defense.

Course Work. The Ph.D. degree requires a total of 80 graduate-level credits—32 credits in addition to the 48 required for the master’s degree. Of these 80 credits:

1. 12 credits must be taken in a second Romance language.
recommended. A goal of the department is to give students a thorough view of the cultures of the countries where Romance languages are spoken. The department encourages students to study at some point in their undergraduate careers, in a country where their target language is spoken.

**Major Requirements**

Specific requirements for each major are listed below. Students are urged to consult their advisors to create balanced programs.

**French, Italian, or Spanish**

Majors must complete a minimum of 12 credits in literature courses beyond the survey level (courses numbered higher than 319) on the Eugene campus—at least 8 credits in courses numbered 407 or higher.

Majors are urged to take additional work in related fields (e.g., another Romance language, English, linguistics, art history, philosophy, history).

**French**

Forty-eight credits in French—passed with grades of C- or better—are required beyond second-year French, distributed as follows:

<table>
<thead>
<tr>
<th>Course</th>

</table>

**Departmental Honors**

Application for graduation with departmental honors in the major must be made through the student's departmental adviser no later than the end of the term preceding the term of graduation.

Approval for graduation with honors is granted to a student who:

1. Maintains at least a 4.00 grade point average (GPA) in all upper-division department course work and at least a 3.50 GPA overall or
2. Maintains at least a 3.75 GPA in all upper-division department course work, maintains at least a 3.50 GPA overall, and submits an honors thesis written under the guidance of a Romance languages faculty thesis adviser. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 pass/no pass (P/N) credits in Thesis (FR, ITAL, SPAN 403)

Transfer credits and overseas work used to fulfill major graduation requirements are typically included in determining the major GPA.

**Minor Requirements**

Students may earn a minor in French, Italian, or Spanish (not in Romance languages) by completing 28 credits in upper-division courses, passed with grades of C- or better, in one language area. At least 12 credits must be in language studies numbered higher than 319, and the courses to be taken in that program. Applications received before February 15 are given priority consideration.

**Study Abroad**

Students are encouraged to study abroad during their tenure at the university. Before going abroad, students should consult an appropriate language adviser about the selection of a program and the courses to be taken in that program.

Courses taken in which the readings or lectures or both are in English typically do not count toward the major, the minor, or the B.A. foreign language requirement.

Students in all University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

**France**

The Oregon University System provides opportunities for a year's study in France at the Universities of Poitiers and Lyon. Although the programs are intended for undergraduates, some graduate credit may be obtained if arrangements are made with the department.

In Poitiers, students with two years of college French take courses at the Angers Center for the Study of French. More advanced students may also attend a few classes at the University of Poitiers. Not all courses taken at Poitiers satisfy major requirements. Students should consult a major adviser before leaving for Poitiers.

In Lyon, students with two years of college French take intensive courses in French language, literature, and history in an institute for foreigners. In addition, they attend regular classes at the universities of Lyon. Students who have three years of college French and have passed an entrance examination take all their courses from the standard curriculum of the Lyon universities alongside native students.

Students with beginning to advanced proficiency in French can also study in Angers at the International Center for French Studies, part of the Catholic University of the West. Programs are offered during summer session, a fall term, or a spring semester.

**Italy**

Since 1970 the university has had a summer program from early July to mid-August in Italy, at the Università Italiana per Stranieri in Perugia, which is open to undergraduate and graduate students. No knowledge of Italian is required, but participants with one or more years of instruction in the language have a wider choice of courses because, with the exception of one offered in English by the director, all others are taught in Italian by faculty members of the host university. Participants must take at least 12 credits. Applications received before February 15 are given priority consideration.

The university participates in a consortium program in Siena, Italy. Students may enroll for one or more terms during the fall-through-spring academic year. The curriculum includes work at all levels in intensive Italian language and courses taught in English on Italian art history, culture, literature, politics, history, and other subjects.

**Mexico**

The department offers language programs in Mexico during summer session and fall and spring terms. The programs offer language training at second-, third-, and fourth-year levels as well as courses in Mexican literature and civilization.

**Spain**

A two-year program in Seville winter and spring terms offers courses in Spanish history, art, and literature as well as language work. The program is designed for students who have studied at the 300 level.

**Secondary School Teaching**

The College of Education offers a fifth-year program for teaching licensure in a foreign language. This program is described in the College of Education section of this catalog.

**Graduate Studies**

The Department of Romance Languages offers programs of study leading to the degree of master of arts (M.A.) in Romance languages, French, Italian, or Spanish and to the degree of doctor of philosophy (Ph.D.) in Romance languages. The master's degree program encourages broad research in each of the language areas. The Ph.D.

303 Culture et langage: identités francophones (4) Language skills with emphasis on the global cultures of the French-speaking world. Grammar review. Prerequisites: FR 203 or equivalent. Djiffack, McPherson.

307 Oral Skills (2R) Practice in improving listening comprehension, and oral skills in French. Communicative activities in class in addition to language laboratory work. Prerequisites: FR 203 or equivalent. R once for maximum of 4 credits.

318 French Survey: Baroque and Enlightenment (4) Introduction to major themes and ideas in French literature from the Baroque and Enlightenment periods through the reading of representative texts. Albert-Galtier, Gould, McPherson.

319 French Survey: 19th and 20th Centuries (4) Representative literary works from the 19th and 20th centuries with attention to literary analysis and literary history. Albert-Galtier, Altmann, Djiffack, Gould, McPherson.

320 Intensive French Grammar Review (4) Promotes linguistic competency in French through intensive review and refinement of French grammar while introducing basic vocabulary and linguistic concepts. Prerequisites: FR 203 or equivalent. Ricci-Whaley, Wiebe.

330 French Poetry (4) Poems from the Middle Ages to the 20th century, literary movements, introduction to textual analysis and modern critical approaches. Prerequisites: two years of college French or equivalent. Albert-Galtier, Altmann, Gould, McPherson.

331 French Theater (4) Explores important aspects of French theater. Reading plays from different periods. Emphasizes formal aspects and critical reading. Prerequisites: FR 301, 303, Albert-Galtier, Gould.

361 Francophone Literature and Culture (4) Examines French culture outside of France—Sub-Saharan Africa, the Caribbean—through literature and film. Djiffack, McPherson. Texts can be read in either English or French.

362 French Film (4) Focuses on the differences between American culture and French and Francophone cultures. Addresses a sensitive issue exemplified by the attitude of the international movie industry. Albert-Galtier, Altmann.

363 Le français du monde économique moderne (4) Promotes linguistic competency in current economic and business French while introducing the international economy of France and the European Union. Prerequisite: FR 203 or equivalent. Wiebe.

399 Special Studies: [Topic] (1–5R) R when topic changes.

403 Thesis (3–6R)

405 Reading and Conference: [Topic] (1–6R)

407/507 Seminar: [Topic] (1–6R)

408/508 Workshop: [Topic] (1–12R)

409 Practicum: [Topic] (1–4R)

410/510 Experimental Course: [Topic] (1–4R)

415/515 French Culture and Civilization (4) Political and social backgrounds of French literature; introduction to French music and art. Prerequisites: FR 301, 303 or FR 317, 318, 319 or equivalents. Marlow, Soilich.

416/516 Advanced Writing in French (4) Extended written production; writing for specific purposes and audiences. Advanced grammar review and composition; study of specialized vocabulary. Prerequisites: FR 301, 303; FR 307 recommended.

417/517 Advanced Oral Skills (2R) Advanced-level practice in improving listening, comprehension, and oral skills in French. Communicative activities in class in addition to language laboratory work. Prerequisites: FR 301, 303; FR 307 recommended. R once for maximum of 4 credits.

425/535 Autobiographical Writings by Women (4) Autobiographical works by authors such as George Sand, Simone de Beauvoir, Colette, Marquise Duras, and Nathalie Sarraute. Specific works and writers vary. McPherson.

451/551 Baroque Theater: [Topic] (4R) Intensive study of representative plays by Molière, Racine, or Corneille with emphasis on modern criticism. Albert-Galtier. R thrice when topic changes for maximum of 16 credits.

460/560 18th-Century Literature: [Topic] (4R) Changing topics concerning trends or particular authors representative of 18th-century French literature. Recent topics include Bein Modern in the 18th century, Revolutionary Knowledge. Prerequisites: FR 317, 318, 319 or equivalent. Albert-Galtier, McPherson. R when topic changes.

461/561 Advanced Writing in French (4) Extended written production; writing for specific purposes and audiences. Advanced grammar review and composition; study of specialized vocabulary. Prerequisites: FR 301, 303; FR 307 recommended.

471/571 Advanced Oral Skills (2R) Advanced-level practice in improving listening, comprehension, and oral skills in French. Communicative activities in class in addition to language laboratory work. Prerequisites: FR 301, 303; FR 307 recommended. R once for maximum of 4 credits.

500/600 Advanced 18th-Century Literature: [Topic] (4R) Selected topics in 18th-century French literature complemented by essays in critical theory. Recent topics include Balzac, Flaubert, the Birth of Realism, and Bohemia. Gould. R when topic changes.

638 Mallarmé (4) Study of Mallarmé’s poetry, prose, and critical essays, his position on the threshold of modernism and his influence on modern critical theorists including Sartre, Barthes, and Derrida. Gould.

693 Surrealism (4) Development of the surrealist movement in art and literature. Analysis of works—prose, poetry, paintings, films—by Apollinaire, Breton, Aragon, Desnos, Eliard, Gracq, Dali, and Buñuel. Calin, Moore.

Italian Courses (ITAL)

Native speakers of Italian or students whose competence in the language already exceeds the scope of the course may not enroll in any lower-division course.

101, 102, 103 First-Year Italian (5,5,5) Introduction to Italian stressing speaking, reading, writing, and comprehension skills. Sequence.

104, 105 Intensive First-Year Italian (6,6) Covers in two terms the work of ITAL 101, 102, 103. Sequence. Cannot be taken in any combination with ITAL 101, 102, 103 to total more than 15 credits of first-year Italian.

150 Cultural Legacies of Italy (4) Italy’s contributions to world cultures: modern Italian life, Italian in America, Italian cinema and its influence, Italian Renaissance at home and abroad. Lollini, Psaki. Conducted in English.

199 Special Studies: [Topic] (1–5R)

301 Cultura e lingua: l’Italia contemporanea (4) Language skills with emphasis on strategies for reading different types of text in Italian (e.g., current press, short stories, poetry); vocabulary enrichment activities. Prerequisites: ITAL 203 or equivalent. Ceccacci, Lollini, Psaki.
2. Up to 12 credits may be taken outside of the department with the adviser’s consent.
3. Only 4 credits of Reading and Conference (FR, ITAL, SPAN 605) may be applied to the Ph.D. degree. Students with an M.A. in French, Italian, Spanish, or Romance languages from another institution must take a minimum of 40 credits in the Department of Romance Languages. The department’s graduate committee evaluates previous graduate course work and determines whether additional work is necessary to fill any gaps in a student’s preparation. This may result in a student having to take more than 40 credits at the UO—up to a maximum of 68 credits. If the candidate is found to be seriously deficient or if the master’s degree is in a field other than Romance languages, the graduate committee may admit the student into the master’s program. In this case, the student may submit a petition to the committee to transfer a maximum of three courses toward the twelve courses required for the M.A. This petition may be submitted after the student has completed four graduate-level courses with grades of mid-B or better in the Romance languages master’s program.

Comprehensive Examination. Students entering the Ph.D. program should develop, as soon as possible but no later than the third term of work beyond the master’s degree, a field of interest for the Ph.D. comprehensive examination and ideally for the dissertation. This field of interest usually emerges from the selected courses and shapes the subfields represented on the comprehensive examination. The comprehensive examination consists of two written examinations and an oral examination. Each written examination covers a subfield that pertains to the student’s field of interest. The student creates a reading list for each of the subfields, which must bear directly on the field of interest. The subfield reading lists should be defined and prepared with three members of the Romance languages faculty who constitute the Ph.D. examination committee. One of these faculty members should represent the student’s second Romance language. A fourth member may be added from another department.

The written examinations take the form of essays that respond to two questions formulated by two members of the Ph.D. examination committee. Each written examination covers one or more of the subfields and can be up to twenty double-spaced typed pages in length. The student has two weeks to write each of the two essays. Two weeks after the successful completion of the written essays, the student takes an oral examination. The oral examination attempts to integrate the subfields addressed in the written examinations with the other facets of the student’s declared field of interest. In a two-hour conversation, the candidate and the committee members examine and elaborate on ways in which the written essays and other subfields relate to the student’s field of interest.

Typically undertaken during the fifth term of study following the master’s degree, the comprehensive examination should result in clarification of the dissertation’s subject matter and possible approaches to it. At the least the oral examination should produce a tentative dissertation topic. It is the student’s responsibility to schedule both the written and oral portions of the comprehensive examination.

Dissertation Prospectus. The prospectus, typically completed during the sixth term of study following the master’s degree, defines the scope of the dissertation and demonstrates the originality of the project. The student submits a five- to eight-page prospectus and a bibliography of primary and secondary material to the faculty members on the dissertation committee.

Dissertation. The dissertation constitutes an original and valuable contribution to scholarship in the student’s field of interest. It should be characterized by mature literary interpretation, informed and reasoned argument, and an awareness of the means and goals of research.

It is the student’s responsibility to ascertain the rules and deadlines of the Graduate School for proper filling of the dissertation.

Final Oral Defense. When the dissertation committee has approved the dissertation, a public oral defense of the work is held. The dissertation committee, other faculty members, and the general public may question the candidate about the dissertation’s implications and its use to the field.

Funding

Work for the Ph.D. beyond the master’s degree, including the dissertation, is typically completed in three to four years of study. Students who enter the Ph.D. program with a master’s degree from another institution are typically eligible for a maximum of four years of funding. Students entering the Ph.D. program with a master’s degree from another department are typically eligible for a maximum of four years of funding.

Ph.D. students who are making satisfactory progress toward the degree are eligible for graduate teaching fellowships. GTFs include stipends for teaching and tuition waivers. "Satisfactory progress" entails completion of courses taken for credit with grades of mid-B or better, passing the Ph.D. comprehensive examination, timely submission of an acceptable dissertation prospectus, and regular and timely progress on the dissertation itself. See also Graduate Teaching Fellowships earlier in this section of the catalog.

Romance Languages Courses (RL)

199 Special Studies: [Topic] (1-5R) R when topic changes.

315 Phonetics for Romance Languages (4) Introduction to contrastive articulatory phonetics of Romance languages (French, Italian, Portuguese, Spanish). Knowledge of two Romance languages recommended. Taught in English. Students may not receive credit for RL 315 as well as FR 315 and SPAN 315.

407/507 Seminar: [Topic] (1-5R) Changing topics on issues relevant to study in two or more Romance languages. Recent topics include Inventing Nations, Literature and Testimony, Medievalism. 410/510 Experimental Course: [Topic] (1-5R)

420/520 Romance Linguistics: [Topic] (2-4R) Variable topics in historical linguistics, sociolinguistics, dialectology. SPAN 315, RL 315, any LINQ course recommended. R twice when topic changes for a maximum of 12 credits.

503 Thesis (1-16R)

602 Supervised College Teaching (1-16R)

603 Dissertation (1-16R)

607 Seminar: [Topic] (1-6R) R when topic changes.

608 Workshop: [Topic] (2-4R) Teaching Methods offered fall term only. Other workshops may be offered. R when topic changes.

609 Supervised Tutoring (1-16R)

620 Graduate Study in Romance Languages (2-4) Discussion of purposes, problems, and methods of graduate study in Romance languages. Elements of critical method, research techniques, scholarly writing, and professional development. Gould, Psaki.

627 Literature and Ideology (4R) Introduction to literary theories that inscribe texts into the contexts of cultural power structures. Readings selected from Marx, Lukács, Adorno, Foucault, Barthes, Habermas, and others. R when topic changes.

French Courses (FR)

NATIVE SPEAKERS OF FRENCH OR STUDENTS WHOSE COMPETENCE IN THE LANGUAGE ALREADY EXCEEDS THE SCOPE OF THE COURSE MAY NOT ENROLL IN THE FOLLOWING COURSE.

101, 102, 103 First-Year French (5,5,5) Introduction to French stressing the development of listening, speaking, reading, and writing skills through a communicative approach. Sequence. Cannot be combined with FR 101, 102, 103 for more than 15 credits of first-year French.

150 Cultural Legacies of France (4) French civilization in France and beyond. Possible topics are Francophone Africa; the Caribbean; Vietnam; North America; modern France; French film, architecture, and painting. Albert-Gallier, Altmann, Gould. Conducted in English.

111, 112 Intensive Beginning French (6,6) Intensive study for experienced language learners; introduction to French culture. Prereg: evidence of placement or departmental approval. Sequence. Cannot be combined with FR 101, 102, 103 for more than 15 credits of first-year French.

301, 302, 303 Second-Year French (4,4,4) Development of reading, writing, and speaking skills; study of short literary and cultural texts; considerable attention paid to oral use of the language. Sequence.

211, 212 Intensive Intermediate French (5,5) Intensive intermediate-level study for proven capable language learners. Prereg: FR 103 or 112, placement or departmental approval. Sequence. Cannot be combined with FR 201, 202, 203 for more...
399 Special Studies: [Topic] (1-5R) R when topic changes.

403 Thesis (3-6R)

405 Reading and Conference: [Topic] (1-6R)

410/510

407/507

320 Intensive Spanish Grammar Review (4R) Review and development of the more complex aspects of Spanish grammar with special attention to idiomatic usage. Prereq: SPAN 203, Davis, Verano, Zabala.

331 Introduction to Spanish Theater (4) Explores important aspects of Spanish theater. Reading plays from different periods of Spanish and Spanish American literature. Emphasizes formal aspects and critical reading. Prereq: SPAN 301, 303. Gladhart.

333 Introduction to Spanish Narrative (4) Explores important aspects of Spanish narrative. Reading texts from different periods of Spanish and Spanish American literature. Emphasizes formal aspects and critical reading. Prereq: SPAN 301, 303. Castillo, García-Pabón.

361, 362, 363 Hispanic Culture and Civilization (4, 4, 4) Intellectual, cultural, and historical background of the Spanish-speaking world. 361: Spain; 362: Mexico; 363: Latin America.

399 Special Studies: [Topic] (1-5R) R when topic changes.

403 Thesis (3-6R)

405 Reading and Conference: [Topic] (1-6R)

407/507

410/510

417/517 Advanced Oral Skills (2R) Advanced-level practice in improving listening, comprehension, and oral skills in Spanish. In-class communicative activities, language laboratory work.

399 Special Studies: [Topic] (1-5R) R when topic changes.

420/520 Spanish Linguistics: [Topic] (4R) Variable topics in Spanish linguistics. Recent topics include Spanish Phonology, History of the Spanish Language. SPAN 315 recommended. Davis. R when topic changes.

435/535 Spanish American Short Story (4) The short story in Latin American literature. Readings from major Spanish American authors such as Arreola, Borges, Cortázar, Donoso, García Márquez, Quiroga, Ruíz. Prereq: SPAN 318, 319. Epple, García-Pabón, Gladhart.

444/544 Introduction to Medieval Spanish Literature (4) Survey of key texts and cultural issues in medieval Iberian literature, ca. 1000-1500. Introduction to contemporary theoretical debates. Undergraduate prereq: SPAN 301, 303, 316.

452/552 Renaissance and Baroque Poetry (4) Petrarchism of Garcilaso and Herrera; traditional forms, especially the romance; poetry of Fray Luis de León, San Juan de la Cruz, Santa Teresa, Góngora, Lope de Vega, and Quevedo. Prereq: SPAN 316, 317. Castillio.

460 Don Quijote (4) Careful reading of Don Quijote along with discussion of major critical topics and of its place and importance in literary history. Prereq for majors: three from SPAN 316, 317, 318, 319 or equivalent; prereq for nonmajors: equivalent background in literature. Castillo, Verano.

466/566 Introduction to Spanish Golden Age (4) Survey of major figures and cultural issues in the Spanish Golden Age, ca. 1500s-1700s.

470/570 Latino Cultures: [Topic] (4R) Examines cultural issues relating to Latino and Latina experience in the United States. Topics may include La Frontera, language and identity, artistic movements, and genres. Prereq for 470: 12 credits in 300-level language or literature, or instructor's consent. Szurmuk. R thrice when topic changes for maximum of 16 credits.

480/580 19th-Century Spanish American Literature: [Topic] (4R) Topics include issue of literary periods, authors, narrative and nation, genres, and indigenousism. Prereq: SPAN 318, 319. R twice when topic changes for maximum of 12 credits.

490/590 20th-Century Latin American Literature: [Topic] (4R) Explores major literary trends, authors, and works. Recent topics are testimonial literature, Neruda, nation and literature, post-modernity in Latin America, Borges. Prereq: SPAN 318, 319. R twice when topic changes for maximum of 12 credits.

492/592 20th-Century Spanish Literature: [Topic] (4R) Topics may include the avant-garde, post-Francisco Spain, regional and national identities, representations of women. Prereq for 492: 12 credits in 300-level language or literature, or instructor's consent. May. R thrice when topic changes for maximum of 16 credits.

RL 503 Thesis (1-16R)

601 Research: [Topic] (1-6R) Prereq: instructor's consent.

603 Dissertation (1-16R)

605 Reading and Conference: [Topic] (1-6R)

607 Seminar: [Topic] (1-6R) Recent topics include Clerical Verse, García Márquez, Golden Age Theater, La Celestina, Lope de Vega, Neruda, Novela y Nación, Poetry of the Generation of 1927, Sojeto y subjetividades.

609 Practicum: [Topic] (1-4R)

644 Medieval Iberian Cultures: [Topic] (4R) Cultural and ideological readings of medieval Iberian literature. Topics selected from major texts of the period. R when topic changes.

650 Advanced Colonial Latin American Literature: [Topic] (4R) Representative works of Colonial Latin America. Recent topics include Epic of the Conquest, Indian Theater, Sor Juana Inés, Barroco de Indias. R twice when topic changes for maximum of 12 credits.

666 Golden Age Cultural Studies (4) Recent cultural theory (e.g., cultural studies, feminist approaches, psychoanalytic perspectives) applied to the Spanish Golden Age.

680 Advanced 19th-Century Spanish American Literature: [Topic] (4R) Selected Latin American topics from literary periods, authors, genres, and aesthetic trends. R twice when topic changes for maximum of 12 credits.

690 Advanced 20th-Century Latin American Literature: [Topic] (4R) Selected topics from literary periods, authors, genres, and aesthetic trends. R twice when topic changes for maximum of 12 credits.
305 Italian Literature in Translation (4) Language skills with emphasis on writing strategies for different genres; grammar review. Prereq: ITAL 203 or equivalent. Ceccecci, Lollini, Psaki.
306 Dante in Translation (4) Studies various artistic expressions through time and the influence of the mass media on the social structure and language. Prereq: ITAL 203, 303. Ceccecci, Lollini, Psaki.
307 Oral Skills (2R) Practice in improving listening, comprehension, and oral skills in Italian. Communicative activities in class in addition to language laboratory work. Prereq: ITAL 203 or equivalent. Ceccecci. R twice for maximum of 6 credits.
309 Literary Skills (4) Acquisition of critical vocabulary and concepts through readings in major genres and short writing assignments. Prereq: ITAL 202. Designed for students with limited exposure to literature.
310 Basic Italian for Reading (4) Italian for students or scholars in other disciplines who need to be able to read Italian texts in their field. Giustina, Psaki. Conducted in Italian.
317 Italian Survey: Medieval and Renaissance (4) Introduction to major themes and ideas in Italian literature from the medieval and Renaissance periods through the reading of representative texts. Prereq: two years of college Italian or equivalent. Lollini, Psaki. Conducted in Italian.
318 Italian Survey: Baroque and Enlightenment (4) Introduction to major themes and ideas in Italian literature from the baroque and Enlightenment periods through the reading of representative texts. Lollini, Psaki. Conducted in Italian.
319 Italian Survey: 19th and 20th Centuries (4) Representative literary works from the 19th and 20th centuries with attention to literary analysis and literary history. Lollini, Psaki. Conducted in Italian.
320 Intensive Italian Grammar Review (4) Bridges second- and third-year culture and literature courses. Provides review, synthesis, consolidation, and elaboration of linguistic knowledge gained from lower-division courses. Ceccecci, Lollini, Psaki.
342 Italian Literature in Translation (4) Examines Italian literature from the sublime to the merely curious. Endeavors to illustrate the massive influence of this literature. Lollini, Psaki. Conducted in English.
362 Classic Italian Film (4) History of classic Italian cinema and its influence abroad, especially in the United States. Directors studied include Fellini, Pasolini, Bertolucci, Antonioni, and Wertmuller. Lollini.
363 Contemporary Italian Film (4) History of contemporary Italian cinema and its influence abroad, especially in the United States. Directors studied include Scola, Taviani, Tornatore, Moretti, and Nischetti. Lollini.
399 Special Studies: [Topic] (1–5R) R when topic changes.
403 Thesis (3–6R)
405 Reading and Conference: [Topic] (1–6R) Guided reading.
407/507 Seminar: [Topic] (1–6R) Recent topics include Italian Folktales, Italian Theater, Women Renaissance Poets, Venice.
408 Workshop: [Topic] (1–12R) Special group activities such as production of Italian plays. Prereq: two years of college Italian or instructor’s consent.
409 Practicum: [Topic] (1–4R)
410/510 Experimental Course: [Topic] (1–4R) 431/531 Baroque and Neo-Baroque in Italian Literature (4) Explores major cultural, historical, aesthetic, and religious problems in 17th-century Italy and the emergence of the neo-baroque in the 19th and 20th centuries. Prereq: reading knowledge of Italian. Lollini.
441/541 Medieval Italian Culture: [Topic] (4–6R) Cultural productions of 13th- and 14th-century Italy (e.g., translating Dante, rewriting Boccaccio, chivalric romance) and the history of their interpretation. Psaki. R twice when topic changes for maximum of 12 credits. Conducted in Italian.
444/544 Medieval and Renaissance Literature: [Topic] (4–6R) Focuses on a topic from 13th- to 16th-century Italy (e.g., medieval foundations of the Renaissance, Petrarch and Petrarchism, literary subjectivity, the body in literature). Psaki. R twice when topic changes for maximum of 12 credits. Conducted in Italian.
449/549 Humanism and the Renaissance (4) Covers authors who exemplify learning, aesthetics, and ideology of Renaissance Italy (e.g., Ariosto, Castiglione, Leonardo, Machiavelli, Michelangelo, Tasso). Includes essays in criticism and theory. Prereq: work in literature. Psaki.
481/581 19th-Century Literature: [Topic] (4R) Topics concerning issues or authors in 19th-century Italian literature (e.g., Irony and Novel, Leopardi and Italian Romanticism). Prereq: previous work in literature. Lollini. Conducted in Italian. R when topic changes.
491/591 20th-Century Literature: [Topic] (4R) Topics about issues or figures in 20th-century Italian literature (e.g., Symbol and Allegory in Modern Literature, Modern Lyric Poetry). Prereq: previous work in literature. Lollini. Conducted in Italian. R when topic changes.
498/598 Italian Women’s Writing (4) Women’s polemical engagement with established genres of poetry and fiction from Gasparsta Stampa to Dacia Maraini. Psaki. Conducted in Italian. 100, 103 (1–5R)
601 Research: [Topic] (1–6R) Prereq: instructor’s consent.
603 Dissertation (1–6R)
605 Reading and Conference: [Topic] (1–6R) 607 Seminar: [Topic] (1–6R) Recent topics include Italian Women’s Historical Fiction, The Italian Lyric, Verga’s Narrative.
609 Practicum: [Topic] (1–4R)

Spanish Courses (SPAN)

Native speakers of Spanish or students whose competence in the language already exceeds the scope of the course may not enroll in any lower-division course.

101, 102, 103 First-Year Spanish (5,5,5) Emphasis on the development of speaking, reading, and writing skills using; introduction to Hispanic culture. Sequence. Conducted in Spanish.

111, 112 Intensive Beginning Spanish (6,6) Intensive study for experienced language learners; introduction to Hispanic culture. Prereq: evidence of placement. Sequence. Conducted in Spanish. Cannot be combined with SPAN 101, 102, 103 for more than 15 credits of first-year Spanish.

150 Cultural Legacies of Spain (4) The rich cultural heritage of the Spanish-speaking world. Topics include Jewish, Arabic, and Christian relations in medieval Iberia; the encounter with the New World; Hispanic experience in the United States. Garcia-Fabens, Grandja, Mart, May, Szurmuk, Verano. Conducted in English.

199 Special Studies: [Topic] (1–5R)
201, 202, 203 Second-Year Spanish (4,4,4) Continued development of Spanish-language skills; emphasis on diversity of Hispanic cultures. Sequence. Conducted in Spanish.

211, 212 Intensive Intermediate Spanish (5,5) Intensive intermediate-level study for proven capable language learners. Prereq: SPAN 103 or 112, placement or departmental approval. Sequence. Cannot be combined with SPAN 201, 202, 203 for more than 12 credits of second-year Spanish. Not offered 2001–2.

301 Culture y lengua: identidades hispanas (4) Development of advanced language skills through analysis of major historical influences in the cultures of Spanish-speaking regions: Spain, Latin America, and the United States. Pre- or coreq: SPAN 203 or 212 or equivalent. Taught in Spanish.

303 Culture y lengua: expresiones artísticas (4) Development of advanced language skills through the study of cultural products (e.g., art, literature, film, music) in Spanish-speaking societies. Pre- or coreq: SPAN 203 or 212 or equivalent; SPAN 301 recommended. Taught in Spanish.

305 Culture y lengua: cambios sociales (4) Development of advanced language skills through the investigation of major currents of change in modern Spanish-speaking societies; gender issues, technology, revolution and counter-revolution. Pre- or coreq: WR 122 or equivalent SPAN 203 or 212 or equivalent: SPAN 301 recommended. Taught in Spanish.

307 Oral Skills (2R) Practice in improving listening, comprehension, and oral skills in Spanish. Communicative activities in class in addition to language laboratory work. Prereq: SPAN 203 or equivalent. R once when content changes for maximum of 4 credits.

315 Spanish Pronunciation and Phonetics (4) Study of Spanish sounds, rhythms, and intonation; supervised pronunciation practice. Prereq: SPAN 203; SPAN 301 recommended. Davis.

316 Survey of Peninsular Spanish Literature (4) Introduction to major themes and ideas from the medieval period to 1800 through the reading of representative texts. Prereq: SPAN 301, 303. Castillo, Powell, Verano.

317 Survey of Peninsular Spanish Literature (4) Introduction to major themes and ideas from...
Appropriate degree, certificate, or minor planning sheets list requirements; they and other forms and procedures are available in the REESC office, as are model or sample programs for each program in both fields of concentration.

Undergraduate Studies

The center offers a bachelor of arts degree (B.A.), a minor, and an undergraduate certificate.

Major Requirements

The major requires 40 graded credits; courses must be passed with grades of C- or better. Credits used to fulfill the language requirement may not be applied to the 40-credit requirement.

1. Language. Three years of college study or equivalent in languages of the region. The language requirement may be fulfilled by either of the following options:
   a. Three years of one Slavic language
   b. Two years of one Slavic language and one year of another language of the region

   The language option is chosen in consultation with REESC advisers

2. Field of Concentration. Seven 4-credit REESC-approved courses in a selected field of concentration. At least four of these courses must be upper division.

3. Research. Students write a research paper in conjunction with one of their upper division courses or as a separate reading and conference course in their field of concentration.

4. Electives. Three 4-credit REESC-approved courses outside the student's field of concentration. At least two electives must be upper division courses

Double Majors

Courses taken to fulfill requirements for a second major may not be used to fulfill the 40-credit requirement of the REESC major. To apply for a double major, students must complete and submit a declaration form to the REESC office.

Honors in Russian

 Majors who have an overall GPA of 3.50 by the end of the junior year and who are interested in honors should meet with their adviser, then submit a thesis proposal to the center's executive committee for approval. If approved, the student registers for a minimum of 4 credits in Thesis (403) under the supervision of a REESC faculty member. The thesis, which fulfills the research requirement, must be completed at least one term before the term of graduation.

Minor Requirements

The minor requires 28 graded credits; courses must be passed with a grade of C- or better. Courses taken to fulfill minor requirements may not be used to fulfill the 28-credit requirement.

1. Language. See Language under Major Requirements above

2. Field of Concentration. Five 4-credit, REESC-approved courses in a selected field of concentration

3. Research. See Research under Major Requirements above

4. Electives. Two 4-credit REESC-approved courses are required outside the student's field of concentration

Undergraduate Certificate

The undergraduate certificate in Russian and East European studies requires 28 graded credits; courses must be passed with grades of B- or better. Requirements for the four components of the certificate are the same as for the minor.

The REESC certificate may be earned in conjunction with any major. Courses taken to fulfill the undergraduate degree may also be used to fulfill certificate requirements.

Secondary School Teaching

The College of Education offers a fifth-year program for teaching licensure in foreign language. This program is described in the College of Education section of this catalog.

Graduate Studies

The Russian and East European Studies Center offers a master of arts (M.A.) in Russian and a graduate certificate in Russian and East European studies. The center is closely affiliated with the master's and Ph.D. programs in comparative literature and linguistics.

Master of Arts

Application. Graduate application materials are available in the REESC office. The application deadline for admission the following fall term is February 1. Applications from those not seeking graduate fellowship support are considered throughout the academic year if space is available in the program.

Incoming candidates for the master's degree must meet with an adviser and take a Russian proficiency examination on the Friday before the beginning of their first academic term.

Graduate students are expected to meet regularly with their adviser and submit an updated program plan every spring term. Students and their advisers use degree planning sheets to design individual programs.

Degree Requirements

The M.A. in Russian requires 49 graded graduate-level credits; courses must be passed with grades of B- or better. Credits used to fulfill the language requirement may not be applied to 49-credit requirement. The M.A. typically takes six terms to complete, but can be finished in less time if the student takes courses during summer session.

1. Language. Four years of college study or equivalent in languages of the region. The language requirement may be fulfilled by either of the following options:
   a. Four years of one Slavic language
   b. A total of four years in two languages of the region

2. Field of Concentration. Six 4-credit REESC-approved courses in a field of concentration.

3. Research. Students write a research paper in conjunction with one of their courses or as a separate reading course in their field of concentration.

4. Electives. Four REESC-approved graduate-level courses, 16 credits. The field of concentration and the academic needs of the candidate define the choice of electives

Graduate Certificate

The graduate certificate in Russian and East European studies requires 32 graded graduate-level credits; courses must be passed with grades of B- or better. Credits used to fulfill the language requirement may not be applied to the 32-credit requirement.

1. Language. Four years of college study or equivalent in languages of the region. The language requirement may be fulfilled by either of the following options:
   a. Four years of one Slavic language
   b. A total of four years in two languages of the region

2. Field of Concentration. Six 4-credit REESC-approved courses in a field of concentration

3. Research. Students write a research paper in conjunction with one of their courses or as a separate reading course in their field of concentration.

4. Electives. Two 4-credit REESC-approved courses outside the field of concentration

The REESC certificate may be earned in conjunction with any M.A. or Ph.D. degree. Courses taken to fulfill the graduate degree may also be used to fulfill certificate requirements. REESC master's candidates may earn a graduate certificate if the field of concentration in the certificate is not the same as the one in the master's degree.

Russian Courses (RUSS)

101, 102, 103 First-Year Russian (5,5,5)
Elementary Russian grammar, reading, conversation, and composition.
121 Spoken Russian: [Topic] (1–2R) R twice for maximum of 6 credits.
196 Field Studies: [Topic] (1–2R)
198 Workshop: [Topic] (1–2R)
201, 202, 203 Second-Year Russian (5,5,5)

Emeriti

Courtesies

The center sponsors extended stays by visiting Fulbright and International Research and Exchange Board (IREX) scholars from Russia and Eastern Europe. Recently, Boris Mironov of the St. Petersburg branch of the Russian Academy of Sciences was a distinguished visiting professor in the Department of History.

Career Counseling. Students in the center prepare themselves for significant careers related to this area—teaching, research, consulting, private industry, and government service—or simply enrich their general education and their understanding of our world. The center provides individual counseling about careers and about the choice of graduate programs at the university or other major area-study centers.

Overseas Study. Qualified students of Russian may spend a summer, semester, or academic year in the Commonwealth of Independent States (CIS)—in the Council on International Educational Exchange (CIEE) Cooperative Russian Language Program, of which the University of Oregon is an affiliate. Participating CIEE schools include Novosibirsk State University and St. Petersburg University. Students may also participate in Moscow and St. Petersburg programs sponsored by the American Council of Teachers of Russian (ACTR). Opportunities also exist for study in the Czech Republic, Hungary, and Poland. Limited fellowship aid is available for these programs.

Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog. Students interested in study in the CIS or in Eastern Europe should write or call the Overseas Program Coordinator, Office of International Education and Exchange, 5209 University of Oregon, Eugene OR 97403-5209; telephone (541) 346-3206.

Cultural Programs. The center sponsors lectures, panel discussions, symposiums, films, exhibitions, concerts, and festivals. These presentations involve scholars from other institutions in the United States and Europe as well as specialists at the university. In addition, the center faculty engages in outreach activities with local schools, community groups, and organizations such as the Eugene-Irkutsk Sister City Committee. Students in the center organized a Russian Club.

Resources. The University of Oregon Library System contains more than 130,000 volumes in the Russian and other Slavic and East European languages, more than 60,000 on Russia and Eastern Europe in Western languages; and subscribes to more than 100 serial titles. The library also has a large collection of Russian and East European films. The bulk of the collection is in the humanities and social sciences.

The center at the well-known Yamada Language Center enhance the learning of Slavic and East European languages. For more information see Yamada Language Center in the Services for Students section of this catalog.

General Requirements

The undergraduate and graduate degrees and certificates and the undergraduate minor offered by the Russian and East European Studies Center all have the following requirements:

1. A defined level of proficiency in Russian or other languages of the region

2. A field of concentration selected from:
   a. Slavic languages, literatures, and cultures—courses in Slavic and East European languages, literatures, linguistics, culture, art, music, dance, and anthropology
   b. Regional studies—courses in Russian and East European history, politics, business, economics, geography, environment, anthropology, library sciences, religion, philosophy, journalism, and sociology

Students who want to design their own field of concentration must meet with their adviser and submit a petition to the executive committee for approval. Petitions are not accepted later than three terms before graduation. The executive committee also considers petitions that include courses from departments other than those listed in each field of concentration above or for elective credit.

3. A research project. The student’s REESC adviser must approve the paper topic, and the paper must be submitted to the REESC office before graduation

4. A designated number of elective courses

In addition to these requirements, there are limits on the number of transfer credits and the number of credits of reading, research, or thesis that can be used to satisfy requirements. A planning sheet for each degree, certificate, or minor lists these limits.

Only language courses taken beyond those needed to fulfill the language proficiency requirement may be used to satisfy field of concentration or elective requirements.

Advising. Students must plan and complete their programs under the guidance of REESC faculty advisers and are encouraged to declare, at the earliest possible moment, their intention to complete one of the center’s programs.

Undergraduate Studies

The Scandinavian Studies Committee endeavors to stimulate interest in Scandinavian culture, society, languages, and history. The committee is a focal point for faculty members and students who want to teach or take courses related to Scandinavia or to do research on Scandinavian countries. Students can earn a minor in Scandinavian or a major in German with a German and Scandinavian option. See the Germanic Languages and Literatures section of this catalog for information about both academic programs.

Overseas Study

Students in all University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog for information about both academic programs.

Undergraduate courses in Scandinavian studies have close ties to the information services of Nordic countries. Students can earn a minor in Scandinavian or a major in German with a German and Scandinavian option. See the Germanic Languages and Literatures section of this catalog for information about both academic programs.

Undergraduate Studies

Sociology is the analytical study of the development, structure, and function of human groups and societies. It is concerned with the scientific understanding of human behavior as it relates to, and is a consequence of, interaction within groups. The undergraduate program in the Department of Sociology provides a broad understanding of human society for students in every field and integrated programs for majors in sociology.

Preparation.
High school students planning to major in sociology should take courses in history and social studies. Substantial work in mathematics, English composition, and second languages is also desirable. Two-year transfer students are advised to come with a year's work in introductory-level sociology courses as well as courses that fulfill university group requirements.

Careers.
Recent graduates with bachelor's degrees in sociology are found in all the pursuits traditionally open to liberal-arts graduates—especially beginning positions in social work, personnel work, and recreation. Some graduates go on for additional training in graduate professional schools of social work, business administration, and law. A bachelor's degree alone is seldom sufficient to allow a person to enter a professional career as a sociologist. Students who seek careers as social scientists enter graduate programs in sociology or related fields.

Curriculum.
Undergraduate courses in sociology are offered on three levels. Courses at the 200 level provide an introduction to the field. The basic course is the one-term Introduction to Sociology (SOC 204). Students should take SOC 204 and Social Inequality (SOC 207) before moving on to upper-division courses. Courses at the 300 level extend the student's knowledge of subjects covered in the 200-level
316, 317, 318 Third-Year Russian (5,5,5) Intensive study of literary works by representative 19th- and 20th-century ... consent. R when topic changes.

406 Field Studies: [Topic] (1-21R) instructor's consent. R when topic changes.

425/525 Classics of Russian Poetry: [Topic] (4R) Comprehensive study of selected topics in Russian poetry (e.g., Alexander Pushkin, Russian symbolism, acmeism, futurism, and contemporary poetry). Rice. R twice when topic changes for maximum of 12 credits.

432/532 Russian Prose Classics: [Topic] (4R) Comprehensive study of works by one or two authors: Gogol', Turgenev, Chekhov, Nabokov. Readings in English; Russian selections for majors. Rice. R thrice when topic changes for maximum of 16 credits.

434/534 Russian Literature: [Topic] (4R) Comprehensive study of selected topics in Russian literature, (e.g., 20th-century, contemporary, and Old Russian literature). Rice. R twice when topic changes for maximum of 12 credits.

436/536 Advanced Russian: [Topic] (4R) Analysis of Russian texts, films, and TV broadcasts about selected topics in Russian culture, literature, politics, and economics with practice in comprehension, conversation, and composition. Prereq: RUSS 316, 317, 318 or equivalent or instructor's consent. R twice when topic changes for a maximum of 12 credits.

440/540 Russian Phonology and Morphology (4) Russian phonology and morphology (sound system and word formation). Vakareliyska.

441/541 Russian Syntax and Semantics (4) Issues in Russian syntax (generative and non-generative models), semantics (grammatical case), and pragmatics (discourse analysis, gender linguistics). Prereq: second-year Russian or LIN 290 or equivalent. Vakareliyska.

444/544 Introduction to Slavic Languages (4) Comparative survey of Slavic languages, their relationships to each other, and the characterizing features of each individual language. Prereq: RUSS 203 or LIN 290. Vakareliyska.

445/545 Old Church Slavonic (4) Sound system and grammar of Old Church Slavonic; its role as a primary source of evidence on the development of the Slavic languages. Readings from Old Church Slavonic texts. Prereq: second-year Russian or LIN 290 or equivalent. Vakareliyska.

446/546 History of Russian Literary Language (4) Development of Russian language from Indo-European to the present. Focus is Early East Slavic or Old Russian. Medieval and early modern ecclesiastical and historical texts (11th to 19th centuries). Prereq: second-year Russian or LIN 290 or equivalent. Vakareliyska.

450/550 Russian Literature (4) Readings, lectures, and texts from the 10th through the 20th centuries. Rice. R twice when topic changes for maximum of 12 credits.

452/524 Dostoevsky (4) Dostoevsky's intellectual and artistic development; context and structure of The House of the Dead, Notes from the Underground, Crime and Punishment, The Idiot, The Brothers Karamazov, and other works. Readings in English. Rice.

461/561 Old Church Slavonic (4) Sound system and grammar of Old Church Slavonic; its role as a primary source of evidence on the development of the Slavic languages. Readings from Old Church Slavonic texts. Prereq: second-year Russian or LIN 290 or equivalent. Vakareliyska.

462/562 Russian Prose Classics: [Topic] (4R) Comprehensive study of works by one or two authors: Gogol', Turgenev, Chekhov, Nabokov. Readings in English; Russian selections for majors. Rice. R thrice when topic changes for maximum of 16 credits.

464/564 Russian Literature: [Topic] (4R) Comprehensive study of selected topics in Russian literature, (e.g., 20th-century, contemporary, and Old Russian literature). Rice. R twice when topic changes for maximum of 12 credits.

466/566 Advanced Russian: [Topic] (4R) Analysis of Russian texts, films, and TV broadcasts about selected topics in Russian culture, literature, politics, and economics with practice in comprehension, conversation, and composition. Prereq: RUSS 316, 317, 318 or equivalent or instructor's consent. R twice when topic changes for a maximum of 12 credits.
Students who successfully complete the honors program are awarded honors, high honors, or highest honors based on faculty sponsors’ evaluation of the level and quality of their work. The honors distinction is noted on the student’s official transcript and diploma.

Applicants to the honors program must demonstrate a high level of competence and motivation for advanced studies in sociology. A GPA no lower than 3.40 in sociology courses or a nomination by two faculty members is required. Interested students should apply during the spring term of their junior year but no later than the first week of the first term of their senior year. Application forms are available in the sociology department office and the peer advising office.

During fall term of the senior year, honors students take part in the honors seminar (SOC 407), in which they work closely with a faculty adviser and other students to refine research questions and design. By the end of the term, each student submits a thesis proposal for approval by the seminar adviser and forms a committee consisting of two faculty members to supervise the remainder of the project. During winter and spring terms, students work independently with their committee and proceed with data collection and analysis. Students complete and turn in the thesis during spring term.

Minor

The minor in sociology is inactive. Students who declared a minor in sociology before fall 1994 may complete the minor if space is available in required courses.

Preparing for Graduate Study

Students planning graduate work in sociology should have a strong background in sociological theory and social research methods well beyond courses required for the major. Besides taking advanced courses in areas of special interest to them, students should take a substantial number of upper-division courses in other social sciences. Applications to graduate school should be made in fall or winter the year before the student plans to enter a graduate program. Students considering graduate school should talk to their faculty advisers about programs at various schools, experiences that increase chances for admission, and requirements for students in graduate programs in sociology.

Middle and Secondary School Teaching

The College of Education offers a fifth-year program for middle-secondary teaching licensure in social studies. This program is described in the College of Education section of this catalog.

Graduate Studies

The graduate program of the Department of Sociology is intended primarily to lead to the doctor of philosophy (Ph.D.) degree. Students seeking an advanced degree in sociology should have achieved a grade point average (GPA) of 3.00 or better in their undergraduate work in the social science. Admission is not restricted to students with undergraduate majors in sociology, although the chance of admission is considerably reduced for someone without any undergraduate work in sociology. Students admitted to the graduate program with a bachelor’s degree are required to complete 60 credits of graduate-level work—all taken for letter grades except work in Research (SOC 601), Dissertation (SOC 603), Reading and Conference (SOC 605), or Supervised Field Study (SOC 606). Students should be able to complete the 60-credit requirement in their first six terms of enrollment. Those maintaining a GPA of 3.00 or better are awarded either a master of arts (M.A.) or a master of science (M.S.) degree upon completion of this requirement.

Prior to being admitted to the doctoral program, students must pass the departmental qualifying examination in theory and methods. Next, the student defines at least two fields of specialization and prepares for comprehensive examinations in these areas. Upon passing the comprehensive examinations, the student is advanced to Ph.D. candidacy and begins work on the doctoral dissertation, which must embody the results of research and show evidence of originality and ability in independent investigation. Early in their graduate work, students should begin defining the general topic to be covered in the dissertation research.

Many students receive some type of financial assistance. In addition, some graduate students hold part-time teaching or research appointments outside the department. A booklet, Information for Graduate Students, available from the department, describes the graduate program, specifies the materials needed to apply for admission, lists specific course requirements, and includes a list of faculty members and their research interests. Students applying for graduate admission should submit all necessary materials by February 1.

Sociology Courses (SOC)

Because every course cannot be offered every year, students should consult the most recent UO Schedule of Classes or inquire at the department office.

196 Field Studies: [Topic] (1–2R)
198 Workshop: [Topic] (1–2R)
199 Special Studies: [Topic] (1–5R)
204 Introduction to Sociology (4) The sociological perspective with emphasis on fundamental concepts, theories, and methods of research.
207 Social Inequality (4) Overview of social inequality, cross-culturally and within the United States. Examines relationships of social inequality based on social class, race, and gender to social change, social institutions, and self-identity. Prereq: SOC 204
301 American Society (4) Selected aspects of American culture and institutions and the ways in which they are changing. Prereq: SOC 204
303 World Population and Social Structure (4) Introduction to population studies. Comparative analysis of historical, contemporary, and anticipated demographic change. Emphasis on demographic transitions between and within developed and underdeveloped countries. Prereq: SOC 204
305 America’s Peoples (4) Examines the size, composition, and distribution of America’s ethnic and racial subpopulations have shaped social structure, social culture, and social change in the United States. Prereq: SOC 204.
310 Development of Sociology (4) Analysis of the major writers and ideas that have shaped contemporary sociology. Focus on recurrent concepts and issues that continue to challenge sociological inquiry. Prereq: SOC 204 or instructor’s consent.
311 Introduction to Social Research (4) The development of social research; the nature of scientific inquiry and basic methods and techniques; examination of representative sociological studies from the standpoint of methodology. Prereq: SOC 204.
312 Quantitative Methods in Sociology (4) Construction and interpretation of tables and graphs, descriptive statistics, measures of association and contingency relationships, basic ideas of probability, and elementary statistical inference applied to nonexperimental research. Prereq: MATH 95 or equivalent, SOC 204, 311.
317 Sociology of the Mass Media (4) Analysis of media events: advertisements, news broadcasts, documentaries, popular music, and television. Perspectives include content analysis, semiotics, functionalist and structuralist paradigms, and power system analysis. Prereq: SOC 204, 310.
328 Introduction to Social Psychology (4) How the thought, feeling, and behavior of individuals are influenced by the actual, imagined, or implied presence of others. Prereq: SOC 204.
330 Sociology of the Family (4) The family in historical perspective. Introduction to the family as a social institution and small-group association. Prereq: SOC 204.
335 Interaction and Social Order (4) Introduction to ethnmethodology, which is the study of methods by which humans order their activities, and conversation analysis, which focuses on methods organizing talk-in-interaction. Prereq: SOC 204.
345 Race, Class, and Ethnic Groups (4) Major class, racial, and ethnic groups in the United States with special attention to the culture and experience of minority groups. Prereq: SOC 207.
346 Work and Occupations (4) Characteristics of work and occupational careers in modern societies; relationships of those to family, the economy, bureaucracy, technology, and alienation. Prereq: SOC 207.
347 Complex Organizations (4) Nature of organizations in modern societies (e.g., specialization, impersonality, formalization, authority and power) relationship of organizations to work and careers, stratification, democracy, discrimination, and deviance. Prereq: SOC 204.
355 Sociology of Women (4) Position of women in contemporary society; women and work, politics, families, the economy; intersection of gender, race, and class; women’s movements. Prereq: SOC 207.
courses and provide an introduction to social research methods and social theory. It is strongly recommended that SOC 310, 311, and 312 be completed before taking 400-level courses.

Courses at the 400 level are advanced and specialized. Most build on background obtained in the 200- and 300-level courses. Upper-division (300- and 400-level) classes are usually smaller in size than the lower-division classes and provide more opportunity for faculty-student interaction. Students should have at least 12 credits in sociology before taking 400-level courses.

Major Requirements
1. A minimum of 44 credits in undergraduate sociology courses
2. At least 36 of the 44 credits must be upper division and 16 of the 36 must be numbered 407 or 410-491; 12 of the 16 credits in 400-level courses must be taken at the University of Oregon
3. No more than 8 credits in courses numbered 401-406 and 408-409 may be applied to the major
4. Courses used to satisfy major requirements must be taken for letter grades and passed with grades of C- or better; at least a 2.00 grade point average (GPA) must be achieved in these courses. SOC 204, 207, and courses numbered 401-406 and 408-409 may be taken pass/no pass (P/NG); P grades must be earned to apply them to the major
5. Completion of the following courses:
   a. Development of Sociology (SOC 310)
   b. Introduction to Social Research (SOC 311)
   c. Quantitative Methods in Sociology (SOC 312).

Planning a Program
An adviser is assigned to each student at the time the major is declared. The department also maintains an active peer advising program through which undergraduate students receive advising services from their peers, who maintain regular office hours. The peer advising office is in 709 Prince Lucien Campbell Hall.

With the help of peer advisers and the faculty adviser, the student should set out a model program that emphasizes experiences most useful for the student’s educational and career objectives. It is essential, however, that students consult their advisers concerning the selection of courses. Students with specific career plans may also go to the Career Center, 244 Hendricks Hall, for advice on suitable course programs.

General Sociology
Students who want a broad liberal-arts education should begin with SOC 204 and 207. These lower-division courses provide an introduction to the discipline with emphasis on how sociology can be applied to contemporary social issues. Students specializing in general sociology may then take courses that provide a more in-depth study of social institutions. Courses on social stratification, social psychology, and social change help to tie these diverse areas together by providing perspectives that are useful in the study of any institutional area. Finally, courses in sociological theory and methodology provide a tool kit of analytical and research skills that are useful both in sociology courses and in whatever activities the student pursues after graduation.

Concentration Areas
Students can focus their upper-division course work in one or more areas of concentration listed below. Concentrations are optional, it is each student’s responsibility to plan their schedule far enough in advance to complete concentration requirements. A list of courses to be offered during the academic year is available in the sociology office or peer advising office each fall.

Each concentration requires completion of at least four courses from the respective category with grades of C- or better. Students who successfully complete a concentration receive formal recognition upon graduation. In addition to the courses listed below, approved internships (SOC 404) and special topics courses (SOC 407 and 410) may count toward the completion of the concentration. Information about internships is available in the sociology department office.

Crime and Delinquency. Introduction: Deviance, Control, and Crime (SOC 380), Urbanization and the City (SOC 442), Crime and Social Control (SOC 480), Issues in Deviance, Control, and Crime (SOC 484)

Culture, Education, and Religion. American Society (SOC 301), Sociology of Mass Media (SOC 317), Sociology of Family (SOC 330), Sociology of Religion (SOC 461), Sociology of Education (SOC 491)

Environment, Population, and Society. American Society (SOC 301), World Population and Social Structure (SOC 303), Community, Environment, and Society (SOC 304), Social Demography (SOC 415), Issues in Sociology of Environment (SOC 416), Urbanization and the City (SOC 442), Sociology of Developing Areas (SOC 450)

Family, Gender, and Sexuality. American Society (SOC 301), Sociology of Family (SOC 330), Sociology of Women (SOC 355), Issues in Family Sociology (SOC 425), Social Stratification (SOC 451), Issues in Sociology of Gender (SOC 455), Feminist Theory (SOC 456), Sex and Society (SOC 457)

International Systems. Political Economy (SOC 420), Sociology of Developing Areas (SOC 450), Systems of War and Peace (SOC 464), Political Sociology (SOC 465)

Politics and Social Movements. American Society (SOC 301), Social Issues and Movements (SOC 313), Sociology of Mass Media (SOC 317), Political Economy (SOC 420), Urbanization and the City (SOC 442), Systems of War and Peace (SOC 464), Political Sociology (SOC 465), Marxist Sociological Theory (SOC 475)

Race, Ethnicity, and Social Change. American Society (SOC 301), America’s Peoples (SOC 305), Race, Class, and Ethnic Groups (SOC 345), Experimental Courses: Contemporary Asian American Issues, Contemporary Immigration (SOC 410), Social Demography (SOC 415), Sociology of Race Relations (SOC 445), Social Stratification (SOC 451)

Social Interaction. Introduction to Social Psychology (SOC 328), Interaction and Social Order (SOC 335), Advanced Topics in Social Psychology (SOC 428), Ethnomethodology and Conversation Analysis (SOC 435)

Social Theory and Methods. Sociological Research Methods (SOC 411, 412, 413), Feminist Theory (SOC 456), Contemporary Sociological Perspectives (SOC 474), Marxist Sociological Theory (SOC 475)

Work, Labor, and Economy. American Society (SOC 301), Work and Occupations (SOC 346), Complex Organizations (SOC 347), Political Economy (SOC 420), Issues in Sociology of Work (SOC 446), Issues in Sociology of Organizations (SOC 447), Social Stratification (SOC 451), Marxist Sociological Theory (SOC 475)

Career Planning
When planning a program students should keep in mind the ways in which concentration areas and major requirements fit with career objectives. Careers pursued by sociology graduates are discussed below.

Social Service Professions. Social service professions include social work, work in nonprofit organizations, counseling, community relations, housing, labor relations, and human resources. Sociology majors who want to enter a helping profession should take at least one course in sociological methodology, at least two courses in social psychology, and several courses dealing with social issues and problems. Students may want to complete one of the concentrations listed above in order to focus on a specific group of social issues and problems.

Students may supplement their programs with courses in the psychology and political science departments and in the College of Education. Many of these occupations require graduate or field training. Students can get more detailed information from the Career Center.

Business or Government Service. Business or government organizations typically require general human-relations skills, some awareness of organizations and the surrounding social environment, and an ability to analyze and understand basic social data.

Students interested in business should include in their programs courses in methodology, social psychology, and organizations and occupations. Programs may be supplemented with courses in the Lundquist College of Business and in the Department of Economics.

Students with career goals in governmental service should include course work covering the community, urban affairs, population, and resources; social psychology; organizations and occupations; and methodology. Related courses in the planning, public policy and management, political science; and economics departments are also useful.

Honors in Sociology
Motivated students may participate in the honors program in sociology, which provides qualified students with opportunities to work closely with faculty members and fellow honors students on a yearlong project, either applied or theoretical, of their own design and write an honors thesis. The thesis may be based on primary or secondary data collected by the student or experiences gained from an internship.
Southeast Asian Studies

William S. Ayres, Associate Director

(541) 346-5119

About the Curriculum

The University of Oregon offers students an exceptional opportunity to pursue interdisciplinary studies on Southeast Asia. A faculty made up of specialists from across the university can acquaint students with recent research on a range of issues including women, health, healing, and nutrition in Thailand and Indonesia; the archaeology of Thailand and Malaysia; education and development in Vietnam, Laos, and Thailand; regional political novels and films; mass violence in Indonesia and Cambodia; regional musics and dance; historic preservation and the politics of landscape and development in Malaysia; indigenous, colonial, and postcolonial architectures; regional transnationalisms; political biography in the Philippines; and indigenous minority communities and cultures throughout the region. Individualized and self-instructional study of Southeast Asian languages can be arranged through the Yamada Language Center.

Important resources include a Southeast Asian librarian in Knight Library, the Center for Asian and Pacific Studies, the Vietnam Sister University Project, and the Office of International Education and Exchange. The university also belongs to the Northwest Consortium for Southeast Asian Studies (along with the Universities of Washington, British Columbia, and Victoria), which sponsors conferences, workshops, outreach, study-abroad opportunities, internships, fellowships, student and faculty exchange, and cooperation between libraries.

Southeast Asian studies is part of the Asian Studies Program. Undergraduates may pursue Southeast Asian studies as a minor in conjunction with majors in most departments (e.g., anthropology, geography), as a concentration in international studies, or as the basis for a B.A. in Asian studies. Graduate students may pursue M.A. in Asian studies with Southeast Asia as an emphasis or may develop a Southeast Asian specialty as part of their advanced study in other M.A. and Ph.D. programs (e.g., history, anthropology, international studies). See the Asian Studies section of this catalog for requirements and curriculum offerings.

Statistics

Roland H. Good III, Committee Chair

(541) 346-3315
305 Gilbert Hall

Steering Committee

Lorraine G. Davis, academic affairs
Stephen E. Haynes, economics
Robert M. O'Brien, sociology
Larry E. Richards, decision sciences
Daming Xu, mathematics

About the Curriculum

The University of Oregon does not have a formal department or faculty of statistics. However, a variety of courses are either exclusively or primarily about statistics. Over the past several decades statistical techniques have become a primary tool of empirical research. As such, a variety of functional areas and disciplines teach applied statistical techniques. This is particularly true at the graduate level, where research plays an important role. Listed below are permanently numbered courses in statistics offered at the university.

Degrees

The Department of Decision Sciences in the Lundquist College of Business offers a graduate degree with a specialty in statistics, and the Department of Mathematics in the College of Arts and Sciences offers both undergraduate and graduate degrees with a specialty in statistics. Interested students should inquire at the appropriate department for specific requirements.

Courses

Statistics courses are offered in six departments and the following five areas. Students and advisors should be aware that, within any given area, two or more courses offered by different departments may contain such similar content that a student may not be granted credit toward graduation for more than one of the courses.

Introductory Statistics

Economics. Introduction to Econometrics (EC 420/520, 421/521), Econometrics (EC 423/523)

Mathematics. Introduction to Methods of Probability and Statistics (MATH 243) and Business Statistics (DSC 330), Statistical Methods II (MATH 425/525, 426/526), Introduction to Mathematical Methods of Statistics II (MATH 461/561, 462/562)

Psychology. Statistical Methods in Psychology (PSY 302), Data Analysis I (PSY 611)

399 Special Studies: [Topic] (1–5R) Prereq: SOC 204.

401 Research: [Topic] (1–21R)

403 Thesis for Honors Candidates (1–21R)

404 Internship: [Topic] (1–6R)

405 Reading and Conference: [Topic] (1–21R)

406 Supervised Field Study: [Topic] (1–21R)

407/507 Seminar: [Topic] (1–5R) Offerings vary from year to year depending on student needs and faculty interests. Recent topics include Children and Society, New Religious Movements, and Social Thought and the Environment.

408/508 Workshop: [Topic] (1–21R)

409 Supervised Tutoring Practicum: [Topic] (1–21R)

410/510 Experimental Course: [Topic] (1–5R)

411/511, 412/512, 413/513 Sociological Research Methods (4, 4, 4) 411/511: investigates strengths and weaknesses of various research methods for testing sociological theories and describing social facts. Prereq: SOC 311 or equivalent.

415/515 Social Demography (4) Causes and consequences of demographic change in racial or ethnic groups in the United States. Techniques of demographic analysis. Prereq: SOC 303 or equivalent or 12 credits in sociology.

416/516 Issues in Sociology of the Environment: [Topic] (4R) Analysis of selected topics in environmental sociology. Topics include environmental movement, impacts of technological change, environmental policy and the state, environmental values, attitudes, and behaviors. Prereq: 12 credits in sociology or instructor's consent. R twice when topic changes for maximum of 12 credits.

420/520 Political Economy (4) Survey of the fundamentals of political economy. Readings from Marxian and mainstream traditions introduce contemporary debates on socioeconomic crisis. Prereq: 12 credits in sociology or instructor's consent.

425/525 Issues in Family Sociology (4) Analysis of selected topics in the sociology of the family. Topics include the sociology of parenthood, feminist perspectives on the family, and the family in cross-cultural perspective. Prereq: SOC 330 or equivalent.

428/528 Advanced Topics in Social Psychology: [Topic] (4R) Topics may include altruism and helping behavior, communication and language, socialization, prejudice, conformity, collective behavior, aggression, or other basic areas of social psychological research. Prereq: SOC 328 or instructor's consent. R twice when topic changes for maximum of 12 credits.

435/535 Ethnomethodology and Conversation Analysis (4) Advanced study of the common-sense sources, methods, and practices through which members of a culture construct and make sense of social activities, especially conversation. Prereq: SOC 310, 335 or instructor's consent.

442/542 Urbanization and the City (4) Determinants and consequences of urbanization under different conditions; the city as a social and ecological system. Prereq: 12 credits in sociology.

445/545 Sociology of Race Relations (4) Racial oppression as a structural and ideological feature in American life. Prereq: introductory course in sociology, anthropology, or psychology; SOC 345 or instructor's consent.

446/546 Issues in Sociology of Work: [Topic] (4R) Selected topics in sociology of work: occupational structures and careers, industrial democracy; technological change and work reform, politics of work. Prereq: SOC 346 or instructor's consent. R twice when topic changes for maximum of 12 credits.

447/547 Issues in Sociology of Organizations: [Topic] (4R) Analysis of selected topics in the sociology of organizations. Topics include industrial sociology, organizational change, organizational democracy; corporate deviance; bureaucracy, power, and society. Prereq: SOC 347 or instructor's consent. R twice when topic changes for maximum of 12 credits.

450/550 Sociology of Developing Areas (4) Social and economic structures and processes promoting or inhibiting change in the developing nations of Africa, Asia, Latin America. Topics include urbanization, industrialization, cultural change, world poverty, and dependence. Prereq: 12 credits in sociology.

451/551 Social Stratification (4) The interrelations among class, race, and sex. Historical origins and development of class and class systems including slavery. Prereq: 12 credits in sociology.

455/555 Issues in Sociology of Gender: [Topic] (4R) Advanced analysis of gender and social relations of power in contemporary society. Variable topics include Class, Gender, and Race; Women and Health; Women and Work. Prereq: SOC 355 or WST 101 or instructor's consent. R twice when topic changes for maximum of 12 credits.

456/556 Feminist Theory (4) Examines major sociological theories that elucidate the position of women and gender as part of the configuration of social relations of power in contemporary societies. Prereq: SOC 355 or 455/555, or upper-division course on gender in another department, or instructor's consent.

457/557 Sex and Society (4) Examines alternative sociological perspectives on sexual behavior, the social construction and regulation of sexual identity, contemporary social and political issues pertaining to sexuality. Prereq: 12 credits in sociology or instructor's consent.

461/561 Sociology of Religion (4) Sociological analysis of religious belief and behavior; special attention to the relation between religious institutions and the larger societies of which they are a part. Prereq: 12 credits in sociology or instructor's consent.

464/564 Systems of War and Peace (4) Violence and nonviolence as functions of social structures and as instruments of social change. Systems of international threat, their supporting institutions, and the ideology of nationalism. Prereq: 12 credits in sociology.

465/565 Political Sociology (4) Analysis of political theory and behavior, social bases of power and policy determination, institutional interrelationships, intellectuals and ideologies, political trends and change, political participation and membership. Prereq: 12 credits in sociology.

474/574 Contemporary Sociological Perspectives: [Topic] (4R) Major contemporary theoretical perspectives including critical issues being debated. May focus on a single contemporary perspective or on a variety of contemporary perspectives. Prereq: SOC 310 or instructor's consent. R twice for maximum of 12 credits.

475/575 Marxist Sociological Theory (4) Basic concepts, theory, and social analysis in the works of Marx and Engels. Topics include dialectical and historical materialism, class, historical development, political economy, and imperialism. Prereq: SOC 310 or instructor's consent.

480/580 Crime and Social Control (4) Emphasizes major substantive areas of crime and control in the United States and developing societies, especially in Pacific Rim areas. Prereq: SOC 380 or instructor's consent.

484/584 Issues in Deviance, Control, and Crime: [Topic] (4R) Topics vary. Examples are modern policing, hate crimes, cross-national research in crime. Prereq: SOC 380 or instructor's consent. R twice when topic changes for maximum of 12 credits.

491/591 Sociology of Education (4) The relationships between education and other social institutions, the school and the community, the school as a social system, social change and education. Prereq: 12 credits in sociology.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

604 Internship: [Topic] (1–6R)

605 Reading and Conference: [Topic] (1–16R)
The M.F.A. is typically a three-year program. Both the M.A. and the M.S. degrees require specialization—directing, acting, set design, lighting design, and costume design. Students working on their terminal artistic projects take approximately 130 credits beyond the bachelor’s degree. After candidates have completed their three terms before graduation, they are directed to take a written or oral examination during the first term of residence. This examination is diagnostic, and it is used to determine a study program for the student. Each student’s study program is planned in consultation with an adviser and a diagnostic committee. This program constitutes a contract that must be fulfilled by the student unless it is amended in consultation with the diagnostic committee.

All candidates for graduate degrees are required to take a comprehensive examination and take an oral defense. The dissertation must be completed with letter grades of mid-C or better. Grading Options. Some courses in theater arts are offered pass/no pass (P/N) only. Work counts toward fulfillment of the 180-credit requirement for a B.A. or B.S. only if satisfactorily completed.

### Honors in Theater Arts

The honors program is designed to serve a select group of students who have demonstrated unusual ability and uncommon commitment. The program is administered by a special honors committee. For more information, interested students should consult their academic advisers three terms before graduation.

### Minor Requirements

The theater arts minor requires 24 college-level credits in theater arts. Of these 24 credits, at least 16 must be taken at the university and 16 must be upper division. One course in each of the following areas must be included: literature and criticism, performance, technical theater, and theater history. All course work for the minor must be completed with letter grades of mid-C or better.

### Graduate Studies

The theater arts department offers graduate work in acting, directing, design, history, literature, criticism, and theory leading to the M.A., M.S., M.F.A., and Ph.D. degree. Students entering this program should have an undergraduate major in theater arts or the equivalent.

### Graduate Degree Requirements

Both the M.A. and the M.S. degrees require 45 credits in graduate courses, and both require a thesis with an oral examination. The M.A. also requires competence in a second language. The M.F.A. is typically a three-year program requiring a minimum of 54 credits. Areas of specialization are directing, acting, set design, lighting design, and costume design. Students may not apply for admission to the M.F.A. program until they have enrolled for 36 credits in courses appropriate for the M.A. degree. A list of specific course requirements is available from the department. Typically, course work is substantially completed during the first two years, and students work on their terminal artistic projects during subsequent terms. An oral evaluation and review of the project is held following completion of the project performance. A written report on the project, previewed by the candidate’s report committee, follows the review.

The Ph.D. degree has no minimum credit requirement. However, most theater arts students take approximately 130 credits beyond the bachelor’s degree. After candidates have completed most of their course work, they write a comprehensive examination and take an oral examination. The comprehensive examination committee may require that all or part of the examination be retested with or without additional courses. Students who fail to pass this examination by the second try may not remain in the theater arts Ph.D. program. A dissertation with an oral defense is required. The dissertation must be completed within three years after the student is advanced to candidacy, which happens after passing the comprehensive examination.

### General Requirements

The only course required of all theater-arts graduate students is Research Methods (TA 611). Ph.D. candidates are expected to complete 60 to 90 credits in history, theory, and literature of the theater after obtaining a master’s degree.

All candidates for graduate degrees are required to take a written or oral examination during the first term of residence. This examination is diagnostic, and it is used to determine a study program for the student. Each student’s study program is planned in consultation with an adviser and a diagnostic committee. This program constitutes a contract that must be fulfilled by the student unless it is amended in consultation with the diagnostic committee.

The graduate student is expected to show ability in both academic and production areas. During residence at the university, each student is expected to make a significant contribution in three areas out of the following seven: acting, directing, technical, management, playwriting, teaching, design.

Candidates for an M.A. degree in theater arts must demonstrate their ability to read a second language. Students seeking the Ph.D. degree must acquire two research tools, one of which must be the knowledge of a second language. The other may be a third language or 9 credits of graduate-level study outside the department in a field related to the student’s research intent. For additional requirements and information, contact the graduate coordinator.

### Theater Arts Courses (TA)

101 Reading and Conference: [Topic] (1-2R) Reading one assigned play per week. Features discussion of the play’s content and context. R thrice for maximum of 12 credits.

121 Scenery and Lighting Laboratory (1-2R) Building and painting scenery, hanging lights for productions. R thrice for maximum of 8 credits.

122 Costume Laboratory (1-2R) Building costumes for productions. R thrice for maximum of 8 credits.

124 Production (1-2R) Working backstage for productions. R thrice for maximum of 8 credits.

196 Field Studies: [Topic] (1-2R)

198 Workshop: [Topic] (1-2R)

199 Special Studies: [Topic] (1-5R) Stage crew: lighting, scenic, costume.

210 Introduction to Design (4) Introduction to the principles of design as applied to the arts of theater design, scenery, costumes, and lighting. Creative projects to develop concepts of visual imagery. GIL. Includes laboratory.

211 Theater Production (4) Introduction to the mechanics of mounting a theatrical production including basic construction of scenery and props and use of lighting equipment. Rose. Includes laboratory.

212 Theater Production (4) Introduction to costumes and makeup. Costume construction includes basic hand and machine sewing techniques. Beginning makeup covers ingénue, beards, wongs, and fantasy. Williams. Includes laboratory.

250 Acting (4) Principles of warm-ups, individual inventory, Stanislavski system, character analysis, and rehearsal procedure.

251 Acting (4) Continuation of performance principles for contemporary realistic theater with addition of comic technique and director-actor relationship. Prereq: TA 250, instructor’s consent.

252 Acting (4) Development of audition and improvisational skills while establishing a working file of monologue material. Prereq: TA 251, instructor’s consent.

271 Introduction to Theater Arts (4) Play and script structure, contemporary aesthetic attitudes, and the value of theater arts to society and the individual.

321 Scenery Production (1-3R) Production or performance crew head for scenery. Prereq: TA 210, 211, 212. R thrice for maximum of 12 credits.

322 Costume Production (1-3R) Production or performance crew head for costumes. Prereq: TA 210, 211, 212. R thrice for maximum of 12 credits.

323 Lighting Production (1-3R) Production or performance crew head for lighting. Prereq: TA 210, 211, 212. R thrice for maximum of 12 credits.

324 Production (1-3R) Stage manager, assistant director, or dramaturgy position. R thrice for maximum of 12 credits.

325 Performance (1-3R) Preparation, rehearsal, and performance of an acting role. R thrice for maximum of 12 credits.

364 Play Direction (4) Sources of dramatic material, choice of plays, casting and rehearsal of players, production organization. Prereq: TA 250 or equivalent and instructor’s consent. Gilg. Schmor.

367, 368, 369 History of the Theater I, II, III (4, 4, 4) Development of the theater from its origins to the present. Emphasizes the history of dramatic literature, criticism, theater architecture, design, and performance. Schmor, Watson.

399 Special Studies: [Topic] (1-5R)

401 Research: [Topic] (1-2R)

405 Reading and Conference: [Topic] (1-2R)

406 Field Studies: [Topic] (1-2R)

407/507 Seminar: [Topic] (1-5R)

408/508 Workshop: [Topic] (1-2R)

409 Practicum: [Topic] (1-3R) Rehearsal and Performance is a current topic. R thrice for maximum of 12 credits.

410/510 Experimental Course: [Topic] (1-4R)

416/516 Costume Design (4) Beginning design concepts and various artistic media as applicable to costume design and rendering techniques.
Theater Arts

Faculty

Grant F. McKernn, professor (dramatic literature and criticism); graduate coordinator. B.A., 1964, Northwestern; M.A., 1965, Ph.D., 1972, Ohio State. (1979)

Emeriti

Robert D. Clark, professor emeritus; university president. A.B., 1931, California, Pasadena; M.A., 1935, Ph.D., 1946, Southern California; LL.D., 1966, California, Santa Clara. (1957)
Horace W. Robinson, professor emeritus. B.A., 1931, Oklahoma City; M.A., 1932, Iowa. (1933)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Department

The Department of Theater Arts offers major curricula leading to the bachelor of arts (B.A.), bachelor of science (B.S.), master of arts (M.A.), master of science (M.S.), master of fine arts (M.F.A.), and doctor of philosophy (Ph.D.) degrees. Courses in theater arts are available for students majoring in other disciplines who want to develop their communication skills and their ability to appreciate and evaluate what they see and hear.

The theater arts department offers a humanistic and liberal-arts education. Preprofessional courses provide vocational competence in teaching and in some aspects of commercial theater. Some students seek careers in commercial, educational, and community theaters as designers, actors, technicians, stage managers, or theater managers. Many continue specialized training in M.F.A. degree programs or nondegree professional training schools. Some students use their liberal-arts background to pursue vocational opportunities that require good skills in communication and organization.

Students may gain practical experience in theater studies through Second Season and University Theatre productions in the Robinson Theatre.

Theatrical Plant. There are three theaters in Villard Hall. Main Stage (the Robinson Theatre) has a proscenium stage and seats approximately 400 people. The Pocket Playhouse is a small proscenium stage that sits about eighty. The Arena Theatre provides a flexible open space for about 100 people.

Technical Facilities. The scene shop is well equipped with power tools for wood and metal fabrication. Lighting equipment includes computerized controls and up-to-date instruments. The costume shop has power sewing and serging machines and a laundry and crafts area. Students are encouraged to sign up for production work-shop classes or to practice their crafts as volunteers. Those who qualify for work-study financial aid are hired to assist in the shops. The shops are open every day.

Pocket Playhouse. Pocket Playhouse is the site for a weekly gathering of students and faculty members. Students may sign up for time to produce a low-cost show. This weekly event is organized and run by an elected student board with a small budget at its disposal. Workshops and speakers are also scheduled in response to student requests.

Theater Productions. During the year, several Main Stage productions are directed by faculty members and qualified students; four or five budgeted studio productions, which may be student-directed, are staged. Studio productions are usually scheduled in the Pocket Playhouse or the Arena Theatre.

Undergraduate Studies

For its undergraduate major program, the Department of Theater Arts has three principal objectives:

1. The attainment, by all of its majors, of a broad liberal-arts education
2. Sufficient instruction in several fields of theater to provide an appreciation of the different areas of theater
3. Direct experience in several aspects of theater production

Major Requirements

Students study acting, directing, design, costume, lighting, stagecraft, history, dramatic literature, and theory. Courses in these fields are available to both majors and nonmajors.

In addition to the B.A. or B.S. degree requirements of the university, the following requirements are specified for students with a major in theater arts:

1. All of the following: Introduction to Design (TA 210); Theater Production I (TA 211, 212); Acting I (TA 250); Introduction to Theater Arts (TA 271); Play Direction (TA 364); History of the Theater I, II, III (TA 367, 368, 369); Advanced Script Analysis (TA 462); one advanced upper-division course in design or technology; two advanced upper-division courses in theory,
**Undergraduate Studies**

The Women's Studies Program offers students an opportunity to learn about the past and present achievements and experiences of women and to understand more clearly the decisive role that gender has played and continues to play in human societies. The program is administered by a committee of faculty members and students appointed by the dean of the College of Arts and Sciences. The program is interdisciplinary, and courses are taught in many areas of study: anthropology, architecture, arts and administration, education, English, history, international studies, journalism, literature, philosophy, planning and public policy, political science, psychology, and sociology among others.

Any student may take women's studies courses. Some students take a few courses to complement the curriculum in another major. Others choose to fulfill the requirements for a major or minor in women's studies.

Many women's studies courses satisfy group and multicultural requirements. For more information, see Group Requirements and Multicultural Requirement in the Registration and Academic Policies section of this catalog.

---

**Preparation.** No specific high school preparation is necessary. Students who transfer to the university from other colleges may apply up to 8 credits of women's studies courses to the major or minor program.

**Careers.** Since women comprise more than half of the world's population, an understanding of their experiences, abilities, and needs is an asset to careers in such fields as education, social service, government, business, law, medicine, the ministry, journalism, counseling, and childcare. In addition, a women's studies background can be used as a basis for entering a growing number of graduate programs that emphasize the study of women or gender.

**Major Requirements**

The Women's Studies Program offers an undergraduate major in women's studies leading to a bachelor of arts (B.A.) or bachelor of science (B.S.) degree. Students may major in women's studies alone or as one of two or more majors. Majors must construct their programs in consultation with women's studies advisors. For double majors, a total of 48 credits are required, distributed as follows:

- **Specific Courses**
  - Introduction to Women's Studies (WST 101) ... 4
  - History and Development of Feminist Theory (WST 301, 302)                            8
  - Feminist Perspectives: Identity, Race, and Culture (WST 321)                           4
  - Either Seminar: Feminist Research Issues (WST 407) or Feminist Praxis (WST 411) and Field Studies (WST 406)         8

- **Electives**
  - Approved courses with the WST subject code   8
  - Approved courses that deal with the history of women                                       8
  - Approved upper-division courses with subject codes other than WST                          8

Students whose sole major is women's studies must complete the following additional requirement for a total of 72 credits:

- **24 credits**
  - Courses that make up a coherent course of study, either by fulfilling the requirements of an existing minor program or by pursuing a disciplinary emphasis if there is no minor in that field of study. Courses proposed for the emphasis must have the written approval of a women's studies advisor from the designated department or program.

All courses counting toward the major must be taken for letter grades except for Special Studies: Self-Defense for Women (WST 399), Thesis (WST 403), Reading and Conference (WST 405), Field Studies (WST 406), Practicum (WST 409), and Feminist Pedagogy (WST 413); no more than 13 credits taken pass/no pass in these generic courses may be counted toward the major. At least 32 credits must be in upper-division courses. At least 24 upper-division credits must be taken at the University of Oregon. Women's studies majors must attain a grade point average of 2.50 or higher in courses applied to the major. All graded courses in the major must be completed with grades of mid-C or higher.

**Minor Requirements**

The minor in women's studies requires 24 credits including at least 12 WST credits and at least 8 credits chosen from approved upper-division courses offered by other departments. The remaining 4 credits may be in either women's studies or approved upper-division courses. Introduction to Women's Studies (WST 101) is required, and candidates for the minor are strongly urged to take at least one term of History and Development of Feminist Theory (WST 301, 302). No more than 6 credits of Reading and Conference (WST 405) and Practicum (WST 409) may be counted toward the minor. No more than 8 credits may be taken pass/no pass. All graded courses in the major must be completed with grades of C- or higher. Courses applied to any major may not count for the women's studies minor. At least 16 credits applied to the women's studies minor must be taken at the University of Oregon.

Students must apply for the minor in the women's studies office well in advance of graduation for transcript evaluation. In order to be eligible for the minor, students must complete all degree requirements and a major in another academic department.

---

**Graduate Studies**

The graduate certificate in women's studies requires 24 credits in courses approved by the Women's Studies Committee. At least 12 of these credits must be in core courses in the Women's Studies Program. No more than 4 credits of Reading and Conference (WST 605) and Practicum (WST 609) can be applied to the certificate. At least 8 credits must be taken in approved graduate courses offered in other departments. No more than 8 credits may be taken pass/no pass without specific approval. Students who have not taken Introduction to Women's Studies (WST 101) or its equivalent must enroll in either Practicum (WST 609) to facilitate a discussion group for WST 101 or a feminist pedagogy alternative.

A student who is unconditionally admitted to the Graduate School may earn a women's studies certificate as an unclassified graduate student, as a complement to an individually designed interdisciplinary master's degree with a focus on women's studies, or as an enhancement to a graduate degree in another discipline. For more information see the Graduate School section of this catalog.

Applicants should arrange an appointment with the program director.

**Women's Studies Courses (WST)**

1. **101 Introduction to Women's Studies (4)**
   - Interdisciplinary investigation of the status and contribution of women connects the public issues raised by the feminist movement with the personal experiences of women.
   - 198 Colloquium: [Topic] (1-2R)
   - 199 Special Studies: [Topic] (1-5R)

2. **301 History and Development of Feminist Theory (4)**
   - Development of feminist theory in the West from the Middle Ages to the early 20th century with attention to historical and cultural meanings of feminism.
   - 302 History and Development of Feminist Theory (4)
   - Development of feminist theory from the mid-20th century to the present. Selected themes represent the diversity and development of feminist thought.
445/545 Advanced Projects in Theater Technology: [Topic] (4R) Specialized areas of theater technology, one topic per term. Topics include scene painting, projections, drapery, makeup, puppety, stage management, props, and special effects. Bonds, Rose. R seven times when topic changes for maximum of 32 credits.

452/552 Advanced Acting: [Topic] (4R) Topics in the performance of a specific genre or authors, or in specific elements of performance skills including voice, movement, and musical skills. Barton. R when topic changes.

461/561 Dramaturgy (4) Examines the process and practice of dramaturgy. Training in critical analysis of theater, informed by a thorough grounding in theater history and criticism.

462 Advanced Script Analysis (4) Topics in theater literature including recent European drama, recent American drama, recent British drama, and American musical theater. McKernie, Watson. R thrice when topic changes for maximum of 16 credits.

467/567 Lighting for the Stage (4) Designing lighting for the stage; technical and aesthetic problems. Prereq: TA 111 or instructor's consent. Rose.

ENG 477/577 Modern Drama (4) See English 503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–16R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R)

606 Field Studies: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R)

608 Workshop: [Topic] (1–16R)

609 Practicum: [Topic] (1–3R) Rehearsal and Performance is a current topic. R five times for a maximum of 18 credits.

610 Experimental Course: [Topic] (1–5R)

611 Research Methods (3) Research methodology: experimental, historical, descriptive, and developmental research methods; style and format in scholarly presentation of research.

321 Feminist Perspectives: Identity, Race, Culture (4) Examines intersections of race and ethnicity, class, sexuality, and gender in the history and lives of United States women of color. Explores definitions of community, culture, and identity. Prereq: any WST lecture or seminar course, or ES 101 or 102.

331 Science, Technology, and Gender (4) Topics include the role of gender in the practice of science and the impact of sexism and racism on the development of science and technology. Prereq: WST 101 or equivalent.

341 Women, Work, and Class (4) Explores contexts and cultural attitudes shaping the women's market and domestic labor including race, sexuality, age, and class as well as occupational segregation and control.

351, 352 Women's Literature, Art, and Society (4,4) Interdisciplinary examination of women's literary, artistic, and intellectual contributions to women's culture and to dominant cultures. Focuses primarily on 19th and 20th centuries. Ravits.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–16R)

405 Reading and Conference: [Topic] (1–5R)

406 Field Studies: [Topic] (1–12R) R with program director's consent for maximum of 12 credits.

408/508 Workshop: [Topic] (1–16R)

409 Practicum: [Topic] (1–5R)

410/510 Experimental Course: [Topic] (1–4R)

411/511 Feminist Praxis (4) Combined internship and seminar explores the history and politics of community agencies and the relationship of feminist theory to practice. Prereq: any WST or other approved course. Raiskin.

413/513 Feminist Pedagogy (1) Surveys strategies for facilitating discussions in women's studies classes and the special problems of teaching about gender, race, and sexuality. Prereq: WST 101 or equivalent.

421/521 Sexuality: [Topic] (4R) Topics include the history of sexuality, the social construction of sexuality, regulations concerning marital sex, homosexuality, commercial sex, birth control, and sexual culture. Prereq: WST 101 or instructor's consent. R twice when topic changes for maximum of 12 credits.

422/522 Lesbian and Gay Studies: [Topic] (4R) Various topics in lesbian and gay studies, including the relationship between gender and sexuality and between lesbian-gay studies and women's studies. Prereq: WST 101 or instructor's consent. R twice when topic changes for maximum of 12 credits.

431/531 Global Feminisms (4) Surveys political, economic, and cultural strategies of women around the world with attention to feminist theory outside the United States. Prereq: WST 101 or instructor's consent.

432/532 Postcolonial Women Writers (4) Explores women's fictional and theoretical analyses of colonial history, neocolonial politics, patterns of migration, and relations between gender and national identity. Prereq: any WST lecture or seminar course. Raiskin.

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–16R)

605 Reading and Conference: [Topic] (1–5R)

607 Seminar: [Topic] (1–5R)

608 Workshop: [Topic] (1–16R)

609 Practicum: [Topic] (1–5R)

610 Experimental Course: [Topic] (1–4R)

Approved Courses in Other Departments

See descriptions under named departments. Other courses may qualify, inquire at the Women's Studies Program office.

Anthropology. Women and Culture I: Politics, Production, and Power (ANTH 314), Women and Culture II: Creativity and Symbols (ANTH 315), Anthropology of Gender (ANTH 421/521), Feminism and Ethnography (ANTH 439/539)

Arts and Administration. Women and Their Art (AAD 452/552)

Classics. Gender and Sexuality in Antiquity (CLAS 314)

East Asian Languages and Literatures: Chinese. Women in Traditional Chinese Literature (CHN 350)

English. Women Writers' Cultures (ENG 315), Women Writers' Forms (ENG 316), Film Directors and Genres: Women and Melodrama, Women Filmmakers (ENG 490/590), Feminist Film Criticism (ENG 496/596), Feminist Literary Theory (ENG 497/597), Studies in Women and Literature (ENG 498/598), Women and Literature (ENG 696)

Germanic Languages and Literatures: German. German Gender Studies (GER 354)

Germanic Languages and Literatures: Scandinavian. Scandinavian Women Writers (SCAN 353)

History. History of Women in the United States I,II (HIST 308, 309), Perceptions and Roles of Women from the Greeks through the 17th Century (HIST 310), Women and Social Movements in Europe from 1750 to the Present (HIST 311), African Women's History: [Topic] (HIST 416/516)

International Studies. Gender and International Development (INTL 421/521)

Journalism and Communication. Women, Minorities, and Media (J 320)

Political Science. Women and Politics (PS 348)

Romance Languages: French. Autobiographical Writings by Women (FR 435/535)

Romance Languages: Italian. Italian Women's Writing (ITAL 498/598)

Romance Languages: Spanish. Spanish Women Writers (SPAN 497/597, 498/598)

Sociology. Sociology of Women (SOC 355), Issues in Sociology of Gender (SOC 455/555), Feminist Theory (SOC 456/556), Sex and Society (SOC 457/557)
Much faculty research involves the application of emerging technology to specific domains. Research groups in planning, public policy and management, architecture, and landscape architecture have developed methods for using Internet, geographic information systems, graphics, and database applications to facilitate community problem solving. Tools being developed help make planning and design decisions easier to understand by putting their consequences in graphic terms. Art faculty members have created award-winning animations and interactive multimedia projects that range from avant-garde artwork to pragmatic educational projects. The school maintains a close relationship with the New Media Center, which offers technical expertise in digital media.

**Office of Research and Development**
Karen J. Johnson, Assistant Dean
(541) 346-3697

The Office of Research and Development serves as a center for external relations, alumni contact, and fundraising for school programs and activities. It assists faculty members in identifying funding sources and writing grant proposals. Focus on Funding: a bulletin of grant opportunities, is published twice a year, as is the School of Architecture and Allied Arts Review.

The school is a member of the Architectural Research Centers Consortium (ARCC), which was organized by United States architectural and planning schools to arrange contracts for research by member schools and to furnish research and advisory services to governmental agencies and others. ARCC is, in turn, a member of the National Institute of Building Sciences and the International Council for Building Research Studies and Documentation. Through these organizations, the school is able to participate regionally in research and related activities while obtaining up-to-date research and technological information from a broader community.

**Interdisciplinary Research Center for Housing Innovation**
Donald B. Corner, Director
(541) 346-4064

The Center for Housing Innovation is a nonprofit, multidisciplinary research center offering expertise in the design, construction, and manufacture of housing in North America. Issues range from the development of energy-efficient housing to the innovative use of wood products. For more information see the Research Institutes and Centers section of this catalog.

**Energy Studies in Buildings Laboratory**
G. Z. Brown, Director
(541) 346-5647

The laboratory's facilities include a computer simulation laboratory and an artificial sky. Research projects seek to understand the ways buildings and their related transportation and land use systems determine energy use; develop new materials, components, assemblies, whole buildings, and communities with improved performance; and develop computer software design tools for professionals to design more energy-efficient buildings. Laboratory programs provide computer assistance program the artificial sky and computer simulations to recommend proposed building design changes.

**Institute for a Sustainable Environment**
John H. Baldwin, Director
(541) 346-0675

The Institute for a Sustainable Environment explores the long-term sustainability of the earth's environmental systems. The institute's programs draw from the natural sciences, social sciences, humanities, and professional fields to foster applied cross-disciplinary environmental research, education, and public service. The institute offers students and members of the faculty and staff many opportunities for employment and program participation.

**Institute for Community Arts Studies**
Doug Blandy, Director
(541) 346-3639

251E Lawrence Hall

In 1965 a founding gift from Lila A. Wallace established the Institute for Community Arts Studies as a research and public service organization in the School of Architecture and Allied Arts. The institute renewed its focus in 1995 in collaboration with the arts management master's degree in the Arts and Administration Program. The goal of the institute continues to be the promotion and implementation of research, professional education, and community service programs that cultivate a public understanding of the arts in a broad context. The institute draws its participating faculty from the Arts and Administration Program and its associates from UO museums and the School of Music.

**Student Information**

**Admission**
Admission, major requirements, and course offerings are described in the departmental sections that follow. Freshmen and transfer students must meet University of Oregon requirements for admission to the School of Architecture and Allied Arts. Work being submitted for transfer credit must be approved by the major department. Students develop their programs of study assisted by advisers from the department to which they have been admitted.

**Premajors and Nonmajors**
Many courses are open to majors outside the School of Architecture and Allied Arts or to students who have not yet declared a major. Undeclared premajors who want to explore programs in the school should seek advice from the associate dean. Courses open to nonmajors are listed below under the AAA course heading.

**Architecture and Allied Arts Courses (AAA)**

Schoolwide courses (AAA) cross all the disciplines of the school but are described only in this section of the catalog. Courses listed below with other subject codes (AAD, ARCH, ARH, ART, LA, PPPM) are in specific disciplines within the school that are open to, and recommended for, nonmajors, premajors, and undeclared students. These courses have no prerequisites and do not require instructor's consent. Cross-references indicate where to find these course descriptions.

ART 116 Basic Design (4R) See Art

180 Introduction to Visual Inquiry I (3) Studio seminar increases awareness of the meaning and value of visual experience. Basic visualization processes; giving form to ideas and perceptions, reflecting on their meaning.

190 Field Studies: [Topic] (1-2R)
199 Special Studies: [Topic] (1-5R)

ARCH 201 Introduction to Architecture (4) See Architecture

606 Special Problems: [Topic] (1-16R)
608 Workshop: [Topic] (1-16R)
About the School

The School of Architecture and Allied Arts, founded in 1914, is the principal center in Oregon for the study of architecture, art, planning, and design. The school is a unique interdisciplinary setting for the study of the history, theory, practice, and management of the arts, which—in its broadest meaning—reaches from the creation of visual art to the making of public policy.

The School of Architecture and Allied Arts (A&AA) is a close association of five departments and three programs: the Departments of Architecture; Art; Art History; Landscape Architecture; and Planning, Public Policy and Management; and the Interior Architecture, Historic Preservation, and Arts and Administration Programs. Undergraduate and graduate degrees are offered in art, art history, architecture, interior architecture, landscape architecture, and public affairs. Additional graduate degrees are offered in community and regional planning, arts administration, and historic preservation. The professional degrees in architecture, community and regional planning, interior architecture, landscape architecture, and public affairs are all fully accredited. Approximately 9 percent of the university's students are majors in the School of Architecture and Allied Arts.

Students in the school participate extensively in art and environmental design studies—an educational environment that provides direct exploration of ideas and the development of imaginative thinking and creativity. The school has a long and valued tradition of innovative and collaborative education, community involvement, and direct student responsibility for the student's university education. The school aims to educate visually literate citizens and support a sustainable environment.

Research, Scholarship, and Creative Work

Research and creative work bring together people in the school's various disciplines and provide links with scholars elsewhere at the university, in the local community, and throughout the world.

Program diversity enhances the faculty's scholarly activity and creative endeavor. Faculty members in the environmental design and planning fields are encouraged to be active in professional practices, to engage in design competitions, and to develop theoretical studies. Faculty members in the arts participate nationally and internationally in exhibitions of their creative work.

Scholarly work in art history, arts administration, planning, and public affairs has produced significant publications and enhanced human understanding in those fields.

Members of the school's faculty participate in many of the university's interdisciplinary research centers and institutes including the Solar Energy Center, the Center for Housing Innovation, the Center for Asian and Pacific studies, the Community Planning Workshop, the Institute for a Sustainable Environment, and the Institute for Community Arts Studies.

The school hosts two national journals: Landscape Journal, which is the principal refereed journal for the discipline of landscape architecture, and Journal of Planning Education and Research, which is the journal of the Association of Collegiate Schools of Planning. Faculty members in the School of Architecture and Allied Arts edit both journals.

Extended Programs

The School of Architecture and Allied Arts supports off-campus programs that enhance learning and research opportunities and enrich the ties between the university and the local, state, national, and international communities.

The University of Oregon has extended centers in the Portland area, which are used by various departments and programs in the school. The Urban Architecture Program is permanently located in downtown Portland. The school also maintains historic property that supports research and teaching: in Portland, the Watzek House, and in the Columbia Gorge, the Shire.

Off-campus learning and research include field course work in art, historic preservation, architecture, landscape architecture, and planning. Internship opportunities are available for students to explore their disciplines beyond the structure of the university setting.

International study programs include summer programs in Kyoto, Rome, Sienna, and Florence offered by the Departments of Landscape Architecture, Architecture, and Art. The Department of Architecture has active exchange programs with the Universities of Stuttgart and Copenhagen. Various departments participate in the National Student Exchange of which the University of Oregon is a member.

Facilities

The School of Architecture and Allied Arts is housed principally in Lawrence Hall and Pacific Hall. Facilities include a branch of the UO Library System, administrative and departmental offices, and most of the faculty offices and studio spaces. The Department of Planning, Public Policy and Management is located in Hendricks Hall. The north site, located north of the Millrace, is an eight-building complex containing faculty offices, advanced studios, and public affairs.

The school provides equipment not normally available to individuals such as studio furniture, easels, looms, and shared resources. Students supply their own personal equipment such as computers, graphic tools, and course materials.

The school supports these purchases by providing infrastructure, secure rooms, and lockers.

Resources

Computer Support Services

Dennis Bishop, Director

(541) 346-2082
dbishop@oregon.uoregon.edu

Many schools teach students to use software, but the School of Architecture and Allied Arts teaches students to be designers and creative decision-makers regardless of the tools they use. Students learn to explore new ideas through a combination of traditional methods and experimental techniques. Through work in animation, multimedia, graphics, computer-aided design, geographic information systems, and web publishing, students see how computers can extend capabilities and enhance understanding.

Most lecture rooms, studios, and review rooms are networked to support instructional technology and Windows, Macintosh, or UNIX workstations. The university provides server accounts for e-mail and web-pages and maintains a high-speed Internet2 computer network. The school provides access to a full array of computing applications through its instructional and research laboratories located in the Urban Farm and Pacific Hall.

The school maintains a database of current and future stockholders, providing access and information for those interested in supporting the school's programs.

School of Architecture and Allied Arts

Robert Z. Melnick, Dean

(541) 346-3631
105 Lawrence Hall
dean@aaa.uoregon.edu
http://aaa.uoregon.edu

The school is a unique, collaborative environment that provides direct exploration of ideas and the development of imaginative thinking and creativity. The school has a long and valued tradition of innovative and collaborative education, community involvement, and direct student responsibility for the student's university education. The school aims to educate visually literate citizens and support a sustainable environment.
quality of the built environment and our experience of life. Within this broad purpose, architectural study and practice include the tasks of providing shelter and environmental protection, providing appropriate settings for human activities, and creating forms that are aesthetically pleasing and supportive of social well-being in the community and society.

The Department of Architecture includes the Interior Architecture Program (see that section of this catalog) and maintains close ties with other departments in the School of Architecture and Allied Arts. Architecture faculty members believe that the interdisciplinary cooperation of environmentally concerned fields is important to the study of architecture and continually seek new ways to learn from one another.

A central part of architectural education is the design studio, in which students learn by doing through experience with the design of buildings. This kind of learning is demanding, and students are expected to be committed and able to work independently and responsibly toward program and course objectives. In the design studio, continuous evaluation and response are the basic learning modes.

The department sets high standards for student performance. Advanced students often work together in courses and as collaborators with faculty members in research investigations through independent-study courses.

Preparation. Architecture is an inclusive art, bringing together a variety of disciplines. Students should prepare themselves in the following fields:
1. Social sciences
2. Natural sciences
3. Humanities
4. Fine arts

Students are also encouraged to travel in order to experience firsthand important landscapes, cities, buildings, and other elements of the structured environment.

Careers. Although most students prepare for professional registration and apprenticeship with practicing architects, others go into such areas as construction management, teaching, governmental agencies concerned with environmental policy, community and neighborhood planning, urban planning, and architectural programming and administration.

Accreditation. In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the bachelor of architecture (B.Arch.) and the master of architecture (M.Arch. first professional degree Options II and III) programs are accredited by NAAB.

Internship and Licensure. In the United States, the title "architect" is legally restricted to individuals licensed by each state. Individual state governments use guidelines established by the National Council of Architectural Registration Boards (NCARB) to license architects. NCARB guidelines for license examination eligibility and the NCARB examination are used uniformly by most states. Before taking the examination, an applicant must have three years of professional experience with a registered architect. In some states, including Oregon, registration with the Intern Development Program is required while preparing for licensure.

Off-Campus Study

The historic Willamette Block, at the corner of Yamhill and Second Streets in downtown Portland, is known as the UO Portland Center. It houses the Department of Architecture's Portland programs on the fourth floor. The department's facilities at the center include design studios, exhibit and review rooms, classrooms, library, computer laboratory, model shop, and supporting spaces.

Portland Urban Architecture Program. Students may elect to spend from one to three terms in this program. Design studios focus on urban topics, as do many of the support courses offered. At least one core course and advanced courses are offered each term.

Portland Program in Architecture. The Department of Architecture offers its Option I and Option II master of architecture programs in residence at the UO Portland Center and in Eugene. The master's programs in Portland focus on urban architecture and have a strong urban design component. Students may complete all of their studies in Portland or take courses in Eugene and Portland. Portland students have the use of all the resources and facilities on the Eugene campus, including scholarships and financial aid.

Through provisions of the Oregon University System, students may also enroll in courses and use library facilities at other state-system universities.

The Portland program takes an active part in civic and regional issues through design studio projects, focused course work on urban architecture, research, internship programs, and sponsorship of professional and public events. The program maintains a strong relationship with Portland's highly respected professional community. More information is available through the Department of Architecture office in Portland or Eugene.

Rome Program. The Department of Architecture's annual summer program in Rome includes studio and subject-area courses. Walking tours of Rome and field trips to nearby architectural sites complement the program. The program is housed in the Palazzo Fio in the historic center of Rome. Students live in apartments within a fifteen-minute walk of the facility.

Exchange Program. Each year a small number of Oregon students exchange places with students in the architecture program in Stuttgart, Germany. Undergraduate students in their third or fourth year and professional-degree graduate students who will have a full year of study remaining after the exchange year are eligible.

Danish International Studies Program. Each year approximately ten architecture and several interior architecture students travel to Copenhagen to participate in the program. Summer, fall, and academic-year options are offered. Credits are automatically transferred, and financial aid is available.

Registering for Overseas Courses. Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

Summer Architecture Academy. The department's Summer Architecture Academy offers prospective students a chance to learn about the discipline in an intensive six-week experience. Workshops, lectures, demonstrations, and field trips complement daily studio work.

Information about the Summer Architecture Academy may be obtained by calling the department or by writing to the Summer Architecture Academy, Department of Architecture.

Curriculum for the Study of Architecture

The professional curriculum in architecture has two principal objectives: (1) the promotion of broad inquiry into the integrative nature of environmental issues and design and (2) a detailed professional education in architectural design.

Graduates of the program in architecture must have comprehensive skills in the understanding and design of environments ranging from urban design to intimate personal space.

Students must meet the curriculum requirements published in the UO catalog and in the department's Advising Handbook, which includes sample programs, grading policies, an explanation of how students' progress is monitored through the program, and other advising information. Each student is assigned a faculty adviser and encouraged to consult that adviser for more specific information.

Residence Requirements

For transfer students to receive the bachelor of architecture (B.Arch.) or master of architecture (M.Arch.) degree from the university, the following minimum course work must be successfully completed in residence:

1. Design area: four terms of architectural design including ARCH 485/585, 486/586
2. Architecture subject area: 30 credits
3. General electives: 18 upper-division credits selected from courses offered outside the School of Architecture and Allied Arts (B.Arch. only)

Leave of Absence

University Policy. Graduate students should see the Continuous Enrollment statement in the Graduate School section of this catalog. Undergraduate students should contact the UO admissions office to learn how withdrawal from the university affects residency status.
Faculty

Donald B. Corner, professor (design, construction systems, housing production); director, Center for Housing Innovation. B.A., 1970, Dartmouth; M.Arch., 1974, California, Berkeley; reg. architect, Massachusetts. (1979)

Howard Davis, professor (design, architecture and culture, architectural urbanism and urban districts). B.S., 1968, Cooper Union; M.S., 1970, Northwestern; M.Arch., 1974, California, Berkeley. (1986)

The program prepares candidates who are graduate school section of this catalog. 11. Structures and construction architecture. This integration should improve the professional and general university courses, and specific deficiencies may require course work in the field through the M.Arch. thesis. The Option I program provides an opportunity for Option I students to complete a minimum of 24 credits in professional subject-area courses in addition to the minimum of 81 credits required for the degree. Students intending to enroll in the Portland Architecture Program may be required to fulfill deficiencies on the Eugene campus before matriculation in the Portland program. For more information, see the Curriculum for the Study of Architecture section above.

Postprofessional Degree Program Requirements
The Option I program provides an opportunity for advanced study and contribution to knowledge in the field through the M.Arch. thesis. Option I students must complete a minimum of four terms in residence. Students in this program are expected to have completed basic subject-area courses in technology, architectural history, and other areas in their preprofessional degree program. Students with insufficient preparation in subject-area or design studio courses may be admitted with deficiencies. Satisfaction of the specific deficiencies may require course work in addition to the minimum of 81 credits required for the degree. Students intending to enroll in the Portland Architecture Program may be required to fulfill deficiencies on the Eugene campus before matriculation in the Portland program. For more information, see the Curriculum for the Study of Architecture section above.

Graduate Admission
Prospective applicants may request a description of the graduate program and an application packet by writing directly to the admissions adviser, Department of Architecture. Applicants must take Graduate Record Examinations (GRE) so that the scores, a required component of the application, can be reported by the application deadline. Students whose first language is not English must also submit scores of at least 575 on the Test of English as a Foreign Language (TOEFL). Applications must be postmarked by the first Monday after January 1 for applicants to be considered for admission the subsequent fall term—summer session for Option III students. Notification of results is mailed by April 1. The department typically does not accept late applications. Unless a leave of absence has been approved, students enrolled in a graduate program must attend the university continuously (except summers) until program requirements have been completed. For departmental policy about the leave of absence, see the Curriculum for the Study of Architecture section above. A number of graduate teaching fellowships (GTFs) are available to particularly well-qualified graduate students. Applicants with previous architectural education (Option I or II) may want to request GTF application forms with their packets. Option III students generally qualify for GTF awards in the second or third year of the program.

Professional Curriculum
The professional curriculum in architecture is composed of three elements: architectural design, architectural subjects, and general electives.

Architectural Design: 64 credits
The architectural design studio and its activities are the heart and focus of the professional curriculum. The design studio is a social and interactive workplace. Students are encouraged and expected to work cooperatively and to draw on the knowledge, skills, and criticism of their colleagues. Through studio projects, students learn to solve design problems and respond to design situations with architectural intent, meaning, and knowledge. Introductory studios emphasize ideas, skills, and the critical thinking fundamental to the design process. Intermediate studios emphasize integration of subject-area skills and content with design. Advanced studios emphasize comprehensive integration of subject-area knowledge with design skill.

Design credit can be earned only through participation in design studio. Six credits earned in either Site Planning and Design (LA 489/589) or Interior Design (IARC 484/584) studios may be applied to this 64-credit requirement.

Introductory Architectural Design Studios
Introductory Architectural Design I (ARCH 181, 182), two-term studio for undergraduate majors only
Introductory Graduate Design (ARCH 680, 681, 682), three-term studio for Option III graduate students only
Architectural Design: 80 credits
Architectural Design (ARCH 484/584), repeatable studio for all professional-degree students. Twenty-four credits required for undergraduate students. Thirty credits required for Option III graduate students. Eighteen credits required for Option II students

Advanced Architectural Design Studios
Advanced Architectural Design I (ARCH 485/585, 486/586), two-term studio for all professional-degree students

Architectural Subjects: 80 credits
Architectural subject courses introduce and develop theory, knowledge, and skills in architecture and related disciplines. Emphasis is placed on learning architectural subject areas in a context of design. The content and focus of these courses is closely coordinated with offerings and expectations in the architectural design area. A core curriculum is required for professional degree students. Introductory courses present knowledge, concepts, and skills basic to further study in several subject areas. Core courses instill competence with knowledge, concepts, skills, and methodologies representative of a particular subject area and prepare students for advanced courses.

Architectural subject courses fall into four sub-areas: (1) architectural design skills, (2) architectural design content, (3) context of the architectural profession, and (4) architectural history.

Prerequisites for advanced studios include seven technology courses, three design-arts core courses, and architectural history—four courses for undergraduates and three courses for graduate students.

In the following list, required courses are indicated with an r.
Departmental Policy. Both undergraduate and graduate students may interrupt their courses of study for various reasons. In order for the department to plan for maximum use of resources, students must file a leave-of-absence form with the department indicating the expected date of return. Leave-of-absence status is renewable. Undergraduates may accumulate up to a total of two years of leave; they must file a departmental leave-of-absence agreement and submit a reenrollment card to the Office of the Registrar. Graduate students may accumulate up to a total of one year of leave; they must file a Graduate School leave-of-absence form and a departmental agreement—both available in the department office. If the limits on accumulated leave are exceeded or the leave-of-absence terms of agreement are not met, major status may be revoked.

Students who do not file a leave-of-absence agreement form with the department cannot be guaranteed access to design-studio courses the year they return.

Undergraduate Studies
The undergraduate five-year professional degree program leads to a bachelor of architecture (B.Arch) degree. It is highly structured the first three years and more flexible the last two. This flexibility allows each student to establish a study sequence according to individual interests and needs and to take advantage of the diverse opportunities of the profession. Transfer students should be aware that an accelerated program is normally possible only for students who transfer from an accredited architecture program.

Prospective applicants who have a four-year undergraduate degree in any field may apply to the graduate program (see Graduate Admission below). Undergraduate programs include the bachelor of architecture program and a minor in architecture.

Bachelor of Architecture: 231 credits
In addition to the professional curriculum listed below, the bachelor's degree program includes requirements for a liberal education. Besides the university general-education requirements for professional-school majors, students must complete upper-division course work outside the major as part of the general-elective requirement.

University General-Education Requirements: minimum of 44 credits. College composition (8 credits); group requirements in arts and letters, social science, and science (36 credits); the multicultural requirement (8 additional credits if the selected course does not also satisfy group requirements); Architecture majors must take General Physics (PHYS 201, 202), which are science group-satisfying courses.

Major Program Requirements: 187 credits. See Professional Curriculum section.

Minor Requirements
The Department of Architecture offers a minor in architecture, subject to the following:

1. Students must complete the department's minor program application and submit it with the required academic records to the Department of Architecture, 210 Lawrence Hall. Applicants are notified when their applications have been approved. The application form includes a curriculum work sheet with the requirements in effect at the date of acceptance.
2. Because the department's first obligation is to its majors, it cannot guarantee availability of courses for minors. Minors may register in required courses if space is available after the needs of majors have been met.
3. Enrollment in each minor program is limited. If the department is unable to accommodate additional students, it may suspend admittance to a minor program until space becomes available.
4. Courses required for minors are open to other university students with instructor's consent.

Course Requirements credits
Introduction to Architecture (ARCH 201) ........ 4
Architectural Contexts: Place and Culture
(Arch 430) or Human Context of Design
(Arch 440) or Spatial Composition
(Arch 450) .................................................. 4

department office) ..................................... 4

Undergraduate Admission
Interest in the program exceeds the capacity of the department. Approximately equal numbers of first-year and transfer (including change-of-major) applicants are admitted to the first-year bachelor of architecture program each year. A smaller number of applicants from other NAAB-accredited or -recognized feeder programs are admitted as advanced transfer students. Prospective students should request application packets during the fall, well before application deadlines. The university deadline for undergraduate application to the architecture major program is December 15 (see Application Deadlines in the Admissions section of this catalog). The deadline for completion of the departmental application is January 15. Applicants must meet both deadlines. Applications are reviewed and accepted only once each year. Students receive admission notices by April 1.

The admission review focuses on (1) creative capability, (2) academic capability, and (3) potential program contribution through diversity of background, experience, maturity, or breadth of general knowledge. Students are expected to submit specific materials supporting each of these attributes (academic records, essays, recommendations, and a portfolio of creative work). Prospective applicants should write to Architecture Admissions, Department of Architecture.

Applicants need not have coursework in building design, but they are encouraged to seek a broad foundation in the visual arts (e.g., drawing, painting, sculpture, graphic design). Experience with crafts and construction may also demonstrate evidence of creative capability.

Accepted applicants must be academically secure. To be considered, first-year applicants must have grades and scores that meet at least three of the following four indices, and all applicants must submit SAT scores.
1. High school grade point average (GPA) — 3.00
2. Verbal Scholastic Assessment Test (SAT V) — 550
3. Mathematical SAT I — 520
4. Total SAT I — 1100

Test of English as a Foreign Language (TOEFL) scores are required for students whose first language is not English. Paper-based test: a minimum total score of 575 must be achieved with a minimum of 58 in each subsection. Computer-based test: a minimum total score of 233 must be achieved with a minimum score of 24 in each subsection.

Transfer applicants must have a minimum college or university grade point average of 2.50 and meet the other criteria listed above for first-year applicants.

Graduate Studies
There are three programs of graduate study in the Department of Architecture: Options I, II, and III. In all three programs, students must take a minimum of 45 graduate credits, of which 30 must be in the major and 9 must be at the 600 level. These programs do not have a graded-credit requirement. Additional requirements for each program are listed below.

The Option I program leads to the master of architecture (M.Arch.) as a postprofessional degree. Applicants must have a professional degree in architecture. Students in this program produce a thesis or a terminal research project. The program can usually be completed in four to six terms. Approximately five new students are admitted into the program each year.

The Option II and III programs lead to the M.Arch. as an accredited, first professional degree. The Option II program, which can usually be completed in six terms, is for applicants who have a four-year preprofessional degree in architecture from an institution where the four-year degree is part of a "four plus two" NAAB-accredited degree program. Applicants who have a four-year preprofessional degree in an environmental design discipline and an equivalent amount of professional studio and course work as is required of Option II applicants may be considered for the Option II program. Students admitted into the Option II program begin their studies in the fall term. Students with bachelor's degrees (B.S. or B.A.) other than a preprofessional degree in architecture or the equivalent as stated above must apply to the Option III program. The Option III program typically is completed in ten terms. Option III students begin their program the summer before their first academic year of study. Students with degrees in related design disciplines (e.g., landscape architecture, interior architecture, environmental design, or architecture degrees from nonaccredited degree programs) may be given advanced standing, up to a maximum of three terms of studio credit for equivalent prior studio work.

Professional Degree Program Requirements
Option II students must complete 64 credits of architectural design studio and 80 credits of professional subject-area courses described in the Professional Curriculum section below. A minimum of ten terms is required for this option.

Option II students must fulfill the professional curriculum requirements of the Option III program, but are admitted with advanced standing in
201 Introduction to Architecture (4) Offers a structure of principles for making places for people. Examines places, design procedures, and the use of architectural principles in general.

202 Design Skills (3) Introduction to basic design processes, methods, and media. Coreq: ARCH 181.

222 Introduction to Architectural Computer Graphics (4) Introduces basic skills and literacy with the computer for architectural illustration, drafting, and design.

307 Design Arts (3) Knowledge, concepts, and skills fundamental to the design process, human activity support, and spatial ordering subareas.

399 Special Topics: [Topic] (1-6R)

401 Research: [Topic] (1-6R)

403 Thesis (1-9R)

405 Reading and Conference: [Topic] (1-6R)

406 Special Problems: [Topic] (1-6R)

407/507 Seminar: [Topic] (1-6R)

408/508 Workshop: [Topic] (1-6R)

409 Practicum: [Topic] (1-6R)

410/510 Experimental Course: [Topic] (1-6R)

A current topic is Building Construction.

412/512 Structural Planning (3) Introduction to structural planning, design, and comprehensive evaluation of building design through consideration of related disciplines. Study of operations-research techniques. Prereq: ARCH 181/511, 281/521, 461/561.

413/513 Professional Office Experience (3) Supervised work experience at selected professional firms for majors without comparable experience. Instructor-led discussion and review sessions. Written application required. Undergraduate prereq: ARCH 282; graduate prereq: ARCH 682 or 683, instructor's consent. Cannot be taken concurrently with studio.

417/517 Context of the Architectural Profession (3) Introduction to the professional practice of architecture and related careers. Examines the professional, legal, and regulatory environment; firm organization and management; marketing; contractual issues; and the construction process.

432/532, 433/533 Settlement Patterns: Japanese Vernacular I, II (3,3) Japanese concepts of space and time, aesthetic and symbolic meaning, origins of form, and village structure. 432/532: Space structuring principles in Japanese houses, the role of gardens. 433/533: Village organization, principles of place making, Individual projects. Undergraduate prereq: ARCH 282, 430; graduate prerequisite: ARCH 682 or 683.

434/534 Vernacular Building (3) Survey and theory of everyday houses, public buildings, and settlements built in cultures worldwide. Emphasis on building types, construction, human use, and building process.

436/536, 437/537 Theory of Urban Design I, II (3,3) Examines the cultural and formal ideas that underlie American and European urban design. 436/536: Ancient Greek to 1700. 437/537: 1700 to the present. Sequence. Undergraduate prereq: ARCH 282, 430.

440/540 Human Context of Design (4) Theoretical principles, case studies, and technical skills for assessing user needs, developing building programs, applying research findings to design, and evaluating performance of the built environment. Prereq for 440: ARCH 182, 202; prereq for 540: ARCH 680.

449/549 Architectural Programming (3) Theory and methods for uncovering and defining requirements for an architectural project including environmental, sociological, operational, economic, and contextual issues. Prereq: ARCH 484/584 eligibility.

450/550 Spatial Composition (4) Architectural space as a means to measure existence and expand awareness. Focus on compositional techniques for architectural analysis, developing building programs, applying research findings to design, and evaluating performance of the built environment. Prereq for 440: ARCH 182, 202; prereq for 540: ARCH 680.
The discipline of architecture is predicated on specific and appropriate responses. Environmental control. Its software and hardware recommendations, so it is best to contact the department before making purchases.

Architectural Design Content

Architectural design requires proficiency in a range of skills and techniques. These include design process skills in techniques of observation, analysis, synthesis, evaluation, and communication and design media skills in techniques of drawing, model making, and computer applications. Subjects and courses in the architectural design-skills subarea are:

- Design Skills (ARCH 202) (undergraduate)
- Graduate Design Process (ARCH 611) (graduate)

- Structural Planning (ARCH 412/512)
- Environmental Design Research (ARCH 620) (graduate)

Media for Design Development. Theory and application of visual media for design process. Principles and skills of diagramming, drawing, and model making to support design thinking and communication.

- Introduction to Architectural Computer Graphics (ARCH 222) (undergraduate)
- Analysis through Recording of Historic Buildings (ARCH 421/521)
- Media for Design Development (ARCH 423/523)
- Advanced Design-Development Media (ARCH 424/524)

Computer Literacy Requirement

By the end of their first year in the program, students are expected to have achieved the level of proficiency established by the department in office software as well as basic literacy in computer graphics for architecture, image processing, two-dimensional drafting, and three-dimensional modeling. Introductory architecture courses presume a knowledge of computer operations, general-use software, and Internet communications. Students are required to have a high-speed personal computer and a specified complement of software. Each spring the department reviews its software and hardware recommendations, so it is best to contact the department before making purchases.

Architectural Design Content

The discipline of architecture is predicated on integration of knowledge in history, theory, and application in a range of content areas. Subjects and courses in this subarea introduce general knowledge in the field and include courses about responding to place, human activity support, spatial ordering, structure, construction, and environmental control.

- Introduction to Architecture (ARCH 201) (undergraduate)

History and Theory of Place Response. The physical, cultural, and ecological context for architecture. Principles and skills for critical analysis of specific places and appropriate design responses.

- Architectural Contexts: Place and Culture (ARCH 430/530)

Settlement Patterns: Japanese Vernacular I,II (ARCH 452/552, 453/553)

- Vernacular Building (ARCH 434/534)
- Theory of Urban Design I,II (ARCH 436/536, 437/537)
- Understanding Landscapes (LA 260) (undergraduate)
- Site Analysis (LA 361) (undergraduate)
- Contemporary American Landscape (LA 485/585)

History and Theory of Human Activity Support. Design implications of activities and relationships implied by the building program and expressed as the needs and desires of the first occupants. Principles of deriving design responses that remain useful over time.

- Human Context of Design (ARCH 440/540)
- Light and Color in the Environment (ARCH 447/547)
- Architectural Programming (ARCH 449/549)
- Furniture and Accessories (ARCH 444/544)
- Color Theory and Application for the Built Environment (ARCH 447/547)

History and Theory of Spatial Ordering. Principles of form and composition in the making of architectural space. The study of past and present ideas and principles through which building elements are given order and meaning.

- Spatial Composition (ARCH 450/550)
- Types and Typology (ARCH 458/558)

History and Theory of Structure. The role of structural form and behavior in creating safe and satisfying environments. Methods for selection and refinement of systems of structure based on general principles and detailed calculation.

- Structural Behavior (ARCH 461/561)
- Wood and Steel Building Systems (ARCH 462/562)
- Reinforced Concrete Building Systems (ARCH 463/563)
- Seismic Study (ARCH 469/569)

History and Theory of Construction. Study of the physical properties and manufacture of building materials and their behavior in place over time. Materials and construction processes, their influence on decisions in design, and their impact on the form and expression of the built environment.

- Building construction course (undergraduate) (inquire at department office)
- Building Enclosure (ARCH 471/571)
- Preservation and Restoration Technology (ARCH 474/574)
- Preservation Technology: Masonry (ARCH 475/575)
- Materials of Interior Design II (IARC 471/571, 472/572)
- Working Drawings in Interior Architecture (IARC 473/573)

History and Theory of Environmental Control. Study of the effects of climate on people and the need for tempered enclosure and life-support systems in buildings. Systems of heating, cooling, lighting, water and air supply, waste removal, and power as organizational elements in building design.

- Environmental Control Systems I,II (ARCH 491/591, 492/592)
- Solar Heating (ARCH 493/593)
- Passive Cooling (ARCH 494/594)
- Daylighting (ARCH 495/595)
- Electric Lighting (ARCH 492/592)

Context of the Architectural Profession

The discipline and practice of architecture exists within a broad societal context. Courses in this area consider professional practice in contexts of ethics, law, business, and the construction industry.

- Practicum (ARCH 409)
- Context of the Architectural Profession (ARCH 417/517)

Context of the Interior Architecture Profession (IARC 417/517)

Architectural History

The study of architecture and its evolution through time. Majors are expected to acquire an overview of architectural history, from prehistory to the present, augmented with in-depth knowledge of one or more periods.

- Three 400- or 500-level courses in architectural history taught by the Department of Art History. Undergraduate majors must take History of Western Architecture I or II (ARCH 314 or 315), an arts and letters group-satisfying course; if both 314 and 315 are completed, only two 400-level architectural history courses are required

Special Courses

In addition to permanently numbered courses, generic courses (ARCH 196–199, 401–410, 503, 507, 508, 510, 601–610) may be offered and approved to satisfy subject or elective credit requirements. Independent study is limited to a total of 9 credits—selected from Research (ARCH 401, 601), Reading and Conference (ARCH 405, 605), Special Problems (ARCH 406, 606), and practicum teaching—to fulfill subject-area requirements.

General Electives: 43 credits

The general-elective component of the professional curriculum enables undergraduate majors to study general subjects beyond university group requirements. To encourage professional-degree students to continue liberal studies beyond introductory courses, B.Arch. students are required to earn 18 credits in upper-division general electives in academic subjects (exclusive of activity and performance courses) outside the School of Architecture and Allied Arts.
Erecti

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Department

The Department of Art offers courses in ceramics, drawing, metalsmithing and jewelry, multimedia design, painting, photography, printmaking, sculpture, and visual design. Lower-division courses serve the department's majors and minors as well as nonmajors seeking studio work as part of a liberal arts education.

Undergraduate Studies

Three bachelor's degrees are offered by the department:

1. A four-year program leads to the bachelor of arts (B.A.) or bachelor of science (B.S.) degree with a major in art
2. A fifth-year program leads to the bachelor of fine arts (B.F.A.) degree with a major in art, ceramics, fibers, metalsmithing and jewelry, painting, photography, printmaking, sculpture, and visual design

Advising and Program Planning. The department stresses the importance of interdisciplinary programs as well as concentrated study. Each student is encouraged to select a faculty adviser during the first year of study. It is critical to development of a worthwhile program that the adviser be familiar with and sympathetic to the student's direction and capabilities. The importance of program planning cannot be overemphasized.

Application and Admission. Students apply directly to the Department of Art for admission as majors to the B.A., B.S., and fifth year B.F.A. degree programs. Write or call the department or visit the department's website for an application form. Admission screening takes place each term. Students should display promise and creativity, but need not demonstrate extensive experience in multimedia. Applications that don't include visual materials are not reviewed.

B.A. and B.S. Requirements

General departmental requirements for the B.A. and B.S. degrees are 66 credits, which includes two courses in drawing, two courses in Basic Design (ART 116), and three courses—at least one academic year—in art history. Understanding Contemporary Media (ART 101) may be substituted for one drawing course or one course in basic design. Twenty-four of the 66 credits must be upper-division studio work. For transfer students completing an undergraduate degree, the department requires at least 24 credits of studio work in residence, of which at least 12 must be upper division.

B.F.A. Requirements

Admission to the B.F.A. program is subject to a portfolio review of the student's work, usually during the fourth year of study. The B.F.A. candidate selects a faculty sponsor, who agrees to initiate the portfolio review and supervise the terminal creative project.

Requirements

1. Completion of a five-year program totaling 220 credits, including satisfaction of general university requirements for the B.A. or B.S. degree
2. Satisfaction of departmental requirements for a program leading to the B.A. or B.S. degree and, in the fifth year, at least two full-time terms of work after being accepted to the B.F.A. program, three courses—at least one academic year—in art history, and 6 credits of Terminal Creative Project B.F.A. (ART, ARTC, ARTF, ARTM, ARTO, ARTP, ARTS, or ARTV 409) for a total of 108 credits over the five years

Students who have completed a comparable four-year degree in art at another institution may be admitted to the fifth-year B.F.A. program. Such B.F.A. candidates must satisfy the university's 45-credit residence requirement.

Multimedia Design

Program Overview. The major in multimedia design, a five-year program, leads to a bachelor of fine arts (B.F.A.) degree. The program provides a thorough grounding in the use, invention, and practice of visual art and communication. Through hands-on labs, studios, and internships, students learn the concepts, theory, and authoring they need to develop original multimedia work. Multimedia design majors share a foundation in basic design, drawing, and art history with other art majors. This connection to the history and practice of visual communication is a primary strength of the program. Majors are encouraged to take elective courses in computer science, journalism, and music.

Application to the Major. Students should prepare themselves for study in the broad and inclusive field of multimedia by developing a wide range of interests and skills that might include fine arts, music, computer science, writing, literature, games, popular culture, theater, journalism, and media theory and criticism. Special studies courses Multimedia Design Tools II (ARTD 199) and Multimedia Survey (ARTD 199) provide opportunities to develop general skills and portfolio materials for application to the major.

The B.F.A. program in multimedia design is an intensive, limited enrollment program. Acceptance is competitive and based on documented evidence of potential to excel in the field. Admission screening takes place once a year and requires review of a portfolio of visual materials submitted by each applicant. These portfolios should display promise and creativity, but need not demonstrate extensive experience in multimedia. Applications that don't include visual materials are not reviewed.

Students apply directly to the multimedia design program for admission as majors. Write or call the Department of Art. The application form and instructions are also available online. Follow the link from the department's website to the multimedia program. The postmark deadline for applications is February 1 for fall term admission.

Major Requirements

Completion of a five-year program and a minimum of 220 credits, including satisfaction of general university requirements for a B.A. or B.S. degree.

Course Work

B.F.A. (118 credits)

Drawing (ART 233) or Drawing and Modeling (ART 297) ................. 4
Basic Design (ART 116) ........................................... 4
Drawing for Media (ARTD 235) .................................. 4
Three multimedia core courses; visit department office for details .......... 12
Three art history courses, one academic year. History of Design (ARH 358) recommended 12
Upper-division studio courses (ARTD) ............... 67
Terminal Creative Project B.F.A. (ARTD 409) ....... 15

Recommended Electives. Understanding Contemporary Media (ART 101); Information Gathering (J 202); Writing for the Media (J 203); Media Aesthetics (ENG 260); History of the Motion Picture (ENG 265, 266); Color Theory (ART 350); Creative Black-and-White Photography (ARTO 351); Electronic Music Techniques I (MUS 443); and courses in ceramics, fibers, metalsmithing, painting, printmaking, and sculpture.

Minor Requirements

Minor in Art. The minor requires 42 credits. Course work must be taken in at least two departmental curricular areas, excluding courses taken to fulfill the Basic Design (ART 116) and Drawing (ART 233) requirements.

Students are encouraged to declare the minor at least three terms before graduating. At the time the minor is declared, a departmental adviser may be assigned to help the student develop an individualized program.

Core

20–24 credits

Art history (ARH), one academic year .......... 9–12
Basic Design (ART 116) ........................................... 4
Drawing (ART 233) ............................................. 4
One course selected from Understanding Contemporary (ART 101), Basic Design (ART 116), Drawing (ART 233), Introduction to Visual Inquiry I, II (AAA 180, 181), general departmental (ART) courses ............................................. 3–4

Studio

18–22 credits

Studio courses of one's choice; 15 credits must be upper division, and 12 credits must be taken in residence

458/558 Types and Typology (3) Critical introduction to theory of typology that categorizes urban and architectural forms by formal characteristics and cultural meaning. Lectures cover basic concepts, historical development, and case studies. Undergraduate prereq: ARCH 282, 450; graduate prereq: ARCH 682 or 683.

461/561 Structural Behavior (4) Developing basic understanding of structural systems or elements and their implications for architectural form. Lectures, laboratories, and case studies investigate structure in historical and contemporary buildings. Undergraduate prereq: PHYS 201, 202.

469/569 Seismic Study (3) Interaction of earthquakes and buildings, how loads are applied and distributed through a structure, influence of building configuration on response to earthquake loads. Prereq: ARCH 463/563.

474/574 Preservation and Restoration Technology (3) Materials, structure systems, buildings, and elements produced by historical technologies and tools studied in terms of their evolution; chronological and stylistic context; deterioration and repair.

480/580 Supervised Design Teaching (1–3R) Supervised assistance with desk critiques and tasks related to studio teaching. Written application required. Undergraduate prereq: ARCH 282; graduate prereq: ARCH 682 or 683, instructor's consent. R for maximum of 3 credits.

484/584 Architectural Design (6R) Design projects requiring comprehensive and integrative study over a wide range of project options. Individual criticism, group discussions, lectures and seminars by visiting specialists, public review of projects. Undergraduate prereq: ARCH 282; graduate prereq: ARCH 682 or 683.

485/585, 486/586 Advanced Architectural Design I (4, 4.5) In-depth work on complex design projects and design development beyond that normally possible in intermediate studios. Sequence. Undergraduate prereq: 24 credits in ARCH 484; graduate prereq: 30 credits in ARCH 584.

491/591, 492/592 Environmental Control Systems I (4, 4.5) Influence of energy source, climate, heating, cooling, lighting, acoustics, and water and waste systems on design of buildings and sites. 491/591: architectural and mechanical means to manipulate thermal environment. 492/592: implications of lighting, acoustics, and water and waste for architectural design. Sequence.

494/594 Passive Cooling (3) Passive or natural cooling for buildings emphasizing design implications. Theory, application, and special problems in ventilation and storage mass, radiation, evaporation, earth contact, and shading. Prereq: ARCH 491/591, 492/592, instructor's consent.

495/595 Daylighting (3) Daylighting as an element of architectural design. Emphasis on models and photography to study behavior of light. Case studies and prediction techniques. Prereq: ARCH 491/591, 492/592, instructor's consent.

619 Terminal Project (1–9R) 620 Environmental Design Research (2–4) Theory, methodologies, and techniques for research in design fields. Emphasizes principles and skills for investigating ideas, framing researchable problems, and conducting independent research.

661 Teaching Technical Subjects in Architecture (3R) Covers teaching techniques that integrate technical content in design project development. Applies techniques to traditional design studios or design-build apprenticeship. R for maximum of 12 credits.

690 Teaching Technology in Architectural Design (3R) Covers teaching techniques that integrate technical content in design project development. Applies techniques to traditional design studios or design-build apprenticeship. R for maximum of 12 credits.

680, 681, 682 Introductory Graduate Design (6, 6, 6) Design projects and exercises intended to familiarize the student with fundamental concepts of environmental design. Emphasis on developing graphic skills and the capability for visual thinking that are essential to advanced studios. Sequence.

683 Graduate Architectural Design: Option II (6R) Design to expand perception and response to issues in architectural design. Design as exploration of fundamental theoretical ideas. Studio projects require comprehensiveness and integrative study.

---

**Courtesies**

Hattie Mae Nixon, courtesy instructor. (B.S., 1944, Miami (Ohio); M.S., 1961, Ohio. (1973)

208 Foundation: [Topic] (3–4R) Studio foundation course focusing on basic skills and concepts.

233 Drawing (4R) Beginning course in observation, selection, and recording of significant elements in various drawing media.

297 Drawing and Modeling (4R) Study of forms in space using the two dimensions of drawing and the three dimensions of modeling.

350 Color Theory (3–4R) Examines the physical, psychological, and physiological aspects of color and light. Designed to improve the understanding of color interaction. Prereq: ART 116, instructor's consent.

407/507 Seminar: [Topic] (1–3R) Frequent topics are Contemporary Issues in Art, Feminist Art Criticism and Theory.

408/508 Workshop: [Topic] (1–6R) Frequent topics are Bookbinding, Calligraphy, Papermaking, Small Metal Casting, Typography; others include Computers in the Arts, Hands and Feet.

410/510 Experimental Course: [Topic] (1–6R) Topics include Drawing and Writing on the Computer, Theories in Art.

415/515 The Origins of Mark and Image Making (3–4) Shares some characteristics of a studio course but undertakes research in a nontraditional outdoor setting. Unprocessed natural and found material used for projects reviewed and discussed on site. Prereq: instructor's consent.

482/582 Anatomy for Artists (3–4) Principles and formation of the skeletal and muscular structure of the human figure. Prereq: ART 233 or 297, instructor's consent.

485/585 Artist's Books (3–4R) Creating books as an expression of fine art. Each aspect of the book's structure and form is designed to express the artist's ideas and content. Prereq: foundation course.

483/583 Installation (4) Theories of installation art. Each aspect of the artist's ideas and content. Prereq: foundation course.

493/593 Visual Continuity (4R) Intermedia laboratory with emphasis on conceptual thinking, contemporary issues, and research. Focuses on continuity, coherence, sequence, interactivity, narrative, and duration. Prereq: ART 116 or instructor's consent.

602 Supervised College Teaching (1–4R) Prereq: instructor's consent.

605 Reading and Conference: [Topic] (1–6R) Prereq: instructor's consent.

607 Seminar: [Topic] (1–4R) Prereq: instructor's consent.

608 Colloquium: [Topic] (1–8R) Prereq: instructor's consent.

Ceramics Courses (ARTC)

199 Special Studies: [Topic] (1–5R) Prereq: instructor's consent.

255 Ceramics (3–4R) Both instructor-directed and self-directed opportunities. Instruction available in many aspects of the study of ceramic processes.

258/558 Advanced Ceramics (3–5R) Intensive study opportunities for those who seek the integration of skills, theory, and practice with the development of personal meanings.

455/555 Advanced Ceramics (4–5R) Theory and practice in glaze and clay calculation and formulation. Prereq: ARTC 255, instructor's consent.

456/556 Advanced Ceramics (3–5R) Further exploration of fiber and fabric techniques on and off the loom. Focuses on creative work using multishift looms, the computer and Jacquard looms, and fiber and fabric construction. Prereq: two lower-division fiber courses or equivalent.

458/558 Advanced Fibers (3–5R) Further exploration of fiber and fabric techniques on and off the loom. Focuses on creative work using multishift looms, the computer and Jacquard looms, and fiber and fabric construction. Prereq: two lower-division fiber courses or equivalent.

Metalsmithing and Jewelry Courses (ARTM)

199 Special Studies: [Topic] (1–5R) Prereq: instructor's consent.

257 Metalsmithing and Jewelry (3–5R) Introduction to basic metalworking processes.
Minor in Multimedia Design. Information about the minor in multimedia design is available in the department office.

Graduate Studies

The department offers the master of fine arts (M.F.A.) degree with majors in ceramics, fibers, metalsmithing and jewelry, painting, photography, printmaking, sculpture, and visual design. Graduate study in computer graphics is offered through the visual design major.

The M.F.A. program is intended to promote mature and independent creative work based on collegiality among members of the studio community. The faculty, with this in mind, prefers to rely more heavily on advising than on formal prescription.

The M.F.A. is the terminal degree in the studio arts. The program requires a minimum of 90 credits—54 of which must be graduate credits—earned during six consecutive terms as a full-time student. These 90 credits must include a minimum of 18 credits in Terminal Creative Project M.F.A. in a studio discipline (ART, ARTC, ARTF, ARTM, ARTO, ARTP, ARTR, ARTS, or ARTV 609). The six consecutive terms of full-time enrollment, not including summer session, is the minimum residence requirement. Under special circumstances an official University of Oregon leave of absence may be requested.

Other requirements include

1. At least two upper-division formal art history courses
2. Colloquium: Graduate Critique (ART 608)
3. Three upper-division formal courses in any or all of the following areas: art history, art theory, or seminars offered by the Department of Art that focus on theoretical or historical issues in the arts. Substitution of courses for requirement must have prior written approval of both the adviser and the department head
4. Public exhibition of the terminal creative project
5. Terminal creative project report

Graduate students in this department may elect to take all their work pass/no pass (P/N). Because the principal requirements here are those of residence, which may not be waived, graduate transfer credits are not accepted.

Most of the first year is spent establishing work patterns and becoming familiar with the department’s courses, faculty and staff members, and facilities. Prospective students are expected to have the equivalent of this department’s B.F.A. degree; applicants accepted without this experience are expected to make up background deficiencies before they are reclassified as graduate master’s students.

Prospective graduate students are encouraged to have some knowledge of the department’s offerings and seek entrance for particular reasons. The transition from the first year to the terminal-project phase of the second year is generally more rewarding to those who visit the department before applying. Call the art office to arrange a meeting with faculty members in specific curricular areas.

Formal Procedures

Conditional Admission. Application is made to a specific curricular area. It consists of the formal application, transcripts, résumé, portfolio, and letters of recommendation as requested. Applicants accepted by the Graduate School are given conditional admission to study for the M.F.A. in the Department of Art. Until or unless an entering student has a specific request for a graduate adviser, the faculty member so designated customarily serves as the adviser to conditionally admitted students. During this time, the student’s program consists of course work and special studies in his or her discipline and in other instructional areas to ensure broader acquaintance with the department and the university.

The student must participate in at least two art department graduate reviews—one before department reclassification to graduate master’s candidacy and a second after reclassification but before the M.F.A. exhibition.

Conditional status of a candidate can be reviewed for reclassification to graduate master’s after successful completion of course work to remedy any B.F.A. deficiencies, at least two courses (any upper-division ARF course or ART 507, 607), and at least 30 credits of course work toward the M.F.A. degree. A committee for reviewing candidacy is constituted by the adviser and consists of no fewer than three departmental faculty members. At least one member of the committee must be from another curricular area of the department. Faculty members from outside the department may serve on the committee, but only in a non-voting capacity. The departmental committee reviews with the student his or her record of accomplishment and examples of past and current work, in order to offer advice and recommend advancement to candidacy with a change of student classification to graduate master’s.

Terminal Project and Adviser. After reclassification, the student selects a terminal project adviser from the faculty in his or her curricular area. This adviser, in consultation with the candidate, selects the committee, consisting of the adviser as chair and at least two other departmental faculty members. A faculty member from outside the department may serve on the committee. The committee meets with the student for a preliminary statement of intention for the project (the project proposal), at least one progress report, and the terminal review.

As soon as the project proposal is organized by the candidate, a meeting of the committee is arranged for a preliminary review of the proposed project. A short written description of the proposal should be delivered by the candidate to each committee member before the meeting. The purpose of the preliminary review is to acquaint all the parties with the conceptual and technical particulars of the proposal and to discuss the merit of the project and its appropriateness to the terminal degree. The committee also reviews the student’s overall suitability for pursuit of the M.F.A. degree. If serious and irreconcilable differences of opinion arise, the committee should be reconstituted to begin again. If a second committee has serious irreconcilable differences, the student may be terminated as an M.F.A. degree candidate after review by the department head.

Although the preliminary review is not a public meeting, the departmental faculty should receive the courtesy of notification. It is understood that guests are not to compromise the purpose of the meeting. The preliminary review is usually timed to allow three subsequent terms to complete the terminal project.

As the terminal project progresses, the candidate schedules individual conferences with the committee and arranges, through the adviser, at least one committee meeting for a progress report. The committee decides whether it is necessary to schedule additional progress-report meetings. At each meeting, the committee determines whether sufficient progress has been made, work of appropriate quality for continuation of the project, and the student’s performance in the M.F.A. program continues to be acceptable.

At least two weeks before the terminal review, each committee member should receive a rough draft of the report summarizing the terminal project. At least one week before the terminal review, the time, date, and place are publicly announced by the committee chair. Departmental staff members assist the candidate in arranging the space and dates for the public exhibition of the terminal project. The final review is open to all university faculty members and graduate students. The exhibition is open to the public.

The M.F.A. degree is officially granted after the candidate has fulfilled all requirements, including submission to the department of a project report in a form appropriate to the nature of the project and suitable for binding for use in the Architecture and Allied Arts Library. This bound copy of the terminal report must be signed by the terminal project adviser. A second copy of the report is made available to the major discipline for its use. The student may request an additional bound copy.

Art Courses

Unless specified otherwise, topics and credits are arranged with the instructor for generic courses numbered 199, 401, 404, 405, 406, 407/507, 408/508, 409, 410/510, 601, 604, 605, 606, 607, 608, and 609. Topics vary according to the interests of faculty members and students. Courses include, but are not limited to, studio-related exploration. Students are encouraged to discuss these possibilities with their advisers.

General Departmental Art Courses (ART)

101 Understanding Contemporary Media (4)
Examines contemporary developments in specific media of visual art. Emphasizes process and practice in ceramics, fibers, metalsmithing, painting, photography, printmaking, sculpture, and visual design.

111 The Artist Experience (3) Series of presentations by resident faculty members of the Department of Art.

116 Basic Design (4R)
Programming of information and processes invested in the act of designing: exercises in understanding the syntax of problem posing. Alpert, Wenger.

199 Special Studies: [Topic] (1–5R) Prereq: instructor’s consent.

Graduate Study in Computer Graphics is offered through the visual design major.
Photography Courses (ARTO)

199 Special Studies: [Topic] (1–5R) Prereq: instructor’s consent.

351 Creative Black-and-White Photography (4R) Basic photographic processes and techniques; development of camera and darkroom skills; seeing photographically. Student work reviewed often. R once for maximum of 8 credits.

401 Research: [Topic] (1–12R) Prereq: instructor’s consent.

404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.

405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.

406 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.

508/508 Workshop: [Topic] (1–6R) Prereq: instructor’s consent.

410/510 Experimental Course: [Topic] (1–6R) Exploration of new or combined graphic media may include monotype, Japanese woodcut, and wood engraving.

446/546 Intermediate and Advanced Relief Printing and Intaglio (4–6R) Relief printing emphasizes color techniques, chine collé, wood engraving, monotype. Intaglio includes color methods with multiple plates and la poupee. Focuses on personal imagery development. Prereq: ARTR 346 or 347 or instructor’s consent.

601 Research: [Topic] (1–12R) Prereq: instructor’s consent.

604 Internship: [Topic] (1–12R) Prereq: instructor’s consent.

605 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.

606 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.

607 Seminar: [Topic] (1–4R) Prereq: instructor’s consent.

608 Colloquium: [Topic] (1–8R) Prereq: instructor’s consent.

Sculpture Courses (ARTS)

199 Special Studies: [Topic] (1–5R) Prereq: instructor’s consent.

291 Elementary Sculpture (3–4R) Introduction to materials. Consideration of form; technical and compositional exercises in clay, plaster, wood, and stone.

393 Intermediate Sculpture (3–4R) Practice in the basics of additive, reductive, and constructive sculpture. Prereq: ARTS 291 or instructor’s consent.

401 Research: [Topic] (1–12R) Prereq: instructor’s consent.

404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.

405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.

406 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.

408/508 Workshop: [Topic] (1–6R) Prereq: instructor’s consent.

410/510 Experimental Course: [Topic] (1–6R) Prereq: instructor’s consent.

487/587 Figure Studies (3–5R) The human structure and its accurate interpretation. Three-dimensional work from the living model.
Forming and construction of functional, adornment, and sculptural objects. Introduction to historical and contemporary work through slides and lectures.

401 Research: [Topic] (1–12R) Prereq: instructor’s consent.
404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.
405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.
406 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.
408/508 Workshop: [Topic] (1–6R) Prereq: instructor’s consent.

Multidisciplinary Arts Courses (ARTX)

199 Special Studies: [Topic] (1–5R) Prereq: instructor’s consent.
401 Research: [Topic] (1–12R) Prereq: instructor’s consent.
404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.
405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.
406 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.
408/508 Workshop: [Topic] (1–6R) Prereq: instructor’s consent.

608 Colloquium: [Topic] (1–8R) Prereq: instructor’s consent.

Multimedia Design Courses (ARTD)

199 Special Studies: [Topic] (1–5R)
235 Drawing for Media (4R) Drawing techniques applied to developing and presenting ideas in visual communication. Various materials used on storyboards, quick concept sketches, thumbnail sketching, and other graphic ways of exploring. R once for maximum of 8 credits.
382 Continuity for Media (4R) Intermediate applications in static, time-based, and interactive media. Introduces formal and conceptual strategies for managing unity, coherence, hierarchy, and structure in media design. Prereq: information in department office. R once for maximum of 8 credits.
394 Digital Illustration (4) Uses computers and digital imaging software to create pictures as graphic communication. Prereq: ART 360.
395 Digital Video and Audio (4R) Introduction to digital video and audio technology and production applications for multimedia design. Prereq: information in department office. R once for maximum of 8 credits.
401 Research: [Topic] (1–12R)
404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.
405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.
406 Special Problems (1–8R) Prereq: instructor’s consent.
408/508 Workshop: [Topic] (1–6R) Prereq: instructor’s consent.

457/557 Intermediate and Advanced Metalsmithing and Jewelry (3–5R) Emphasis on creative work. Further exploration of techniques from introductory level. Introduction to sophisticated metalworking processes includes production casting, aluminum anodizing, hollowware. Various conceptual problems.

601 Research: [Topic] (1–8R) Prereq: instructor’s consent.

571/671 Experimental Course: [Topic] (1–6R)

473 3-D Computer Animation (5R) Introductory three-dimensional computer animation arts. Includes time and space in the digital 3-D environment, animation concepts and techniques in 3-D space, and production techniques for various multimedia applications. Prereq: ART 471. R thrice for maximum of 20 credits.

494 Advanced Design I (5) Theory, problems, and projects in language, meaning and ideas, communication, identity and signification, conceptual invention and creativity, critical analysis. Lectures, projects, critique. Prereq: ART 478.

Painting Courses (ARTP)

199 Special Studies: [Topic] (1–5R) Prereq: instructor’s consent.
281 Painting (3–4R) Basic visual elements and their application to painting as a means of expression. Incorporates traditional subject matter: still life, landscape, figure. Drawing experience recommended.
294 Watercolor (3–4R) Basic instruction in the use of water media with particular attention to their limitations and capabilities.

390 Painting (3–4R) Advanced painting concepts and technical processes. Independent initiative is encouraged. Prereq: 8 credits of lower-division painting or equivalent.

401 Research: [Topic] (1–12R) Prereq: instructor’s consent.
404 Internship: [Topic] (1–12R) Prereq: instructor’s consent.
405 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.
406 Special Problems: [Topic] (1–8R) Prereq: instructor’s consent.
should consider plans for advanced study and consult their advisers when selecting a language.

**General Requirements** 55 credits

**Honors Program**

In the senior year, an art history major may apply to the chair of the undergraduate committee for the department’s honors program if he or she has

1. Completed at least 40 credits in art history courses with a 3.75 GPA
2. Completed ARH 300 with a grade of A– or better
3. Completed the last term of the second year of the second-language requirement with a grade of A– or better

The applicant must have an art history faculty member agree to supervise research on a topic related to the faculty member’s interest and to serve as director of the student’s honors essay. The applicant who satisfies all of the above requirements and presents the undergraduate committee chair with a faculty member’s written agreement to serve as honors adviser is admitted to the honors program, typically at the beginning of winter term.

The honors candidate typically registers for 3 to 6 credits of Research (ARH 401) during winter term of the senior year to undertake research in preparation for writing the honors essay, and 4 credits of thesis in spring term, when writing the essay. Students are urged to present a first draft of the essay to the faculty adviser six weeks before the end of the term, and a final draft must be submitted two weeks before the end of the same term.

The honors essay must demonstrate the student’s ability to formulate a significant research problem and to handle sources in at least one foreign language if relevant. The essay should have twenty to twenty-five pages of text, not including notes in text, endnotes, bibliography, and illustrations. A copy of the honors essay is deposited in departmental files.

The candidate whose essay is approved by the faculty adviser and who maintains a 3.75 GPA in all art history courses required for the major is awarded departmental honors.

**Minor Requirements**

Students who want a minor in art history must file an application form with the department, consult with the faculty adviser about their minor option, and maintain an up-to-date academic record in the Department of Art History office. The art history minor is offered in three options.

**Western Art Option** 28 credits

</tbody>
</table>

Of the four upper-division electives in architectural history, no more than two may come from the following four courses: History of Interior Architecture I, II, III (ARH 474, 475, 476), History of Landscape Architecture I, II (ARH 477, 478).

**Graduate Studies**

The Department of Art History offers programs leading to the master of arts (M.A.) and the doctor of philosophy (Ph.D.) degrees in art history with specialization in architectural history and ancient, medieval, Renaissance-baroque, modern, and Asian art. The department offers Oregon’s only graduate degree program in art history. It is tailored to meet the needs and objectives of two kinds of students: (1) those who seek careers in the academic, art-related business, or museum worlds immediately upon completion of the M.A. degree, and (2) those who want to acquire a solid foundation in the field before pursuing studies leading to a Ph.D. degree.

Applications to the graduate program are considered once a year in January. For the 2002–3 academic year, applications and supporting documents, including Graduate Record Examinations scores, must be received by January 15, 2002.

**Master of Arts Requirements**

Students who have successfully completed undergraduate programs in art history, history, or languages and literature are particularly encouraged to consider graduate studies in art history. Candidates for the M.A. degree must complete 57 credits and satisfy the general requirements of the Graduate School for residence and the number of graded credits.

Entering graduate students must complete Graduate Studies in Art History (ARH 611) for a letter grade in the first fall term of study and continue their study of methodology in two more topically based seminars for first-year students. Graduate students emphasizing Western art must take at least 4 graduate credits in each of the main areas of study: ancient, medieval, Renaissance and baroque, and modern. Graduate students in Asian art history must consult their advisers about distribution requirements.

At least 12 credits must be earned in graduate research seminars.

Details about requirements for the M.A. degree are available from the department office.

**Foreign-Language Requirement.** New students in Western art history must demonstrate reading competency in French or German at the beginning of the first fall term by (1) passing the foreign-language examination given by the department or (2) by presenting, before the beginning of fall term, a passing score on the standardized national Graduate School Foreign Language Test (CSFLT). Proficiency in a second language is crucial for the student’s academic program. In the event that a student has not met the initial foreign-language requirement, he or she is expected to undertake course work or other appropriate study in that language and to pass either the department’s foreign-language examination or the CSFLT by the end of spring term the first year. Students who have not passed one of these examinations by the end of the first year are not allowed to register for art history courses, nor are they eligible for a graduate teaching fellowship (GTF) until the requirement is met.

Students in Chinese or Japanese art history should complete the third year of study in the appropriate language or demonstrate the ability to work at that level or above. Students who plan to enter a Ph.D. program in East Asian art history are urged to begin study of the second East Asian language.

Students whose areas of study require languages other than French, German, Chinese, or Japanese should consult their advisers about appropriate language training.

**Doctor of Philosophy Requirements**

Students are not usually admitted to the Ph.D. program unless they have successfully completed a master’s degree in art history or a closely related field. Course work for the degree consists of
with supporting study through drawing. Prereq: instructor’s consent.
489/589 Metal Casting (3–6R) Basic principles of nonferrous metal casting in lost wax. Design and operation of furnaces and ovens.
494/594 Advanced Sculpture (3–6R) Intensive creative work in a variety of media. Traditional and contemporary sculptural ideas and their relationship to personal expression. Regular reviews. Prereq: instructor’s consent.
496/596 Ceramic Sculpture (3–5R) Techniques in building, modeling, molding, and surfacing terra cotta. Character of the materials and their effectiveness as sculptural media.
601 Research: [Topic] (1–12R) Prereq: instructor’s consent.
604 Internship: [Topic] (1–12R) Prereq: instructor’s consent.
605 Reading and Conference: [Topic] (1–6R) Prereq: instructor’s consent.
606 Special Problems: [Topic] (1–12R) Prereq: instructor’s consent.
607 Seminar: [Topic] (1–4R) Prereq: instructor’s consent.
608 Colloquium: [Topic] (1–8R) Prereq: instructor’s consent.

Financial Assistance
For undergraduate and graduate students in art history, the department offers a number of scholarships and awards, including the Ina McClung Art Scholarship Award, Marian C. Donnelly Book Prize, and Mr. and Mrs. Eric G. Clarke Scholarship in Oriental Art. Students in Asian art history may apply for the Maude I. Kerns Graduate Teaching Fellowship or the Kerns Internship in Visual Resources. Support for travel is available through the Marian C. Donnelly Student Award and the Graduate Travel Award. Students may also seek scholarship aid through the School of Architecture and Allied Arts and the university’s Office of Student Financial Aid.

Undergraduate Studies
The major combines the study of art history with liberal and fine arts and leads to the bachelor of arts (B.A.) degree. The program provides a broad perspective for understanding art, history, and culture as well as a basis for critical judgment of individual works. The department offers courses on art and architecture in the following areas or traditions: ancient (Greek and Roman), medieval, Renaissance–baroque, modern (including American), East Asian (Chinese and Japanese), Central Asian, Islamic, Pacific islands, and Native American.

Major Requirements
Art history majors must complete 95 credits of course work including 56 credits in art history courses. Majors are strongly encouraged to structure their programs in consultation with their departmental adviser. Majors should meet with their advisers every term in order to discuss progress toward the degree; they must consult with their advisers at least once each year, preferably at the beginning of fall term.

Majors must take all art history courses for letter grades and pass them with grades of C– or better. Nonmajors, subject to general university requirements, may take any department course either for a letter grade or pass/no pass (P/N).
Topics vary. Prereq: ARH 204 or 314 or instructor’s consent. Not offered 2001–2.

433/533 Gothic Sculpture (4) Examination of European sculpture, ca. 1140 to 1400. Emphasizes the function of sculpture in various contexts and the changing role of the patron and artist in its production. Prereq: ARH 205 or instructor’s consent. Dolezal. Not offered 2001–2.

437/537 Romanesque Architecture (4) Architecture in Western Europe ca. A.D. 1000 to 1200. The period of monasteries, pilgrimages, and Crusades. Prereq: ARH 205 or 314 or instructor’s consent. R. Sundt.

438/538, 439/539 Gothic Architecture I,II (4,4) Architecture in Western Europe ca. 1130 to 1500. 438/538: emphasis on northern France. 439/539: emphasis on England, Germany, and the area outside northern France. Prereq: ARH 205 or 314 or instructor’s consent. R. Sundt.

441/541 Renaissance and Baroque Problems: [Topic] (4R) In-depth examination of careers of major artists or issues relevant to art of the period. Topics vary. Prereq: ARH 341 or 342 or 343 or 344 or instructor’s consent. R once when topic changes for maximum of 8 credits. Morrogh. Not offered 2001–2.

443/543 Early Netherlandish Painting (4) Examination of significant developments in Netherlandish panel painting ca. 1400–1550. Major artists include van Eyck, van der Weyden, Bosch, Brueghel. Prereq: ARH 206 or 343 or instructor’s consent. Not offered 2001–2.

448/548 Renaissance Architecture (4) Examination of the significant developments in architecture in Italy and the rest of Europe, 1400–1585. Prereq: ARH 206 or 315 or instructor’s consent. Morrogh. Not offered 2001–2.

449/549 Baroque Architecture (4) Examination of the significant developments in architecture in Italy and the rest of Europe, 1585–1750. Prereq: ARH 206 or 315 or instructor’s consent. Morrogh.

454/554 Modern German Art (4) Changing topics in German modernism from the founding of the secession to national socialism. Prereq: ARH 352 or instructor’s consent. Simmons. Not offered 2001–2.

455/555 Contemporary Art (4) Changing topics in art and critical theory in Europe and the United States from 1940 to the present. Prereq: ARH 352 or instructor’s consent. Simmons.

460/560 18th-Century Architecture (4) Examines the development of modern architecture including the rise of architecture, the impact of new technologies, and the appearance of the professional architect. Prereq: ARH 206 or 315 or 449. Roth.

461/561 19th-Century Architecture (4) Major developments in architecture in Europe, 1800–1900. Special emphasis on such topics as the impact of eclecticism, industrialization, and urban growth. Prereq: ARH 206 or 315 or instructor’s consent. Roth.

462/562 20th-Century Architecture (4) Major developments in architecture in Europe, 1890 to the present. Topics include the theory of international modernism and the rise of ethnic traditions. Prereq: ARH 206 or 315 or instructor’s consent. Roth.

464/564, 465/565, 466/566 American Architecture I,II,III (4,4,4) Major developments in American architecture. 464/564: 1600–1800; includes vernacular traditions, late-baroque transplantations, and the effort to create national symbols. 465/565: 1800–1900; includes the rediscovery of national symbols, the impact of industry, and the national focus on the single-family residence. 466/566: 1885 to the present; emphasizes academicism, the impact of international modernism, and the rediscovery of eclectic symbolism. Prereq: ARH 206 or 315 or instructor’s consent. Roth. Not offered 2001–2.

467/567 Chicagoland Architecture (4) Examines the development of architecture in this especially American city, focusing on the invention of the skyscraper and the suburban family home. Prereq: ARH 313 or 465 or 466 or instructor’s consent. Roth. Not offered 2001–2.

468/568 Oregon Architecture (4) Exploration of the development of architecture in the Oregon territory from prehistoric times to the present. Includes settlements, building types, urban planning, and civil engineering. Prereq: ARH 315 or 465 or 466 or instructor’s consent. Roth. Not offered 2001–2.

477/577, 478/578 History of Landscape Architecture I,II (4,4) History of landscape architecture focusing on the garden and public open spaces. 477/577: development of the garden from its origins until the 17th century. 478/578: landscape design of the 18th and 19th centuries, emphasizing the design of public open spaces and the Anglo-American tradition, American and 20th-century landscape architecture.

484/584 Problems in Chinese Art: [Topic] (4R) Topics vary from year to year. Prereq: ARH 208, ARH 384 or 385 or 386 or instructor’s consent. Lachman. R once when topic changes for maximum of 8 credits.

488/588 Japanese Prints (4) The woodblock print in Japan as part of the cultural, social, and political conditions. Prereq: ARH 209 or instructor’s consent. Thompson.

490/590 Islamic Art and Architecture (4) Examines the formation of Islamic art and its development from the 7th century to the mid-13th century (Mongol Conquest). Prereq: ARH 205 or instructor’s consent. Dolezal.

503 Thesis (1–9R)

601 Research: [Topic] (1–5R)

603 Dissertation (1–9R)

605 Reading and Conference: [Topic] (1–5R)

606 Field Studies: [Topic] (1–5R)

607 Seminar: [Topic] (1–5R) Departmental offerings vary from year to year and reflect the specialized interests of faculty members.

608 Workshop: [Topic] (1–5R)

609 Practicum: [Topic] (1–9R)

610 Experimental Course: [Topic] (1–5R)

611 Graduate Studies in Art History (4) Introduction to bibliographic resources, research methodology, and critical issues in art history. Prereq: graduate standing in art history. Nicholson, Simmons.
Art History Courses (ARH)

199 Special Studies: [Topic] (1-5R)  
204, 205, 206 History of Western Art I, II, III (4, 4, 4) Historical survey of the art of the West from prehistoric times to the present. 314: prehistory to the 15th century. 315: Renaissance to the present. Morrogh, Roth, R. Sundt.

322 Art of Ancient Greece (4) Introduction to major traditions, functions, and styles of Greek art from prehistoric times to the 15th century. Focus on Caravaggism, Carracci, Bernini, Velázquez, and other leading artists. Nicolson.

323 Art of Ancient Rome (4) Introduction to major traditions, functions, and styles of the art of ancient Rome. Emphasis on Italian and the Roman Empire, from the Etruscans through the Republic to the art of Constantine the Great. Hurwit.

342 Southern Baroque Art (4) Italian and Spanish art of the late 17th and 18th centuries. Focus on Caravaggism, Carracci, Bernini, Velázquez, and other leading artists. Nicolson.

352 20th-Century Art (4) Introduction to artistic movements in painting, sculpture, and graphics from postimpressionism to the present. Nicholson, Simmons.

358 History of Design (4) Design from the late-eighteenth century to the present—considered in relation to social, political, and technological developments. Simmons.

359 History of Photography (4) Photography from the early 19th century to the present, aesthetic and social changes in relation to the graphic arts, and its role in society. Nicholson.

384, 386 Chinese Art I, II, III (4, 4, 4) The major Chinese arts, including bronzes, sculpture, painting, and architecture, from the Shang through the Ch'in dynasties. Lachmann.

207 History of Indian Art (4) Historical survey of the visual arts of India. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman.

208 History of Chinese Art (4) Historical survey of the visual arts of China. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

209 History of Japanese Art (4) Historical survey of the visual arts of Japan. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

210 History of Asian Art (4) Historical survey of the visual arts of Asia. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

211 History of Islamic Art (4) Historical survey of the visual arts of Islam. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

212 History of Latin American Art (4) Historical survey of the visual arts of Latin America. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

213 History of European Art (4) Historical survey of the visual arts of Europe. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

214 History of American Art (4) Historical survey of the visual arts of the Americas. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

215 History of African Art (4) Historical survey of the visual arts of Africa. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

216 History of Oceanic Art (4) Historical survey of the visual arts of Oceania. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

217 History of Art and Technology (4) Historical survey of the visual arts and technology in the Western tradition. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

220 History of Modern Art (4) Historical survey of the visual arts of the modern period. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

221 History of Contemporary Art (4) Historical survey of the visual arts of the contemporary period. Selected works of painting, sculpture, architecture, and other arts studied in relation to the culture in which they were produced. Jacobson, Lachman, Thompson.

222/522 Aegean Art (4) Major artistic traditions of the Aegean Bronze Age: Minoan, Theraic, and Mycenaean. Topics include the function and meaning of palatial frescoes, development of vase painting, and Bronze Age iconography. Prereq: ARH 204 or 322 or instructor's consent. Hurwit. Not offered 2001–2.

223/523 Archaic Greek Art (4) Development of Greek art in the geometric and archaic periods. Focusing on such issues as the origin and practices of mythological narrative art. Prereq: ARH 204 or 322 or instructor's consent. Hurwit. Not offered 2001–2.

224/524 Classical Greek Art (4) Greek art in the 5th and 4th centuries B.C. Emphasizes major artistic programs of Olympia and Athens and classical attitudes toward the representation of the human form. Prereq: ARH 204 or 322 or instructor's consent. Hurwit. Not offered 2001–2.

227/527 Greek Architecture (4) Origins of the Greek Orders and temple architecture ca. 900 to 480 B.C.
Core and Management Courses
Courses address the study and management of the arts in social and cultural contexts with a focus on arts policy and information management. Nonprofit and for-profit organizations and issues are addressed.

These components include Art in Society (AAD 550), Art and Community Service (AAD 551), Arts Administration (AAD 560), Cultural Policy in Art (AAD 562), Managing Nonprofit Organizations (PPFM 580), Seminar: Arts Program Theory (AAD 607), course in marketing arts organizations (inquire at the program office), Information Management (AAD 632), Arts Program Evaluation (AAD 664), and electives chosen in consultation with an adviser.

Technology Component
Select two courses from Information Design and Presentation (AAD 583), Advanced Information Design and Presentation (AAD 584), Multimedia for Arts and Administrators (AAD 585).

Area of Concentration
Selection of a concentration area allows students to pursue study that contributes to specific professional goals. A curricular plan is developed with an adviser during the first term of graduate study. Four concentration areas are available:

- community arts management
- event management
- museum studies
- performing arts management

Research and Practice
Candidates for the master’s degree write a project paper or a thesis. Required courses in research methodology and professional practice prepare students for the summer internship and for writing the project paper or thesis.

Courses required for this component include Research Methodology (AAD 630), two courses in professional practice (inquire at the program office), and either Thesis (AAD 503) or Master’s Degree Project (AAD 611).

Arts and Administration Courses (AAD)
198 Workshop: [Topic] (1–5R)
199 Special Studies: [Topic] (1–5R)
250 Art and Human Values (4) Addresses fundamental aesthetic theory and practice questions resulting from viewing art as a powerful communicator of social and cultural values. Values, rights, and responsibilities of the contemporary visual environment. Blandy.
251 The Arts and Visual Literacy (4) Explores ways in which physical, perceptual, affective, and cognitive modes of learning interact when viewing, interpreting, and assessing designed visual information within sociocultural contexts. Maitland-Gholson.
252 Art and Gender (4) Addresses sociocultural factors influencing roles of women and men in arts disciplines. Examines underlying social structures that affect how we define art and artists. Degge.
399 Special Studies: [Topic] (1–5R)
401 Research: [Topic] (1–18R)
404 Internship: [Topic] (1–18R)
405 Reading and Conference: [Topic] (1–18R)
406 Special Problems: [Topic] (1–18R)
407/507 Seminar: [Topic] (1–5R)
408/508 Workshop: [Topic] (1–18R)
409 Practicum: [Topic] (1–18R)
410/510 Experimental Course: [Topic] (1–5R) A current topic is Youth Arts Curriculum Methods.
450/550 Art in Society (4) Concepts derived from anthropology, philosophy, sociology, and art education are used to examine fine, popular, folk, industrial, and environmental art forms in contemporary society. Degge.
451/551 Art and Community Service (4) Overview of services that art and art educators perform in the community. Explores settings, constituencies, philosophical approaches, methodologies, planning, and funding of community art programs. Blandy.
452/552 Women and Their Art (4) Examines the role of women in art from the Middle Ages through the 20th century. Focuses on existing social, political, and aesthetic conditions for women.
460/560 Arts Administration (4) Overview of the primary concerns in arts administration. Includes program development, financial strategies, management issues, program evaluation, marketing, and legal and tax considerations. Ettinger.
462/562 Cultural Policy in Art (4) Examines impact of cultural policies and institutions on opportunities of the artistic community, on what art forms are made accessible, and on the general aesthetic welfare of the public. Degge.
483/583 Information Design and Presentation (3) Design and presentation of electronically processed information. Uses concepts from aesthetics and graphic design; computer, behavioral, and social sciences. Practical applications in various contexts. Schiff.
485/585 Multimedia for Arts and Administrators (3) Examines multimedia tools, platforms, and trends that influence information retrieval, display, and presentation. Uses concepts from graphic design, information processing, and project management. Prereq: AAD 483/583, 484/584 or equivalent knowledge.
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
602 Supervised College Teaching (1–5R)
604 Internship: [Topic] (1–16R)
605 Reading and Conference: [Topic] (1–16R)
606 Special Problems: [Topic] (1–16R)
607 Seminar: [Topic] (1–5R)
608 Workshop: [Topic] (1–16R)
609 Practicum: [Topic] (1–16R)
610 Experimental Course: [Topic] (1–5R)
611 Master’s Degree Project: [Topic] (1–16R)
630 Research Methodology (4) Scientific bases and classification of research; methodologies used in descriptive, analytical, and experimental research. Development of research proposals and critique of research reports. Jones.
652 Information Management (4) Shows how effective information management improves organizational quality. Translates current information from business and technology to the arts, nonprofit, and cultural organization management.
664 Arts Program Evaluation (4) Provides theoretical and practical foundations needed to plan for assessment in various arts-program contexts—museums, events, staff and audience development.

Faculty

Emeriti

Jane Gehring, associate professor emerita. B.S., 1940, Michigan State Teachers; M.S., 1960, Oregon. (1958)

The date in parentheses at the end of each entry is the date in which the holder of the degree retired.

Participating

Lisa Aba-Smith, Museum of Art
C. Melvin Aikens, anthropology
Bryan T. Downes, planning, public policy and management
Don E. Dumond, anthropology
Larry Fong, Museum of Art
Patricia Krier, Museum of Natural History
Anne Dhu McLucas, music

About the Program

The Arts and Administration Program—the only one of its kind in the Pacific Northwest—combines knowledge in the visual, literary, and performing arts with social, cultural, managerial, and educational concerns that pertain to administering both nonprofit and for-profit arts organizations and programs. The field of specialization is arts management, with concentrations in community arts, event management, museum studies, and performing arts. It is a multidisciplinary field, dedicated to increasing opportunities in arts and culture for individuals and society. A growing group of scholars critically examines issues in the arts and society from community to international-policy levels. Study of these issues is vital to effective arts management for cultural preservation and advancement in the United States and abroad.

The program offers an undergraduate minor in community arts and major of arts (M.A.) or master of science (M.S.) degrees in arts management.

Undergraduate Studies

Undergraduate courses that are approved for the arts and letters group are listed under group requirements in the Registration and Academic Policies section of this catalog. Other courses offered by the arts and administration faculty that are appropriate for undergraduates, particularly students in the School of Architecture and Allied Arts, are Museum Education (AAD 429), Art in Society (AAD 450), Art and Community Service (AAD 451).

Minor Requirements

Minor in Community Arts 28 credits

Two lower-division arts and administration courses selected from Art and Human Values (AAD 250), The Arts and Visual Literacy (AAD 251), and Art and Gender (AAD 252) ... 8

Three upper-division arts and administration courses ....................................................... 12

Two upper-division courses in arts and administration or a related discipline ................. 8

Graduate Studies

The design of the master's degree program in arts management is based on the underlying belief that professional arts managers must be familiar with the social, cultural, political, and ethical contexts of the arts in general.

Program Objectives

1. Prepare students for professional leadership positions in various international, national, and regional public and private arts and cultural organizations including museums and galleries, community nonprofit organizations, arts foundations, performing arts centers, and festivals

2. Provide professional experience in arts agencies by incorporating a field-based internship component that enhances students’ ability to move into professional positions in arts and cultural organizations

3. Facilitate the development of individual research projects that contribute to the body of knowledge on the theory and practice of arts policy, administration, and management in an era of dynamic sociocultural change

4. Provide opportunities for professionals to enhance their knowledge and skills or develop new careers in the arts

Careers

The master's degree in arts management, depending on the chosen concentration, offers preparation for students who seek administrative careers in the visual arts, performing arts, or community arts in either the public or the private sectors.

Admission

Admission to graduate study requires previous study in the visual or performing arts and the humanities. Although an undergraduate degree in the arts is not required, related course work or equivalent professional experience is standard.

Applicants from the business, management, and social science fields are encouraged. Applicants are asked to indicate interest in a particular concentration area when they apply. Application materials are reviewed with this interest in mind, and appropriate entry qualifications are examined.

Students planning graduate study should request information and application forms by writing to the Arts and Administration Program or visiting the program's website.

Admission is determined by the arts management master's degree admissions committee, which consists of faculty members of the Arts and Administration Program and faculty representatives from concentration areas when appropriate.

The admissions committee considers every aspect of the applicant's file when making its decision for admission. No standardized test is required. Financial aid in the form of a limited number of teaching, research, or administrative fellowships is available, typically to second-year students. The Graduate School has information about fellowship options that are open to students from any program, at any point in their program. See the Graduate School section of this catalog.

Master’s Degree Requirements

The master's degree in arts management is designed to be a two-year, full-time program, with a deliberate progression of cumulative coursework; however, students may take up to seven years to complete the program. Students pursue a master of science (M.S.) or a master of arts (M.A.), completing a minimum of 68 credits. The M.A. degree requires competence equivalent second-year study in a second language.

Study in the master's degree program has four parts: (1) core courses, (2) management courses (3) a technology component, (4) a concentration area, and (5) research and practice, which includes a summer internship between the first and second years of study.

Students learn the techniques needed to analyze and develop arts policy as well as skills in grant and research report writing and review. In addition to course work and an internship, students are required to complete a master's degree project or thesis that demonstrates in-depth knowledge of practical or theoretical issues of importance to professionals in public and private arts organizations from diverse social and cultural settings. Projects focus on issues that were explored during the student’s internship.

Technology. A personal computer facilitates work in software applications and research for courses. Minimum recommendations for hardware and software are included in the application and on the program's web site.

Course work for the master's degree program is distributed among the following four components.

Program Objectives

1. Prepare students for professional leadership positions in various international, national, and regional public and private arts and cultural organizations including museums and galleries, community nonprofit organizations, arts foundations, performing arts centers, and festivals

2. Provide professional experience in arts agencies by incorporating a field-based internship component that enhances students’ ability to move into professional positions in arts and cultural organizations

3. Facilitate the development of individual research projects that contribute to the body of knowledge on the theory and practice of arts policy, administration, and management in an era of dynamic sociocultural change

4. Provide opportunities for professionals to enhance their knowledge and skills or develop new careers in the arts

Careers

The master's degree in arts management, depending on the chosen concentration, offers preparation for students who seek administrative careers in the visual arts, performing arts, or community arts in either the public or the private sectors.

Admission

Admission to graduate study requires previous study in the visual or performing arts and the humanities. Although an undergraduate degree in the arts is not required, related course work or equivalent professional experience is standard.

Applicants from the business, management, and social science fields are encouraged. Applicants are asked to indicate interest in a particular concentration area when they apply. Application materials are reviewed with this interest in mind, and appropriate entry qualifications are examined.

Students planning graduate study should request information and application forms by writing to the Arts and Administration Program or visiting the program's website.

Admission is determined by the arts management master's degree admissions committee, which consists of faculty members of the Arts and Administration Program and faculty representatives from concentration areas when appropriate.

The admissions committee considers every aspect of the applicant's file when making its decision for admission. No standardized test is required. Financial aid in the form of a limited number of teaching, research, or administrative fellowships is available, typically to second-year students. The Graduate School has information about fellowship options that are open to students from any program, at any point in their program. See the Graduate School section of this catalog.

Master’s Degree Requirements

The master's degree in arts management is designed to be a two-year, full-time program, with a deliberate progression of cumulative coursework; however, students may take up to seven years to complete the program. Students pursue a master of science (M.S.) or a master of arts (M.A.), completing a minimum of 68 credits. The M.A. degree requires competence equivalent second-year study in a second language.

In addition to course work and an internship, students are required to complete a master's degree project or thesis that demonstrates in-depth knowledge of practical or theoretical issues of importance to professionals in public and private arts organizations from diverse social and cultural settings. Projects focus on issues that were explored during the student’s internship.

Technology. A personal computer facilitates work in software applications and research for courses. Minimum recommendations for hardware and software are included in the application and on the program’s web site.

Course work for the master's degree program is distributed among the following four components.
Approved Electives (9 credits)
Students take courses in other concentration areas, from an approved list of courses, in or in other university departments with approval of their advisor.

Individualized Study (21 credits)
This part of the master's degree program requires 3 credits in Research (AAP 601), 6 credits in Practicum/Internship (AAP 609), and 12 credits in Thesis (AAP 503) or Terminal Project (AAP 611). Before enrolling in AAP 503 or 611, the student must develop a project proposal and have it approved by a committee of three or more members, at least two of whom must be University of Oregon faculty members. When the thesis or terminal project nears completion, the student must present the results of the project to faculty members and students and gain final approval of the project's documentation from the faculty committee.

Historic Preservation Courses (AAP)
406 Special Problems: [Topic] (1–6R) R when topic changes.
407/507 Seminar: [Topic] (1–5R)
408/508 Workshop: [Topic] (1–5R)
410/510 Experimental Course: [Topic] (1–5R)
A current topic is Fundamentals of Historic Preservation.
411/511 Introduction to Historic Preservation (3) History, evolution, modern concepts, and professional techniques of historic preservation. Includes financial incentives, national and state laws, the role of planning, and management.
431/531 National Register Nomination (4)
Provides information and instruction on all aspects of the National Register program and process. Facilitates completion of registration form.
451/551 Historic Survey and Inventory Methodology (3) Examines how historic inventories help communities plan for wise use of historic resources. Includes complete reconnaissance and survey documentation for historic properties and development of historic context statement.
503 Thesis (1–12R)
601 Research: [Topic] (1–6R)
602 Supervised College Teaching (1–5R)
605 Reading and Conference: [Topic] (1–16R)
606 Special Problems: [Topic] (1–16R)
607 Seminar: [Topic] (1–5R)
608 Workshop: [Topic] (1–5R)
609 Practicum: [Topic] (1–6R)
610 Experimental Course: [Topic] (1–5R)
611 Terminal Project (1–6R)

Courses in Other Departments
See descriptions under home departments.

Anthropology. Cultural Resource Management (ANTH 549)

Architecture. Analysis through Recording of Historic Buildings (ARCH 521), Vernacular Building (ARCH 534), Housing in Society (ARCH 545), Seismic Study (ARCH 589), Preservation and Restoration Technology (ARCH 574), Preservation Technology: Masonry (ARCH 575), Graduate Design Process (ARCH 611), Introductory Graduate Design (ARCH 680)

Arts and Administration. Arts Administration (AAD 560), Research Methodology (AAD 630)

Interior Architecture. Historic Finishes (IARC 576)

Landscape Architecture. Landscape Preservation (LA 580), National Parks (LA 582), Landscape Perception (LA 584), Contemporary American Landscape (LA 585)

Planning, Public Policy and Management. Grant Writing (PPPM 522), Communities and Regional Development (PPPM 545), Resource Managing Nonprofit Organizations (PPPM 580), Community Planning Workshop (PPPM 608), Introduction to Urban Planning (PPPM 611), Legal Issues in Planning (PPPM 612), Planning and Social Change (PPPM 635)

Courses outside A&A. Participation in related course work offered throughout the university is encouraged. Possible courses include Cultural Resources; Policy and Procedures (ANTH 535; offered at Oregon State University), Urban Geography (GEOG 542), Cultural Resource Management (ANTH 549), The American West (HIST 566, 567), The Pacific Northwest (HIST 568)

The Study of Interior Architecture
Education. In addition to providing a professional education in interior design, the Interior Architecture Program promotes inquiry into theory and design related to the interior environment and the development of design skills. Design studios offer opportunities for synthesis and testing of knowledge gained in lecture courses. The Interior Architecture Program is part of the Department of Architecture, which allows students an interdisciplinary context for study. Course work is shared between architecture and interior architecture, particularly in the first two years of study. The program includes courses in interior construction, materials, and systems, and it provides opportunities for furniture design and construction in a woodshop. An internship may be arranged with a participating professional office during the fourth or fifth year of study.

Preparation. High school and college students interested in interior architecture should prepare themselves by taking courses in the following subjects:
1. Fine arts such as drawing, sketching, painting, sculpture, two- and three-dimensional design, fiber arts, craftsmanship, and the history of the arts, architecture, furniture, and interior architecture design
2. Social sciences such as sociology, psychology, individual and group behavior, cultural anthropology, community studies, and human environment
3. Sciences such as environmental studies, algebra, and geometry. Trigonometry and college-level physics are required for anyone who is interested in studying structures
4. Humanities such as literature and writing courses, because interior architecture students must be able to read, write, and think clearly about abstract concepts

To better understand the professional field, prospective students should visit and discuss possible careers. Most students prepare for entering professional practice with interior architecture and design firms. Other opportunities exist in related areas such as product representation, color consultation, space planning, furniture design, and survey documentation for historic properties.

Participating Faculty
Mary Anne Beecher, architecture
Brian F. Davies, architecture
Arthur W. Hawn, architecture
Wayne J. Jewett, architecture
Lyman T. Johnson, architecture
Alison B. Snyder, architecture
Linda K. Zimmer, architecture

Interior Architecture
Linda K. Zimmer, Program Director
(541) 346–3656
210 Lawrence Hall
1206 University of Oregon
Eugene OR 97403–1206
Historic Preservation

Donald L. Peiting, Program Director
(541) 346-2982
234 Pacific Hall
5233 University of Oregon

Faculty

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Participating

Doug Blandy, arts and administration
George Bleekman, facilities services
Liz Carter, state historic preservation office
Donald B. Corner, architecture
Howard Davis, architecture
Philip H. Dole, architecture
Arthur W. Hawn, architecture
Kenneth L. Helphand, landscape architecture
Michael Hibbard, planning, public policy and management
Joseph Hosagrahar, architecture
Peter A. Keys, architecture
George Kramer, state historic preservation office
Henry Kurowski, state historic preservation office
Robert Z. Melnick, landscape architecture
Donald L. Peiting, architecture
Leland M. Roth, art history
Alison B. Snyder, architecture
Christine Theodoropoulos, architecture
Glenda Favel Utsey, architecture
Jenny Young, architecture
Polly Welch, architecture

Undergraduate Studies

Minor Program

The interdisciplinary minor in historic preservation requires a minimum of 27 credits, 15 of which must be upper division, distributed as follows:

**Historic Preservation 15 credits**
Introduction to Historic Preservation (AAP 411) ......................................................... 3
12 credits selected from Experimental Course:
Fundamentals in Historic Preservation (AAP 410), National Register Nomination (AAP 431), Legal Issues in Historic Preservation (AAP 441), Historic Survey and Inventory Methodology (AAP 451), Preservation and Restoration Technology (ARCH 474), Preservation Technology: Masonry (ARCH 475) ............ 12

**Related Course Work 12 credits**
Select courses from Oregon Archaeology (ANTH 344), Museology (ArH 411), Landscape Research Methods (LA 420), Analysis through Recording of Historic Buildings (ARCH 421), Grant Writing (PPPM 422), Vernacular Building (ARCH 434), Cultural Resource Management (ANTH 449), The Anthropology Museum (ANTH 450), Arts Administration (AAD 460),

18th-Century Architecture (ARH 460), 19th-Century Architecture (ARH 461), Native American Architecture (ARH 463), American Architecture (ARH 464, 465, 466), Oregon Architecture (ARH 468), History of Interior Architecture, Landscape Architecture (ARH 474, 475, 476), History of Landscape Architecture (11, ARH 477, 478), Landscape Preservation (LA 480), Managing Nonprofit Organizations (PPPM 480), National Parks (LA 482), Landscape Perception (LA 484)

Courses from other university departments may be substituted with approval of the student's adviser.

The historic preservation minor, available to all university undergraduate students, is administered by the director of the Historic Preservation Program in the School of Architecture and Allied Arts (A&A).

Early consultation with a faculty member on the Historic Preservation Committee is recommended.

Students must give the committee written notice of the intent to seek the minor. A form for this purpose is available in the historic preservation office.

Course availability is subject to the instructor's consent and the space available after obligations to A&A departmental majors have been met. A mid-C or better must be earned in letter-graded courses, a P (pass) in pass/no pass courses. The minor is granted upon completion of the requirements that were in effect when the notice of intent to seek the minor was filed.

**Graduate Studies**

A master of science (M.S.) degree in historic preservation is offered by the School of Architecture and Allied Arts (A&A). The two-year course of study is designed to meet the interests of students whose backgrounds are primarily in architecture, landscape architecture, and architectural history. It includes training in preservation theory and law, the characteristics of historic buildings and landscapes, historic building technology, and the procedures for evaluating and recording historic sites and buildings.

The program is administered by the Historic Preservation Committee, an interdepartmental committee in the A&A school.

**Admission**

In addition to the basic requirements for admission to graduate study at the university, students must have some background in architecture or architectural history or both. Applications to the graduate program should contain the following:

1. A completed application form and fee
2. A biographical summary
3. An educational and professional summary
4. Statement of intent
5. Selected examples of written material and/or graphic work
6. Official transcripts of all college work
7. Graduate Record Examinations (GRE) scores
8. Three letters of recommendation, preferably from academic or professional sources

Students whose first language is not English must submit Test of English as a Foreign Language (TOEFL) scores of at least 600.

Students who want to participate in the program through the Western Interstate Commission for Higher Education (WICHE) should inquire at the Graduate School or the historic preservation office.

General university regulations about graduate admission are described in the Graduate School section of this catalog.

The application deadline is February 15 for admission the following fall term. Requests for more information and application materials should be directed to Graduate Admissions at the Historic Preservation Program mailing address.

**Program Requirements**

The M.S. degree in historic preservation requires 72 credits in five course areas: historic preservation core courses, architectural history electives, area of concentration, approved electives, and individualized study, which includes thesis or project research, and an internship.

Students choose one of three concentration areas in which to specialize—preservation theory, design, and technology; management of cultural resources; or resource identification and evaluation.

**Historic Preservation Core (18 credits)**

Core courses include Workshop: Pacific Northwest Preservation Field School (AAP 508), Introduction to Historic Preservation (AAP 511), National Register Nomination (AAP 531), Legal Issues in Historic Preservation (AAP 541), Historic Survey and Inventory Methodology (AAP 551), Landscape Research Methods (LA 520) or Environmental Design Research (AAD 630).

**Architectural History Electives (9 credits)**

Students choose from an approved list of courses that cover the history of architecture, landscape architecture, and interior architecture.

**Concentration Areas (15 credits)**

The three concentration areas described below reflect the professional careers that are traditionally pursued by program graduates. Students who want to focus their studies should take courses identified in one of these areas. Students who want a broad-based curriculum may satisfy this requirement with courses from more than one area.

Preservation Theory, Design, and Technology. Emphasis is on developing the skills needed to research, plan, and direct restoration of buildings, places, and landscapes as well as to determine the appropriate levels of treatment. Restoration theory, design, building history, and technology are explored in this area of concentration.

Management of Cultural Resources. Embodied in historic preservation is the management of cultural resources. This concentration area provides the legal, planning, and management skills individuals need to work in or develop organizations that support public or private management of cultural resources.

Resource Identification and Evaluation. This concentration area offers the insights and investigative tools necessary for archival and cultural resource research to establish the history and context of buildings, landscapes, and cities that determine settlement, organization, and sense of place.

**Program Requirements**

The M.S. degree in historic preservation requires 72 credits in five course areas: historic preservation core courses, architectural history electives, area of concentration, approved electives, and individualized study, which includes thesis or terminal project research, and an internship.

Students choose one of three concentration areas in which to specialize—preservation theory, design, and technology; management of cultural resources; or resource identification and evaluation.

**Historic Preservation Core (18 credits)**

Core courses include Workshop: Pacific Northwest Preservation Field School (AAP 508), Introduction to Historic Preservation (AAP 511), National Register Nomination (AAP 531), Legal Issues in Historic Preservation (AAP 541), Historic Survey and Inventory Methodology (AAP 551), Landscape Research Methods (LA 520) or Environmental Design Research (AAD 630).

**Architectural History Electives (9 credits)**

Students choose from an approved list of courses that cover the history of architecture, landscape architecture, and interior architecture.

**Concentration Areas (15 credits)**

The three concentration areas described below reflect the professional careers that are traditionally pursued by program graduates. Students who want to focus their studies should take courses identified in one of these areas. Students who want a broad-based curriculum may satisfy this requirement with courses from more than one area.

Preservation Theory, Design, and Technology. Emphasis is on developing the skills needed to research, plan, and direct restoration of buildings, places, and landscapes as well as to determine the appropriate levels of treatment. Restoration theory, design, building history, and technology are explored in this area of concentration.

Management of Cultural Resources. Embodied in historic preservation is the management of cultural resources. This concentration area provides the legal, planning, and management skills individuals need to work in or develop organizations that support public or private management of cultural resources.

Resource Identification and Evaluation. This concentration area offers the insights and investigative tools necessary for archival and cultural resource research to establish the history and context of buildings, landscapes, and cities that determine settlement, organization, and sense of place.
6 credits in Seminar (IARC or ARCH 507 or 607). A minimum of ten terms is required for this option.

Option II students must fulfill the professional curriculum requirements of the Option III program but are admitted with advanced standing. For Option II the minimum residency requirement is six terms. Transfer credit may be given to students who have had academic experience in an interior architecture or design program accredited by the Foundation for Interior Design, Education, and Research. The extent of this advanced standing is determined in consultation with the student's academic advisor before studies begin. Transferability of course work is provisional pending satisfactory completion of three terms in residence. For more information, refer to The Study of Interior Architecture at the beginning of this section.

In addition, Option II students must complete the following requirements:

1. 6 credits in Research (IARC 601) — may include independent technical study or instructor-directed research
2. 9 credits in Seminar (IARC or ARCH 507 or 607)
3. 36 credits in interior -design studio including 12 credits in Interior -Design Terminal Project (IARC 588, 589)
4. 7 credits in Thesis Preparation and Programming (IARC 548), Thesis Programming and Research (IARC 549), and Documentation of Thesis Research, Programming, and Design (IARC 549)
5. Residence requirements in the design and subject areas as listed above

Postprofessional Degree Program: M.I.Arch.

The Option I program provides an opportunity for advanced study and contribution to knowledge in the field through the M.I.Arch. thesis. Option I students must complete a minimum of four terms in residence. Students in this program are expected to develop an individual research topic within one of the following areas of faculty expertise:

1. Computer -aided design
2. Design process and theory
3. Energy-conscious design
4. Environment and behavior
5. Housing design
6. Interior components and design
7. Light and lighting design
8. Proxemic design and ergonomics
9. Vernacular design

The Option I thesis draws on individual research, professional and general university courses, and meetings between the student and the student's thesis committee. Students in the Option I program are required to complete 9 credits in Thesis (IARC 503) or Terminal Project (IARC 611). For more information about the thesis, see the Graduate School section of this catalog.

Graduate Admission

Admission to the graduate program is through a selective review that focuses on three attributes: creative capability; academic capability; and potential contribution to the program through diversity of background, experience, or demonstrated motivation. All applicants are required to submit GRE scores; if their first language is not English, they must also submit TOEFL scores of at least 575.

Prospective applicants may request a description of the graduate interior-architecture program and an application packet by writing to Graduate Admissions at the Interior Architecture Program mailing address. The packet describes application requirements. Applications must be postmarked by the first Monday after January 1 prior to the fall term of anticipated enrollment. Notifications of results are mailed by April 1. Option III students begin the program during summer session. Other graduate students are required to begin their work in the fall term. The Department of Architecture does not permit late admissions. A number of graduate teaching fellowships (GTFs) are available to well-qualified graduate students. Applicants who have an interior architectural or design education (Option I or II) may want to request GTF application forms with their packets.

Unless a leave of absence has been approved, students enrolled in a graduate program must attend the university continuously (except summers) until all program requirements have been completed. For departmental policy regarding leave of absence, see the policy statement in the Architecture section of this catalog.

Professional Curriculum

The professional curriculum in interior architecture is composed of three elements: interior design, interior-architecture subject-area course work, and general electives.

Interior Design: 66 credits for B.I.Arch.; 60 credits for M.I.Arch.

The interior-design studio and its activities are at the center of interior-design education. Other course work is aimed at supporting the design-studio experience. The first studio emphasizes the mastery of design tools through development of design skills and content. Later studios emphasize mastery of project content including experience in furniture design and building and in development of construction drawings. In the last two studios, complete integration of skill and content is emphasized through a student -selected terminal design project. This covers design phases from project preparation and programming through design at many scales including details, electric lighting, and interior materials.

Up to 6 credits of intermediate architecture or landscape-architecture design studio may be used to satisfy this design requirement.

Introductory Design Studios

Introductory Architectural Design (ARCH 181, 182), a two-term studio for undergraduates;
Intermediate Architectural Design (ARCH 680, 681), a two-term studio for Option III graduate students;
Intermediate Interior-Design Studios

Interior Design (IARC 434/534), six terms, 36 credits. 30 credits required for Option III graduate students;
Custom Cabinet and Furniture Design (IARC 486/586 or 487/587), 6 credits

Advanced Interior-Design Studios

Interior-Design Terminal Project (IARC 488/588, 489/589), 12 credits

Subject Areas: 90 credits for B.I.Arch.; 87 credits for M.I.Arch.

The subject areas increase knowledge and skill development in interior architecture. Twelve subject areas or categories central to the profession have been identified to assist students' understanding of the structure of the interior-design field. A core curriculum required of all majors includes 21 credits in introductory courses and 56 credits in upper -division and graduate-level courses from nine of the subject areas.

Courses from two other areas are recommended as part of a minimum of 11 elective credits to be taken from any of the subject areas.

General Interior-Architecture and Architecture Courses

B.I.Arch.: 16 credits in Introduction to Architecture (ARCH 201), Design Skills (ARCH 202), Survey of Interior Architecture (ARCH 204), building construction course (inquire at program office), two design-arts courses

M.I.Arch. Option III: 7 credits in Graduate Design Process (ARCH 611), building construction course (inquire at program office)

Professional Practice: 3 credits in Context of the Interior Architectural Profession (IARC 417/517)

Other Courses: Practicum (IARC 409 or 609)

Media and Methods: 3 credits in Media for Design Development (ARCH 423/523)

Other Courses: Analysis through Recording of Historic Buildings (ARCH 421/521), Advanced Interior-Design Development Media (IARC 424/524), Advanced Design-Development Media (ARCH 424/524), art courses

Contextual Issues: recommended courses include Architectural Contexts: Place and Culture (ARCH 430/530), Vernacular Building (ARCH 434/534), landscape architecture courses

Other Courses: Architectural Programming (ARCH 449/549)

Color: 3 credits from Color Theory (ART 350), Color Theory and Application for the Built Environment (IARC 447/547), Light and Color in the Environment (ARCH 447/547)

Spatial Ordering: 7 credits in Spatial Composition (ARCH 450/550) and Types and Typology (ARCH 458/558) or approved elective

Construction and Materials: 10 credits in Materials of Interior Design II (ARCH 471/571, 472/572), Working Drawings in Interior Architecture (IARC 473/573)

Other Courses: Structural Behavior (ARCH 461/561), Wood and Steel Building Systems (ARCH 462/562), Reinforced Concrete Building Systems (ARCH 463/563), Building Enclosure (ARCH 471/571), Preservation and Restoration Technology (ARCH 474/574), Preservation Technology: Masonry (ARCH 475/575)

Furniture: 5 credits in Furniture and Accessories (ARCH 444/544), Working Drawings for Furniture (ARCH 475/575)

Lighting: one course from Environmental Control Systems II (ARCH 491/591), Electric
design, and other activities related to the proximate environment.

Students graduating from the Interior Architecture Program may elect to apply for the national examination administered by the National Council for Interior Design Qualification (NCIDQ). Successful completion of this examination is required for professional membership in the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA).

Overseas Study

Students in all University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

See also the Rome Program and the Danish International Studies Program listed in the Architecture section of this catalog.

Summer Architecture Academy. See description in the Architecture section of this catalog.

Curriculum for the Study of Interior Architecture

Students must meet the curriculum requirements published in the UO catalog and the department's Advising Handbook the year of their admission to the program. Students needing more specific information should see an adviser.

Residence Requirements. For transfer students to receive the B.LArch. or M.LArch. degree from the university, the following minimum course work must be taken in residence:

1. Design area: 24 credits, including Interior-Design Terminal Project (IARC 489/589)
2. Subject area: a minimum of 40 credits from at least six subject areas
3. General electives: 12 upper-division credits selected from courses offered outside the School of Architecture and Allied Arts (B.LArch. only)

Leave of Absence. See policy statement in the Architecture section of this catalog.

Accreditation. Undergraduate and graduate professional-degree curricula in interior architecture are accredited by the Foundation for Interior Design Education Research (FIDER).

Undergraduate Studies

Potential applicants who have a four-year undergraduate degree in any field must apply to the graduate program (see Graduate Studies later in this section).

The undergraduate programs in interior architecture consist of the bachelor of interior architecture (B.LArch.) degree program and a minor in interior architecture.

Bachelor of Interior Architecture: 225 credits

A five-year program leads to the B.LArch. degree; the first two years are highly structured. Because of the many opportunities in the profession, the program is designed to allow students and their advisers flexibility in establishing study sequences that satisfy individual interests and needs.

In addition to the principal objectives of the professional curriculum listed below, the bachelor's degree program includes requirements for a liberal general education. Beyond the university requirements for interior-architecture majors, students must complete upper-division nonmajor course work as part of the general-elective requirement. Candidates for the B.LArch. degree must satisfy the following requirements, totaling 225 credits:

University Requirements. 44 credits distributed as follows:
1. Group requirements—36 credits in arts and letters, social science, and science (12 credits in each group)
2. College composition—8 credits
3. Multicultural requirement—8 credits (may be included in the groups above)

Major Requirements. 181 credits (see Professional Curriculum later in this section).

Minor Requirements

The Department of Architecture offers a minor in interior architecture, subject to the following restrictions:

1. Students must notify the Department of Architecture of their intent to seek a minor. The minor is granted on completion of the requirements for the minor program until space becomes available
2. Substitute courses for minor requirements may be approved by the department

Course Requirements 29 credits

Introduction to Architecture (ARCH 201) ........ 4
Survey of Interior Architecture (IARC 204) .... 4
Furniture and Accessories (IARC 444) ............ 3
Color Theory and Application for the Built Environment (IARC 447) .......................... 3
History of Interior Architecture I, II, III (ARCH 473, 474, 475) .......................... 9
Minimum of 6 credits selected from History of Western Architecture II (ARCH 315), Materials of Interior Design II (IARC 472), Interior Design (IARC 484) .......................... 6

Undergraduate Admission

The admission review focuses on creative capability, academic capability, and potential program contribution through diversity of background, experience, and maturity. Students are expected to submit specific materials supporting each of these attributes. First-year applicants must have grades and scores that meet at least three of the following four indices:

1. High school grade point average (GPA)—3.00
2. Verbal Scholastic Assessment Test (SAT) 1—530
3. Mathematical SAT 1—520
4. Total SAT 1—1100

Test of English as a Foreign Language (TOEFL) scores are required for students whose first language is not English. Paper-based test:

minimum total score of 575 must be achieved with a minimum of 58 in each subsection. Computer-based test: a minimum total score of 233 must be achieved with a minimum score of 24 in each subsection.

Transfer applicants must have a minimum college GPA of 2.50 and meet the other criteria listed above for first-year applicants.

The university deadline for undergraduate application to the Interior Architecture Program is December 15 (see Application Deadlines in the Admissions section of this catalog). The deadline for completion of the department application is January 15. All applicants must meet both deadlines. Students receive notices about their applications by April.

Prospective applicants should write to Undergraduate Admissions, Department of Architecture, 1206 University of Oregon, Eugene OR 97403-1206.

New students are admitted into the program only in the fall term, and an accelerated program is not usually possible. More information about enrollment policies and application deadlines is available in the architecture department office.

Graduate Studies

There are three programs of graduate study in interior architecture: Options I, II, and III. In these programs students must take 45 graduate credits, of which 30 must be in interior architecture and 9 must be at the 600 level. There is no minimum requirement for graded credits. Additional requirements for each program are listed below.

Option I leads to the master of interior architecture (M.LArch.) as a postprofessional degree. Applicants must have a five-year professional degree in interior architecture or interior design. Students in this program produce a thesis or terminal research project. The program is typically completed in six terms.

Options II and III lead to the M.LArch. as a first professional degree. The Option II program, which is typically completed in six terms, is for applicants who have a four-year degree in interior design or architecture or a related design discipline. Applicants with a professional degree in architecture should apply to the Option II program. The Option III program is usually completed in ten terms, and applicants must have a B.S. or B.A. degree at entrance. Option III students begin their program in the summer before their first academic year of study. Students with degrees in related design disciplines (e.g., landscape architecture, environmental design, or architecture degrees from nonaccredited degree programs) may be given advanced standing; up to a maximum of three terms of studio credit for equivalent prior course work. Approximately thirty-five new students for architecture and interior architecture combined are admitted each year to the Option III program.

Professional Degree Program Requirements

Option III students must complete 60 credits of interior-design studio and 87 credits of professional subject-area courses described under Professional Curriculum later in this section. In addition, Option III students must complete
Landscape Architecture

Cynthia Girling, Department Head
(541) 346-3634
230 Lawrence Hall

Faculty
Robert Z. Melnick, professor (landscape preservation, research methods, historic and cultural landscape analysis); dean, architecture and allied arts. B.A., 1970, Bard; M.L.A., 1975, State University of New York College of Environmental Science and Forestry; Fellow, American Society of Landscape Architects. (1972)

Emeriti
George S. Jette, professor emeritus. B.L.A., 1940, Oregon. (1941)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Department

Landscape architecture is an environmental profession and discipline of broad scope concerned with the design, planning, and management of landscapes. Landscape architecture is founded on an awareness of our deep connections to the natural world and the recognition that we are part of the web of life. A healthy society rests on the commitment to landscape design that respects the land, its processes, its integrity—and that helps fulfill human potential.

Both a science and an art, landscape architecture is based on scientific knowledge of natural processes coupled with awareness of historical, cultural, and social dynamics. These are applied to making richly supportive places beautiful in their response to human needs and ecological context.

The Department of Landscape Architecture is built on the 19th-century legacy that landscape architecture is both a design and a social profession with responsibilities to ourselves, society, the past, and the future. The program combines professional understanding and skills with a liberal-arts education.

As a profession, landscape architecture includes ecologically based planning activities and the analysis of environmental impacts as well as the detailed development of land and sites. As an academic discipline, it provides an opportunity for personal development through environmental problem solving and project-oriented study.

During the past decade, use of digital tools has increased in the landscape architecture profession. Although campus computer laboratories and facilities are available to students, they are heavily used, and access is sometimes limited. The department requires that entering students purchase or have unlimited use of a personal computer. More information is available in the department office.

Undergraduate Studies

The curriculum in landscape architecture leads to a degree of bachelor of landscape architecture (B.L.A.). The five-year program, accredited by the American Society of Landscape Architects, combines general preparation in the arts and sciences with a focus on environmental-design studies. The goal is to produce a visually literate and environmentally responsible citizen capable of playing a central professional role in the evolving landscape.

In recognition of the integrated and comprehensive nature of environmental planning and design, opportunities are provided for collaboration on planning and design problems with students in architecture, community planning, and other disciplines.

Curriculum Options

The curriculum represents a well-defined path toward the degree. Electives vary according to the interests, goals, and experience of each student and are chosen with the help of faculty advisers.

Departmental electives reflect the need to provide a variety of environmental subject material and to introduce the rapidly expanding spectrum of career areas in the profession. Program objectives provide a solid base of essential skills, tools, and knowledge in landscape design as well as the flexibility that allows each student to emphasize such topics as ecological and resource analysis, land conservation and development, urban development of waterways and agricultural lands, private-agency professional practice, public-agency professional practice, environmental impact assessment, landscape preservation, and environmental research.

The undergraduate program provides a balanced exposure to the many facets of landscape architecture with the expectation that specialization will occur at the graduate level and in professional internship programs.

Curriculum Structure

The undergraduate curriculum consists of the following interrelated areas:

Planning and Design. Studio courses focus on the development and communication of solutions to site and other environmental problems, especially through specific physical-design proposals. This area also addresses the physical-spatial implications of planning and management policies and programs. Tutorial studio work is the integrative heart of the curriculum.

Subjects. Five subject areas are essential foundations for the planning and design program: landscape architectural technology, plant materials, landscape analysis and planning, history and theory of landscape architecture, and landscape architectural media. Course work in these areas follows a required-and-elective format that encourages the student to tailor an individualized educational program with the help of an adviser.

Electives. This area, which includes general university requirements, provides for personal choice in selecting course work in arts and letters, social science, and science.

Preparation

Students planning to major in landscape architecture should prepare by beginning studies in the following areas:

Environmental Awareness. Courses in ecology, biology, botany, geography, and history help begin the long process of understanding the complex interrelationships and interdependencies of people and the environment.

Human Behavior. Courses in anthropology, sociology, history, government, and related subjects help explain human needs, values, attitudes, and activities and are useful in preparing for the design of physical places.

Problem Solving. Courses in philosophy, mathematics, and the sciences aid in the development of analytical skills.

Visual Language Skills. Courses in drawing, painting, photography, film, design, art history, and related subjects help develop perceptual skills and the ability to explore and communicate ideas graphically.

Full-time students planning to transfer into the department should follow the above outline during their first year of study. They may expect to transfer without loss of time or credit into the second year of the B.L.A. program.

Students interested in the undergraduate program should apply to the university by February 1 and to the department by March 1. Applications should contain:

1. A letter of intent describing pertinent background information, interests, goals, and aspirations
2. A portfolio of creative work
3. Three letters of recommendation from people able to provide an assessment of the applicant's strengths and potential contributions
4. Transcripts of previous college work

Inquire at either the Department of Landscape Architecture or the university's Office of Admissions for more information.

Professional Curriculum

Requirements for the B.L.A. degree total 220 credits and are distributed as follows:

Planning and Design. 88 credits taken in twelve studios

First Year. Three courses, two studios: Introduction to Architecture (ARCH 201), Design Skills (ARCH 202), Introduction to Architectural Computer Graphics (ARCH 222), Introductory Architectural Design (ARCH 181, 182)
Lighting (IARC 492/592). Daylighting
(Arch 495/595)

Theory Seminars: Interior-architecture and
architecture special-topic seminars

History of Art and Architecture: 18 credits
including History of Interior Architecture I,II,III
(ARCH 474/574, 475/575, 476/576), three addi-
tional courses in history of art or architecture

Special Courses: generic courses numbered
401–410, 507, 508, 510, and 601–607 may be de-
veloped and approved for credit in subject or elective
areas. Unless offered pass/no pass only, any
graded course in the architecture department
may be taken by interior-architecture majors
either for a letter grade or pass/no pass (P/N).

The maximum allowable number of P/N credits is
set by university regulations.

General Electives: 25 credits for B.I.Arch.
Students are encouraged to take general-subject
courses in addition to those used to fulfill univer-
sity general-education requirements. To ensure
continuation of liberal studies beyond the
introductory level, B.I.Arch. candidates must
complete 12 credits in upper-division general
electives in academic subjects outside the School
of Architecture and Allied Arts.

Interior Architecture Courses

See Architecture for descriptions of courses with the
ARCH subject code.

ARCH 181,182 Introductory Architectural
Design I,II (6,6)

199 Special Studies: [Top] (1–5R)

201 Introduction to the Profession (3) Course
work, field trips, and lectures provide an intro-
duction and background to the profession of
interior architecture and design and to the
academic program.

ARCH 201 Introduction to Architecture (4)
ARCH 202 Design Skills (3)

204 Survey of Interior Architecture (4)
Introduction to the theory of interior architecture.
Design criteria explored through illustrated
lectures and projects involving analysis of space.

ARCH 222 Introduction to Architectural
Computer Graphics (4)

401 Research: [Top] (1–6R)

405 Reading and Conference: [Top] (1–6R)

406 Special Problems: [Top] (1–6R)

407/507 Seminar: [Top] (1–6R) See recent
topics under Architecture

408/508 Workshop: [Top] (1–6R)

409 Practicum: [Top] (1–6R)

410/510 Experimental Course: [Top] (1–6R)

417/517 Context of the Interior Architectural
Profession (3) Social, economic, and political
forces influential in shaping the profession.
Issues related to professional practice including
contractual and specification documents, inter-
professional relations, and trade resources.

ARCH 421/521 Analysis through Recording
of Historic Buildings (3)

ARCH 423/523 Media for Design Development:
[Top] (3R)

424/524 Advanced Interior-Design Develop-
ment Media (3) Media issues related to design
inquiry, development, communication, and

design character. Use of perspective as a means
of testing proposals for the proximate environ-
ment. Prereq: ARCH 423/523.

ARCH 424/574 Advanced Design-Development
Media: [Top] (3R)

ARCH 430/530 Architectural Contexts: Place
and Culture (4)

ARCH 432/532, 433/533 Settlement Patterns:
Japanese Vernacular I,II (3,3)

ARCH 434/534 Vernacular Building (3)

ARCH 440/540 Human Context of Design (4)

444/544 Furniture and Accessories (3) Analysis
of furniture and cabinetry. Emphasis on design,
development, methods of manufacture and
distribution; furniture construction and tech-
niques of shop drawing. Introduction to basic
wood construction procedure. Prereq for
nonmajors: instructor's consent.

445/545 Thesis Preparation and Programming
(3) Formulation of individual design thesis projects
for IARC 486/586, 489/589. Documentation of
project issues, context, site, and building informa-
tion, research, case studies, and programming.
Prereq: eligibility for IARC 488/588.

447/547 Color Theory and Application for the
Built Environment (3) Use of color in the built
environment including principal color systems,
methods of color harmony, effects of visual
phenomena, and various psychological, cultural,
and historic implications. Undergraduate prereq:
ARCH 182 or instructor’s consent; graduate
prereq: ARCH 682 or instructor’s consent.

ARCH 447/547 Light and Color in the
Environment (3)

448/548 Thesis Programming and Research (2)
Detailed programming and research for indi-
vidual design thesis project. Includes documenta-
tion of programming, research, and design issues.
Coreq: IARC 488/588.

449/549 Documentation of Thesis Research,
Programming, and Design (2) Written docu-
mation of individual design thesis project. In-
cludes documentation of design issues, research,
case studies, and programming as well as graphic

ARCH 449/549 Architectural Programming (3)

ARCH 450/550 Spatial Composition (4)

ARCH 458/558 Types and Typology (3)

ARCH 461/561 Structural Behavior (4)

ARCH 462/562 Wood and Steel Building
Systems (4)

ARCH 463/563 Reinforced Concrete Building
Systems (4)

471/571, 472/572 Materials of Interior Design
LII (3,3) The properties, manufacture, and appli-
cation of materials used in construction and
interior design; field trips to supply sources.
Undergraduate prereqs: ARCH 181, 182. Prereq
for nonmajors: instructor’s consent.

ARCH 471 Building Enclosure (4)

473/573 Working Drawings in Interior
Architecture (4) Preparation of working draw-
ings for project designed in interior architecture
studio.

ARCH 474/574 Preservation and Restoration
Technology (3)

ARCH 474/574, 475/575, 476/576 History of Inter-
ior Architecture I,II,III (3,3,3) See Art History
475/575 Working Drawings for Furniture (2)
Development of full-scale working drawings and
as-built drawings of furniture projects from furni-
ture studio course. Coreq: IARC 486/586 or
487/587.

ARCH 475/575 Preservation Technology: Masonry
(3)

ARCH 480/580 Supervised Design Teaching
(1–3R)

484/584 Interior Design (6R) A series of creative
projects in interior design; intensive analysis of
design; methods of problem solving; individual
criticism, review of design projects; group discus-
sion and field trips. Undergraduate prereq: ARCH
182; graduate prereq: ARCH 682.

ARCH 485/585, 486/586 Advanced Architectu-
ral Design LII (8,8)

486/586, 487/587 Custom Cabinet and Furni-
ture Design (6,6) Projects in design and con-
struction of custom furniture, preparation of de-
tailed shop drawings, shop procedure. Prereq:
IARC 444/544, 18 credits in IARC 484/584 or
ARCH 484/584. Prereq for nonmajors:
instructor’s consent.

488/588, 489/589 Interior-Design Terminal
Project (6,6) Student-initiated studies in interior
design for the terminal project. Emphasis on
comprehensive and integrative study. Under-
graduate prereq: 42 credits in IARC design stu-
dios; graduate prereq: 36 credits in IARC design
studies.

ARCH 491/591, 492/592 Environmental Control
Systems LII (4,4)

492/592 Electric Lighting (3) Principles of lighting
with focus on integration of electric illumination
and space. Design for lighting, calculations, and
available systems and sources tested through
models and drawings. Prereq: 24 credits of design
studio.

ARCH 495/595 Daylighting (3)

503 Thesis (1–6R)

601 Research: [Top] (1–6R)

605 Reading and Conference: [Top] (1–6R)

606 Special Problems: [Top] (1–6R)

607 Seminar: [Top] (1–6R)

608 Workshop: [Top] (1–6R)

609 Practicum: [Top] (1–6R)

610 Experimental Course: [Top] (1–6R)

611 Terminal Project (1–9R)

611 Graduate Design Process (3)

ARCH 661 Teaching Technical Subjects in
Architecture (3R)

ARCH 680, 681, 682 Introductory Graduate
Design (6,6,6)

688 Advanced Interior Design (1–12R) Studio-
based investigation of special aspects of interior
design. Prereq: Option I or graduate standing in
interior architecture and instructor’s consent.

ARCH 690 Teaching Technology in Architec-
tural Design (3R)
Landscape History. This critical dimension of landscape architecture seeks to understand every landscape as a unique place in time and content. It combines an understanding of how landscapes have evolved as cultural and vernacular environments as well as how they have evolved as deliberate expressions of social norms and cultural aesthetics through history and among cultures. These understandings are applied to theories of design and planning as well as to the preservation of culturally rich landscapes.

Landscape Planning. Analyzing large landscapes and directing their management and land use patterns to meet social and environmental ends requires an understanding of land tenure, use traditions and institutions, and knowledge of the science and values inherent in regional natural resources and human activities. For this analysis, computer geographic information systems are used to synthesize information and generate landscape plans. Examples include river management, wetlands preservation, public forest plans, urban growth management, scenic resource management, and regional ecological enhancement.

The M.L.A. program seeks to prepare the student for advanced understanding, competence, and responsibility in promoting harmonious human-land relationships through private or public practice or teaching at the university level. Many graduate students have the opportunity to learn and practice teaching skills as paid teaching assistants and graduate teaching fellows in the department. Some graduates are offered faculty positions throughout the world. The program takes advantage of regional and university resources through landscape projects, internships, and visiting professionals, while it provides a beneficial base of support and ideas in the department. The department recognizes the importance of building a community for graduate education characterized by serious and rigorous inquiry, self-direction, and opportunities to work closely with teachers and peers in an active design and planning enterprise.

Curriculum

The M.L.A. degree requires 57 credits in four areas: planning and design courses, subject courses, the concentration area, and completion of the master’s project.

Planning and Design (12 credits)
Land Planning and Design (LA 594), and Research (LA 601)

Subjects (11 credits)
Seminar (LA 507 or 607), Landscape Research Methods (LA 520); at least one of the following courses: Oregon Landscape Planning (LA 511), Landscape Ecology (LA 565), Land and Landscape (LA 543), Landscape Perception (LA 584), Contemporary American Landscape (LA 585), Advanced Landscape Design Theory (LA 693), or other approved landscape architecture course

Area of Concentration (24 credits in one area)
Courses used to satisfy any of the above requirements may not be used to satisfy this requirement.

Landscape Design Theory. Land and Landscape (LA 543), Landscape Perception (LA 594), Advanced Landscape Design Theory (LA 693); three additional department-approved courses at the University of Oregon

Landscape Ecology. Landscape Ecology (LA 565), Quantitative Ecology (BI 573), Conservation Biology (BI 583); three additional department-approved courses.

Landscape History. Landscape Preservation (LA 580) or National Parks (LA 582), Landscape Perception (LA 584), Contemporary American Landscape (LA 585); three additional department-approved courses at the University of Oregon

Landscape Planning. Oregon Landscape Planning (LA 511), Open Space Planning (LA 514), Computers in Landscape Architecture (LA 515); three additional department-approved courses

Master’s Project (minimum of 10 credits)
Master’s Project Development (LA 695), Master’s Project (LA 699)

Before enrolling in LA 699 the student must develop and obtain department approval for a project proposal and a committee of three or more members, including at least two landscape architecture faculty members.

Near the completion of the master’s project, the student must present the results of the project to faculty members and students and gain final approval of the project’s documentation from the faculty committee.

Graduate Admission

Applications to the graduate program should contain the following:

1. A completed application form and fee
2. Three letters of recommendation from people able to provide an assessment of the applicant’s strengths and potential contributions
3. A personal statement describing pertinent background information, interests, goals, and aspirations
4. A portfolio of creative work or other work indicative of relevant abilities
5. Transcripts of previous college work

The deadline is February 1. Applications from all disciplines are welcome. Students whose first language is not English must submit Test of English as a Foreign Language (TOEFL) scores of at least 577 on the paper-based test or 233 on the computer-based test.

General university regulations governing graduate admission are in the Graduate School section of this catalog.

Landscape Architecture Courses (LA)

199 Special Studies: [Topic] (1-5R)

260 Understanding Landscapes (2-4) Perception, description, and explanation of landscapes as environmental sets, as biophysical processes, and as cultural values. Lovinger.

289 Landscape Architectural Design (6R) Study of places, their use, and how they evolve. Fundamentals of environmental awareness, social factors, and small-scale site design; abstract design and elementary graphic techniques.

326 Plants: Fall (4) Characteristics, identification, and design uses of deciduous trees, shrubs, vines, and ground covers. Emphasis on identification and appropriate use in landscape design.

328 Plants: Spring (4) Characteristics, identification, and design uses of flowering trees, shrubs, vines, and ground covers; emphasis on synthesis of fall, winter, and spring. Prereq: LA 327. Bettman.

350 Landscape Media (2-4R) Development of freehand drawing and visualization skills, exercises on line, tone, texture, and color for plan, section, and perspective drawings.

352 Digital Landscape Media (2-4R) Introductory survey and skills development in a range of basic computer graphic tools used in landscape architecture. Includes image processing, computer drawing, modeling, and drafting. R once for maximum of 8 credits. Prereq: LA 350.

361 Site Analysis (4) Develops knowledge and understanding of place; use of analytical tools and strategies for extending perception and understanding of land and proposals for its modification. Ribe.

362 Landscape Technologies I (4) Develops understanding of contours, contour manipulation, and site construction methodologies in the design of places; fundamentals of inclusive design, stormwater management, earthwork, and design development. Prereq: LA 361. Jones.

366 Landscape Technologies II (4) Consideration of aesthetic and engineering properties of materials and processes of landscape construction; communication of design intent through documentation including sources and costs. Prereq: LA 362. Gitling.

389 Landscape Architectural Design (6R) Elementary problems in landscape architecture; design as process, analysis of site and behavioral patterns, and the development and communication of design proposals.

390 Urban Farm (2-4R) Experimentation with food production in the city; rebuilding urban soils; farm animal-plant relationships; nutrient cycles. Cooperative food production and distribution; use of appropriate technologies. Bettman.

401 Research: [Topic] (1-21R)

405 Reading and Conference: [Topic] (1-21R)

406 Special Problems: [Topic] (1-21R)

407/507 Seminar: [Topic] (1-5R)

408/508 Workshop: [Topic] (1-21R) Concentrated programs of study combining instruction on special topics. Regular offerings include Drawing, Irrigation, and Surveying.

409 Practicum: [Topic] (1-21R) Supervised field laboratory work; clinical or in-service educational experience. Planned programs of activities and study with assured provisions for adequate supervision. Bettman.

410/510 Experimental Course: [Topic] (1-5R)

411/511 Oregon Landscape Planning (4) History, methods, and institutions of large-scale landscape planning in Oregon. Special emphasis on the statewide land use system, urban growth problems, and national forests. Ribe.

414/514 Open Space Planning (4) History, theories, methods of open space planning on city and metropolitan scales. Emphasizes how resulting landscape patterns serve regional character, ecological health, and human needs. Gitling.

415/515 Computers in Landscape Architecture (4R) Development, application, and evaluation of
Second Year. Two studios: Landscape Architectural Design (LA 289). Transfer students typically enter the program in the second year.

Third Year. Three studios: Landscape Architectural Design (LA 389)

Fourth Year. Three studios: Site Planning and Design (LA 489), one elective studio

Fifth Year. Two studios, one course: Comprehensive Project Preparation (LA 490), Land Planning and Design (LA 494), Comprehensive Project (LA 499)

Elective studios include Community Planning Workshop (PPPM 419) or Architectural Design (ARCH 484), Landscape Architectural Design (LA 389) or Site Planning and Design (LA 489), Workshop: Design (LA 408, summer only) or Practicum (LA 409)

Subject Courses. 75 credits (56 credits in required courses and 19 credits in optional courses listed below)

Landscape Architectural Technology: 12 credits
- Landscape Technologies I (LA 362), II (LA 366), Landscape Technology Topics (LA 459), Professional Practice of Landscape Architecture (LA 462)

- Optional: Landscape Technology Topics (LA 459), Structural Behavior (ARCH 461)

Plants in the Landscape: 12 credits
- Plants: Fall, Winter, Spring (LA 326, 327, 328)
- Optional: Urban Farm (LA 390), Practicum: Nursery (LA 409), Planting Design Theory (LA 431), Japanese Garden (LA 433), Systematic Botany (BI 442)

Landscape Analysis and Planning: 12 credits
- Site Analysis (LA 361), Introduction to Landscape Planning Analysis (LA 440), Principles of Applied Ecology (LA 441)

- Optional: Introduction to Planning, Public Policy and Management (PPPM 201), Geomorphology (GEOG 322), Landscape Planning (LA 411), Open Space Planning (LA 414), Computers in Landscape Architecture (LA 415), Hydrology and Water Resources (GEOG 425), Environmental Planning (PPPM 426), Natural Resource Policy (PPPM 443), Environmental Alteration (GEOG 461), Landscape Ecology (LA 465)

History and Theory of Landscape Architecture: 12 credits
- Understanding Landscapes (LA 260), History of Landscape Architecture I (ARCH 477), II (ARCH 478)

- Optional: Landscape Research Methods (LA 420), Land and Landscape (LA 443), Landscape Preservation (LA 490), National Parks (LA 482), Landscape Perception (LA 484), Contemporary American Landscapes (LA 485)

Landscape Architectural Media: 8 credits
- Landscape Media (LA 350), Digital Landscape Media (LA 352)

- Optional: Workshop: Drawing (LA 408), Computer-Aided Landscape Design (LA 417), Media for Design Development (ARCH 423), Advanced Design-Development Media (ARCH 424), Advanced Landscape Media (LA 450), approved fine- and applied-arts studio courses

Other Courses. 57 additional credits from any department, including landscape architecture and university requirements, up to a total of 220 credits applied to the B.L.A.

Minor
The department offers a minor in landscape architecture subject to the following:
1. Students must complete and submit to the department the application to the minor program. Applicants are notified when their applications have been approved. The application includes a curriculum work sheet with the requirements in effect at the date of acceptance.
2. Because the department's first obligation is to its majors, it cannot guarantee availability of courses for minors. Minors may register in required courses if space is available after the needs of majors have been met.
3. Enrollment in the minor program is limited. If the department is unable to accommodate additional students, it may suspend admission to the program until space becomes available.
4. Courses required for minors are open to other university students with instructor's consent. Minor candidates may be given preference on course waiting lists over nondepartmental students.

Requirements (30-32 credits)

Required Courses 16 credits
- Understanding Landscapes (LA 260) ........................... 4
- Site Analysis (LA 361) ........................................... 4
- One plants course chosen from the subject area listed below .................................................. 4
- One history and theory course chosen from the subject area listed below .............................. 4

Optional Courses 14-16 credits
- Students may take any combination of courses from the subject areas listed below. Only one term of Urban Farm or one design studio may be applied to the minor.

Subject Areas
- Check with the department about new subject-area courses that may have been added to the curriculum.

Design. Design studio (LA 389 or higher)

Landscape Technologies. Workshop: Landscape Technologies (LA 408), Landscape Technology Topics (LA 459)

Plants. Plants: Fall (LA 327), Plants: Winter (LA 328), Plants: Spring (LA 329), The Urban Farm (LA 390), Japanese Garden (LA 433)

Planning and Analysis. Oregon Landscape Planning (LA 411), Introduction to Landscape Planning (LA 440), Land Use Planning (PPPM 440), Principles of Applied Ecology (LA 441), Advanced Landscape Ecology (LA 465)

History and Theory. Land and Landscape (LA 443), History of Landscape Architecture I (ARCH 477, 478), Landscape Perception (LA 484), Contemporary American Landscapes (LA 485)

Graduate Studies
The two-year graduate program leading to the master of landscape architecture (M.L.A.) degree is intended for students prepared to do original work in the field. This preparation may be acquired either by entering the M.L.A. program with a professionally accredited bachelor's degree in landscape architecture or, if the student has another bachelor's degree, by simultaneously pursuing both a second bachelor's degree (the B.L.A.) and the M.L.A. at the University of Oregon. Students entering with a degree in an environmental design field other than landscape architecture take one or two years of supplemental coursework to earn the B.L.A., depending on the subjects covered in their first bachelor's degree. Those entering with degrees in other fields can earn the B.L.A. after three years of study beyond the first bachelor's degree.

One additional year of course work is typically required for the M.L.A., which can be received at that time or as soon thereafter as the master's project is satisfactorily completed. Students with professional landscape architecture degrees who pursue only the M.L.A. are typically in residence for two years to satisfy course requirements.

Students who are working toward the B.L.A. as a second bachelor's degree and the M.L.A. simultaneously are admitted as conditional master's students. After completing two years of study for the B.L.A., students must apply to enter the M.L.A. program. If a student is accepted into the program, the graduate-student status is changed to unconditional master's. To be eligible to continue working toward the M.L.A., students must succeed in their B.L.A. course work well enough to show promise for original work at the master's level.

With four exceptions, requirements are the same as those for the undergraduate B.L.A.:
1. There is no elective-credit requirement outside the landscape architecture department.
2. Graduate students take only 54 credits in planning and design.
3. In place of the listed 400-level courses, graduate students complete their 500-level counterparts (e.g., LA 511 instead of LA 411).
4. Graduate students need to take 16 credits of optional course work in landscape architecture.

A central aspect of the M.L.A. program is the student's concentration on studies and original work in one of four areas of landscape architecture: design theory, landscape ecology, landscape history, and landscape planning. These areas are broad enough to include many particular research problems for master's projects and professional practice. While these concentration areas are naturally related, each involves a different set of skills and understanding developed through departmental courses and focused elective course work outside the department. The four concentration areas are those in which faculty members, due to their academic training and professional and research experience, are best equipped for collaboration with graduate students.

Design Theory: The transformation and enhancement of outdoor environments to more beautiful, expressive, and supportive places involves developing creative artistry, applying an understanding of places and their evolutionary possibilities, and thinking clearly with sensitivity to people's needs and values. This concentration is intensive in design criticism and in theories of design process, ideas, and content.

Landscape Ecology: This rapidly evolving discipline focuses on how landscape pattern, process, and change interact to create land mosaics that maintain the rich diversity of life and the foundations for human well-being. Understanding key links between spatial and temporal patterns and flows of organisms, materials, energy, and information at a variety of scales is the basis for maintaining or restoring landscapes that embody ecological integrity and cultural vitality.
The undergraduate program emphasizes public service leadership. Through course work that integrates theory and practice, the curriculum focuses on the ways governments, nonprofit organizations, and other institutions address public problems. Students explore the economic, social, and environmental characteristics of communities, and systems of governance to determine effective ways to advance the public's goals.

Preparation. High school students who want to study planning, public policy and management should develop communication skills, conceptual skills, and community experience. Communication skills can best be developed through courses in speech, English, and second languages. Debate and related public-speaking experience are fine ways to improve communication skills. Conceptual skills can best be developed through courses, such as mathematics and history, that require the student to think independently and analytically. Community and school leadership experiences are excellent preparation for students considering enrolling in PPPM. Volunteer work, paid after-school jobs, and travel are ways of acquiring community-based experience.

Careers. The bachelor of arts (B.A.) or bachelor of science (B.S.) degree in planning, public policy and management provides students with a broad, interdisciplinary, liberal arts background and a sound basis for graduate study in fields such as urban planning, public policy and management, business, law, journalism, and social welfare. In addition, graduates are prepared for entry-level positions in a variety of public service agencies and nonprofit organizations.

Admission Requirements. The major in PPPM is offered to upper-division students. Students may apply for admission during the term they achieve upper-division standing. They must apply and be accepted by the department before they have completed 50 percent of the course work for the major. Preference in admission is given to applicants who have (1) a grade point average (GPA) of 3.00 or better, (2) some experience—paid or volunteer—in public service, and (3) fulfilled university general-education requirements.

In completing group requirements, the following courses (or their equivalents, for transfer students) are recommended:

Social Science. United States Politics (PS 201), Introduction to Economic Analysis: Microeconomics (EC 201), Introduction to Economic Analysis: Macroeconomics (EC 202), State and Local Government (PS 203), Community, Environment, and Society (SOC 304)

Sample Program. This two-year sample program for PPPM premajors is typical preparation for admission to the program in the junior year.

Freshman Year, Fall Term 14-16 credits
College Composition I (WR 121) ..................... 4
Introduction to Sociology (SOC 204) ............... 4
Arts and letters group-satisfying course .......... 3-4
Science group-satisfying course .................... 3-4

Winter Term 14-16 credits
United States Politics (PS 201) ..................... 4
Community, Environment, and Society (SOC 304) ............... 4
Arts and letters group-satisfying course .......... 3-4
Science group-satisfying course .................... 3-4

Spring Term 19-20 credits
College Composition II or III (WR 122 or 123) .... 4
computer systems for land use and site planning (e.g., geographic information systems); encoding of data, cell storage, and analysis systems. Prereq: LA 440 or instructor’s consent. Hulse.

417/517 Computer-Aided Landscape Design (2–4) Understanding and use of computer-aided drafting and design technology for executing landscape design development, evaluation, and presentation tasks. Prereq: LA 289 or 389.

420/520 Landscape Research Methods (3) Contemporary research issues and strategies. Theories, approaches, and techniques applicable to topics and problems in landscape architecture. Johnson.

431/531 Planting Design Theory (4) Approaches to planting design; experimental and symbolic relationships of landscape space; order of landscape as a cultural expression of time; order of the garden as an explicit art form. Coreq: LA 489/589.

441/541 Principles of Applied Ecology (2–6) Application of ecological concepts to landscape design, planning, and management. Emphasis on spatially explicit problem-solving over a range of spatial and temporal scales. Prereq for undergraduates: one course in ecology; for graduate students: one course in the natural sciences.

443/543 Land and Landscape (4R) Theories and concepts in landscape planning and design. The valuation emphasis alternates every other year between environmental ethics and environmental aesthetics. Diethelm.

450/550 Advanced Landscape Media (4R) The role of media in design inquiry; development of hard-line drawing skills, diagramming, and principles of graphic design. Lovinger.

459/559 Landscape Technology Topics (2–4R) Intensive study of topics in landscape construction and maintenance. Topics include irrigation, lighting, special structures, water management, and road design. R required for maximum of 10 credits.

462 Professional Practice of Landscape Architecture (2) Introduction to the different forms of private and public practice of landscape architecture, legal and ethical responsibilities, office and project management, licensing, and professional organizations. Prereq: LA 361, 362.

465/565 Landscape Ecology (4) Links concepts and applications of landscape ecology through extensive field experiences that develop a deep understanding of a specific landscape or a set of issues. Prereq: LA 441/541 or instructor’s consent. Johnson.

ARH 477/577, 478/578 History of Landscape Architecture LI (4,4) See Art History 480/580 Landscape Preservation (4) Tools and techniques currently used in the preservation of historic, cultural, and vernacular landscapes. Includes history of landscape preservation, significant legislation, and case studies. Melnick.

482/582 National Parks (4) History and development of United States National Parks. Exploration of critical issues facing the parks and the landscape planner’s role in resource protection and recreation management. Melnick.

484/584 Landscape Perception (4) Development of the human-environment relationship as it relates to landscape perception, landscape archetypes, and the development of a theoretical base for contemporary landscape design. Helphand.

489/589 Site Planning and Design (6R) Advanced problems in landscape architecture, cultural determinants of site planning and design, design development and natural systems and processes as indicators of carrying capacity.

490 Comprehensive Project Preparation (3) Finding, describing, programming, and probing environmental opportunities and problems. Diethelm.

494/594 Land Planning and Design (6) Problems in landscape architecture of increased cultural complexity. Land use planning, computer-aided ecological analysis of land, environmental impact, urban and new community design. Prereq: LA 489/589 and fifth-year standing.

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (2–5R)

605 Reading and Conference: [Topic] (1–16R)

606 Special Problems: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R) Recent topics include Aesthetics of Hydrology and Ecology, Biodiversity and the Landscape, Landscape Criticism, Readings in Modern Landscape History, and Visual Landscape Management.

608 Workshop: [Topic] (1–16R) Intensive study combining practical projects with instruction on special topics related to landscape problems.

609 Practicum: [Topic] (1–16R) Supervised field laboratory work; clinical or in-service educational experience. Planned programs of activities and study with assured provisions for adequate supervision. Bettman.

610 Experimental Course: [Topic] (1–5R)

693 Advanced Landscape Design Theory (4) Examines critical theories and evolving ideas in landscape design; studies the cultural and biophysical forces that generate patterns of landscape structure, form, and meaning. Prereq: ARH 478/578 or equivalent. Diethelm.

695 Master’s Project Development (2) Preparation and presentation of the student’s terminal research and design project proposal and plan for completion of the master’s degree in landscape architecture. Prereq: LA 420/520. Ribe.

699 Master’s Project (2–10R) Student-directed and -executed performance and communication of original research or project work to demonstrate advanced mastery of landscape architecture.
Financial Aid
Approximately 40 percent of the department’s students receive some financial assistance (e.g., graduate teaching fellowships, teaching assistantships, or research stipends). Graduate teaching fellowships (GTFs) are offered to approximately thirty students each year. Each fellowship includes a stipend and a waiver of tuition and fees for one or more terms. Graduate students also may work on planning and public policy projects through the Community Planning Workshop. Each year twenty to thirty students receive stipends for research on contracts developed and administered in the workshop. Research and GTF appointments typically are not offered until the student has been in a PPPM program for at least one term. Graduate students are eligible for fellowship awards, granted by federal agencies and privately endowed foundations, and loans from university and federal student-loan programs. Information about grants and loans may be obtained from the Office of Student Financial Aid, 1278 University of Oregon, Eugene OR 97403-1278.

Applicants to PPPM programs are strongly urged to apply for university financial assistance before February of the year of application in order to be eligible for work-study and other assistance offered by the student financial aid office.

Community and Regional Planning
The master’s degree program in community and regional planning trains policy-oriented planners for leadership positions in planning and planning-related organizations. Issues of significance to the communities and regions of the Pacific Northwest and the Pacific Basin receive special emphasis. The field of planning is concerned with rational and sensitive guidance of community and regional change. Planners are responsible for identifying and clarifying the nature and effect of planning problems, formulating potential solutions to these problems, and assisting in the implementation of alternative policies.

To realize these objectives, the planner must draw on the skills and insights of many professions and disciplines. The planner must have a basic understanding of the cultural, economic, social, political, and physical characteristics of a community. While applying analytical skills at community and regional levels, the planner must make subjective judgments in the consideration of problems and their solutions.

Entering students should be prepared to become involved in and committed to the resolution of important social, economic, environmental, political, and cultural problems. Through courses in and outside the department, students obtain an integrated understanding of planning, public policy, and public management as well as the more specific skills necessary for entry into a chosen professional area.

The planning program offers students three concentration areas: community and regional development, environmental planning, and social planning. An individualized concentration area can be developed in consultation with an adviser. The planning program emphasizes opportunities for students to gain field experience.

The planning program offers students three for students to gain field experience. The planning program emphasizes opportunities to work in and outside the department, students obtain an integrated understanding of planning, public policy, and public management as well as the more specific skills necessary for entry into a chosen professional area.

The planning program offers students three concentration areas: community and regional development, environmental planning, and social planning. An individualized concentration area can be developed in consultation with an adviser. The planning program emphasizes opportunities for students to gain field experience.

Preparation. Students are strongly encouraged to complete a thorough social science under-graduate program including courses in economics, sociology, geography, and history. Work experience, particularly if related to planning, is valuable, as are writing and public-speaking skills. Courses in the natural sciences, policy sciences, environmental design, or analytic methods are helpful as background for selection of graduate work in a concentration area of interest to the student.

Students must complete either an advanced undergraduate or a graduate-level introductory course in statistics as a pre- or corequisite to Planning Analysis (PPPM 613). No credit toward the M.C.R.P. degree is allowed for the statistics course, and the requirement is waived for students with equivalent courses or work experience. Entering students are urged to satisfy this requirement before enrolling in the program. Students may file petitions to transfer up to 15 graduate credits taken prior to admission to the planning program. Such petitions must be submitted during the first term in the program.

Juniors and seniors who anticipate applying for admission are encouraged to seek advice at the department office.

Careers. Graduates with an M.C.R.P. degree find employment in public, private, and nonprofit sectors. In the public sector, three kinds of agencies provide career opportunities: local land use and zoning agencies; agencies for housing, social services, community renewal, parks, transportation, and other community facilities; and agencies for economic development, natural resource management, and the connections between them. In the private sector, graduates are employed by consulting planners, private developers, and utility companies. Graduates are also employed by such nonprofit organizations as environmental and social justice advocacy groups, political associations, and research firms.

Application Procedures
Importance is placed on the student’s preference for and ability to undertake self-directed educational activity. Because there are more than sixty-five accredited graduate programs in planning in the United States, the department’s admissions committee emphasizes the reservation of candidates who present clear and specific reasons for choosing to pursue their graduate work in planning at the University of Oregon.

Application Materials
1. A word-processed statement, prepared by the applicant, explaining why admission to the UO planning program is sought and what the applicant’s expectations are from the field
2. At least three letters of recommendation from people familiar with the applicant’s ability to pursue graduate-level studies in planning
3. Transcripts from all the colleges and universities attended (these do not need to be official academic records), including evidence of completion of an undergraduate degree from an accredited college or university
4. Graduate Record Examinations (GRE) scores are optional. If submitted, they are considered along with other application materials
5. Applicants whose native language is not English must supply results of Test of English as a Foreign Language (TOEFL). The minimum acceptable TOEFL score for admission is 75 (paper-based test) or 231 (computer-based test). The results of the examination should be sent to Graduate School, 1219 University of Oregon, Eugene OR 97403-1219

Applications are accepted beginning September 15 for admission fall term a year later. The deadline for application to the program is February 15. Applicants are notified of admission decisions early in April. Students generally are admitted for fall term only. For more information, call or write the department’s admissions secretary.

The Planning Curriculum
A total of 72 credits beyond the bachelor’s degree is required for the M.C.R.P. degree.

Students are expected to enroll for six terms with an average course load of 12 credits a term. During the summer, students are encouraged to engage in planning work. The planning program offers research stipends and course credit for qualified applicants who take part in research conducted by the Community Planning Workshop. Planning internships are also available; some provide compensation.

Community Planning Workshop. A distinctive feature of the planning graduate curriculum is the Community Planning Workshop, an applied research and service program that is required for first-year students. Students work on six-month planning projects in small teams supervised by program faculty members and second-year graduate students in planning. Clients have included federal, state, county, and local governments as well as nonprofit organizations.

Projects usually focus on issues of immediate environmental, social, and economic importance to the client group and the general public. Recent project topics include
- Strategic plans for communities and regions
- Opportunities for small-business development
- Housing-need analyses
- Land use planning
- Watershed planning
- Tourism and recreational development
- Natural hazards mitigation

Each year first-year graduate students enrolled in Community Planning Workshop (PPPM 608) complete five to ten planning projects. Final written reports, prepared by each student team, provide evidence of the students’ expertise and ability to conduct planning research and to prepare and present high-quality professional reports. After completing two terms of PPPM 608, selected students may continue to engage in planning research projects for compensation.

The popularity of the program with students—and with a growing number of government and private-sector clients—has enabled the Community Planning Workshop to provide research support for ten to thirty students a year.
State and Local Government (PS 203) 4
Concepts of Computing: Computers and Computation (CIS 111) 4
College Algebra (MATH 111) 4
Elective, especially introductory anthropology, American history, or other social science 3-4

Sophomore Year, Fall Term 16 credits
Mind and Brain (PSY 201) 4
Introduction to Economic Analysis: Microeconomics (EC 201) 4
Electives, especially computer science; scientific and technical writing; journalistic writing; additional sociology, political science, community studies; or field experience 8

Winter Term 16 credits
Introduction to Planning, Public Policy and Management (PPPM 201) 4
Mind and Society (FSY 202) 4
Introduction to Economic Analysis: Macroeconomics (EC 202) 4
Elective, as above 4

Spring Term 16 credits
The Natural Environment (GEOG 141) 4
Electives, as above 12

Admission Procedures
The department admits students fall, winter, and spring terms. Deadlines are available from the department office. To be considered for admission, students must submit the following materials:
1. A completed application form, available from the department office
2. Transcripts from all colleges and universities attended (these do not need to be official academic records)
3. Personal statement describing career goals and how the major in PPPM will help attain those goals. This statement should be limited to two or three typed, double-spaced pages
4. Brief résumé of education and employment history

Major Requirements
Requirements for the major in planning, public policy and management are being reviewed. The curriculum is subject to change. The major in PPPM is organized into four parts: a common core, a concentration area, an internship, and a research paper written in a senior seminar.

Core (21 credits)
The core curriculum requirement is distributed as follows:
Public Service Issues (PPPM 301) 4
Introduction to Public Service Management (PPPM 322) 4
Applied Social Research (PPPM 413) 5
Public Service Policies and Programs (PPPM 447) 4
Community Development (PPPM 448) 4
Appropriate courses may be substituted with the faculty adviser's permission.
PPPM majors must take core courses for letter grades and pass them with grades of C- or better.

Concentration Area (20 credits)
Each student develops a concentration area, chosen to advance the student’s educational goals. The concentration area consists of five courses, totaling at least 20 credits, that address a coherent substantive area or set of competencies in the field of planning, public policy and management. At least two of these courses must be taken in the department. The department's strengths lie in the areas of sustainable community development, environmental policy and management, health and social policy, policy analysis, and public and nonprofit management. The concentration area and course of study are chosen in close consultation with the undergraduate adviser and department faculty members whose interests coincide with those of the student.

Internship (12 credits)
During the internship, students explore their concentration areas outside the classroom. The internship complements academic work by allowing the student to apply ideas and concepts to real-world situations. Students can enroll in the required internship full time for one term (thirty-six hours a week for ten weeks) or part-time (eighteen hours a week for two ten-week terms). Students are placed with a variety of federal, state, and local government agencies, with nonprofit organizations, and, when appropriate— with private firms. Internships are arranged through and supervised by the internship director. Students earn 12 credits in Internship (PPPM 404). Before registering for PPPM 404, students must attend Seminar: Internship (PPPM 407), which integrates course work with the internship experience. Students earn 1 credit for this seminar.

Community Planning Workshop. Undergraduate students have the opportunity to work on applied research projects through the Community Planning Workshop, which is described later in this section of the catalog. Up to 10 credits in Community Planning Workshop (PPPM 419) may be applied to the internship requirement.

Senior Research Paper (10 credits)
The senior research paper, a three-term experience, is the capstone of the student’s PPPM education. The paper may be on any approved topic, and students are encouraged to choose a topic in their concentration area. The course sequence for the senior research paper is Research (PPPM 401), in which the student explores topics and develops a bibliography; Reading and Conference (PPPM 405), in which the student conducts research and writes a rough draft of the paper; and finally Seminar (PPPM 407), in which the paper is completed and the student makes a presentation that is open to the public.

Honor Program
The honors program offers qualified students a challenging academic experience, opportunities for independent work, and interaction with faculty members. The program's bachelor’s degree with honors centers around an independent project of original research developed by the student and carried out under the direction of one or two faculty members.

Students are recommended by a faculty member for admission to the honors program no later than the first term of their senior year. Entry into the program is determined by the undergraduate program director after a review of the student's achievement in PPPM courses and other evidence of superior academic and professional ability. To be considered for the honors program, a student must have a grade point average of 3.50 in course work for the major and in all work attempted at the university.

Minor Requirements
The minor in planning, public policy and management complements majors in the humanities or social sciences—anthropology, geography, or economics for example. It enhances any student's undergraduate education with preparation for a variety of professional occupations and graduate study. The minor provides a professional context in which to apply the knowledge, theories, and methods of the student's major discipline.

Students may declare the minor in planning, public policy and management at any time during or after the term in which they achieve upper-division standing. Materials for declaring the minor are available in the department office.

Requirements for the minor are being reviewed. The curriculum for 2000–2001 is listed below. Students should inquire at the department office about changes in the curriculum.

Course Requirements 28 credits
Introduction to Planning, Public Policy and Management (PPPM 201) 4
Introduction to Public Service Management (PPPM 322) 4
Public Service Policies and Programs (PPPM 447) 4
Community Development (PPPM 448) 4
Three approved PPPM electives 12

Graduate Studies

Graduate Studies Programs for the master of community and regional planning (M.C.R.P.) degree and the master’s degree in public affairs—either a master of arts (M.A.) or a master of science (M.S.)—require two years for completion. The M.C.R.P. degree is accredited nationally by the Planning Accreditation Board. The master's degrees in public affairs are offered through the graduate program in public policy and management, which is accredited by the National Association of Schools of Public Affairs and Administration.

The interdisciplinary and eclectic fields of planning, public policy, and public management are concerned with systematically shaping the future. Professionals in these fields frequently lead efforts to plan for change. Most often they are involved in analysis, preparation of recommendations, and implementation of policies and programs that affect public facilities and services and the quality of community life. These professionals also assume responsibility for planning, policy, and management in community and regional development, natural resources, economic development, land use, transportation, and law enforcement.

Planning, public policy and management graduates have a basic understanding of economic, environmental, fiscal, physical, political, and social characteristics of a community. Graduates are expected to provide leadership and to otherwise participate effectively in efforts to enhance the capacity of communities to deal innovatively and creatively with change.

Students should own or have unlimited use of a personal computer.
These courses provide an understanding of political, legal, economic, and social institutions and their processes as well as organizational management concepts. Additional course work in the legal context of public policy and management is strongly encouraged.

**Concentration Area (20 credits).** Each student is expected to develop a concentration area that supports career goals. Courses in a concentration area, chosen in consultation with the faculty adviser, may be selected from any of the graduate-level offerings on campus. Students must take at least 20 credits in their chosen concentration area.

More than one area may be developed. Concentration areas chosen by recent graduates include public management, human resources management, applied research and program evaluation, environmental policy, city management, international development, financial management, and nonprofit management.

**Supervised Field Internship (12 credits).** Working with the internship director, each student is placed in an internship that introduces the practical aspects of positions in the chosen field. During the internship, the student tests classroom theory and develops contacts that can lead to securing a position after graduation.

Internships are an integral part of the public policy and management graduate program. Students who are working in their chosen field and those with experience are encouraged to participate in an internship selected with the internship coordinator. Internships are graded P/N (pass/nc pass). A written report is required as is a supervisor’s evaluation and a contract.

Majors must enroll in Seminar: Communications (PPPM 607) for 2 credits, which provides the tools they need for a successful field-based learning experience. The 2 credits may be applied to concentration-area requirements.

A student who has not had two or more years of career experience must complete 12 credits of internship. A student who has had two or more years of relevant career experience or who is working in the desired area of public policy and management can waive the internship with the approval of the student’s adviser, the program director, and the internship coordinator. If the internship requirement is waived, the student must complete 12 credits of substitute course work.

**Final Project (8 or 11 credits).** Each student must write a thesis or a final paper to fulfill degree requirements. Students earn 9 credits in Thesis (PPPM 503) or 6 credits in Terminal Project (PPPM 609).

The final project should be based on original research but may vary in comprehensiveness, format, and approach. A project may be conceptually or empirically oriented; it may involve a case or comparative study, a literature search, or a piece of empirical research. A project may also involve a combination of approaches.

Whether completing a thesis or final paper, each student must enroll in Student Research Colloquium (PPPM 690). This discussion course assists students in developing their proposals and conclusions resulting from theses and final papers. One credit is earned during each of two terms.

**Concurrent Master’s Degrees**

Students may participate in a concurrent master’s degree program. The fields of planning and of public policy and management draw on knowledge and expertise in other areas such as business, law, economics, political science, environmental studies, geography, landscape architecture, and architecture. The concurrent degree program allows students to enroll in two master’s programs simultaneously in order to complete requirements for the two degrees with three years of course work.

Students interested in this option should seek program advice from a member of the faculty. Students must be admitted to both programs and make special arrangements with both program directors.

**Community Service Center**

The Community Service Center, an interdisciplinary organization, assists Oregon communities by providing planning and technical assistance to help solve local issues, improve the quality of life in rural Oregon, and help make Oregon communities more self-sufficient.

The center incorporates a number of programs including the those listed below.

**Community Planning Workshop.** (See description under Planning Curriculum.)

**Resource Assistance for Rural Environments.** This Americorps project trains and places graduate students. Participants live and work for a year in rural communities where they help improve economic and environmental conditions. Qualified students receive a monthly stipend and an educational award of $4,725 when they finish their service. More information about this project is available in 109 Hendricks Hall.

**Student Originated Studies.** Grants from this program fund projects that address specific, community-based needs while they strengthen the link between higher education and Oregon communities and agencies. The program strives to establish partnerships that provide technical assistance to Oregon and promote experiential education opportunities for students and faculty members of Oregon University System institutions. More information about this program is available in 106 Hendricks Hall.

**Planning, Public Policy and Management Courses (PPPM)**

*Every course cannot be offered every year; students should consult the most recent UO Schedule of Classes or inquire at the department office.*

199 Special Studies: [Topic] (1–5R)

201 Introduction to Planning, Public Policy and Management (4) Overview of professional public service and the planning and management of public issues. Focuses on the goals of public services within their economic, social, and political contexts. M. Hibbard.

301 Public Service Issues (4) Overview of the theory and practice of professional public service: the goals of public service; the economic, social, and political context; and organizational areas. M. Hibbard.

322 Introduction to Public Service Management (4) Theories relevant to the effective management of large and small organizations that deliver service to the public. Assumes students have completed general PPPM prerequisites. Weeks.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–21R)

403 Thesis (1–21R)

404 Internship: [Topic] (1–18R) Twelve-credit maximum per term. Participation in the activities of public or private community agencies and organizations, under faculty supervision and with coordinated instruction. Prereq: instructor’s consent.

405 Reading and Conference: [Topic] (1–21R)

406 Special Problems: [Topic] (1–21R)

408/508 Workshop: [Topic] (1–21R)

410/510 Experimental Course: [Topic] (1–5R) Trial courses are taught under these numbers. See the UO Schedule of Classes for current titles.

418/518 Introduction to Public Law (4) Administrative law, including introduction to legal research, for public administrators. Administrative procedures, implementation of policy through administrative law, judicial review, and practical applications in public agencies.

419 Community Planning Workshop (1–5R) Cooperative planning endeavors. Students define problems, determine appropriate research methods, identify the groups that promote or resist change, test alternative solutions, and prepare a final plan or project. Choquette. R once for maximum of 10 credits.

421/521 Qualitative Methods in Planning and Public Policy (4) Use of observation, open-ended...
Federal grants from the United States Department of Education Fund for the Improvement of Post-Secondary Education and support from a variety of state agencies have helped the Community Planning Workshop become one of the most successful community planning assistance programs in the nation. Projects have received numerous awards from the Oregon chapter of the American Planning Association for Outstanding Student Achievement in Planning.

Course Requirements
Requirements are being reviewed. The curriculum for 2000-2001 is listed below. Students should inquire at the department office about changes in the curriculum.

**Core**
- Introduction to Planning Practice (PPPM 611) ........................................ 4
- Legal Issues in Planning (PPPM 612) .................................................. 5
- Planning Analysis (PPPM 613) .......................................................... 4
- Planning Foundations I: History (PPPM 615) .................................... 4
- Planning Foundations II: Theory and Ethics (PPPM 616) ...................... 4
- PPPM computer short courses .......................................................... 3
- Human settlements elective selected from an approved list available from the department .......................... 4

**Experiential Learning**
- Community Planning Workshop (PPPM 608), two terms ...................... 10

**Concentration**
- Plan making in a specific concentration ........................................... 4
- Additional courses, selected in consultation with adviser, from lists of approved courses .... 18-23

**Thesis or Master's Project**
- Student Research Colloquium (PPPM 690), two terms ....................... 10
- Thesis (PPPM 503) ............................................................. 9
- or Terminal Project (PPPM 609) ................................................. 4

**Public Policy and Management**

The professional public policy and management graduate program trains students interested in management and policy careers in public service with a focus on the public and not-for-profit sectors. Graduates of the program have filled key leadership positions at the local, state, and federal levels as administrators, department heads, planners, program and policy analysts, finance or personnel officers, staff members of research or service organizations, and heads of public or private nonprofit human service programs.

The program attracts students from the United States and other countries and from a variety of career and educational fields. Forty to fifty students are enrolled in the program. Participants often have work experience in public service and want to enhance their professional competence and career mobility. The diversity of the student body enriches students' experiences in the program.

**Unique Characteristics of the Program**

Flexibility. With faculty assistance, students tailor programs to meet individual needs and career interests. A student may concentrate on public financial management, for example, with a career goal of becoming a budget analyst for state government. A broader concentration area, such as human service management, might be chosen. Students may enroll in courses offered by other UO schools or departments to strengthen areas of individual interest.

**Program Overview**

Students can earn an M.A. or M.S. degree in public affairs. A minimum of 72 credits are required to receive either degree, typically accomplished in two years (six terms) of full-time study. Academic background and work experience are scrutinized to determine if additional preparation is needed before the student begins the program. To earn an M.A. degree, the student must demonstrate reading and speaking knowledge of a second language.

**Mid-Program Review.** After completing 34 to 38 graduate credits, students are sent the mid-program review form and asked to meet with a faculty adviser to review progress toward the degree and establish goals for completing degree requirements. Once the form is completed and approved by public policy and management faculty members, the student can continue working toward the degree without delays or unnecessary program changes. The mid-program review is the time to initiate discussion about an appropriate final project. The adviser also assists with selection of committee members to guide the student in completing the final project.

**Curriculum**

Professional competence rests upon four basic elements: knowledge, skills, values, and behavior. To develop this competence, the program includes core courses, a concentration area, a supervised field internship, and a final project or thesis. The curriculum is being reviewed. The curriculum for 2000-2001 is listed below. Students should inquire at the department office about changes in the curriculum.

**Core Courses (32 credits).** These courses enhance the student's ability to act ethically and effectively. Core courses are organized into three areas and must be taken for letter grades except the introductory course, which may be taken pass/no pass.

**Management of Public Service Organizations**
- Public Finance Administration (PPPM 628) ........................................ 4
- Public Budget Administration (PPPM 629) ....................................... 4
- Human Resource Management in the Public Sector (PPPM 660) ............ 4

These courses develop competence in the management of people, organizations, and information. Additional courses in computer literacy and applications including the management of information for decision-making are encouraged.

**Quantitative and Qualitative Analysis Techniques**
- Applied Methods in Planning, Policy, and Management (PPPM 620) ......... 4
- Quantitative Methods in Planning and Public Policy (PPPM 656) ............ 4

These courses teach decision-making and problem-solving methods. Additional courses in techniques of analysis, including quantitative economic and statistical methods, are strongly encouraged.

**Public Policy and Organizational Environment**
- Public Policy Analysis (PPPM 636) .............................................. 4
- Leadership and Organizational Change (PPPM 639) ............................ 4
- Introduction to Public Policy and Management (PPPM 618) .................... 4
individual to the nation-state; advantages, disadvantages, superior performance in a humane, responsive, cost-benefit analysis at decision levels from the roles and resources of administrative agencies in and policy. Assumes students have completed management, services, performance. Downes. non metropolitan areas. Political processes, issues and work to improve their local communities and address public problems relevant to public programs and policy. Assumes students have completed general PPPM prerequisites. Hosticka, Simonsen. The various roles and processes in policy formulation, implementation, and evaluation; needs, issues, and problems relevant to public programs and policy. Assumptions about population trends, policy, and optimum size; analyzes methods for determining resource availability and flows. Baldwin. Communities and Regional Development (4) Economic, sociocultural, and political forces that produce the internal structure of regions in selected countries in the Pacific basin and the implications for small towns and rural areas. M. Hibbard. Socioeconomic Development Planning (4) Planning for responsible economic and social development. Policy problems and issues in providing a stable economic base and social and economic well-being while avoiding environmental degradation. M. Hibbard. Public Service Policies and Programs (4) The various roles and processes in policy formulation, implementation, and evaluation; needs, issues, and problems relevant to public programs and policy. Assumptions about population trends, policy, and optimum size; analyzes methods for determining resource availability and flows. Baldwin. Community Development (4) Processes through which the citizens of urban neighborhoods and small towns define and address public issues and work to improve their local communities. M. Hibbard. Policy Development and Evaluation (4) Policy alternatives, policy and program impact, measurements and evaluation. Emphasizes the roles and resources of administrative agencies in processes of analysis. Hosticka. Cost-Benefit Analysis (4) Use of cost-benefit analysis at decision levels from the individual to the nation-state; advantages, disadvantages, and appropriate uses of cost-benefit analysis. Prereq: one course in statistics. Baldwin. City Management (4) Focuses on how to manage local governments effectively, particularly small governments in both metropolitan and nonmetropolitan areas. Political processes, management, services, performance. Downes. Managing Nonprofit Organizations (4) How to manage nonprofit organizations for superior performance in a humane, responsive, and responsible manner. Distinctive characteristics of nonprofit organizations. Downes. 503 Thesis (1-16R) 601 Research: [Topic] (1-16R) 604 Internship: [Topic] (1-16R) Twelve-credit maximum per term. Faculty-supervised participation in the activities of public or private community agencies and organizations; coordination instruction. Prereq: instructor's consent. 605 Reading and Conference: [Topic] (1-16R) 606 Special Problems: [Topic] (1-16R) 607 Seminar: [Topic] (1-5R) Recent topics include Economic Analysis, Healthy Communities, Land Use and Transportation Issues, Planning and Social Networks, Social Relations and Spatial Structures, and World Urbanization. 608 Community Planning Workshop: [Topic] (1-16R) Two-term planning and problem-solving course. Students work in teams conducting research and developing solutions to planning problems for a client community. 609 Terminal Project (1-16R) 610 Experimental Course: [Topic] (1-5R) R for a total of six short seminars a year. 611 Introduction to Planning Practice (4) Explores the concepts and functions of the planning process as they relate to the social, economic, political, and environmental aspects of communities and regions. 612 Legal Issues in Planning (5) Federal-state legal relationships, role of the courts in reviewing public-sector decision-making, sources of the law, issues in land use regulation, and basic legal research skills. Gale. 613 Planning Analysis (4) Data sources and methods of data collection including surveys; descriptive and multivariate analysis; computer applications; selected analytic models, population projections, cost-benefit analysis. Prereq for nonmajors: instructor's consent. Parker. 614 Conflict Resolution (5) Theory and practice of consensus building in communities and public organizations. Gale. 615 Planning Foundations I: History (4) History of community and regional planning in the United States from the 1960s through the 1980s. M. Hibbard. 616 Planning Foundations II: Theory and Ethics (4) Logic of the planning process; the relationship of planning to the political process and to rational decision making in governance. Prereq: PPPM 615. 618 Introduction to Public Policy and Management (4) Overview of the core concepts, theories, and practices that provide the foundation for the field of public policy and management. Weeks. 620 Applied Methods in Planning, Policy, and Management (4) How to communicate, execute, and evaluate research in the public sector. Each student conducts an original research project from problem formulation through data analysis. Weeks. 621 Plan Making: Environmental Analysis (4) Examines the technical and political factors that influence the practice of environmental planning. Includes how plans are made, implemented, and evaluated. Baldwin. 622 Project Management (4) Application of specific techniques that, if implemented, lead to planning-related and other projects being completed on time, within budget, and with appropriate quality. 623 Plan Making: Social Planning (4) Examines the technical and political factors that influence the practice of social planning. Includes how plans are made, implemented, and evaluated. 624 Plan Making: Community and Regional Development (4) Examines the technical and political factors that influence the practice of community and regional development. Includes how plans are made, implemented, and evaluated. M. Hibbard. 626 Experiencing Cross-Cultural Communication (3) Focuses on cross-cultural communication in developing countries, specifically in relation to working overseas. Gale. 627 Energy Policy and Planning (4) Technical, social, economic, and environmental impacts of energy technologies. Discussion of United States and world policies and alternatives. Baldwin. 628 Public Finance Administration (4) Reasons for governmental intervention and analysis of revenue sources available to governments. Includes discussion of various taxes, intergovernmental transfer policies, and user fees. Simonsen. 629 Public Budget Administration (4) Resource allocation through the budget process. Includes analysis of budget systems, service costing, and citizen participation in the budget process. Simonsen. 634 Strategic Planning (4) Process of strategic planning for communities, public organizations, and nonprofit agencies. 635 Planning and Social Change (4) Introduction to the relationships between social change and planning policy. Includes equity literature related to planning; examines how national social trends affect housing and neighborhood change. 636 Public Policy Analysis (4) Techniques in the policymaking process. Determining the impact of policies, comparing alternatives, determining the likelihood that a policy will be adopted and effectively implemented. Hosticka. 639 Leadership and Organizational Change (4) Change efforts designed to improve the performance and accountability of public service organizations; the critical leadership role of public managers in the change and transition process. Downes. 642 Sustainable Communities (4) Explores relationships among individuals, communities, and the earth in agrarian, modern, and post-modern periods. Examines a current paradigm clash and implications for sustainable social and built environments. 645 Leadership and Facilitation Methods (4) Identifies and develops effective skills to enhance the leadership ability of all members of a group or organization. Facilitates collaborative group efforts. Gale. 656 Quantitative Methods in Planning and Public Policy (4) Develops skills in quantitative analysis. Emphasizes selecting appropriate analytical procedures and properly interpreting and reporting results. Prereq: recent introductory statistics course. Weeks. 660 Human Resource Management in the Public Sector (4) Principles, issues, and practices of public personnel administration. Addresses recruitment, selection, evaluation, compensation, employee development, and labor relations within the distinctive context of public organizations. King. 690 Student Research Colloquium (1-3R). Presentation by advanced master's degree candidates of designs and conclusions resulting from thesis research projects. J. Hibbard. R for maximum of 3 credits.

Richard T. Madoway, Gerald B. Bashawk Professor of Management (organizational behavior, organization theory); B.S., 1970, San Jose; M.S., 1972, Ph.D., 1975, California, Irvine. (1977)

James R. Terborg, Carolyn S. Chambers Professor of Business (organizational psychology, organizational behavior).
accounting: Beta Gamma Sigma, honor society for business administration; Northwest Human Resource Management Association; American Marketing Association; and Toastmasters International.

**Academic Opportunities**

**Honors Program**

Michael F. Dore, Director

Students in the honors program have a unique opportunity to enhance their educational experience and further prepare themselves for the growth and challenge of a career in business. A maximum of thirty students take the eight core business courses as a group. Among the many advantages and benefits are smaller classes, select instructors, a seminar program, a speaker series, and a mentor program.

**Overseas Study Programs**

The college maintains exchange relationships with several overseas universities that offer students opportunities to study business management in another country. Information on current programs is available from the undergraduate and graduate programs offices. Business students are encouraged to participate in a variety of overseas programs, including Global Graduates—the Oregon International Internship Program, which is offered through the Office of International Education and Exchange.

Students interested in careers in international business are particularly encouraged to take advantage of one of these programs. Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. See International Education and Exchange in the Academic Resources section of this catalog.

**Professional Sales Program**

Peter Wright, Faculty Contact

(541) 346-3325
375A Gilbert Hall

The primary mission of the Professional Sales Program is to guide the curricular, extracurricular, and meaningful work experiences of participants to prepare them for rewarding, lifelong careers in professional selling and sales management. The program acts as a liaison to the business community, whose input and support are welcome.

**International Business Communication**

Ron Severson, Director

Through this program, international students may earn a letter certifying mastery by completing courses in business presentations, business writing, international business research, cross-cultural business communication, and cross-cultural business negotiation. A list of courses is available in 271 Gilbert Hall.

**Certificate in Global Management**

Information about the certificate in global management is available in 271 Gilbert Hall.

**Academic Requirements**

To earn an undergraduate degree in the Lundquist College of Business, a student must be an admitted major in good academic standing with the college and the university. Two sets of requirements must be completed: general university requirements and Lundquist College of Business requirements.

**Prebusiness Admission**

New students planning to major in accounting or business administration enter the university as business premajors. Transfer students and university students from other majors may become business premajors. The requirements must be met in their entirety; they cannot be combined. Listed below are basic undergraduate degree and major requirements. For a more detailed explanation of requirements for business administration and accounting majors, students should pick up the undergraduate degree programs handout, available in 271 Gilbert Hall.

**Prebusiness Requirements**

1. **Upper-Division Status.** Complete 90 or more credits of course work
2. **GPA Requirement.** Earn a 2.75 cumulative GPA in all college course work including transfer work. The Lundquist College of Business includes all course work when calculating the cumulative GPA for admission to the major
3. **Prebusiness Core.** A 2.75 GPA and a minimum grade of C- in core courses are required for admission into the major. Core courses must be taken for letter grades. If a core course is taken pass/no pass (P/NP), a P is treated as a C- and an N is treated as an F for GPA calculations. If a graded course is repeated, both course grades are counted in computing the cumulative GPA, but only the second grade is used in calculating the core GPA.

**Prebusiness Core 20 credits**

5. **Computer Competency.** Competency is defined as the ability to use software packages—spreadsheet, database, word-processing, and presentation applications—on a microcomputer with minimal tutorial assistance.
6. Qualifying Examination. The exam is given once a term, typically early in the term on a Saturday morning. Students must register to take this test by the second Friday of the term. Students should be aware that makeup exams are not offered, and inability to take the exam on its scheduled date results in a delay in the admission process. Handouts outlining details of the exam are available in 271 Gilbert Hall.

7. English Competence. International students must have a Test of English as a Foreign Language (TOEFL) score of at least 575 (paper-based test) or 230 (computer-based test) or have completed the Academic English for International Students (AEIS) program. More information is available in 271 Gilbert Hall.

Application to the Major
After completing the requirements listed under Prebusiness Requirements, students must submit a formal application for admission to the major. Applicants apply for major status one term before they plan to take upper-division business courses. Applications are due the second week of the term for admission the following term. To be eligible for admission as a major, a student must apply before the term deadline. Application forms are available in 271 Gilbert Hall. Students may submit applications with two requirements in process. Students who have more than two courses in process should meet with an LCB adviser before the application deadline.

Major Requirements
Each student must complete a major in either accounting or business administration. Both majors require completion of the upper-division core, typically in the junior year. The 400-level core courses are taken in the senior year.

Upper-Division Core: 36 credits
- Managing Organizations (MGMT 321) 4
- Marketing Management (MKTG 311) 4
- Economics of Competitive
  Analysis (FINL 311) 4
- Financial Management (FINL 316) 4
- Global, Legal, and Social Environment of Business (BL 325) 4
- Business Statistics (DSC 330) 4
- Information Technology and Operations
  Management (DSC 335) 4
- Business Leadership (BA 452) 4
- Business Strategy and Planning (BA 453) 4

Accounting Major

Requirements: 28 credits
- Accounting Information Systems (ACTG 320) 4
- Financial Accounting Theory I, II (ACTG 350, 352) 8
- Cost Accounting (ACTG 360) 4
- Auditing Concepts (ACTG 440) 4
- Advanced Financial Accounting (ACTG 450) 4
- Introduction to Federal Taxation (ACTG 470) 4

Students who plan to sit for the Certified Public Accountant examination in Oregon must complete additional requirements. Details are available in the accounting department.

Business Administration Major
In addition to the upper-division core, students must complete seven courses from at least three Lundquist College of Business departments. Four of these courses may be taken in one of the concentration areas listed below. Concentrations are optional; they do not appear on UO academic transcripts or diplomas.

Concentration Areas

Corporate Accounting: 16 credits
- Accounting Information Systems (ACTG 320) 4
- Financial Accounting Theory I, II (ACTG 350, 352) 8
- Cost Accounting (ACTG 360) 4

Entrepreneurial Accounting: 16 credits
- Accounting Information Systems (ACTG 320) 4
- Accounting for Entrepreneurs (ACTG 340) 4
- Cost Accounting (ACTG 360) 4
- Introduction to Federal Taxation (ACTG 470) 4

Entrepreneurship: 16 credits
- Introduction to Entrepreneurship (MGMT 335) 4
- Marketing for Entrepreneurs (ACTG 340) 4
- Marketing for Entrepreneurs (MKTG 445) 4
- Business Planning for Entrepreneurs (MGMT 445) 4

Finance: 16 credits
- Financial Markets and Investments (FINL 380) 4
- Derivative Markets and Financial Institutions (FINL 462) 4
- International Finance (FINL 463) 4
- Financial Analysis and Valuation (FINL 473) 4

Management: 16 credits
- Human Resources Management (MGMT 415) 4
- Marketing Strategy (MKTG 490) 4
- Marketing Communications (MKTG 420) 4
- One marketing elective 4

Sports Marketing: 16 credits
- Sports Marketing (MKTG 450) 4
- Sports Marketing (MKTG 490) 4
- Two electives selected from Sports Marketing Communication (MKTG 451), Sports Sponsorship (MKTG 452), and Law and Sports Marketing (MGMT 453) 8

Courses from Outside the College
Students must earn at least 90 credits in courses taken outside the college. These 90 credits include general-education requirements and nonbusiness breadth and global context course work.

Nonbusiness Breadth Requirement. Students must complete 24 credits in an interrelated and coherent body of courses consistent with the student’s career goals. A nonbusiness minor meets this requirement, as does two years of foreign language. The college’s Undergraduate Programs Office offers assistance in planning individualized programs.

Global Context for Business Decisions. Students must complete three courses that focus on international, cultural, historical, political, economic, or social issues of a geographic region. All three courses should focus on the culture of one country or region other than the student’s native country. Language courses beyond the first year are eligible. Advising assistance is available in the college’s Undergraduate Programs Office.

Definitions, Limitations, and Policies

Residence Requirement. Students must complete a minimum of 44 upper-division credits in regularly scheduled Lundquist College of Business courses. With the department head’s approval, credits may be transferred from other accredited institutions, independent study, or approved courses in other departments.

Grading. Upper-division courses must be taken for letter grades and passed with grades of C- or better. See the Registration and Academic Policies section of this catalog for an explanation of the university’s grading systems.

Upper-Division Courses. Only admitted majors and minors in the Lundquist College of Business may enroll in 300- and 400-level business courses, with the exception of minor courses in the focused business option, which are open to all students.

Transfer students. The specific, sequential nature of this program requires careful academic planning. Students who want to transfer into the college are encouraged to meet with an adviser in the Lundquist College of Business early in their academic career. Students who transfer before they have met major admission requirements are admitted to the university as prebusiness students if their GPA is 2.75 or higher. These students should apply for major status in accordance with the procedure described above. Students who transfer with completed admission requirements should apply to the major and take the qualifying exam one term before arriving on campus. Application deadlines and qualifying exam dates are available in the Undergraduate Programs Office.

When admission requirements change significantly, the effective date for transfer students is generally one academic year after the policy first appears in the University of Oregon Catalog.

Second Bachelor’s Degree. A student who has a bachelor’s or master’s degree in a field of business administration is not eligible for a second bachelor’s degree in business. Students who want a second degree in a field of business must be admitted to the university as postbaccalaureate nongraduate students. Transcripts of previous college work must be sent directly to the Lundquist College of Business, and an official transcript showing receipt of the degree must be sent to the university’s Office of Admissions. Second-degree candidates must meet the same admission requirements and follow the same application process as first-degree candidates. International students must have TOEFL scores of 575 (paper-based test) or 230 (computer-based test) or higher. Students are given prebusiness status until admission requirements are either completed or waived because of completed course work.

Second-degree students must complete the same upper-division requirements as first-degree candidates. The Second Bachelor’s Degree section of this catalog, under Registration and Academic Policies, lists university requirements for a second bachelor’s degree. The Undergraduate Programs Office distributes information about Lundquist College of Business requirements.

Continuous Progress. Students who do not attend the university for an extended period of time after being admitted as a major may be
required to reapply for admission and fulfill current major requirements if the UO catalog for the last year of attendance has expired. (See Catalog Expiration and Requirements Policies in the Contents section.)

Business Administration Minor

The Lundquist College of Business offers two options—focused business and basic business—that lead to a minor in business administration. The focused business option can be completed in one academic year.

Students pursuing a minor in business administration should declare their intent in the Undergraduate Programs Office and pick up a requirements checklist.

In order to be admitted to the focused business option, students must already have a declared major other than business and a 2.00 cumulative GPA. To be admitted to the basic business option, students must also have grades of C- or better in lower-division courses required for the minor and basic computing skills. Upper-division courses required for the minor must be taken for letter grades, and 12 credits of upper-division coursework must be taken in the Lundquist College of Business. When minor requirements have been completed and notification of application for a degree has been received from the Office of the Registrar, the student is cleared for the minor.

Focused Business Option

Lower Division 8 credits
Introduction to Business (BA 101) ................. 4
Accounting: Language of Business Decisions (BA 215) ...................................................... 4

Upper Division 16 credits
Economy, Industry, and Competitive Analysis (BA 315) .................................................... 4
Management: Creating Value through People (BA 316) .......................................................... 4
Marketing: Creating Value for Customers (BA 317) ................................................................. 4
Finance: Creating Value through Capital (BA 318) ................................................................. 4

Basic Business Option

Lower Division 20 credits
Introduction to Business (BA 101) ................. 4

Graduate School of Management
Raymond D. King, Associate Dean
(541) 346-3306
300 Gilbert Hall

About the School

The Graduate School of Management offers degree programs at the master’s and doctoral levels and coordinates the graduate work of the five academic programs in the Lundquist College of Business. Graduate instruction in every field of business is supported by courses in related fields offered elsewhere in the university. The Graduate School of Management is accredited by the American Assembly of Collegiate Schools of Business.

Activities of the Lundquist Center for Entrepreneurship and the Warsaw Sports Marketing Center might be of interest to graduate students. The centers are described in the introductory section to the Charles H. Lundquist College of Business.

The Lundquist college participates in the Business Environment Learning and Leadership program, which integrates environmental issues into the curriculum. Students may augment their M.B.A. with projects and courses offered by the Environmental Studies Program.

Career Services
Deborah Chereck, Director
(541) 346-1589
309 Gilbert Hall

Career Services provides the resources and services M.B.A. students need to design and implement individual career plans. Seminars and counseling services focus on résumé writing, networking, interviewing skills, negotiating, employment strategies, and internships. Companies schedule visits to share information and to recruit interns and full-time employees. Company visits, alumni receptions, and an annual career fair facilitate relationship building and placement.

Master’s Degree Programs

Wendy Mitchell, Assistant Dean, Academic Programs
(541) 346-3306
300 Gilbert Hall

The Graduate School of Management offers course work leading to the master of accounting (M.Actg.), master of arts (M.A.), master of business administration (M.B.A.), and master of science (M.S.) degrees. The master of human resources and industrial relations (M.H.R.I.R.) degree program is inactive. Students must complete the requirements of the principal program specified for each degree.

Oregon Executive M.B.A. Program
Juliana Sowash, Executive Director
(503) 725-2250
(503) 725-2259 fax
18640 N.W. Walker Road, Suite 1008
Portland OR 97006-1975

http://www.oembba.org

The University of Oregon, in cooperation with Oregon State University and Portland State University, offers the Oregon Executive Master of Business Administration (O.E.M.B.A.) Program for employed mid-level executives. Classes are held in Portland one full day a week with an orientation program on the University of Oregon campus in the fall. In addition to meeting standard admission criteria, applicants to this program must have substantial managerial experience and corporate sponsorship. O.E.M.B.A. courses are open only to students who apply and are admitted to this program.

Master of Business Administration Program
Andrew Verner, Director
(541) 346-3251
(541) 346-0073 fax
300 Gilbert Hall

The Lundquist College of Business M.B.A. degree gives students the skills they need to start, grow, and develop a business, whether that business is a product line, a business unit or department of a multinational corporation, or a start-up venture. The curriculum is organized around the business-planning and decision-making process rather than the various business disciplines. First-year courses are modular and integrated into the program’s focus on the pursuit of emerging business opportunities, both domestic and international. Throughout the first year, students work in teams using a just-in-time learning approach to assist a dynamic, growing business with emerging business decisions.

The M.B.A. program prepares managers to make the most of change. Students gain foundation skills and knowledge in accounting, decision sciences, finance, international business, and marketing, while they learn how to identify, evaluate, and manage business opportunities. Students gain the skills to scan globally, think creatively, and act quickly and surely to discover and take advantage of the opportunities created by the rapidly changing business environment.

Most M.B.A. students come to the university with work experience. Of the student body, 26 percent are women; 63 percent hold a nonbusiness bachelor’s degree; 55 percent come from the West Coast; and 29 percent are international, representing twenty-three countries. The average age is twenty-seven; the range is twenty to fifty-one.

M.B.A. students work together in teams as they analyze cases and consult with Northwest businesses to create business plans. Small class size and an emphasis on group work ensure that students get to know one another well and develop solid working relationships and strong friendships. Students may choose to enhance their international education by studying abroad. The 81-credit degree program requires two academic years of full-time study.

See Accelerated Programs for information about the full-year 4-1 Program.

See Administration of M.B.A., M.S., and M.A. Degree Programs for admission requirements. First-Year Requirements. First-year students complete 15 credits a term, consisting of Analyzing Markets and Industries (BA 612), Identifying
and Evaluating Market Opportunities (BA 613), and Managing Business Opportunities (BA 614).

First-year requirements must be completed before students may take advanced work in their principal program.

Second-Year Requirements. In the second year, students must complete at least 36 credits (minimum of twelve courses), of which 27 must be in 500- and 600-level Lundquist College of Business courses.

The second year of the program allows students the flexibility to concentrate in marketing, finance, general management, or a self-designed concentration. Students may take courses in the context of entrepreneurship, sports marketing, or international business.

The complete program of study must be approved by the student's adviser and the director of the M.B.A. program.

Accelerated Programs

Admission to the accelerated master's degree programs is highly competitive. It is limited to students who have outstanding scholastic records and demonstrated potential for graduate study. Admission is for fall term only.

3-2 Program. Through the 3-2 program, superior students who are interested in an international studies and Asian studies provide an in-depth education.

It is a highly selective program; students are required to meet the admission requirements of both the School of Law and the Lundquist College of Business. Admission to the program is allowed only during fall term. Prospective students should consult both the director of admissions in the School of Law and the director of the M.B.A. program.

Master of Science or Master of Arts

The primary master's degree offered by the Lundquist College of Business is the M.B.A. The M.S. and M.A. degrees are awarded exclusively to students who are enrolled in a Ph.D. program. The M.A. degree requires competence in a second language. The program leading to the M.S. or M.A. degree (in disciplines other than accounting) allows more specialization than the M.B.A. program and may be adapted to a student's particular needs. The requirements are as follows:

1. Completion of the American Assembly of Collegiate Schools of Business core areas as specified by the department in the Graduate School of Management in which the majority of specialization takes place.
2. Completion of a minimum of 45 graduate credits beyond the first-year M.B.A. required courses. The manner in which this requirement is satisfied is determined by the student in consultation with his or her program committee and subject to approval by the director of the M.B.A. program.

Specialized Programs

M.A./M.B.A. Program. The University of Oregon offers a concurrent degree program in which students earn an M.B.A. degree and an M.A. degree in either international studies or Asian studies. Students must be accepted into both programs and satisfy both sets of degree requirements.

All M.A. degrees require foreign-language competence. The degree programs in international studies and Asian studies provide an in-depth understanding of the cultural, economic, and historical backgrounds of a particular region of the world. These features may be attractive to students who are interested in an international business career.

J.D./M.B.A. Program. In cooperation with the University of Oregon School of Law, a concurrent doctor of jurisprudence/master of business administration (J.D./M.B.A.) program makes it possible to earn both the J.D. and the M.B.A. degrees in four years instead of the five that would be required if each degree was completed separately. The program is for students who are planning a legal career that requires in-depth knowledge of business operations. Students spend their first year in the School of Law and take their second-year courses in the Lundquist College of Business. The third and fourth years are spent taking advanced courses in both law and business.

4. If a thesis is undertaken, approval is required by a thesis committee of at least two faculty members. At least one faculty member must be from the department in which the majority of specialization is taken.

a. The composition of the thesis committee must be approved by the director of the M.B.A. program.

b. An approved program of study must be filed with the director of the M.B.A. program before any courses beyond the common body of business knowledge can be taken.

5. Computer competence. Details of this requirement appear under the Undergraduate School of Business.

Master of Accounting

Helen Gerton, Director
(541) 346-5127
364B Gilbert Hall

The master of accounting (M.Actg.) is designed for students whose undergraduate major was accounting or the equivalent. The curriculum emphasizes understanding, analyzing, and implementing opportunities. It is about real business and real life. It is about developing skills that professional accountants need to be successful in the business world of the 21st century.

The program requires (1) an undergraduate degree in accounting or the equivalent and (2) completion of at least 45 graduate credits, including 30 in accounting and 15 in electives. The plan of study for the 15 credits outside accounting is determined by the student and the program director.

Administration of M.B.A., M.Actg., M.S., and M.A. Degree Programs

The Charles H. Lundquist College of Business seeks diversity in its student population and evaluates applicants on their strengths. The college is interested in applicants' general intellectual ability, initiative and resourcefulness, creativity, seriousness of purpose, maturity, and capacity for growth. Oral and written communication skills are important. Students should have demonstrated a capacity for quantitative thinking and be able to take an orderly, analytical approach to solving problems and to generating alternative solutions. The ability to take ideas from various sources and see important relationships is very beneficial. Students should be self-motivated, with persistence and drive, and with some understanding of the broad social, political, and
economic implications of decisions and actions. Work experience is highly desirable.

The college's master's degree students describe the programs as rigorous, supportive, interactive, close-knit, warm, committed to quantitative and qualitative management, and dedicated to a sense of community. Once admitted to a program, students are evaluated as they would be in the workplace: they are given continual feedback on areas in which they are excelling and areas that need improvement.

Admission Criteria
The admission process is based on
1. Undergraduate academic performance
2. Graduate Management Admission Test (GMAT) score
3. Two written recommendations from people who have worked closely with the applicant and can comment on his or her ability, accomplishments, and management potential
4. Completion of essay questions included in the application package
5. Work experience or demonstrated leadership ability
6. Potential to benefit from and add value to the college's learning community
7. Test of English as a Foreign Language (TOEFL) for international applicants
8. Personal interview

The applicant should also provide any other pertinent information for consideration. Applicants are judged on their academic abilities and potential; their potential for leadership and management; and their commitment, readiness, and motivation to complete the program.

Recent successful applicants have had average undergraduate grade point averages (GPAs) of 3.25, average GMAT scores higher than 600, and minimum scores of 250 on the Test of English as a Foreign Language (TOEFL).

Prerequisites: In addition to proficiency in mathematics and ability to use a computer, students must have a term each of microeconomics and macroeconomics.

Admission Deadlines. A rolling admission system is used. The early-decision deadline is December 15. The round-two deadline, for domestic applicants, is February 15. The round-three general deadline for domestic applicants and for international domestic applicants and for international students is April 15. The round-three general deadline for domestic applicants is April 15. Admission for applicants whose applications are received after April 15 is granted only if space is available in the incoming class of students.

Program Planning
After a student has been admitted to the master's degree program, he or she selects a faculty member as an adviser. Each student must file a program approved by the adviser and the director of the M.B.A. program before taking any courses beyond the first year of study. If the student wants to change the program at a later date, an amended program signed by the adviser and the director may be filed.

Academic Performance
In addition to fulfilling Graduate School requirements, a student enrolled in a master's degree program is required to maintain a GPA of 3.00 for all graduate courses in the preliminary core, courses listed on the Principal Program Sheet or the specified M.S. courses, and any other graduate courses taken in the Lundquist College of Business.

Once a grade is received in a course listed on the Principal Program Sheet, that course cannot be deleted from the program for the purpose of GPA calculations, as described above.

Students whose GPAs fall below 3.00 in a graduate college of business degree program are automatically placed on probation. Their continued enrollment is subject to review by the director of the M.B.A. program.

Students may formally appeal disqualification or other decisions relevant to their academic performance or program. A description of the probation policy and appeal procedures is available in the graduate programs office.

General University Regulations
See the Graduate School section of this catalog for general university regulations and information regarding registration, academic performance, and other matters applicable to university graduate students.

Applied Information Management (AIM) Program
The program is described in the Graduate School section, Individualized Program: Applied Information Management.

Doctoral Programs
(541) 346-3306
300 Gilbert Hall
The Lundquist College of Business offers a program of advanced graduate study and research leading to the degree of doctor of philosophy (Ph.D.) for students preparing for careers in university teaching, research, and administration. The program is administered by the director of doctoral programs for the Lundquist College of Business, assisted by the Ph.D. programs committee consisting of five business faculty members.

Program of Study
The Ph.D. typically requires four years of intensive study beyond the master's degree. The program focuses on developing productive scholars, and it emphasizes both research and teaching skills. Doctoral students must demonstrate competence in scholarly research, and they must assume primary teaching responsibility for undergraduate business courses sometime during their program. Students are expected to work closely with faculty members whose interests are similar to their own. Applicants are advised to be as specific as possible about their areas of interest.

Primary Areas of Concentration
Primary areas of concentration depend on the expertise of the faculty.

Accounting. Faculty expertise focuses on analytical models applied to accounting issues, auditing and the economics of audit markets, financial accounting and financial markets, international accounting, management compensation, and managerial accounting.

Decision Sciences. The emphasis is applied statistics or operations and production management. Related courses are available in computer science, mathematics, economics, and management science.

Finance. The focus is financial economics applied to financial management, financial institutions and markets, and investments and includes coursework in microeconomics, statistics, and econometrics. Specializations are empirical research on investment management, fixed-income securities, risk management, and various topics in corporate finance.

Management. The focus is two domains: organization studies and strategic management. Organization studies examines the interrelationships among organizational behavior, competitive and institutional settings, and firm performance. Strategic management examines competitive and collaborative interactions between organizations as well as how internal organizational dimensions reflect environmental contingencies.

Marketing. The emphasis is in-depth interdisciplinary training in behavioral research on topics related to consumer behavior, organizational buying behavior, managerial behavior in designing and executing marketing programs, and marketing measurement and analysis. Faculty research interests are international marketing, services marketing, and sports marketing.

Admission
For admission to the doctoral program, the student must:
1. Satisfy the admission requirements of the Lundquist College of Business and of the UO Graduate School
2. Have completed the graduate work required for a master's degree (a highly qualified student may be admitted immediately after completion of a bachelor's degree)
3. Be recommended by the department with primary responsibility for the area in which the candidate expects to major and by the Ph.D. program committee
4. Provide evidence of scholarly promise

Recently admitted students averaged 650 to 675 on the Graduate Management Admissions Test with a 3.60 to 3.70 GPA in graduate course work. Approximately 15 percent of applicants are admitted into the Ph.D. program. International students whose native language is not English should have TOEFL scores of 250 or higher.

Most Ph.D. students receive financial support in the form of an appointment as a graduate teaching fellow. For 2000–2001 typical appointments were 0.49 FTE and carried a stipend of $11,287 plus waiver of tuition. Graduate teaching fellows may assist faculty members in research and teaching and assume responsibility for teaching undergraduate business courses.

The deadline for application to the Ph.D. program for fall term is the preceding February 1.

Inquiries concerning the program should be addressed to the Lundquist College of Business director of doctoral programs.

Degree Requirements
The student's program must satisfy the requirements of the Graduate School and the following requirements of the Lundquist College of Business.

The doctoral program typically requires four years of postmaster's degree work including two years in residence on the Eugene campus.
Examinations. The student must pass one written comprehensive examination in his or her primary area. Some areas require a second comprehensive examination in statistics and research methods. Examinations are graded high pass, pass, or no pass. For examinations given in separate and predesignated parts, the grade may apply to each subpart. All grades are outright, a conditional pass is not permitted.

In the event of failure, a student may retake a comprehensive examination or predesignated subpart once, at the individual’s option and after consultation with the advisory committee. If more than one comprehensive examination is required, all examinations must be completed within nineteen months of the date of the first examination. Failure to pass the comprehensive examination or a subpart on the second attempt results in automatic termination from the Ph.D. program.

In the event of failure, a student may retake the examination or predesignated subpart in the following academic term but no sooner than two months after the date of the initial attempt.

Competence in a Primary Concentration Area. The student is expected to master the literature and techniques in a primary area of business administration, to be prepared to write an acceptable dissertation, and to perform high-quality research. Competence is demonstrated by passing a departmental written comprehensive examination and by successfully completing one or more required research papers. Each area of concentration specifies the number of required papers. To be eligible to take a comprehensive examination, the student must have completed most of the course work required in the area.

The primary concentration area consists of courses specified by the department with primary responsibility for the area. At least three courses must be taken at the University of Oregon after admission to the doctoral program. The primary concentration areas are listed above under Program of Study. Programs involving interdisciplinary research may be accommodated within the primary areas.

Competence in Statistics and Research Methods. Students must complete five or more graduate-level courses in statistics with grades of mid-B or better; none of these courses may be taken pass/no pass. These courses may be taken outside the Lundquist College of Business. At least three courses must be completed at the university after admission to the doctoral program. If an area of concentration requires an examination in statistics and research methods, it is administered and graded by a committee that includes at least two decision sciences faculty members appointed by the director of doctoral programs. If the student elects decision sciences (applied statistics) as the primary area, an additional supporting area must be selected.

Competence in a Behavioral Science, Mathematics, or Economics Tool Area. Students must complete at least three graduate-level courses in economics, mathematics, or the behavioral sciences outside the Lundquist College of Business. Courses in these areas of study are subject to final approval by the student’s advisory committee and the director of doctoral programs. Each course used to meet this area requirement must be passed with a grade of mid-B or better, and at least two courses must be completed at the university after admission to the doctoral program.

Advancement to Candidacy. The student is advanced to candidacy for the Ph.D. degree after satisfying the preceding requirements and upon recommendation by his or her advisory committee to the Lundquist College of Business and to the Graduate School. Advancement must occur no later than four years after the student’s entry into the doctoral program.

Dissertation. The student must complete a dissertation embodying the results of research and showing evidence of originality and ability in independent investigation. The dissertation must show mastery of the literature and techniques, be written in credible literary form, and make a contribution to knowledge.

The student is responsible for formation of a dissertation committee, subject to approval by the Graduate School of the university. This committee includes at least three regular faculty members of the college and at least one member from outside the college. The chair of the committee serves as the student’s primary dissertation adviser. Before the dissertation topic is accepted by the dissertation committee, the student makes a public oral presentation and defense of the research proposal and design. When the topic is accepted by the committee, a copy of the proposal, signed as approved by the committee, is placed in the candidate’s file.

The dissertation must be completed within three years of the student’s advancement to candidacy. Upon petition to and approval from the Ph.D. program committee and the Graduate School, this period may be extended for one year. Failure to complete the dissertation within this time period invalidates the student’s comprehensive examinations and advancement to candidacy. The student must successfully defend the completed dissertation in a public oral examination and defense before the dissertation committee.

Grade Point Average (GPA). The student must maintain a cumulative GPA of 3.00 or higher in graduate courses.

Termination from Program. A student’s participation in the Ph.D. program may be terminated by the Ph.D. program committee if the student fails to satisfy any of the program requirements and upon the recommendation of a majority of the student’s advisory or dissertation committee. After consultation with the student’s advisory or dissertation committee, the Ph.D. program committee must vote on termination under one or more of the following conditions: (1) failure to make satisfactory progress toward advancement to candidacy, (2) a GPA below 3.00 for two consecutive terms, (3) failure to complete a dissertation within three years after advancement to candidacy, or (4) any time a member of the advisory or dissertation committee requests a vote. The student has the right to submit a petition requesting that the Ph.D. program committee reconsider the termination.

The advisory or dissertation committee vote must be transmitted in writing to the Ph.D. program committee for review and placed in the student’s file. A student dropped from the program is notified in writing, with reasons for termination clearly explained, and a copy of the letter is placed in the student’s file.

Waivers. Waiver of any of the above requirements is permitted only in exceptional instances and with the approval of the candidate’s program committee, the Ph.D. program committee, and the director of Ph.D. programs. Under no circumstances can requirements of the Graduate School be waived by the Lundquist College of Business.

Business
Business Administration Courses (BA)

101 Introduction to Business (4) Historical, social, political, economic, and legal environments within which business operates. Analysis of major functional areas including management, finance, marketing, accounting, and international studies.

199 Special Studies: [Topic] (1-5R) R when topic changes

316 Management: Creating Value through People (4) Management systems for planning, controlling, organizing, and leading; how they influence human behavior in organizations. Selecting, training, retaining, and motivating the human resource in organization. Prereq: BA 101.

317 Marketing: Creating Value for Customers (4) Market analysis, target customer identification, and development of marketing-mix strategies to deliver superior customer value and contribute to the performance of the organization. Prereq: BA 101.

318 Finance: Creating Value through Capital (4) Financial statement analysis, pro forma statements and capital budgeting, time value of money, net present-value analysis, risk and cost of capital. Prereq: BA 215.

399 Special Studies: [Topic] (1-5R) R when topic changes

410/510 Experimental Course: [Topic] (1-4R) R when topic changes

425 Business Leadership (4) Leadership skills. Topics include creating a vision; identifying performance objectives; managing a project; building a team; and motivating, rewarding, and influencing others. Prereq: completion of upper-division business core, senior standing, accounting or business administration major.

431 Business Strategy and Planning (4) Capstone course focusing on strategy formulation and decisional processes. Includes writing a business plan that applies knowledge and develops course of action to accomplish organizational objectives. Prereq: completion of upper-division business core, BA 452.

450/550 Introduction to Business (4) Historical, social, political, economic, and legal environments within which business operates. Interrelationships of major functional areas including management, finance, marketing, accounting, and international studies.

451/551 Special Topics in Accounting (4) Coverage varies depending on interests of students and instructor. Topics may include cases in financial reporting; advanced accounting theory, accounting for nonprofit organizations; accounting history; international accounting. Prereq: C- or better in ACTG 350, senior standing; or graduate standing.

470/570 Introduction to Federal Taxation (4) Federal income tax law covering taxation of individuals, corporations, partnerships. Introduction to tax research and planning. Prereq: C- or better in ACTG 340 or 350, senior or graduate standing. FINL 316 recommended.

503 Thesis (1-16R)

601 Research: [Topic] (1-16R)

603 Dissertation (1-16R)

605 Reading and Conference: [Topic] (1-16R)

606 Special Problems: [Topic] (1-16R)

607 Seminar: [Topic] (1-5R) Recent topics are Doctoral Seminar, Financial Accounting Theory.

608 Special Topics: [Topic] (1-16R)

699 Practicum: [Topic] (1-3R)

610 Experimental Course: [Topic] (1-5R) International Accounting

617 Taxation of Business (4) Taxation of business entities (C-corporations, partnerships, S corporations, and limited liability companies) as they form, operate, and dissolve.

618 Taxes and Business Strategy (4) How to use economic analysis as a tax planning tool, thereby incorporating tax factors in economic decisions. Prereq: ACTG 617.

623 Managerial and Financial Accounting Analysis (3) Financial reports and decision-making. Focus may be on financial statement analysis and evaluation, managerial decision-making, or tax planning for managerial decision-makers.

630 Accounting Measurement and Disclosure (4) Recent Financial Accounting Standards Board decisions; current measurement and disclosure conflicts facing the accounting profession. Includes exposure to governmental and not-for-profit accounting issues.

635 Accounting for Multinational Corporations (4) Expands students' knowledge of domestic company reporting issues by examining some financial and managerial reporting issues faced by multinational corporations and their managers.

642 Advanced Assurance Services (4) Knowledge and application of generally accepted auditing principles (GAAP) and generally accepted auditing standards (GAAS) systems design and flowcharting, work paper preparation and review, oral and written presentation, and application of judgment. Prereq: ACTG 540 or instructor's consent.

662 Strategic Cost Management (4) Theory and application of management accounting techniques to decisions made under uncertainty in complex business environments. Prereq: instructor's consent.

665 Decision Support Systems (4) Use of technology to create effective decision support systems. Understanding how systems can be created to supply information to managers

Business Administration Courses (BA)

opportunities and organizational capabilities to develop a strategic plan. Accounting for planning purposes, financial markets, marketing strategy, and product design. Prereq: BA 612.

614 Managing Business Opportunities (15) Development of a business plan for an emerging business opportunity. Accounting for control purposes, operations management, designing organizational structures, and managing people to achieve organizational goals. Prereq: BA 613. The following 700-level courses are offered only through the Oregon Executive M.B.A. Program.

705 Reading and Conference: [Topic] (1-6R) R when topic changes.

707 Seminar: [Topic] (1-6R) R when topic changes.

708 Workshop: [Topic] (1-6R) R when topic changes.

710 Experimental Course: [Topic] (1-9R) R when topic changes.

711 Legal Environment of Business (3) Analysis of government policy and the legal environment in which business operates; the effects of law, government policy, and social forces on the formulation of business strategy and decision-making.

712 Financial Accounting and Reporting (3) Preparation, interpretation, and use of external financial statements and reports. Covers basic accounting principles, recording and reporting techniques underlying valuation and income determination.

713 Applied Statistics for Managers (3) Exposure to descriptive statistics, decision analysis, regression analysis, and forecasting. Emphasis on when and how to use statistics. Integrates statistical tools used to analyze business data with microcomputers.
721 Managing in the Future (3) Examines the role of leadership, organizational learning, and whole systems theory for managing organizations in the future.

722 Human Resource Management (2) Examines how to attract, retain, motivate, and manage people in organizations.

723 Formulating Corporate Strategy (3) Focuses on how corporations choose to compete. Covers the analytical techniques and planning models appropriate for making this fundamental decision.

724 Operations Strategy (2) Examines methods and processes for providing a competitive advantage through continuous quality and process improvements, supplier management, and efficient production of products and services.

725 Implementing Corporate Strategy (2) Uses problems and cases to examine the implementation of corporate strategy, the strategy process and cycle, and implementation methods.

726 Global Business (3) Examines global competition and strategy, regional economic integration, cross-cultural challenges, foreign market entry, international joint ventures and strategic alliances, international dimensions in functional areas of business.

Business Environment Courses (BE)

199 Special Studies: [Topic] (1–5R)
325 Global, Legal, Social Environment of Business (4) Legal and ethical regulations of business organizations—including their human resource, finance, production, marketing, and environmental function—in the United States and internationally. Prereq: junior standing.
401 Research: [Topic] (1–2IR) Prereq: instructor's and department head's consent.
405 Reading and Conference: [Topic] (1–21R) Prereq: instructor's and department head's consent.
406 Special Problems: [Topic] (1–21R) Prereq: instructor's and department head's consent.
407 Seminar: [Topic] (1–4R) Prereq: instructor's and department head's consent.
409 Practicum: [Topic] (1–6R) 410/510 Experimental Course: [Topic] (1–4R)
410/510 Experimental Course: [Topic] (1–4R) Recent topics include Forecasting, Business to Business E-Commerce, Management Information System.
455/555 Production Systems Analysis (4) Develops planning consistent with organization's business strategies. Includes development and timing of new products, new product and process technologies, production schemes for products and services. Prereq: DSC 335. 457 Total Quality Management (4) Demonstrates heightening the firm's competitiveness by managing quality to promote commitment, communication, and understanding with the customer. Uses analytical tools and techniques for achieving and sustaining high quality. Prereq: DSC 335.

601 Research: [Topic] (1–16R)
603 Dissertation (1–16R)
608 Special Topics: [Topic] (1–12R)
635 Applied Regression Analysis (3) Theory and application of least-squares regression including model selection and diagnostics. Emphasis on managerial applications and decision-making. Prereq: DSC 611 or equivalent.

Finance Courses (FINL)

199 Special Studies: [Topic] (1–5R)
240 Survey of Real Estate (4) Basics of buying, selling, and leasing real estate. Overview of real estate law, commercial and residential brokerage, real estate financing, and real estate administration. Not open to Lundquist College of Business majors or prebusiness students with junior standing or above.
281 Personal Finance (4) Overview of lifetime personal financial strategies. Topics include financial goals and building net worth, major purchasing decisions, credit use, tax planning, retirement, and estate planning.
283 The Stock Market and Investing (4) Investments and the stock market, securities and approaches to security selection, portfolio composition and structure. Not open to Lundquist College of Business majors, prebusiness students with junior standing or above, or students who have credit for FINL 380.
311 Economic Foundations of Competitive Analysis (4) Analysis of market competition and its relation to product cost and pricing decisions by the firm. Prereq: EC 201, MATH 242, junior or senior standing. Students cannot receive credit for both EC 311 and FINL 311.
316 Financial Management (4) Corporate financial planning, selection among alternative investment opportunities, analysis of risk, funds acquisition, and long-term financing. Prereq: ACTG 213, junior or senior standing.
380 Financial Markets and Investments (4) Financial markets and security investment decisions, analysis of risk and return, portfolio policies for individual and institutional investors, financial instruments. Prereq: FINL 316, junior or senior standing.
401 Research: [Topic] (1–21R)
403 Thesis (1–21R)
405 Reading and Conference: [Topic] (1–21R)
410/510 Experimental Course: [Topic] (1–4R) Recent topics include Forecasting, Business to Business E-Commerce, Management Information System.
462 Derivative Markets and Financial Institutions (4) Valuation of financial derivatives, methodologies for identifying firms' risk exposures, the role of risk management and financial derivatives in corporate strategy, and analysis of financial institutions. Prereq: FINL 380 or instructor's consent.
463 International Finance (4) Analysis of currency exchange rates, balance of payments, management of foreign exchange risk, risk and return in international investment. Prereq: FINL 316, junior or senior standing.
473 Financial Analysis and Valuation (4) Topics include working capital management, advanced capital budgeting, dividend policy, financing policy, lease financing, business valuation, and corporate acquisitions. Prereq: FINL 316, 380, senior standing.
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
603 Dissertation (1–16R)
605 Reading and Conference: [Topic] (1–12R)
607 Seminar: [Topic] (1–5R)
608 Special Topics: [Topic] (1–12R)
335 Introduction to Entrepreneurship (4) Environment. Role of work teams and project management. Prereq: junior standing.

321 Managing Organizations (4) Roles of managers in planning, organizing, leading, and controlling organizations in a competitive global environment. Role of work teams and project management. Prereq: junior standing.

335 Introduction to Entrepreneurship (4) Skills, behaviors, and knowledge necessary for creating and growing new ventures. Evaluating opportunities, developing growth strategies, obtaining venture financing, intellectual property, and building a management team. Prereq: junior standing.

667 Corporate Risk Management (3) Analysis of tools for corporate risk management. Includes options, futures, swaps, and value-at-risk; theoretical rationales of corporate risk management; and management of asset and liability exposures by financial institutions. Prereq: FINL 683 or instructor's consent.

671 Theory of Finance (3) Development of financial principles related to problems of valuation, capital budgeting, and financial policy. Prereq: completion of first-year M.B.A. core or instructor's consent.

673 Problems in Finance (3) Cases dealing with financial analysis, working-capital management, valuation, and firm investment and financing decisions. Prereq: completion of first-year M.B.A. core or instructor's consent.

683 Concepts of Investments (3) Securities markets; risk-return characteristics of investment media; concepts of security analysis; investment and portfolio strategies of individual and institutional investors. Prereq: completion of first-year M.B.A. core or instructor's consent.

688 Investment Administration (3) Current controversies in investment analysis and administration. Topics may include futures and options markets, insider trading, the impact of institutional investors, and portfolio performance evaluation. Prereq: FINL 683 or equivalent.

Management Courses (MGMT)

199 Special Studies: [Topic] (1–5R)

321 Managing Organizations (4) Roles of managers in planning, organizing, leading, and controlling organizations in a competitive global environment. Role of work teams and project management. Prereq: junior standing.

335 Introduction to Entrepreneurship (4) Skills, behaviors, and knowledge necessary for creating and growing new ventures. Evaluating opportunities, developing growth strategies, obtaining venture financing, intellectual property, and building a management team. Prereq: junior standing.

401 Research: [Topic] (1–21R)

405 Reading and Conference: [Topic] (1–21R)

406 Special Problems: [Topic] (1–21R)

407 Seminar: [Topic] (1–4R)

409 Practicum: [Topic] (1–21R)

415 Human Resources Management (4) Management of employee relations by an organization. Hiring and developing a productive work force in the context of the legal and competitive environment. Prereq: MGMT 321 or equivalent, junior standing.

416 Leadership in Organizations (4) Developing the skills needed to manage and lead organizations effectively. Includes working in groups, motivating others, communicating, using power and influence, and managing conflict. Prereq: MGMT 321 or equivalent.

417 Negotiation and Conflict Resolution (4) Introduction to negotiation theory, distributive and integrative bargaining techniques, and alternative dispute resolution. Uses workshop format for in-class negotiation simulations. Prereq: MGMT 321.

418 Managing Change (4) Managing the process of change in organizations. Includes establishing a vision and strategy for change and leading the organization through the steps required for successful implementation. Prereq: MGMT 321.

422 Strategies for Environmental Management (4) Exploration of the interaction among business, society, and the natural environment. Stresses a global perspective with special attention to cross-cultural and trade issues.

455 Business Planning for Entrepreneurs (4) Students research a business opportunity; produce a professional start-up business plan that incorporates market analysis, cash flow analysis, and financial pro formas. Prereq: ACTG 340, BA 453, MKTG 445.

503 Thesis (1–16R)

601 Research: [Topic] (1–16R)

602 Supervised College Teaching (1–5R)

603 Dissertation (1–16R)

605 Reading and Conference: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R)

608 Special Topics: [Topic] (1–16R)

609 Practicum: [Topic] (1–16R)

610 Experimental Course: [Topic] (1–5R) Recent topics include International Business, Negotiation, Services Strategy, Training and Development.

611 Managing Effective Organizations (3) Problems of managing people and groups in complex organizations. Behavioral science applications to decision-making, organization design, motivation and leadership, cultural diversity, political and symbolic behavior in organizations.

612 Managing in Competitive Environments (3) Strategic management and planning for firms in competitive environments. Analysis of global economy and interfirm cooperation. Application of stakeholder management model to address political and social imperatives.

615 Leadership (3) Skills that managers need to be more effective in organizations. Includes communicating, problem solving, influencing, motivating, resolving conflict, delegating, and providing leadership.

620 International Business Strategy (3) Focuses on the problems of operating across multiple political and cultural boundaries. Possible topics include corporate strategy, the role of multinational corporations, and international joint ventures.

623 Negotiation (3) Negotiation theory including distributive and integrative bargaining techniques, economic complements, game theory, and alternative dispute resolution. Extensive in-class negotiation simulations.

670 Research Methods in Organizations (3) Procedures for interpreting behavioral research in organizational settings. Design of research projects, including problem definition, theory building, selection of a sample measurement, data analysis, and ethical considerations. Prereq: MGMT 611, DSC 611 or equivalent or instructor's consent.

672 Organizational Behavior (3) Theory and research on behavioral science applications to the work place. Individual differences, motivation and work behavior, job attitudes, socialization processes, leadership and group effectiveness.

673 Theory and Research in Human Resources Management (3) Topics may include planning and analysis of human resource management systems, staffing, performance evaluation, training and development, rewards systems, collective bargaining, and industrial relations theory.

674 Competitive Environments (3) Analysis and discussion of firm behavior within competitive markets. Application of models of industry analysis and competitive strategy to globalization, interfirm cooperation, and diversification.

690 Management Proseminar (1) Contemporary issues in management research. Includes visiting speakers, resident faculty members, and doctoral students discussing their research. Prereq: instructor's consent.

Marketing Courses (MKTG)

199 Special Studies: [Topic] (1–5R)

360 Consumer Behavior (4) Applications of social science concepts to the understanding of consumers and to the optimal delivery of products and services. Prereq: MKTG 311 or instructor's consent, junior standing.

390 Marketing Research (4) Design, implementation, analysis, interpretation, and reporting of research for marketing decisions. Hands-on experience with techniques for data collection, statistical data analysis, and communication of results. Prereq: MKTG 511, DSC 330 or instructor's consent.

401 Research: [Topic] (1–21R) Prereq: instructor's and department head's consent.
405 Reading and Conference: [Topic] (1–21R) Prereq: instructor’s and department head’s consent.
406 Special Problems: [Topic] (1–21R) Prereq: instructor’s and department head’s consent.
407 Seminar: [Topic] (1–4R) Prereq: instructor’s and department head’s consent.
409 Practicum: [Topic] (1–21R) Prereq: instructor’s and department head’s consent.
410/510 Experimental Course: [Topic] (1–4R)
411/511 Marketing Communications (4) Advertising, sales promotions, public relations, and personal selling. Emerging communication media. Legal regulations and ethical considerations in mass media advertising. Media planning and promotional budgets. Prereq: MKTG 311 or 360 or instructor’s consent.
440/540 Marketing Channels and Distribution (4) Marketing channel design and management. Emphasis on the role of traditional channel intermediaries (retailers, wholesalers) and other marketing channel topics (franchising, logistics). Prereq: MKTG 311.
445 Marketing for Entrepreneurs (4) Techniques for analyzing and developing new markets. Pricing, communicating, and distributing new products or services with limited resources. Developing marketing plans for new ventures. Prereq: MGMT 335; pre- or coreq: ACTG 340.
450/550 Sports Marketing (4) Essentials of effective sports marketing. Includes research, segmentation, product development, pricing, licensing, and communication channels such as advertising, sales promotion, and publicity. Prereq: MKTG 311 or 611 or equivalent.
451 Sports Marketing Communication (4) Publicity, public relations, advertising, use of celebrities, sales promotion, sales force involvement, economic and public policy issues. Prereq: MKTG 450.
452 Sports Sponsorship (4) Detailed consideration of the relation between sports and corporate sponsorship programs. Focuses on alignment marketing, sponsor value, and sponsorship evaluation. Prereq: MKTG 450.
453 Law and Sports Marketing (4) Law and sports marketing, including contracts, legal aspects of licensing, relations with agents, intellectual properties law. Public policy issues. Prereq: MKTG 450.
470 International Marketing (4) Analysis and development of marketing strategy and tactics for multinational and global markets. Prereq: MKTG 311.
480 Selling and Sales Management (4) Develops a working understanding of selling processes and sales management. Includes strategy development, organization, design, motivation, leadership, and performance analysis. Prereq: MKTG 311 or instructor’s consent.
481 Professional Selling (4) Develops a working understanding of professional selling processes. Topics include strategy development, motivation, leadership, performance analysis, buyer behavior issues, and relationship building. Prereq: MKTG 311 or BA 317 or instructor’s consent.
482 Advanced Sales Management (4) Explores the nature, rewards, social, ethical, and legal responsibilities of sales management. Includes planning, staffing, training, developing, directing, and controlling the sales force. Prereq: MKTG 311 or BA 317 or instructor’s consent.
490 Marketing Strategy (4) Capstone marketing course. Primary focus on developing and implementing marketing strategies and determining their impact on customer satisfaction and profitability. Prereq: ACTG 213, MKTG 311, FINL 316, MGMT 321, DSC 335, and senior standing. 503 Thesis (1–16R) Prereq: instructor’s and department head’s consent.
601 Research: [Topic] (1–16R) Prereq: instructor’s and department head’s consent.
603 Dissertation (1–16R) Prereq: instructor’s and department head’s consent.
605 Reading and Conference: [Topic] (1–16R) Prereq: instructor’s and department head’s consent.
607 Seminar: [Topic] (1–5R) Prereq: instructor’s and department head’s consent.
608 Special Topics: [Topic] (1–12R) Prereq: instructor’s and department head’s consent.
609 Practicum: [Topic] (1–16R) Prereq: instructor’s and department head’s consent.
610 Experimental Course: [Topic] (1–5R)
650 Marketing Sports Properties (3) Examines essentials of effective sports marketing. Includes product or property development, legal aspects, segmentation, pricing, and communication channels (e.g., broadcast media). Prereq: completion of first-year M.B.A. core.
652 Sports Sponsorship Alliances (3) Detailed consideration of the relation between sports, law, and corporate sponsorship programs. Focuses on alignment marketing issues, strategic communication through sponsorship, sponsor value, and sponsorship valuation. Prereq: completion of first-year M.B.A. core.
655 Economic Aspects of Sports Marketing (3) Comprehensive coverage of traditional and innovative revenue methods available to sports organizations from public and private sources. Detailed consideration of venue-based income sources (e.g., premium seating, permanent seat licenses). Prereq: completion of first-year M.B.A. core.
660 Marketing Research (3) Marketing research as a tool for decision-making. Planning research projects; design, measurement, experimental and nonexperimental techniques, analysis and interpretation of data; reporting of research results. Prereq: completion of first-year M.B.A. core.
661 Advanced Analysis of Consumer Behavior (3) Behavioral science concepts used in the analysis of life-style patterns of the ultimate consumer; values and behavioral patterns of consumer segments and their significance for marketing. Prereq: completion of first-year M.B.A. core.
662 Marketing Communications (3) Business-related issues in effective interaction with consumers through such channels as advertising, publicity, and sales promotion. Prereq: completion of first-year M.B.A. core.
665 Marketing Problems and Policies (3) Relationship between marketing and other functional areas of a business. Emphasis on case analysis as a means of acquiring both planning and operational skills. Prereq: completion of first-year M.B.A. core.
675 Multinational Marketing Management (3) Management of marketing activities to and in foreign countries as they relate to the process whereby a business concern creatively adapts to the international environment within which it operates. Prereq: completion of first-year M.B.A. core.
687 Theory and Research in Marketing Management (3) Application of marketing concepts and of economics, management science, and behavioral science to the management of the product, price, promotion, and distribution variables. Prereq: doctoral standing or instructor’s consent.
688 Theory and Research in Marketing Information (3) Methodologies of surveys, observations, experimentation, and simulation as methods of obtaining information for decision-making. Prereq: doctoral standing or instructor’s consent.
689 Theory and Research in Consumer Behavior (3) The applicability of behavioral theories and methodologies to the understanding of the consumption process. Prereq: doctoral standing or instructor’s consent.
Preparing Educators in the 21st Century
The mission of the College of Education, "making educational and social systems work for all," reflects a broad view of the profession, in which educators assume a variety of roles in schools, social service agencies, private enterprise, and communities. The college, which traces its origins to 1910, has established itself as a leading educational institution through its research of critical social and educational issues, development of innovative practices, and preparation of professional practitioners and educators. The U.S. News and World Report ranks the College of Education in the top ten percent of graduate schools in the United States. Faculty members contribute their nationally recognized research, teaching, and service activities to create an environment of professional excellence in education and social services. Along with the diverse and accomplished faculty, students become part of a learning community committed to educational improvement. Programs incorporate cross-disciplinary knowledge, effective field experiences, and extensive, collaborative research opportunities. The combination of high-quality students, the educational environment, and college resources produces graduates who are proficient as practitioners, preschool through twelfth grade and college teachers, administrators, educational researchers, and policymakers.

Whether it is to obtain an initial degree or teaching license, earn an advanced degree, or increase professional effectiveness, the College of Education offers a range of options and opportunities to students who want to pursue individual interests and achieve personal and professional goals.

The College of Education’s academic majors are organized into five areas: counseling psychology and human services; educational leadership; special education; speech, language, and hearing sciences; and teacher education. The college houses four research and outreach centers and institutes that support the college’s mission: the Center for Advanced Technology in Education, the Center on Human Development, the Institute for the Development of Educational Achievement, and the Institute on Violence and Destructive Behavior.

Admission
The College of Education follows university policy in its admission procedures, as described in the Admission and Graduate School sections of this catalog. Students transferring to the university from other institutions must meet university entrance requirements. Specific programs in the College of Education have additional requirements for admission and limits on the number of students admitted to the major or licensure program. Prospective students are urged to check admission requirements for the desired major or licensure program.

Financial Assistance
Scholarships. Scholarships are available for undergraduate and graduate students. Application requirements and procedures may be requested from Andrea Wiggins, Office of the Dean, 102 Education Building; telephone (541) 346-1568.

Stipends and Fellowships. Stipends and fellowships are frequently awarded to graduate students. Both forms of assistance may cover most of the cost of tuition and provide a monthly cash payment. Information for graduate teaching fellows (GTs) is available from the Office of the Dean.

Information about financial assistance is listed in the application materials for each major. Application deadlines should be followed to receive consideration for aid.

Information about university scholarships and loan programs is also available from the Office of Student Financial Aid, 260 Oregon Hall.

Academic Programs
Diane D. Bricker, Associate Dean
(541) 346-0807

The College of Education offers accredited bachelor’s, master’s, and doctoral degrees and professional-development programs. Often, in concert with an academic degree, majors offer programs leading to state licensure for employment in Oregon public schools. These licenses are conferred by the state Teacher Standards and Practices Commission (TSPC), the agency authorized by the Oregon Legislative Assembly to issue licensure for teaching, personnel service, or administration in public schools. The TSPC issues appropriate licenses to applicants upon the university’s recommendation that they have successfully completed the relevant licensure program. The state of Oregon has reciprocal administrative, elementary, middle and secondary, and special education teaching-license agreements with most other states and Puerto Rico. Therefore, students who receive a license from Oregon will most likely find that their license can be transferred to another state. Information about licensure is available in the college’s academic support and student services office.

The College of Education offers a five-year program in middle-secondary with possible endorsements in language arts, social studies, foreign languages, French, German, Japanese, Latin, Russian, and Spanish), biology, chemistry, physics, integrated science, English for speakers of other languages, and mathematics.

Research and Outreach Services
Larry K. Irvin, Associate Dean
(541) 346-0730
102 Education Building

The College of Education’s four research and outreach centers or institutes—approved by the Oregon University System—generate $12 to $18 million each year to support efforts to answer some of the questions facing educators. Each center or institute has defined operating principles and houses grant and contract activity related to its mission.
Center for Advanced Technology in Education
Lyne Anderson-Inman, Director
(541) 346-6467
220 Rainier Building
http://cate.uoregon.edu

The Center for Advanced Technology in Education (CATE) seeks to (1) promote efficient worldwide exchange of information about the use of advanced technology in education; (2) promote and support research on issues and interventions related to the use of advanced technology in education; (3) promote and support training and outreach efforts to enhance the knowledge and skills of educators, students, and parents about the use of technology in education; and (4) generate and disseminate media and materials that enhance understanding about current and future applications of advanced technology in education.

The center actively collaborates with the Oregon Department of Education and school districts around the state in providing professional development and technical assistance related to technology planning and the use of technology for instruction.

CATE houses the National Educational Computing Association, which annually sponsors the nation’s largest technology-in-education conference, the National Educational Computing Conference. CATE provides administrative support to faculty members in the College of Education who have research grants or projects involving technology in education.

Center for Electronic Studying
Lyne Anderson-Inman, Director
(541) 346-6467
205 Rainier Building
http://cate.uoregon.edu/ces/default.html

The Center for Electronic Studying explores and evaluates computer applications that enhance literacy, study skills, and academic performance. The center conducts research projects funded by grants from agencies such as the U.S. Department of Education, the National Endowment for the Humanities, the National Parks Service, and the Oregon Department of Education.

The center conducts outreach workshop presentations in Oregon and other states that emphasize putting research into practice. The center offers research practicums and opportunities for independent study and has positions for graduate assistants and work-study students.

ERIC/Clearinghouse on Educational Management
Philip K. Piele, Director
(541) 346-5043 or -2329
106 Agate Hall

The Educational Resources Information Center Clearinghouse on Educational Management (ERIC/CEM) is part of ERIC’s nationwide network of information processing and analysis centers. There are sixteen clearinghouses located across the country. One of the original units in the ERIC system, ERIC/CEM has been located at the university since June 1966.

ERIC/CEM monitors, acquires, indexes, and abstracts literature pertaining to educational management. By processing this literature for announcement through the ERIC system and by producing research-analysis publications, the clearinghouse seeks to facilitate the exchange of information between producers and users of educational knowledge. Its research analysis helps synthesize the most current and topical literature within its scope.

ERIC/CEM’s scope includes the administration, governance, and structure of public and private educational organizations at the elementary and secondary levels. Relevant topics include finance, law, personnel, instructional leadership, public relations, planning, curriculum development, policy development, and leadership.

International Society for Technology in Education
Lesley Conery, Interim Chief Executive Officer
(541) 302-3776
141 Education Building
http://www.iste.org

The International Society for Technology in Education (ISTE) was founded in 1979 to foster appropriate instructional use of interactive technology. One of the largest nonprofit membership organizations in the field of education technology, ISTE helps K-12 educators around the world integrate technology into the classroom. ISTE members can network with more than 75,000 technology-using educators through its international affiliates. ISTE members also gain government and legislative representation and stay informed on issues of national interest through their representative in Washington, D.C.

Through its National Education Technology Standards Project, ISTE has established a consensus on the technology standards for students. Implementation of these standards is addressed in Connecting Curriculum and Technology.

ISTE publishes Learning and Leading with Technology, which features practical articles for the educator who needs to integrate technology into the classroom curriculum. The Journal of Research on Computing in Education, another ISTE publication, contains the latest research findings related to classroom and administrative uses of technology. In addition, ISTE reviews, recommends, and publishes classroom-tested educational technology materials and resources.

Media Literacy Online Project
Gary W. Ferrington, Director
(541)346-3469

The Media Literacy Online Project provides teachers, student, parents, and producers with an informational resource collection related to the influence of media in the lives of children, youth, and adults.

Oregon Career Information System
Cheryl Buhl, Director
(541) 346-3872
(800) 495-1266
http://cis.uoregon.edu/orcis

The Oregon Career Information System was established at the university and recognized by the Oregon State Board of Higher Education as an interagency consortium in 1971. Designed as the state’s career information delivery system by the Oregon Department of Education, it is a self-supporting, fee-based consortium of school districts, education service districts, colleges, public and private agencies, and private businesses. Its mission is to develop high-quality occupational and educational information, deliver it in a variety of formats to meet the needs of Oregonians, and assist in integrating the information into schools, social agencies, and businesses. Electronically delivered information is available in high school career centers, employment department field offices, community college career and counseling centers, and One-Stop Career Centers.

intoCareers
Dan Erdmann, Director
(541) 346-3875
http://cis.uoregon.edu

Files and software developed by intoCareers facilitate locating information about the local labor market and state or regional training opportunities. The national system is developing multimedia titles, Internet access to career information files, and software to help with résumé writing and job interviews.

Center on Human Development
Hill M. Walker, Director
(541) 346-3591
Clinical Services Building, Third Floor

The Center on Human Development (CHD), part of a national network of sixty-one University Centers of Excellence (UCE) established and funded by the U.S. Administration on Developmental Disabilities, CHD’s nine units support, assist, and empower people with disabilities and their families in ways that enhance their quality of life. Funds from the annual UCE core grant awarded by the Administration on Developmental Disabilities provides administrative coordination of CHD’s units so that the center can address its priorities: (1) the interdisciplinary training of professionals, (2) the development of exemplary services and proven models of intervention, (3) technical assistance and dissemination of best practices and knowledge about innovations, and (4) applied research and evaluation.

Child Development and Rehabilitation Center
Robert E. Nickel, M.D., Clinical Director
(541) 346-3575
Clinical Services Building, First Floor

The Regional Service Center of the Child Development and Rehabilitation Center of the Oregon Health Sciences University provides multidisciplinary services for the diagnosis and evaluation of genetic syndromes, developmental disabilities, and neurodevelopmental disorders. Management and coordination of care is provided for a variety of patients including individuals with cerebral palsy, spina bifida, cleft lip and palate,
and feeding difficulties. Clinic services are available for children, adolescents, and young adults.

**Early Childhood CARES and PACE**
Judy Newman and Valerie Taylor Close, Codirectors
(541) 346-3568
1859 E. 15th Avenue

EC CARES provides early intervention and early childhood special education services to eligible children in Lane County. Services are individually designed to address the needs of the young child with developmental delays or disabilities. These services may include a combination of specially designed instruction in community preschools or specialized preschools, parent consultation and education, speech therapy, physical and occupational therapy, vision and hearing services, and consultation for autism or challenging behaviors. Practicum opportunities are available for undergraduate and graduate students who are interested in working with young children.

**Educational and Community Supports**
Robert H. Horner, Director
(541) 346-5311
1761 Alder Street

Educational and Community Supports focuses on the development and implementation of practices that result in positive, durable, and scientifically substantiated change in the lives of individuals with disabilities and their families. Faculty and state funds support research, teaching, and practice to create new knowledge, guarantee its dissemination, and provide technical assistance to individuals and organizations at the local, state, and national levels. Educational and Community Supports comprises the following research groups:

- **Positive Behavioral Research and Support**
  Robert H. Horner and George Sugai, Codirectors
  Positive Behavioral Research and Support develops and applies a science of human behavior and social systems to improve the education and support available to individuals with or at risk for disabilities and their families. Faculty participants teach in the special education degree programs, advance the study of positive behavior support, and assist school and service personnel in applying positive behavior support strategies in a variety of contexts.

- **Inclusive Schools and Communities**
  Dianne L. Ferguson and Philip M. Ferguson, Codirectors
  Inclusive Schools and Communities supports schools, communities, and families in building sustainable, successful, and inclusive education through participatory research, teaching, dissemination of information, and help to build effective schools and districts.

**Speech-Language-Hearing Center**
Susan Roberts, Director
(541) 346-3593
Clinical Services Building, First Floor

The Speech-Language-Hearing Center is a service, training, and research clinic that provides evaluations, treatment, and consultations for individuals with any type of communication disorder. The program meets the requirements for state teacher licensure, state professional licensure, and American Speech, Language, and Hearing Association national professional certification. Clinical activities are supervised by certified speech-language pathologists and audiologists. School, community, and state practicum placements are available to graduate students.

**Western Regional Resource Center**
Richard W. Zeller and Caroline J. Moore, Codirectors
(541) 346-5641
Clinical Services Building, Second Floor

The Western Regional Resource Center is one of six regional centers funded to collectively serve the United States, its territories, and the Bureau of Indian Affairs. A service and technical assistance project, the center is funded by the U.S. Department of Education Office of Special Education Programs to work with state special education agencies in Alaska, American Samoa, California, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Guam, Hawaii, Idaho, Nevada, Oregon, Republic of the Marshall Islands, Republic of Palau, and Washington. The center helps states overcome persistent problems in providing high-quality, free, appropriate public education to children with disabilities.

**Institute for the Development of Educational Achievement**
Edward J. Kame’enui, Director
(541) 346-3562
Education Annex

The Oregon State Board of Higher Education established the Institute for the Development of Educational Achievement at the University of Oregon College of Education in 1984. The institute promotes and manages research and outreach activities related to the academic achievement of children and young adults.

The following objectives characterize the direction of the institute:
- Establish, promote, and sustain a culture and community of scholarship and collaboration at the university and in the state of Oregon to improve academic achievement of children and young adults.
- Serve as a primary resource for local school districts and educational service agencies, Lane County service agencies, and people of Oregon on matters related to academic achievement.
- Produce, collect, synthesize, and disseminate information about the academic achievement of children and young adults.

Graduate students participate in various institute activities as part of their professional preparation.

**Behavioral Research and Teaching**
Gerald Tindal, Director
(541) 346-3560
230 Education Building
http://brt.uoregon.edu

Behavioral Research and Teaching combines applied behavior analysis with effective teaching practices to develop, study, and disseminate empirically based educational programs for students who are at risk for school and community failure. Research and professional development activities and projects focus on (1) school discipline, classroom management, and positive behavior support; (2) academic assessment from teacher-driven classroom practices to large-scale statewide accountability systems; (3) educating students with emotional and behavior disorders; (4) educating students with learning disabilities; (5) systems change and school reform; and (6) behavioral and instructional consultation. Research and personnel preparation opportunities are available for graduate students.

**High School Equivalency Program**
Emilio Hernandez Jr., Director
(541) 346-0882
1665 E. 17th Avenue

The High School Equivalency Program is described in the Student Services section of this catalog.

**National Center to Improve the Tools of Educators**
Douglas Carnine, Director
(541) 683-7543
805 Lincoln Street, Eugene OR 97401

The center’s mission is to provide publishers and developers with information about the attributes of high-quality educational tools (print materials, electronic media, and computer software). The center also helps develop market demand for educational tools by participating in activities that advocate for their development and use.

**Secondary Special Education Transition Research Group**
Michael R. Benz, Michael D. Bullis, K. Brigid Flannery, Andrew S. Halpern, Cynthia M. Herr
(541) 346-3585 or -1408
175 Education Building

Programs are aimed at high school-aged special education students who are preparing for the transition into adult communities. The group attempts to build bridges between special and general education around this concept of transition. The Youth Transition Program develops and evaluates collaborations between special education and vocational rehabilitation programs. A second program teaches high school students how to engage successfully in self-directed transition planning. A third program addresses the transition of severely emotionally disturbed and adjudicated youth.

**Youth Enrichment and Talented and Gifted Programs and Services**
Marjorie DeBusé, Director
(541) 346-3084
170 Education Building

Youth Enrichment and Talented and Gifted Programs and Services provide summer and academic-year learning experiences to children and youth and their families. These programs increase the college’s and university’s leadership role and capacity to respond to the needs of children and youth by providing services that support and enhance kindergarten through twelfth grade school programming. Programs assist parents, educators, and service providers...
in their efforts to encourage students to develop academic and intellectual potential. The program’s objective is to enrich education and social-emotional growth; counsel; diagnose, consult, and provide family services; train teachers; disseminate information; and conduct research while providing outreach services connecting precollege youth with the University of Oregon. Undergraduate and graduate students participate in various field-based practicum experiences as part of their professional preparation.

Institute on Violence and Destructive Behavior
Hill M. Walker and Jeffrey R. Sprague, Codirectors
(541) 346-3592
Clinical Services Building, Third Floor
The Institute on Violence and Destructive Behavior was created in 1994 to focus expertise on the problems of youth violence; lack of school safety; and youth at risk for school failure, delinquency, and other destructive outcomes. Institute members conduct original research, provide staff training, disseminate knowledge and best practices, and consult with a range of agencies and systems concerned with public safety and youth violence prevention. The institute has developed a number of evidence-based assessment tools and interventions to address the risk factors associated with violence, school dropout, and delinquency that are used by professionals in mental health, school, community agency, and correctional settings. The Institute on Violence and Destructive Behavior was approved as a center of excellence by the Oregon State Board of Higher Education in 1995 and receives support for its activities through the College of Education and competitively awarded federal grants.

Substance Abuse Prevention Program
Mild Mace, Program Coordinator
(541) 346-4135, x136, or -3397
180 Esslinger Hall
http://darkwing.uoregon.edu/~sap/
The nationally recognized Substance Abuse Prevention Program (SAPP) provides education and increases awareness of alcohol and other drug prevention, intervention, treatment, and recovery. Through the Continuation Center’s Continuing Education Program, an area of concentration certificate may be earned by completing a minimum of 24 credits. Nontraditional students and working professionals are encouraged to enroll in SAPP evening or weekend courses and workshops.

In 2000 SAPP became the national training center for BUSTED (Beginning Underage Successes through Educational Diversion), a project aimed at decreasing underage drinking by increasing awareness of alcohol risk factors. The project offers in-service prevention, intervention, strategic planning, and community risk-reduction workshops to schools, court staff members, law enforcement agents, and community leaders. The SAPP is dedicated to

- Increasing personal and community awareness of high-risk factors associated with chemical use, misuse, and abuse.
- Educating, facilitating, and furthering development for professionals in prevention, intervention, treatment, and recovery delivery systems.
- Providing resources and empowerment strategies that foster and support personal growth, interpersonal relationships, and resilience.

Information about SAPP offerings is available by telephone or fax and on the website.

Facilities, Organizations, and Services

Academic Support and Student Services
Dianne L. Ferguson, Director
(541) 346-2491
111 Education Building
The College of Education academic support and student services office maintains undergraduate and graduate student records and offers advising for degree and licensure completion. Address questions about student records, graduate degree process, and undergraduate advising to the director. Information about licensure is available in 113 Education Building, telephone (541) 346-3528.

Continuing Teaching License Program
The continuing Teaching License Program coordinates advanced licensure for nine programs in the College of Education, providing structure and support for teachers as they fulfill Oregon’s requirements for advanced licensure. Three seminars help teachers assess their strengths and areas of need, create individually tailored plans of study, and gather and demonstrate evidence of advanced proficiency across state standards. More information is available from Mary Ann Messiers, program coordinator, telephone (541) 346-1364 or send e-mail to messiers@Oregon.uoregon.edu.

Community Internship Program
Erb Memorial Union Breezeway
This service-learning program offers opportunities for students to volunteer in educational or community settings. The program fosters leadership and social responsibility, and it promotes the acquisition of skills in problem solving, communication, conflict resolution, community building, and collaboration.

Five field experiences are offered in public schools, outdoor education, human services, mentorship, and leadership development. Students can choose among more than 800 field placements to complement their academic goals and gain practical and academic experience. During the first term, students take a seminar-discussion course in conjunction with a minimum of thirty hours of field experience.

Public school field placements exist in kindergartens through twelfth grade in the Eugene, Springfield, and Bethel school districts and in the High School Equivalency Program.

Human-service field placements exist in more than 150 human-service or public agencies in Eugene, Springfield, and vicinity.

Leadership development experiences combine a community service project with observation of a community leader at work. Students choose from a variety of leaders in occupations ranging from politics or government to social service, social justice, and education.

Mentorship opportunities exist for student mentors to serve as role models and provide at-risk youth with positive recreational and educational experiences.

Outdoor education counseling placements are a unique experience in which students teach environmental awareness to elementary school children in a camp setting. Many camps offer outdoor-learning activities to youth with learning or developmental disabilities.

DeBusk Memorial Center
Philip McCullum, Director
(541) 346-1397
The Oregon School Study Council is an association of Oregon school districts working together on problems of common concern.

Organized in 1957, the council is supported jointly by the dues of its members and by the College of Education. It is administered by a governing board, composed of representative administrators and school board members, in cooperation with the executive director, who is appointed by the dean of the college.

Technology Education Center
Terry Kneen, Coordinator
(541) 346-1670
http://interact.uoregon.edu/tec
The Technology Education Center, an open computer lab for the College of Education, houses Macintosh and Windows-based microcomputers; general production software; scanners, laser printers, and multimedia production equipment. Computer projectors can be checked out for use in on-campus College of Education classes.

The center’s computers are networked to college servers, university mainframes, and the Internet. Students may access their e-mail accounts, use the library’s online resources, get instructional material placed on the network by their instructors, use statistical packages on the mainframes, and do their own production work. General computer consulting and training is provided. The center is open weekdays and some evening hours.
Counseling Psychology and Human Services

Area Head

CourtesY

Emeriti

Anita Runyan, associate professor emerita. B.S., 1956, Pacific Union; M.S., 1968, Ph.D., 1972, Oregon. (1972)

The date in parentheses at the end of each entry is the date of retirement.

About the Area

Programs in the Counseling Psychology and Human Services Area produce professionals in counseling psychology, family and human services, and marriage and family therapy. Professionals are trained to effectively and collaboratively identify, treat, and prevent a variety of problems in children, adolescents, and adults. Through education and training, students gain the skills to interpret and apply scientific information from the behavioral sciences in general, and from their discipline in particular, to professional practice. As an integral part of their education, students learn how to conduct research and contribute to the knowledge base of their disciplines.

Graduate Studies

The area offers master's degrees with a major in counseling, family, and human services and doctoral degrees with a major in counseling psychology. The program's faculty also provides a variety of courses to other College of Education and university programs. The doctoral program is the only counseling psychology program in Oregon that is accredited by the American Psychological Association, and it is recognized as acceptable for licensure by the Oregon Board of Psychologist Examiners.

Master's Degree

The counseling, family, and human services majors lead to a master of arts (M.A.) major in counseling, family, and human services and requires a minimum of 113 credits. The program provides students with a strong foundation in research design and statistics and a broad base of knowledge about and skills in prevention and intervention with individual children and adults, families, groups, and communities. Students may add courses to their program to meet counseling certification and licensure requirements. Some graduate courses taken at another accredited institution may meet part of the requirements.

Master of Arts or Master of Science

The program of study leading to an M.A. or M.S. degree in counseling, family, and human services requires a minimum of 113 credits. The program provides students with a strong foundation in research design and statistics and a broad base of knowledge about and skills in prevention and intervention with individual children and adults, families, groups, and communities. Students may add courses to their program to meet counseling certification and licensure requirements. Some graduate courses taken at another accredited institution may meet part of the requirements.

Psychological foundations .................................. 15
Research competencies .................................. 23
Practical skills ............................................. 39
Professional competencies ................................ 6
Elective courses and seminars .......................... 12
Internship .................................................. 18

Master of Education

Two specializations are available in the counseling, family, and human services major—family and human services and marriage and family therapy—leading to a master of education (M.Ed.) degree.

Family and Human Services

The program requires four terms of study and a minimum of 54 graduate credits. At least 36 of these credits are in courses with the CFHS or CPSY prefix. The program offers course work and practice-based training in skills needed to work as a human service professional with people. Course work includes foundation work in counseling, special education, research methods, public policy, and program management. The program does not lead to counseling licensure. Graduates are likely to work with a variety of populations in human and family service agencies in positions such as case managers, program managers, and paraprofessionals.

Requirements

Elective course or seminar ................................ 4

Marriage and Family Therapy

This two-year program trains students as professional family therapists in preparation for state licensure. The specialization offers intensive training that combines a strong theoretical base in systemic therapy with applied clinical experience. The clinical practicum and internship include 500 client contact hours (50 percent with couples or families) and 100 hours of individual and group supervision. The supervision involves live observation, participation in reflecting teams, video- and audiotaped sessions, and case review.

The marriage and family therapy program is approved as a candidacy status program with the Commission on Accreditation for Marriage and Family Therapy Education and approved by the Oregon Board of Licensed Professional Counselors and Therapists.

Requirements

73 credits

Professional ethics ......................................... 4
Clinical practice ........................................... 32

Application and Admission. Detailed admission policies and procedures for the marriage and family therapy specialization are available in the area office. Students are admitted only for fall term, and completed applications must be received by March 1 for the following fall term. Only completed applications are reviewed for admission. Applicants are evaluated on (1) quality of work; (2) Graduate Record Examinations (GRE) or Miller Analogies Test (MAT) scores; (3) related work, background, or experience; (4) resume with statement of purpose, (5) three letters of recommendation, and (6) an interview. Disposition of applications are mailed by April 15.

Doctoral Degree

The Ph.D. program in counseling psychology is designed to achieve the competencies established by the American Psychological Association. It
typically requires five to six years of study beyond the bachelor's degree. This period includes a one-year, full-time, supervised predoctoral internship. Students must complete a Ph.D. dissertation that demonstrates a high standard of scholarship. Students may enter the program with a bachelor's or a master's degree.

The program follows an ecological model of training embedded in the scientist-practitioner tradition. As such, the program trains psychologists to work with individuals and groups within their contexts. Students learn to consider human behavior as interactive processes rather than centered within the individual, and they learn to use preventive as well as remedial intervention strategies for behavioral and emotional problems. Students learn science-based counseling interventions for assessing and intervening in the many levels of context in which human problems emerge. These include learning assessment and intervention strategies designed to increase understanding and effect change at the individual, familial, school, and community levels.

Students participate in integrated classroom, practicum, and fieldwork activities in research, prevention, and intervention with children and adults, families, groups, and communities. The doctoral program prepares psychologists who can make a significant contribution to the field through scholarly research and professional practice. Training experiences may be obtained on campus at the DeBusk Memorial Center, a training and research clinic; university research institutes; the UO Counseling Center; agencies in the community; or nonprofit research institutions.

Required course work includes a three- to four-term sequence of doctoral-level statistics and at least four additional courses in research design, measurement, and grant development. Every doctoral student must complete a dissertation—earning 24 credits in Dissertation (CPSY 603)—that demonstrates the ability to conduct independent, original research.

Graduates are prepared to work in community mental health centers, research institutions, institutions of higher education, medical settings, managed health-care organizations, community college and university counseling centers, juvenile corrections agencies, human resources departments in business, and career counseling agencies.

The following objectives have been specified to ensure that graduates are prepared for the challenges in their careers as psychologists. Graduates of the program:

1. Possess a general knowledge of human behavior and the observational and information-processing skills that facilitate the description, explanation, and prediction of behaviors.
2. Are competent in the design, implementation, and evaluation of procedures for facilitating the change process and the growth of individuals, children, families, groups, and organizational systems.
3. Are knowledgeable of the developmental and intervention sciences with respect to a. Scientific methods in psychology relevant to conducting original research. b. Familiarity with science-based findings that define the best practices of a domain of expertise in counseling psychology.

4. Respect the dignity and worth of the individual, strive for the preservation and protection of human rights, and do so with concern for the best interests of clients, colleagues, students, research participants, and society.

**Ph.D. Degree Requirements 175 credits**

- Psychological foundations ........................................... 27
- Research competencies ............................................. 51
- Practitioner competencies .......................................... 69
- Professional competencies .......................................... 9
- Elective seminars ..................................................... 9

The M.Ed. and D.Ed. programs in counseling psychology are inactive.

**Application and Admission**

Prospective applicants may request detailed admission policies and procedures from the area office. Students are admitted for fall term only. The closing date for receipt of completed applications is January 15 for entry the following fall term. Notices about the disposition of applications are mailed by March 15.

Applicants are evaluated on (1) academic record, (2) Graduate Record Examinations (GRE) general test scores, (3) related work, research, and life experiences, (4) a statement of purpose in seeking admission, (5) letters of recommendation, and (6) an interview. Only completed applications are reviewed. Applicants must gather the requested supporting papers and submit them with the application forms as one package.

Graduate training includes practicum and internship placements in which students work with children and adults, families, groups, and communities. These interactions and interventions demand that the student be stable and psychologically healthy. Thus admission into and retention in the program depends, among other things, on consideration of the applicant’s past and present behavior and emotional stability.

**Counseling Psychology Courses (CPSY)**

198 Workshop: [Topic] (1–2R)  
199 Special Studies: [Topic] (1–5R) Career alternatives. Emphasis on career decisions and self-awareness, social and psychological characteristics of work, nonwork activities, and the importance of work to lifestyle.

572 Professional Ethics (3) Ethical and legal concerns in the professional practice of psychology.

Ethical theory and decision-making processes; legal aspects of client-counselor relationships.

613 Introduction to Counseling Psychology (3) Historical foundations of counseling psychology. Major theories and theorists. Counseling as an ecological and context-sensitive interactive process. Settings and roles of the profession.

615 Counseling Diverse Populations (3) Influence of gender, race, ethnicity, and other factors related to diverse populations on the identity-formation process in contemporary society. Applications to counseling psychology.

617 Theories of Career Development (3) Addresses life-span career development including issues, concepts, and definitions; theories of career development and choice; work and leisure; appraisal; and special groups (e.g., women, people of color).

621 Psychological Assessment I (4) Survey of assessment instruments used in counseling. Focuses on career, interest, intelligence, environment, behavior, and personality. Emphasizes issues related to ethical use of assessment. Includes laboratory.

622 Psychological Assessment II (4) Selection and administration of instruments and procedures for generating personality and career assessment reports. Emphasizes the integration of assessment into the intervention planning process. Includes laboratory. Prereq: CPSY 621.

641 Beginning Counseling Skills (4) Emphasizes experiential learning of a broad range of communication skills needed to form effective helping relationships. Covers client intake procedures and interviewing strategies. Includes laboratory. Prereq for nonmajors: instructor’s consent.

643 Community and Preventive Interventions (3) Research and practice in community intervention designed to prevent mental and physical health problems. Includes health promotion, work-site interventions, school and community prevention programs. Prereq: CPSY 642.

644 Group Counseling (4) Theory of and research about effectiveness of group therapy. Technical methods for leading psychotherapeutic groups; emphasis on generic models of interpersonal process in group therapy. Prereq for nonmajors: instructor’s consent.

651 Advanced Individual Counseling Intervention (3) Focuses on applying interpersonal process and problem-management approaches to individual counseling and psychotherapy; using assessment information in treatment planning. Prereq: CPSY 641.

652 Advanced Child-Family Intervention (3R) Provides advanced supervised training in implementing interventions with children and families. Includes intakes, assessments, brief interventions, and/or family therapy. Prereq: CPSY 642. R twice for maximum of 9 credits.

653 Advanced Community Preventive Intervention (3R) Provides advanced supervised training in implementing current community preventive intervention programs. Examines the latest interventions and their specific individual components. Combines didactic...
and experiential field studies. Prereq: CPSY 643. R twice for maximum of 9 credits.

Emeriti

Philip J. Runkel, professor emeritus. B.S., 1939, Wisconsin; Stevens Point; M.S., 1954, Ph.D., 1956, Michigan. (1964)
The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Area
Master’s and doctoral degrees in the Educational Leadership Area focus on the process for development, implementation, and generation of outcomes in the organization and management of K–12 and postsecondary education. The area also grants master’s degrees as part of the integrated teaching specialization of the educational studies major and as an option for students in the middle-school licensure program who do not already have a master’s degree.

Programs provide educational leaders, policy makers, and researchers the skills needed to design and implement strategies that improve practice and outcomes in educational organizations. Graduates of the area are qualified for a variety of positions such as principals and superintendents; supervisory positions; specialists in technology and curriculum; teaching and administrative positions in middle and secondary schools and at the college level (community colleges, four-year colleges, research universities, and international agents); consulting positions with school districts; research positions in management, leadership, educational policy, and teaching and teacher education; and international education and development.

Graduate Studies
The area offers master of science (M.S.), master of arts (M.A.), master of education (M.Ed.), doctor of education (D.Ed.) and doctor of philosophy (Ph.D.) degrees with a major in educational leadership.

Master’s Degrees
The educational leadership majors has three areas of emphasis—K–12 programs, higher education, and athletic administration—in five specializations.

Specializations
Policy, Organization, and Management. This specialization addresses legal, political, economic, and cultural derivatives of state and local policies; the structures and hierarchies of organizations; and the systems used in managing human and financial capital.
Learning Assessment and Systems Performance. The focus in this specialization is using student learning outcomes to provide professional development and improve the performance of systems of the organization.

Higher Education. The focus is educational programs in four-year institutions of higher education and their policy, governance, and management from national and international perspectives.

Middle-Secondary Education. This specialization is described under Teacher Education.

Integrated Teaching. This specialization is described under Teacher Education.

During the first term of graduate work, each student plans a program of study with the assistance of the student's adviser. Students who want specializations in middle-secondary or integrated teaching may add an initial or continuing teaching license and endorsements to the master's degree by taking additional course work and field experiences.

In collaboration with the UO Continuation Center, a master of science degree program with a specialization in instructional leadership is offered in several cities in Western Canada.

Students should consult the Graduate School section of this catalog for general university admission and degree requirements.

Doctoral Degrees
The Educational Leadership Area offers two doctoral degrees: a D.Ed. and a Ph.D. The D.Ed. program, which emphasizes the development of expertise in professional practice, is intended for individuals who want careers as administrators, staff developers, curriculum specialists, or professors specializing in the preparation of educators.

The Ph.D. degree program emphasizes the development of expertise in educational research, in educational organizations, or as professors of education with a specialization in research.

Both doctoral degree programs attract a diverse group of United States and international students. The programs share several distinctive features:

1. Students can add depth and breadth to their program by taking courses in other departments of the College of Education and throughout the university.

2. Internships are offered in the college's research institutes and teacher and administrator preparation programs as well as in various community settings.

Doctoral candidates select a specialization in learning assessment and system performance or in policy, management, and organization with an emphasis in K-12 programs, higher education, or athletic administration. With the guidance of a faculty adviser, each student plans a program that includes course work in the specialization.

The doctoral programs follow the general regulations governing graduate work at the university. These regulations are stated in the Graduate School section of this catalog.

D.Ed. Degree Requirements
A minimum of 135 graduate credits are required for the D.Ed. degree. Of these, at least 72 credits must be earned after admission to the program; 18 of these 72 credits must be taken in Dissertation (603). The other 54 credits include courses in the selected field of specialization, courses in research methodology, electives, and—to develop knowledge and skills in professional practice and college teaching—internships and graduate teaching assistantships.

Students must pass comprehensive examinations and complete a dissertation, which involves the use of existing research and knowledge to directly inform or improve professional practice.

Residency. The residency requirement is fulfilled by (1) three consecutive terms of full-time study on campus or (2) three consecutive terms of full-time study on campus using the Wednesday or Friday-Weekend option. If not used as a term of residence, summer session has no effect on consecutive-term requirements. Registration for 9 credits a term constitutes full-time study.

Ph.D. Degree Requirements
Candidates for the Ph.D. degree must earn
1. 135 credits for those who have only a bachelor's degree; 90 credits for those with a master's degree
2. 30 credits in the student's chosen specialization
3. A minimum of 12 credits in disciplinary or interdisciplinary cognate fields outside the College of Education. Examples of cognate fields are economics, political science, sociology, anthropology, and public policy
4. 18 credits of research, including four courses in two methodologies

Internships, graduate research assistantships, and graduate teaching fellowships are designed to develop knowledge and skills in formulating and conducting research, writing research reports, and teaching at the college level.

Students must pass comprehensive examinations and complete a dissertation that is informed by theory and research and that makes a substantial contribution to the research literature on the problem selected for investigation.

Residency. The residency requirement is fulfilled by six consecutive terms of full-time study on campus, which can be partially met by attending classes using the Wednesday or Friday-Weekend options. If not used as a term of residence, summer session has no effect on consecutive-term requirements. Registration for 9 credits a term constitutes full-time study.

Application and Admission
The area follows general university policy in its admission procedures. Students who transfer to the university from other institutions must meet UO entrance requirements. Information about licensure and degree programs may be obtained from the director of graduate studies.

Licensure Programs
Administrator Licensure Program
Nancy L. Golden, Director
(541) 346-5185
Administrator Licensure Programs, College of Education, 5267 University of Oregon, Eugene OR 97403-5267

Oregon requires administrators in public schools (vice principals, principals, assistant superintendents, superintendents, and other designated personnel) to hold administrative licenses. The University of Oregon offers planned programs of study leading to the initial and continuing licenses for administrators and superintendents.

Initial Administrator License
This twelve-month cohort program prepares students for the initial administrator license, issued by Teachers Standards and Practices Commission. The initial administrator license may be issued to an applicant who completes the 26-credit program and (1) has a master's degree from an accredited college or university approved to offer teacher education, (2) provides documentation of at least three years of successful licensed experience, (3) earns a score of at least 630 on the Praxis Examination of Educational Leadership. Admission to the program is limited and is based on the applicant's academic work, recommendations, writing sample, and professional goals. The program begins in June, and admission decisions are made in early spring. Candidates can earn a master of education (M.Ed.) degree at the UO by taking additional course work and completing a terminal project.

Continuing Administrator—Initial Superintendent Licensure Preparation
This program prepares students for continuing building and program administration—preprimary through grade twelve—and for initial school district superintendent assignments. Students who complete the UO basic or initial administrator licensure preparation programs are automatically admitted to the continuing administrator program. Application can be made to the program if the applicant completed a basic or initial administrator program at another institution. Applicants to the continuing program must (1) have a master's degree, (2) hold an Oregon basic or initial administrator license, and (3) submit a completed application. Students in the continuing administrator licensure program, if qualified, can be admitted to the doctor of education (D.Ed.) degree program.

Continuing Superintendent Licensure Program
Students who have completed the basic superintendent or continuing administrator program at the University of Oregon are automatically admitted to the continuing superintendent program. Application can be made to the program if the applicant completed a basic superintendent or continuing administrator program at another institution. Applicants to the continuing superintendent program must (1) have a master's degree, (2) hold an Oregon basic superintendent or continuing administrator license, and (3) submit a completed application. Students in the continuing superintendent licensure program, if qualified, can be admitted to the D.Ed. degree program. Applications and additional information about administrator licensure programs may be obtained from the director.

Continuing Teaching License Program
The Continuing Teaching License Program is described under Academic Support and Student
Educational Leadership (EDLD)

199 Special Studies: [Topic] (1–5R)
405 Reading and Conference: [Topic] (1–21R)
407/507 Seminar: [Topic] (1–4R) Seminar topics offered as student interest and faculty availability warrant.
408/508 Workshop: [Topic] (1–21R)
409 Practicum: [Topic] (1–21R)
410 Experimental Course: [Topic] (1–4R)
411/541 History of American Education (3)
Social, intellectual, and institutional trends; the evolution of formal education systems; how educators translate their beliefs about ethnic groups into educational policy and practice.
503 Thesis (1–16R)
601 Research: [Topic] (1–16R)
602 Supervised College Teaching (1–5R)
603 Dissertation (1–16R)
605 Reading and Conference: (1–16R)
606 Field Studies: [Topic] (1–16R)
608 Workshop: (1–16R)
609 Practicum: [Topic] (1–16R) Practicum for Interns is a current topic.
610 Experimental Course: [Topic] (1–5R)
612 School Improvement (3) Planning and managing improvement of educational environments. Models of school improvement. Research on effective practices. Skills for the management of the change process.
613 Introduction to School Organization (3) Not offered 2001–2.

614 Politics of Education (3) Analysis of the roles of federal, state, and local agencies in governing elementary and secondary schools; establishment of school policy.
615 Organizational Theory in Education (3) Structures, processes, and procedures that characterize formal organization of educational institutions; approaches to organizational analysis, organizational legitimation, regulation, integration, adaptation.
616 Sociology in Education (3) The social organization of educational institutions; emphasis on the impact of organizational needs and personnel characteristics on the social organization. Prereq: EDLD 615 or instructor’s consent.
617 Dissertation Proposal Preparation (3) Helps doctoral students develop dissertation proposals.
619 Adult Learning (3) Survey of adult education—purposes, programs, philosophy, methods, materials, agencies, organization.
620 Educational Leadership (3) Teaches leadership concepts through simulations and exercises. Covers group expectations, basic communication skills, participative decision-making, ethics, goal setting, power, and styles of influence.
622, 623, 624 Policy Research and Analysis I, II, III (3, 3, 3) 622: examines the social construction of knowledge, the philosophy of social science research, and the various ways of conducting research in education and the social sciences. 623: fundamentals of quantitative research including theory building, propositional inventories, research design and analysis, variables and hypotheses, and use of descriptive and inferential statistics. 624: focuses on qualitative approaches to policy research and research design; includes observations, interviews, focus groups, documents and records, and case studies. Not offered 2001–2.
625 Law and Schools (3) The role of law in education, the function of various levels and branches of government in the creation of education law, and types of law that regulate public education.
630 Comparative Education (3) Not offered 2001–2.
650 Administration of College Student Services (3) The role of student affairs in higher education; the relationship of student programs and services (e.g., financial aid, housing, health services) to the academic mission. Not offered 2001–2.
652 Administration of the Community College (3) Not offered 2001–2.
660 Qualitative Research Methods (3) Overview of qualitative and descriptive approaches in educational research. Emphasizes face-to-face interviews, focus groups, direct and participant observation, and document and artifact analysis.
670 Human Resource Management (3) Laboratory course in management skills such as managing time, building motivation, forming work groups, establishing trust, implementing change, and reaching agreement.
674 Program Evaluation for Educational Managers (3) A comprehensive survey of formative and summative evaluations of educational programs at schools and colleges.
675 School Finance (3) Overview of school finance concepts, Oregon's school financing system, political and legal considerations, taxation, state distribution formulas, school finance reform, the federal role in education.
676 School Facilities (2) Critical analysis and discussion of current trends in school facilities including planning, construction, finance, legal aspects, alternatives to deficit or surplus space problems or both.
678 School-Community Relations (2) Not offered 2001–2.
683 State and Local Policy Development in Education (2) Analysis of the social, economic, political, and technological forces that shape educational policy at the national, state, and local levels. Developing school district policies and assessing their consequences.
689 Economics of Education (3) Economic concepts and theories, especially human capital theory, pertaining to the economic drivers and derivatives of educational policies and their implications for economic development.
692 Higher Education: Governance and Organization (3) Survey through case studies, research, and literature of organizations, governance, and changing faculty and student roles. Considers issues of access, equity, accountability, and academic responsibility.
708 Workshop: [Topic] (1–16R)
709 Practicum: [Topic] (1–16R)
710 Experimental Course: [Topic] (1–5R)

Courtesies

Emeriti

V. Kneut Eapeseth, associate professor emeritus. B.S., 1955, North Dakota State Teachers; M.S., 1961, North Dakota; Ph.D., 1965, Wisconsin, Madison. (1964)

Kenneth Viegas, associate professor emeritus. B.S., 1956, Oregon; M.S.W., 1963, California, Berkeley. (1967)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

Special Education Minor

Kathleen Jungjohann, Coordinator

The special education minor is for students who plan to pursue a career in education, want to work in nonschool settings with individuals who have disabilities, or seek knowledge about people with special needs. The minor provides students with the knowledge, experiences, and expertise to make them competitive applicants to graduate teacher-education programs.

The minor requires completion of 24 credits in special education courses and approved electives. A core of 10 credits in required special education courses must be completed in addition to the 14 credits in approved electives.

Application and Admission. Before applying to the minor program, students must complete either Foundations of Disability I (SPED 411) or Introduction to Exceptionalities (SPED 430) with a grade of mid-B or better. Students apply to the department and are assigned a minor advisor, who helps plan a course of study. Applications are available in the special education office.

Requirements (24 credits)

</table>

Electives | 14 credits |
Students select courses from special education (SPED), communication disorders (CDS), and other areas related to special education (e.g., music in special education).

Graduate Studies

Special Education

Master’s and doctoral degrees are offered with a major in special education. Graduates find positions—in the United States and abroad—that include teaching children from birth to kindergarten and school-age and adult students, conducting individual and group intervention programs, managing residential living centers, coordinating in-service training programs, consulting with teachers about educating children with disabilities in general-education classrooms and school settings, conducting research, teaching in colleges and universities, working in the administration of special education programs, and delivering best practices in collaboration with a variety of professions in a range of settings. The master’s degree program prepares professionals to work as specialists and consultants in school...
programs that serve students with diverse learning needs (e.g., behavioral, academic, social). Students pursue the master’s degree to enhance their skills as special education teachers or consultants, to work in adult service programs for people with disabilities, or to fulfill a prerequisite for school administration programs or for the doctoral program.

The doctoral program in special education prepares individuals for research and teaching positions in higher education, research positions with private foundations, administrative positions in school districts and other state educational agencies, and consultation positions in professional education.

The licensure and endorsement programs prepare individuals to teach students with disabilities from birth to age twenty-one.

**Master’s Degree**

Students can work toward a master of arts (M.A.), master of science (M.S.), or master of education (M.Ed.) degree in several areas of special education. For the M.A. degree the candidate must demonstrate proficiency in a second language. For the M.Ed. degree the candidate must have a valid teaching license and have completed at least one year of successful classroom teaching.

The program of study leading to the master’s degree requires a minimum of 45 credits of graduate work. A minimum of 20 credits make up the required core including an optional 3-credit master's project or a 9-credit thesis. Additional electives, selected in consultation with a faculty adviser, allow the student to focus on an area of interest. Licensure or an endorsement can be earned concurrently with the master’s degree. Students can complete the master’s degree course of study in four to six consecutive terms.

**Doctoral Degree**

The department offers doctor of education (D.Ed.) and doctor of philosophy (Ph.D.) degrees. The doctoral degree program provides advanced training in preparation for leadership positions in special education. The program requires approximately 90 credits beyond the master’s degree and is designed for full-time students. Typically, students complete the program in three to four years. Financial assistance is available. The program uses a cohort model, which students begin fall term.

**Applications for Admission**

Applications for admission are available in the area office or by writing to the area. Students who are interested in more than one major offered by this area should indicate that on their admission applications, and their files will be reviewed by the relevant admission committees. Applications for summer session or fall term must be received by January 1 for doctoral candidates and by February 15 for master’s applicants.

**Early Intervention**

100 Clinical Services Building
(541)346-0807

The early intervention program is guided by a transactional philosophy that emphasizes the interactive nature of child–environment exchanges and the importance of these exchanges to a child’s developmental progress. This philosophy permeates the early intervention personnel preparation programs that include master’s and doctoral degrees as well as state-approved teaching licensure in Oregon.

Early intervention majors are offered a cohesive program of studies that balances classroom theory with field-based practice. The goal is to prepare a range of personnel who are experts in dealing with at-risk or disabled infants, toddlers, and preschool children and their families.

Graduates with master’s degrees can work as interventionists, program coordinators, or directors in a variety of community-based settings for young children and their families. Students who obtain early intervention teaching licensure are also eligible for public school-teaching positions.

Graduates with doctoral degrees can fill early-intervention leadership roles, including teaching positions in institutions of higher education or research positions in research centers or institutes.

**Master’s Degree**

The early intervention major leads to a master’s degree in early intervention. The major prepares professionals to work in programs that serve infants and children who are at risk and disabled and their families. Settings where graduates work include community-based childcare programs, public schools, family welfare programs, therapeutic nursery schools, and home visiting programs. The field encompasses a target population of children from birth to eight years of age and covers disabling and at-risk conditions ranging from mild to severe. Activity-based intervention and a family-guided approach to serving young children with special needs are emphasized. Full-time students can complete the program in four to six consecutive terms.

The master’s degree program requires core education courses, early-intervention core courses, and an associated field-based practicum. Students must also meet program competencies. Specific course and practicum requirements are available from the area academic secretary.

**Doctoral Degree**

The early intervention program leading to a Ph.D. provides advanced training and preparation for four leadership roles: program developer and evaluator, policy developer and evaluator, instruc- tor in higher education, and applied researcher. The program requires 130 credits of course work and practicum, including a minimum of 18 credits in College of Education core research courses. Students typically complete the program in three to four years. Financial assistance is available.

**Application and Admission**

Applications for admission are available from the area’s academic secretary or by writing to the Special Education Area. Completed applications for fall term are due by February 1 for students seeking doctoral degrees and by February 15 for those seeking master’s degrees. Applicants are evaluated on the completeness and appearance of their application files, previous academic records, experience with young children, career goals, and letters of recommendation.

**School Psychology**

The nationally ranked school psychology program offers master’s and doctoral degrees and provides service courses to other College of Education and university programs. The doctoral program is accredited by the American Psychological Association and approved by the National Association of School Psychologists and the Oregon Teacher Standards and Practices Commission.

The program prepares problem-solving psychologists who can identify, assess, and remedy social and educational problems of children and adults. Students are trained to be scientists and practitioners who produce continuous, data-based evaluations of the services they provide.

Each student’s program of study is tailored to allow development of individual strengths and interests. Master’s and doctoral students take course work in the following general areas: psychological and educational foundations of school psychology; psychometrics, assessment, and research; methods of school-based intervention; professional school psychology; application of research skills; practicum experiences. Every student must complete a one-year, full-time internship. Doctoral students also complete a supervised college teaching experience.

Graduates of the school psychology program find positions in the United States and abroad. These positions include teaching at, preschool, school-age, and adult levels; conducting individual and group intervention programs; coordinating in-service training programs; consulting with teachers about educating children with disabilities in regular classrooms and school settings; conducting research teaching in colleges and universities; working in the administration of special education programs; and delivering the best practice in collaboration with a variety of professions in a range of settings.

**Master’s Degree**

The 103-credit master’s degree program leads to a master of arts, master of science, or master of education degree in school psychology. The program is designed to achieve the competencies established by the National Association of School Psychologists. Graduates of the program meet state of Oregon licensure requirements. Completion of the degree typically takes three years—two years to fulfill core course and requirement requirements and one year to complete the full-time supervised internship. Students interested in obtaining an Oregon school psychologist license may complete the licensure requirements concurrently with the master’s degree requirements.

Special Education
The Special Education Area offers initial and continuing endorsements with options for an add-on (level I) endorsement or a stand-alone (level II) endorsement. The early intervention special education (EI) endorsement program prepares professionals to work with children from birth through age eight who have disabilities ranging from mild to severe. The program integrates didactic course work with practical experience. Full-time students can complete the program in four to six terms. The program can be completed as a 22-credit add-on endorsement (EI I) to an elementary or special education license or as a stand-alone endorsement (EI II).

Special Educator—Early Childhood—Elementary Licensure or Endorsement

Kathleen Jungjohann, Coordinator
(541) 346-1643

The endorsement and licensure program prepares special educators to work with students who have a variety of diagnostic labels (e.g., learning disabilities, at risk, behavior disorders, developmental disabilities, autism) in elementary schools. The program integrates theory and practice by synthesizing educational models from the research literature with empirically proven procedures.

Program goals are met through course work and field experiences organized around a set of roles and tasks that reflect the range and variety of disabilities and provide a framework for students to link university-based work to school-based work. The immediate application of learning in an applied setting allows students to refine and improve their skills in real contexts. Many of the classrooms used for practicum assignments participate in a variety of departmental research, innovation, and continuing professional development activities.

Students complete the program as a 48-credit add-on endorsement to an existing elementary or early intervention teaching license or as a 65-credit program that leads to an initial teaching license. Students can combine the program with a master's degree with the addition of at least 6 credits in required course work. Full-time students can complete the program in four to six terms.

Special Educator—Middle—High School Licensure or Endorsement

Cynthia M. Herr, Coordinator
(541) 346-1410

This licensure-endorsement program prepares teachers to work with the full range of disabilities in middle and high school settings. The program provides students with the knowledge, values, and skills they need to implement a broad-based approach to helping youth with disabilities succeed in middle and high school settings and to be better prepared for the transition from school to work opportunities and postsecondary education. The program emphasizes self-determination, skilled teaching, technology, and contextual learning as keys for helping youth achieve high levels of academic and occupational excellence. Students in this program take several courses with other university students who are preparing to be general secondary education teachers. This cross-disciplinary training provides opportunities for learning about the teaching partnerships necessary to help all youth succeed. The field-based experiences take place in middle and high schools that have diverse student groups, teaching styles, and organizational formats. Participants can take advantage of many other learning opportunities at the university (e.g., grants and research activities of faculty members) and surrounding community (e.g., local public and nonprofit service agencies and community businesses that work in partnership with local schools).

Admissions and Application

Applicants must meet general university requirements for graduate admission including a bachelor's degree and 3.00 grade point average (GPA). In addition, applicants must submit a formal department application including a statement of professional goals and experience, résumé, letters of recommendation, transcripts, scores from the Graduate Record Examinations or Miller Analogies Test or a transcript with 6 graduate credits of mid-B or better in a relevant field. Applicants must submit passing scores for the California Basic Educational Skills Test (CBEST) and have experience working with special populations. Application and program information packets can be picked up or requested by telephone from the area office.

Special Education Courses (SPED)

198 Workshop: [Topic] (1–2R)
405 Reading and Conference: [Topic] (1–2R)
406 Special Problems: [Topic] (1–6R)
407/507 Seminar: [Topic] (1–5R) Topics include Behavior Disorder Issues, Identification and Assessment, Mental Retardation, Physical Disabilities.
408/508 Workshop: [Topic] (1–2R)
409 Practicum: [Topic] (1–2R) Recent topics include Special Education, Handicapped Learner I, Talented and Gifted.
410/510 Experimental Course: [Topic] (1–5R)
411/511 Foundations of Disability I (3) Categorical and cross-categorical survey of information about exceptional children and youths. Topics include history, etiology, identification, classification, legislation, alternate program delivery systems.
421/521 Special Education Reading Instruction (4) Instructional procedures for designing and delivering reading instruction to special education students. Includes emergent literacy, assessment, primary and intermediate decoding and comprehension strategies, and monitoring progress. Prereq: introductory special education course.
422/522 Special Education Mathematics Instruction (3) Systematic instruction of mathematics skills for students with disabilities: assessment, planning, curriculum modification, diagnosis and remediation of persistent error patterns, evaluation.
423/523 Reading and Writing in Content Areas (3) Focuses on reading and writing strategies for low-performing students in general education curriculum. Identifies key ideas of content-area subjects such as social studies, science, and health. Prereq: SPED 421/521.
426/526 Behavior and Classroom Management (4) Provides behavior management procedures for a variety of educational environments. Emphasizes functional assessment-based behavior.
support planning, classroom management, and principles of applied behavior analysis.

427/527 Classroom Assessment Procedures
(3) Focuses on analyzing and evaluating assessment and testing practices in the classroom, documenting student skills and knowledge, and interpreting program outcomes.

430/530 Introduction to Exceptionalities
(3) Examines issues related to disability and services available in schools and in the community for individuals and families.

431/531 Introduction to Learning Disabilities
(3) Introduces major topics, issues, and trends in learning disabilities. Addresses the history, definitions, etiologies, theories, characteristics, instructional interventions, and service-delivery models.

432/532 Introduction to Behavioral Disorders
(3) Introduces the characteristics and education of children and youth who have emotional and behavioral disorders. Prereq: SPED 411/511.

433/533 Schoolwide Discipline
(3). Describes features, principles, and procedures of schoolwide management and discipline. Prereq: SPED 426/526.

434/534 Educating Students with Behavioral Disorders
(3) Provides overview of promising and preferred practices for educating children and youth who have emotional and behavioral disorders. Prereq: SPED 426/526; SPED 411/511 or 430/530.

436/536 Advanced Behavior and Classroom Management
(3) Emphasizes functional assessment-based behavior support planning, individual education plans (IEPs), and effective behavior support systems for a variety of educational environments. Prereq: SPED 426/526.

470/570 Introduction to the Talented and Gifted
(3) Major theoretical and research literature pertaining to talented and gifted students.

471/571 Underachieving Gifted Children
(3) Definition, identification, causes, and dynamics of underachievement; alternative education programs and programming.

480/580 Providing Student Supports I
(3) Activities and content emphasize supports needed by all learners. Focuses on provision of three kinds of support: behavioral and emotional, communicational, and medical.

488/588 Professional Practices
(1–3R) Helps students critically assess their field work and to integrate field work and course work in the wider context of the school experience. Coreq: practicum or field experience.

503 Thesis
(1–9R)

601 Research: [Topic] (1–6R)

602 Supervised College Teaching
(1–9R)

603 Dissertation
(1–16R)

605 Reading and Conference: [Topic] (1–16R)

606 Field Studies: [Topic] (1–6R)

607 Seminar: [Topic] (1–5R) Recent topics include Behavior Disorders: Doctoral Pedagogical Foundations; Doctoral Research Foundations; Doctoral Special Education Issues; Supervision I, II, III.

608 Workshop: [Topic] (1–10R)

609 Practicum: [Topic] (1–16R) Topics include Classroom Consultation; College Teaching: Research, Secondary I, II, III; Supervision.

610 Experimental Course: [Topic] (1–5R)

628 Law and Special Education
(3) Knowledge of current case law and legislation, sensitivity to legal issues, application to legal principles related to special education services in school settings.

632 Collaborative Educational Planning
(3) Collaborating to (1) identify unique needs of individuals with disabilities and establish legally correct, educationally useful individualized education programs (IEPs), and (2) use knowledge of effective interventions to meet needs. Prereq: SPED 628 or equivalent.

655 Supervised Field Experience
(5–12R) Provides practical experience in teaching students with disabilities in a public-school setting under the direction of cooperating teachers and university supervisors.

660 Design of Instruction

662 Foundations of Disability II
(3) Overview of special education and disability-studies issues; social construction of disability, personal and family experiences and perspectives; service systems that support individuals with disabilities. Prereq: SPED 411/511.

664 Multi-Method Inquiry in Education
(4) Systematic inquiry to generate information that allows effective professional decision-making. Collaborative investigation of a problem of practice.

665 Qualitative Research in Education I
(3) Focuses on the knowledge tradition of interpretive inquiry and qualitative methods as applied to educational research. Performance of qualitative research study.

666 Qualitative Research in Education II
(3) Focuses on applying qualitative research methods to special education and disability studies. Prereq: SPED 665.

667 Single-Subject Research Methods I
(3) Basic strategies used in applied special education research. Emphasis on critically analyzing research reports as consumers and on designing, conducting, and reporting research.

668 Single-Subject Research Methods II
(3) Covers general methodological concerns regarding the use of single-subject designs. Provides information on the implementation and evaluation of specific design strategies. Prereq: SPED 667.

675 Law, Policy, and Bureaucracy in Special Education and Rehabilitation Services
(3) Provides information and develops strategies to advocate for improved school and adult services through a better understanding of laws, policies, and bureaucratic processes.

693 Planning and Quality-Assurance Systems in Rehabilitation Services
(3) Presents the development of accomplishment-based organizational structures, management and information systems, and quality-assurance systems for agencies involved in transition from school to adult services.

694 Employment Services
(3) Vocational habilitation of adolescents and adults with severe disabilities. Developing, training, and supporting employment options. The current status of vocational services. Supported employment alternatives.

695 Residential Support Issues
(3) Provides an introduction to residential services in the United States and the specific skills needed to operate, evaluate, and manage exemplary support systems.

696 Management of Nonprofit Organizations in Rehabilitation Services
(3) Emphasizes the organization and management of community organizations; includes discussions of theory and issues related to managing nonprofit organizations.

699 Classroom Management and Program Improvement
(3) Noninstructional aspects of teacher responsibilities for students with severe disabilities. Topics include working with colleagues and classroom staff members, at school, home, and community.

706 Special Problems: [Topic] (1–6R) R when topic changes.

707 Seminar: [Topic] (1–5R)

708 Workshop: [Topic] (1–6R)

709 Practicum: [Topic] (1–6R)

**Early Intervention Courses (EINT)**

405 Reading and Conference: [Topic] (1–18R) R when topic changes.

503 Thesis
(1–9R)

601 Research (1–6R) Bricker.

602 Supervised College Teaching
(1–9R) Squires.

603 Dissertation
(1–16R)

605 Reading and Conference: [Topic] (1–16R) R when topic changes.

606 Field Studies
(1–6R)

608 Workshop: [Topic] (1–10R) R when topic changes.

610 Experimental Course: [Topic] (1–5R) R when topic changes.

625 Final Supervised Field Experience
(1–15R)

680 Foundations in Early Childhood and Early Intervention
(3) Conceptual underpinnings and practical application of an approach to early intervention that links assessment, intervention, and evaluation.

681 Family-Guided Early Intervention
(3) Presents a family-guided approach to early intervention; covers procedures for family assessment, intervention, and evaluation. Addresses adult communication and management strategies.

682 Assessment and Evaluation
(3) Presents a range of assessment and evaluation materials used in early intervention programs and provides methods for using these materials.

683 Curriculum in Early Childhood and Early Intervention
(3) Presents a range of curricular materials covering the developmental range from birth to six years. Discusses procedures for use and for modification.

684 Issues in Early Intervention
(2) Presents an overview of the critical issues in the field of early intervention.
685 Interdisciplinary Teams (2) Occupational therapist, communication specialist, counselor, medical professional, and other professionals discuss their training, roles, and functions on an interdisciplinary team.

686 Interagency and Team Collaboration (2) Introduces concepts and skills required for becoming an effective team member. Provides relevant information and opportunities to gain practical experience.

687 Early Intervention Methods I (1-3) Provides practical information for conducting program-relevant assessments using curriculum-based assessment tools and for developing individualized family service plans.

688 Early Intervention Methods II (1-3) Provides opportunity to develop effective intervention skills to use with young children who are at risk or disabled, and with their families.

689 Early Intervention Methods III (1-2) Focuses on advanced methods in early intervention including special handling and management techniques.

690 Early Intervention Methods IV (1-2) Provides opportunity to develop advanced intervention skills to use with young children who are at risk or disabled, and with their families.

School Psychology Courses (SPSY)

405 Reading and Conference: [Topic] (1-21R)
406 Special Problems: [Topic] (1-21R)
407/507 Seminar: [Topic] (1-5R)
408/508 Workshop: [Topic] (1-21R)
409 Practicum: [Topic] (1-21R)
410/510 Experimental Course: [Topic] (1-5R)

605 Reading and Conference: [Topic] (1-16R)
606 Special Problems: [Topic] (1-16R)
607 Seminar: [Topic] (1-5R)
608 Workshop: [Topic] (1-16R)
609 Practicum: [Topic] (1-16R)
610 Experimental Course: [Topic] (1-5R)
617 Tests and Measurements in Education (3) Introduction to measurement. Provides a theoretical and practical basis for evaluating and using the wide range of test and measurement data in educational research. Prerequisite: undergraduate statistics or educational psychology course or equivalent.

618 Statistics in Education I (4) Covers descriptive statistics and elementary inferential statistics for examining the relationship between two quantitative or qualitative variables using selected computer applications. Prerequisite: SPSY 617.

619 Statistics in Education II (4) Covers between-subject and within-subject effects in analysis-of-variance designs using selected computer applications. Prerequisite: SPSY 618.

620 Research Design in Education (3) The validity of experimental and quasi-experimental designs is explored with a focus on the control and partitioning of variability. Prerequisite: SPSY 619.

626 Final Supervised Field Experience (1-15R) Prerequisite: instructor's consent. Limited to students in school psychology program for basic endorsement for an Oregon license.

628 Assessment of Infants and Preschoolers (3) Addresses issues related to developmental assessment of infants and young children; principles of assessment, guidelines for conducting assessments, and strategies and assessment tools. Prerequisite: SPSY 672.

629 History and Systems of Psychology (3) Reviews the foundations, procedures, and heuristics of historical and modern approaches to psychology. Other topics include women in psychology and relationships between science and practice.

650 Developmental Psychopathology (3) Overview of descriptive psychopathology in childhood. Covers phenomenology, etiology, development, and prognosis of major psychological disorders in childhood.

661 Principles and Practices in School Psychology (4) Theory, role, and function of school psychology in its relation to learning and the school setting.

671 Behavioral Assessment (4) Principles, techniques, and conceptual and practical issues in behavioral assessment; applied aspects include data gathering and interpretation as well as report writing.

672 Intellectual Assessment: Theory and Practice (5) Covers individual assessment of learning aptitude. Includes administering, scoring, and interpreting intelligence tests as well as report writing. Reviews theories of intelligence. Prerequisite: SPSY 617, 661, 671, 674 and instructor's consent.

673 Functional Assessment: Low-Incidence Populations (4) Content and methods of educational and behavioral assessment procedures to support the education of students with low-incidence disabilities and those at risk for developmental delays. Prerequisite: SPSY 672.

674 Educational Assessment (4) Methods of educational assessment designed to develop and evaluate instructional interventions; topics include systematic observations, curriculum-based assessment, and teacher interviews.

681 Instructional Consultation (4) Theory and practice in consultation in school settings with emphasis on instructional issues in mainstream and special education classrooms; students complete case studies in schools.

682 Behavioral Consultation (3) Use of behavioral-change strategies and the delivery of these services via a consultation model. Students conduct behavioral consultation with school personnel. Prerequisite: knowledge of the principles of applied behavior analysis.

704 Internship: [Topic] (1-15R)
706 Special Problems: [Topic] (1-16R)
709 Practicum: [Topic] (1-16R)

Speech, Language, and Hearing Sciences

Faculty

Emeriti

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

Undergraduate Studies

The undergraduate program includes courses in basic processes of speech, language, and hearing as well as courses that survey the various speech, language, and hearing disorders that affect communication across the life span. The undergraduate program prepares students for graduate training in communication disorders and sciences or audiology. It also prepares students to work in other fields where knowledge of speech, language, and communication is important.

Students can earn either a bachelor of science (B.S.) or bachelor of arts (B.A.) degree. Both degrees require approximately 45 credits of course work in communication disorders and sciences.

The goals of the program are to provide students opportunities to learn about:
The graduate program offers master's and doctoral degrees in communication disorders and sciences. The master's program offers all of the courses and clinical experiences required for the American Speech-Language-Hearing Association Certification (ASHA). The doctoral program emphasizes advanced scholarship in a specialized area of speech-language pathology.

**Graduate Studies**

The graduate program offers master's and doctoral degrees in communication disorders and sciences. The master's program offers all of the courses and clinical experiences required for the American Speech-Language-Hearing Association Certification (ASHA). The doctoral program emphasizes advanced scholarship in a specialized area of speech-language pathology.

**Accreditation.** The master's degree program in speech-language pathology is accredited by the American Speech-Language-Hearing Association (ASHA).

**Master's Degree**

The master's degree program provides students with the opportunity to acquire and apply knowledge, skills, and competencies necessary for work with individuals of all ages and of varying social, cultural, linguistic, and socioeconomic backgrounds.

The communication disorders and sciences major leads to a master of arts (M.A.) or master of science (M.S.) degree. The M.A. requires the equivalent of two years of a second language. A planned program for the master's degree must be filed with the area secretary.

Students who have fulfilled the undergraduate prerequisites typically spend two fall-through-spring academic years and one summer session completing the degree. All work applicable to a program of study must be concluded within seven years. A minimum cumulative GPA of 3.00 is required for graduation.

The master of education (M.Ed.) program in communication disorders and sciences is inactive.

**Application and Admission**

The number of students admitted each year varies according to available resources. On the average, the Speech, Language, and Hearing Sciences Area admits twenty-five master's degree applicants each year. Students for whom English is not a native language must pass the Test of English as a Foreign Language (TOEFL) with a score of 600 or above or the paper version or a score of 250 or above for the computer version. International students who plan to participate in clinical practicums and work toward national certification by the American Speech-Language-Hearing Association must pass the Speaking Proficiency Assessment (SPEAK) test with a score of 250. Applications for admission and program brochures with more detailed information are available from the Speech, Language, and Hearing Sciences Area. Application materials must be received by February 15 for entry the following September.

**Master's Degree and ASHA Certification Requirements**

**Master's Degree Requirements**

Choose one from Special Education Reading Instruction (SPED 521), Reading and Writing in Content Areas (SPED 523), Design of Instruction (SPED 660) .......................................................... 3

Seminars: Final Supervised Field Experience (CDS 607), Law and Governance (EDLD 607) Practicum: Intervention (CDS 609) .................................................. 3

Choose one from Research (CDS 601), Statistics in Education I (SPSY 616), Multi-Method Inquiry in Education (SPED 664) .......................... 4

Beginning Counseling Skills (CPSY 641) .............. 4

**ASHA Certification Requirements**

Theory and Remediation of Articulation and Phonology (CDS 692) ........................................ 3

Later Language Development (CDS 653) .............. 3

Theory and Remediation of Language Disorders in Adults (CDS 654) ...................................... 3

Stuttering (CDS 655) ........................................ 3

Voice Science and Disorders (CDS 656) .............. 3

Theory and Remediation in Language Disorders in Youth (CDS 659) ..................................... 3

Motor Speech Disorders (CDS 660) ...................... 3

Introduction to Neuroanatomy and Neurophysiology (CDS 662) ........................................ 4

Management of Acquired Cognitive Impairments (CDS 663) ............................................ 3

Service Delivery in Medical Settings (CDS 664) .......................... 4

Early Language Disorders: Assessment Intervention (CDS 665) ........................................ 4

Course in feeding and swallowing ........................ 4

Course in management of dementia ........................ 4

**Professional Course Work**

Of the 36 credits, 30 must be taken at the graduate level.

**Communication Disorders.** Choose from CDS 552, CDS 654, CDS 655, CDS 656, CDS 659, CDS 660, CDS 663, CDS 664, CDS 665 to total ............................................... 24

**Audiology.** Choose from Fundamentals of Audiology (CDS 557), Audiological Assessment (CDS 558), Audiological Rehabilitation to total ............................................... 6

**Practicum.** Practicum: Intervention (CDS 609) .................................................. 6

**Doctoral Degree**

A list of curriculum requirements is available from the area's graduate secretary.

The doctoral degree (Ph.D.) in communication disorders and sciences emphasizes advanced knowledge, scholarship, leadership, and clinical competence in the areas of speech-language acquisition, speech-language pathology, and assessment and intervention strategies. The doctoral degree program is designed to meet the needs of students from various backgrounds.

The doctor of education (D.Ed.) degree program is inactive.

**Degree Requirements**

A total of 78 credits are required beyond the master's degree. This includes the 18 credits taken as part of dissertation research. A minimum of 21 credits are taken in the student's area of specialization (e.g., child or adult language disorders). At least 18 credits must be taken in communication disorders and sciences courses. At least 9 credits are required in a collateral area—a combination of courses that have a substantive commonality—that may involve courses in more than one academic department.
At least 18 credits must be completed in research design, statistics, and measurement. Required course work in this area includes a three-term sequence of doctoral-level statistics, and at least three additional courses in research design, measurement, or grant development.

At least 3 credits are completed as part of a predissertation research project. Doctoral students must conduct a research project under the direction of an area faculty member before beginning the dissertation.

At least 9 credits is completed in Practicum: Supervision or classroom instruction.

Candidates must pass a comprehensive examination that consists of (1) three preliminary papers, (2) a sixteen-hour written examination, and (3) an oral examination. The three preliminary papers must be completed before taking the written exam.

When students have successfully completed all the academic requirements and the comprehensive examination, they are advanced to candidacy and can begin work on the dissertation.

**Summary of Requirements**

**Application and Admission**

Students should have a GPA of at least 3.50 and a GRE score of at least 1,000 (combined quantitative and verbal scores). Applicants are reviewed by the admissions committee, and those with lower scores are considered if other supporting evidence (letters of recommendation, research, or work experience) is outstanding.

Applicants submit three letters of recommendation from individuals familiar with the applicant’s academic background and aptitude for doctoral work in speech-language pathology. The letters should specify in detail the applicant’s capabilities for doctoral study. Applicants also submit a résumé or vita describing their educational and work experience and a letter describing research interests and professional goals. In addition, applicants must have an interview with UO faculty members in the student’s area of specialization.

Most applicants have a master’s degree and their certificate of clinical competence upon admission, but this is not a requirement.

Upon admission and in consultation with the student, an academic adviser is selected, taking into account the student’s personal and professional goals. This adviser chairs the student’s advisory committee.

**Licensure Program**

Students seeking an Oregon teaching license in communication disorders must have

1. Undergraduate degree or equivalent in communication disorders and sciences
2. Formal admission to the master’s degree program in communication disorders and sciences
3. Passing scores on

a. Preprofessional Skills Test (PPST) or California Basic Educational Skills Test (CBEST)
b. National Teachers Examination (NTE) Professional Knowledge Test
c. Educational Testing Service (ETS) Praxis Examination in Speech-Language Pathology

4. Approved program leading to Teacher Standards and Practices Commission (TSPC) license. The approved program at the UO consists of a minimum of 63 credits in communication disorders and sciences course work, culminating in licensure and a master’s degree in CDS

The TSPC may have additional requirements that must be completed before a teaching license is issued. Direct questions about the licensure process to the academic support and student services office.

**Continuing Teaching License Program**

The Continuing Teaching License Program is described under Academic Support and Student Services in the College of Education section of this catalog.

Faculty

Emeriti

Thomas L. Dahle, professor emeritus. B.S., 1938, M.S., 1949, Wisconsin; Ph.D., 1954, Purdue. (1963)

William E. Lamon, associate professor emeritus. B.S., 1964, San Francisco; M.S., 1965, California State; Ph.D., 1968, California, Berkeley. (1972)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Area

Licensure and degree programs in the Teacher Education Area prepare professionals to work in education and other community-based human-services programs. The undergraduate major in educational studies has three specializations: educational foundations, family and human services, and integrated teaching. Each specialization leads to a bachelor of arts (B.A.), bachelor of science (B.S.) degree, or bachelor of education degree (B.Ed.).

The graduate major in educational leadership has three specializations—elementary education, integrated teaching, and middle-secondary education—each of which leads to a state-approved teaching license and a master of education (M.Ed.) degree. A program in English for speakers of other languages (ESOL) leads to a state-approved add-on endorsement for already licensed teachers.

Undergraduate Studies

Students who earn an educational studies major become professionals who work in community service agencies or licensed teachers with several endorsements. The major is preprofessional and is not intended as a terminal program. The major leads to a bachelor’s degree, but to be eligible for a teaching license, students must be accepted into and complete a yearlong graduate program. Programs of study for the undergraduate specializations are available in 170 Education Building and on the College of Education’s website.

Premajor Status

Students are considered premajors in educational studies until they are formally admitted to the major. Advising for premajors is available in the educational studies office and from College of Education peer advisers. During this phase of the program, students typically complete general-education course work, which provides the background for subsequent professional study and practice. Students must satisfy the university requirements described under Bachelor’s Degree Requirements in the Registration and Academic Policies section of this catalog.
Application and Admission

Enrollment is limited in the family and human services and integrated teaching specializations; students who meet minimum requirements are not guaranteed admission. Transfer students should talk with an educational studies adviser about the transfer process. Considered in the selection process are qualities such as unique work or service experience, demonstrated ability to work with diverse populations, interpersonal skills, and verbal and writing abilities. The admission committee can waive any of the admission requirements if there is other evidence of the applicant’s potential for success in either specialization.

Applications to the major must include
1. A College of Education application for the desired specialization of the educational studies major
2. Three letters of recommendation that address the student’s interpersonal skills, work experiences related to the specialization, and the potential to succeed in the chosen specialization
3. Official undergraduate transcripts of all college and university work

Specific admission requirements for each specialization are listed under the specialization.

Educational Foundations

The educational foundations specialization is designed for students who have completed two or more years of general studies, but who have not chosen a major or who want to change their major to education. Educational foundations accommodates part-time working students who can only manage two to three courses a term. Depending on completed upper-division coursework, students in this specialization choose a two-year plan of study or a three-year plan.

The specialization gives students a solid understanding of public school education and the factors that affect it such as history, politics, and societal problems. Students also develop an awareness of the foundations of teaching and learning that inform practices in a variety of professional areas including public school teaching, business, public policy, or other applied fields such as law, architecture, or journalism. Graduates can pursue a fifth year of study that results in an elementary, secondary, or special education teaching license.

The educational foundations specialization consists of a core of educational studies courses and a set of individualized career-path courses. The core courses provide majors with an understanding of educational theories and their applications to teaching and learning, human development and diversity, and educational research. Courses geared to the student's desired career may include work in elementary education, middle-secondary education, special education, or other education-related fields.

Application and Admission

Students seeking admission to the educational foundations specialization must submit a formal application to enter the program. Applications are accepted twice a year, in September and December, for admission the following fall or winter term. Applicants should have completed most of the university requirements except major and upper-division credit requirements with a minimum GPA of 2.00.

Applicants are interviewed by program faculty members as part of the admission process. If accepted into the program, students are assigned an adviser who helps plan the program of study.

Family and Human Services

The family and human services specialization is designed for students who want to help children, youth, and families learn effective ways to confront the problems in their lives. As part of this program, students gain a broad understanding of learning and development, intervention, professional communication, prevention, and agency policy and practices. This information is communicated in a combination of course work and field experiences in community service agencies.

Graduates find work as counselors, case managers, social workers, and entry-level professionals in early intervention, child-abuse prevention, youth services and probation, corrections, mental health, and drug and alcohol rehabilitation and treatment. Some pursue graduate studies in the areas of education, social work, family and human services, counseling psychology, and special education.

The family and human services specialization has an extended studies option for students who are returning to the university after a break from formal university study. Students who chose this option are typically employed full or part time or are actively involved in child rearing and can only manage two to three courses a term. Depending on completed upper-division coursework, students in this option choose a two-year plan of study or a three-year plan.

The family and human services specialization includes core courses in educational studies and professional studies coursework. In core courses students examine various theories of education and development and their applications to learning and intervention. In addition, they develop an awareness of strategies for working with people based on research and practice. Finally they learn to use evaluation information to make decisions about meeting clients’ and children’s needs.

Professional studies in the family and human services specialization include courses and field-based experiences in community service agencies. Students in this specialization enroll in several field studies during the junior and senior years and complete a project as part of their senior field studies.

Application and Admission

Students seeking admission to the family and human services specialization must submit a formal application to the program. The application deadline is January 13 for admission the following fall term. The application deadline for the extended studies option is in April for admission the following fall term.

At the time of application, students must have completed a minimum of 55 credits, with a cumulative GPA of 2.00. Completed course work must include the university writing requirement and 8 credits in each of the general-education groups (arts and letters, social science, and science). The premajor core must be completed with a cumulative GPA of 2.75.

Students seeking admission to the extended studies program must submit a synthesis paper that verifies a combination of course work, and volunteer and work experience that qualifies the student to waive part of the premajor core.

Applicants may be interviewed by program faculty members as part of the admission process. Students who apply in January are notified by mail of their admission status by the end of winter term. Students who apply to the extended studies program are informed about their admission status before the end of spring term.

Integrated Teaching

Through interdisciplinary experiences, the integrated teaching specialization broadly prepares educators who can serve the full range of students in elementary schools and who can deliver a diversified curriculum to accommodate individual differences.
The specialization culminates with a year of graduate study leading to a master of education (M.Ed.) degree with a major in educational leadership. Students who complete undergraduate studies in integrated teaching are formally reviewed for admission to the graduate program using a set of established criteria.

After completing the fifth year of study, graduates are recommended for a teaching license in early childhood-elementary education with an endorsement in early childhood-elementary special education. During the fifth year, students select an emphasis area, which may lead to another endorsement.

The specialization consists of core courses in educational studies and professional studies course work. In core courses, students examine various theories of education and development and their applications to learning and intervention. They develop an awareness of strategies for working with people based on research and best practice. Finally, they learn to use evaluation information to make decisions about meeting children's needs.

Professional studies in the integrated teaching specialization include course work and field-based experiences in the public schools. Majors enroll in practicums and full-time student teaching during the senior and graduate years of the program.

**Application and Admission**

Students seeking admission to the integrated teaching specialization must submit a formal application to the program. The application deadline is January 13 for admission the following fall term.

At the time of application, students must have completed a minimum of 55 credits, with a cumulative GPA of 2.00, including the university writing requirement and 8 credits in each of the three general-education groups (arts and letters, social science, and science). The premajor education core must be completed with a cumulative GPA of 2.75.

Applicants to the integrated teaching specialization must also submit:

1. Evidence of passing scores on all sections of the California Basic Educational Skills Test (CBEST) or the Pre-Professional Skills tests (PPST)
2. A completed PA-1 Character Questionnaire which asks about any prior convictions for felonies, misdemeanors, or major traffic violations.
Applicants may be interviewed by program faculty members as part of the admission process. Students who apply in January will be notified by the end of winter term of their admission status.

**Graduate Studies**

**Elementary Education**

The elementary education specialization leads to an M.Ed. degree, an initial teaching license in early childhood-elementary education, and endorsement in early childhood-elementary special education. Required course work focuses on studies in classroom management, child development, diversity, curriculum, assessment, instructional strategies and legal issues. Students must demonstrate professional knowledge and skills through class assignments, work samples, and supervised practicum and full-time student teaching.

The program is divided into two phases. The first phase encompasses five terms of full-time study and leads to an initial teaching license in early childhood-elementary education. Part-time students can complete this phase of the program in ten terms. The second phase focuses on completion of the requirements for the master's degree and for an endorsement in early childhood-elementary special education. Students are encouraged to gain teaching experience between the two phases of the program.

**Application and Admission**

Students must submit a formal application to the program. The application deadline is in March for admission the following summer session.

The elementary education specialization has limited enrollment; students who meet minimum requirements are not guaranteed admission. Considered in the selection process are GPA, test scores, evidence of strong academic skills, knowledge of and experience with elementary-age children, interest and potential for helping others to learn, evidence of strong written and oral communication skills, and ability to work well with others in a variety of roles.

A completed application must include:

1. A College of Education application for graduate elementary education specialization
2. A completed application for admission to Graduate School at the university
3. Three letters of recommendation that address the applicant's interpersonal skills, scholarship, experience with elementary-age children, and written, oral, and interpersonal communication
4. Official transcripts for all colleges and universities from which the applicant received a degree
5. Evidence of passing scores on two entrance tests: (a) the California Basic Educational Skills Test (CBEST) or the Pre-Professional Skills tests (PPST), and (b) the Multiple Subjects Assessment for Teachers (MSAT)
6. A completed PA-1 Character Questionnaire which asks about any prior convictions for felonies, misdemeanors, or major traffic violations.

Applicants for graduate studies in integrated teaching specialization must also submit an official application to the Graduate School and an application for admission to the fifth year of the integrated teaching specialization. The application must include the choice of an emphasis area. Applications are due at the end of winter term of the students' senior year. Depending on the emphasis area selected, students begin the final year of the program the following summer session or fall term.

**Middle-Secondary Education**

The Teacher Education Area offers an M.Ed. degree in educational leadership. The Oregon middle-secondary teaching license in
language arts, mathematics, science (biology, chemistry, integrated science, physics), second languages (French, German, Japanese, Latin, Russian, or Spanish), or social studies. A teaching license in music is available through the School of Music. This program is offered collaboratively with the Educational Leadership Area. Information about teaching-license eligibility or reciprocity in a particular state is available from the college’s academic support and student services office.

Students are admitted to the program during spring term. Course work begins during summer session and continues through the next spring term. During this time, licensure requirements are fulfilled, and the student is prepared for employment the following school year. Through partnerships with local middle and high schools, the program provides opportunities each term for site-based practical experience. The program culminates with a full term of supervised student teaching. Students who complete the program are qualified to teach in middle, junior, and senior high schools.

Final degree requirements are typically completed after licensure requirements are met.

**Application and Admission**

Applicants to the program should have (1) an undergraduate degree in one or more of the endorsement areas with a GPA of 3.00 or higher, (2) passing scores on the PPST, MSAT, and Praxis specialty tests, (3) an interest in working with youth, and (4) a strong commitment to education as a profession. The middle-secondary specialization has limited enrollment. It may not be possible to admit every applicant who meets basic admission criteria.

A completed application must include:

1. A College of Education application for middle-education specialization
2. A completed application for admission to the UO Graduate School
3. Three letters of recommendation that describe the applicant’s academic and experiential preparation
4. Official transcripts for all completed undergraduate and graduate course work
5. Completion of three entrance tests: (a) the California Basic Educational Skills Test (CBEST) or the Pre-Professional Skills tests (PPST), (b) the Multiple Subjects Assessment for Teachers (MSAT), (c) the PRAXIS test for area of specialization (e.g., English, biology, social studies)
6. A completed PA-1 Character Questionnaire which asks about any prior convictions for felonies, misdemeanors, or major traffic violations

Applicants may also be interviewed by program faculty members as part of the admission process. Applicants will be notified about their admission status before the end of spring term.

**English Speakers Other Languages (ESOL) Endorsement**

In addition to its initial licensure and degree programs, the Teacher Education Area offers add-on endorsements in ESOL and ESOL-bilingual education. These programs prepare educators to serve students who enter the public school system with a native language other than English. Course work and field experiences develop teachers’ (1) planning, delivery of, and assessing ESOL instruction; (2) knowledge of effective second-language program models; (3) ability to assess ESOL students’ language proficiency levels and needs; and (4) ability to serve as a resource to teachers of mainstream English-speaking classes to ensure successful transition of a child from a sheltered program to the mainstream program. Another goal of these endorsement programs is to prepare teachers to view the native culture of an ESOL student as a source of pride and enrichment rather than as a detriment to learning the English language.

Two endorsement options are available.

**Option I (22-23 credits)**

Option I leads to an ESOL add-on endorsement for in-service teachers or for newly licensed teachers who want to add this endorsement to their initial license.

**Option II (22-23 credits)**

Option II leads to a bilingual endorsement in addition to the ESOL endorsement. The bilingual endorsement cannot be earned without completing the ESL endorsement. The bilingual endorsement verifies that the teacher is proficient in a second language, as assessed by the American Council of Teachers of Foreign Languages (ACTFL) oral-proficiency test and the appropriate PRAXIS subject test. The ACTFL standard for the bilingual endorsement is the intermediate-to-high level of proficiency as administered by a certified ACTFL examiner. In either option, students must meet with the ESOL program coordinator when they begin the program.

**Admission.** The ESOL add-on endorsement and the ESOL-bilingual add-on endorsement are only available to teachers who hold a valid teaching license. Applicants who want to enter this program as postbaccalaureate or graduate students should see the continuing professional development coordinator in the academic support and student services office.

**Licensure**

The Teacher Education Area has redesigned its licensure programs to meet the new requirements of the Oregon Teacher Standards and Practices Commission. Initial licensure programs in this area include early childhood elementary education, elementary education, and middle-secondary education. Endorsements are available in ESOL and ESOL-bilingual education.

**Continuing Teaching License Program**

The Continuing Teaching License Program is described under Academic Support and Student Services in the College of Education section of this catalog.

Teacher Education

• 407/507 Seminar: [Topic] (1-5R)
• 408/508 Workshop: [Topic] (1-18R)
• 409 Practicum: [Topic] (1-18R)
• 410/510 Experimental Course: [Topic] (1-5R)

Educational Studies Courses (EDST)

111 Educational Issues and Problems (4)
Examination of specific issues and problems confronting educators. Compares and contrasts different approaches to the ways in which society defines and deals with educational issues and problems.

114 Communication Using Computers (4)
Introduction to information-age issues; communication among people and information sources; design, editing, and use of messages that are represented, stored, processed, and transmitted digitally.

196 Field Studies: [Topic] (1-2R)
198 Workshop: [Topic] (1-2R)
199 Special Studies: [Topic] (1-5R)
211 Historical Foundations of Education (4)

212 Foundations of Learning and Intervention (4)
Examination of the foundations of learning and intervention in a wide range of social systems including schools, families, and both commercial and social organizations.

213 Applications of Learning and Intervention (4)
Examination of the applications of learning and intervention in a range of educational and social systems including schools, families, and both commercial and social organizations.

311 Organizational Structures and Policymaking (4)

312 Introduction to Educational Research (4)
Use of research to inform practice in human-service professions. The literature review process: identifying relevant literature, evaluating research reports, synthesizing findings.

313 Evaluation for Decision-Making (4)
Types and characteristics of measures. Approaches to evaluating individuals and programs. Trends and issues in measurement and evaluation in education and human services. Majors only.

328 Healthy Families (2)
Examines child development within the context of families and society from an ecological perspective. Focuses on healthy parenting at different developmental stages.

329 Child-Family Issues and Resources (4)
Reviews childhood problems from a developmental framework, including child abuse, hyperactivity, and delinquency. Discussion of assessment techniques and intervention procedures.

330 Individual and Group Interventions I (4)
Strategies and interventions that enhance growth and change in individuals and families. Interventions range from specific individual techniques to strategies with small-group and family units.

399 Special Studies: [Topic] (1-5R)
401 Research: [Topic] (1-18R)
402 Supervised College Teaching (1-6R)
404 Internship: [Topic] (1-18R)
405 Reading and Conference: [Topic] (1-18R)
406 Special Problems: [Topic] (1-16R)
Recent topics are Junior Field Studies, Senior Field Studies. Prereq: instructor’s consent.

407/507 Seminar: [Topic] (1-5R) Recent topics include A Process Approach to Reading in the Upper Elementary Grades; Families in Crisis; Professional Issues I, II, III; Reading and Writing in the Upper Elementary Grades; Teaching Methods in Science, Health, Social Studies, and Language Arts.

409 Practicum: [Topic] (1-18R) Topics include Integrated Licensure I, II, III.

410/510 Experimental Course: [Topic] (1-5R)
Topics include Historical Foundations of Education, Organizational Structures and Policymaking.

421/521 Technology, Learning, and Change (4)
Not offered 2001–2.

430/530 Individual and Group Interventions II (3)
Strategies and interventions that enhance growth and change within organizations. Interventions include facilitation, networking, supervision, and consultation. Prereq: EDST 312.

433 Senior Project (2)
Special research or development project investigating and drawing conclusions about some aspect of an agency’s activities. Prereq: instructor’s consent.

440/540 Physical Education for Diverse Learners (3) Provides a variety of physical education and fitness activities appropriate for children with diverse abilities.

441/541 Early Childhood and Preadolescent Development (3)
Examines typical and atypical development in preschool, school-age, and preadolescent children with particular emphasis on implications for teaching.

442/542 Curriculum and Teaching Design (3) Curriculum frameworks, organizing schemes, and approaches used throughout public education. Strategies for designing or developing curriculum content for maximally diverse groups of students.

445/545 Early Language, Reading, and Literacy (4)
Methods for teaching prereading and language development; beginning and primary language, reading, and literacy. Translating theory into practice through field-based applications.

446/546 Mathematics Instruction Principles and Procedures (3) Specific procedures for designing and delivering mathematics instruction in heterogeneous classrooms. Application of empirically validated procedures in field-based settings.

491, 492, 493 Professional Practices (2, 2, 1) Examine issues and behaviors associated with being a community service professional. Sequence: Coreq: practicum.

Kenneth T. Metzler, professor emeritus. B.S., 1956, Oregon; M.S., 1967, Northwestern. (1964)

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the School

The School of Journalism and Communication offers programs leading to bachelor's, master's and doctoral degrees. Undergraduate students major in one of six specialized areas: advertising, communication studies, electronic media, magazine, news-editorial, or public relations. Master's degree options are communication and society, literary nonfiction, news-editorial, magazine, and advertising strategy and planning. The Ph.D. program in communications and society develops scholars and teachers who can critically examine questions on communication and society from many perspectives.

The school, which started as a department in 1912 and became a professional school in 1916, is one of the oldest journalism schools in the United States and one of the most broadly conceived. The school is accredited by the national Accrediting Council on Education in Journalism and Mass Communications. The University of Oregon has one of the few accredited programs in the Western United States with as many as six fields of study.

The program is based on the premise that the best professional communicator is broadly educated. In accordance with national accrediting standards, students must take at least 116 credits in courses outside the School of Journalism and Communication. Of those, 94 credits must be in courses from the College of Arts and Sciences. A maximum of 64 credits in the 180-credit undergraduate program may be in journalism and communication courses. Students learn about the practice of mass communication and its effects. They study the role of communication media in society, the history of journalism, visual aspects of communication, the ethics of media practices, new communication technologies, the economics of the media, and the legal and social responsibilities of the media in modern society.
language majors. Students with specific interests in science, journalism, media criticism, political communication, and public relations writing, graphic arts, and magazine writing.

Many students are active in campus affairs, working for the campus daily newspaper, the university’s radio stations, the student-run advertising agency, or alternative publications. The school also encourages them to participate in journalistic organizations such as the Advertising Club, Journalism Peer Advisers, National Association of Black Journalists, International Radio and Television Society, Public Relations Student Society of America, and Society of Professional Journalists. Internships are often available at newspapers, magazines, broadcast stations, advertising agencies, public-relations offices, and video-production firms.

**Preparation.** The best preparation for journalism majors is a broad college-preparatory program with emphasis on language skills, English literature, speech, history, and the social sciences. Prospective students also benefit from the study of mathematics, statistics, computers, and second languages. Students with specific interests in science and technology are encouraged to consider journalism because of the many career opportunities in communicating about those subjects.

Students should have basic computer skills such as keyboarding and a familiarity with word-processing and desktop-publishing programs. Community college students planning to transfer to the School of Journalism and Communication should concentrate on college-transfer courses, especially in literature, economics, and history, that fulfill university requirements and the school’s general-studies requirements. Almost all professional courses are taken at the School of Journalism and Communication. Advising materials are available to community college students upon request.

**General Information.** The School of Journalism and Communication occupies Eric W. Allen Hall, named in memory of the school’s first dean. Fully equipped laboratories are provided for writing, editing, advertising, graphic design, electronic media, and photography. In 1997 the school opened the Carolyn S. Chambers Electronic Media Center, which provides video and audio production facilities, and the John L. Hulteng Student Services Center, which consolidates academic advising services for journalism and communication students. Up-to-date files of newspapers and trade publications are maintained in the Willis S. Dunway Journalism Resource Center. The school receives the newspaper services of the Associated Press. The Eric W. Allen Seminar Room, furnished by contributions from friends and alumni, is a center for group meetings and receptions. Knight Library, the main branch of the university’s library system, houses an extensive collection of the literature of journalism and communication.

**Scholarships.** Scholarships ranging from $300 to $3,000 are offered by the School of Journalism and Communication with the support of endowments and contributions. Applications are available in the Hulteng center.

**Student Loans.** The School of Journalism and Communication may provide short-term or emergency loans to journalism majors. For more information, inquire at the dean’s office.

**Student Services.** Information about admission and degree requirements, advising materials, and sample programs is available in the Hulteng center, 101 Allen Hall. The assistant dean for student services is in 101B Allen Hall.

**Professional Code of Conduct.** Students enrolled in the School of Journalism and Communication are expected to meet the highest standards of professional conduct as defined in the school’s code of conduct and the relevant professional codes of ethics. The school reserves the right to deny admission or graduation of a student found to be in violation of these codes.

**Undergraduate Studies.** The role of the school’s undergraduate program is to provide students with the skills they need to become professional communicators and critical media consumers.

**Premajor Admission.** New students planning to major in journalism enter the university as premajors and do not need to meet any special admission requirements beyond the general university requirements. Each premajor is assigned to a journalism faculty adviser, who assists in planning the student’s course of study. In the fall term these assignments are made at a meeting of new undergraduate students during Week of Welcome. At other times students should go to the Hulteng center to request assignment to an adviser. Peer advisers and school staff members can help plan programs, answer questions, and track progress toward admission as a major and toward graduation. Students should check with an adviser at least once a year to ensure that requirements are being met. The director of undergraduate advising for the school is the assistant dean for student services.

A university student in another major may switch to a journalism premajor by submitting a request for Addition or Deletion of Major form, available in the Hulteng center. To become a premajor, a student must have a minimum cumulative grade point average (GPA) of 2.50 for all work at the University of Oregon.

**Premajor Program.**

**Core Curriculum.** Students must complete the school’s core curriculum: The Mass Media and Society (J 201), Information Gathering (J 202), Writing for the Media (J 203), and Visual Communication for Mass Media (J 204).

Premajors must take the core courses for letter grades and earn grades of C− or better before applying for major status.

Premajors typically take another preparatory course, although it is not required. Grammar for Journalists (J 101) prepares students to take the Language Skills Diagnostic Test (LSDT), a prerequisite for J 203. The LSDT is a comprehensive examination of spelling, grammar, and word usage. Students may attempt the LSDT only twice. The journalism faculty suggests that students take J 101 first.

Premajors may not take more than 300- and 400-level journalism courses.

Laboratory courses with controlled enrollment are open only to majors or to students with instructor’s consent.

**Admission as a Major.**

Courses needed to meet the school’s major requirements will be offered within six academic years to students who are admitted to the major by the beginning of their junior year. Admission to the School of Journalism and Communication is competitive. Before applying for admission as a major, a premajor must fulfill the following requirements:

1. Complete 45 or more credits of course work
2. Students must earn a cumulative GPA of at least 2.50 for work done at the UO
3. Earn a passing score on the Language Skills Diagnostic Test (LSDT)
4. Complete the school’s core curriculum (J 201, 202, 203, 204) with grades of C− or better

A student’s GPA is a major factor in the admissions decision. Students with a UO GPA lower than required should consult the associate dean or the assistant dean for student services about their potential for admission.

Applicants are evaluated and judged competitively by an admissions committee as applications are received. The admissions committee considers the five requirements listed above and other materials that applicants must submit, including a personal statement. The committee has the option of waiving any of the five requirements listed above if other evidence of a candidate’s high potential for success as a major is presented and approved.

**Transfer Students.** Students transferring to the University of Oregon School of Journalism and Communication enter as premajors. They apply to the University of Oregon Office of Admissions and are accepted as premajors if they meet the university’s general standards for admission. The school, however, does not encourage a student with a college GPA below 2.50 to apply for premajor status. To be admitted to major status, transfer students must meet the school’s requirements for admission as outlined above.
Transfer Credit. The School of Journalism and Communication accepts journalism credits earned at other colleges and universities as follows:

1. Credits earned at schools of journalism accredited by the Accrediting Council on Education in Journalism and Mass Communications are accepted both for journalism credit and to fulfill specific course requirements.

2. Journalism credits are accepted from unaccredited journalism programs, but they may not be used to meet specific course requirements. They do count toward the 64-credit limit set by national accrediting standards.

3. The school accepts, both for credit and for meeting specific course requirements, courses offered through the UO Community Education Program if the courses are taught by members of the School of Journalism and Communication faculty or by teachers approved by the faculty.

4. Regardless of the number of credits transferred, students must take at least 27 credits of journalism in residence to earn a degree from the UO.

5. Students cannot take more than 64 credits in journalism courses out of the 180 total credits required for a bachelor's degree. They may, however, add credits to the 180-credit total to accommodate extra journalism credits (e.g., take 186 credits to accommodate as many as 69 credits in journalism).

6. The school accepts equivalent courses taught at other colleges to meet the J 201 requirement for application to be a major.

Transfer students who want to discuss the transfer policy may consult the associate dean or assistant dean for student services.

Major Requirements

Majors must meet the UO requirements for the bachelor of arts (B.A.) or bachelor of science (B.S.) degree. In addition, they must meet the following requirements of the School of Journalism and Communication:

1. Satisfactory completion of at least 49 credits in journalism, of which at least 27 must be taken at the University of Oregon School of Journalism and Communication and at least 24 must be upper division.

2. Satisfactory completion of at least 116 credits in academic fields other than journalism
   a. At least 94 of those credits from the College of Arts and Sciences
   b. No more than 8 credits in courses whose subject codes do not belong to an academic department of the university (e.g., HDEV) may be applied to the 131 credits
   c. A student who graduates with 180 credits must take no more than 64 credits in journalism, including transfer credits

3. Upper-division breadth requirement:
   a. Satisfactory completion of two courses chosen from Communication Law (J 385), Communication Economics (J 386), Communication History (J 387), Communication Theory and Criticism (J 388), Journalism and Public Opinion (J 394), International Communication (J 396), Communication Ethics (J 405),
   b. Satisfactory completion of one course selected from Issues in Media Systems (J 411), Issues in Media Criticism (J 412), Telecommunication Policy (J 415), Public Broadcasting and Culture (J 417), Communication and Democracy (J 418), Advertising and Society (J 446), Third World Development Communication (J 455), International Journalism (J 492), Media Management and Economics (J 497).

4. A cumulative UO GPA of 2.50 or better

5. A cumulative GPA of 2.50 or better in courses taken in the School of Journalism and Communication

6. Satisfactory completion of at least one of the following academic-program specialized areas, including course prerequisites:
   - Advertising. Principles of Advertising (J 340), Advertising Campaigns (J 448), and two of the following: Advertising Copy Writing (J 341), Advertising Layout (J 442), Advertising Media Planning (J 443), Agency Account Management (J 444). Students may submit a petition to substitute Advertising Research (J 445), Advertising Portfolio (J 447), Advanced Copywriting (J 450), or Advertising Strategy (J 451) for one of the above courses, not including J 340 or J 448.
   - Communication Studies. Introduction to Media Systems (J 312), Communication Theory and Criticism (J 388), Issues in Media Systems (J 411), Issues in Media Criticism (J 412). Students must take both J 411 and J 412, or either course twice when topic changes.

Electronic Media. Video-Production Option: Introduction to Electronic Media (J 330), Television Field Production (J 331), Television Studio Production (J 332). Electronic-Journalism Option: Introduction to Electronic Media (J 330), Television Field Production (J 331), Reporting for Electronic Media (J 432), either Advanced Radio News (J 433) or Advanced Television News (J 434).

Magazine. Reporting I (J 361), Magazine Article Writing I (J 371), and two of the following: Specialized Reporting (J 463), Magazine Article Writing II (J 472), Magazine Feature Editing (J 473), The Magazine Editor (J 474), Magazine Design and Production (J 476).

News-Editorial. Reporting I (J 361), Newspaper Editing (J 364), Reporting II (J 462).

Public Relations. Principles of Public Relations (J 350), Public Relations Writing (J 351), Public Relations Problems (J 453).

General-Studies Courses. Because the School of Journalism and Communication believes in a broadly based education for its majors, students must complete the following College of Arts and Sciences courses:

1. 16 credits in literature (see Definitions, Limitations, and Policies below). A maximum of 8 credits in one of the following categories may be used to satisfy this requirement:
   a. Literature courses taught in a second language that are taken as part of a student's program of study in that language
   b. Courses treating film as literature, which must have a significant reading and writing component

2. 8 credits in history

3. 8 credits in economics

4. 8 credits of course work in each of three subject codes in the College of Arts and Sciences that have not been used to satisfy requirements 1 through 3 above. Eligible subject codes are listed in the current Survival Guide available in the Hulteng center or from a student's adviser.

Courses numbered 196, 198, 199, 399-406, or 408-410 may not be used to fulfill these requirements.

Foreign-language courses used to fulfill the university's bachelor of arts requirement and writing courses used to fulfill the university composition requirement may not be used to fulfill the general-studies courses requirement.

Definitions, Limitations, and Policies

Literature courses include:

1. Courses taught by the Department of English and the Comparative Literature Program

2. Literature courses taught in English translation by foreign-language departments or the Department of Classics or courses that are cross-listed for major credit by these departments in the schedule of classes

3. Introduction to the Humanities I, II, III (HUM 101, 102, 103)

Internship. A major may earn no more than 3 credits in Internship (J 404).

Grades. Majors and premajors must take all school courses for letter grades unless a course is only offered pass/no pass (P/N). Grammar for Journalists (J 101) may be taken P/N.

Minor in Communication Studies

The School of Journalism and Communication offers a minor in communication studies, which gives students an overview of the role of communication in society. The minor requires 24 credits, of which 15 must be upper division.

Students who want to minor in communication studies should declare the minor in the school's Hulteng center. Students may submit petitions to apply other courses to the minor.

Required Course (4 credits)

The Mass Media and Society (J 201)

Elective Courses (20 credits)

Choose from the following courses: Women, Minorities, and Media (J 320), Principles of Advertising (J 340), Principles of Public Relations (J 350), Communication Law (J 385), Communication Economics (J 386), Communication History (J 387), Communication Theory and Criticism (J 388), Journalism and Public Opinion (J 394), International Communication (J 396), Telecommunication Policy (J 415), Survey of the Documentary (J 416), Public Broadcasting and Culture (J 417), Communication and Democracy (J 418), Advertising and Society (J 446), Third World Development Communication (J 455), International Journalism (J 492), Communication Ethics (J 495), Media Management and Economics (J 497).
All courses for the minor must be passed with grades of P or C- or better.

Second Bachelor’s Degree

Students who already have a bachelor’s degree and want to earn a second bachelor’s degree in the School of Journalism and Communication may apply for major status through the university’s Office of Admissions. Upon fulfilling the requirements for application for admission, they may apply for major status. Students must complete all of the school’s requirements for graduation including the school’s arts- and sciences requirement and university requirements for the B.A. or B.S. Credits, including transfer credits, earned for the first bachelor’s degree may count toward meeting the requirements as long as they conform to the transfer-credit policy outlined previously.

Graduate Studies

The master of arts (M.A.) and master of science (M.S.) programs at the University of Oregon School of Journalism and Communication seek to expose students to a wide range of ideas concerning the structure, function, and role of mass communication in society. The goals are to educate students to be mass media leaders and decision-makers who actively contribute to improving the quality of media and to prepare students for doctoral studies.

The Ph.D. degree program in communication and society trains candidates to do research on a broad array of interdisciplinary questions related to communication and society. The school features faculty and course work that explore the cultural, economic, and political aspects of communication and society. The program emphasizes an appreciation of quantitative and qualitative methodologies and offers faculty expertise in content analysis, survey methodology, historical and legal methods, discourse analysis, ethnography, and oral history. Faculty members in departments and schools outside the School of Journalism and Communication have complementary areas of conceptual and methodological expertise to assist in guiding doctoral research.

Requests for information and graduate applications, as well as completed application materials, should be sent to the graduate secretary at the School of Journalism and Communication.

Financial Assistance

The school provides a number of graduate scholarships and graduate teaching fellowships. Scholarships range from $500 to $3,000. Fellowships include a complete tuition waiver and a stipend for the academic year. Graduate teaching fellows assist faculty members with teaching, research, and administrative responsibilities. Admission materials and applications for scholarships, fellowships, and other financial assistance must be submitted by the deadlines stated under Admission Requirements. Applicants may apply for both a scholarship and a fellowship at the same time.

International Students

A firm mastery of English, including American mass-communication idiom, is necessary for success at the graduate level. International students who lack such mastery are required to attend courses at the American English Institute on campus before participating in the graduate program. Though these courses do not carry graduate credit, they qualify to meet students’ visa requirements. The best time to enroll in the institute’s courses is the summer session preceding the first term in the graduate program.

Admission Requirements

Admission to the graduate program is granted on a case-by-case basis. Application materials are the same for the master’s and the Ph.D. programs. Applicants to the master’s program must have received a B.S. or B.A. or equivalent by fall enrollment; applicants eligible to attend the Ph.D. program must have received an M.A. or M.S. or equivalent. To be considered for admission, an applicant must submit the following:

1. Official transcripts from all institutions where undergraduate and graduate work was completed. The minimum undergraduate GPA for admission is 3.00. In exceptional cases, an applicant with a lower GPA may be admitted conditionally
2. Official Graduate Record Examinations (GRE) scores no more than five years old. The minimum combined verbal and quantitative score for admission is 1100. In exceptional cases, an applicant with a lower score may be admitted conditionally
3. A 750- to 1,000-word essay describing the applicant’s academic and career goals
4. An up-to-date résumé
5. A portfolio, string book, clips, tapes, or other evidence of professional work or evidence of scholarly writing and research. Doctoral applicants may include a copy of a master’s thesis
6. Three letters of recommendation, two from academic sources
7. International students must also submit documentation for:
   a. Either a Test of English as a Foreign Language (TOEFL) score of 600 or better or a Michigan English Language Assessment Battery (MELAB) score of 85 or better
   b. A score on the Test of Spoken English (TSE). A minimum score is not required for the TSE

Application deadlines are January 1 for doctoral applicants and February 1 for master’s degree applicants.

Evaluation of Progress. All graduate students’ programs are examined by the school’s graduate affairs committee during progress toward the degree.

Requirements for Graduation

A graduate student in the School of Journalism and Communication cannot elect the pass/no pass (P/N) option for a graduate course offered by the school unless that course is offered P/N only.

Master’s Degree Programs

Communication and Society Option

This program emphasizes communication theory and research, possibly preparatory to work for a Ph.D. degree. An undergraduate education in journalism and communication or professional experience are required. Candidates for this M.A. or M.S. degree must earn at least 46 graduate credits with a cumulative GPA of 3.00 or higher. Courses that do not carry graduate credit are not considered in determining the graduate GPA.

The program concludes with either a thesis or a professional project. Students typically take five to six terms to complete the program. Specific requirements follow:

1. Three core courses taken in the first year of graduate study: Mass Communication and Society (J 611), Mass Communication Theories (J 613), Introduction to the Faculty (J 625)
2. Two methodology courses, at least one of which is in the School of Journalism and Communication
3. Three additional 600-level courses in the School of Journalism and Communication
4. For Seminar (J 607), J 601-610 do not satisfy this requirement
5. At least 6, but no more than 15, graduate credits outside the School of Journalism and Communication. The courses chosen must be part of a consistent, related, educationally enhancing plan that has been approved by the student’s adviser prior to enrollment
6. A graduate thesis (9 credits in J 503) or professional project (6 credits in J 609) approved and supervised by a faculty committee. A written proposal, approved the adviser and committee, is required before work is begun on either a thesis or project. A student should register for Thesis (J 503) or Terminal Project (J 609) during the terms in which the research and writing take place.

Professional Options

This program is designed for students who have little or no academic or professional background in communication media and who want to acquire professional skills with a specific focus. Participants earn either an M.A. or an M.S. degree in journalism with a option in advertising strategy and planning, magazine journalism, or news-editorial journalism. The program begins during summer session and concludes the following summer session with a professional project.

Program Requirements

The 46-credit professional program includes:...
1. Introductory course work taken during the first summer that provides a foundation for more advanced study

2. Mass Communication and Society (J 611), Introduction to the Faculty (J 625)

3. Course work in one of the option areas described below. Courses are selected by the student in consultation with an adviser to meet the student's professional objectives

4. A final professional project

**Advertising Strategy and Planning Course Work**

1. Mass Communication Theories (J 613), Qualitative Research Methods (J 641)

2. Workshop: Power Presentations (J 508), Advertising Layout (J 542), Media Planning (J 543), Advertising Account Management (J 554), Advertising Research (J 545), Advertising Strategy (J 551), Special Problems: Campaigns Class (J 606), Advertising as a Social Institution (J 650), Advanced Analysis of Consumer Behavior (MKTG 661)

**Magazine Course Work**

1. Magazine Article Writing I (J 371), one communication ethics course approved by the adviser

2. At least four courses selected from Magazine Article Writing II (J 572), Magazine Feature Editing (J 573), The Magazine Editor (J 574), Magazine Design and Production (J 576), The Journalistic Interview (J 583), Literary Nonfiction LI (J 635, 636), Writing the Nonfiction Book (J 638)

3. Five graduate-level elective courses offered by the School of Journalism and Communication. Other graduate-level university courses may be included with adviser's consent

**News-Editorial Course Work**

1. At least four courses selected from Reporting II (J 562), Specialized Reporting (J 563), Newspaper Design (J 564), Advanced News Editing (J 568), The Journalistic Interview (J 583)

2. Two graduate-level elective courses offered by the School of Journalism and Communication. Other graduate-level university courses may be included with adviser's consent

**Literary Nonfiction Option**

Candidates for a master's degree in journalism may specialize in literary nonfiction. Students electing this option must earn 46 graduate credits and have a cumulative GPA of 3.00 or higher. Courses that do not carry graduate credit are not considered in determining the graduate GPA. Students typically take six terms to complete the program. Specific requirements follow.

**Core Courses**

31 credits

- Journalism, Mass Communication and Society (J 611) ................. 12
- Literature of Literary Journalism (J 631) ................. 4
- Writing About ... (J 633) ................. 6
- Philosophy of Mass Communication (J 644) — selected from a short list approved by adviser or faculty member ................. 4
- Nonfiction Book (J 638), typically taken during second year of study .... 4

**Electives**

Minimum of 7 credits

University courses offered outside the School of Journalism and Communication selected in consultation with the student's adviser.

**Terminal Project**

Minimum of 6 credits

Students register for Terminal Project (J 609) during the term in which research and writing for the project occur. Culmination of the literary nonfiction program requires writing that is noteworthy for its substance and its artistic quality. The student chooses a faculty member to supervise the research and writing of the terminal project. The topic must be approved by the adviser before work begins; a faculty committee oversees the project.

Candidates for the M.A. degree, but not the M.S. degree, must be proficient in a second language. Proficiency can be demonstrated either by completing, within the past seven years, the second year of the language at the college level or by passing an examination demonstrating equivalent competence.

Students nearing completion of their programs should consult with their advisers about requirements to be met before the awarding of the degree. During the term in which the thesis or project is completed, the student schedules an oral examination with his or her thesis or project committee. Students are responsible for meeting Graduate School requirements for thesis format and deposit deadlines.

**Doctor of Philosophy Degree**

Candidates for the Ph.D. degree in communication and society typically take about 80 graduate-level credits of course work beyond the master's degree; the exact number of credits depends on the student's graduate-study experience. The program concludes with a dissertation. Specific requirements follow.

**Core Sequence.** Within the first three terms of study, the student must complete the core sequence of courses: Introduction to the Faculty (J 625), Proseminar I (J 640), Qualitative Research Methods (J 641), Quantitative Research Methods (J 642), Proseminar II (J 643).

**Outside Field.** In close consultation with an academic adviser and the school's graduate studies director, each student designs an integrated outside-field component for his or her program. Because the program stresses the interconnection of communication with other disciplines, the 18-credit outside field may involve more than one outside department.

**Methodological Tool Requirement.** Two methods courses, in addition to Qualitative Research Methods (J 641), Quantitative Research Methods (J 642), taken within or outside the school.

**Additional Seminars in Communication.** At least three 600-level courses in the School of Journalism and Communication. Except for Seminar (J 607), 601–610 do not count toward this requirement.

**University Teaching.** Ph.D. candidates must complete Teaching and the Professional Life (J 619). Appropriate teaching experiences are arranged following completion of the course.

**Comprehensive Examination.** After course work is complete, the student, the graduate

**Studies.** The student's comprehensive examination committee schedules the exam before advancing to candidacy and beginning work on the dissertation.

**Dissertation.** A dissertation (18 credits in J 603) is the final step in the doctoral program. It is a professionally central experience in the design, conduct, and dissemination of original research. It is written after the student's proposed dissertation topic is approved.

**Journalism Courses (J)**

101 Grammar for Journalists (3) Intensive review of grammar, word use, spelling, and principles of clear, concise writing. Introduction to the journalistic style.

196 Field Studies: [Topic] (1–2R)

198 Colloquium: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R)

201 The Mass Media and Society (4) The various media of mass communication and their effects on society. Bybee, McDonald, Merskin, Stavitsky, Upshaw, Van Leuven.

202 Information Gathering (4) Survey of methods and strategies for acquiring information of use to the various mass media. Examination of records, databases, sources, and interview methods. Gleason, Kessler, McDonald, Maier, Ponder, Upshaw.

204 Visual Communication for Mass Media (4) Theory and application of visual communication in newspapers, magazines, video, advertising, and public relations. Newton, Ryan.

312 Introduction to Media Systems (3) Critical overview of the economic, social, and political implications of the communication systems and technologies on which the information society is based. Russial, Stavitsky.

320 Women, Minorities, and Media (3) Inequities in mass media with regard to gender, race, and ethnicity. Ramifications and possible mechanisms of change. Kessler, Merskin, Steeves.

330 Introduction to Electronic Media (4) Introduction to aesthetic and technical elements, as well as professional issues, involved in communication through video, audio, and new media. Stavitsky, Upshaw.

331 Television Field Production (4) Introduction to techniques of single-camera field video production. Prereq: J 330.

340 Principles of Advertising (3) Role of advertising in the distribution of goods and services; the advertising agency, the campaign; research and testing; the selection of media: print, electronic, outdoor advertising, direct mailing. Frazer, Sheehan.

341 Advertising Copy Writing (4) Theory and practice in writing advertising copy. Study of style and structure with emphasis on strategy
399 Special Studies: [Topic] (1-5R)

361 Reporting I (4) Basic training in news gathering. Extensive writing under time pressure, including a variety of assignments: straight news, features, interviews, speeches. Prereq: J 202, 203, typing ability. McDonald, Maier, Ponder, Upshaw.

364 Newspaper Editing (4) Copyediting and headline writing for newspapers; emphasis on grammar and style. Problems in evaluation, display, makeup, and processing of written and pictorial news matter under time pressure. Prereq: J 361. Maier, Russian.

365 Photojournalism (3) Introduction to black-and-white photographic techniques with emphasis on the structure, law, and ethics of photojournalism. Laboratory intensive and portfolio oriented. Newton, Ryan.

385 Communication Law (4) Legal aspects of the mass media: constitutional freedom of expression, news gathering, access to public records and proceedings, libel, privacy, copyright, advertising, electronic media regulation, and antitrust. Prereq: J 201. Gleason.

386 Communication Economics (4) Survey and analysis of economic relationships that exist in our communication system and how that system is integrated into the domestic and international economy. Prereq: J 201. Wasko.

394 Journalism and Public Opinion (4) Formation, development, and change of opinions. The role of major social and political institutions with emphasis on the mass media of communication. Prereq: junior standing. Van Leuven.

396 International Communication (4) National and cultural differences in media and information systems, global news and information flows, implications of rapid technological change, and communication and information policies. Prereq: junior standing. Steeves.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–9R)

403 Thesis (1–9R)

404 Internship: [Topic] (1–3R) R for maximum of 3 credits.

405 Reading and Conference: [Topic] (1–9R)

406 Special Problems: [Topic] (1–9R)

408/508 Workshop: [Topic] (1–4R)

409 Practicum: [Topic] (1–3R)

410/510 Experimental Course: [Topic] (1–4R) Current topics are Advertising in Cyberspace, Audio Production, Cyberjournalism, Media Representation.

411/511 Issues in Media Systems: [Topic] (3R) Uses various approaches, such as political economy, legal, historical, institutional, and comparative, to study media systems. Prereq: J 312 or instructor's consent. Bybee, Maxwell, Newton, Stavitsky, Van Leuven, Wasko. R once when topic changes.

412/512 Issues in Media Criticism: [Topic] (3R) Uses a variety of theories and methods to examine specific aspects of media content, processes, and audiences. Encompasses both social and aesthetic criticism. Prereq: J 312 or instructor's consent. Bybee, Bybee, Frazer, Merskin, Stavitsky. Steeves, Upshaw, Wasko. R once when topic changes.

416/516 Survey of the Documentary (3) Historical and critical survey of the documentary as a form of artistic expression and an instrument of social commentary. Prereq: junior standing.

418/518 Communication and Democracy (3) The role of communication in democratic theory. Special emphasis on the implications of the changes in communication systems and technology for contemporary democratic practice. Prereq: junior standing. Bybee, Merskin.

419/519 Editing Styles (3) Introduction to advanced video-editing styles using digital, nonlinear systems. Prereq: J 330.

435/535 Television Direction (4) Theory and techniques of television direction explored through group exercises and individual projects. Prereq: J 332.
environment, business and economics, politics, health and medicine, science, the arts, and precision journalism. Prereq: J 361 or 432. Bassett, Maier, Upshaw.

481/581 Newsletter Publication (3) Examines the principles and practices of newsletter publication including planning, information gathering, writing, editing, layout, and printing. Prereq: J 361. Binvis, Ryan.

483/583 The Journalistic Interview (3) Gathering information through asking questions. Literature and research findings on techniques of listening, nonverbal communication, and psychological dynamics of the interview relationship in journalistic situations. Kessler, Maier.

492/592 International Journalism (3) Mass communication media throughout the world: historical background; conflicting theories of control, international news services and foreign correspondence; problems in developing nations. Ponder, Steeves, Van Leuven.

497/597 Media Management and Economics (4) Issues for media managers and media workers, including leadership, organizational change, new technology, media convergence, and economic strategy. Emphasis is management and social responsibility. Russial, Van Leuven.

503 Thesis (1–9R) PIN only

601 Research: [Topic] (1–6R) R for maximum of 16 credits.

602 Supervised College Teaching (1–5R) R for maximum of 5 credits.

603 Dissertation (1–16R) R for maximum of 18 credits.

604 Internship: [Topic] (1–3R) R for maximum of 3 credits.

605 Reading and Conference: [Topic] (1–6R) R for maximum of 16 credits.

606 Special Problems: [Topic] (1–6R) R for maximum of 16 credits.

607 Seminar: [Topic] (1–5R)

609 Terminal Project (1–6R) R for maximum of 6 credits.

610 Experimental Course: [Topic] (1–5R) Current topics are Advanced Qualitative Methods, Advanced Quantitative Methods.

613 Mass Communication Theories (4) Survey of major theoretical approaches to the study of journalism and mass communication. Merskin, Stavitsky.

616 Public Opinion and Propaganda (4) Research findings on choices made by mass media decision-makers. Research in attitude-change processes; source, message, channel, and receiver variables. Imsach.

618 Criticizing the Media (4) Overview of approaches to analysis and criticism of media performance and professional norms. Bybee, Maier, Russial.

619 Teaching and the Professional Life (4) Explores teaching strategies, curriculum development, and other aspects of academic professional life in journalism and communication. Frazer, Ponder, Stavitsky, Steeves, Van Leuven.

625 Introduction to the Faculty (1) Introduces new graduate students to faculty expertise in the areas of research, creative or professional work, and teaching in the School of Journalism and Communication.

631 Literature of Literary Journalism (4) Explores philosophical, historical, literary, and moral issues related to the genre of literary journalism, or creative nonfiction. Prereq: acceptance in the literary nonfiction program or instructor's consent. Bassett, Kessler.

633 Writing About...: [Topic] (3R) Advanced, intensive, one-day writing workshops led by notable writers of literary nonfiction. Kessler. R twice for maximum of 12 credits.

635, 636 Literary Nonfiction I, II (6,6) Concentrates on student writing of nonfiction in a workshop setting. Prereq: instructor's consent. Kessler.

640 Proseminar I (5) Overview of theories used to study mediated communication, mass communication, and communication technologies; theory application to media processes; discussion of enduring issues in the field. Prereq: doctoral standing. Bybee, Steeves, Wasko.

641 Qualitative Research Methods (4) Introduces qualitative research methods including traditional historical inquiry, oral history, ethnography, and participant observation. Prereq: J 640. Bybee, Newton, Ponder, Steeves.

642 Quantitative Research Methods (4) Introduces and analyzes the logic of quantitative research methods in terms of design, measurement, inference, and validity. Focuses on conceptualization in communication research. Prereq: J 640. Maier, Sheehan.

643 Proseminar II (5) Seminar participants demonstrate competence in broad families of social research by drawing on skills and knowledge obtained in J 640–642. Prereq: J 640, 641, 642. Bybee, Steeves, Wasko.

644 Philosophy of Mass Communication (4) Explores the philosophical foundations of mass communication in the United States—including the political philosophies that range from Milton to McLuhan. Bivins, Stavitsky.

646 Political Economy of Communication (4) Introduction to the political economy of communication. Includes such issues as ownership and control patterns; the role of the state; labor; intellectual property rights, and international markets. Wasko.

648 Cultural Approaches to Communication (4) Examination of communication and mediated communication as cultural processes in the production and reproduction of social systems. Prereq: J 640, 641, 642, 643 or instructor's consent. Bybee, Steeves, Wasko.

649 International Communication (4) Examines global communication structures and processes and their consequences. Topics include new technologies, news and information organizations, cross-cultural uses of Western media, and information policies. Steeves, Wasko.

650 Advertising as a Social Institution (4) Explores how advertising works at the general social level. Examines how consumers use advertising and products or services to create meanings for themselves. Prereq: J 640. Frazer, Merskin, Sheehan.

651 Comparative Communication Policies (4) Examines the evolution of national communication policies and infrastructures within their national political-economic and cultural contexts and the global economic environment. Stavitsky.

652 Communication and Politics: [Topic] (4R) Examines communication and mediated communication in formal political settings as well as the general exercise of political power throughout society. Bybee, Ponder. R twice when topic changes for maximum of 12 credits.

655 Gender and Media (4) Critical overview of theoretical and empirical scholarship on gender and media in the areas of representations, viewer-reader experiences, media organizations, and alternative media. Steeves.

660 Advanced Research Methods: [Topic] (4R) Explores specific qualitative or quantitative communication research methods. Topics may include discourse analysis, oral history, historical methods, legal methods, content analysis, and survey methods. Prereq: J 641 or J 642 depending on topic, or instructor's consent. R when topic changes.
Faculty

Barbara Bader Aldave, Loran L. Stewart
Professor of Business Law (partnerships and corporations, securities regulation); director, Law and Entrepreneurship Center. B.S., 1960, Stanford; J.D., 1966, California, Berkeley (Coif); Oregon bar, 1966; Texas bar, 1982. (2000)

About the School

The School of Law offers a professional curriculum leading to the doctor of jurisprudence (J.D.) degree. The curriculum provides a thorough preparation for the practice of law. The School of Law wants the student to acquire knowledge not only of legal doctrine but also of the judicial process and of the social, economic, and political problems facing lawyers. The method of instruction requires an intensive exercise of analytical skills. Because the curriculum presents fundamental subjects of law during the first year, the first-year program is prescribed. All second- and third-year courses are elective except Constitutional Law II (LAW 644) and Legal Profession (LAW 649), which are required.

Substantial participation in classroom discussion is an essential factor in legal education. Credit for any course may be denied for irregular attendance. To stimulate involvement in classroom discussion, every effort is made to assure first-year students of at least one class with an enrollment limit of twenty-five students.

Counseling and information are available to assist students in selecting courses most closely related to their professional goals. The scope of the curriculum is enriched by the addition of courses, seminars, clinics, and the research and writing program, all of which explore the role of law in new areas of social and economic importance.

The John E. Jaqua Law Library has more than 375,000 volumes and volume equivalents in microform. Access to the library’s collection is provided through Janus, an online catalog that serves the university’s library system. Library holdings include complete case reports of the National Reporter System, complete state reports from colonial times to the establishment of the reporter system, a substantial collection of English and Canadian case law, codes and compilations of state and federal statutory law, and standard legal digests and encyclopedias. The periodicals collection includes 1,050 legal journals. An excellent collection of publications related to Oregon territorial and state law includes an extensive file of Oregon Supreme Court briefs. More than 1,200 data ports located throughout the library offer students with laptop computers access to legal research databases, e-mail, and word-processing and many other applications. The William W. Knight Law Center allows the law school to maintain its own identity at the University of Oregon by providing a Student Bar Association office, lounge, computer research center, locker room, and offices for the editorial boards of the Oregon Law Review and the Journal of Environmental Law and Litigation. The building’s close proximity to other graduate and undergraduate academic resources allows students to take full advantage of the research university setting.

Additional information and complete descriptions of courses offered appear in the UO School of Law Catalog. Free copies are available at the law school’s Office of Admissions.

Degree Requirements

Students who have been admitted to the School of Law, who have satisfactorily completed 85 semester credits in law courses, and who have otherwise satisfied the requirements of the university and the School of Law are granted the J.D. degree provided that they

1. Obtain, at least two years before completing work for the J.D. degree, a B.A. or B.S. or equivalent degree from an accredited college or university

2. Have been full-time law students at the School of Law for at least ninety weeks or the equivalent

3. Fulfill other requirements as may be imposed

4. Successfully complete Constitutional Law II (LAW 644) and Legal Profession (LAW 649)

5. Successfully complete prescribed first-year courses

The School of Law reserves the right to modify its curriculum and graduation requirements at any time. Students in the School of Law may accrue up to 3 of the required 85 semester credits by successfully completing graduate-level courses or seminars at the University of Oregon. These courses must be relevant to their program of legal studies and approved in advance by the assistant dean for student affairs.

A total of three years of full-time resident professional study in the University of Oregon School of Law or another law school of recognized standing is required for the J.D. degree. Except in unusual circumstances, the last two years must be in residence at the University of Oregon School of Law.

During the second and third years, each student must complete both a basic writing requirement and a comprehensive writing requirement. The basic requirement is designed to improve legal writing skills and the ability to analyze legal problems. The comprehensive requirement is a more intensive writing experience involving thorough research, creative thinking, and interaction with a faculty member in developing and editing a paper. One requirement must be satisfied each of the last two years in the law school, and both must be completed before a student can be granted a professional law degree.

Clinical-Experience and Practice-Skills Program

The School of Law believes students should learn how to resolve disputes appropriately using informal discussion or more formal methods of resolution (e.g., negotiation, mediation, arbitration, and litigation). They need to become effective counselors—attorneys who can listen,
identify and assess their clients’ interests, and present options for resolving their clients’ problems.

Appropriate Dispute Resolution. This comprehensive program integrates the process, strategies, and skills into areas of the law such as business, environmental, mass torts, family, labor, real estate, intellectual property, public planning and policy, community, and international relations. Included are special classes, conferences, programs, and training to provide students with the information and skills needed to be effective lawyers.

Five clinical-experience and practice-skills programs and a trial practice laboratory are part of the school’s curriculum. In addition, a legislative workshop is offered during the regular sessions of the Oregon Legislative Assembly.

Through clinical-experience programs, cases are handled under the direct supervision of a clinical instructor. Qualified third-year students in the clinical programs usually are certified under the Third-Year Student Practice Rule, which has been adopted by the Oregon Supreme Court.

Civil Practice Clinic. This program provides field experience at the Legal Aid Service of Lane County, Inc. Law students, under the supervision of an attorney, represent eligible clients and develop skills in interviewing, counseling, drafting, negotiating, discovery, and litigation.

Criminal Defense Clinic. Under the supervision of an attorney, law students handle cases of clients eligible for legal representation through Public Defender Services of Lane County, Inc. Students develop advocacy skills in the context of criminal defense representation.

Domestic Violence–Family Law Clinic. Students represent victims of domestic violence in a variety of legal actions, including investigation and development of legal and nonlegal solutions to their clients’ problems, negotiation with opposing counsel, drafting appropriate motions, and appearing in court as needed.

Environmental Law Clinic. Students learn about agency proceedings, submission of petitions requesting government action, techniques of legal access to government files, interviewing of experts and clients, interpretation and presentation of environmental data in legal proceedings, and litigation on behalf of clients. Substantial carefully written work under close supervision is required.

Prosecution Clinic. Students are exposed to the criminal justice system as prosecuting attorneys in the trial of criminal cases, under the supervision of an attorney, through the Lane County district attorney’s office. Students develop advocacy skills in the context of criminal prosecutions. Enrollment is limited to third-year students.

Legislative Issues Workshop. Students are placed as interns with a legislator or legislative committee during most regular sessions of the Oregon Legislative Assembly. They are involved in legal research and in the preparation of reports pertaining to issues before the legislature.

Trial Practice Laboratory. Students examine and develop courtroom skills in civil and criminal cases. Primary emphases are on the opening statement, direct examination, cross-examination, objections, closing argument, and voir dire of juries. Each student participates in weekly classroom exercises and in a full trial at the end of the semester.

Law and Entrepreneurship Center

The center provides an innovative forum to advance understanding of how lawyers create value for entrepreneurial clients. By bringing together lawyers, entrepreneurs, and academicians in a variety of settings, the center integrates law students and legal scholars with an increasingly entrepreneurial economy. The center sponsors symposiums and seminars each year to encourage interaction between the legal and business communities. The center coordinates a program with the Lundquist Center for Entrepreneurship that leads to a statement of completion in law and entrepreneurship. The Law and Entrepreneurship Student Association actively participates in directing the center and hosts guest lectures, field trips, and brown-bag lunches with members of the local business and legal communities.

Statements of Completion

Second- and third-year students may develop a specialty in business law, criminal practice, environmental and natural resources law, estate planning, intellectual property law, international law, law and entrepreneurship, or ocean and coastal law. A student who satisfactorily completes one of these programs receives a statement of completion.

Summer Session

The School of Law offers a summer session that is open to law students who have completed at least one year of law work and who are in good standing at a law school accredited by the American Bar Association. Summer session students may earn up to 8 semester credits in the law school.

Summer session is not open to beginning law students. For complete summer session information, write to the School of Law Student Services Office.

Concurrent Degree Programs

J.D./M.B.A.

The School of Law and the Lundquist College of Business Graduate School of Management offer a doctor of jurisprudence and master of business administration (J.D./M.B.A.) concurrent degree program. The program prepares students to use their legal skills in fields that require understanding of business principles, finance, accounting, and corporate management.

Students study both fields concurrently and receive two degrees in four years rather than in the standard five. Applicants must apply to and be accepted by the School of Law and the Environmental Studies Program, each of which maintains its own academic standards and requirements. Students who are accepted into the two programs and who complete approved environmental law courses for the J.D. may reduce the number of credits required for the master’s degree in environmental studies. In addition to law courses, students must emphasize three areas of concentration in the Environmental Studies Program, take at least one course from each of five core areas, complete a thesis, and participate in an internship.

More information about the J.D./M.B.A. and J.D./M.S. concurrent degree programs may be obtained by writing to the School of Law’s director of admissions.

Academic Support

The Academic Choice for Excellence Program, a voluntary program open to first-year law students, is particularly beneficial for nontraditional law students. The program includes an extended summer orientation and academic tutoring designed to teach the principles that underlie the first-year course work, to develop research and writing skills, and to clarify the law school examination process.

Student Programs and Organizations

Law students can choose from a great variety of student programs and organizations. Among these are Animal Justice; Appropriate Dispute Resolution Advocates; Asian-Pacific American Law Student Association; Business Law Student Forum; Business, Sports, and Entertainment Law Forum; Christian Legal Society; Criminal Law Association; Eugene Lawyers for the Arts; Intellectual Property Students Association; Jewish Law Students Association; Journal of Environmental Law and Litigation; Land, Air and Water Student Research Group; Latín-Latina Law Students Association; Law and Entrepreneurship Students Association; Gay, Lesbian, Bisexual, Transsexual, and Transgender Students Association; Minority Law Students Association; Monitor; National Moot Court Competitions; Native American Law Student Association; Nontraditional Law Student Support Group; Oregon Law Review; Oregon Law Students Disability Interest Group; Oregon Law Students Public Interest Fund; Oregon Review of International Law; Oregon Women Lawyers; Parent Attending Law School; Partners in Law, Lovers, and Relatives Support; Peer Advising; People’s Law School; Sports Club; Student Bar Association; The Weekly Dissent; Women’s Law Forum; and chapters of the Black American Law Students Association, Federalist Society, International Law Society, Order of the Coif, Phi Alpha Delta, and Phi Delta Phi.

Admission Procedures

Prelaw Preparation

The School of Law does not prescribe a prelegal curriculum. Intellectual maturity and breadth of educational background are considered more important than specific subject matter.
Details about prelegal study and law school admission criteria appear under Law, Preparatory, in the Educational Support Services section of this catalog.

Admission Correspondence

Specific inquiries, applications, fees, Law School Admission Test (LSAT) and Law School Data Assembly Service (LSDAS) reports, transcripts, and supporting documents should be forwarded to the School of Law's director of admissions.

Basic Admission Requirements

An applicant must have a bachelor's degree from an accredited college or university prior to enrolling in the School of Law. Enrollment restrictions and the large volume of applications for admission to the law school make it necessary to admit applicants who, in terms of their overall records, are the most qualified for legal studies.

In addition to the undergraduate grade point average (GPA) and the Law School Admission Test (LSAT) score, other factors considered in admission decisions include quality of undergraduate education, work experience, maturity, graduate work, extracurricular activities, personal statements, and letters of recommendation. For students in the first-year class entering the School of Law in fall 2000, the median undergraduate GPA was 3.40; the median LSAT score was 155.

Application. Applications and supporting documents should be submitted after October 1 of the academic year preceding the fall semester for which applicants are applying. The application deadline is February 15. The School of Law encourages applications from members of racial and ethnic minority groups and from Oregon residents. It does not discriminate on the basis of race, color, religion, sex, age, disability, marital status, veteran status, sexual orientation, or national origin.

Application Fee. Applications must be accompanied by a check for $50 payable to the University of Oregon. An applicant who was admitted previously but did not register at the School of Law must submit another application fee with the resubmission. This fee is neither refunded nor credited toward tuition and fees, regardless of the disposition of the application. Application fees are not waived.

Law School Admission Test. Applicants must take the LSAT and have an official report of the test scores sent to the school through the Law School Data Assembly Service (LSDAS). LSAT/LSDAS registration packets are available in the School of Law Office of Admissions. The admissions committee does not act on an application until the official report of the test scores has been received.

Applicants should plan to take the LSAT in June, October, or December of the year preceding the fall semester for which they are applying. LSAT scores are considered current for a period of five years.

LSDAS—Transcripts. Applicants should not mail their transcripts directly to the law school. The School of Law participates in the Law School Data Assembly Service. The LSDAS Transcript Request Form must accompany a request to have a transcript from each undergraduate college or university sent to the LSDAS. These matching forms are included in the LSAT/LSDAS registration packet. Information concerning the LSDAS is available in the School of Law Office of Admissions or can be obtained from Law School Admission Services, PO Box 2000, Newtown PA 18940-0998.

Acceptance Fee. Applicants who are offered admission to the law school must pay nonrefundable fees of $400—$100 to reserve a space in the entering class and a $300 deposit to be credited toward tuition. The deadline for the $100 reservation fee is April 10. The $300 deposit deadline is June 15.

Previous Law School Study. An applicant who has attended another law school must have the dean of that school send a letter to the admissions committee stating that the applicant is in good standing and eligible to return to that school without condition.

Transfer Applicants and Visiting Students. Students may transfer no more than one year of credit earned in another law school of recognized standing.

Students who have attended another law school for more than one year may apply as visiting students. Visiting students are not eligible for degrees from the School of Law. Direct application inquiries to the law school's director of admissions.

Photographs. University of Oregon student identification cards include a photograph taken when a student initially registers for classes. Duplicates of the photographs taken for student identification cards are retained as part of the law school's records.

Grade Requirements

Grading Policy

The following grades are available to be awarded in graded courses at the School of Law and are given the following numerical values when computing student GPAs:

A+ ... 4.3 A --- 4.0 A- ... 3.7
B+ ... 3.3 B --- 3.0 B- --- 2.7
C+ ... 2.3 C --- 2.0 C- --- 1.7
D+ ... 1.3 D --- 1.0 F --- 0.0

Grades reflect categories of performance articulated in general terms as follows:

A Exceptional honors-level work, equivalent to a recommendation to the national law school honorary, Order of the Coif
B Good work, at a level distinctly above that of normal professional competence
C Professionally competent work, which convinces the instructor that the student can be recommended to the public as being reasonably capable of dealing with client and public problems in the area of study
D Unsatisfactory work, which is not at the level required for ordinary professional competence but which demonstrates enough potential for improvement that the student could reasonably be expected to achieve such a level by conscientious study
F Failing work, which reflects an extremely low level of learning and ability in the area of study

+ Performance above the category to which the + is appended but, in the cases of B+, C+, and D+, not sufficiently above to merit a grade of the next higher category
- Performance below the category to which the – is appended but, in the cases of A-, B-, and C-,
not sufficiently below to merit a grade of the next lower category.

Academic Standards

These standards apply to students first earning law credits in fall 1998 and thereafter. For rules that apply to students earning credits prior to that time, see an earlier edition of "The Holding" or contact the assistant dean for student affairs.

1. Credit requirements. No student may graduate without completing 85 credits with grades of D or higher or, in the case of credits graded P/N, with grades of P. At least 70 (or 67, for students who have completed

   a. the other requirements for the J.D./M.B.A. or J.D./M.S. concurrent degree program or
   b. a 10-credit, semester-long internship with a grade of P) of such credits must be in courses taken graded (rather than P/N).

2. GPA requirements; probation and disqualification

   a. A student is on probation whenever his or her cumulative GPA is lower than 2.00.
   b. The following students are required, within a reasonable time after notice from the Academic Standing Committee (ASC), to appear before it and develop a plan (including, without limitation, a proposed course of study) acceptable to the ASC for raising the student's academic performance to an acceptable level:
      (1) students on probation
      (2) students receiving two or more grades lower that C– during their first year
      (3) students receiving an aggregate of three grades lower than C– in the course of their law school studies
   c. No student may graduate if he or she is disqualified. A student becomes disqualified when any of the following applies, and remains disqualified unless and until a petition for readmission is approved:
      (1) While on probation, the student earns a GPA for any semester (including summer session) lower than 2.00
      (2) At any time after completing four semesters of residence under American Bar Association (ABA) standards (and regardless of whether the student is or has been on probation), the student's cumulative GPA is lower than 2.00
   d. Disqualified students may not take further courses unless and until a petition for readmission is approved.

3. Petitions for readmission. A disqualified student may file a petition for readmission with the assistant dean for student affairs (dean of students), subject to the following restrictions

   a. Petitions filed upon a student's first disqualification shall be approved or denied by the ASC. The student may appeal the ASC's decision to the faculty but only if the student's cumulative GPA is
      (1) 1.70 or higher, in the case of students who have completed no more than two semesters of residence under ABA standards, or
      (2) 1.90 or higher, in the case of other students. Such appeals must be filed
   b. Upon his or her second disqualification, a student may file a petition for readmission only if his or her cumulative GPA is 1.90 or higher. The ASC may deny the petition, in which case the student may not appeal to the faculty and has no further recourse. The ASC does not have the power to approve the petition but may recommend to the faculty that it be approved, in which case a final determination on the petition shall be made by the faculty.
   c. Notwithstanding the limitations of sections 3(a) and 3(b), any student who has fulfilled all of the requirements for graduation, except that he or she is disqualified, may file a petition for readmission, which shall be approved or denied by the ASC. The ASC's decision in such a case may be appealed by the student to the faculty, regardless of the student's cumulative GPA.
   d. A student has no further recourse, before either the ASC or the faculty, if he or she
      (1) is once denied readmission by the faculty
      (2) becomes disqualified a third time, or
      (3) does not satisfy the applicable GPA limitation set forth in section 3(a) or 3(b)—except as provided in section 3(c).
   e. All petitions for readmission shall be filed with the dean of students within one year of the date of mailing to the student of a notice of disqualification. A student who fails to meet this deadline has no further recourse before either the ASC or the faculty.
   f. Any decision to approve a petition may be subject to such conditions as the ASC (or, in the case of approvals by the faculty, the faculty) considers appropriate, including without limitation academic counseling, retaking of first-year courses in which grades lower than C were received, limitation of employment or other extracurricular activities, course limitations, course requirements, grade requirements, and a requirement to remain out of school for a period of time. Failure to abide by any conditions imposed hereunder may be cause of revocation of readmission or other appropriate remedy.
   g. Students may appear in connection with a petition for readmission before the ASC but not before the faculty.

4. Computations. The law school's grading policy sets forth how cumulative and semester CPAs are computed for purposes of these academic standards.

5. Applicability. These standards apply to students first earning law credits in fall semester 1998 or thereafter.

Costs and Student Financial Aid

Law students are classified as graduate students. Regular fees are payable in full at the time of registration. Payment of the stipulated fees entitles students enrolled for academic credit to all services maintained by the university for the benefit of students.

Tuition and Fees

For the 2000–2001 academic year, tuition was $11,204 for resident students and $15,356 for nonresidents. See the law school catalog for more information. Tuition and fee schedules are subject to revision by the State Board of Higher Education.

Residence classification regulations appear in Chapter 580, Division 10, of Oregon Administrative Rules, which are quoted in the Admissions section of this catalog. Details governing administration of nonresident and resident policies are complex. For answers to individual questions, students are advised to consult a staff member in the university's Office of Admissions.

Total Costs

Because student living arrangements and personal spending habits vary widely, no single figure represents the cost of attending the
university. Total 2000–2001 costs for a resident student at the School of Law averaged approximately $20,046 (tuition, fees, room and board, books, and personal expenses). For a nonresident, costs averaged $24,198. Up to $2,800 was added for first-year students who purchased computers. Costs may be higher for students with children. The childcare allowance varies according to circumstance and is based on documentable costs for the period of time the student is enrolled.

Health insurance is optional. Costs for semester or for full twelve-month coverage are available in the office of the Associated Students of the University of Oregon.

Financial Assistance
See the Student Financial Aid section of this catalog for complete information about financial aid including loans.

Scholarships and Fellowships
The University of Oregon School of Law gratefully acknowledges the generous contributions of individuals, law firms, and organizations that have established named and endowed scholarships for the benefit of law students. Many of these scholarships are in honor of or in memory of alumni, students, friends, and loved ones.

Information about the following scholarships and about financial aid in general is available in the School of Law Catalog and on the school's website; or by telephone, (541) 346-1558.

Lois I. Baker Scholarship
James D. Barnett Memorial Scholarship
Derrick A. Bell Jr. Scholarship
Hugh L. Biggs Scholarship
Francis I. Cheney Scholarship
Henry E. Collier Law Scholarships

Academic Calendar for Law Students
The School of Law operates on an early semester calendar. On this schedule, registration for fall semester takes place in mid-August, fall semester examinations are given before the winter vacation, and the spring semester ends in mid-May. More information about calendar dates is available from the School of Law.

Law Courses (LAW)
A complete list of courses with descriptions is in the UO School of Law Catalog. For a free copy, write to the School of Law.

410/510 Experimental Course: [Topic] (1–5R)
610 Law Courses for Nonlaw Students (1–15R)

Generic course number for translating 600-level School of Law semester credits to term credits on academic records of nonlaw students.

Required First-Year Courses
611, 612 Contracts (3,3)
613, 614 Torts (3,3)
615 Civil Procedure (4)
617 Property (4)
618 Criminal Law (3)
622, 623 Legal Research and Writing I,II (2,2)
643 Constitutional Law I (3)

Second- and Third-Year Courses
Second- and third-year courses are elective except LAW 644 and 649, which are required. Most of the courses listed below are offered each academic year. Every effort is made to offer all of the following courses at least once every two years, but the ability of the School of Law to offer some courses may be limited by student interest and faculty resources.

630 Consumer Law (2–3)
631 Real Estate Planning (3)
632 Corporate Finance (3)
633 Business Planning (2–3)
634 Corporate Mergers and Acquisitions (2)
635 Secured Land Transactions (3)
636 Commercial Law (4)
637, 638 Trusts and Estates I,II (3,3)
639 Employment Discrimination (3)
640 Children and the Law (3)
641 Partnerships and Corporations (3)
642 International Business Transactions (3)
644 Constitutional Law II (3)
645 Oregon Practice and Procedure (3)
646 Federal Jurisdiction and Procedure (3)
647 Conflict of Laws (3)
648 Creditors’ Rights (3)
649 Legal Profession (3)
652 Evidence (3)
653 Mediation and Negotiation (3)
654 Insurance (3)
655 Family Law (3)
656 Elder Law (3)
657 Legal Issues of Lesbians and Gay Men (3)
658 Local Government Law (2)
659 Labor Law (3)
660 Employment Law (3)
661 Remedies (3)
662 Jurisprudence (3)
663 Antitrust Law (3)
664 Administrative Law (3)
665 Securities Regulation (2–3)
666 Admiralty (3)
667 Copyrights (3)
668 Land Use Law (2–3)
669 Water Resources Law (2–3)
670 Public Land Law (3)
671 International Law (2–3)
672 European Community Law (2)
673 Patent Law and Policy (2)
674 Trademark and Unfair Competition Law (3)
675 Legal Writing (1–3R)
676 Environment and Energy (3)
677 Law of the Sea (3)
678 Indian Law (2–3)
679 Ocean and Coastal Law (2–3)
680, 681 Federal Income Tax I,II (3,3)
682 Estate and Gift Taxes (2)
683 Estate Planning (3)
684 Criminal Investigation (3)
685 Criminal Adjudication (3)
686 Environment and Pollution (3)
687 Wildlife Law (2)
688 Hazardous Waste Law (2)
689 Sustainability (3)
690 International Environmental Law (2–3)
691 Comparative Environmental Law (3)
692 International Trade and Investment Law (3)

Professional Writing, Research, and Seminars
601 Research: [Topic] (1–16R)
605 Reading and Conference: [Topic] (1–16R)

Clinical Experience and Practice Skills Programs
704 Internship: [Topic] (1–12R)
707 Seminar: [Topic] (1–5R) Recent topics are Advanced Appellate Advocacy; Interviewing, Counseling and Negotiation; Environmental Law Moot Court; Intellectual Property Moot Court; International Law Moot Court Team Workshop; Journal of Environmental Law and Litigation; Legislative Issues Workshop; Moot Court Board; Moot Court National Team Workshop.
About the School
The School of Music began as the Department of Music in 1886. It became the School of Music in 1900 and was admitted as a charter member of the National Association of Schools of Music in 1928. The standards of the school are in accordance with those of the association. The School of Music, which includes the Department of Dance, is a professional school in a university setting. The school is dedicated to furthering creativity, knowledge, pedagogy, and performance in music and dance and to preparing students for a variety of professions in these fields.

Mission Statement. The School of Music and the Department of Dance are dedicated to the enrichment of the human mind and spirit through the professional and intellectual development of artists, teachers, and scholars in a supportive and challenging environment. They fulfill this mission through the following objectives:

• To help students balance the knowledge and understanding of their art with the intuition and skills necessary to present it.
• To involve students and members of the university and the community in the intellectual life and performing activities of the school through the curriculum, lectures, workshops, and concerts.
• To help students learn to communicate and teach their art effectively, whether as professional teachers in public or private schools or at the college level or as performers.
• To reflect the diversity of the fields of music and dance in its offerings. Since the scope of these fields constantly changes, the faculty tries to prepare students for encounters with other cultural communities and their art forms. At the same time, students are shown the respect and knowledge necessary to reexamine and pass on the great traditions inherited from their own cultures.
• To contribute new ideas to the fields of music and dance in its offerings. The school is dedicated to reinvigorating the language of music and dance and to preparing students for encounters with other cultural communities and their art forms. At the same time, students are shown the respect and knowledge necessary to reexamine and pass on the great traditions inherited from their own cultures.
• To develop new ideas to the fields of music and dance in the form of original compositions and choreographies, studies of new repertoires and interpretations of existing ones, as well as scholarship in the history, theory, pedagogy, and cultural context of music and dance. Faculty members seek to teach and inspire their students to do the same.

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

About the Department
The primary aim of the Department of Dance is to enrich the lives of majors, nonmajors, and the Oregon community with diverse dance experiences. Dance is explored as an art form and as one of the humanities in a liberal-arts education. Study in dance as an academic discipline integrates inquiry and theory to develop skills in observation, critical thinking, problem solving, and evaluation. In addition to the academic components, dance students experience the rigorous professional discipline that is inherent in studio classes. The department emphasizes modern dance with a strong supporting area in ballet. Students may also study such idioms as jazz, tap, ethnic, improvisation, and ballroom.

Regardless of a student's career goals, education in dance at the University of Oregon provides the opportunity to develop motivation and self-discipline, intellectual curiosity, and creative imagination. These attributes are essential not only for a successful career but also for experiencing a fulfilling life.

Information about performances, placement classes, performance auditions, master classes, special events, and scheduling updates is available in the department office.

Placement of Majors and Minors
Placement classes are held the week before fall-term classes begin and during spring term. Faculty adjudicators observe and place students according to the students' knowledge and skill levels. Entering freshmen planning to attend IntroDUCtion in July should attend the spring-term placement class. Incoming students who register in the fall should attend the placement class during Week of Welcome. Students who want to enter professional-level (DAN) technique courses winter or spring term should request a placement decision. More information is available from faculty members. Write or call the department office for dates of placement classes.

Placement classes are held the week before fall-term classes begin and during spring term. Faculty adjudicators observe and place students according to the students' knowledge and skill levels. Entering freshmen planning to attend IntroDUCtion in July should attend the spring-term placement class. Incoming students who register in the fall should attend the placement class during Week of Welcome. Students who want to enter professional-level (DAN) technique courses winter or spring term should request a placement decision. More information is available from faculty members. Write or call the department office for dates of placement classes.
Dance Program for Nonmajors
A variety of dance experiences is provided for enjoyment and enrichment through the dance program. Lower-division DANC courses generally offer beginning or elementary instruction and may be repeated twice for credit. Upper-division DANC courses provide low-intermediate instruction and may be repeated twice for credit. A maximum of 12 credits in DANC courses may be applied to the total number of credits required for a bachelor’s degree.

Lower-division DANC courses provide high-intermediate instruction; upper-division DANC courses provide advanced instruction. See DANC course listing for credit repeatability.

Noncredit DANC and DANO studio courses are also available to matriculated university students through the noncredit student program and to members of the community through community dance. In each case, a modest instructional fee is assessed by the Department of Dance.

Facilities
The Department of Dance has three dance studios and two gymnasia for classes and special activities in dance. Each studio has a piano; each teaching facility has a complete sound system. In addition to serving as classrooms and rehearsal spaces, the studios in Gerlinger Annex convert into the M. Frances Dougherty Dance Theatre, which has lighting and stage equipment for concert productions and seats 250 people.

Performing Opportunities
Dance Oregon. A student organization partially funded by the Associated Students of the University of Oregon, Dance Oregon is open to any student interested in dance. Its general function is to enhance and enrich the dance opportunities offered through the departmental curriculum. To this end, Dance Oregon provides a variety of activities each year that are promoted on and off campus. Examples include showing films and videos of diverse dance forms and cultures; sponsoring professional guest artists to perform, lecture, set repertory, or teach master classes; and organizing student participation in the American College Dance Festival.

Department Productions. The department offers frequent opportunities for students to perform in works by faculty members, guest artists, graduate students, and undergraduates. Performances are produced throughout the year, and any university student may participate. Participants are usually selected through auditions. Supervised performances and performance-related activities carry academic credit.

A student may audition a dance for performance in student concerts or gain experience in performance, teaching, lighting, costuming, makeup, management of productions, or a combination of these. Students can earn practicum credit in dance choreography, production design, and management. Workshop credit for performance and production work is also possible.

Repertory groups tour Oregon and the Northwest presenting concert performances as well as lecture-demonstrations and master classes for public schools, colleges, universities, civic organizations, and community concert series.

Additional Dance Opportunities. Theatrical collaborations with the School of Music or Department of Theater Arts provide performance opportunities that incorporate acting, singing, and dancing. These activities also carry academic credit.

Honor Society and Scholarships
Pi Delta, the University of Oregon’s chapter of Phi Beta, is a professional fraternity for the creative and performing arts. Membership in the collegiate category is open to majors and minors in dance. Pi Delta has active alumni and patron memberships that award yearly scholarships to talented student performers or choreographers. Applicants for the scholarships must be upper-division undergraduate majors or minors who have been at the university for at least a year.

Fees
Majors in the School of Music pay a term fee of $25. In the Department of Dance, this fee helps to pay expenses associated with dance studio activities, such as class accompaniment and unusually demanding maintenance of the facilities and studio theater. This fee exempts dance majors from paying the per-course fee for DANC courses when they are taken for credit.

Undergraduate Studies
The Department of Dance offers curricula leading to bachelor of arts (B.A.) or bachelor of science (B.S.) degree. The goal of the department is to provide comprehensive dance training within the liberal-arts framework of the university. The serious study of dance involves intellectual, artistic, and physical development. The Department of Dance emphasizes all three areas of growth, a commitment made possible by the breadth of its curricular offerings and the depth of faculty expertise.

Facility with oral and written communication is one goal of a liberal-arts education. Therefore, dance majors pursue a course of study to acquire a firm intellectual grasp of the theoretical, historical, and creative forces that shape dance as an art form.

Dance, unique in that it is also a physical form of communication, requires continual experience in its technical foundations. Students are expected and encouraged to experience a variety of forms of dance training and idioms. Production and pedagogy are also integral to the undergraduate core, because many students find careers in theater and teaching.

Goals for the Undergraduate Dance Major
1. Explore the field of dance from a liberal-arts perspective
2. Explore disciplined technique and creative processes involved in the artistry of dance
3. Formulate an intellectual understanding of the historical, philosophical, and culturally significant aspects of dance
4. Develop a working knowledge of music and science as they relate to and enhance the dance experience
5. Develop an understanding of dance as a unique art form in conjunction with its relationship to other art forms and disciplines
6. Develop a level of competence in performance, creative, and theoretical aspects of dance to pursue graduate studies or other professional goals

Preparation. High school students planning to major in dance should include preparation in music, drama, art, and dance.

Students transferring to the UO as dance majors after two years of college work elsewhere should have completed two terms of college-level English composition and courses in basic music theory and modern dance and ballet techniques.

Careers. Career opportunities include performing in regional dance companies and teaching in universities, colleges, community colleges, community centers, fitness centers, and private studios. Business and technical theater management, dance science, dance research, and dance journalism offer alternatives to performance and creative work.

Admission
Students eligible for admission to the university may apply to be admitted as dance majors. Entering freshmen should have a basic knowledge of dance and music as art forms and technical
training in dance. Students transferring from two-year colleges must have at least a 2.75 cumulative grade point average (GPA); in addition, they should have met the university's writing requirement and completed a majority of the university's group requirements. The 2.75 GPA includes all graded credits. Any deficiencies in lower-division dance courses must be met either by proficiency examination or by completion of these core courses at the first opportunity. During their first four terms, beginning and transfer students must pass Looking at Dance (DAN 251) and Fundamentals of Rhythm (DAN 252) to be eligible to continue as dance majors.

The faculty reviews each student for continuation as a dance major upon completion of the following requirements:

1. Passing DAN 251 and 252 with grades of C- or better
2. Passing with grades of mid-B or better the ballet and modern technique courses (DAN or DANC) in which the student was placed upon entry into the program

Students are placed in levels of modern and ballet technique according to skill. Each term students are reviewed to ensure that they are in the most advantageous level for their abilities. Students are placed on departmental probation if they do not achieve grades of mid-B or better in work at the level in which they are placed or if they do not enroll in at least one technique class in any idiom each term.

Satisfactory progress toward the degree must be maintained. Progress is monitored every term by faculty advisers. Students who receive grades of D or F or marks of W (withdraw) or I (incomplete) in courses required for the major are placed on departmental probation and must repeat the courses for passing grades. Students placed on departmental probation, for any reason, have one term to achieve the goals they agreed upon with their academic advisers. While students are on probation, they receive guidance to help them achieve satisfactory progress toward the degree. A student who fails to fulfill the probation contract is dropped from the major.

All courses required for a dance major or minor must be taken for letter grades when that option is available. Each letter-graded course must be passed with a grade of C- or better. A grade of P must be earned in courses designated pass/no pass (P/N) only. The P/N option should be exercised sparingly by students who plan to pursue a graduate degree in dance.

Advising. Students admitted as majors or minors must meet with a dance faculty adviser prior to registration each term. These meetings inform students about prerequisites and progress toward the degree. Appointment schedules for advising are posted by each adviser. Students must have a signed advising contract in their departmental academic file before they may register each term using DUCK CALL. Students without signed advising contracts in their files are dropped from the dance major.

Major Program

Candidates for the bachelor's degree with a major in dance must satisfy general university requirements, select appropriate courses in related areas, and complete the professional course requirements of the Department of Dance.

The breadth requirement in dance technique is fulfilled by completing studio courses (DAN or DANC) in two idioms other than modern or ballet. Lower-division breadth courses should be completed by the end of the sophomore year. Students with experience in any of these forms should enroll in the highest level that reflects their competence in each idiom. Decisions about the appropriate level are made in consultation with an adviser.

The technique requirements for ballet and modern (1) dance majors must enroll in a ballet or modern technique course every term that they are in the program, (2) the minimum competency for graduation is two terms of ballet (DAN 396) and three terms of modern (DAN 394), and (3) during the last three terms before graduation, each major must complete an additional 6 credits of DAN 394 or 396 or higher with minimum grades of B-.

Students who enroll in a DAN or DANC course without completing the course’s prerequisite—either a specific course or an audition or a level of skill—are asked to withdraw. Failure to do so results in a grade of F or N (no pass) for that course.

Required internships, performances, and senior projects can be satisfied in a variety of ways. Through consultation and advising, students choose options for the requirements that allow them to pursue personal interests.

With approval from their faculty adviser, dance majors can focus their 24 credits of elective work in one of three ways: (1) by completing an established minor or second major, (2) by concentrating on one area of emphasis within dance, or (3) by integrated interdisciplinary study.

University requirements for the B.A. and B.S. degrees are explained in the Registration and Academic Policies section of this catalog.

Certification Prerequisite

Three requirements for the dance major are also prerequisites for admission to the Laban Movement Analysis Certification program sponsored by the Laban-Bartenieff Institute of Movement Studies in New York City and the Integrated Movement Studies Program at the University of Utah. These approved courses are Body Fundamentals (DAN 256), Intermediate Movement Notation (DAN 342), and Dance Kinesiology (DAN 360).

Honors College Program

See the Honors College section of this catalog for specific honors college requirements. Departmental requirements for dance majors enrolled in the Clark Honors College include (1) 6 credits of independent study in choreography, ethnology, notation, or technical production leading to the senior honors thesis and (2) either a choreography (minimum of ten minutes) with written description and discussion or an honors essay on an approved research topic.

Minor Program

The dance minor is available to undergraduate students who want to combine an interest in dance with a major in another area of study. Dance studies can complement majors in such fields as journalism, architecture, music, theater
within a period of seven years. This includes preparation can complete an M.S. or M.A. degree in residence. Students who enter with credits transferred from another institution and background deficiencies or who lack a focus for intention is designated during the first year. The 32 credits must include 15 upper-division credits. The core courses must be taken for letter grades and passed with grades of mid-C or better. Electives may be taken pass/no pass (P/N), but students are encouraged to take them for letter grades. A list of courses that satisfy the area requirement is available in the dance department office.

Advising. Students are encouraged to develop a close, communicative relationship with a dance adviser. Each student must plan a program of elective courses with the help of an adviser who monitors the student’s progress through the minor program, ensuring completion of the necessary requirements in the most beneficial order. Work in generic courses (401, 404, 405, 406, 407, 409, 410) is available in the dance department office.

Graduate Studies

The Department of Dance offers master of arts (M.A.) and master of science (M.S.) degrees in three programs—general master’s degree with thesis or choreographic thesis, general master’s degree without thesis, and master of fine arts (M.F.A.) degree.

Work for a master’s degree must be completed within a period of seven years. This includes credits transferred from another institution and the thesis or final project.

Full-time students with adequate undergraduate preparation can complete an M.S. or M.A. degree program in two years if their area of specialization is designated during the first year. The M.F.A. program requires at least three years of study in residence. Students who enter with background deficiencies or who lack a focus for the thesis or final student project typically take more than two years to complete an M.S. or M.A. degree.

Admission

Department Visit. Applicants for admission fall term 2002 are encouraged to visit the dance department Wednesday through Friday, March 13–15, 2002. Plan to arrive for a Wednesday evening performance. Courses, interviews, and choreographic showings will be held Thursday and Friday. Performances, class observations, and faculty interviews help applicants learn about the program. Participation in master classes and preparation of choreographic excerpts help the faculty evaluate applicants and can serve in lieu of preparing a video application. Video applications are acceptable. Video applications must be in half-inch VHS NSDT format and clearly show technical, performance, and choreographic proficiencies. For more information and to register, call or write the department.

Application. Students seeking admission to a master’s degree program should request an application packet from the Department of Dance. An official transcript of the student’s college record must be submitted with the application. Application for enrollment is open to anyone who has graduated from an accredited college or university and has a 3.00 cumulative undergraduate GPA. In addition, applicants must submit three letters of recommendation, an up-to-date vita, and a statement of purpose explaining why they intend to pursue graduate studies in dance at the University of Oregon.

International students whose native language is not English must earn scores of at least 550 on the Test of English as a Foreign Language (TOEFL). A student with a GPA below 3.00 may be admitted upon review of credentials. Students admitted to the graduate program must audition for placement in technique classes. Placement classes are held each spring term and during Week of Welcome before fall term. Dates of these auditions are available in the department office.

Adequate undergraduate preparation in dance theory and technique is required for admission to graduate programs in dance. Applicants with undergraduate deficiencies may be admitted as postbaccalaureate students until the necessary courses are completed.

Deficiencies may be made up by (1) passing proficiency examinations provided by the department, (2) presenting evidence of acceptable practical professional experience, or (3) demonstrating ability on videotape or in person for faculty review. All deficiencies should be corrected at the first opportunity after entering the program.

Graduate Fellowships. Some graduate teaching fellowships are available; applications are picked up in the department office. Applicants must submit a half-inch VHS videotape documenting teaching skills in at least two dance idioms—African, ballet, ballroom, contact improvisation, ethnic, jazz, modern, or tap. Videotapes should document a complete class. Edited highlights of classes are not acceptable. In addition, applicants are strongly urged to visit the dance department. Applications are reviewed beginning March 1 for the following fall term. GIF offers are made beginning April 15. Positions remain open until filled. Fellowship applicants are strongly urged to visit the department March 13–15, 2002; see Department Visit in this section of the catalog.

M.A. and M.S. Requirements

A minimum of 54 graduate credits must be completed for an M.A. or a M.S. degree in dance; at least 30 of these credits must be earned in residence after admission to the graduate program.

Candidates for the M.A. degree must demonstrate proficiency in one second language by submitting evidence of two years of college-level study within the previous seven years or by passing an examination at the university Testing Office, 238 University Health and Counseling Center Building.

Students must enroll in a technique course every term during their studies in residence and earn a minimum of 6 credits in 500-level DAN courses. These 6 credits must be taken for letter grades. Students must take a minimum of 2 credits in Supervised College Teaching (DAN 602). The department recommends that these credits be earned in at least two teaching experiences, which provide opportunities to develop mentor relationships with faculty members.

A final oral thesis defense or terminal project presentation is administered by the student’s faculty committee following completion of the thesis or project.

General Master’s Degree with Thesis (54 credits)

In addition to the requirements described above, candidates for the general master’s degree with thesis must have completed the following course work:

<table>
<thead>
<tr>
<th>Credits</th>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Improvisation</td>
</tr>
<tr>
<td>6</td>
<td>Dance composition</td>
</tr>
<tr>

<td>Dance pedagogy</td>
</tr>
<tr>
<td>3</td>
<td>Dance kinesiology</td>
</tr>
<tr>
<td>3</td>
<td>Dance production</td>
</tr>
</tbody>
</table>

Dance as a discipline at the graduate level requires an understanding of research methodology, theoretical issues, and their practical applications. Required core courses provide this understanding for the student seeking the general master’s degree with or without thesis.

Upon consultation with the director of graduate studies, students may use graduate-level work for the master’s degree to correct deficiencies.

Core Courses

Scientific Aspects of Dance (DAN 560) Research Methods in Dance (DAN 611) Aesthetic Bases for Dance in Art and Education (DAN 693) 

Electives

DAN electives are selected in consultation with the student’s adviser.

Thesis

Students in this program must take a minimum of 9 credits in Thesis (DAN 503). Eight to 16 credits must be earned in graduate courses outside the department. These courses, approved by the major adviser, are selected from fields related to the student’s research. At least 4 credits must be earned outside the department before beginning the thesis.

Students may choose a choreographic thesis with written supporting documentation. Early in their programs, these students should enroll in graduate-level choreography courses. The thesis proposal must be approved by a committee of at least three faculty members.
representing the fields of study related to the program and thesis topic. Graduate School requirements are to be followed in the preparation and defense of the thesis. Refer to "Thesis Guidelines and Procedures for Producing the Thesis Concert," available in the department office, and the University of Oregon Style and Policy Manual for Theses and Dissertations, available from the Graduate School’s website.

**General Master’s Degree without Thesis (54 credits)**

This option includes the general requirements, examinations, and limitations on credits stated earlier. Core courses listed above and correction of any undergraduate-level deficiencies are also required.

The nonthesis option requires 19 credits of elective course work, 8 to 16 credits in an area related to dance, and another 9 project-related credits appropriate to the program selected from within or outside the Department of Dance. All course selections and field choices must have the approval of the student’s adviser.

For the student electing the nonthesis option, a project is required in the area of concentration. The project might take the form of a reconstruction from a notated score or a reconstruction from a historical dance treatise (e.g., from original language or notation to article or performance).

The proposal must be approved by a project committee representing the area of dance concentration.

**Master’s Degree with Emphasis in Dance Science (54 credits)**

This option integrates a degree in dance with a second area of specialization in a related science. A bachelor’s degree in dance or its equivalent is the preferred background. Graduate students must have completed the following course work:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>

</table>

A thesis is required for this master’s degree program. Requirements parallel the general master’s degree with thesis with two exceptions:

1. Core courses for this option are Research Methods in Dance (DAN 611), Aesthetic Bases for Dance in Art and Education (DAN 693), and research method or design courses that include
   a. Quantitative statistics through ANOVA or qualitative research design and methodology
   b. Computer applications in research
   c. Interpretation and critique of research
   Options that satisfy this requirement range from 5 to 9 credits
2. At least 16 credits of elective course work must be taken; 6 of these credits may be in Research (601) taken in another department

This individualized program is designed in consultation with the coordinator of the dance science program to meet the interests of the student. Eight to 16 credits must be earned in graduate courses outside the dance department. These courses are selected from fields related to the student’s research. At least 4 credits must be earned outside the department before beginning the thesis.

All course work for this option must be approved by the dance science coordinator, who must be a member of the student’s thesis committee.

**M.F.A. Requirements**

The master of fine arts is a rigorous terminal degree. Prescribed components provide a foundation upon which each student builds an individualized degree. Flexible emphases, supported by faculty expertise, permit elective areas of study in performance, choreography, education, history, contemporary issues, movement theory and analysis, and dance science. The program emphasizes modern dance with ballet as a strong supporting area.

In addition to earning a minimum of 90 graduate credits, candidates must spend at least three years in residence to complete the degree. Undergraduate prerequisites for the M.F.A. are the same as those listed for the general master’s degree with thesis.

**Goals**

The M.F.A. in dance is designed to develop
- individual creative and scholarly talents, interests and philosophies that can be used to expand and preserve our cultural heritage
- individuals with the potential to solve contemporary problems in dance and to explore and address new questions and issues
- professional competence in the dissemination of knowledge, including the verbal, and written presentation of aesthetic ideas
- scholarly competence in the organization, evaluation and interpretation of knowledge
- professional competence as reflected in a significant body of artistic work

**Thesis (DAN 503) or Terminal Project (DAN 609) 9 credits**

**Satisfactory Progress toward a Master’s Degree in Dance**

1. Qualified students are admitted to the dance master’s degree program with conditional master’s classification. The classification is changed to unconditional master’s after a student has
   a. Corrected undergraduate deficiencies
   b. Completed 12 graduate dance credits with grades of mid-B or better
   c. Achieved a technical skill equivalent to the DAN 300 level in at least one idiom. Studio classes taken to prepare for 500-level DAN courses must be passed with letter grades of mid-B or better

2. Students must meet with a graduate adviser each term to draw up course advising contracts, which ensure that courses taken fulfill university and department requirements.

3. Graduate teaching fellows (GTFs) must satisfactorily complete 9 graduate credits each term as specified in the signed course advising contract.

4. DAN graduate courses must be passed with grades of P or B or better. Courses may be retaken at the next scheduled offering if satisfactory grades are not received. The student may be dropped from the program if a grade of P or B or better is not earned on the second try.

5. Technique and core courses must be taken for letter grades. A minimum of 24 graduate credits must be taken for letter grades; the remaining credits may be taken pass/no pass. P is the equivalent of a B- letter grade or better.

6. Core courses in dance should be completed the first term they are offered during graduate study. Requests for exceptions are considered by the graduate committee after approval by the student’s adviser.

7. Students must have a GPA of 3.00 or better in course work used to meet the requirements of a master’s degree.

8. No more than one incomplete (I) may be earned each term and no more than two each year.

Students have one calendar year or less to finish an incomplete, depending on the nature of the course and the instructor’s requirements

**Introductory Dance Courses (DANC)**

DANC courses are open to students who fulfill the prerequisites and meet placement criteria. Introductory Dance Courses I do not have prerequisites or placement criteria.

Not all courses can be offered every year. A list of courses offered each term is in the current UO Schedule of Classes. Each course requires payment of a laboratory fee.

199 Special Studies: Topic (1–5R)
201–299 Introductory Dance Courses II (1R)
301–398 Introductory Dance Courses II (1R)

399 Special Studies: Topic (1–5R)

Professional Dance Courses (DAN)
DAN courses are open to students who fulfill the prerequisites and meet placement criteria. Generic courses are limited by faculty workload and availability. A list of courses offered each term is in the current UO Schedule of Classes.

198 Workshop: Topic (1–2R) Recent topics include Performance, Production Experience, Repertory.
199 Special Studies: Topic (1–5R)
251 Looking at Dance (4) Overview of dance as a cultural and aesthetic experience. Examines its meaning and impact on contemporary United States society.
252 Fundamentals of Rhythm (3) Fundamentals of music with emphasis on musical style and rhythmic structure.
255 Dance Production I (3) Introduction to production planning, management, lighting, design, costing, and publicity for the dance concert. Practical experience in Dougherty Dance Theatre.
294 Modern Dance Laboratory (2R) Dance technique in the modern idiom. Prereq: placement audition. R for maximum of 24 credits.
296 Ballet Laboratory (2R) Dance technique in the ballet idiom. Prereq: placement audition. R for maximum of 24 credits.
301 Dance and Folk Culture (4) Investigation of origins, meanings, and development of dance culture and related folk arts in selected regions and countries of the world.
302 Dance in Asia (4) History, aesthetics, structure, and content of selected dance forms of India, Cambodia, Thailand, Bali, China, and Japan. Investigates expressiveness and movement choice in cultural contexts. Descutner.

351 Dance Composition I (3) Introduction to creation of dance movement as a communication tool. How to select, develop, vary, and phrase dance movement. Choreography of short dance studies. Prereq: DANC 271, DAN 252.
352 Dance Composition II (3) Compositional forms in dance. Crafting of movements into studies. Prereq: DAN 351.
355 Dance Production II (1–2R) P/N only. Extended application of skills and procedures used in producing a concert. Practical backstage work, pre- and postconcert sessions. Prereq: DAN 255. R eleven times for maximum of 24 credits.
360 Dance Kinesiology (3) Applications of anatomical, muscular, and motor control information to dance training and injury prevention. Chaffield. Offered 2001–2 and alternate years.
394 Modern Dance Laboratory (2R) Dance technique in the modern idiom. Prereq: placement audition. R for maximum of 24 credits.
396 Ballet Laboratory (2R) Dance technique in the ballet idiom. Prereq: placement audition. R for maximum of 24 credits.

401 Research: Topic (1–4R) R with adviser’s consent.
403 Thesis (1–2R)
404 Internship: Topic (1–4R) Apprenticeship under the guidance of a supervising teacher in areas such as teaching, arts management, administration, and dance production. Prereq: junior standing; instructor’s consent. R twice when topic changes for maximum of 12 credits.
405 Reading and Conference: Topic (1–2R)
406 Special Problems: Topic (1–2R)
407/507 Seminar: Topic (1–5R) Recent topics include Contemporary Issues, Dance Careers, Dance in Literature and the Arts, Japanese Dance. R when topic changes.
408/508 Workshop: Topic (1–2R) Topics include choreography, production design, and management.
409 Practicum: Topic (1–2R) Current topics are Choreography, Production Design, and Management.
410/510 Experimental Course: Topic (1–5R) Current topics include Neuromuscular Concerns of Dance, Notation Reconstruction.
411 Senior Project (3) Prereq: instructor’s consent.
453/553 Ballet from the Courts to Balanchine (3) Social and theater dance forms of Western cultures from the Middle Ages through 18th-century ballet into the era of contemporary art. Prereq: DAN 251. Stoddart. Not offered 2001–2.
455/555 Group Choreography (1–3R) Problems and special considerations of group choreography; introduction to the communication of personally created movement to other dancers. Prereq: DAN 352 or instructor’s consent. R for a maximum of 6 credits.
456/556 Ballet Staging (2R) Laboratory to include elements of solo, pas de deux, and corps techniques. Short movement segments drawn from standard ballet repertory. R once for a maximum of 4 credits.
458/558 Music for Dancers (3) Survey of musical form, style, and expressive content. The relationship of instrumentation, melodic development, tonality, and rhythmic structure to choreographic form and style. Prereq: DAN 252 or instructor’s consent.
490/590 Dance Accompaniment (1–3R) Examines technique of communication between the dance teacher and the dance accompanist. Prereq: DAN 252, junior standing, and two consecutive terms of DAN 394 or instructor’s consent; coreq: DAN 491/591. R once for maximum of 6 credits.
493/593 Administration of Dance in Education (3) Organization and administration of dance programs in colleges and universities. Prereq: DAN 491/591 or instructor’s consent. Chaffield, Craig.
494/594 Modern Dance Laboratory (2R) Dance technique in the modern idiom. Prereq: placement audition. R for maximum of 24 credits.
496/596 Ballet Laboratory (2R) Dance technique in the ballet idiom. Prereq: placement audition. R for maximum of 24 credits.

503 Thesis (1–16R)
601 Research: Topic (1–16R)
602 Supervised College Teaching (1–5R)
605 Reading and Conference: Topic (1–16R)
606 Special Problems: Topic (1–16R) Topics include Formal Compositional Structure, Solo Composition, and student-initiated topics. Limited by faculty workload and availability.
607 Seminar: Topic (1–5R) Current topics include Choreographic Analysis and Criticism, Dance Research, Dance Science, Movement Analysis, Movement Patterning. R when topic changes.
608 Workshop: Topic (1–16R) Topics include Performance, Production, Rehearsal. R for maximum of 6 credits.
609 Practicum: Topic (1–16R) Current topics include Choreography, Production Management, and Design.
610 Experimental Course: Topic (1–5R)
611 Research Methods in Dance (3) Review and evaluation of analytical, descriptive, experimen­tal, and creative research in dance and allied fields. Culminating project is a written proposal for original research in dance. 693 Aesthetic Bases for Dance in Art and Education (3) Theories of dance as an art form; function of the dance in the changing social milieu; elements of dance criticism. Prereq for nonmajors: instructor’s consent. Craig.

About the School

The School of Music is housed in a building complex of five units that includes the 550-seat Beall Concert Hall; separate band, choir, and orchestra rehearsal rooms with support facilities; more than thirty practice rooms; a small recital hall; studio offices, classrooms, and seminar rooms.

The Music Services Department, located on the third floor of Knight Library, has composers' complete works, music reference resources, current and bound periodicals, interactive music CD-ROM programs, and a large collection of books and scores. The Douglass Listening Room houses recordings (LPs, cassettes, and compact discs). Facilities include listening carrels with remote-control capability, individual listening rooms, and two group-listening rooms. The score and record collections' strengths include music by Oregon composers, women composers, and contemporary publications provided by approval plans for recently published North American and European scores. The book collection includes a large German-language collection and most United States university-press publications. Reference service to the collection is provided in the Music Services Department.

The School of Music houses seven pipe organs, including a nationally recognized organ by Jorgen Ahrend of East Friesland, Germany—a concert instrument unique in America, and other tracker organs by Flentrop, Schlicker, and Olympic. Two of the four harpsichords available for student use are French doubles by William Dowd.

Three computer-music studios, maintained for qualified students, contain the most recent music technology including programs for an array of synthesis techniques, algorithmic composition, MIDI sequencing and composition, and digital recording and editing in a fully automated mixing environment.

The university owns an extensive collection of orchestral and band instruments and a distinctive collection of ethnic instruments and reproductions of early musical instruments.

orchestra and works composed by its members use instruments from around the world as well as gamelan instruments. The School of Music is the only institution in the nation to include an ensemble of this kind as an integral part of its curriculum.

The Kammerer Computer Lab offers students the opportunity to become familiar with a variety of music notation and sequencing software programs. Users have access to the Internet; e-mail; computer-assisted instructional materials; word-processing, desktop-publishing, and graphics programs for academic use, exploration, and development of computer skills. The lab is equipped for digital audio editing and recording.

Concerts and Recitals

More than 250 concerts and recitals are presented on campus throughout the year by visiting artists, members of the School of Music faculty (Faculty Artist Series), and more than twenty student ensembles. Other regularly scheduled concerts include performances by internationally famous artists sponsored by the Chamber Music Series and the World Music Series.

The annual Vanguard Concert Series features 20th-century music in concerts and workshops. Nationally prominent artists give a public concert and hold workshops in which they read, rehearse, and record music composed for them by members of the Composers Forum. This series is the only one of its kind in the nation that is featured as an essential part of a composition curriculum.

The biennial Music Today Festival, founded and directed by Robert Kye, is a three-week series of concerts and cultural events that celebrates 20th-century music from around the world. The festival features regional performers and ensembles as well as internationally renowned artists. Jazz concerts and workshops by nationally prominent artists offer opportunities for university students to perform. The Jazz Studies Program hosts the Oregon Jazz Celebration, an annual weekend festival that includes workshops for middle school, high school, and college jazz ensembles.

Since 1969 the School of Music has conducted the annual Oregon Bach Festival during a two-week period in late June and early July. The festival, under Artistic Director and Conductor Helmuth Rilling, combines an educational program in choral music for academic credit with the offering of some fifty public concerts and events. While the focus is Bach, major choral and instrumental works by other composers are programmed regularly. Distinguished soloists from around the world are featured with the festival chorus and orchestra. Every other year the School of Music offers a Composers Symposium in conjunction with the Oregon Bach Festival.

THEME is a group of faculty members and graduate students interested in music research. The group meets three or four times a term on Friday afternoons to share the results of ongoing or recently completed research, to discuss the profession of teaching and research, and to hear guest speakers. Recent guest have included Michael Blyth, Thomas Christensen, Robert Gjerdingen, Douglas Hofstadter, Andrew Hornzy, Mark Johnson, Susan McClary, Bruno Nettl, Harold Powers, Jihad Racy, and Carl Schachter.
Honorary Societies
The honorary music fraternity, Pi Kappa Lambda, and the professional music fraternities, Mu Phi Epsilon and Phi Beta, maintain chapters at the University of Oregon. There is also an active student chapter of the Music Educators National Conference.

Ensembles
The University Singers, University Men's Chorus, University Women's Chorus, Chamber Choir, Lab Choir, Oregon Wind Ensemble, Oregon Percussion Ensemble, Oregon Marching Band, Symphonic Band, Oregon Basketball Band, Campus Band, Campus Orchestra, Green Garter Band, University Symphony Orchestra, Brass Choir, Trombone Ensemble, Jazz Guitar Ensemble, Oregon Jazz Ensemble, Jazz Laboratory Bands, Small Jazz Ensembles, Vocal Jazz Ensembles, University Gospel Ensemble, University Gospel Choir, Gospel Singers, Opera Ensemble, Pacific Rim Gamelan, East European Folk Ensemble, and many other small chamber ensembles offer membership and performance opportunities to qualified students. The Collegium Musicum, a vocal-instrumental group, provides opportunities for the study of Renaissance, baroque, and classical music, using the school's collection of reproductions of Renaissance and baroque instruments. The repertory and activities of these ensembles complement school courses in history, criticism, and performance practice studies.

Financial Aid
The following scholarships are available to music students. The application deadline for full consideration is March 1. For more details on financial aid, write to the dean of the music school.

Carol Nelson Cobbett Scholarship
Dorothy Peterson Fallman Scholarship
Elizabeth P. Slottee Memorial Scholarship
Elizabeth Waddell Newman Memorial Scholarship
Eugene Kwanis Foundation George P. Hopkins Scholarship
Francis Y. Doran Scholarship
George B. Van Schaack Memorial Scholarship
Gordon Tripp String Scholarship
Ira and Gertrude Lee Scholarship
Jim Polastri Memorial Scholarships
Linda Jean Moore Scholarship
Marjorie Mitchell Scholarship
Maude and H. B. Densmore Memorial Scholarships, Women's Choral Society
Mu Phi Epsilon Scholarships
Oregon Music Teachers Association Scholarship
Oregon Tuba Association Scholarship
Paul Clarke Stauffer Scholarships
Phi Beta Scholarships
Presser Foundation Scholarship
Robert G. Guiteau Endowed Scholarship
Ruth Lorraine Close Musical Fellowship (about $75,000 awarded annually to approximately fifty students for advanced study in music, with some awards reserved for students in harp and composition)
Vivian Malone Gilkey Endowed Graduate Violin Fellowship
Wayne Riley Atwood Scholarship
Whittfield Memorial Scholarships
William T. McConnell Memorial Scholarship

Public School Teaching Licensure
Teacher licensure at the University of Oregon requires a bachelor's degree in music education and completion of a fifth-year teacher education program. This intense five-term program—summer through summer—combines an academic year of clinical experience in the public schools with supporting course work at the university. During the fall and winter terms, students spend increasingly amounts of time in public school settings; in the spring term they are full-time student teachers. Summer sessions are spent on course work that supports and builds on the activities and experiences of a year's contact with public school students.

More information is available from the chair of the music education program, Paul F. Doerksen.

Fees
Performance Studies (Studio Instruction) (per credit, per term) Dollars
Guitar at a level lower than MUP 180 ................. 80
Guitar at MUP 180 and higher levels for nonmusic majors .............................................. 80
All other performance studies .......................... 60

Students must register for at least 2 credits of performance study. The number of lessons per term is determined in consultation with the instructor. Typically, it is one less than the number of weeks of instruction in the term.

Jazz majors who are enrolled in both jazz and classical performance studies pay a fee for only the course with the fewer credits.

Fee Exemptions
Music majors, provided the instruction is a degree requirement as primary performance study above the 170 level.
Music majors, provided the instruction is a degree requirement as secondary performance study at the 170 level or above, and provided faculty teaching loads permit
Music majors in class piano instruction, provided it is to develop the proficiency required by the student's degree program.

Guitar students are not exempt from performance studies fees.

Other Fees (per term) Dollars
All music majors ........................................... 55
Ensemble fee ................................................ 10
Nonmajors' access to practice rooms .......... 25
Access to locked grand piano practice room ... 10
Rental of university instruments is based on use and value—maximum fee ................................ 50
Short-term instrument rental (per week) ........ 10
Perception-studies instrument fee .................. 10
Use of electronic studio ................................ 50
Use of organs and harpsichords ................. 10
Music-education course fee ......................... 10

A student who needs an accompanist is typically charged a fee by the accompanist.

Performance Studies
Courses in performance studies are listed with the MUP subject code. MUP courses are in two general categories:

Basic and intermediate performance studies (MUP 100–162). Fee required
Fee required unless waived. See Fee Exemptions above

Enrollment in any performance studies sequence must be preceded by an audition. Auditions are conducted to establish details (e.g., level, credits) for registration. Auditions also precede advancement from one level to another.

Performance studies carries 2–4 credits a term. Students giving recitals must be enrolled in performance studies and may enroll in Reading and Conference (MUS 405 or 605) during the term of the recital. The number of credits, up to 4, for Reading and Conference is determined by the instructor. Prerequisite auditions are required to establish the student's readiness for public performance. After the recital a faculty evaluation is required. If approval is given, the recital is formally acknowledged as a fulfilled degree requirement.

Enrollment in performance studies is sometimes limited because of faculty teaching loads. Under such circumstances, priority is given to continuing music majors. Students who are not assigned to a faculty teacher may study with a graduate teaching fellow for credit at extra cost.

Details concerning levels, repertory, and other matters are available upon request.

Piano studies students at the MUP 171 level or above have an accompanying requirement described under Ensemble Requirement.

General Procedures and Policies
Students are responsible for knowing about degree requirements and university and School of Music procedures and policies. This information is found in several sections of this catalog, including About the School, earlier in this section of the catalog. See also the Registration and Academic Policies and Graduate School sections.

Undergraduate Studies
Nonmajors
Courses
The School of Music offers a variety of opportunities for nonmajors to be involved in music courses and performance ensembles. See course listings for details. The following courses, which are open to students who haven't had musical instruction, satisfy some of the university's general-education requirements. See Group Requirements and Multicultural Requirement in the Registration and Academic Policies section of this catalog.

Basic Music (MUS 125)
History of Rock Music I (MUS 264, 265)
History of the Blues (MUS 270)
Themes in the Humanities (HUM 300)
History of Jazz (MUS 350)
The School of Music offers two minors: a minor in elementary education and a minor in music education. Courses applied to the minor must be passed with grades of C- or better.

**Ensembles**

Courses numbers through 499 are for undergraduate; 500-, 600-, and 700-level courses are for graduate students.

- East European Folk Ensemble (MUS 190, 390, 690)
- Collegium Musicum (MUS 191, 391, 691)
- Chamber Ensemble—Brass Choir, Studio Guitar Ensemble, Trombone Ensemble, Tuba Euphonium Ensemble, other ensembles as needed (MUS 194, 394, 694)
- Band—Campus Orchestra, Green Garter Band, Oregon Basketball Band, Oregon Marching Band, Oregon Wind Ensemble, UO Campus Band, UO Symphonic Band (MUS 195, 395, 695)
- Orchestra (MUS 196, 396, 696)
- Chorus—Chamber Choir, Lab Choir, University Gospel Choir, University Gospel Ensemble, Gospel Singers, University Men’s Chorus, University Singers, University Women’s Chorus (MUS 197, 397, 697)
- Jazz Laboratory Band III (MUJ 190, 390, 690)
- Jazz Laboratory Band II (MUJ 191, 391, 691)
- Oregon Jazz Ensemble (MUJ 192, 392, 692)
- Small Jazz Ensemble (MUJ 195, 395, 695)
- Oregon Vocal Jazz (MUJ 197, 397, 697)
- Opera Workshop (MUS 398, 698)
- Gamelan (MUS 490/590)

**Minor Requirements**

The School of Music offers two minors: a minor in music and a minor in music education: elementary education.

**Minor in Music**

The minor in music requires a minimum of 26 credits. 15 of which must be upper division. A minimum of 15 credits must be taken in residence. Courses applied to the minor must be graded C- or better.

Students choose either Option A, which does not require a placement examination, or Option B, which requires a placement examination. Credits are distributed as follows:

**Option A**

26 credits

Choose courses from the subject list below...

**Option B**

26 credits

Music Theory I, II, III (MUS 131, 132, 133), and Aural Skills I, II, III (MUS 134, 135, 136) ......... 12

Choose courses from the subject list below...

**List of Courses by Subject**

**Jazz and Popular Music**

- History of Rock (MUS 264, 265)
- History of the Blues (MUS 270)
- History of Jazz (MUS 350), Innovative Jazz Musicians (MUS 356)

**Performance**

A maximum of 6 credits may be taken in this subject area. Performance studies (Studio Instruction) with concurrent enrollment in a performance ensemble.

**Theory**

- Basic Music (MUS 125)
- Western Art Music (Survey of Music History (MUS 267, 268, 269), Themes in the Humanities (HUM 300), The Music of Bach and Handel (MUS 351), Survey of Opera (MUS 353), Beethoven (MUS 355), Music and Gender (MUS 460)

**World Music**

- Music in World Cultures (MUS 358), Music of the Americas (MUS 359), Introduction to Ethnomusicology (MUS 451), Musical Instruments of the World (MUS 452), Folk Music of the Balkans (MUS 453), Music of India (MUS 454)

Other music courses approved by petition to the undergraduate committee.

**Minor in Music Education: Elementary Education**

The minor in music education: elementary education requires 26 credits, 9 of which must be upper division, in addition to the prerequisites. As a component of this minor, students must complete 23 credits or prerequisites or pass waiver examinations. Nine credits may be transferred from another college or university at the discretion of the coordinator for the music education: elementary education minor. These credits must have been completed in the past seven years. Up to 6 credits in the minor program may be taken pass/no pass (P/N); letter-graded courses applied to the minor must be passed with grades of C- or higher. At least 18 credits must be taken at the University of Oregon.

**Prerequisites**

23 credits

- Music Theory I, II, III (MUS 131, 132, 133) ......... 6
- Aural Skills I, II, III (MUS 134, 135, 136) ......... 6
- Keyboard Skills I, II, III (MUS 137, 138, 139) ......... 3
- Music history: choose two courses from Survey of Music History (MUS 267, 268, 269), Themes in the Humanities (HUM 300) ......... 8

**Required Courses**

9–10 credits

- Basic Performance Studies: Voice (MUP 101) ... 2
- Music for Early Childhood (MUE 428) ......... 3
- Music in Special Education (MUE 429) ......... 3
- Instrumental or choral ensemble ................. 1–2

**Electives**

17–24 credits

- Choose from Orff-Kodály (MUE 420); Children’s Choir (MUE 424), Music Classroom Ecology and Management (MUE 430): technique courses or performance studies in piano, recorder, guitar, or another instrument; summer workshops in music education with the consent of the minor coordinator.

**Music Major Programs**

A detailed checklist of requirements for each degree is available in the undergraduate office, 158 Music Building.

**Bachelor’s Degrees Offered**

Bachelor of Arts (B.A.) in Music

Bachelor of Science (B.S.) in Music

Bachelor of Music (B.Mus.)

Jazz Studies

Music Composition

Music Education

Music Performance

Music Theory

The bachelor of arts in music is primarily for students who want a broad liberal-arts education while majoring in music. The bachelor of science in music is appropriate for those who want a broad education in the sciences or social sciences while majoring in music. Students who want strong preparation in music should work toward the bachelor of music degree.

**Admission**

Students who are eligible for admission to the university may apply to the School of Music for admission as music majors.

**Auditions**

The audition is the single most important factor in determining admission to the School of Music in most degree programs. Applicants to most music degree programs must audition or submit an audition tape as part of the admission process. Students who submit a tape are required to audition in person upon arrival on campus. Auditions, both for admission and for scholarships, are held in February each year or by appointment. A brochure describing the audition process is available from the undergraduate office, 158 Music Building.

Students who plan on seeking a B.A. with the history and literature option or a B.S. with the music technology option are not required to audition as part of the admission process, although an audition is required later for placement in performance studies.

**Admission to a Specific Degree Program**

Initial admission to the School of Music is as a music major. Official admission to a degree program occurs after the student successfully completes two years of core studies.

Students who have been in residence for two years but have not successfully completed the two years of core studies are placed on probation as music majors. If these courses have not been completed by the end of the third year, the student is suspended from the major and must pay for lessons. Reinstatement to the major occurs automatically once the courses have been successfully completed.

Procedures and requirements for admission to a specific degree program in the School of Music vary with each program and are available from the undergraduate office. A brief summary follows:

**Composition (B.Mus.)—Successful completion of Composition I (MUS 240), 241, 242) with grades of B- or better.**

**Music Education (B.Mus.).** Application to degree program, audition, interview.

**Music—Music History and Literature Option (B.A.) and Music Theory (B.Mus.)**. Thorough review of student’s record and interview.

**Music—Technology Option (B.S.).** Three audio recordings of recent compositions (cassette, DAT, or CD formats)—candidates who have completed
Students who want to enter the jazz studies major have a second audition. A placement examination specific to jazz studies is student's preference, level of ability, major per­
studies must enroll concurrently in a band, cho­
ination at the time of entrance.

Placement Examinations Placement examinations are required of first-year music majors and transfer students. The freshman placement examination determines the appropriate placement for students beginning college-level study in music theory, aural skills, and keyboard skills. Students are placed either in preparatory courses or in undergraduate core courses. The transfer placement examination determines the appropriate core courses for students who have some college-level study in music. Study guides for these examinations are available in the undergraduate office.

Performance Studies Placement examinations require an audition, which can be scheduled by appointment. Dates for auditions, usually held winter term, are available in the un­
dergraduate office of the School of Music. Details about repertory and procedure are available on request from the undergraduate office. Ap­
iers who are unable to arrange an on-campus audion may submit a tape recording.

Jazz Studies. Students who want to enter the jazz studies major have a second audition. A placement examination specific to jazz studies is required of freshmen and transfer students who want to enter the program.

Program Requirements

Ensemble Requirements Music majors and minors enrolled in performance studies must enroll concurrently in a band, ch­
us, or orchestra. These students must audition for ensemble placement before each fall term. Students entering winter and spring terms audi­
tion at the time of entrance.

In making assignments, a faculty audition­
ing committee and the performance instructors give priority to the University Symphony Orchestra, the University Singers, and the Oregon Wind Ensemble. Assignments take into account the student’s preference, level of ability, major performance medium, educational and musical needs, and the needs of the school’s ensembles. Exceptions may be considered by the under­
graduate committee after the student completes the following procedure:

1. Audition for the appropriate ensemble audition­
ing committee (choral or instrumental)
2. Complete a petition
3. Return the petition to the undergraduate office

Accompanying Requirement for Piano Students. Undergraduates studying piano at the MUP 171 level or higher as their primary performance medium must fulfill at least half their ensemble requirement by enrolling in Chamber Ensemble. Accompanying (MUS 194, 394). A detailed accompanying policy is available from the undergraduate office.

Exceptions to Ensemble Requirements Students who meet one of the following excep­
tions are not required to audition for fall term ensemble placement.

1. Harp, classical guitar, harpsichord, and organ students may enroll in a chamber ensemble instead of the large conducted ensembles.
2. Jazz studies majors must enroll in three terms of chamber ensemble, band, chorus, or orchestra. With the approval of the director of jazz studies, the remainder of the requirement may be fulfilled by enrolling in Small Jazz Ensemble (MUI 195, 395) or Chamber Ensemble (MUS 194, 394) instead of large conducted ensembles.
3. Piano students enrolled in performance studies at the MUP 171 level or higher may enroll in Chamber Ensemble (MUS 194, 394) or The Collaborative Pianist (MUS 421, 422, 423) instead of large conducted ensembles.
4. Composition students may enroll in three terms of Gamelan in partial fulfillment of the ensemble requirement.
5. Studio guitar students may enroll in a chamber ensemble, studio guitar ensemble, or jazz ensemble instead of the large conducted ensembles.

Each degree requires a specific number of terms of ensemble. Some degrees require participation in specific ensembles.

General Requirements

In addition to the general university requirements for bachelor’s degrees (see the Registration and Academic Policies section of this catalog), all undergraduate degrees in music require the following:

Core Courses 54 credits

Music Theory I, II, III (MUS 131, 132, 133) ........ 6
Aural Skills I, II, III (MUS 134, 135, 136) .......... 6
Keyboard Skills I, II, III (MUS 137, 138, 139) .... 6
On the Nature of Music (MUS 167) ............... 2
Music Theory IV, V (MUS 231, 232) ............... 4
Aural Skills IV, V, VI (MUS 234, 235, 236) .... 6
Keyboard Skills IV, V, VI (MUS 237, 238, 239) .. 6
Survey of Music History (MUS 267, 268, 269) ... 12
Analysis (MUS 224, 325, 326) ................. 9
Student Forum (MUS 170 or 370) (nine terms) ...

Students must pass a musical repertoire identification examination before graduation, preferably by the end of the freshman year. Guided Listening (MUS 168, 169) is offered as an aid to passing the examination.

Satisfactory Progress toward the Degree

Satisfactory progress toward the degree is moni­
tored every term by the director of undergraduate studies.

Majors must earn a C- or better in every course—
cluding courses taken outside the School of Music—required for their degree program.

Candidates for a B.Mus. in jazz studies, music education, or music performance must advance to the next performance level at least once every five terms.

Students are allowed two attempts to earn a grade of C- or better in any course required for a music major. A student who receives a grade of D+ or lower or a mark of W (withdrawal) or I (incomplete) for a required course is placed on probation. Probationary status must be removed by the end of the next term in which the course is offered. Any student who fails to fulfill this pro­
bation contract is dropped from the major.

Sample First-Year Program

Fall Term 16 credits

On the Nature of Music (MUS 167) ................. 2
Performance Studies (Studio Instruction) .......... 4
Group-satisfying courses ............................. 8
Student Forum (MUS 170 or 370)

Winter Term 16 credits

Student Forum (MUS 170 or 370)

Specific Degree Requirements

Minimum requirements for a bachelor’s degree in music are 36 credits in the major, including 24 upper-division credits. In addition to general university requirements and the general require­
ments for all undergraduate music degrees, each undergraduate music degree has the following specific requirements.

Bachelor of Arts B.A. in Music Bachelor of arts degrees require proficiency in foreign language (see the Registration and Academic Policies section of this catalog)

General Music Option credits
Performance studies (MUP 171 or above), at least three terms with concurrent enroll­
ment in assigned ensemble ....................... 6-12
Ensemble: at least six terms ....................... 6-12
History of Western Art I, II, III (ARH 204, 205, 206) or World Literature (ENG 107, 108, 109) .... 12
Senior project: a scholarly work, extensive paper, recital, presentation, lecture or lecture-recital, or composition. If a recital is chosen, three terms of performance study at the MUP 341 level or higher are required. Enrollment in Senior Project (MUS 499) is optional; consult adviser for details and procedure

Music History and Literature Option credits
Performance studies: at least three terms, with concurrent enrollment in assigned ensemble, the last term of which must be MUP 140 or above ......................... 3-6
Ensemble: at least three terms ..................... 6-12
History of Western Art I, II, III (ARH 204, 205, 206) or World Literature (ENG 107, 108, 109) .... 12
Upper-division music literature courses or seminars or a senior project completed under faculty guidance ................................................. 9
Optional enrollment in Reading and Conference (MUS 405); consult adviser for details and procedure

Bachelor of Science
B.S. in Jazz Studies
Bachelor of science degrees require competence in mathematics or computer science (see the Registration and Academic Policies section of this catalog)

General Music Option credits
Performance studies (MUP 171 or above), at least three terms with concurrent enrollment in assigned ensemble .......................... 6-12
Ensemble: at least six terms ........................................... 6-12
Senior project: a scholarly work, extensive paper, recital, presentation, lecture or lecture-recital, or composition. If a composition is chosen, three terms of performance study at the MUP 341 level or higher are required. Senior Project (MUS 499) is optional; consult adviser for details and procedure

Music Technology Option credits
Performance studies: at least three terms, with concurrent enrollment in assigned ensemble, the last term of which must be at the MUP 140 level or above .................................................... 6
Concepts: at least three terms .............................................. 3-6
Concepts of Computing: Information Processing (CIS 110) ..................................................... 4
Concepts of Computing: Computers and Computation (CIS 111) ................................................. 4
Multimedia on the Web (CIS 115) ........................................... 4
Concepts of Computers: Algorithms and Programming (CIS 122) .................................................. 4
Physics of Sound and Music (PHYS 152) ........................................... 4
Reading and Conference: History of Electroacoustic Music (MUS 405) ........................................... 3
Midst for Musicians (MUS 419) ................................................. 2
Electronic Music Techniques II (MUS 443, 444) ................................................................. 6
Advanced Electronic Composition (MUS 445) ......................................................... 12
Computer Music Applications (MUS 446) ......................................................... 3
Choose at least 26 credits from: Composition I, II, III (MUS 240, 241, 242; 340, 341, 342; 440, 441, 442), String Ensemble (MUS 430, 431, 432), Advanced Electronic Composition (MUS 445), Piano Literature (MUS 446, 465, 466), Orchestral Music (MUS 470, 471, 472), History of Opera (MUS 474, 475), advanced performance studies, additional ensembles, courses in the music of other cultures ........................................ 32
Senior project completed under faculty guidance. Enroll in Senior Project (MUS 499); consult adviser for details and procedure .................................................. 3-9

Bachelor of Music
B.Mus. in Jazz Studies credits
Ensemble: Small Jazz Ensemble (MUJ 195, 395), nine terms including six at the 300 level ......... 15
Three terms of classical chamber ensemble, band, orchestra, or chorus (MUS 194, 195, 196, 197, 394, 395, 396, 397) .................................................... 3-6
Small Jazz Ensemble Laboratory (MUJ 186, 187, 188, 280, 281, 282) .................................................... 6
Performance Studies (Studio Instruction) (MUJ 171 or above, including three terms of MUP 271 or above) .................................................... 12
Jazz Theory (MUJ 270) .................................................... 2
Functional Jazz Piano I, II (MUJ 271, 272) .................................................... 4
Jazz Improvisation I, II (MUJ 273, 274) .................................................... 4
History of Jazz (MUJ 350) .................................................... 4
Music in World Cultures (MUS 358) or Music of the Americas (MUS 359) .................................................... 4
Workshop: Recording Techniques (MUS 408) .................................................... 3
Electronic Music Techniques I (MUS 443) .................................................... 3
Jazz Repertoire I, II, III (MUJ 474, 475, 476) .................................................... 6
Jazz Arranging I, II, III (MUJ 480, 481, 482) .................................................... 9
Advanced Jazz Repertoire I, II, III (MUJ 477, 478, 479) or Advanced Jazz Arranging I, II, III (MUJ 483, 484, 485) .................................................... 9
Electives .................................................... 20
Suggested electives include studio instruction: jazz performance studies
Proficiency in Finale music notation software as determined by the jazz studies faculty
Senior recital: consult director of jazz studies for details
A total of at least 125 music credits including electives and required courses

B.Mus. in Music Composition credits
Composition I, II, III (MUS 240, 241, 242; 340, 341, 342; 440, 441, 442) .................................................... 27
Ensemble: at least nine terms .................................................... 18
Schenkerian Analysis (MUS 430, 431, 432) .................................................... 9
Counterpoint (MUS 433) .................................................... 3
Scoring for Voices and Instruments (MUS 439) .................................................... 3
One course in electronic or computer music applications chosen from Electronic Music Techniques I, II (MUS 443, 444), Advanced Electronic Composition (MUS 445), Computer Music Applications (MUS 446) .................................................... 3
One course in Ethnomusicology chosen from Music in World Cultures (MUS 358), Music of the Americas (MUS 359), Introduction to Ethnomusicology (MUS 451), Musical Instruments of the World (MUS 452), Folk Music of the Balkans (MUS 453), Music of India (MUS 454), Gamelan (MUS 490) .................................................... 2-4
Proficiency in piano (MUJ 271) or proficiency in piano (MUP 140 or another instrument or voice (MUJ 171 or above)
Proficiency in conducting determined by the composition faculty
A total of at least 121 music credits including electives and required courses
Senior recital: a public performance of compositions written by the student under the guidance of the composition faculty
Final approval of the student's recital and general qualifications by the composition faculty

B.Mus. in Music Education credits
Foundations of Music Education (MUE 326) .................................................... 3
Approved course in adolescent development and behavior; Development (PSY 375) recommended .................................................... 4
Teaching Laboratory I (MUE 386, 387, 388) .................................................... 3
Voice Pedagogy (MUE 391) .................................................... 1
Instrumental Techniques (MUE 392), seven terms .................................................... 7
Practicum: Early Field Experience (MUE 409), three terms .................................................... 3
Band Methods (MUE 411) or Teaching Methods: Secondary Choral and General (MUE 413) .................................................... 3
Teaching Methods: Elementary Choral and General (MUE 412) .................................................... 3
Scoring for Voices and Instruments (MUS 439) .................................................... 3
Advanced Composition and Electives (MUS 448) .................................................... 3
Advanced Instrumental Conducting (MUS 486) .................................................... 3
Teaching Laboratory II (MUE 486, 487, 488) .................................................... 3
Ensemble, at least twelve terms .................................................... 24
Performance studies with concurrent enrollment in assigned ensemble .................................................... 18
A total of at least 125 music credits including electives and required courses
Minimum cumulative grade point average (GPA) of 2.50; at least two terms in residence
Admission to the music education program requires faculty approval at the end of the sophomore year

Choral and General Option. Students whose primary performance medium is piano must pass at least three terms of MUP 271 or above and pass three terms of Intermediate Performance Studies: Voice (MUP 140), Students whose primary performance medium is voice must pass at least three terms of MUP 274 or above and pass three terms of Functional Piano (MUP 163)

Instrumental Option. Students whose primary performance medium is a band or orchestra instrument must pass at least three terms at the MUP 300 level or above (piano, organ, recorder, harp, and guitar may not be used to meet instrumental option requirements)

B.Mus. in Music Performance credits
Performance studies: at least 36 credits including three terms at the MUP 400 level or above with concurrent enrollment in assigned ensemble .................................................... 36
Upper-division MUS electives .................................................... 5
Ensemble: at least twelve terms
A total of at least 121 music credits including required and elective courses
Junior and senior recitals: credit may be earned in Reading and Conference: Recital (MUS 405); consult studio teacher for details
Areas of specialization are bassoon, cello, clarinet, classical guitar, euphonium, flute, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, string bass, studio guitar, trombone, trumpet, tuba, viola, violin. Students may also specialize in more than one wind instrument. Consult studio teacher for details. Additional requirements for each option follow:

Voice Option. Proficiency in French, German, Italian equivalent to completion of one year of college study in each of two languages or two years of study in one language
Two terms of Introduction to Lyric Diction (MUS 155, 156). Consult adviser for details
Chamber ensemble (MUS 194 or 394), one term

Piano Option. Six of the twelve terms of ensemble must be in Chamber Ensemble (MUS 194, 394)

Practicum. The twelve terms of ensemble must be in Chamber Ensemble (MUS 194, 394)

Performance studies: at least three terms of MUP 271 or above with concurrent enrollment in assigned ensemble minimum of 18 Advanced Keyboard Harmony (MUS 425) .................................................... 2

Strings, Woodwinds, Brass, Guitar, and Harp Option. In addition to the twelve terms of ensemble, at least three terms of Chamber Ensemble (MUS 194, 394)

Percussion Option. In addition to the twelve terms of ensemble, twelve terms of Percussion Master Class (MUS 411) and one term of Instrumental Techniques: Percussion (MUE 392) are required

B.Mus. in Music Theory credits
Performance studies: at least three terms of MUP 271 or above with concurrent enrollment in assigned ensemble minimum of 18 Advanced Keyboard Harmony (MUS 425) .................................................... 2

School of Music
Music

Schenkerian Analysis (MUS 430, 431, 432) .............. 9
Counterpoint (MUS 433, 434, 435) .................. 12
Soning for Voices and Instruments (MUS 439) .......... 3
Choose from Composition I (MUS 246, 241, 242),
Music in World Cultures (MUS 358), Music of the
Americas (MUS 359), Score Reading (MUS 426),

A total of at least 121 music credits, including
electives and required courses
College Composition I and III (WR 121 and 123)
strongly recommended
Senior lecture-recital; optional Reading and
Conference (MUS 405); consult adviser for details
Final approval of the student's lecture-recital and
general qualifications

Graduate Studies

Detailed checklists for graduate degrees are avail­
able from the graduate office, 154 Music Building.

Fifth-Year Program for Initial
Teacher Licensure

Students are admitted to the fifth-year program with
credit postbaccalaureate status, which does not
constitute admission to the master’s degree program in
music education. Students who want
to complete the master’s degree as well as licence
must apply to the music-education faculty for
approval.
Candidates for the fifth-year program are required
to establish an area of emphasis.

Areas of Emphasis

Band
Choral
Early childhood and elementary general music
String

Advanced methods I, II and licensure level (see
fifth-year checklist)
Choose one course according to area of empha­
sis: Seminars: Wind Materials for Schools or
Orchestra Development (MUE 507), Band Methods
(MUE 511), Teaching Methods: Elementary
Choral and General (MUE 512), Methods:
Secondary Choral and General (MUE 513), Orff­
Kodaly (MUE 520), Teaching Singing in the Class­
room (MUE 542), Jazz and Marching Methods
(MUE 555), Music for Early Childhood
(MUE 528), Choral Materials for Schools
(MUE 544), String Methods (MUE 556), Admin­
istration of School Music (MUE 636) .......... 3
Experimental courses (EDLD 610 and
SPED 610) .................................................. 7
Practicums (EDUC 609) in music education, three
terms (3,3,9) .................................................. 15
Supervised Field Experience (MUE 777),
three terms, 1 credit each term .................. 3
Students may enroll concurrently in the fifth­
year licensure program and the M.Mus. in music
education program. Music Classroom Ecology
and Management (MUE 530), Technology of
Teaching Music (MUE 637), and advanced
methods requirements may be used to fulfill the
degree area of emphasis for the M.Mus. in music
education.

Master’s Degree Programs

Master’s Degrees Offered
Master of Arts (M.A.)
Music History
Music Theory
Master of Music (M.Mus.)

Jazz Studies
Composition-arranging option
Instrumental performance option
Music: Conducting
Choral option
Orchestral option
Wind ensemble option
Music: Piano Pedagogy
Music Composition
Music Education
Music Performance
Multiple woodwind and brass
instruments option
Violin and viola performance and
pedagogy option

Admission

Applicants must satisfy general university,
Graduate School, and School of Music require­
ments governing admission. See the Graduate
School section of this catalog for information
about credits, residence, and transfer of graduate
work taken elsewhere.

Send to the Office of Admissions, 1217 University
of Oregon, Eugene OR 97403-1217: the original
copy of a Graduate Admission Application, a $50
fee, and an official transcript showing receipt of a
bachelor’s degree.

Send the following materials to the director of
graduate studies, School of Music:
1. The four carbon copies of the Graduate
Admission Application
2. A copy of transcripts of all undergraduate and
graduate study
3. Three written recommendations, one from a
primary-area faculty member
4. A statement of career goals including purpose
and intent in earning a graduate degree
5. A recent sample, such as a term paper, of the
applicant’s scholarly writing
6. Supporting material related to the primary area
of interest. Performance students: a tape, a
repertoire list, and copies of programs from
solo public performances; composers: musical
scores and tapes, list of compositions, and
copies of programs from performances of
applicant’s works; music education majors:
copies of programs conducted; jazz studies:
a tape demonstrating improvisation over
standard jazz repertoire, musical scores with
accompanying tape; other music majors: copies of
recent programs in which the applicant has
participated
Following are additional admission requirements for
each major or area of emphasis:

Jazz Studies
Instrumental Performance. University of Oregon
B.Mus. in jazz studies or equivalent; advanced
improvisational skills with substantial study of
jazz repertoire.

Composition-Arranging. University of Oregon
B.Mus. in jazz studies or equivalent skills; sub­
stantial portfolio of arrangements or composi­
tions for large and small jazz ensemble.

Music: Conducting
Choral Conducting. Minimum of two years of
successful conducting experience supported by
letters of recommendation, tapes, and programs.

Orchestral Conducting and Wind Ensemble
Conducting. Proficiency to enter Performance Studies
(Studio Instruction): (MUP 641 level or above).
Student must also have two years’ experience as a
conductor and pass an audition of conducting
skills.

Music: Piano Pedagogy
Proficiency to enter Performance Studies (Studio
Instruction): Piano (MUP 641).

Music Composition
Demonstration of substantial ability and techni­
cal skill in composition by submitting to the
composition faculty scores and tapes of original
works for large and small ensembles and evidence
of a senior recital or other performance of the
candidate’s works. The candidate should arrange
an interview with a member of the composition
faculty, if possible, prior to the first term of
graduate study.

Music Performance
Proficiency to enter Performance Studies (Studio
Instruction) (MUP 671-694). Prospective voice
specialists must also have piano proficiency in
sight-reading and accompanying.

Any student whose admission is based on a taped
performance is considered tentatively admitted
until that student has a live audition at the begin­
ing of study.

Multiple Woodwind and Brass Instruments. Profi­
cency to enter Performance Studies (Studio
Instruction) (MUP 681-690) in primary instrument.
Proficiency to enter Performance Studies (Studio
Instruction) (MUP 621-630) in two secondary
instruments.

Entrance Examinations

Students who are admitted into a master’s degree
program, either conditionally or unconditionally,
must take entrance examinations in music theory
and music history before their first term of enroll­
ment. These examinations are given before the
first day of classes each term. Students who do
not take the examination prior to their first term
on campus or who do not pass the examinations
(or portions of them) must complete prescribed
courses by the end of their second term of enroll­
ment. Entering students in music education must
pass a teaching-skills examination or complete
courses prescribed by the music education
committee.

Program Requirements

Detailed information about School of Music
graduate programs is in the Graduate Procedures
and Policies booklet, available in the graduate
office.

Ensemble Requirements

Each degree requires a minimum number of
terms of ensemble, and some require participation
in specific ensembles.
In addition, students, other than keyboard or guitar specialists, enrolled in performance studies must be concurrently enrolled in a band, chorus, or orchestra, and they must audition for ensemble placement before each fall term. Students entering winter and spring terms audition at the time of entrance. In making assignments a faculty auditioning committee and the performance instructors give priority to the University Symphony Orchestra, the University Singers, and the Oregon Wind Ensemble. Assignments take into account the student’s preference, level of ability, major performance medium, educational and musical needs, and the needs of the school’s ensembles.

Accompanying Requirement for Piano Students. Master’s degree candidates studying piano at the MUP 171 level or higher as their primary performance medium must fulfill at least half their ensemble requirement by enrolling in Chamber Ensemble Accompanying (MUS 694). A detailed accompanying policy is available from the graduate office.

Jazz Studies. Majors may, with the approval of the director of jazz studies, enroll in Small Jazz Ensemble (MUJ 695), Chamber Ensemble (MUS 694) instead of large conducted ensembles.

Keyboard and Guitar. Instead of the large conducted ensembles, keyboard and guitar specialists may enroll in a Chamber Ensemble (MUS 694), and keyboard students may enroll in The Collaborative Pianist (MUS 521, 522, 523). Other students who are enrolled in a chamber ensemble must enroll concurrently in an assigned conducted ensemble.

Voice. Majors must enroll in at least three terms of Chorus (MUS 697), but may enroll in Opera Workshop (MUS 698) for the remaining terms. Exceptions may be considered by the undergraduate committee after the student completes the following procedure:

1. Audition for the appropriate ensemble auditioning committee (choral or instrumental)
2. Complete an Ensemble Requirement Petition
3. Return the petition to the graduate office

Degree Requirements
A minimum of 30 percent of degree requirements must be taken in 600- or 700-level courses. Degree candidates must give the coordinator of graduate studies a copy of the terminal project—written and audio or video recording—for the Music Services Department’s archives in Knight Library. In addition to Graduate School requirements for master’s degrees (see the Graduate School section of this catalog), each degree program listed below has specific requirements.

Master of Arts
M.A. in Music History credits
Performance studies, at least three terms .......... 6
Research Methods in Music (MUS 611) ............. 3
Appropriate ensemble, at least three terms .... 3-6
Choose four of the following: Music in the Middle Ages (MUS 660), Music in the Renaissance (MUS 661), Music in the Baroque Era (MUS 662), Music in the Classical Period (MUS 663), Music in the Romantic Era (MUS 664), Music in the 20th Century (MUS 665) .................. 12
At least 9 credits in music history or theory seminars (MUS 507, 607) .................. 9

Electives in music history or theory or appropriate area outside music; recommended courses are MUS 564-576, 643, 644, 689, or additional seminars (MUS 507, 607)
Thesis (MUS 503) ........................................ 9
A total of at least 48 graduate credits

Language requirement: reading proficiency in a second language (usually German), demonstrated by two years of successful undergraduate study, one year of German for Reading Knowledge (GER 327, 328, 329), or by passing an examination. Language courses taken to satisfy this requirement do not count toward the 48 total credits

Completion requirements: an oral examination reviewing the thesis and degree course work

Master of Music
M.Mus. in Jazz Studies

Composition-Arranging Emphasis credits
Computer Music Applications (MUS 546) .......... 3
Advanced Jazz Arranging I,II,III (MUJ 583, 584, 585) .......... 9
Research Methods in Music (MUS 611) ............. 3
Pedagogy and Practicum: Jazz Studies (MUE 639) .................. 3
Jazz Program Planning and Development (MUJ 661) .......... 3
Music in the 20th Century (MUS 665) ............. 3
Large Jazz Ensemble (MUJ 690 or 691 or 692) .................. 12
Small Jazz Ensemble (MUJ 695), two terms .......... 4
Choose at least 6 credits from Seminar: Topics in Ethnomusicology (MUS 507), Workshop: Instrumental Conducting (MUJ 508), Schenkerian Analysis (MUS 530, 531, 532), Introduction to Ethnomusicology (MUS 551), Folk Music of the Balkans (MUS 553), Music of India (MUS 554), Gamelan (MUS 590), Advanced Aural Skills (MUS 635), Technology of Teaching Music (MUE 637) .................. 6
Consul adviser for additional required courses. Electives at the 500 level or above chosen in consultation with the advisor

M.A. in Music History credits
Performance studies, at least three terms .......... 6
Research Methods in Music (MUS 611) ............. 3
Appropriate ensemble, at least three terms .... 3-6
Choose four of the following: Music in the Middle Ages (MUS 660), Music in the Renaissance (MUS 661), Music in the Baroque Era (MUS 662), Music in the Classical Period (MUS 663), Music in the Romantic Era (MUS 664), Music in the 20th Century (MUS 665) .................. 12
At least 9 credits in music history or theory seminars (MUS 507, 607) .................. 9

Completion requirements: compositions or arrangements of substantial dimension, composed under the guidance of a member of the music faculty. Public recital and recording of works composed under the guidance of a member of the music faculty and approved by the jazz studies committee. Final oral examination with emphasis on jazz history, literature, and pedagogy

Institutional Performance Emphasis credits
Computer Music Applications (MUS 546) .......... 3
Advanced Jazz Repertoire I,II,III (MUJ 577, 578, 579) .......... 9
Research Methods in Music (MUS 611) ............. 3
Pedagogy and Practicum: Jazz Studies (MUE 639) .................. 3
Jazz Program Planning and Development (MUJ 661) .......... 3
Music in the 20th Century (MUS 665) ............. 3
Large Jazz Ensemble (MUJ 690 or 691 or 692), three terms .......... 9
Small Jazz Ensemble (MUJ 695), three terms .......... 6
Choose at least 6 credits from Topics in Ethnomusicology (MUS 507), Schenkerian Analysis (MUS 530, 531, 532), Introduction to Ethnomusicology (MUS 551), Folk Music of the Balkans (MUS 553), Music of India (MUS 554), Gamelan (MUS 590), Advanced Aural Skills (MUS 635), Technology of Teaching Music (MUE 637) .................. 6
Consul adviser for additional required courses. Electives at the 500 level or above chosen in consultation with the advisor

M. Mus. in Music: Conducting

Choral Emphasis credits
Seminar, practicum, and choral literature courses selected in consultation with the adviser .......... 16
Performance studies at least three terms of voice .......... 6
Appropriate ensemble, including at least three terms of choral ensemble .......... 6
Research Methods in Music (MUS 611) ............. 3
Music history courses selected from MUS 661-665, but not more than six credits in any one method. Minimum of 6 credits
Instrumental Conducting Master Class (MUS 686) ............. 3
Two summer workshops associated with the Oregon Bach Festival .......... 6-12

Courses selected from Scoring for Voices and Instruments (MUS 539), Pedagogy and Practicum: Voice (MUE 639), Notation of Medieval and Renaissance Music (MUS 643, 644), Performance Practices before 1800 (MUS 689), Collegium Musicum (MUS 691) for a degree total of at least 54 credits. Consult adviser for additional required courses.

Three consecutive terms in residence, excluding summer sessions

Completion requirements: conduct at least two public performances of choral ensembles (faculty approval required), piano proficiency examination, final oral examination that includes coverage of degree course work

Orchestral Emphasis credits
Orchestral Music (MUS 570, 571, 572) .......... 6
Research Methods in Music (MUS 611) ............. 3
Choose one course in electronic or computer music applications from Electronic Music Techniques II (MUS 543, 544), Advanced Electronic Composition (MUS 548), Computer Music Applications (MUS 546) ... 3
Choose one course in ethnomusicology from Introduction to Ethnomusicology (MUS 551); Musical Instruments of the World (MUS 552); Folk Music of the Balkans (MUS 553); Music of India (MUS 554); Gamelan (MUS 590), two terms ......... 4
Research Methods in Music (MUS 611) ......... 3
Advanced Composition Studies (MUS 640, 641, 642) ... 6
Choose one course from MUS 661-664 ... 3
Music in the 20th Century (MUS 665) ... 3
At least two courses outside the School of Music at the 500 level or above ........... 4-8
Thesis (MUS 503): a composition of substantial dimension, composed under the guidance of a member of the music composition faculty, performed and recorded on campus .... 9
In consultation with an adviser, choose music electives to complete at least 54 graduate credits
Proficiency in Schenkerian analysis equivalent to MUS 530, 531, 532
Proficiency in counterpoint equivalent to MUS 533, 534, 535
Proficiency in piano (MUP 271) or proficiency in piano (MUP 171) and proficiency in another instrument or in voice (MUP 171 or above)
Public performance—usually a graduate recital—of works composed under the guidance of a member of the composition faculty
Final oral examination reviewing the thesis and degree course work
M.Mus. in Music Education
Candidates are required to establish an area of emphasis.
Areas of Emphasis
Choral conducting and literature
Elementary general music
Instrumental conducting and literature
Other areas of emphasis within or outside the School of Music can be arranged (consult adviser and graduate committee)
Ensemble: at least three terms
Performance studies: at least three terms
Electives, approved by an adviser, to total at least 50 graduate credits

M.Mus. in Music Composition
Credits
Appropriate ensemble, at least three terms ... 3-6
Composers’ Forum (MUS 538), at least three terms ... 9

3. Major project consisting of a recital (if performance studies is MUP 641-662 or above) and oral examination
The oral examination in each option includes coverage of degree course work.

M.Mus. in Music Performance
Options are available in bassoon, cello, clarinet, euphonium, flute, harp, harpsichord, horn, oboe, organ, percussion, piano accompanying, solo piano, saxophone, string bass, trombone, trumpet, tuba, violin, voice.

Core Requirements
Research Methods in Music (MUS 611) ............ 3
Performance Studies (Studio Instruction) (MUP 670-691) (except for piano accompanying option) ........... 12
Appropriate ensemble, at least three terms (except for piano accompanying option) ..... 3-6
Collegium Musicum (MUS 691) .................. 1
Seminars or courses in music history or literature at the 500 level or above approved by an adviser (except for voice and piano accompanying options) ........... 12
Electives, approved by an adviser, to total at least 48 graduate credits
Public recital: consult adviser for procedures. Enrollment in MUP 670-691 during the term of the recital

Completion requirements: final oral examination with emphasis on history, literature, and pedagogy of the primary performance medium

Specific Requirements for Selected Options
Multiple Woodwind or Brass Instruments Credits
Reading and Conference: Wind Instrument Music (MUS 605) ............ 3
Performance Studies (Studio Instruction) (MUP 621-630), at least 3 credits in each secondary instrument ........... 6
Pedagogy and Practicum: Woodwinds or Brass (MUE 639) ........... 3
Completion requirements: (1) Public recital of both solo and ensemble music on the primary instrument, and performance of a substantial composition on each of the two secondary instruments during a public student recital.
(2) Final oral examination with emphasis on history, literature, and pedagogy of the primary and secondary instruments

Percussion Credits
Percussion Master Class (MUS 511) along with private percussion study ........... 3-6

Piano Credits
Piano Literature (MUS 564, 565, 566) ........... 9

Piano Accompanying Credits
Performance Studies (Studio Instruction): Piano Accompanying (MUP 670) ............ 9
Performance Studies (Studio Instruction): Piano (MUP 671) ............ 3
Chamber Ensemble (MUS 694), four terms ....... 4
Reading and Conference: Music for Chamber Ensemble (MUS 605) ........... 2
Solo Vocal Music (MUS 567, 568) ........... 6
Lyric Diction (MUS 555, 556) ........... 6
The Collaborative Pianist (MUS 521, 522, 523) .... 6
Seminars or courses in music history or literature at the 500 level or above approved by an adviser ........... 6
Electives, approved by an adviser, to total at least 50 graduate credits
Two public recitals: consult adviser for procedures
Wind ensemble conducting.

2. A copy of transcripts of all undergraduate and graduate study in one language or two years of study in one language.

D.M.A. candidates must demonstrate proficiency in a second language, usually chosen from French, German, and Italian.

Doctoral Degree Programs

Doctoral Degrees Offered

Doctor of Musical Arts (D.M.A.)

Music Composition
Music Education
Music Performance

Doctor of Philosophy (Ph.D.)

Music Composition
Music Education
Music History
Music Theory

Primary and supporting areas: music composition, music education, music history, music performance, and music theory.

Supporting areas: accompanying, choral conducting, computer music, ethnomusicology, jazz studies, music education research, orchestral conducting, piano pedagogy, violin and viola pedagogy, and wind ensemble conducting.

Doctoral candidates in music must complete one primary area and one supporting area. Details are available from the graduate office.

Admission

Conditional Admission

Send to the Office of Admissions, 1217 University of Oregon, Eugene OR 97403-1217: the original copy of a Graduate Admission Application, a $50 fee, and an official transcript showing receipt of a bachelor's degree.

Send to the director of graduate studies, School of Music:
1. The four carbon copies of the Graduate Admission Application
2. A copy of transcripts of all undergraduate and graduate study
3. Three written recommendations from people who know the applicant's professional and personal qualifications

Viola and Violin Performance and Pedagogy

Credits

Violin Pedagogy I, II: Suzuki Method (MUE 560, 561) ................. 6
Pedagogy Methods: Violin and Viola (MUE 562) ......................... 6
Seminar: Repertoire Development (MUE 507) ..................... 2
Seminar: CMI Internship (MUE 507) each term of teaching with CMI .......... 2-4
Choose one or more courses from Music in Early Childhood (MUE 528), Psycholinguistics (PSY 540), Cognitive Development (PSY 575) ................. 3-9

Electives, approved by an adviser, to total 48 graduate credits

Voice

Credits

Lyric Diction (MUS 555, 556) ......... 6
Solo Vocal Music (MUS 567, 568) ...... 6
History of Opera (MUS 574, 575) ....... 8
Pedagogy and Practicum: Voice (MUE 639) .... 8
Courses in music history (MUS 660-665) ........ 6
Chorus ensemble (MUS 697) ............. 6

Electives, approved by an adviser, to total 54 graduate credits

Proficiency in Italian, French, German: equivalent to completion of one year of college study in each language or two years of study in one language and one year of study in another

General Degree Requirements

In addition to the Graduate School's requirements for primary and supporting areas, Ph.D. candidates, except those in music education, must demonstrate proficiency in two second languages, usually chosen from French, German, and Italian.

Ph.D. candidates, except those in music education, must demonstrate proficiency in two second languages, usually chosen from French, German, and Italian.

Doctoral candidates in music must complete one primary area and one supporting area. Details are available from the graduate office.
Chamber Ensemble (MUS 694), at least two terms ........................................ 4

**Option B: Vocal Emphasis credits**
The Collaborative Pianist (MUS 521, 522, 523) ... 6
Lyric Diction (MUS 555, 556) ................................. 6
Choose either two terms of Solo Vocal Music (MUS 567, 568) or one term of Solo Vocal Music and one term of History of Opera (MUS 574, 575) ........................................ 6-7
Piano Accompanying (MUP 670), at least three terms ........................................ 9

Conversational proficiency in a foreign language (Italian, French, German) equivalent to one year of study

Both options: one sixty-minute public recital, which may show either vocal or instrumental emphasis, though both must be represented. The student must enroll in Piano Accompanying (MUP 670) the term before and of the degree recital. The recital must be performed on the UO campus

**Choral Conducting**

Sucepted College Music Teaching (MUE 602), or Instrumental Conducting Master Class (MUS 686) ........................................ 3
Performance Studies (Studio Instruction) (MUP 741-761), three terms ........................................ 6-12
Seminar, practicum, and choral literature courses, selected in consultation with adviser ........................................ 12
Chorus ensemble (MUS 697)

Inquire at the graduate office for a list of recommended electives

Two summer workshops held during the Oregon Bach Festival. Participation at least one summer as a conductor during the festival (special fee assessed)

Piano proficiency, demonstrated by examination

One public choral conducting performance (faculty approval required)

Diction proficiency in French, German, Italian, and Latin: may be demonstrated by successful completion of Lyric Diction (MUS 555, 556) or by examination

Comprehensive examination in choral conducting

**Computer Music**

**Supporting Area credits**
Electronic Music Techniques I (MUS 543, 544), six terms ........................................ 6
Advanced Electronic Composition (MUS 545), three terms ........................................ 9
Computer Music Applications (MUS 546) ......... 3
Choose one additional course in consultation with adviser

Exit examination that covers knowledge of synthesis techniques, digital audio, music software, electroacoustic music literature and history, and MIDI

**Ethnomusicology**

**Supporting Area credits**
Music in World Cultures (MUS 358) or equivalent ........................................ 4
Introduction to Ethnomusicology (MUS 551) .... 4
Pedagogy and Practicum: Ethnomusicology (MUE 639) ........................................ 3
Choose one of the following: one course from the Americas (MUS 359), Seminar (MUS 507) on ethnomusicology, Musical Instruments of the World (MUS 552), Folk Music of the Balkans (MUS 553), Music of India (MUS 554), Music and Gender (MUS 560), Gamelan (MUS 590), Reading and Conference (MUS 605), East European Folk Ensemble (MUS 690), courses outside the School of Music (e.g., anthropology, folklore, dance) chosen in consultation with adviser .... 4
A total of 27 credits, 23 of which must be in music courses

**Jazz Studies**

**Supporting Area**

**Jazz Performance Emphasis credits**
Survey of Jazz Improvisation (MUJ 551) ............. 3
Jazz Pedagogy (MUJ 560) ..................................... 3
Jazz Repertoire I, II, III (MUS 574, 575, 576) ......... 6
Jazz Program Planning and Development (MUS 661) ........................................ 3
Juried solo recital

**Jazz Arranging Emphasis credits**
Jazz Pedagogy (MUJ 560) ..................................... 3
Jazz Arranging I, II, III (MUS 580, 581, 582) ......... 9
Jazz Program Planning and Development (MUJ 661) ........................................ 3
Juried recital of compositions and arrangements

**Music Composition**
The following requirements are the same for the Ph.D. and D.M.A. except for the language requirement and the choice of supporting area. Ph.D. candidates choose computer music, ethnomusicology, music education research, music history, or music theory for the supporting area. D.M.A. candidates choose choral conducting, jazz studies, orchestral conducting, wind ensemble conducting, or performance for the supporting area.

**Primary Area credits**
Composers' Forum (MUS 538), at least three terms ........................................ 9
Dissertation (MUS 603) ........................................ 18
Advanced Composition Studies (MUS 640, 641, 642) ........................................ 6
Choose courses outside the School of Music with the faculty adviser ........................................ 12
Choose one course in electronic or computer music applications from Electronic Music Techniques III (MUS 543, 544), Advanced Electronic Composition (MUS 545), Computer Music Applications (MUS 546) ........................................ 3
One course in ethnomusicology chosen from:
Music in World Cultures (MUS 358), Music of the Americas (MUS 359), Introduction to Ethnomusicology (MUS 551), Musical Instruments of the World (MUS 552), Folk Music of the Balkans (MUS 553), Music of India (MUS 554), Gamelan (MUS 590) ........................................ 2-4
Pedagogy and Practicum: Theory (MUE 639), one term; if the supporting area is other than theory, this term is in addition to the one term required in the supporting area ........................................ 3
Public performance, usually a graduate composition recital on the University of Oregon campus, of compositions completed during the period of doctoral study and approved by the music composition faculty

**Performance and recording of the dissertation**

**Supporting Area credits**
Composers’ Forum (MUS 538), three terms ......... 9
Courses in composition, in analysis, or in pedagogy of theory or composition, chosen in consultation with faculty adviser ........................................ 12
Public performance on the University of Oregon campus of compositions completed during the period of doctoral study and approved by the music composition faculty

**Music Education**

Primary area requirements are the same for the D.M.A. and the Ph.D. degrees.

**Primary Area credits**
Statistical methods, two terms ........................................ 6
Dissertation (MUE 603) ........................................ 18
Research Methods in Music (MUS 613) .................... 3
Resources in Music Education (MUE 614) ......... 3
Additional graduate MUE courses ........................................ 17
Performance studies, three terms

**Supporting Area for D.M.A. credits**
Statistical methods, one term ........................................ 3
Research Methods in Music (MUS 613) ............. 3
Additional graduate MUE courses ......... 9
Performance studies, three terms

**Supporting Area for Ph.D.**
At least 21 credits, chosen in consultation with the adviser, in research methodology and in courses that provide a theoretical foundation for the dissertation research

**Music History**

**Primary Area credits**
Dissertation (MUS 603) ........................................ 18
Notation of Medieval and Renaissance Music (MUS 643) ........................................ 3
Performance Practices before 1800 (MUS 689) ....... 3
Collegium Musicum (MUS 691), three terms ......... 3
In addition to the specifically required courses above, choose one period-survey course, three history seminars, and three theory courses chosen from Schenkerian Analysis (MUS 530, 531, 532) and History of Theory (MUS 637)

Each student, in consultation with the adviser, develops a plan to remedy any deficiencies and prepare for comprehensive examinations. No credit is earned for this preparation

Two public lecture-demonstrations or lecture-recitals (subject to faculty approval) given on the University of Oregon campus

**Supporting Area credits**
Music in the Middle Ages (MUS 660) .................... 3
Music in the Renaissance (MUS 661) .................... 3
Music in the Baroque Era (MUS 662) .................... 3
Music in the Classical Period (MUS 663) ............. 3
Music in the Romantic Era (MUS 664) ............. 3
Music in the 20th Century (MUS 665) .................... 3
At least three terms in music history or theory seminars (MUS 507, 607)

**Music Performance**

**Primary Area credits**
Performance Studies (Studio Instruction) (MUP 771-791), six terms ........................................ 24
D.M.A. students may complete a lecture-document (MUS 601) or write a dissertation (MUS 603) ........................................ 6 or 18
Seminar in an independent organization (MUS 607) ....... 2
Three public performances (subject to preregistration approval by faculty jury) on the University of Oregon campus; one must be a solo recital

**Supporting Area: Performance credits**
Performance Studies (Studio Instruction) (MUP 741-761), three terms ......... 12
Two public performances (subject to preregistration approval by faculty jury); one must be a solo recital
Music Theory

Primary Area credits
Three doctoral seminars in music theory, including seminars taken to fulfill the general degree requirements ........................................ 9
Post-Tonal Theory I,II,III (MUS 516, 517, 518) ... 9
Choose at least three of the following:
Advanced Keyboard Harmony (MUS 525),
Score Reading (MUS 526), Counterpoint
(MUS 533, 534, 535), Advanced Aural Skills
(MUS 635) ..................................................... 8-12
Schenkerian Analysis (MUS 530, 531, 532) ... 9
Dissertation (MUS 603) ........................................ 18
Three courses in the history of theory
Two public lecture-demonstrations or lecture-
recitals (subject to faculty approval) on the
University of Oregon campus

Supporting Area credits
Choose four courses from Post-Tonal Theory I,II,III
(MUS 516, 517, 518), Schenkerian Analysis
(MUS 530, 531, 532)..................................... 12
Choose at least three of the following:
Advanced Keyboard Harmony (MUS 525),
Score Reading (MUS 526), Counterpoint
(MUS 533, 534, 535), Advanced Aural Skills
(MUS 635) ..................................................... 8-12
In addition to general degree requirement, at
least one graduate-level course or seminar in
music history or music theory

Orchestral Conducting

Supporting Area credits
Orchestral Music (MUS 570, 571, 572) .......... 6
Bibliography in Instrumental Conducting
(MUS 620) ..................................................... 3
Instrumental Conducting Laboratory
(MUS 624), three terms ................................ 6
Instrumental Conducting Master Class
(MUS 686) ..................................................... 3
Performance Practices before 1800 (MUS 689) ... 3
Orchestra (MUS 696), three terms ............. 6
Performance Studies (Studio Instruction)
(MUP 741-761), three terms ....................... 6-12
Electives on subject chosen by student and adviser
A juried rehearsal and a juried conducting perfor-
mance in addition to those required at master's level

Piano Pedagogy

Supporting Area credits
Piano Pedagogy I: Teaching Beginners
(MUE 571) ..................................................... 3
Piano Pedagogy II: Teaching Groups
(MUE 572) ..................................................... 2
Piano Pedagogy III: Teaching Intermediate Levels
(MUE 573) ..................................................... 2
Advanced Piano Pedagogy: Piano (MUE 591) 3
Practicum (609), three terms ................. 3
Performance (Studio Instruction): Piano
(MUP 641 or above) .................................. 12
Solo thirty-minute piano recital if area is other
than piano performance
Recommended courses: Orff-Kodály (MUE 520),
Psychology of Music (MUE 547), Piano Litera-
ture (MUS 564, 565, 566), Reading and Confer-
ence: Advanced Pedagogy II (MUE 605),

Violin and Viola Pedagogy

Supporting Area credits
Music in Early Childhood (MUE 528) .......... 3
Violin Pedagogy I, II: Suzuki Method
(MUE 560, 561) ........................................ 6
Pedagogy Methods: Violin and Viola
(MUE 562) ..................................................... 2

Seminar: CMI Internship (MUE 607),
four terms .................................................. 4
Psycholinguistics (PSY 540) or Cognition
Development (PSY 575) ................................ 4
Course in advanced pedagogy related to the
student's needs and degree focus .................. 3

Wind Ensemble Conducting

Supporting Area credits
Bibliography in Instrumental Conducting
(MUS 620) ..................................................... 3
Wind Repertoire (MUS 621, 622, 623) .......... 9
Instrumental Conducting Laboratory
(MUS 624) ..................................................... 3
Instrumental Conducting Master Class
(MUS 686) ..................................................... 3
Band: Wind Ensemble (MUS 695), three terms .. 6
Performance Studies (Studio Instruction)
(MUP 741-761), three terms ....................... 6-12
Electives in subject chosen by student and adviser
A juried rehearsal and a juried conducting perfor-
mance in addition to those required at master's level

Program Requirements

Comprehensive Examinations
Written and oral comprehensive examinations in
the primary and supporting areas are taken before
advancement to candidacy but after meeting the following conditions:
1. Classification as a graduate doctoral student
2. Completion of all course work in the examina-
tion area
3. Approval of dissertation proposal by disserta-
tion advisory committee
4. Approval from adviser
5. Satisfaction of second-language requirements
Additional information about comprehensive
examinations is available from the graduate
secretary.

Advancement to Candidacy
Advancement to candidacy is based on successful
completion of comprehensive examinations and
second-language requirements, approval by the
dissertation advisory committee, and the recom-
mandation of the adviser.

Dissertation Requirement
A dissertation is required in all doctoral degree
programs. For candidates whose primary area is
composition, the dissertation must be an original
composition of major proportions composed dur-
ing doctoral study and performed and recorded
on the university campus. For candidates whose
primary area is performance, the dissertation
consists of three public performances and a writ-
ten dissertation or a public lecture with accompa-
nying document focusing on some aspect of the
performance medium.

Time Limit
Doctoral students have seven years from the
beginning of their first year in residence to
complete the degree. All course work, the compre-
sensive examinations, any required recitals, and
the dissertation must be satisfactorily completed
before the end of the seven-year period. If this
period is exceeded, an additional year of residence
or a new set of comprehensive examinations, or
both, are required.

Final Examination
A final oral examination is required in all degree
programs. The candidate is expected to defend the
dissertation and show a command of the primary
area. Members of the dissertation advisory committee typically conduct the final ex-
amination; their appointment is subject to
approval by the dean of the Graduate School.

Courses Offered

Music Courses (MUS)

125 Basic Music (4) Elementary study of terms and
notations; designed for students with no background in musical notation.
126 Rudiments of Music Theory (3) Rudimentary
study of terms and notational symbols; de-
signed to develop elementary competence in performance
from notation and in notating musical ideas. Prereq: instructor's consent or placement examination. Campbell.
127 Rudiments of Aural Skills (3) Rudimentary
study of sight singing, dictation, and related
skills. Prereq: placement examination.
131, 132, 133 Music Theory I,II,III (2,2,2)
Elementary study of musical structure, emphasizing
the acquisition of descriptive, notational,
134, 135, 136 Aural Skills I,II,III (2,2,2) Ele-
mentary ear training through sight singing, dictation,
and related activities. Sequence. Prereq: place-
ment examination. Dunn.
137, 138, 139 Keyboard Skills I,II,III (1,1,1)
Performance of rhythmic patterns, scales, intervals,
and chord progressions. Harmonization, transposition,
composition, improvisation, and figured bass on the
keyboard. Sequence. Larson.
155, 156 Introduction to Lyric Diction (2,2)
Introduction to pronunciation of standard lan-
guages for students pursuing careers related to
singing. The International Phonetic Alphabet is applied to the texts of simple repertoire. English, Italian, Spanish, French. Sequence. Coreq: Performance Studies: Voice (MUP 174 or above) or instructor's consent. Tedards.
167 On the Nature of Music (2) Introduction to
styles, concepts, and frameworks for music
history and performance. McLucas.
168, 169 Guided Listening (1,1) Guided listen-
ing experience designed to aid in acquisition of
listening skills and experience with the most im-
portant repertoire, genres, and styles of Western
170 Student Forum (0.5R) Concerts, lectures,
and other music-related events in the Student
Forum Series at the School of Music. R seven
times for maximum of 4 credits.
190 East European Folk Ensemble (2R)
Performance ensemble in which participants
learn to play village-style folk dance music from
Bulgaria, Macedonia, Serbia, Greece, and neigh-

191 Collegium Musicum (1R) Study of music repertoire of the medieval, Renaissance, and baroque periods through rehearsals and extensive sight-reading; vocal and instrumental repertoire. Ensemble fee. Prereq: audition, instructor’s consent. Vanscheeuwijk.

194 Chamber Ensemble: [Topic] (1R) Study of music through small-group rehearsal. For string and wind instrument players, percussionists, keyboard players, accompanists, and singers. Prereq: audition, instructor’s consent. Mason.

196 Orchestra (2R) University Symphony Orchestra. Ensemble fee. Prereq: audition, instructor’s consent. W. Bennett.

197 Chorus: [Topic] (2R) Chamber Choir, Lab Choir, University Choir, University Gospel Ensemble, Gospel Singers, University Men’s Chorus, University Singers, University Women’s Chorus. Ensemble fee. Prereq: audition, instructor’s consent for all except University Men’s Chorus. Paul, Weary.

198 Workshop: [Topic] (1–2R)

199 Special Studies: [Topic] (1–5R) Vanscheeuwijk.

341, 342 Composition II (3,3,3) Composition and public performance of small works for piano, voice, and small ensembles. Prereq: MUS 242 or equivalent proficiency, instructor’s consent. Boss.

351 The Music of Bach and Handel (4) Compositions by Bach and Handel such as organ chorales, cantatas, oratorios, operas, and masses; cultural context in Germany, France, Italy, and England for the development of their styles.

353 Survey of Opera (4) Introduces great operas including works by Mozart, Wagner, and Verdi. Smith. Primarily for nonmajors.

355 Beethoven (4) Life and works of Beethoven considered in the context of the tumultuous events of postrevolutionary Europe. Works include piano sonatas, symphonies, and quartets. Smith.

356 Innovative Jazz Musicians: [Topic] (4R) Covers one or two innovative and influential jazz musicians per term. Examines issues of history, biography, multiculturalism, racism, and critical reception. R twice when topic changes for maximum of 12 credits. Woideck.

358 Music in World Cultures (4) African, East European, and Indonesian musics in sociocultural context. Emphasis on listening skills, relationships between music and culture, aesthetics, styles, genres, music structures and forms, and participatory music making. Levy.

359 Music of the Americas (4) African American, Asian American, Latin American, and Native American musics in sociocultural context of the Americas. Emphasis on listening skills, relationships between music and culture, and music structures and forms. Levy.

370 Student Forum (0.5R) See MUS 170.

380 Film: Drama, Photography, Music (4) Understanding the manner in which drama, photography, and music combine to form the whole through extensive viewing and analysis. Trombley.

381 Art Film (4) Introduces the best available examples of art films as embodying complex and often abstract use of drama, photography, and music. Prereq: MUS 380. Trombley.

390 East European Folk Ensemble (2R) See MUS 190. R twice for maximum of 6 credits.

391 Collegium Musicum (1R) See MUS 191.

394 Chamber Ensemble: [Topic] (1R) See MUS 194.

396 Orchestra (2R) See MUS 196.

397 Chorus: [Topic] (2R) See MUS 197.

398 Opera Workshop (2R) Traditional and contemporary repertory for musical theater through analysis, rehearsal, and performance of complete and excerpted works; training in stage movement, diction, and rehearsal techniques. Prereq: instructor’s consent, audition.

399 Special Studies: [Topic] (1–5R)

401 Research: [Topic] (1–21R) Prereq: instructor’s consent.

403 Thesis (1–21R) Prereq: instructor’s consent.
Sequence. Prereq: MUS 232, 236 or instructor’s consent. H. Owen.

438/538 Composers’ Forum (3R) Composition and discussion of works for performance by professional and student performers, study of 20th-century compositional techniques. Prereq: instructor’s consent. Ky. R twenty-four times for maximum of 75 credits.

439/539 Scoring for Voices and Instruments (3) Techniques of arranging and scoring for various types of choral and instrumental groups. Prereq: MUS 332, 236 or instructor’s consent. Stolet.

445/545 Advanced Electronic Composition (3R) Advanced topics of sound synthesis, digital signal processing, and electroacoustic compositional techniques. Laboratory fee. Prereq: instructor’s consent. Stolet. R twenty-four times for maximum of 75 credits.

446/546 Computer Music Applications: [Topic] (3R) Use of computers for music notation, education, analysis, performance, research, and other applications. Prereq: instructor’s consent. R three times when topic changes for maximum of 12 credits.

451/551 Introduction to Ethnomusicology (4) Study of world music in their social and cultural contexts. Emphasis on comparing the varied approaches, ideas, and methods of selected American and European researchers since 1980. Levy.

453/553 Folk Music of the Balkans (4) Forms and styles of folk musics and dances in their cultural contexts in southeastern Europe: Albania, Bosnia, Bulgaria, Croatia, Greece, Macedonia, Romania, Serbia. Levy.

454/554 Music of India (4) Classical music traditions of North and South India with some discussion of dance, rural folk music, and popular film music; participatory music making and demonstrations by visiting artists. Levy.

460/560 Music and Gender (4) Examines the role of gender in shaping the music that is created, performed, taught, and listened to in representative cultures of the world, including the West.

464/564, 465/565, 466/566 Piano Literature (3,3,3) Solo keyboard music from the time of J. S. Bach to the present; original works for four hands and for two pianos; the concerto; emphasis on style as it affects performance. Prereq: MUS 269 or equivalent. Kerner. Offered 2001–2 and alternate years.

467/567, 468/568 Solo Vocal Music (3,3) Solo songs with accompaniment; the lute and keyboard art songs in Germany; France; 20th-century British, American, and Continental song literature; development of bases for artistic performance and sound critical judgment through study of text, voice, and accompaniment. Prereq: MUS 269 or equivalent. Vargas. Offered alternate years; not offered 2001–2.

470/570, 471/571, 472/572 Orchestral Music (2,2,2) Major types of orchestral music from the 18th to the 20th centuries; dance suite, symphony, tone poem, descriptive suite, pieces for string orchestra. Prereq: MUS 269 or equivalent.

474/574, 475/575 History of Opera (4,4) Critical study of the musical and dramatic content of operas forming the standard international repertoire. 474/574: Monteverdi to Mozart. 475/575: Mozart to the present. Sequence. Prereq: MUS 269 or equivalent. Smith.

476/576 Organ Music (3) The organ in church and concert, organ repertoire from the 15th century to the present. Baard.

485/585 Advanced Choral Conducting (3) Refinement of choral conducting techniques; study of musical scores from contemporary and earlier periods with emphasis on analysis, interpretation, and rehearsal procedures. Administrative procedures for choral organizations. Prereq: MUS 233.

486 Advanced Instrumental Conducting (3) Conducting techniques as applied to band and orchestral music with emphasis on various styles and periods of music; study of 20th-century rhythms and related conducting problems. W. Bennett, Ponto.

499 Senior Project (3R) Projects in music history, analysis, theory, composition, performance, or related disciplines designed by the student in consultation with the instructor. Prereq: instructor’s consent. R twice for maximum of 9 credits.

503 Thesis (1–16R) Prereq: instructor’s consent.

601 Research: [Topic] (1–16R) Prereq: instructor’s consent.

602 Supervised College Teaching (1–5R) Prereq: instructor’s consent.

603 Dissertation (1–16R) Prereq: instructor’s consent.

605 Reading and Conference: [Topic] (1–4R) Individual study of topics beyond the availability of the standard curriculum. Prereq: completion of all regularly scheduled courses related to the topic, instructor’s consent.

607 Seminar: [Topic] (1–5R) Studies of various topics at an advanced level offered periodically according to student and faculty interest and availability.

608 Workshop: [Topic] (1–16R)

609 Terminal Project (1–16R)

610 Experimental Course: [Topic] (1–5R)

611, 513 Research Methods in Music (3,3) 

620 Bibliography in Instrumental Conducting (3) Survey of research in conducting. Discussion of rehearsal strategies and psychology. W. Bennett.

624 Instrumental Conducting Laboratory (2R) Study, preparation, and conducting of works for instrumental ensembles in rehearsals and performances. W. Bennett, Ponto. R twice for maximum of 6 credits.

635 Advanced Aural Skills (3R) Exercises and projects in transcription and analysis of music presented aurally; discerning discrepancies between performed and notated music; analysis of music without recourse to scores. R once with instructor’s consent.

637 History of Theory (3) Examination and evaluation of theories of harmony and musical structure from the baroque era to the present including the works of Zarlino, Rameau, Tartini, Riemann, Hindemith. Hurwitz. Offered alternate years; not offered 2001–2.

638 Timbral Analysis and Orchestral Composition I (3) Methods of timbral (sound-color) analysis pertaining to orchestration and composition from the baroque era to the present. Prereq: instructor’s consent. Ky. Limited to five students.

643, 644 Notation of Medieval and Renaissance Music (3,3) Representative examples of notational systems and practices in Western European polyphony from 900 to 1600. Not offered 2001–2.

660 Music in the Middle Ages (3) Sources of Western European music in classical antiquity and the Near East; sacred monophony, secular monophony; development of polyphony. Krucken. Offered 2001–2 and alternate years.

661 Music in the Renaissance (3) The central Renaissance style in 15th-century France and Italy; high Renaissance music; late Renaissance music; developments in England and Germany; instrumental music; Renaissance music theory. Krucken. Offered alternate years; not offered 2001–2.

662 Music in the Baroque Era (3) Musical genres in Italy, France, Germany, Austria, Britain, the Netherlands, Spain, Mexico, and South America in historical, social, political, and cultural contexts—early 17th century through Bach and Handel. Vanscheeuwijk. Offered alternate years; not offered 2001–2.
665 Music in the Classical Period (3) Study of galant, Empfindsamer, and classical styles from c. 1730 to Boccherini, Haydn, and Mozart. Focus on instrumental and sacred music, and on opera before Mozart. Vanscheeuwijk. Offered 2001-2 and alternate years.

664 Music in the Romantic Era (3) Virtuosic and lyric extremes in instrumental and vocal styles. Literary romanticism, descriptive music, and the Lieb; opera in France and Italy; Wagner’s music drama as Gesamtkunstwerk. Smith. Offered alternate years; not offered 2001-2.

685 Music in the 20th Century (3) The crisis of romanticism and tonality; the transition of Debussy, Mahler, and others; new styles of Stravinsky, Schoenberg, Bartók; developments in the United States; implications of recent trends.

686 Instrumental Conducting Master Class (3) Advanced conducting techniques as applied to band and orchestral music with emphasis on baton techniques and rehearsal strategies; includes score preparation. Prereq: instructor’s consent. W. Bennett. Offered summer session only.

689 Performance Practices before 1800 (3) Introduction to theory and practice of sound production, phrasing, historical pronunciation, instrumentation, improvisation, pitch and temperament, and ornamentation in vocal and instrumental music—Middle Ages to the mid-19th century. Vanscheeuwijk. Offered 2001-2 and alternate years.

690 East European Folk Ensemble (2R) See MUS 190. R twice for maximum of 6 credits.

691 Collegium Musicum (1R) See MUS 191.

694 Chamber Ensemble: [Topic] (1R) See MUS 194.

696 Orchestra (2R) See MUS 196.

697 Chorus: [Topic] (2R) See MUS 197.

698 Opera Workshop (2R) See MUS 198.

Jazz Studies Courses (MUJ)

180, 181, 182 Small Jazz Ensemble Laboratory (1,1,1R) Drills and practical application of scales, chords, harmonic progressions, rhythmic patterns, and approach-note groups for development of skills in small jazz ensembles. Coreq: MUJ 195, instructor’s consent. R twice for maximum of 3 credits each.

190 Jazz Laboratory Band III (1R) Large ensembles performing repertoire associated with the jazz idiom. Performances on campus, in the community, and at jazz festivals. S. Owen.

191 Jazz Laboratory Band II (1R) Large ensembles performing repertoire associated with the jazz idiom. Performances on campus, in the community, and at jazz festivals. S. Owen.

192 Oregon Jazz Ensemble (1–2R) Large ensembles performing repertoire associated with the jazz idiom. Performances on campus, in the community, and at jazz festivals. Prereq: audition. S. Owen.

195 Small Jazz Ensemble: [Topic] (1R) Improvisation group. Study current and past small-group jazz performances. Prereq: audition, instructor’s consent. S. Owen.

197 Oregon Vocal Jazz (2R) Composed of approximately sixteen voices and a rhythm section. Explores a wide variety of styles in the jazz idiom. Prereq: audition.

270 Jazz Theory (2) Introduction to jazz harmony: chord symbols, chord voicing practices, analysis, reharmonization practices, scale choices for improvisation, creation of bass lines. Prereq: MUS 133, 136, 139; or instructor’s consent. S. Owen.

271, 272 Functional Jazz Piano II, II (2,2) Performance of one- and two-handed comping style including contest, three-keyboard practices, scales, and harmonic formulas. Reading from chord symbols and lead sheets. Sequence. Prereq: MUJ 270 or instructor’s consent. Verse.

273, 274 Jazz Improvisation II, II (2,2) Task-oriented performance of selected standard jazz repertoire. 273: chord and scale study, solo transcription, analysis, pattern practice, simple compositional forms. 274: chord alteration, chord substitution, reharmonization and chromaticism. Prereq: MUJ 270, pre- or coreq: MUJ 271. S. Owen.

280, 281, 282 Small Jazz Ensemble Laboratory (1,1,1R) Drills and practical application of scales, chords, harmonic progressions, rhythmic patterns, and approach-note groups for development of skills in small jazz ensembles. Sequence. Coreq: MUJ 195, instructor’s consent. R twice for maximum of 3 credits each.

350 History of Jazz (4) Major historical styles in jazz, 1900 to 1950: ragtime, New Orleans jazz, swing, bop, cool jazz, hard bop, free jazz, and fusion; major jazz performers; sociological backgrounds of jazz. Prereq: sophomore standing or higher. Vidoek.

390 Jazz Laboratory Band III (1R) See MUJ 190.

391 Jazz Laboratory Band II (1R) See MUJ 191.

392 Oregon Jazz Ensemble (1–2R) See MUJ 192.

397 Oregon Vocal Jazz (2R) See MUJ 197.

474/574, 475/575, 476/576 Jazz Repertoire I, II, III (2,2,2) Study of traditional jazz literature through performance. Emphasis on improvisation and developing the ability to categorize songs by ear through the recognition of common chord progressions and modulations. Sequence. Prereq: MUJ 274 or instructor’s consent. S. Owen.

480/580, 481/581, 482/582 Jazz Arranging I, II, III (3,3,3) Study of use of common arranging skills: reharmonization, instrumentation, block harmonization, tutting techniques, five-part, etc. Sequence. Prereq: MUJ 272 or instructor’s consent. Verse.

483/583, 484/584, 485/585 Advanced Jazz Arranging I, II, III (3,3,3) Composition, arranging, and performance of works for large and chamber jazz ensembles. Preparation of works for senior and graduate degree recitals. Sequence. Prereq: MUJ 482/582 or instructor’s consent. S. Owen.

503 Thesis (1–16R) Prereq: instructor’s consent.

505 Reading and Conference: [Topic] (1–4R) Individual study of topics at a level above that available in the standard curriculum. Prereq: completion of all regularly scheduled courses related to the topic or equivalent, instructor’s consent.

406 Field Studies: [Topic] (1–21R)

407/507 Seminar: [Topic] (1–5R) Various topics at an advanced level, offered periodically according to student and faculty interest and availability. Recent topics are Orchestra Development, Oregon Common Curricular Goals, Pop Music in Society, Readings in Music Education, Wind Materials.

408/508 Workshop: [Topic] (1–21R) Various topics at a level above that available in the standard curriculum. Prereq: instructor’s consent.

410/510 Experimental Course: [Topic] (1–5R)

411/511 Band Methods (3) Concerns of band teachers in secondary and elementary schools. Observations, procedures, and instructional materials; planning and teaching lessons for analysis and criticism. Instrumental technique classes recommended. P. Doerksen.

Music Education Courses (MUE)

199 Special Studies: [Topic] (1–5R)

326 Foundations of Music Education (3) Social, philosophical, historical, and curricular foundations of music education; justification for including music in the public school curriculum; professional, ethical, and social aspects of teaching. Jacobi-Karna. Extra fee.

391 Voice Pedagogy (1R) Vocal techniques for chorus, studio, and class instruction. Methods and materials for adolescent and mature soloists. Lehmann, Olson.

392 Instrumental Techniques: [Topic] (1R) Elementary instruction in pedagogy and performance of various instruments. Sections in strings, woodwinds, brass, percussion, flute, clarinet and saxophone, oboe and bassoon, trumpet, trombone, horn, violin and viola, cello, recorder, guitar, and classroom instruments. Instrument rental fee. Prereq: instructor’s consent.

401 Research: [Topic] (1–21R) Prereq: instructor’s consent.

403 Thesis (1–21R) Prereq: instructor’s consent.

405 Reading and Conference: [Topic] (1–4R) Individual study of topics at a level above that available in the standard curriculum. Prereq: completion of all regularly scheduled courses related to the topic or equivalent, instructor’s consent.

506 Field Studies: [Topic] (1–21R)

507/508 Seminar: [Topic] (1–5R) Various topics at an advanced level, offered periodically according to student and faculty interest and availability. Recent topics are Orchestra Development, Oregon Common Curricular Goals, Pop Music in Society, Readings in Music Education, Wind Materials.
413/513 Teaching Methods: Secondary Choral and General (3) Instructional procedures and materials for secondary choral and general music classes.

420/520 Orff-Kodály (3) Investigation of approaches in teaching general music that were developed by composers Orff and Kodály. Readings and laboratory experimentation on performance skills. Jacobi-Karna.

424/524 Children’s Choir (3) Study techniques that lead to beautiful singing by children. Warm-ups, intonation exercises, motivation strategies, high-quality music, programming concerts, rehearsals. R. Moore.

428/528 Music for Early Childhood (3R) Musical characteristics and abilities of preschool children. Suitable materials and musical experiences; techniques involving parents and children in a laboratory setting. Laboratory fee. Coreq: Laboratory, Jacobi-Karna. R twice for maximum of 9 credits.

429/529 Music in Special Education (3) Music for disabled or gifted learners. Educational and therapeutic uses of music for mentally, physically, and emotionally disabled as well as gifted learners. R. Moore.

430/530 Music Classroom Ecology and Management (3) Exploration of the sociolinguistic factors of race, gender, and cultural diversity of teacher-student interaction; techniques for maintaining an ecological environment conducive to learning music in the classroom. Jacobi-Karna.

442/542 Teaching Singing in the Classroom (3) Methods for teaching singing in the classroom with emphasis on addressing the special needs of the adolescent voice and the changing voice. Prereq: MUE 391.

444/544 Choral Materials for Schools (3) Repertoire for choral groups in secondary schools; choral music from early historical periods to the avant-garde; criteria for selection of choral music; instructional program and concert planning.

447/547 Psychology of Music (3) Functions of the musical mind; knowledge and intellectual skills related to mature perception; implications for the teaching of music. R. Moore.

455/555 Jazz and Marching Methods (3) Teaching methods for jazz ensembles and marching bands in secondary schools. S. Owen, Zimbelman.

456/556 String Methods (3) Teaching methods for the beginning string class in elementary and middle schools. Development of technique sequences for string groups in secondary schools. Raschkes. Offered only during summer session.

462/562 Violin Pedagogy Methods: Violin and Viola (2) Principles and techniques of violin and viola teaching at beginning through intermediate levels. Emphasis on the pedagogical approach of Paul Rolland.

486, 487, 488 Teaching Laboratory II (1,1,1) See MUE 386, 387, 388. P. Doerksen.

491/591 Advanced Pedagogy: [Topic] (3R) Sections in piano and other topics. R twice in different sections for maximum of 9 credits.

503 Thesis (1–16R) Prereq: instructor’s consent.

601 Research: [Topic] (1–16R) Prereq: instructor’s consent.

602 Supervised College Music Teaching (1–5R) Prereq: instructor’s consent.

603 Dissertation (1–16R) Prereq: instructor’s consent.

605 Reading and Conference: [Topic] (1–4R) Individual study of topics beyond the availability of regularly scheduled courses. Prereq: completion of all regularly scheduled courses related to the topic or equivalent, instructor’s consent.

606 Field Studies: [Topic] (1–16R)

607 Seminar: [Topic] (1–5R) Recent topics are Field Experience, Thesis Organization.

608 Workshop: [Topic] (1–16R)

609 Practicum: [Topic] (1–4R) Professionally related experience, on campus or elsewhere, supervised by a qualified expert both in planning and in carrying out the project. Prereq: knowledge and competence in the substance of the activity and in curricular planning, instructor’s consent. Penderly.

610 Experimental Course: [Topic] (1–5R)

614 Resources in Music Education (3) Development of bibliographic and writing skills necessary for scholarly research—problem specification, locating and reviewing research literature, and preparation of reports for presentation and publication. P. Doerksen.

636 Administration of School Music (3) Topics include facilities, budgets, capital equipment, sheet music purchase, music library, scheduling classes, school-year organization, grading, student handbooks, booster organizations, fundraising, public relations, concert preparation, and group travel. P. Doerksen.

637 Technology of Teaching Music (3) Use of electronic equipment and computers in teaching music. Hardware and software appropriate for classroom use and for individualized instruction. P. Doerksen.
638 Curricular Strategies in Music Education (3) Procedures for developing music courses for today’s schools; determination of goals, content, instructional materials, and evaluative criteria; exploration of significant curriculum development projects in music education. D. Doerksen.

639 Pedagogy and Practicum: [Topic] (3R) Teaching strategies and practical application. Topics include composition, conducting, ethnomusicology, jazz studies, music education, music history, music theory, voice, keyboard, strings, woodwinds, brass, and percussion. Prereq: instructor’s consent. R twice when topic changes for maximum of 3 credits.

641, 642 Concept Development in College Music Teaching (3.3) Developing knowledge, skills, and attitudes useful for teaching music; current principles of educational psychology at the college level, instructional techniques, tests and measurements. Prereq: instructor’s consent. Martin.

Performance Studies Courses (MUP)

Extra fee for nonmajors enrolled in MUP 171–791. Unless it is a degree requirement, majors taking more than one performance studies course pay an extra fee.

MUP 140–791 coreq for majors: enroll in major ensemble

Percussion studies (MUP 161, 191, 291, 361, 391, 491, 611, 691, 761, 791) coreq: MUS 411/511, enroll in major ensemble

108 Basic Performance Studies: Jazz Guitar (Studio Instruction) (2R) Beginning-level group instruction in music reading, chord structure, scales, and related techniques. Designed for beginners; students must provide own instruments. R once for maximum of 4 credits.

199 Special Studies: [Topic] (1–5R) Recent topics include Funk Guitar, Guitar Theory I, Keyboard Sight-Reading, Jazz Drumset, Saxophone, Songwriting,Tabla. Extra fee.

271–391 Performance Studies (Studio Instruction): [Topic] (2-4R) Group instruction in music reading, chord structure, scales, and related techniques. Designed for students with sufficient talent and experience to justify enrollment. Prereq: jury audition, proficiency equivalent to completion of 100 level.

670 Performance Studies (Studio Instruction): Piano Accompanying (2–4R) Concentration on vocal and instrumental repertoire. Prereq: instructor’s consent, audition to demonstrate proficiency equivalent to MUP 671.

Academic Learning Services

Susan Lesyk, Center Director
(541) 346-3226
68 Prince Lucien Campbell Hall

The Center for Academic Learning Services (ALS) provides academic support to university students. Through academic courses, noncredit workshops, individual counseling, and drop-in mathematics and writing laboratories, the center offers assistance in study-skill improvement, preparation for standardized entrance examinations, and tutoring in many subject areas.

Courses for Credit. Students concerned about their academic reading, research, writing, and general study skills may benefit from Introduction to University Study (ALS 101). This 3-credit course, which gives students an academic orientation to the university, is particularly helpful for new students.

Noncredit Workshops. Among the noncredit workshops offered are study techniques, grammar, mathematics review, and preparation for the Graduate Record Examinations, the Law School Admission Test, and the Medical College Admission Test.

Tutoring. Peer tutors in entry-level undergraduate courses are available through the center. Students may drop in to receive free assistance with mathematics and writing at the center’s laboratories.

Academic Learning Services Courses (ALS)
101 Introduction to University Study (3) Emphasizes the critical reading, writing, and research skills necessary for effective study methods. New study techniques are applied to this and other courses.
102 College Reading Skills (3) Practice in analysis, synthesis, and evaluation of a variety of sources relating to a contemporary issue. Emphasis on writing abstracts, reviews, and critiques that demonstrate critical reading ability.
199 Special Studies: [Topic] (1–5R) R twice per topic for maximum of 6 credits.
399 Special Studies: [Topic] (1–5R)
408/508 Workshop: [Topic] (1–4R)
409 Supervised Tutoring (1–4R) R for maximum of 6 credits.
608 Workshop: [Topic] (1–4R)
609 Supervised Tutoring (1–4R) R for maximum of 6 credits.
A maximum of 12 credits in ALS courses may be applied to the total credits required for a bachelor’s degree.

Air Force ROTC
(541) 737-6284
(800) 633-7352
AFROTC Detachment 685,
300 McAlexander Fieldhouse,
Oregon State University, Corvallis OR 97331

Students interested in obtaining an officer’s commission in the United States Air Force upon graduation may join the Air Force Reserve Officers Training Corps (AFROTC) program offered through the Department of Air Force Studies at Oregon State University. Undergraduate credits earned in this program may be transferred to the UO as elective credits. Students may complete a degree in any field while in the program. There is no cost to the student (other than travel expenses to OSU for classes and activities), and classes are available to fit into individual schedules.

See the statement on Concurrent Enrollment in the Registration and Academic Policies section of this catalog.

Programs
The following programs are open to qualified students.

Four-Year Program
The four-year program consists of the general military course, six terms of lower-division air force studies courses including a laboratory each term, and the professional officer course, six terms of upper-division air force studies courses including a laboratory each term. Four-year cadets attend Field Training (AS 304) for four weeks during the summer before their junior year of college.

Students may enter the freshman class at the start of the fall, winter, or spring term. Sophomores may enter at the start of the fall term and take the freshman- and sophomore-level courses concurrently.

Before enrolling in the last two years of the program, the professional officer course, the student must meet AFROTC qualification standards and requirements.

Two-Year Program
Entry is competitive. Application should be made early in the fall term of the student’s sophomore year. Participants must attend Field Training (AS 306) for five weeks in the summer before their junior year of college. The curriculum includes six terms of upper-division air force studies courses, including a laboratory each term. Applicants must have two years remaining in college after the field training, which may be undergraduate or graduate work or a combination of the two.

One-Year Program
Information about this new program is available from the department.

Commitments
Students in the four-year program incur no obligation during their first two years in AFROTC unless they are awarded a scholarship. After enrolling in Air Force Leadership and Management (AS 311), the student agrees to accept a commission if it is offered. Scholarship students incur a commitment at the beginning of their sophomore year. Upon accepting their commission, pilots incur an obligation of ten years after completion of pilot training; navigators incur a six-year obligation after initial training and all others agree to serve for four years after receiving the commission.

Scholarships
Scholarships are available for qualified students. High school students interested in applying should consult their high school counselors in their junior year or early in their senior year. University students in the four-year AFROTC program can compete for scholarships twice a year on the basis of grade-point average, Air Force Officer Qualifying Test scores, Scholastic Assessment Test scores, and a personal interview. Special scholarship programs are also available to students of selected minority backgrounds or who are majoring in critical-demand areas deemed necessary by the U.S. Air Force. Students receiving scholarship must be able to complete the Air Force ROTC program, receive a degree, and be commissioned before reaching age twenty-seven (thirty for veterans). Each scholarship covers the cost of tuition, laboratory fees, incidental expenses, $480 a year for textbooks, and a $200 monthly subsidy. Scholarship awards are projected to increase for fall 2001.

For students who are not selected for any other scholarship program, the Air Force offers $3,450 a year for tuition and textbooks plus $200 a month for expenses to students in any academic major during their junior and senior years. To qualify for this scholarship, the student must

• be a full-time student
• not be older than twenty-seven upon graduation (can be waived for students with military service)
• maintain a 2.00 GPA every term.

As in the other scholarship programs, students must enroll in the AFROTC program and agree to accept an Air Force officer commission and service commitment upon graduation.
Allowances, Uniforms, Textbooks
Students enrolled in the professional officer course are paid a $200 monthly stipend. Uniforms and textbooks for both the general military course and professional military course are provided by the Air Force. The University of Oregon offers a discount on room and board for scholarship winners.

Field Training
One summer field training session is required for Air Force ROTC programs. The one- and two-year programs require five weeks of field training; the four-year program requires four weeks. Students are paid varying amounts for each of these training periods. This pay is in addition to travel pay to and from the field training location.

Standards
Cadets must be U.S. citizens of sound physical condition and high moral character. Non-scholarship cadets must receive a field training allocation before reaching age thirty to be commissioned as Air Force officers. Cadets designated to attend flight training must receive their commission before reaching age thirty.

Other Educational Opportunities
After completing AFROTC requirements, advanced degrees may be sought by delaying active-duty commitments. Some commissioned officers continue advanced studies through fully funded Air Force Institute of Technology programs. Special provisions are available for medical, law, and meteorology students.

Write to the department mailing address for more information about Air Force ROTC programs.

American English Institute
Deanna Hochstein, Interim Director
(541) 346-3945
(541) 346-3917 fax
107 Pacific Hall
5212 University of Oregon
Eugene OR 97403-5212, USA
aei@uoregon.oregon.edu
http://aei.uoregon.edu/index.html

The American English Institute (AEI) offers four English-language programs for adults who want to improve their English proficiency in order to perform effectively in an academic or professional setting. They are the Intensive English Program, the Academic English for International Students program, the International Graduate Teaching Fellow program, and special short-term programs. Institute instructors are university faculty members with specialized training in linguistics, applied linguistics, or teaching English as a second language. Classes begin in September, January, March, and June.

Intensive English Program
This program consists of a basic six-level curriculum and an elective curriculum.

The basic six-level curriculum is divided into two combined skill areas: oral communication, which emphasizes speaking and listening; and written communication, which emphasizes reading and composition.

The elective curriculum consists of optional courses that focus on areas of special concern or interest to students, including Test of English as a Foreign Language (TOEFL) Preparation I and II, Business English, Computer-Assisted Language Learning, and American Films.

Other services and facilities, including an audio-video laboratory and a Macintosh computer laboratory, help students develop English proficiency. Advanced students may enroll, with approval from AEI, in one regular university course. Trained and supervised tutors help students individually with course work, conversation, listening, reading, composition, and pronunciation.

Academic English for International Students
The AEIS program is offered to enrolled students who need or request additional training in English as a second language for academic work. Courses are offered in pronunciation, listening and note taking, speaking, reading and vocabulary, and writing. A placement test determines the area in which work in English is needed. AEIS courses earn university credit and are taken at the same time as other university course work. Information about this program is available from the AEIS office, 112C Pacific Hall.

International Graduate Teaching Fellow Program
English courses are offered to international teaching assistants who need or want help in improving English for use in the classroom. Courses are offered to improve listening and speaking abilities, pronunciation, and university-level teaching skills. Information about this program is available from the AEIS office, the Office of International Education and Exchange, and the Graduate School.

Short-Term Programs
Upon request, the institute designs and teaches two- or five-week programs for groups of students. Programs may target areas of interest such as business, university preparation, American language and culture, or second-language teaching methodology.

Student Services
The institute's services for students in the intensive and short-term programs include an academic counselor, an extensive orientation program before classes begin, planned activities in Eugene and the state of Oregon, and host families.

Admission Procedures
The institute's Intensive English Program is open to students who have successfully completed secondary school and are able to demonstrate sufficient financial support for study at the institute. To apply, submit the following materials:

1. An AEI application form
2. Original or certified copies of the most recent degree or diploma received
3. A personal (or guarantor's) bank statement showing the exact amount available for the period of study, or evidence of a scholarship
4. A nonrefundable application fee of $65.

If a student is transferring from another English-language program in the United States, a recommendation from the program director or a transcript must be included.

Admission to the Intensive English Program does not imply admission to any other school or program at the University of Oregon. Inquiries about admission should be directed to the AEI admissions coordinator.

Army ROTC
See Military Science

CAPITAL Center
Janet Cormack, UO Site Coordinator
(503) 725-2213
18640 NW Walker Road, Suite 1007, Beaverton OR 97006-8927

The CAPITAL Center, developed by the Oregon University System, houses technical and business programs that serve the Portland community. These programs include the Applied Information Management (AIM) Program, the Oregon Executive M.B.A. Program, and the Oregon Master of Software Engineering Program. The Oregon Center for Advanced Technology Education has an office and classrooms at the CAPITAL Center.

University of Oregon activities at the center include courses offered by several Continuation Center programs including the Applied Information Management Program and the Web Design and Publishing Program. The Continuation Center also conducts computer application training courses in the center's computer laboratories. For more information about these programs, see Continuation Center in this section of the catalog.

Computing Center
Joanne R. Hugi, Director
(541) 346-4403
(541) 346-4397 fax
250 Computing Center and 151 Grayson Hall
1212 University of Oregon
Eugene OR 97403-1212
http://cc.uoregon.edu

The Computing Center supports the computing needs of the university through the creation and maintenance of state-of-the-art computing and networking environments. Staff members administer hardware and software, provide a variety of user services, and conduct research in advanced technologies, all in support of instruction, research, and administration.

Hardware
Computing hardware includes central hosts, computer laboratories, the campus network, remote access modems, and outside networks. Central hosts include:

• DARKWING, a large Sun Enterprise 5500 UNIX computer targeted for compute-intensive academic applications
• GLADSTONE, a large Sun Enterprise 5500 system that provides undergraduate students with e-mail service and access to the World Wide Web
• The VMScluster, two large Compaq Open VMS/AXP computers that support academic research and administrative applications

The Computing Center also conducts computer application training courses in the center’s computer laboratories. For more information about these programs, see Continuation Center in this section of the catalog.
including Banner, A/R, FIS, HRIS, SIS, the data warehouses, and auxiliary applications. Network Services staff members provide support for UOnet, the campus network; OWEN/NERO, a statewide network that serves K-12 schools, higher education, and state government agencies; and the Oregon Gigapop, including Internet2 connections.

Software. Academic services staff members support a wide selection of statistical packages, programming languages, utilities, and other software, including

- text editors for UNIX and VMS
- X Windows software
- e-mail (WebMail, IMHO, pine, Eudora) and other network software (ssh, ftp, telnet)
- web browsers (Netscape, Internet Explorer) for all computing platforms
- USENET News readers
- TV broadcast-quality video content, available on the computer desktop with IP/TV
- popular programming languages and libraries (FORTRAN, Pascal, C++, C, the IMSL mathematics and statistics subroutine library)
- statistics packages for UNIX and VMS systems (sas, spss, bmp, Minibib, rats, Splus, eqs, SCA)
- other special-purpose applications programs and packages, including Mathematica (symbolic mathematics), rasmol (three-dimensional molecular modeling), radiance (ray shading), and clustalw (phylogenetic mapping)

Services. The Computing Center’s support services include

- consulting assistance for large-system users in statistics, OpenVMS and UNIX operating systems, e-mail, USENET, network audio and video, and the web
- microcomputer consulting, including assistance with public domain software, disk and file recovery, file transfers, network access, maintenance of software libraries, and site-licensing and distribution of software
- elementary and advanced training workshops and demonstrations
- network support ranging from installing network hardware and software to troubleshooting and diagnosing network problems
- detection of data and network security breaches and deployment of appropriate protection systems
- user’s guides, handouts, reference cards, and other documentation, including a quarterly news journal
- a documents library of vendor manuals, local documentation, and computing-related periodicals and textbooks
- microcomputer and electronics maintenance and upgrade services
- the Computing Center’s website and UO’s primary website
- Optical Mark Reader scanning and test scoring
- limited contract programming

Advanced Technologies. The Advanced Network Technology Center is engaged in research, engineering, and development of next-generation Internet technologies. Projects include

- global Internet routing systems
- integrated services (Internet)
- multicast backbone (MBONE) technology
- IPv6 (advanced Internet protocol)
- Internet2 (higher education’s new network application initiatives) and Abilene, a new, high-speed academic and research network backbone, funded by the National Science Foundation
- OWEN-NERO, the Network for Education and Research in Oregon, which develops high-speed, wide-area network connectivity to further education and research in Oregon. NERO provides network service for the Oregon University System, the State Department of Administrative Services, and the Oregon Public Education Network via OWEN, the Oregon Wide Area Network

Through efforts by the Advanced Network Technology Center, the university was a charter member of Internet2, a collaborative effort of U.S. research universities that planned and designed a high-speed academic and research network. With the center’s assistance, the UO also serves as a Gigapop, a regional Internet2 aggregation site, and supports the Oregon Internet Exchange, a regional exchange point for Internet service providers and high-speed networks.

The Network Startup Resource Center, a subgroup of the Advanced Network Technology Center, provides support for the deployment of networks in developing countries of the world. The Computing Center is a service unit independent of the Department of Computer and Information Science, the academic department that offers for-credit courses for bachelor’s and advanced degrees. For information about that department, see the Computer and Information Science section of this catalog.

Continuation Center

Curtis D. Lind and Ronald E. Trebon, Codirectors
(541) 346-4231
(800) 524-2404 in Oregon
1277 University of Oregon
Eugene OR 97403-1277
ctrinfo@uoregon.edu

Community Education

Sandra Gladney, Program Coordinator
(541) 346-5614
1234 University of Oregon
Eugene OR 97403-1234
http://cep.uoregon.edu

An important dimension of the University of Oregon’s continuing education responsibility is the Community Education Program, which offers university courses to individuals who are not formally admitted to the UO.

Community education students may register for a maximum of 8 credits a term at reduced fees. Credits earned through the Community Education Program are listed on a student’s permanent UO academic record.

Continuing Education

Curtis D. Lind, Director
(541) 346-4231
Baker Downtown Center
975 High Street
http://center.uoregon.edu

Continuing Education is the program through which the Continuation Center offers educational activities in the Eugene area and throughout Oregon. Activities include for-credit and noncredit lectures, conferences, seminars, workshops, and formal courses. Topics cover such diverse subjects as microcomputer applications, international affairs, business computing, arts management, festival and event management, teacher education, and educational administration.

The Continuation Center offers computer classes, nondegree certificates of completion, and graduate degree programs in the Portland area. Other off-campus programs are the Teacher and Administrator Education Program, which serves teachers and administrators throughout Oregon, and the Applied Information Management (AIM) Program. The AIM program is described in the Graduate School section of this catalog.

Programs overseen by Continuing Education are described below. Unless new information is listed, the various programs may be reached through Continuing Education.

Business and Professional Computing Program

Kelly Brougham, Program Coordinator
(800) 824-2714
Captial Center, 18640 NW Walker Road, Suite 1007, Beaverton OR 97006-8927
http://center.uoregon.edu/bpc

The Business and Professional Computing Program offers courses in Beaverton. The intensive, interdisciplinary program offers practical experience on Macintosh and Pentium computers. Subjects include animation, business management, database management, graphic design, multimedia, programming, web design and publishing, web technology. The program has Authorized Training Center status from Adobe, Macromedia, and Microsoft.

Corporate Training Program. Individualized programs provide educational support and staff development for local, regional, and national organizations in business, industry, public utilities, and education. Courses are specifically designed for applications in the participating organization.

Conferences and Special Programs

Paul Katz, Program Director

This division offers substantive conferences and noncredit workshops and supports academic departments and individual faculty members in developing activities for UO students and community members. It sponsors annual events including the Techgraphics and Design-to-Print Conference, National Educational Computing Conference, and Northwest Council for Computer Education Conference. The division serves senior citizens through Elderhostel and young students in the Summer Computer Camp and other precollege programs. In addition, the division sponsors academic society and
Courses that enhance teaching skills, supervision skills, and public school administration are offered in many communities. Teachers and administrators may take courses in teacher education, administrative licensure, counseling psychology, school psychology, and special education. Courses and instructors are approved by the appropriate UO academic unit.

Registration for these offerings takes place at the first class meeting. Courses can be arranged in most communities with strong student needs. Communities such as Ashland, Bend, Coos Bay, Klamath Falls, La Grande, Lebanon, Medford, Myrtle Creek, Portland, Redmond, Roseburg, and Salem have participated in the program. University of Oregon credit may also be arranged for community-based educational events. For additional information, details about courses, or placement on a mailing list, write or call the program coordinator at Continuing Education.

**Web Design and Publishing Program**

Kelly Brougham, Program Coordinator
http://web.uoregon.edu

Information about rapidly changing technology is combined with a foundation of critical thinking in web design publishing. Areas of study include technology, project management, design, software applications, communication skills, and complex problem solving. After completing the program, students can approach web publication challenges with confidence while keeping abreast of the industry.

See also Business and Profession Computing Program.

**Summer Session**

Ronald E. Trebon, Director
(541) 346-3475
(800) 524-2404
1279 University of Oregon
Eugene OR 97403-1279
http://uosummer.uoregon.edu

Enrollment during summer session does not require formal admission to the university. Summer courses carry university credit and begin throughout the summer. Most academic departments, schools, and colleges at the university offer courses in summer. Enrollment in summer is about 40 percent of academic year enrollment, which results in smaller classes. The free summer session catalog, available in late March, has detailed information about summer courses, fees, and registration.

The dates for the eight-week 2002 summer session are June 24-August 16. Telephone registration begins May 6. Selected eleven-week courses begin June 24 and end September 6. Students may also register the first day of class.

**Financial Aid.** The university can assist students with loans, grants, and part-time work during the summer. Financial aid is available only for students who are admitted to the university and enrolled in a program leading to a degree or certificate. A student must be in good academic standing to receive financial aid. To apply for financial aid, students must complete a Free Application for Federal Student Aid (FAFSA) by June 30 and meet any other necessary documents to the Office of Student Financial Aid on or before May 1, 2002.

**Housing.** Single- and multiple-occupancy rooms in university residence halls are abundant in summer. Student family housing is limited because most units are occupied during the summer by year-round students. Rental houses, apartments, and boarding houses are available near the campus.

**Academic Advising**

Hilary Gerdes, Director
(541) 346-3211
(541) 346-5040
364 Oregon Hall
http://advising.uoregon.edu

The Office of Academic Advising coordinates initial advising for new students—freshman and transfer—within academic departments. The staff also has advising responsibilities for students who have not chosen a major. These students, classified as undeclared, are assigned advisers from selected faculty members in the College of Arts and Sciences and from the staff of academic advising. Students in the pre health sciences, fifth-year education programs, and prelaw receive advising assistance in this office. See Preparatory Programs in this section of the catalog. Students seeking help with problems such as choosing a major, making a smooth transition to the university, solving academic problems, and withdrawing from the university also receive assistance. Students may drop in or schedule an appointment weekdays between 9:00 A.M. and 4:30 P.M. to seek advice about general university requirements or personal problems that affect academic progress.

**Services for Student-Athletes**

Advising and academic support for student-athletes was instituted by the university in the late 1960s to help student athletes achieve their academic goals. Student-athletes commit a large percentage of their time to participating in university-sponsored athletic activities. In recognition of this, the university provides a support program to ensure that each student-athlete proceeds toward graduation in a timely manner.

The special support staff, located next door to McArthur Court, offer academic support, tutorial assistance, academic advising, and short-term personal advising and counseling. In providing academic advising, the staff works cooperatively with the university’s teaching faculty.

Staff members can be reached at (541) 346-5428.
Services for Students with Disabilities
The University of Oregon is committed to responding to the needs of students with disabilities as outlined in both the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. The university does not discriminate on the basis of disability in admission or access to, treatment of, or employment in its programs or activities. A variety of accommodations help ensure that teaching methods and the results of evaluation reflect a student's ability based on knowledge and quality of study.

Typical accommodations include, but are not limited to, note taking, sign-language interpreting, equipment checkout, classroom relocations, and modification such as substitution of some degree requirements and alternative testing procedures. Assistance with registration, academic advising, and adaptive equipment is also available.

As necessary, the university makes modifications to its academic requirements to ensure that such requirements neither discriminate nor have the effect of discriminating on the basis of disability against a qualified, demonstrably disabled applicant or student. Academic requirements that the university can demonstrate are essential to the program of instruction being pursued by such a student or to any directly related licensing requirement are not regarded as discriminatory.

Eligibility for services must be supported by professional documentation of disability and need for services. For more information consult Molly Strois, 364 Oregon Hall; telephone (541) 346-1135; TTY (541) 346-1083.

Peer Advising
The Peer Academic Advising Program supplements faculty advising for undergraduate students. Trained students assist their peers in using academic advising appointments to the best advantage. More than seventeen academic departments participate in the program.

Peer advisers combine instruction in problem solving and organizational and leadership skills with on-the-job experience. Students seeking advice can talk over personal concerns about academic and career goals with trained and empathic fellow students.

For more information contact Carolyn Moravek, 364 Oregon Hall; telephone (541) 346-3211; or send e-mail to cmoravek@oregon.uoregon.edu.

Faculty Firesides
The Faculty Firesides program partially funds faculty-hosted events at which students and faculty members spend time together in casual settings where conversation is encouraged and relationships are enhanced.

First-Year Programs
Marilyn Linton, Coordinator
(541) 346-1241
(541) 346-6277 (fax)
372 Oregon Hall
http://learning.uoregon.edu

Learning Communities
Learning Communities, nationally recognized programs for freshmen, offer
• Coherent, high-quality, general education, shaped by the student's imagination.
• The environment of a fine liberal-arts college with the courses and resources of a major research university.
• Opportunities, early in the college career, to get to know a small group of students and faculty members who share personal interests.

Through Learning Communities, small groups of students take general-education courses with a common theme, which is presented from different academic perspectives. Participants receive personal attention and advising from faculty members.

Freshman Interest Groups (FIGs). Each FIG, made up of twenty-five students, takes two courses and faculty-led seminar. Some FIGs are designed for specific majors or career interests; others are more general, giving participants a chance to explore. Each group has a FIG teaching assistant—an undergraduate student who assists in the seminar—who helps members navigate the university.

Residential FIGs. This housing option allows participants to live near other FIG students—though not necessarily right next door—with the goal of making it easy for them to connect with other students who share their interests.

Pathways. Students who enjoy the FIG experience can continue to take some courses with a small group of students in the Pathways program.

Pathways links university courses and small seminars in a way that allows creative students to pursue their general education through consideration of a specific theme or question. Participating faculty members collaborate with each other and with Pathways students to explore the central idea from several perspectives.

Specialized Freshman Courses
Freshman Honors Colloquium. Promising students are introduced to distinguished faculty members, who discuss in an informal setting their own creative work: writing, historical study, or laboratory experiments. Participation is an ideal way for students to discover ideas they might want to investigate later—through honors programs or other undergraduate research opportunities offered by academic departments.

Freshman Seminars. These small discussion-oriented courses put the university's newest students in touch with some of its most respected faculty members. Enrolling in a freshman seminar is an excellent way to meet new friends, be intellectually challenged in a relaxed atmosphere, and become better acquainted with members of the faculty.

Multicultural Affairs
Carla D. Gary, Director and University Advocate
(541) 346-3479
(541) 346-3416 (fax)
164 Oregon Hall
http://oma.uoregon.edu

The Office of Multicultural Affairs (OMA) is dedicated to helping students of color who are U.S. citizens or permanent residents successfully complete their University of Oregon education. OMA strives to meet this responsibility by providing an honest and caring atmosphere sensitive to students. Specific goals are to
• Help African American, Asian American—Pacific Islander, Chicano or Latino, and Native American students achieve academic success and eventual graduation
• Work with the Career Center and the Graduate School to facilitate placement opportunities
• Work with the Office of Student Life to provide an inclusive and welcoming environment for students of color
• Collaborate with local community organizations and government agencies on issues of racial and ethnic diversity
• Assist the University of Oregon with issues of racial and ethnic diversity
• Assist the Office of Admissions with the recruitment of students of color to the University of Oregon
• Facilitate summer research initiatives for students of color
• The office's support services include
• Academic advising
• Computer laboratory with word-processing software and Internet connections
• Scholarship, fellowship, employment, and internship information
• Graduate school preparation
• Student advocacy
• Tutorial assistance
• Selected course offerings including College Composition I and II, College Algebra, Elementary Functions, Special Studies: Intermediate Algebra, Calculus for Business and Social Science I, II, Introduction to Methods of Probability and Statistics

OMA sponsors the Reach for Success middle school visitation program, the Awards and Graduation Ceremony, and multicultural speakers and presenters. The office also provides technical, advisory, and financial support to student organizations, and it enhances the new student experience by coordinating an open house, Week of Welcome activities, and a Fall Orientation Retreat for new students of color.

Services are free. Students of color are encouraged to use the Office of Multicultural Affairs.

National Student Exchange
Karen Cooper, Coordinator
(541) 346-3211
364 Oregon Hall

The University of Oregon is one of some 160 public colleges and universities throughout the country with membership in the National Student Exchange (NSE). Participating campuses are located in all fifty states and several territories. Qualified students at member institutions may apply for exchange enrollment at a participating school. This program enables students to study in different geographical areas of the country and take advantage of specialized courses or unique programs that may not be available on their home campuses. Participation in the program is limited to one year.
To qualify, a UO student must have a 2.50 cumulative grade point average (GPA) or better and have a record of good conduct at the university. Students typically participate in the exchange program during the sophomore or junior year. Students apply during winter term for the following academic year. Participants are assessed in-state tuition by the host institution or pay the University of Oregon tuition while on exchange. Materials are available in the Office of Academic Advising.

Orientation
Laura Connell, Director, Student Orientation Programs

Orientation programs for prospective and new undergraduate students and their parents focus on improving the quality of the new-student experience at the University of Oregon by providing assistance with academic, social, and personal adjustment to the university. Ambassadors Program. Through the Ambassador Program, undergraduate student leaders participate in various recruiting, public relations, and leadership activities for prospective new students. Ambassadors facilitate weekly campus tours at 10:00 A.M. and 2:00 P.M. Monday through Friday and at 10:00 A.M. on Saturday. In addition they staff a telephone-calling project and participate in campus open houses, college fairs, and high school visits. Ambassadors are trained to interact with potential UO students, answer general questions about the university, and help ease anxieties about college life at the University of Oregon.

IntroDUCKtion. This is a one- or two-day orientation program for new students and their families that takes place in July. University faculty and staff members and trained undergraduate student leaders coordinate programs that offer information about University of Oregon's academic programs and support services. New students meet with an academic adviser and register for fall term courses. During the visit, participants live in the residence halls, become familiar with campus, and acquire college survival skills before Week of Welcome activities in September.

Week of Welcome. This five-day orientation program is held in September before the start of fall term. Faculty members and returning students help ease incoming first-year and transfer students' transition to the University of Oregon by presenting more than 300 academic, social, and cultural activities. During the orientation, new students meet other students, start their college careers smoothly, and discover the campus and community resources vital to their educational goals.

Preparatory Programs

Students may begin preparing for the following professional or graduate programs at the University of Oregon. Some of the programs simply require a bachelor's degree for admission, while others require specific undergraduate courses, standardized examinations, and field experience. Students who are interested in the preparatory programs should consult appropriate university advisers. The Office of Academic Advising assists students in all aspects of the application process.

Engineering, Preparatory
David M. Strom, Preengineering Director
(541) 346-6108
418 Willamette Hall

Graduates with bachelor's degrees in engineering are in great demand to solve practical problems by applying the principles of physical science and mathematics. While it is sometimes difficult to define the difference in outlook between a career in one of the physical sciences, e.g., physics or chemistry, and a career in engineering, engineering solutions to problems are usually more influenced by practical and economic considerations.

There are two academic phases in earning a bachelor's degree in an engineering field: (1) pre-engineering is the first two to three years of course work before admission to a professional engineering program, and (2) professional engineering is the last two years of course work at a school of engineering leading to a bachelor of arts or bachelor of science degree in engineering. Engineering graduates may become licensed professional engineers after four years of employment in their field of specialization and successful completion of state license examinations.

The University of Oregon offers a preengineering program for students who want to complete their first two to three years of study at a liberal-arts university before transferring to a school of engineering. Details are contained in the Student Guide for Engineering Preparation at the University of Oregon including the 3/2 Program offered with Oregon State University, available in the Department of Physics office.

High School Preparation. Students interested in an engineering career should complete as much mathematics and science as possible in high school. If possible, four years of high school mathematics (including advanced algebra, trigonometry, and elementary functions) should be completed in order to begin calculus in the first year at the university. Physics and chemistry courses are strongly recommended.

Preengineering Requirements

The following requirements are designed for students planning to transfer into the Oregon State University (OSU) College of Engineering. Detailed requirements are specified in the OSU College of Engineering Advising Guide, available from the College of Engineering, Oregon State University, Corvallis OR 97331; telephone (541) 737-5536.

While preengineering programs at other engineering schools are similar, students should obtain advising guides from the schools of their choice.

Preengineering students should be aware that candidates at OSU must earn a minimum of 204 credits for a bachelor's degree in engineering. Therefore completion of the degree takes an average of almost five years.

The University of Oregon does not offer certain preengineering courses. However, Engineering Graphics (GE 115), Statics (ENGR 211), Dynamics (ENGR 212), Strength of Materials (ENGR 213), and Electrical Fundamentals (ENGR 221) are available from the Science Department at Lane Community College. Full-time UO preengineering students may take these courses at no additional charge. ENGR 211, 212, 213 must be taken in sequence. Details of registration for these courses, including pre- and corequisites, are available from the preengineering director. The Department of Physics offers a three-plus-two program. It allows a student to earn a bachelor's degree in physics from the University of Oregon and a bachelor's degree in engineering physics from Oregon State University by completing three years of study in Eugene followed by two years in Corvallis in the OSU College of Engineering. Interested students should consult the preengineering director.

Required preengineering courses must be completed with grades of C- or better for admission to the OSU College of Engineering. These courses are marked with an asterisk (*) in the sample programs below.

Sample Program

The following sample program is for students prepared to begin calculus in their freshman year.

Freshman Year

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculus I, II, III (MATH 251, 252, 253)</td>
<td>12</td>

Additional Requirements

In addition to WR 121, two communication courses and an upper-division writing-intensive course in the major are required.

Consult the preengineering director about these and other bachelor's degree requirements for the OSU School of Engineering.
Health Sciences, Preparatory

Wendy Haws, Coordinator
(541) 346-3211
364 Oregon Hall
http://gladstone.uoregon.edu/~health

The Office of Academic Advising supervises the following preprofessional health science programs. Information on other health-career programs is available from the coordinator. Because professional schools change admission requirements frequently, students need to consult regularly with UO advisers and with the professional schools they want to enter.

The Office of Academic Advising has a prehealth science information area with recent literature about the health profession and information and assistance on admission tests and procedures. Information is also available on the prehealth science website.

Clinical Laboratory Science-Medical Technology, Preparatory

Wendy Haws, Head Adviser
(541) 346-3211

The university offers most course work needed to satisfy the minimum requirements for admission to the Oregon Health Sciences University (OHSU) Clinical Laboratory Science-Medical Technology Program in Portland. A required course in immunology, which is not offered at the UO, must be taken elsewhere. The fifteen-month program at OHSU culminates in a bachelor of science degree.

Admission Requirements

Students entering the program without a bachelor's degree must have completed at least 113 transferable credits and be eligible for an OHSU bachelor's degree upon completion of the program. If work to meet admission requirements was done more than seven years before application to the program, additional work must be completed to qualify for admission.

The required 113 credits must include

- Biology, 24 credits including Microbiology (BI 330) and Microbiology Laboratory (BI 331).
- Mathematics. One course in college-level mathematics, MATH 112 or higher. Additional mathematics and statistics courses are strongly recommended.
- Chemistry. 24 credits of lecture and laboratory work that include general inorganic chemistry, organic chemistry, biochemistry, quantitative analysis, and physical chemistry.

Admission Information

Information may be obtained by writing Clinical Laboratory Science-Medical Technology Program, Gaines Hall, Oregon Health Sciences University School of Medicine, 3181 SW Sam Jackson Park Road, MTGH, Portland OR 97201-3098; by telephone, (503) 494-8698; or from the program's website, http://www.ohsu.edu/alliedhealth/clsindex.htm.

Dental Hygiene, Preparatory

Hilda Yee Young, Head Adviser
(541) 346-3211

The University of Oregon offers courses that satisfy admission requirements for the Oregon Health Sciences University (OHSU) Dental Hygiene Program in Portland.

Completion of a two-year program (90-credit minimum) is required prior to registration in the Dental Hygiene Program. All courses required for admission must be taken for letter grades.

The following courses satisfy basic requirements:

- Introductory General Chemistry (CH 211, 212), and General Chemistry (CH 213) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229)
- Organic Chemistry I (CH 331) with laboratory (CH 337)
- General Biology I,II,III: Cells, Organisms, Populations (BI 211, 212, 213)
- Human Anatomy I: Bones, Muscles, Nerves and Human Anatomy II: Systems of the Body (ANAT 311, 312) with laboratories
- Human Physiology I: Nerve, Muscle, Senses and Human Physiology II: Homeostatic Mechanisms (HPHY 313, 314) with laboratories (HPHY 316, 317)
- College Composition I (WR 121) and either College Composition II or III (WR 122 or 123)
- One course in nutrition, which may be completed after admission to the dental hygiene program

One course in speech
- Arts and letters: two group-satisfying courses
- Introduction to Cultural Anthropology (ANTH 110)
- Mind and Brain (PSY 201), Mind and Society (PSY 202)
- Introduction to Sociology (SOC 204)
- Applications are available from the Office of the Registrar, Oregon Health Sciences University School of Dentistry, 611 SW Campus Drive, Portland OR 97201. Deadline for fall term applications is March 1.

Because entrance requirements for dental hygiene programs may vary, it is recommended that students write to the schools they are interested in for specific admission information. Completion of the preprofessional program does not guarantee admission to a dental hygiene program.

Dentistry, Preparatory

Karen Cooper, Adviser
(541) 346-3211

Predental Curriculum

The university offers a predental program that satisfies the requirements for admission to the Oregon Health Sciences University (OHSU) School of Dentistry in Portland and to many other accredited dental schools.

General Requirements

The OHSU School of Dentistry requires that predental students devote at least two years to their predental education, completing a minimum of 90 credits, of which 80—including all of the predental requirements—must be taken for letter grades. In the computation of the overall grade point average (GPA), the OHSU School of Dentistry counts an N (no pass) as a failing grade.

Students who plan to complete the requirements for a bachelor's degree after entering the OHSU School of Dentistry and after earning 132 UO credits should satisfy all major and university requirements at the UO that cannot be met with course work at the School of Dentistry. For general university requirements, see Bachelor's Degree Requirements in the Registration and Academic Policies section of this catalog.

Although a bachelor's degree is not an admission requirement, the OHSU School of Dentistry and most other dental schools recommend that their students complete an undergraduate degree.

Science Requirements

The following courses are required at most dental schools in the United States:

- Mathematics (MATH 111 and above), 12 credits
- One-year general chemistry sequence with laboratories
- Organic chemistry (CH 331, 332 or CH 331, 335, 336) with laboratories (CH 337, 338). Although the OHSU School of Dentistry accepts CH 331, 332, some dental schools require the full year of organic chemistry. CH 331, 335, 336
- Foundations I,II,III: Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life (BI 261, 262, 263) is the recommended biology sequence.
- Foundations IV: Biological Interactions (BI 264) is also recommended.

Alternatively, some predental students may take General Biology I,II,III: Cells, Organisms, Populations (BI 211, 212, 213), which meets minimum admission requirements, but is not recommended as the sole preparation either for dental school work or for the Dental Admission Test. This sequence is acceptable for the UO general science major and partially prepares students for additional work in biology. It does not, however, fully substitute for the core courses required for the biology major. Other majors should consult their advisers on the suitability of this alternative.

General Physics (PHYS 201, 202, 203) or General Physics with Calculus (PHYS 211, 212, 213) with laboratories (PHYS 204, 205, 206)

Admission

Admission to the OHSU School of Dentistry is competitive. The mean grade point average (GPA) of the entering class of 2000 was 3.48. If the applicant's GPA is below 3.00, there is little probability of acceptance. However, the Admissions Committee of the School of Dentistry makes special allowance for students who start poorly but improve substantially in their predental course work.

The Dental Admission Test should be taken no later than fall term one year before admission. A pamphlet describing the test and places where it will be given is available in the Office of Academic Advising, 364 Oregon Hall.

Three letters of recommendation are required by the OHSU School of Dentistry, one each from teachers of biology, chemistry, and physics. If the information is to be of any value to the admissions committee, it is important for predental students to have references from teachers who have actually worked with them. In large classes, a more useful reference may be obtained from a reviewer who has actually worked with them.
laboratory teaching assistant than from the lecturer, who may not deal personally with the student. The evaluation should be obtained immediately following the conclusion of a term's work. Evaluation forms are available from the O.U. Career Center, 244 Hendricks Hall.

**Recommended Electives.** Dental schools recommend that predental students, in addition to completing the basic requirements already described, choose electives that broaden their cultural background and strengthen their scientific training. Courses are suggested in developmental biology, microbiology, genetics, physical chemistry, mathematics, second language (completion of a second-year course), philosophy, public speaking, music and art appreciation, history, economics, sociology, literature, anthropology, and personnel management. Students should explore their own interests and obtain the best possible general cultural education. The guidance of predental advisers in course planning is indispensable, and their counsel should be sought regularly.

**Forensic Science, Preparatory**

Deborah B. Exton, Head Adviser  
(541) 346-4629

The University of Oregon offers courses that prepare students for graduate programs and careers in forensic science. Forensic science is the application of science and medicine to law. Graduates of forensic science programs work in a variety of settings including modern crime laboratories, at the local, state, and national levels, and in law enforcement agencies such as the Drug Enforcement Administration, Food and Drug Administration, Environmental Protection Agency, and Occupational Safety and Health Administrations. Other opportunities exist in private industry.

**Minimum Requirements**

Bachelor's degree in any discipline, although biology, chemistry, computer and information science, general science, or physics are most appropriate.

Scores from Graduate Record Examinations; a few schools will accept Medical College Admission Test scores instead.

Letters of recommendation from science faculty members.

**Suggested Science Courses**

*Foundations UI,II,III,IV:* Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life, Biological Interactions (BI 261, 262, 263, 264)

Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 223) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229) or Honors General Chemistry (CH 224H, 225H, 226H) with laboratories (CH 237, 238, 239)

Organic Chemistry I,II,III (CH 331, 335, 336) with laboratories (CH 337, 338)

Three terms of biology covering basic concepts of cell structure and function, developmental biology (embryology), and genetics. Premedical students may take Foundations I,II,III. Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life (BI 261, 262, 263). Foundations IV: Biological Interactions (BI 264) is also recommended

Alternatively, some students take General Biology I,II,III; Cells, Organisms, Populations (BI 211, 212, 213). Although these courses meet minimum admission requirements, they are not recommended as the sole preparation either for medical school work or for the Medical College Admission Test (MCAT). This sequence is acceptable in the general science major program and partially prepares students for additional work in biology. The sequence does not, however, substitute for the core courses required for the biology major. Student who choose this sequence are recommended to take Foundations III: Biochemical Basis of Life (BI 263) as well.

One college-level mathematics course. Many schools require calculus

General Physics (PHYS 201, 202, 203) with laboratories (PHYS 204, 205, 206)

One year of English including two composition courses

One year of arts and letters courses

One year of work in the social sciences

Specific courses are recommendations only; in some instances alternative courses may be acceptable or preferred to meet major requirements. Transfer students and postbaccaulareate students may meet the minimum requirements in other ways; they should consult their advisers and Medical School Admission Requirements.

**Admission**

The OHSU School of Medicine requires applicants to have a bachelor's degree prior to admission. Most other medical schools give preference to students with bachelor's degrees in academic subjects; premedicine is not an academic major. Any major is acceptable to medical schools, and recent research has demonstrated that there is no bias against the nonscience major in the selection process. Nor is there any significant difference between the science and the nonscience major in medical school performance or in eventual selection of residency. Specific requirements for various majors are found in this catalog under department and program headings; see also the General Science section.

A few medical schools accept students at the end of their junior year on the assumption that science credits earned in medical school may be transferred back to the undergraduate institution to satisfy bachelor's degree requirements. Students planning to enter medical school at the end of their junior year should consult advisers regularly to ensure that general university and departmental major requirements are met. These students must have completed 132 credits at the University of Oregon or have met the university residence requirement of 45 UO credits after completing 120 credits.

Beyond the satisfactory completion of minimum requirements, selection for admission is based on many factors including undergraduate grade point averages, MCAT scores, letters of recommendation, and awareness of and experiences in health-related fields.

A 3.60 GPA is the national mean for accepted applicants, and it is unlikely that an applicant with a GPA below 3.00 would be accepted at most American medical schools. Furthermore, courses taken to satisfy science requirements must be taken for letter grades.

Nearly all medical schools require applicants to take the MCAT, given in early spring and late summer each year. Reservations for this examination must be made at least one month in advance of the scheduled date; reservation blanks are available in the prehealth sciences information area, which also has a manual that describes the test and provides practice questions and suggestions about preparing for the test. Applicants must take the test at least one full year before anticipated admission.

Three to five letters of recommendation from college or university instructors are generally required. Most schools request that two of these letters come from science instructors. The importance of these letters cannot be overemphasized. A letter of recommendation should be requested at the conclusion of a course while the student's performance is fresh in the instructor's mind. Most schools also require volunteer or work experience and a letter of recommendation from someone who works in a health-related field.

The university sponsors an academic and service society, the Asklepiads. For more information, see the Honors at Oregon section of this catalog.
Osteopathic medical schools require basically the same minimum undergraduate program. A few schools request letters of recommendation from practicing osteopaths.

Chiropractic medical schools require many of the same courses, although some require anatomy and physiology.

Naturopathic medical schools require many of the same science courses.

Nursing, Preparatory
Hilda Yee Young, Head Adviser

The College of Arts and Sciences offers preparation designed to meet the general requirements for admission to a bachelor’s degree programs in nursing. One to three years of prenursing course work followed by two or three years of professional course work at a school of nursing leads to a bachelor of science degree in nursing (B.S.N.). Satisfactory completion of the prenursing requirements does not guarantee admission to a nursing program since admission to these programs is competitive.

The B.S.N. is offered by Oregon Health Sciences University (OHSU) in Portland. OHSU also administers the B.S.N. programs at Eastern Oregon University in La Grande, Oregon Institute of Technology in Klamath Falls, and Southern Oregon University in Ashland. Private schools offering the B.S.N. in Oregon include the University of Portland, Linfield College, and Walla Walla College. Associate degrees in nursing (A.D.N.) are offered by Oregon community colleges.

Students can complete transfer requirements at the UO for other programs in the state. Some out-of-state accelerated programs admit students after they have completed a bachelor’s degree in any subject and taken specified science courses.

Before transferring to most B.S.N. programs, students should have completed
Introduction to Cultural Anthropology (ANTH 110)
Introduction to Sociology (SOC 204)
Human Anatomy I: Bones, Muscles, Nerves and Human Anatomy II: Systems of the Body (ANAT 311, 312) with laboratories
Human Physiology I: Nerve, Muscle, Senses and Human Physiology II: Homeostatic Mechanisms (HPHY 313, 314) with laboratories (HPHY 316, 317)
Microbiology (BI 330) or Bacteriology (BI 318)
Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 227, 228, 229) with laboratories (CH 227, 228, 229)
College Algebra (MATH 111), Introduction to Methods of Probability and Statistics (MATH 243) and Ethics (PHIL 102)

Mind and Brain (PSY 201) or Mind and Society (PSY 202), Development (PSY 375)

One literature course
Two speech courses
Nutrition

College Composition I,II,III (WR 121, 122, 123)
Prior to registration students should contact the head adviser, who can provide information about the above options and assist in course selection.

Registered nurses who want to complete the B.S.N. degree should call OHSU for information, (503) 494-7725.

Pharmacy, Preparatory
James W. Long, Head Adviser

The University of Oregon offers a program that fulfills admission requirements to the Oregon State University (OSU) College of Pharmacy Pharm.D. degree program and to most other accredited pharmacy schools. Pharmacy Schools Admission Requirements is available for review in the Office of Academic Advising, 364 Oregon Hall, or in the office of the head adviser. Variations in requirements are available online, http://www.aacp.org.

The prepharmacy curriculum for the OSU College of Pharmacy requires three to four years of study including:
General Physics (PHYS 201, 202, 203) with laboratories (PHYS 204, 205, 206)
Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 223) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229), or Honors General Chemistry (CH 224H, 225H, 226H) with laboratories (CH 237, 238, 239)
Organic Chemistry I,II,III (CH 331, 335, 336) with laboratory (CH 337)
General Biology I,II,III: Cells, Organisms, Populations (BI 211, 212, 213); Cell Biology (BI 322) recommended
Human Physiology I,II (HPHY 313, 314) with laboratories (HPHY 316, 317)
Microbiology (BI 330) and Microbiology Laboratory (BI 331)
Calculus I (MATH 251) or Calculus for Business and Social Science I (MATH 241)

Mind and Brain (PSY 201)

Introduction to Economic Analysis: Microeconomics (EC 201)

Two of the following: Introduction to Economic Analysis: Macroeconomics (EC 202), Mind and Society (PSY 202), Introduction to Sociology (SOC 204), Development (PSY 375)

College Composition I (WR 121) and either College Composition II or III (WR 122 or 123)
A third composition course taken at the UO or a course in speech taken at Lane Community College

Advanced first aid if available or valid CPR and first aid cards.

Required courses must be taken for letter grades whenever that option is available.

In addition to required courses, students must submit letters of recommendation from the teaching faculty and from a pharmacist. OSU does not require the scores from the Pharmacy Admission Test, but many schools do. Information about the test is available in the Office of Academic Advising.

Although OSU accepts students without a bachelor’s degree into the program, most UO students complete a degree on this campus. Majors in biology, chemistry, and general science are most readily adapted to prepharmacy studies.

Students admitted to OSU without a bachelor’s degree must complete bachelor’s degree requirements by the end of their third year at OSU.

Generally, the application deadline for the following fall term is in January, although students are urged to submit their applications in December. Applications are available in September from the Oregon State University College of Pharmacy, Corvallis OR 97331-3807; telephone (541) 737-3424. Information is also available on the OSU College of Pharmacy website, http://osu.orst.edu/dept/cop.

Physician Assistant, Preparatory
Wendy Haws, Head Adviser

The University of Oregon offers the courses required for admission to the Oregon Health Sciences University physician assistant program. Completion of the twenty-six-month program earns the master of physician assistant studies degree. The required courses also meet requirements for many programs elsewhere in the United States.

Applicants to the program must have completed a bachelor’s degree with a minimum cumulative GPA of 2.80. Required prerequisites include One statistics course
Mind and Society (PSY 202) or Development (PSY 375)

General Biology I,II,III: Cells, Organisms, Populations (BI 211, 212, 213) or Foundations I,II,III: Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life (BI 261, 262, 263)

Three terms of human anatomy with laboratories; Human Physiology I,II (HPHY 313, 314) with laboratories (HPHY 316, 317) completed within the last seven years; Microbiology (BI 330) and Microbiology Laboratory (BI 331)

Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 223) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229) or Honors General Chemistry (CH 224H, 225H, 226H) with laboratories (CH 237, 238, 239)

Demonstrated computer proficiency through course work or experience

Upper-division course work in natural science recommended, including organic chemistry or biochemistry

Required courses should be taken for letter grades and passed with grades of mid-C or better

Graduate Record Examinations scores on the general test

In addition to academic requirements, employment for at least a year in a responsible position in a health-care setting is expected of applicants. Preference is given to applicants who have experience that required a period of training and/or responsibilities in direct patient care. Students are responsible for gaining the appropriate experiences before they apply.

The applications are available summer through early October for admission the following fall; the application deadline is October 16. Applications are available from Oregon Health Sciences University Physician Assistant Program, 3181 SW Sam Jackson Park Road, Portland OR 97201-3098;
by telephone, (503) 494-1410; or online, http://www.ohsu.edu/ah-pa.

Veterinary Medicine, Preparatory
Karen Cooper, Head Adviser
(541) 346-3211

The University of Oregon offers course work that prepares students for admission to the Tri-State Program in Veterinary Medicine (offered jointly by Oregon State University, Washington State University, and the University of Idaho) and for most U.S. schools of veterinary medicine.

Course work that meets the requirements for the tri-state program is listed below. For other schools' requirements consult the literature available in the Office of Academic Advising, 364 Oregon Hall. Some schools maintain informational websites.

Most veterinary schools request scores from the Graduate Record Examinations as well as veterinary medical exposure and animal experience. A few schools require the Veterinary College Admission Test. Requirements should be evaluated early so that they can be fulfilled prior to admission.

Requirements
Completion of 107 credits including 67 in the following physical and biological sciences:
- Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 223) or General Chemistry (CH 221, 222, 223) with laboratories (CH 227, 228, 229) or Honors General Chemistry (CH 224H, 225H, 226H) with laboratories (CH 237, 238, 239)
- Organic chemistry sufficient to meet requirements for upper-division biochemistry courses (CH 331, 332) or (CH 333, 335, 336); laboratories (CH 337, 338) recommended
- One upper-division biochemistry course. Foundations III: Biochemical Basis of Life (BI 263) meets this requirement; see adviser for letter to accompany application
- College Algebra (MATH 111), Elementary Functions (MATH 112)
- General Physics (PHYS 201, 202 or PHYS 202, 203). Many veterinary schools require two terms with laboratories; some require a full year
- General education courses and electives to total 40 credits, if the student has not completed a bachelor's degree

Students may be admitted to veterinary school before completing the bachelor's degree. However, the bachelor's degree must be completed before the doctor of veterinary medicine (D.V.M.) degree can be granted. With careful planning, credits earned at the professional school can be transferred to the undergraduate institution to satisfy the remaining requirements for the bachelor's degree. UO students must complete 132 credits at the University of Oregon or have satisfied university residence requirements. Students planning on early entry into veterinary school should consult regularly with advisers to ensure that general university requirements as well as major requirements are met.

WICHE Programs in the Health Sciences
The Western Interstate Commission for Higher Education (WICHE) Student Exchange Programs have been developed to help students in the Western United States obtain access to fields of professional education that are not available at state institutions in their home states. Oregon's participation in WICHE enables qualified resident students to apply for assistance in the programs described below while attending participating institutions in any of the thirteen participating WICHE states.

Assistance under these programs enables a limited number of students to pay reduced tuition and fees at state-supported and independent institutions. Students must complete the application and obtain certification as Oregon residents prior to October 15 of the year preceding the academic year of anticipated enrollment. WICHE certification does not guarantee admission. Additional information and forms for application and certification may be obtained from the Certifying Officer, WICHE, PO Box 3175, Eugene OR 97403, or in 146 Susan Campbell Hall on the UO campus; telephone (541) 346-5723.

More information about the WICHE programs described below is available from the Office of Academic Advising, 364 Oregon Hall.

Occupational Therapy, Preparatory
Hilda Yee Young, Head Adviser
(541) 346-3211

The university offers courses that satisfy requirements for admission to United States schools of occupational therapy. Students can fulfill requirements for entry into a master's program in occupational therapy while they earn a bachelor's degree.

Recommended Courses
- Introductory General Chemistry (CH 211, 212) and General Chemistry (CH 223) with laboratories (CH 227, 228, 229)
- College Algebra (MATH 111), Elementary Functions (MATH 112), and Introduction to Methods and General Chemistry (CH 223) with laboratories (CH 227, 228, 229)
- General Biology II, III, IV: Genetics and Evolution, Molecular Genetics, Biochemical Basis of Life, Biological Interactions (BI 261, 262, 263, 264). BI 261, 262 satisfy the requirement for one semester or term of genetics; see adviser for letter to accompany application
- At least 6 credits in upper-division biology courses with a minimum of one laboratory (e.g., physiological psychology, microbiology, or biochemistry)
- General physics (PHYS 201, 202 or PHYS 202, 203). Many veterinary schools require two terms with laboratories; some require a full year
- General education courses and electives to total 40 credits, if the student has not completed a bachelor's degree

Students may be admitted to veterinary school before completing the bachelor's degree. However, the bachelor's degree must be completed before the doctor of veterinary medicine (D.V.M.) degree can be granted. With careful planning, credits earned at the professional school can be transferred to the undergraduate institution to satisfy the remaining requirements for the bachelor's degree. UO students must complete 132 credits at the University of Oregon or have satisfied university residence requirements. Students planning on early entry into veterinary school should consult regularly with advisers to ensure that general university requirements as well as major requirements are met.

Optometry, Preparatory
Karen Cooper, Head Adviser
(541) 346-3211

The university offers courses that satisfy admission requirements for sixteen United States schools and colleges of optometry. Although specific requirements vary, all schools emphasize mathematics, general physics, general and organic chemistry, biology, psychology, and English. Some require additional courses in biochemistry, social science, literature, philosophy, statistics, and second languages.

Applicants must take the Optometry Admission Test (OAT), usually given in fall and spring. Applicants must also submit letters of recommendation from science instructors.

Address inquiries to the American Optometric Association, 243 N Lindbergh, St. Louis MO 63141.

Pacific University, a private school; Southern California College of Optometry; and University of California, Berkeley, participate in the WICHE program.

Physical Therapy, Preparatory
Hilda Yee Young, Head Adviser
(541) 346-3211

The university offers a prephysical therapy program that satisfies requirements for admission to most United States schools of physical therapy. Students may obtain a bachelor's degree, simultaneously fulfilling requirements for entrance into a physical therapy master's or doctoral degree program.

Requirements. Students planning to obtain a bachelor's degree at the UO should declare their majors relatively early so that physical-therapy option requirements can be fulfilled as part of a chosen major. No specific major is required for most postbaccalaureate programs as long as certain course work is completed. Because considerable physical science background is required for admission, students usually choose a compatible major, such as biology, general science, or exercise and movement science.

Most schools require a year-long sequence each of general biology, general chemistry, and general physics and 6 credits each of human anatomy and human physiology (including laboratories in all science courses). In addition, many schools require course work in abnormal psychology, developmental psychology, and statistics. Letters
of recommendation from faculty members may also be requested.

Practicum experience is required to help students clarify career goals and use opportunities to consult practitioners who have current information about the profession. Most schools require 100 to 200 hours of observation with therapists.

Practicum credit in the Department of Exercise and Movement Science is available. Applications to physical therapy programs are made during fall term a year in advance of expected enrollment. Most application deadlines are in early winter; selections are made in March and April for the following fall. Application for WICHE certification must be completed by October 15 of the year preceding admission.

Most schools of physical therapy do not accept students with grade point averages below 3.00. Moreover, recent competition for admission has caused the mean grade point average for accepted students to rise above this level.

The only physical therapy program in Oregon is a master's degree program at Pacific University. In addition to the subjects named earlier, this program requires one computer science course and 8 credits in organic chemistry.

For more information on physical therapy, students may write to the American Physical Therapy Association, 1111 N Fairfax Street, Alexandria VA 22314; telephone (800) 999-2782.

**Podiatry, Preparatory**

**Wendy Haws, Head Adviser**

(541) 346-3211

The university offers courses that satisfy admission requirements for the seven accredited colleges of podiatric medicine in the United States. Information on specific requirements, on the Medical College Admission Test (MCAT), and on careers in podiatry is available in the Office of Academic Advising. For more information, students may write to the American Association of Colleges of Podiatric Medicine, 1350 Piccard Drive, Suite 322, Rockville MD 20850; or visit their website, http://www.aacpm.org.

The California College of Podiatric Medicine participates in the WICHE program; telephone (800) 334-2276.

**Law, Preparatory**

**Stephen Carney, Head Adviser**

(541) 346-3211

364 Oregon Hall

In general, law schools require that applicants for admission have a bachelor's degree. They do not, however, require specific undergraduate majors or prescribe a specific prelegal curriculum. Law schools suggest that prospective students choose majors that provide education in broad cultural fields, which orient students to the general societal framework within which our legal system has developed.

Whatever the undergraduate major, prelaw students should place considerable emphasis on the development of skills in English composition and communication and on acquiring the ability to read with understanding, to think logically, and to perform research and analysis competently.

Many law schools advise against a large concentration of courses in vocational training. The University of Oregon School of Law recommends the following courses for student consideration. They are not required for admission, nor do they substitute for a broad, well-developed educational background.

College Composition I,II,III (WR 121, 122, 123)
Introduction to Economic Analysis: Microeconomics (EC 201), Introduction to Economic Analysis: Macroeconomics (EC 202)
United States (HIST 201, 202, 203)
Introduction to Accounting I,II (ACCT 211, 213)
Critical Reasoning (PHIL 103), Social and Political Philosophy (PHIL 307, 308), Law and Society (PHIL 446)

England (HIST 332)
Political theory (PS 430, 431, 432)

Literature and additional expository writing courses courses in psychology and sociology are recommended.

All accredited law schools in the United States require their applicants to submit scores from the Law School Admission Test (LSAT). The examination is given in October, December, February, and June. Registration forms are available in the prelaw advising area; the School of Law admissions office; and the University Counseling Center's Testing Office, 238 University Health and Counseling Center Building. Completed forms must be mailed a month before the testing date. For those planning to attend law school immediately upon graduation, it is recommended that the examination be taken in the spring of the junior year or at the earliest possible date in the senior year. The test may be repeated, but most law schools average combined scores. The Center for Academic Learning Services, 68 Prince Lucien Campbell Hall, offers moderately priced review courses each term.

Each law school has its own admission criteria. The primary predictors of admission are LSAT scores and grade point averages. Various subjective factors are also considered. Students should use the pass/no pass option with restraint. They should expect to provide letters of recommendation and statements of purpose.

Students are urged to schedule an appointment with the prelaw advisor early in their college career.

Additional information about prelegal study and law school admission is contained in the Official Guide to U.S. Law Schools, available at the Office of Academic Advising, the School of Law admissions office, and the campus bookstore. Students who want more information or assistance should inquire at the prelaw information area and consult the director of admissions for the UO School of Law.

Academic advising staff members supply the prelaw information area with catalogs, recent literature on the profession, and information and assistance on admission tests and procedures. Each fall and spring workshops are scheduled for students interested in preparing for law school. Information about these workshops is available on the Office of Academic Advising website.

**Master of Business Administration, Preparatory**

**Jack Bennett, Head Adviser**

(541) 346-3211

364 Oregon Hall

The master of business administration program trains graduates for high-level management positions. Many schools look for diversity of background in their applicants, and a broad liberal arts education is considered an excellent foundation. Students should develop analytic skills through coursework in calculus, computer programming, and economics, and communication skills through coursework in business English, scientific and technical writing, advanced composition, and literature. Studies in the behavioral sciences are particularly suitable for future managers.

For most graduate schools of business, significant work experience and achievement are considered in evaluating an application for admission. Certain types of experience may reflect motivation, exposure to practical problems, and the ability to apply these to a business school education. In the evaluation of work experience, one of the qualities business schools look for is leadership potential. An individual's response and reaction to a job experience and the personal growth that may result are considered more closely than the actual status of a job. Business schools are also interested in a student's extracurricular activities, internships, and part-time, summer, or volunteer work.

The Office of Academic Advising schedules informational workshops during fall and spring terms for students interested in earning an M.B.A. Specific programs can be researched online. The M.B.A. advisor can help with advice about application procedures and time lines.

See the Graduate School of Management section of this catalog for information about UO M.B.A. degree program.

**Social Work, Preparatory**

**Stephen Carney, Head Adviser**

(541) 346-3211

364 Oregon Hall

Graduate programs in social work usually require a bachelor's degree but not a specific major or particular course work for admission. The best preparation begins with broad exposure to the social and behavioral sciences and an understanding of the behavior of individuals, groups, and social institutions. University students recently admitted to professional programs in social work have found majors in anthropology, educational studies, political science, psychology, and sociology useful in providing the foundation for graduate study in social work. Courses in a second language, oral and written communication, management, ethnic studies, biology, and computer science are also valuable.

Professional social workers not only provide direct services to clients in a wide variety of settings but also become administrators, supervisors, and consultants. Most graduate programs in social work expect applicants to show relevant volunteer or paid experience, which can help prospective social workers understand the profession and decide whether it is appropriate for them.
Volunteer and internship opportunities may be offered through the student's major department; students should also check with local volunteer agencies and the Career Center.

The Office of Academic Advising houses a catalog library of graduate programs in social work and provides advising about admission requirements, programs of study, and career opportunities. While the application process generally begins very early in the senior year, students are encouraged to begin the process toward the end of the junior year.

Students are urged to schedule an appointment with the preparatory adviser by the end of the sophomore year. Information about workshops is available on the Office of Academic Advising website.

Teacher Education, Preparatory

(541) 346-3211
364 Oregon Hall

Several options are available to UO students who want teaching careers. Students who want elementary teaching licenses may complete the educational studies major with the integrated-licensure specialization offered by the College of Education. Another option is to earn a bachelor’s degree in a related subject and apply to the graduate elementary teaching specialization. Students who want middle-secondary teaching licenses should complete a fifth-year program offered by the College of Education in one or more of the following areas: foreign language (French, German, Japanese, Latin, Russian, Spanish), language arts, social studies, biology, chemistry, physics, integrated science, or mathematics. Other fifth-year programs are offered in music, elementary, and special education. These graduate programs take approximately one year to complete, and they emphasize field work, teaching methods, and pedagogy. With additional work, a master’s degree can be earned. Admission to any of the fifth-year programs is competitive and requires a strong academic record. Applicants are expected to have tested their interest in teaching through various experiences with young people.

It is important for prospective candidates to make early and regular contact with the College of Education in order to keep abreast of application timetables and admission requirements.

The College of Education’s Office of Academic Support and Student Services maintains a library of pertinent information on state and regional schools.

International Education and Exchange

Thomas Mills, Director

(541) 346-3206
330 Oregon Hall

The university enrolls about 1,450 international students from ninety countries and sponsors overseas study programs in Africa, Asia, Australia, Europe, and Latin America. Through the Office of International Education and Exchange, the university assists students who want to study abroad and international students and faculty members who are teaching and studying at the university.

International Student and Faculty Assistance

Students and faculty members from other countries are invited to inquire at this office for information about admission, housing, United States immigration regulations, employment opportunities, and scholarship aid. The Office of International Education and Exchange offers academic and personal counseling and helps students adjust to life in this country. It also coordinates the Friendship Family Program, which introduces international students to local families.

This office is the official university liaison for several international agencies including the Institute of International Education and the African American Institute.

Overseas Study, Exchange, and Internship Opportunities

Students and faculty members can study, teach, conduct research, or hold an internship abroad by participating in an exchange, internship, or study-abroad program. More complete information about each of the following programs is published in the pamphlets, Abroad—A Most Interesting Place to Learn and Global Graduates—The Oregon International Internship Program, available in the Office of International Education and Exchange.

CIEE is the Council on International Educational Exchange. NCSA is the Northwest Council on Study Abroad. SITE is the School for International Training.

Africa. Students can participate in SITE field-based programs in the following countries: Botswana, Cameroon, Ghana, Kenya, Madagascar, Mali, Morocco, Senegal, South Africa, Tanzania, Uganda, and Zimbabwe. Programs include language study, home stay, field methodology course, thematic seminar, excursions, and an independent-study project. Each program focuses on a theme such as arts, culture, development, or environment. More details about the individual programs are available from the Office of International Education and Exchange. These semester-long programs are offered fall and spring.

Australia, Adelaide. The UO School of Law maintains an active exchange program with the University of Adelaide School of Law in South Australia. This program is open only to law students, who may participate in either the spring or fall semester in Adelaide.

Australia, Melbourne or Perth. La Trobe University and Curtin University offer a broad curriculum for students participating in these semester or yearlong exchange programs. Students attend regular university classes and follow the Australian academic year, which begins in February and ends in November.

Austria, Vienna. This program, offered fall term and winter semester, takes advantage of Vienna’s setting to let students fully experience Austria’s rich cultural arts heritage. Courses offered include German language, social sciences and humanities. German is offered at beginning, intermediate, and advanced-intermediate levels. One term of college-level German is required. Excursions are an integral part of this program, and students live with Viennese families.

China, Beijing. The fall- or spring-semester program at the Central University for Nationalities offers intensive study of Chinese and a chance to learn about China’s minority peoples. The program includes a two-week study tour of one of China’s minority regions. Students in the spring semester may participate in an internship through Global Graduates. Students may also choose a full academic-year program.

China, Xiamen. Faculty members may study or conduct research in one of China’s national universities located in southeast China.

Costa Rica, Monteverde. The fall and spring semesters and the summer option are field-based programs offered through CIEE for undergraduate environmental studies or biology majors who seek intensive sophisticated tropical field and coursework experience. Students conduct independent research projects in ecology and take Spanish language classes.

The Czech Republic, Prague. Participants in this CIEE-sponsored program may take courses in Czech language, history, literature, culture, politics, economics, theater, film, religion, and music. Students live in university dormitories. This program is offered fall or spring semester.

Denmark, Aalborg. This program, taught in English, is designed for undergraduate students who want to study comparative, contemporary, or regional European issues. Course and project work is offered by the University of Aalborg’s European Cultural Studies Program. Graduate students may study at Aalborg with the approval of their department and the UO Graduate School.

Denmark, Copenhagen. Denmark’s International Study Program offers semester and full-year programs in architecture and design, international business, marine biology and ecology, arctic biology, geology of Iceland, environmental studies, medical practice and policy, humanities, and social sciences. Field trips are integrated with academic course work. Architecture and design are also offered in summer semester programs. Courses are taught in English by Danish professors.

Denmark, Copenhagen. Open to M.B.A. students who have successfully completed one year of the UO M.B.A. curriculum, this program offers a variety of courses in English at the Copenhagen School of Business. In addition to the business, economics, and area studies courses, students may take Danish language courses. Students may attend either fall or spring semester.

Ecuador, Quito. Students with at least two years of college-level Spanish can spend a semester or a full year at Pontificia Universidad Catolica del Ecuador or at the Universidad San Francisco de Quito. Language and culture courses are offered, and students with sufficient competence in the language may enroll in regular university courses in most fields of study. Students live in host families.

England, Bristol. One student is accepted into this yearlong exchange program at the University of Bristol. It is open to UO students who concentrate their coursework in mathematics or the sciences. Students attend regular university courses and are assisted by a Study Abroad Program academic adviser. Housing is in the university residence halls.

England, London. Historic London is the setting for this program, which emphasizes the humanities and social sciences. Field trips are integrated with academic work to provide a balanced educational experience. Students live with British
families. The program is offered fall, winter, and spring terms.

England, London. Every other spring, graduate and undergraduate students may study the performing arts in London. Accompanied by a UO professor, participants attend more than forty performances. Course credits apply to UO graduation requirements.

England, Norwich. This academic exchange program between the University of East Anglia and the University of Oregon is based in the School of English and American Studies. Students may take courses across disciplinary lines, but at least half of the courses taken during the year must be in the School of English and American Studies.

Finland, Tampere. UO students without Finnish may enroll in a variety of business, social science, and humanities courses offered in English at the University of Tampere. Students with sufficient Finnish enroll in regular university courses. Instruction is available in beginning to advanced Finnish language courses.

France, Angers. Students in this program study the French language and culture in a language institute at the Université Catholique de l'ouest, which has a variety of language levels. Students may choose to spend one to three summer months, a fall term, or a spring semester in Angers. One term of French is required. Excursions are part of the program, and students live with French families.

France, Lyon. Students with intermediate or advanced training in French may choose the yearlong program in Lyon. Students who have taken three or more years of college-level French may enroll in regular university courses at Lyon I, II, III, and the Faculté Catholique. Students who have two years of French enroll in a language institute at Lyon II. Housing is arranged for students.

France, Poitiers. This one-year academic program is for students who have studied at least two years of college-level French. Most students are enrolled in the Institute for Foreigners at the University of Poitiers, where they study French language and literature. Students with sufficient academic preparation may enroll in regular University of Poitiers courses. Housing is arranged for students.

Germany, Baden-Württemberg. Students in this yearlong program may study at any one of the participating universities at Freiburg, Heidelberg, Hohenheim, Karlsruhe, Konstanz, Mannheim, Stuttgart, Tübingen, or Ulm. Instruction is conducted in German; students with sufficient competence in German may enroll in regular university courses in most fields of study. At least two years of college-level German is required.

Germany, Tübingen. Students with two terms of first-year German language are eligible for this intensive language program offered each year from April to July. By the end of the program, participants will have completed the entire second-year German sequence.

Greece, Athens. Organized by the Athens Center, this fall- and spring-term program showcases Athens’ rich historical and cultural resources. Except for one course in modern Greek, all courses are taught in English. Excursions and field trips are important parts of the program.

Hungary, Budapest. Participants in this CIEE-sponsored program may take courses in Hungarian language, culture, history, politics, and economics. Students live in apartments or with host families. This semester-long program is offered fall and spring.

India, Dharamsala. This semester-long, field-based program in Tibetan studies is sponsored by SIT. The focus is history, politics, art and culture. The program includes Tibetan language study, Tibetan studies seminar, home stay, a field methodology course, excursions, and an independent-study project. The program is offered fall and spring semesters.

India, Bangalore. This semester-long, field-based program, sponsored by SIT, focuses on culture and development. The program includes Kannada language study, home stay, field methodology course, thematic seminar, excursions, and an independent study project. The program is offered fall and spring semesters.

Indonesia, Malang. Participants in this CIEE-sponsored program take courses in Indonesian language, history, culture, development studies, and indigenous arts. Students spend the last month of the program conducting a field-study project. The semester-long program is offered fall and spring semesters.

Israel, Jerusalem. Historic Jerusalem is the site of a one-year or semester program. Course work focuses on the social sciences and humanities with special concentrations in international, religious, and Middle Eastern studies. Students live in campus dormitories. There is no foreign-language prerequisite.

Italy, Macerata. Students who have one term of Italian-language study may participate in this fall- or winter-semester program. Course offerings include Italian language, social sciences, and humanities. Italian language is taught at beginning, intermediate, and advanced intermediate levels. Excursions are an integral part of the program.

Italy, Pavia. One student is accepted into this yearlong program each year. Advanced undergraduate or graduate students with at least three years of college-level Italian take course work in Italian at the University of Pavia.

Italy, Perugia. An eight-week summer program in Italian language and culture is offered at the Italian University for Foreigners in Perugia. Italian is offered at all levels.

Italy, Rome. Each summer the UO School of Architecture and Allied Arts sponsors a studio in Rome. A faculty member from the Department of Architecture accompanies the Oregon group.

Italy, Siena. Italian language, humanities, and the social sciences are emphasized in this program. Intensive Italian language is taught at Siena's University for Foreigners. All other courses are taught in English. Field trips complement classroom work. One term of college-level Italian is required. The program is offered fall, winter, and spring terms.

Japan, Nagoya. The Daido Institute of Technology and the University of Oregon have an active faculty exchange program since 1978. Daido students study language and culture at the UO each summer.

Japan, Tokyo—Aoyama Gakuin. Aoyama Gakuin University's School of International Politics, Economics, and Business is the center of this program, which integrates American and Japanese students. This yearlong program follows the Japanese academic calendar, beginning in April and ending in February. Instruction is in English, but participants must have at least one year of college-level Japanese. Not offered 2001–2.

Japan, Tokyo—Meiji University. One or two students with advanced skills in Japanese have the opportunity to study a wide range of subjects. Students enroll in regular Japanese university classes, and instruction is in Japanese. This yearlong exchange program follows the Japanese academic calendar, starting at the beginning of April and ending in mid-February.

Japan, Tokyo—Senshu University. Senshu offers a program of intensive language, culture, history, and business studies for prebusiness, business administration, and other UO majors. This program is offered during summer and fall terms. Prior study of Japanese is recommended, but not required.

Japan, Tokyo—Waseda University. Waseda University's International Division offers a variety of courses in Asian studies that are taught in English. Students live with Japanese families. Participants must have at least one year of college-level Japanese.

Korea, Seoul. Yonsei and Ewha Universities each offer UO students yearlong programs in business, Korean, and Asian studies. There is no language requirement, but previous study of Korean is recommended. Scholarships are available.

Mexico, Cuernavaca, Guadalajara, Monterrey. Students with two years of college-level Spanish can spend a semester or full year at one of three campuses of the Instituto Tecnológico de Estudios Superiores de Monterrey. Courses in Mexican business, Latin American culture, politics, art, and literature are available, depending on the student's interests and Spanish proficiency. Advanced students may enroll in regular university courses in many fields of study. Students live with host families or in dormitories.

Mexico, Queréétaro. Spring-, summer-, and fall-term programs are available. Spring focus is on intensive Spanish-language acquisition for UO students who have completed at least the second term of First-Year Spanish (SPAN 102). Summer and fall cover second-, third-, and fourth-year Spanish course work in Mexican literature, art, history, and civilization. Classes are held at the Universidad Autónoma de Querétaro. Home stays, excursions, and student services are provided by the Interamerican University Studies Institute.

Nepal, Kathmandu. This semester-long, field-based program, sponsored by SIT, focuses on natural and human environment. The program includes Nepali language study, natural and human environment seminar, home stay, a field methodology course, excursions, and an
independent-study project. The program is offered fall and spring semesters. **New Zealand, Dunedin.** The University of Otago’s courses integrate well with course offerings at the University of Oregon. Students may participate in this exchange program for one semester or an academic year. Students attend regular university classes at Otago and follow the New Zealand academic calendar, which begins in February and ends in November. **Norway, Bergen.** Students with sufficient knowledge of Norwegian can enroll in regular University of Bergen courses for one semester or one academic year. Others can study Scandinavian history, politics, and culture, all taught in English. Norwegian language courses are offered at every level of proficiency. **Poland, Warsaw.** Participants in this CIEE-sponsored program may take courses in Polish language, history, politics, economics, and business. Students live in university dormitories and may be reimbursed for tickets to the theater, ballet, opera, film, and some second-class train travel in Poland. This program is offered spring semester. **Russia, Moscow, St. Petersburg, or cities in the New Independent States of the former Soviet Union.** This program is sponsored by the American Council of Teachers of Russian (ACTR). Students can take courses in Russian language area studies, and business and must have two or more years of college-level Russian to participate. This program is offered fall semester, spring semester, summer, or for a full year. **Russia, St. Petersburg.** Students in this program sponsored by CIEE take courses in Russian language and literature. Students must have at least two years of college-level Russian. This program is offered fall semester, spring semester, summer, or for a full year. A Russian area studies program, which has no language prerequisite, is available fall and spring semesters. **Scotland, Aberdeen.** The University of Aberdeen is the site of this yearlong exchange program. Students have opportunities to take course work in a wide range of disciplines with the guidance of a faculty adviser. Housing is in university dormitories. **Spain, Oviedo.** This fall- or spring-term or summer program, sponsored by NCSA, offers courses in Spanish language, history, and art. Students live with host families. **Spain, Seville.** This spring semester program offers courses in Spanish language, literature, history, and culture. Applicants must have completed at least one 300-level Spanish course during the spring term before the program or have equivalent language proficiency. In addition, students must take Hispanic Culture and Civilization (SPAN 361) during the fall term before the program. Classes are held at the Institute of International Studies. Students live in guest houses or with host families. **Spain, Seville.** A semester- or year-long business program is available through CIEE. At least one 300-level Spanish course and two business or economics courses are required before starting the program. Business, language, and culture courses are held in Spanish at the University of Seville. This program is suspended pending review. **Sweden, Uppsala.** Students can enroll in a variety of courses taught in English at Uppsala University, one of Europe’s finest universities. Those with sufficient Swedish can enroll in regular university courses taught in Swedish. Swedish language courses are offered at beginning to advanced levels. **Thailand, Chiang Mai.** Participants study Thai language, history, politics, and culture. Students in the fall semester program may stay for a second semester or participate in a Global Graduates internship. **Thailand, Khon Kaen.** Offered through CIEE, this program provides a fundamental grasp of the Thai language and a broad understanding of contemporary Thai culture, society, and issues related to development and the environment. Students spend the last month of the program conducting a field-study project. It is offered fall semester and summer. **Vietnam, Hanoi.** Participants in this CIEE-sponsored program take Vietnamese language, culture, history, and society and contemporary Vietnamese history. The semester-long program is offered fall and spring. **New Programs** The Foreign Study Programs Committee reviews proposals for new programs. Information about recent developments is available from the Office of International Education and Exchange. **Global Graduates—the Oregon International Internship Program** University of Oregon students can earn academic credit while they gain career-related work experience overseas. The program is open to juniors, seniors, and master’s degree students who are currently enrolled in a UO degree program. Financial aid, including scholarships, is available. **Grants and Scholarships for Study Abroad** Because students are registered at the UO while participating in overseas study programs, they are eligible to receive most or all of their UO-awarded financial aid. Grants are available to qualified graduating seniors and graduate students for research, university study, and overseas teaching. Fulbright grant applications must be submitted to the Fulbright program adviser by mid-October. The Office of International Education and Exchange has reference books on other overseas scholarship opportunities. For more information, request the pamphlet Scholarships and Loans for Overseas Study and Research. **Overseas Study Courses** Each subject code below is unique to a single overseas study program; the X86 numbers signify overseas study courses. As in other UO courses, course level is indicated by the first digit in the course number: 1=freshman 2=sophomore 3=junior 4=senior 6=graduate Participating students register in courses with the subject codes, numbers, titles, and credit ranges shown below. After UO course equivalents are determined, the generic overseas-study information is replaced with appropriate course-level designations, titles, and credits. For example, a junior-level 5-credit course in the history of 19th-century Australia that was taken at La Trobe University appears on the student’s permanent UO academic record as OLAT 388 HIST: Australia in the 19th Century 5 [credits]. CIEE is the Council on International Educational Exchange. NCSA is the Northwest Council on Study Abroad. SIT is the School for International Training. **Australia** OADE 688 Overseas Studies: Adelaide, University of Adelaide (1–12R) OCUR 188, 288, 388, 488, 688 Overseas Studies: Curtin University (1–12R) OLAT 188, 288, 388, 488, 688 Overseas Studies: La Trobe University (1–12R) **Austria** OVIE 188, 288, 388, 488, 688 Overseas Studies: Vienna, NCSA Program (1–12R) **China** OBET 188, 288, 388, 488, 688 Overseas Studies: Beijing, Central Institute for Nationalities (1–12R) The Czech Republic OCHA 188, 288, 388, 488, 688 Overseas Studies: Prague, Charles University (CIEE) (1–12R) Denmark ODIS 188, 288, 388, 488, 688 Overseas Studies: Copenhagen, Denmark’s International Study Program (1–12R) **Ecuador** OQUI 188, 288, 388, 488, 688 Overseas Studies: Quito, Catholic University of Ecuador (1–12R) **England** OBR 188, 288, 388, 488, 688 Overseas Studies: Bristol, Bristol University (1–12R) OBT 188, 288, 388, 488, 688 Overseas Studies: London (1–12R) OOLON 188, 288, 388, 488 Overseas Studies: London, NCSA Program (1–12R) OUEA 188, 288, 388, 488, 688 Overseas Studies: Norwich, University of East Anglia (1–12R) **Finland** OTAM 188, 288, 388, 488, 688 Overseas Studies: Tampere, University of Tampere (1–12R) **France** OANG 188, 288, 388, 488 Overseas Studies: Angers, NCSA Program (1–12R) OLYO 188, 288, 388, 488, 688 Overseas Studies: Lyon, Universities in Lyon (I,II,III and Catholic Faculties) (1–12R) OPOI 188, 288, 388, 488, 688 Overseas Studies: Poitiers, University of Poitiers (1–12R) **Germany** OBWU 188, 288, 388, 488, 688 Overseas Studies: Munich-Württemberg, Universities in Munich-Württemberg (1–12R) OSP 188, 288, 388, 488 Overseas Studies: Munich-Württemberg, Spring Intensive Program (1–12R) **Ghana** OLEG 188, 288, 388, 488 Overseas Studies: Legon, University of Ghana (1–12R) **International Education and Exchange** 311

Participating

Charles H. Spencer, planning, public policy and management

About the Center

The Labor Education and Research Center (LERC) was established at the University of Oregon in 1977 by the Oregon Legislative Assembly on the recommendation of the State Board of Higher Education. LERC was founded to serve the educational and research needs of Oregon workers and their organizations.

LERC serves as a liaison between members of Oregon’s labor community and the state university system. Research and educational programs provide a catalyst for interaction among labor leaders, public officials, arbitrators, labor relations specialists, and members of the academic community.

LERC produces educational programs including seminars, conferences, and short courses on campus and throughout the state. It offers training and education to unionists in grievance handling, arbitration, collective bargaining, health and safety, and issues of concern in today’s complex and rapidly changing economy.

The broader labor relations community of arbitrators, mediators, and labor relations professionals is served through LERC’s conferences and programs on public- and private-sector labor law, worker participation, and labor-management cooperation.

Faculty members are engaged in research on current and emerging issues in labor relations and working life. Areas of research include the global economy and the effects of technological change on work, the changing environment and structure of collective bargaining, dispute resolution, and organizing. LERC publishes a regular monograph series and occasional working papers.

A workplace health and safety program conducts research on ergonomics and produces research, publications, and programs on occupational health and safety.

LERC is advised by a committee of representatives from state and national labor organizations. Most of the center’s courses are offered without credit. However, workers participating in LERC programs can arrange for academic credit when certain conditions are met.
LERC conducts a participatory learning experience for undergraduate students—an intensive internship with Oregon labor unions on research and related projects. Students earn 4 credits each term of the internship. Students may be eligible to participate in field studies or special seminars through the center. These courses are limited to students who have made acceptable arrangements for study with individual center faculty members; they are subject to the approval of the director. The center’s faculty members work with a student to determine how a LERC course fits into his or her academic program. Faculty members are available to students for consultation related to the center’s interests. More information is available from the center.

LERC in Portland. In 1987 a LERC office was opened in the University of Oregon Portland Center, which is described in this section of this catalog. It provides increased service to the metropolitan area through general and specialized programs. A Portland-area committee of labor leaders provides consultation about program offerings. The University of Oregon Portland Center is located at 722 SW 2nd Avenue in Portland; telephone (503) 725-3295.

LERC is a member of the United Association for Labor Education and the Pacific Northwest Labor History Association.

Labor Education and Research Center Courses (LERC)

401 Research: [Topic] (1–21R)
405 Reading and Conference: [Topic] (1–21R)
406 Supervised Field Study: [Topic] (1–21R)
Supervised activity related to areas such as labor education, local union administration, and job safety and health.

407/507 Seminar: [Topic] (1–5R) Only a few seminars can be offered each year. Recent topics are Arbitration, Contemporary Labor Problems, Occupational Safety and Health Issues, The Role of Unions in the United States, Selected Issues in Public Employment Relations, Unions and Workforce Development, and Workers’ Compensation.

408/508 Workshop: [Topic] (1–21R)
410/510 Experimental Course: [Topic] (1–5R)
Topics include Bargaining Simulations, Techniques of Labor Education, and Unions and Technology.

601 Research: [Topic] (1–16R)
605 Reading and Conference: [Topic] (1–16R)
606 Supervised Field Studies (1–16R)

Academic Resources

Donald L. Hunter, professor emeritus. B.S., 1945, Nebraska. (1946)
Janus provides an Internet connection to Orbis, a technology Training and New Media Centers, both facilities for the use of UO students and faculty members. The Janus Online Information System consists of Knight Library, the University Archives, and four on-campus branch libraries. Three other branches serve off-campus collections. Reference service is provided in all the UO libraries.

Available from library computer terminals and over the Internet, the library’s website is an excellent starting point from which to explore myriad information resources. The most heavily used part of the website is the Janus Online Information System. Janus, library users have access to the library’s online catalog, which is constantly updated with information about new books, orders, recent issues of journals, and the circulation status of library materials. Janus also allows students and faculty members to search many online periodical indexes and electronic journals. The indexes cover thousands of journals in a variety of disciplines as well as many newspapers, and more, recently, electronic books (e-books).

The library offers a variety of workshops, in-class presentations by librarians, an extensive curriculum in Internet technology, and for-credit courses as part of its instructional program. The UO libraries are equipped with computer facilities for the use of UO students and faculty and staff members. These information technology centers, located in the Knight, Science, and Architecture and Allied Arts Libraries, offer a mix of PC, Macintosh, and X-terminal workstations that offer access to online and offline electronic information, including Internet resources and multimedia products.

The library’s Media Services offers a full range of educational technology services. Major services include classroom equipment design, installation and delivery, instructional and promotional television services, interactive television, satellite uplink and reception, graphic art services for conventional and electronic presentations, as well as faculty training in multimedia and web-based teaching. Through the Faculty Instructional Technology Training and New Media Centers, both part of Media Services, UO faculty members receive expert consultation, training, and media development services. For library hours, call (541) 346-3054, or consult the library’s website.

Facilities and Services

The University of Oregon Library System supports the instructional and research programs of the university. Services provided by the library include reference and research assistance, library instruction, access to collection, computers and electronic resources, instructional technology support, Internet searching, interlibrary loan, and reserve reading. The library, which contains the largest research collection in the state, has more than two million volumes and subscriptions to nearly 15,000 journals. In addition to books and journals—print and electronic format—the library system has extensive collections of microforms; slides; maps; manuscripts; compact discs; phonograph records; films and videotapes; and state, federal, and international documents. The University of Oregon Library System consists of Knight Library, the University Archives, and four on-campus branch libraries.

Friends of the University Libraries

The Friends of the University Libraries organization was founded in 1940 to promote the welfare of the University of Oregon Library System, and today it includes all donors to the UO libraries. Library donors receive the publication Library Notes as well as invitations to special library events. More information is available in the Office of the University Librarian.

Borrowing Privileges

Current students and faculty and staff members may borrow library materials from the general collections and most restricted collections. They may also borrow materials from other ORBS and OUS Institution libraries and from Lane Community College and Northwest Christian College libraries. Faculty members may borrow from other American Research Libraries member libraries. Information is available at Knight Library’s circulation desk about these reciprocal lending programs.

Other circulation services include course reserves, searches for books that cannot be located in the stacks, placing holds on items that are checked out, and renewals. Borrowers may also place holds or renew items online. Borrowers are subject to fines for overdue materials. Borrowers who lose library materials or return them in damaged condition pay replacement or repair charges and any accrued fines. Library services and facilities are accessible to patrons with disabilities. Staff members at service desks in each library can provide details about relevant services. Patrons may also contact the liaison for patrons with disabilities through Knight Library’s reference desk; telephone (541) 346-1818.

Library Courses (LIB)

101 Introduction to Library Research (1) Introduction to using the fundamental resources of a library: its catalogs, periodical indexes, electronic resources, and special collections.

199 Special Studies. [Topic] (1–5R) Introduction to general library resources and to subject-related library resources. R when topic changes.
240 Legal Research (3) Provides a basic understanding of the legal system and process. Introduction to legal research tools and use of the law library.

323 Modern Information Environment (4) Discusses the complexities of the modern information environment. Develops skills in locating, retrieving, and evaluating information. Examines the sociopolitical issues of information access.

399 Special Studies: [Topic] (1–5R) Introduction to general library resources and to subject-related library resources. R when topic changes.

405 Reading and Conference: [Topic] (1–21R)

410/510 Experimental Course: [Topic] (1–5R)

463/563 Internet Information and Culture (4) Examines the social, economic, and political impact of cyberspace on society. Develops cyber-space literacy skills, including finding information, critical evaluation of information, and web publishing.

605 Reading and Conference: [Topic] (1–16R)

About the Department
The Department of Military Science is an instructional division that reports to the vice provost for academic affairs. The department offers four years of military science courses divided between lower and upper division. These elective courses are open to all admitted students at the university.

Curriculum
The curriculum is an interdisciplinary course of study designed to meet the following objectives:

1. Provide opportunities to learn and practice leadership styles, dimensions, and techniques
2. Provide an understanding of the historical role of the army and how that role supports the goals and objectives of national policy
3. Develop and improve communication skills using practical oral and written exercises
4. Develop an understanding of the professional military ethic
5. Provide general knowledge of the structure of the army, its organization, and how its various components work together
6. Provide an understanding of American military history and the leadership principles that caused military leaders to succeed or fail

Military Science Courses (MIL)

121 Military Science I (2,2,2) 121: Constitutional beginnings, organization, and role of today's army; physical fitness; introduction to equipment and small-unit operations. 122: operational and survival skills, essentials of topographic map reading and land navigation, small-unit tactics, practical exercises with Army weapons and equipment. 123: characteristics and methods of successful leadership—building trust, understanding, cooperation, and communication; responsibilities of leadership including personal motivation and ethics.

191 Leadership Laboratory (1R) Laboratory for practical experience. Assesses cadet leadership potential, physical fitness, One field-training exercise a term. Prereq: enrollment in military science. R five times for maximum of 6 credits.

199 Special Studies: [Topic] (1–5R) A current topic is Physical Fitness Training.

221, 222, 223 Military Science II (2,2,2) 221: U.S. Army's beginnings and the culture of the young nation; impact of early leaders on the army's organization; battles, leadership, and tactics from the American Revolution through Spanish American War. 222: battles, leadership, and tactics from the American Revolution through Spanish American War. 223: battles, leadership, and tactics during Desert Storm; transition from worldwide conflict to peacekeeping and humanitarian assistance; Kosovo-Bosnia experience; principles of developing military operations orders and troop-leading procedures.

321, 322, 323 Military Science III (3,3,3) 321: applies the twenty-three leadership dimensions to infantry tactics, operation orders, and orienteering:

322: strengthens individual abilities with experience in marksmanship, drill, and tactics. 323: evaluation of leadership abilities in tactical and nonstructural settings.

405 Reading and Conference: [Topic] (1–3R)
410 Experimental Course: [Topic] (1–4R)
411, 412, 413 Military Science IV (3,3,3) 411: planning, evaluating and conducting unit training; practical exercises in planning, coordinating, and executing small unit training. 412: detailed study of judicial and nonjudicial proceedings and administrative actions available to commanders, procedures for resolving damage to or loss of government property. 413: social psychology of leadership and transition to a military career; addresses ethics, superior and subordinate relations, loyalty, and mission.

About ROTC
The U.S. Army supports Reserve Officers Training Corps (ROTC) programs at colleges and universities throughout the country. Students who take military science courses may also participate, by contractual arrangement with the Department of the Army, in the process that leads to a commission as a second lieutenant in the U.S. Army.

The period of enrollment in the advanced phase of training leading to a commission, each cadet must take, in addition to military science courses, a course in each of the following subjects: military history, written communication, and computer literacy. Most of these courses count toward general-education group requirements for a bachelor's degree.

The army sponsors two-, three-, and four-year scholarships. These are awarded competitively by the army to students who seek a commission. Anyone interested in pursuing a commission or scholarship or both should write, call, or visit the department.

Museums

Condon Museum of Geology
William N. Orr, Director
(541) 346-4577
202 Volcanology
1272 University of Oregon
Eugene OR 97403-1272

The Condon Museum of Geology houses the geological collection of Thomas Condon, pioneer geologist and professor of natural history and geology at the University of Oregon. Condon was one of the first professors to join the faculty of the university when it was established in 1876. When he died in 1907, his extensive personal collection of vertebrate fossils, which he used for teaching, became the permanent possession of the university. Since 1907 the collection has been added to by various people, particularly A. J. Shottwell during the 1950s and 1960s.

The museum houses approximately 75,000 specimens. Vertebrate fossils make up the bulk of the collection, but it also includes some invertebrate fossils, large holdings of fossil plants (largely leaf impressions), and several thousand skulls and skeletons of recent mammals, birds, reptiles, amphibians, and fish. Several hundred technical papers have been published documenting the
collections, and some research on the collections has been published in the University of Oregon Museum of Natural History bulletin series. A list of publication titles and a pamphlet with additional information about the museum may be obtained by writing to the museum.

**Museum of Art**
Del. L. Hawkins, Director

1430 Johnson Lane
(541) 346-3027
(541) 346-0976 fax
1223 University of Oregon
Eugene OR 97403-1223
http://uoma.uoregon.edu

The University of Oregon Museum of Art is a valuable resource for the visual arts on campus and in the Pacific Northwest. Among the museum’s 12,300 works of art is a large and renowned collection of Asian art, which principally represents the cultures of China and Japan but includes works from Korea, Cambodia, and Mongolia as well as American and British works of Asian influence. The museum also has collections of Russian icon paintings; Gandharan and Indian sculpture; Persian miniatures and ceramics; ancient Roman glass; Syrian glass; and works from European and American traditions. A strong collection of paintings and sculpture by contemporary Northwest artists contains more than 500 works of art by Morris Graves.

The museum building, constructed in 1930 with private funds, houses the Murray Warner Collection of Oriental Art, a gift from Gertrude Bass Warner. The adjoining courtyard is dedicated to the memory of Prince Lucien Campbell, fourth president of the university. The museum is undergoing its first major renovation and expansion. It is scheduled to reopen to the public in spring 2003.

An important teaching resource for faculty members and students, the museum brings an ambitious schedule of temporary exhibitions to campus each year, often in collaboration with course offerings in academic departments. Museum staff members encourage student involvement at several levels, ranging from occasional volunteer opportunities to research for class projects. Volunteer docents give guided tours through the museum’s collections and special exhibitions. Tour appointments may be made by calling the Museum of Art office.

The museum’s membership program provides financial support for a variety of museum activities, including exhibitions and the purchase of art for the collections. Membership is open to the public, and dues start at $20.

**Museum of Natural History**
C. Melvin Aikens, Director

(541) 346-3024
(541) 346-5334 fax
1680 East 15th Avenue
1224 University of Oregon
Eugene OR 97403-1224
mnh@uoregon.edu
http://natural-history.uoregon.edu

The Museum of Natural History links public programs and exhibits with strong archaeological and ethnographic collections and extensive research on the archaeology of Oregon.

The museum holds the most important collections of archaeological materials from Oregon. These include the world’s oldest shoes, 10,000-year-old sagebrush sandals from Fort Rock cave, and evidence of North America’s oldest house, a 9,400-year-old summer settlement buried under layers of volcanic ash near Newberry Crater.

Museum exhibits focus on Pacific Northwest geology, plants, animals, archaeology, and Native cultures, and on traditional cultures of the world. Each year, classes in the anthropology, geological sciences, and biology departments and the School of Architecture and Allied Arts use museum exhibits and collections. Museum faculty and staff members lecture, teach, and lead museum and field tours for UO students and other adults in the community. Many internship, individual study, and volunteer opportunities are available for UO students, and graduate students use the collections for research leading to theses and dissertations.

In offering educational activities for children, family days, and guided tours of exhibits, the museum works closely with local elementary and high schools to bring the natural sciences to life. Admission is free for UO students and museum members, with a suggested fee of $2 for other visitors. Exhibits and the museum store are open Tuesday through Sunday, noon to 5:00 p.m.

The museum’s research division, the Oregon State Museum of Anthropology, is described in the Research Institutes and Centers section of the catalog.

**Physical Activity and Recreation Services**

Dennis Munroe, Director

(541) 346-4113
102 Eisslinger Hall

**Faculty**

Brent Harrison, instructor (recreation); director, recreational sports. B.S., 1988, M.S., 1991, Bemidji State. (1993)

**Emerita**

The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.

**About PARS**

Physical Activity and Recreation Services (PARS) enhances the lives of UO students and faculty members by providing physical-activity programs and services that promote health and fitness, active recreation, and participation in sports. PARS comprises Physical Education, Recreational Sports, and Facilities Services.

**Employment**

Students who are interested in physical activity and sport are good candidates for the many part-time jobs generated by the large variety of programs and services offered by PARS and in the operation of facilities. Students may apply for any of the more than 150 positions as lifeguards; sports officials; office assistants; weight-room, facility, and equipment-issue supervisors. Lifeguards must have current certification; training is provided for other positions. All positions require certification in first-aid and CPR.

**Physical Education**

The Physical Education (PE) program offers physical-activity courses for university students and faculty and staff members as well as members of the Eugene-Springfield community. Physical education courses emphasize the development of physical skills, improvement in physical-fitness levels, and the acquisition of knowledge that contributes to a healthy lifestyle.

More than 150 courses are offered each term in a variety of activity areas—aerobics, aquatics, certification, fitness, individual activities, leadership, martial arts, mind-body, outdoor pursuits, racquet sports, running, scuba, team sports, and weight training. This ever-changing array of courses is taught by an international staff of faculty members, coaches, graduate teaching fellows, and contract employees who share their expertise and experiences.

More than 3,300 participants enroll in PE courses each term. Most classes meet twice a week for 1 credit. Several outdoor-pursuit courses include three-day field trips in addition to on-campus sessions. Up to 12 credits in physical education may be applied to the bachelor’s degree. Each term’s offerings are listed in the schedule of classes. Students may register for credit-earning courses through DuckCall, which is explained in the Registration and Academic Policies section of this catalog.

Students and members of the staff, faculty, and community are welcome and encouraged to enroll in physical education courses as noncredit participants. Noncredit participants pay only the PE course fee and register in person at the PE office at the start of DuckCall each term.

Opportunities are also available for people who have disabilities or who need special accommodations in order to participate in physical education courses. More information is available from the PE office, 102 Eisslinger Hall; telephone (541) 346-4113. The office is open from 8:00 A.M. to 5:00 P.M., Monday through Friday.

636 - Academic Resources
Some courses require additional fees to pay for equipment, transportation, and certification. Fees and fee-refund schedules are printed in each term’s schedule of classes.

**Recreational Sports**

Recreational Sports programs provide opportunities for members of the university community and their families to enjoy competitive sports and informal, relaxing recreational activities. These opportunities include all-campus tournaments, intramural, and special events. Some of the most popular activities are badminton, basketball, cross-country, flag football, golf, indoor soccer, racquetball, softball, soccer, swimming, tennis, track and field, ultimate frisbee, volleyball, and wrestling.

Fitness Workouts. Fitness workouts provide high-quality and inexpensive exercise without academic pressure. Activities include aerobics, bench, low impact, kick boxing, step, and body sculpting.

Open Recreation. University sports facilities may be used for open recreation when they are not scheduled for class use. Students must show a current UO identification card to use the facilities. Faculty, staff, and community members may purchase a facility user’s pass valid for a single term or for a full year. Passes are sold at the main desk in the Student Recreation Center.

**Facilities Services**

This component of Physical Activity and Recreational Services is responsible for maintaining facilities, equipment, and locker rooms.

University buildings and playing fields that are devoted to physical education activities occupy a forty-two acre tract at the southeast corner of the campus. The Student Recreation Center has a three-court gymnasium complex, a suspended roof, running track, a strength- and-conditioning room, a rock-climbing wall, and a juice bar. It also houses gymnasia,a court facilities, and men’s and women’s locker rooms. The main offices for Physical Activity and Recreation Services are in Eessler Hall. Gerlinger Hall holds the Janet G. Woodnuff Gymnasium and men’s and women’s locker rooms. Gerlinger Annex’s well-equipped gymnasia are used for instruction and recreation. Laughton Pool, a competition pool attached to the Student Recreation Center, and Gerlinger Pool, in Gerlinger Hall, are used for instruction and recreation.

Playing fields located east and south of Eessler Hall and on the south bank of the Willamette River provide excellent facilities for outdoor instruction, intramural, and club sports. Hayward Field accommodates track-and-field facilities for intercollegiate athletics, classes, and recreational programs. There are six standard Plexiglass tennis courts north of Hayward Field, five covered courts east of Laughton Pool, and six indoor courts to the south of the Student Recreation Center.

**Physical Education Courses**

These courses, which are offered for credit or non-credit, are open to anyone. Most courses are coeducational. Gender-specific classes are indicated in the Prerequisites/Comments columns in the UO Schedule of Classes. Because not every course listed here can be offered every year, students should consult the most recent class schedule.

Services for Students

James R. Buch, Associate Vice President for Enrollment Management
Anne L. Leavitt, Associate Vice President for Student Affairs and Dean of Students

Administrative units at the University of Oregon provide a network of student services that support success in the classroom and challenge students to develop as individuals through an array of cocurricular experiences.

Emergencies
Many support services, including the Office of Student Life and the University Counseling and Health Centers, provide emergency aid to students during regular office hours—8:00 A.M. to 5:00 P.M., Monday through Friday. Staff members form the Office of Student Life and the Department of Public Safety are available twenty-four hours a day to assist students. In case of emergency, telephone any of the support offices listed in this section of the catalog, including the Department of Public Safety, (541) 346-5444.

Affirmative Action and Equal Opportunity
Kenneth F. Lehrman III, Director

The University of Oregon is committed to equal opportunity in education and employment for everyone on campus. Students and employees have a legally protected right to a working and learning environment that is free from discrimination and harassment and free from retaliation. Students and employees who feel they have encountered discrimination or harassment should inquire at the Office of Affirmative Action and Equal Opportunity for information about their rights, options, and resources. In addition, anyone alleging disability discrimination, whether or not a student or employee at the university, may request assistance from the office. The Office of Affirmative Action and Equal Opportunity has information on grievance procedures and referrals. Confidentiality is respected for all parties.

More resources are available on the office's website.

Associated Students of the University of Oregon

The Associated Students of the University of Oregon (ASUO) is the recognized representative organization of students at the university. Its network of agencies, activities, and programs serves student needs and interests. The ASUO gives students the opportunity to plan and direct their own programs, to become involved in every aspect of university life, and to influence the decisions that affect the quality of education and student life at the university. Students who pay incidental fees are members of the ASUO.

Organization. The ASUO comprises three branches of student government—the ASUO Executive, the Constitution Court, and the Student Senate. Other ASUO committees include the Programs Finance Committee, Athletic Department Finance Committee, Erb Memorial Union Board (EMU Board), the Associated Students Presidential Advisory Council (ASPAC). Members of the senate and certain members of the Programs Finance Committee, the EMU Board, and ASPAC are elected. The remaining members of these bodies and members of the Athletic Department Finance Committee and the Constitution Court are appointed. Together these bodies provide governance, leadership, and representation for students.

ASUO Executive. The ASUO Executive is composed of an elected president, a vice president, and hired officers and staff members. As the recognized voice of UO students, it administers more than eighty-five funded ASUO programs. The ASUO Constitution describes the legal and procedural functioning and the general makeup of the ASUO Executive.

ASUO Athletic Department Finance Committee. This body has five student members. It acts on matters related to the allocation and appropriation of incidental fees for the UO Department of Intercollegiate Athletics for the purpose of recommending a budget to the Student Senate. The ASUO Programs Finance Committee. This body's seven student members act on matters related to the allocation and appropriation of incidental fees for ASUO programs for the purpose of recommending a budget to the Student Senate. The ASUO Executive submits its recommendation on each program budget to the Programs Finance Committee. After public hearings on these budget proposals, the committee
presents its recommendations to the Student Senate.

**Student Senate.** The eighteen members of the ASUO Student Senate represent the constituent interests of students and act on matters related to the allocation and appropriation of incidental fees. The incidental fee is a self-imposed tax by which students finance nonacademic activities and programs. Reflecting its two functions, nine members of the Student Senate are elected by major to represent academic departments, and nine are elected to serve on finance committees.

The ASUO Programs Finance Committee, the ASUO Athletic Department Finance Committee, and the Erb Memorial Union Board individually develop budget recommendations for submission to the Student Senate every year during spring term. The Student Senate then votes to approve or deny these budget recommendations and forwards the final fee recommendation to the ASUO Executive and the president of the University of Oregon. The final incidental fee budget is approved by the Oregon State Board of Higher Education. While individual student programs submit budgets to the appropriate finance committee, the full Student Senate hears special requests throughout the year.

Student senators serve as active members of the University Senate, the faculty body that debates and sets general university policies. In addition, Student Senate members staff an information and grievance table once a week in the lobby of the EMU, approve appointments, and help make up the ASUO Committee on Committees, which nominates students for more than eighty positions on twenty-six faculty-student committees. Students who are interested in sitting on one of these committees should request list from the ASUO university affairs coordinator; telephone 346-0628 or send e-mail to asuouni@gladstone.uoregon.edu.

**EMU Board.** The fifteen-member committee consists of students, faculty members, and EMU staff personnel. It is responsible for making general policy decisions and long-range plans for the operation of the EMU. The board is responsible for allocating a $5 million budget to programs and service areas and for allocating space in the 200,000-square-foot facility. The board, on which students form the majority, also advises staff members in the management and administration of the EMU.

**Constitution Court.** The ASUO Constitution Court, appointed by the ASUO president and confirmed by the Student Senate, serves as the court of appeals for the ASUO. The court has the authority to rule on questions arising under the ASUO Constitution or rules promulgated under it. This power of review covers almost any action by ASUO government bodies, programs, and individual students that fall under the ASUO Constitution.

**Associated Students Presidential Advisory Council.** The council offers discussion and advice about matters of student concern in monthly meetings with the UO president. The council includes representatives from the ASUO Executive; ASUO programs; campus student media; EMU Board; Greek organizations; Graduate School or School of Law; Lesbian, Gay, Bisexual, Transgender Alliance; Residence Hall Governance Committee; Student Senate; one international student, one nontraditional student; and two students elected for two-year terms from the student body at large.

**Student Health Advisory Committee.** This committee advises the director of the University Health Center and the vice president for administration on policies and procedures of the health center. This includes evaluation of proposed budgets and subsequent recommendation of an annual health center budget and fee to the center’s director. The ASUO Committee on Committees and the ASUO president recommend nine students to the UO president for appointment to this body.

**Student Activities and Services**

Contact information for the following activities and services is available on the ASUO website.

**Advertising Club** is a national organization of professional and student groups whose goal is to encourage students to enter advertising careers.

**Alpha Phi Omega,** a national service organization, has active chapters on more than 300 college campuses around the world. Founded in 1925, it is the largest college-based service organization in the world. The Zeta Psi chapter was chartered at this university in 1948.

**American Institute of Architecture Students** promotes excellence in architectural education, training, and practice; fosters an appreciation of architecture and related disciplines; enriches communities in a spirit of collaboration; and organizes architecture students to combine their efforts to advance the art and science of architecture. The UO chapter acts a liaison between students and professionals in the field of architecture and design. The chapter sponsors architectural firm tours, construction-site visits, portfolio workshops, and design critiques and such social events as pumpkin carving contests, movie nights, and the Beaux Arts Ball.

**Amnesty International** works for the immediate release of prisoners of conscience, fair trials for prisoners, and the end of torture.

**Asian-Pacific American Student Union** has more than 150 members of all ethnicities, but most are Asian American. The union sponsors ski retreats, fall and spring receptions for students and faculty members, and Asian celebrations. The union also brings to campus artists, theater groups, and speakers for May Asian Heritage Month.

**Associated Students for Historic Preservation**, composed of students in the university’s historic preservation program, works to advance knowledge and understanding of historic preservation among other students.

**ASUO Childcare Task Force**, an advocacy student group, advises the ASUO Executive, represents the childcare needs of student parents, and sets policy for the ASUO Childcare Subsidy Program. Student members are appointed annually by the ASUO president.

**Black Law Students Association** provides a support group for black law students, facilitates contacts between black attorneys and students, and is a member of the National Black Law Students Association.

Black Student Union serves as a support group for black students and exposes the university and Eugene-Springfield communities to black culture by sponsoring social and cultural events.

**Black Women of Achievement** provides social, cultural, and educational activities for African American women on campus.

**Campus Crusade for Christ** is an interdenominational Christian support group emphasizing personal growth in Christ and development of ministry skills.

**Campus Recycling Program,** jointly funded and administered by students and the university, staffs recycling projects and creates new projects for the UO community. The program promotes education about recycling, related grassroots actions, and waste reduction services.

**Chi Alpha Christian Fellowship** is a community of interconnected cell groups on campus whose members are committed to grow in their love for God, in their love for each other, and in their desire to share Jesus with those to whom he is a stranger.

**Chinese-Taiwanese Student Association** coordinates academic, social, and cultural activities with the goal of improving understanding of Chinese culture.

**Coalition against Environmental Racism,** a coalition of student and community groups, is dedicated to providing a forum for education and to promoting environmental justice by increasing awareness of the fundamental link between social inequities and environmental problems.

**College Democrats** is a campus organization that gives student Democrats a chance to be involved in local, state, and national politics.

**College Republicans** is the official campus affiliate of the Republican Party. Members work in campaigns, lobby legislators, register voters, and attend Republican Party conventions.

**Committee for the Musical Arts** sponsors artists who represent traditions, cultures, and repertoires not provided by the School of Music, the Cultural Forum, or other campus organizations.

**Community Internship Program,** a student-initiated and student-run program, links UO students to the community through a variety of internship and volunteer opportunities. Internships can strengthen leadership skills and build career experience. Students can earn upper-division credit through the program.

**Conflict Resolution Services,** provided to students by the ASUO and the university, offers prenegation problem resolution to students or student groups. The program also offers workshops and courses for members of the university community.

**Co-op Family Center,** a student cooperative at Spencer View Family Housing, offers high-quality, low-cost childcare and seminars on parenting, teacher education, and child development.

**Crisis Center** provides emergency counseling when other university and ASUO facilities are unavailable. The Crisis Center phone line operates twenty-four hours a day; telephone 346-4488. Center staff members also refer students to specialized agencies.
Dance Oregon offers students the opportunity to see, perform, and become more involved with dance through master classes, workshops, attendance at the American College Dance Festival, and participation in National Dance Week. DELTA-GSO support services for graduate students in the Educational Leadership Area and other College of Education areas include orientation, workshops, and brown bag lunches.

Designated Driver Shuttle provides transportation for students from licensed drinking establishments, restaurants, and residences to their places of residence. Members also work on alcohol-related issues to promote the well-being and safety of UO students. The program strives to educate students about making responsible choices in the use of alcohol.

Forensics is the university's debate society and speech club.

Hawaii Club promotes Hawaiian culture on campus and in the community. informs Hawaiian students of resources, promotes a festive and creative environment for students, and encourages student leadership.

Hong Kong Student Association works to represent and to improve the general welfare of Hong Kong students at the university and to help students adjust to the American culture, lifestyle, and university life by offering social welfare services and other activities.

HOPES (Holistic Options for Planet Earth Sustainability) promotes education about creating sustainable living environments to students, professionals, and the community at large.

House of Film is an organization for students who are interested in every aspect of the movie industry including acting, directing, script writing, cinematography, marketing, editing, sound engineering, administration, and fundraising.

Interfraternity Council provides a central organization for general fraternity activities and leadership opportunities and promotes campus involvement.

International Law Students Association sponsors activities and speakers relevant to the practice of international law and is a member of the National International Law Students Association.

International Student Association (ISA) is an umbrella organization for students from nations around the world. Included are Norwegian Students Abroad, Chinese Students and Scholars Association, Indonesian Student Association, Japanese Students Association, Korean Students Association, Kultura Filipinas, Latin American and Caribbean Students Association, and the Malaysian Students Association. Under the guidance of the ISA, these associations of students work to promote the educational, social, and cultural activities of international students at the university.

Jewish Student Union provides activities based on the Jewish cultural, social, and philosophical traditions and advocates for Jewish issues and against anti-Semitism in the campus community.

Journal of Environmental Law and Litigation, a publication by UO law students, provides a forum on reform and litigation in the natural resources area.

Land, Air, and Water is the School of Law's environmental organization, dedicated to improving the natural environment.

Legal Services provides legal services free of charge to enrolled UO students through incidental fees provided by the ASUO. Services include but are not limited to landlord-tenant disputes, uncontested divorce, and small-claims counseling.

London, Gay, Bisexual, Transgender Alliance provides a safe, supportive place for students and others to explore and understand their sexuality; to advocate for gay, lesbian, bisexual, and transgender rights; and to actively educate about issues important to lesbian, gay, bisexual, and transgender people.

Literary Society publishes Timberline, a literary and arts magazine that features prose, poetry, and artwork by University of Oregon students. The society also sponsors the Kidd Tutorial Reading Series and other activities for UO students.

Model United Nations Organization seeks to increase its members' knowledge of international relations through learning about other cultures, the United Nations system, and the skills of debate and parliamentary procedure.

Multicultural Center brings together students and faculty, staff, and community members to promote personal growth, cultural pluralism, community education, positive social change, and the end of human oppression by examining issues of gender, sexuality, and culture with primary focus on race and ethnicity.

Muslim Student Association fosters understanding of Islamic culture and works to fulfill the educational and cultural needs of Muslim students at the university.

Native American Student Union, an important part of the Native American community, is an ethnic student association that works with students, community organizations, and Northwest tribes.

Office of Student Advocacy, a constituent service of the ASUO, provides free representation to students in matters of student grievances, conduct orders, and related matters. Staff members help students resolve problems that arise from university life.

Oregon Ballroom Dance Club organizes weekly dances and classes that teach ballroom dance technique.

Oregon Commentator, a conservative student-run newspaper, serves as an alternative to the Oregon Daily Emerald.

Oregon Daily Emerald is the UO's independent student newspaper. The ASUO purchases a subscription for each UO student.

Oregon Law Students' Public Interest Fund raises money to fund stipends for law students who are interested in working in public interest law.

Oregon Marching Band is the musical representative of UO spirit at home football games and selected away games. Members also participate in the Basketball Band and the Green Garter Band.

Oregon Marine Science Student Association coordinates study abroad, the Kidd Tutorial Reading Series and other activities for UO students.

Oregon Marine Institute is the university's marine research program. The society also sponsors the Kidd Tutorial Reading Series and other activities for UO students.
Oregon Student Association provides a collective voice for students of Oregon's institutions of higher education to influence public-policy decisions. It conducts research on issues that affect students, lobbies decision-makers, and provides a mechanism for sharing information among students.

Oregon Voice, a general-interest magazine, presents and expresses ideas that affect the quality of life in the university community.

Outlaws offers students who are interested in representing gay, lesbian, and bisexual students the opportunity to learn about issues of importance to the gay, lesbian, and bisexual community.

Panhellenic Council members are sorority leaders who serve as links to the university administration, the Interfraternity Council, other sororities, and other student groups. The council promotes the understanding of the sorority system and furthers intellectual accomplishment and opportunities for leadership and campus involvement.

Philosophy Club stimulates philosophical thought by sponsoring speakers, papers, and discussions.

Pocket Playhouse, a student-run production agency, supplies space and funding for production workshops directed by students or guest artists, theater-related films, and other events. Students need not be majors in theater arts to participate.

Prelaw Society provides an information area and professional school information, and clinical observation for premedical and premedical students.

Prelaw Society provides an information area and services, including meetings and newsletters, for prelaw students, especially for juniors and seniors engaged in the law school application process.

Project Saferide, a free shuttle service that provides women with a safe alternative to walking alone at night and risking possible assault, is available to UO women who need rides to their homes, work, classes, or campus events.

Returning Student Association, an organization of adult students helping other adult students, provides returning students with a voice to be heard by the decision-making bodies of the university student government and administration.

Singapore Student Association helps students to the campus and general public.

Solar Information Center, a student-run clearinghouse and education center, pursues the advancement of solar and renewable energies and efficient resource use as viable paths to a sustainable future. The center houses a library and offers free lectures, workshops, exhibits, research projects, and a quarterly newsletter, Solar Incidents, to the campus and general public.

Southeast Asian American Student Association promotes cultural awareness of Southeast Asia and its diverse ethnic groups and acts as a support group for Southeast Asian students.

Spencer View Community Tenants, an elected body, represents the interests of Spencer View tenants and participates in the Family Housing Board.

Student Bar Association is an umbrella organization of many student interest groups in the School of Law.

The Student Insurgent is an alternative student-run newspaper of the left. It provides a forum for the diverse perspectives of people who seek an end to the oppression of societies based on class, gender, and race exploitation.

Students for the Ethical Treatment of Animals is dedicated to educating the university community about the mistreatment, exploitation, and oppression of nonhuman animals.

Survival Center works for social justice and environmental freedom, and acts as a resource center for a range of current issues.

University Theatre, the production wing of the theater arts program, is an independent organization that produces shows from its own box office.

USSA, the nation's oldest and largest student organization, represents 4.5 million students nationwide and is the recognized voice of students in Washington, D.C.

Taiwanese Student Organization focuses on cultural, social, political, economic, historical, educational, and ecological developments in Taiwan and is open to any UO student interested in Taiwanese culture.

Vietnamese Student Association is a social, cultural, and support group for Vietnamese American students.

Westmorland Tenants Council, an elected body, represents the interests of Westmorland family housing tenants and participates on the Family Housing board.

Women's Center offers a community of women dedicated to creating social change through diverse perspectives in educational endeavors and social events. The center provides information and drop-in referral services for academic resources, counseling, legal assistance, childcare, financial aid, sexual violence, safety, and women's health and well-being. Services include resources and referral, advocacy, events planning and coordination, a support group for nontraditional students, a newsletter, internship and volunteer opportunities, community outreach, and cultural events cosponsored with other student organizations.

YWCA provides services to women, minorities, and disabled youth through the Exceptional Friendship Program and the Outreach Program.

Bookstore

James L. Williams, General Manager
(541) 346-4331
895 East 13th Avenue
uobkstr@oregon.uoregon.edu
http://www.uobookstore.com

The University of Oregon Bookstore is located just west of the campus. The bookstore was established in 1920 to serve students and faculty and staff members.

The bookstore is open from 7:45 a.m. to 6:00 p.m. Monday through Friday; 10:00 a.m. to 6:00 p.m. Saturday; and noon to 6:00 p.m. Sunday.

Services

The bookstore is a collegiate department store. The lower level displays a wide selection of school and office supplies as well as art and architecture supplies. Public restrooms are located at this level. The street level offers class schedules and a variety of merchandise including calculators, computers, and software. The bookstore operates the Microcomputer Resale Program, which offers educational prices on computers and software to students and faculty and staff members. A complete university sportswear and insignia department is located along the west side of the floor. On the east side are greeting cards, gifts, magazines, candy, and snacks. The Duck Stop coffee and espresso counter features specialty coffee drinks.

In the upper-level general book department, the bookstore offers more than 40,000 titles for reading pleasure. The store specializes in carrying books seldom found in other bookstores. If the bookstore does not carry a particular book or if it is out of print, the staff is always ready to make a special order. Bookstore staff members also enjoy recommending books to customers.

The course book department is located at the rear of the upper level. The bookstore sells new and used course books at a discount and saves students money throughout the year by buying back many books that will be used again on campus. The buy-back list is largest at the end of each academic term. When the bookstore brings in professional-used book buyers during finals week for the convenience of students who want to sell their books. Each year the board of directors reviews its book department discount. Although the percentage is not guaranteed, last year the bookstore gave UO students and employees of the university a savings of 10 percent off the publisher’s list price. Since 1973 the bookstore has returned more than $10 million to its members through this discount.

Specific services offered at the bookstore include no-charge check cashing, U-Lane-O and Bank of America automatic-teller machines, free gift boxes for store purchases, free notary public service, free self-service coin lockers, key making, postage stamp sales, film-processing service, UO jewelry sales, graduation cap and gown sales and rentals, self-service photocopyers, a free campus telephone, public restrooms, and benches and bicycle parking outside the store. The bookstore also offers UPS package service and outgoing fax service at competitive prices.

Knight Law Center

The bookstore operates the Court Café store in the Knight Law Center, which offers hot food, an espresso counter, beverages, and school supplies. The café is open year round.

Portland Center

For the convenience of Portland-area alumni and friends of the university, the bookstore sells university sportswear and insignia merchandise at the UO Portland Center. Some supplies required for Portland architecture studios are available at the Portland Center bookstore. The
DuckShop is located at 734 SW Second Avenue in Portland, bookstore telephone (503) 725-3057.

Organization and Management
For many years a cooperative store, the bookstore is now an independent, nonprofit corporation whose membership is composed of the students, faculty members, and civil-service staff members of the university. Policy is made by a board of directors comprising eight students, two faculty members, and one classified staff member. The directors are elected by the bookstore’s membership in annual elections. The operation of the store is conducted by twelve full-time managers and a large staff, many of whom are part-time students or spouses of students.

Vision. The vision for the bookstore is to join UO students and faculty and staff members in the pursuit of knowledge, intellectual growth, and higher education through the sale of products and the provision of services.

Mission. The bookstore’s mission is to provide course-related materials for UO courses; to sell required course merchandise at the best possible prices through the benefit of the nonprofit corporate structure; and to provide products and services that make attending, teaching, doing research, and working at the UO fulfilling and convenient.

The bookstore strives to find ways to better serve its membership, and it welcomes suggestions and constructive criticism. To this end, a suggestion box has been placed in the lobby of the store with a standing invitation for all to use it. People are also welcome to call the manager and staff for more information.

Career Center
Lawrence H. Smith, Director
(541) 346-3235
220 Hendricks Hall
http://uocareer.uoregon.edu

The University of Oregon Career Center is the primary campus resource for students and alumni seeking career direction and full-time and part-time employment.

Career Planning. Career planning services help students combine educational and career goals. The Career Assessment Program, Special Studies: College to Career (CPSY 408/508) provide comprehensive information about the job-search process.

The office has a reference file service to support applications for graduate school or educational employment.

Currently enrolled students and alumni are invited to use the Career Center’s services. The services are free for currently enrolled students.

For more information, see the Academic and Career Planning and Employment Services sections of this catalog.

Counseling and Testing
Robin H. Holmes, Director
(541) 346-3227
(541) 346-2842 fax
University Health and Counseling Center
Building, Second Floor
1500 East 13th Avenue
http://darkwing.uoregon.edu/~counsel/

The University Counseling Center offers individual and group counseling, career counseling, developmental programs and workshops, and testing to students at the university. Some fees are charged for testing. Counseling services are paid for out of student fees and are available only to currently enrolled students.

Counseling: 346-3227. The center offers confidential individual and group counseling on such topics as substance abuse, eating disorders, relationship difficulties, stress, depression, sexual identity, and cultural issues. Staff members provide consultation and outreach services to various student groups at the university and, upon request, consult with faculty members, students, and others on behavioral and mental health issues.

Testing: 346-3230. The testing office schedules and administers required placement examinations for mathematics, composition, and Chinese, French, German, Spanish, and Japanese languages. Credit by Examination programs are coordinated through this office, which provides test descriptions; reading lists for preparation; and administration, scoring, and reporting of the results. The testing office is a computer-based test site that offers national testing for such programs as Graduate Record Examinations (GRE), Graduate Management Admissions Tests (GMAT), Test of English as a Foreign Language (TOEFL), and Pre-Professional Skills Test (PPST). Bulletins about other paper-and-pencil national test programs, registration materials, and information are available in the office. The testing center, located at 238 University Health and Counseling Center Building, is open Monday through Friday from 9:00 A.M. to 5:00 P.M. with some extended hours for computer-based testing. Tests are administered by appointment. To register for a computer-based test, call 346-2772.

Training. The center offers a predoctoral internship program that is approved by the American Psychological Association and supervised practice internship for graduate students in counseling, clinical psychology, and social work.

Crisis Center: 346-4488. The crisis line, a telephone service supervised by the counseling center, operates evenings from 5:00 P.M. to 8:00 A.M., Monday through Friday, and twenty-four hours a day on weekends during the academic year.

Erb Memorial Union
Charles Miller, Director
(541) 346-3705
1222 East 13th Avenue

The Erb Memorial Union (EMU) is committed to providing programs and activities for the educational, cultural, and recreational enrichment of the university community. Through a combination of programs, services, and facilities, the EMU strives to make students’ extracurricular activities an integral part of their education.

The EMU provides group-meeting rooms, a variety of food service options, lounges, a recreation center, and a staff of program consultants to help groups and individuals plan programs. Student government and activities offices are located throughout the EMU.

Also housed in the building are the Oregon Daily Emerald offices, a branch of the United States Postal Service, the Campus Copy Center, photo I.D. service, a small variety store, a ticket outlet, the university lost-and-found service, a travel agency, six automatic-teller machines, and the Computing Center Laboratory.

The Outdoor Program’s trip-staging facility is located five blocks from the EMU, at the corner of University Street and 18th Avenue.

The Erb Memorial Union is funded from two sources: the incidental fees paid by students each term and the income generated by some EMU units. Each year the EMU board submits its subsidy request to the Associated Students of the University of Oregon (ASUO) Student Senate, which makes recommendations to the president of the university about the allocation of incidental fees to the Department of Intercollegiate Athletics, the ASUO, the University Counseling Center, and the EMU.

Board of Directors. The board of directors is responsible for making general policy decisions and long-range plans for the Erb Memorial Union. The board also advises EMU staff members on matters of day-to-day management and administration. The board is made up of elected students and appointed students and faculty members.

University Scheduling and Information Services. This office is responsible for scheduling nonacademic events and activities in the EMU, classrooms, Gerlinger Hall Alumni Lounge, and outdoor areas for university departments, student organizations, and off-campus users. A variety of services that support events are provided through the technical service, ticket, and support services departments.

Child Care and Development Centers. Six high-quality, state-certified, and nationally accredited childcare sites are located in the EMU,
in the East Campus area, and at Westmoreland Family Housing. They provide developmentally appropriate care for children twelve months through first grade. Student families receive first priority for enrollment. Spaces are also available for children of staff and faculty members and from the general community.

Students may work in the programs as employees or receive practicum credit through various departments.

Club Sports
This competitive, recreational program offers more than forty sports during the academic year for students and faculty and staff members. It is designed as an athletic alternative that bridges the gap between intramural and intercollegiate programs. The basic philosophy and key to the success of the program is student involvement in the initiation and coordination of the clubs. Students organize each club and select coaches who perform as volunteers. Emphasis is on participation in competition and on offering students the chance to be recognized as collegiate athletes.

Craft Center
The Craft Center's workshops and courses are open to everyone. People who purchase a term pass can use studios that are well equipped for ceramics, fibers, graphics, glass, photography, woodworking, and other areas of the visual arts. The center also sponsors programs by visiting artists, art exhibits, and annual craft fairs.

Cultural Forum
The Cultural Forum presents a program of campus entertainment and cultural activities including the visual arts program for the EMU, films, concerts, lectures, and performing arts.

Greek Life Advising
Greek life advisers oversee efforts to establish and maintain programs that create positive group living experiences. Sororities and fraternities are actively involved in academic growth, leadership, community services, and athletic and social events.

For more information see Affiliated Housing in the Student Housing section of this catalog or inquire at the Office of Student Life.

Outdoor Program
The Outdoor Program offers low-cost, cooperative activities such as bicycle touring, camping, canoeing, hiking, river rafting, sea kayaking, ski touring, and wind surfing. The program hosts on-campus lectures, slide presentations, and instructional workshops.

Student Activities Resource Office
The Student Activities Resource Office can help students and student organizations with leadership development, program planning, internships and credit, choosing a student group to join, or learning how to become involved in university activities.

The Break
The Break provides a championship billiards area, an informal television and billiards lounge, a complete video game arcade, and separate areas for table tennis and other recreational board games. The center sponsors an extensive schedule of special events and tournaments for every skill level.

Women's Center
See the Associated Students of the University of Oregon section of this catalog for information about the Women's Center.

Health Services
Gerald F. Fleischl, M.D., Director
(541) 346-4441
University Health and Counseling Center
Building, First Floor
East 13th Avenue and Agate Street
http://healthcenter.uoregon.edu/

The University Health Center provides a variety of medical and health-care services for currently enrolled UO students who have paid student fees. These services are provided by a highly qualified staff that includes physicians, a dentist, nurse practitioners, registered nurses, laboratory and x-ray technicians, athletic trainers, physical therapists, pharmacists, dental hygienists, health educators, and support employees.

Medical and Health-Care Services
1. Diagnosis and treatment of student illnesses and injuries
2. Basic preventive dental services and dental education
3. Specialized care for allergies, internal medicine, psychiatry, and minor surgical procedures
4. Allergy clinic and allergy skin testing
5. Women's health-care services, including gynecology and counseling
6. Medical laboratory services
7. Medical x-ray services
8. Mental health counseling
9. Physical therapy and rehabilitative services, sports medicine and therapy clinics for treatment of injuries
10. Satellite sports medicine and wellness facility in the Student Recreation Center
11. Licensed pharmacy
12. Nutrition counseling
13. Health-education services are listed under the Services link on the health center's website
14. Travel clinic
15. Health insurance program

Hours of Operation. The University Health Center is open from 8:00 A.M. to 6:00 P.M., Monday, Wednesday, Thursday, and Friday; from 9:00 A.M. to 6:00 P.M., Tuesday; and from 10:00 A.M. to 2:00 P.M., Saturday and Sunday, fall through spring terms. Summer session hours are 8:00 A.M. to 4:30 P.M., Monday through Friday. The health center is closed between terms.

Appointments. Students should make appointments for outpatient care. An appointment can be made by telephone or in person during weekday hours.

Urgent Care. Students who need immediate attention can use the urgent care service whenever the health center is open, including weekends. However, because this care is first-come, first-served, more time may be spent in the waiting room than if an appointment is made.

A telephone nurse triage program is available when the health center is closed in the evening, on weekends, and between terms; telephone 346-2770.

Students can use the local emergency rooms and after-hours clinics for emergency and immediate care when the health center is closed.

Charges. The University Health Center charges for laboratory tests, x-rays, medications and prescriptions, immunizations and injections, dental procedures, and other special services and supplies. Every effort is made to keep these charges low. There is no charge for basic nursing care. There is a nominal fee for the office visits with a staff physician, dentist, psychiatrist, or nurse practitioner. Students who are referred for medical services that are not available at the University Health Center or who seek medical or health services elsewhere are fully responsible for all expenses.

Health Insurance. All students are strongly encouraged to have health insurance, which can be purchased in 101 University Health and Counseling Center Building. The health center staff members can explain how to obtain a bill for insurance purposes, but the center does not bill insurance companies.

University Health Requirement for International Students. International students may be required to have a screening for tuberculosis by health center staff members. Screening may include a tuberculin PPD skin test or a chest x-ray.

Measles Booster Requirement. All students born after December 31, 1956, and entering the university after fall term 1990 must show proof of two measles vaccinations. Students will not be permitted to register for a second term without proof of measles immunization on record at the University Health Center. After the beginning of a term, registered students can be vaccinated for measles at the health center for a fee.

Other General Information
All medical care and treatment provided at the University Health Center is confidential. Medical records, patients' bills, and other patient information are not released, unless required by law, without the specific written authorization of the patient.

The University Health Center is fully accredited by the Accreditation Association for Ambulatory Health Care.

Brochures available at the University Health Center offer more information about health services, or visit the health center's website.

Intercollegiate Athletics
Bill Moos, Director
(541) 346-4481
Casanova Athletic Center
2727 Leo Harris Parkway

Head Coaches
Mike Bellotti, football
Rick Gamez, softball
Jack Griffin, women's tennis
Tom Heinonen, women's cross-country, track and field
Chuck Kearney, wrestling
Ernie Kent, men's basketball
Carl Ferreira, volleyball
Eugene was the site of the 1972, 1976, and 1980 Olympic Track and Field Trials and has hosted the first-ever Olympic Gymnastics Trials. The university has a rich heritage in men’s and women’s track and field, women’s basketball, gymnastics, wrestling, and golf. Numerous university teams, both men’s and women’s, have won conference and regional championships. Men’s and women’s cross-country teams have won individual national titles and participated in the Olympic Games, World Championships, and other major competitions.

Emphasis on academics and athletics has resulted in the university accumulating thirty-five GTE Academic All-Americans, four NCAA Top-Eight awards, and twenty-three NCAA postgraduate scholarship recipients. The university fields seven sports for men and nine for women. Men’s sports are basketball, cross-country, football, golf, tennis, outdoor track and field, and wrestling. Women’s sports are basketball, cross-country, golf, soccer, softball, tennis, indoor and outdoor track and field, and volleyball. Women’s intercollegiate athletics, organized in 1973, has been a part of the Department of Intercollegiate Athletics since 1977.

The University of Oregon belongs to the NCAA; both men and women compete at the Division I level. The longtime organizer of men’s athletics, the NCAA, began sponsoring women’s championships in the 1981-82 season.

The university also belongs to the Pacific-10 Conference (Pac-10). Other members of the Pac-10 are Arizona, Arizona State, UCLA, USC, California, Stanford, Oregon State, Washington, and Washington State.

The UO football program—participants in fifteen bowl games since the 1916 season—has been selected for nine postseason appearances in the last twelve years, including last year’s victory at the Holiday Bowl.

Pac-10 schools have captured more NCAA titles than any other conference in the nation.

Duck Athletic Fund

The Duck Athletic Fund, the fundraising arm of the Department of Intercollegiate Athletics, has as its primary mission the funding of athletic scholarships. Home offices are in 205 Casanova Athletic Center on the UO campus; telephone (541) 346-5433. There are branch offices in Medford and at the Portland Center. The Medford branch is at 115 Mistletoe; telephone (541) 773-5487. The Portland Center is at 722 SW Second Avenue in Portland; telephone (503) 725-3828.

Public Safety

Thomas M. Fitzpatrick, Director

Straub Hall
1319 East 15th Avenue
(541) 346-5644
(541) 346-0947 fax
http://safetyweb.uoregon.edu/

The Department of Public Safety is responsible for the general safety of the campus twenty-four hours a day, seven days a week. It oversees public safety and police, crime prevention, keys, parking, transportation, the faculty-staff Lane Transit District Ridership Program, bicycle registration, and driver certification.

In compliance with federal law, the University of Oregon prepares an annual report on campus safety and security programs and services. Originally enacted in 1990, the law was amended in 1998 and renamed the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

A copy of the university’s annual security report is available upon request. This report includes statistics for the previous three years about reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by the University of Oregon; and on public property within, or immediately adjacent to and accessible from campus. The report also includes institutional policies about campus security, such as alcohol and drug use, crime prevention, the reporting of crimes, and sexual assault. Telephone the department to request a copy or visit the department’s website.

Parking regulations are available in the Department of Public Safety. Students and university employees may purchase parking permits for motor vehicles or obtain free bicycle permits in this office from 8:00 A.M. to 5:00 P.M., Monday through Friday. Fees are listed under Special Fees in the Tuition and Fees section of this catalog. Visitors may obtain one-day parking permits from the public safety office, the information kiosk at 13th Avenue and Beech Street, or from the department they are visiting.

Special Services

High School Equivalency Program

Emilio Hernandez Jr., Director

(541) 346-0881
1685 East 17th Avenue

Federally funded and sponsored by the University of Oregon, the High School Equivalency Program (HEP) is a multicultural, bilingual, alternative...
education program for migrant and seasonal farm workers. The program offers services to students with a wide range of academic and language skills and provides instruction in social, academic, and survival skills necessary to pass the general educational development (GED) test and to be placed in college, job training, or employment. The program office is open weekdays from 8:00 A.M. to 5:00 P.M.

McNair Scholars Program
Susan Lesyk, Director
68 Prince Lucien Campbell Hall
(541) 346-3226

The McNair Scholars Program, part of the Center for Academic Learning Services, helps talented and motivated undergraduates who meet eligibility criteria and aspire to earn Ph.D. degrees. Funded by a federal grant with university support, the program provides comprehensive assistance (seminars, advising, tutoring) to students from groups traditionally underrepresented in higher education. In addition to helping students select schools, prepare for entrance exams, write academic papers, and conduct research, the program also offers scholarships and paid internships with faculty mentors.

McNair Scholars Program is open weekdays from 8:00 A.M.-5:00 P.M. For more information, see Academic Learning Services in this section of this catalog.

Speech-Language-Hearing Center
Susan Roberts, Director
(541) 346-3593
Clinical Services Building

The Speech-Language-Hearing Center offers a full range of clinical and consultative speech, language, and audiological services for individuals of all ages. These services are available in the Clinical Services Building and in a variety of off-campus sites including preschools, public schools, hospitals, rehabilitation centers, and clinics. The center serves as a local, state, and national resource for innovative clinical service and clinical research, providing high-quality, data-based speech, language, and hearing services to individuals with communication disorders or delays. Simultaneously the center creates opportunities in clinical practicums for communication disorders and sciences majors.

Student Support Services
Susan Lesyk, Director
68 Prince Lucien Campbell Hall
(541) 346-3232

Student Support Services is part of the Center for Academic Learning Services. Funded by a federal grant, the program provides comprehensive academic support including courses, noncredit workshops, tutoring, academic and personal counseling, and advocacy and mediation help for disadvantaged and traditionally underrepresented students. The program offers services to students with a variety of problems and skill levels—from those who are having trouble staying in the university to those whose plans include graduate or professional schools.

Student Support Services is open weekdays from 8:00 A.M. to 5:00 P.M. For more information, see also Academic Learning Services in this section of this catalog.

Veterans Affairs
Herbert R. Chereck, University Registrar
(541) 346-3119
220 Oregon Hall

The Office of Veterans Affairs, in the Office of the Registrar, helps eligible student veterans and their dependents obtain veterans’ educational benefits in compliance with Veterans Administration procedures and regulations.

The office provides basic information about Veterans Administration and Oregon State Veterans benefits including Veterans Vocational Rehabilitation, Veterans Tutorial Assistance, and contact with the Veterans Administration Regional Office in Muskogee, Oklahoma.

As soon as they are admitted to the university, students who are eligible for Veterans Administration education benefits should write Veteran Affairs Coordinator, Office of the Registrar, 5257 University of Oregon, Eugene OR 97403-5257; telephone (541) 346-3119; or send e-mail to veterans@darkwing.uoregon.edu. The veteran’s coordinator, located in the registrar’s office, is available from 8:00 A.M. to 5:00 P.M., Monday through Friday.

Yamada Language Center
Jeffrey Magoto, Director
(541) 346-4011
(541) 346-3917 fax
121 Pacific Hall
ylo@darkwing.uoregon.edu

The Yamada Language Center houses the University of Oregon’s language laboratories; it has an extensive collection of audio and video media and computer software. The center has multimedia laboratory facilities for individual and group work; three media-rich classrooms with audio, video, and access to the Internet; and a computer laboratory. The center’s lounge has reading material in variety of languages and is used for seminars and a film series.

The center provides support services to training programs for teachers of second languages and English as a second language. As a research unit, the center brings together faculty members in second-language instruction, education, and related fields to work on individual and collaborative projects in second-language acquisition, teaching methodology, and the development of audio, video, and software instructional media with accompanying texts. The center hosts workshops and seminars on topics related to second-language acquisition and instruction.

Veterans Affairs
Herbert R. Chereck, University Registrar
(541) 346-3119
220 Oregon Hall

The Office of Veterans Affairs, in the Office of the Registrar, helps eligible student veterans and their dependents obtain veterans’ educational benefits in compliance with Veterans Administration procedures and regulations.

The center hosts workshops and seminars on topics related to second-language acquisition and instruction.

Students Life
Laura Blake Jones, Director
(541) 346-3216
164 Oregon Hall

The Office of Student Life helps students derive full benefit from their University of Oregon experience by assessing and communicating the needs of a changing student body, providing education and support programs and services, working to ensure that all students are supported and accepted, minimizing the obstacles to student success, and celebrating the accomplishments of individuals and the campus community.

A comprehensive student service resource and referral center is located in the Office of Student Life on the first floor of Oregon Hall.

Bias Response Team
Mark Tracy, Coordinator
The Bias Response Team was formed specifically to obtain information and respond to incidents of bias on campus and in the community. Filing a report of bias with the response team adds information that helps improve the climate on campus and in the community.

Conflict Resolution Services
Ann Bentz, Director
(541) 346-4240
318 Erb Memorial Union
http://darkwing.uoregon.edu/~crs

Services include mediation, facilitation, interpersonal communication coaching, and related services. The program’s workshops present basic conflict resolution skills. Conflict Resolution Services coordinates the Neutral Observer Program, which provides trained observers at campus events. The presence of observers provides for unbiased witnesses in the event that conflict escalates. All services are free and confidential for students and faculty and staff members.

Diversity Programs
Mark Tracy, Coordinator
The Office of Student Life provides support and assists students in developing programs designed...
to enhance and foster a campus environment that recognizes, celebrates, and values its racial diversity. In addition, the office provides assistance to the ethnic student unions and the Multicultural Center in achieving the objectives of ensuring that students of color have a successful and productive experience at the University of Oregon. The office also assists the unions in building stronger coalitions on campus.

Family Programs and Nontraditional Student Support
Tris O'Shaughnessy, Coordinator
http://darkwing.uoregon.edu/~slt/parent

The Office of Student Life offers programs for parents and families of students. Its biannual newsletter, Connections, has information for parents and families about the university experience. Special orientation events are organized for parents of new students during IntroDUCkition and Week of Welcome. Each fall and spring term families of students are invited to spend a weekend on campus enjoying visits to classes, student awards ceremonies, faculty presentations and receptions, and athletic events. In addition, nontraditional student families—older students, students who are reentering the university after a break, or student parents—are offered support and assistance specific to their concerns by the assistant dean of students for family programs.

Honors and Awards
See the Honors at Oregon section of this catalog for information about honorary societies, outstanding—student awards, scholarships and prizes, and the Dean's List.

Lesbian, Gay, Bisexual, and Transgender Educational and Support Services Program
Chicora Martin, Director
http://darkwing.uoregon.edu/~program

Understanding and acceptance are essential to creating a welcoming environment for lesbian, gay, bisexual, and transgender people. This program develops and provides educational services related to homophobia and heterosexism; assists student organizations and academic units in bringing speakers to campus for educational programs; serves as a referral source for and provides consultation to members of the lesbian, gay, bisexual, and transgender community; offers support services for lesbian, gay, bisexual, and transgender people and their heterosexual allies; and acts as a liaison between the university administration and the lesbian, gay, bisexual, and transgender community.

Sexual Assault Prevention
Sheryl Eyster, Coordinator
The Office of Student Life coordinates the Alliance for Sexual Assault Prevention, self-defense classes, courses about preventing sexual assault, and other programs and events designed to prevent unwanted sexual behavior. In addition, the office provides support for survivors of sexual and partner violence.

Student Judicial Affairs
Chris Loschiavo, Director
http://darkwing.uoregon.edu/~conduct

The university’s student judicial affairs program is designed to protect the rights, health, safety, and well-being of every member of the university community and, at the same time, protect the educational objectives of the university. The program handles complaints related to academics made against students by other students and by faculty or staff members. A faculty-student committee has primary responsibility for formulating and evaluating student conduct policies and procedures. The program is administered by the director of student judicial affairs.

An abridged version of the Student Conduct Code and information about the student conduct program appear in the Schedule of Classes. Copies of the complete code are available in the Office of Student Life and from the Office of University Housing, the ASUO, and the Office of Student Advocacy. A copy of the code and more information is available on the program’s website.

Substance Abuse Prevention and Education
Sheryl Eyster, Coordinator
The Office of Student Life offers programs and services to campus organizations and students who want information about the use and abuse of alcohol and other drugs. The office also coordinates and provides information about campus efforts in alcohol and drug abuse education, prevention, and intervention.

Work and Family Services
Karen Logvin, Administrator
(541) 346-2962
463 Oregon Hall

University Work and Family Services, a program in the Office of Human Resources, assists university families in managing work, education, and family life. The office coordinates information about campus and community childcare options, resources for families and elder care, and university policies related to children and families. Staff members are available to consult with students and faculty members about parenting, childcare, and other family issues.

ASUO Student Childcare Subsidy. Funded by student incidental fees, the program pays a percentage of childcare expenses for low-income students. UO-affiliated and licensed community childcare expenses are covered. More information and applications are available from the ASUO Executive office, Erb Memorial Union, Suite 4; telephone (541) 346-0851.

Family Childcare Network. A program of Work and Family Services, the Family Childcare Network provides education, consultation, and support to family-housing residents who are interested in or are currently providing childcare at their homes. The network encourages and supports family-housing home childcare providers through informational meetings, use of a professional library, and introduction to community childcare referral services and training opportunities. For more information, call Work and Family Services.

Family Support Room
30 Prince Lucien Campbell Hall
(541) 346-2962

The family support room provides a family-friendly, on-campus space for parent-initiated short-term or occasional childcare. It also serves as a lactation support room, providing a hospital-quality breast pump and private space for nursing or expressing milk. UO parents may register to use the room for a term or for a year by contacting the work and family services administrator.

UO Affiliated Childcare Programs
Opportunities exist for students to work in UO childcare programs as employees or to receive practicum credit through various departments.

Co-op Family Center
(541) 346-7400

The center accepts children who are between the ages of eight weeks and eleven years. The center serves primarily families who live in Spencer View Family Housing but accommodates some UO and community parents when space is available. Parents may reduce their costs through several cooperative options and may also share in the center's management through membership on the center's board of directors. See also Associated Students of the University of Oregon in this section of the catalog.

Baby Co-op
161 Grayson Hall
(541) 346-2962

This parent-initiated and -managed program is available for children who are between the ages of six weeks and one year, is designed to support parents reentering the work force or returning to school after a birth or adoption. UO parents may register to use the baby co-op by contacting the work and family services administrator, who works with them to plan and implement their care program.

EMU Child Care and Development Centers (CCDC)
(541) 346-4384

The centers accept children who are between the ages of twelve months and six years.

The centers primarily serve student families but accommodate the children of UO faculty and staff members when space is available. Administered by the Erb Memorial Union, the centers comprise six childcare programs located at sites in the East Campus area, Westmoreland Family Housing, and the EMU. Parents can share in policy decisions by belonging to the centers' Parent Council. See also Erb Memorial Union in this section of the catalog.

Vivian Olum Child Development Center
(541) 346-6586

The center provides comprehensive childcare and education for children between the ages of six weeks and eleven years. Administered by the Office of Human Resources' Work and Family Services, the center primarily serves faculty and staff families, with student families guaranteed priority access to a percentage of available openings, and it mainstreams community children with special needs.
Academic Affairs

Most tenured faculty members are listed under academic departments and programs in sponsoring colleges or schools. The following people are assigned to administrative units.

Faculty

Lorraine G. Davis, professor (health education, statistics); vice provost for academic affairs. B.S., 1965, M.S., 1967, Wisconsin, La Crosse; Ph.D., 1972, Oregon. (1972)

Emeriti

Christine Leonard, assistant professor emerita. B.S., 1981, Oregon. (1968)

Marian H. Miller, professor emerita; assistant university physician emerita. B.A., 1925, M.D., 1950, Oregon. (1931)

Myra Miller, associate professor emerita. B.A., 1937, Washington (Seattle); diploma, 1939, New York School of Social Work. (1967)

Lois E. Person, assistant professor emerita. B.S., 1948, North Dakota; M.S., 1950, Cornell. (1959)

Jessie L. Puckett, professor emerita. B.S., 1931, M.S., 1937, Oregon. (1952)

Margaret J. Wiese, associate professor emerita of home economics. B.S., 1941, Iowa State; M.A., 1945, Iowa. (1947)

The date in parentheses at the end of each entry is the first year at the University of Oregon.

The University of Oregon Bookstore has served students and members of the faculty and staff for more than eighty years. This is the twenty-second year the bookstore has assisted in funding the UO Catalog's full-color covers, reiterating the bookstore's continuing support of the university's academic programs. See the Services for Students section of this catalog for more information about the bookstore.

Living in Eugene

Eugene is paradoxical: It’s a mid-sized city (population 133,460) with big-city culture and a relaxed, small-town feel.

Eugene is natural and beautiful: Lush and green, the city nestles between two mountain ranges at the junction of the Willamette and McKenzie Rivers, with an abundance of parks, trails, tall trees, flowers, and water rippling over rocks.

Eugene is cultural: The Hult Center for the Performing Arts brings in performers such as Riverdance, Itzhak Perlman, Sawyer Brown, the Indigo Girls, and Bobby McFerrin. The Hult is also the performance home for the Dance Theatre of Oregon, Eugene Ballet Company, Eugene Concert Choir, Eugene Opera, Eugene Symphony, Oregon Bach Festival, Oregon Festival of American Music, and Oregon Mozart Players. Cuthbert Amphitheater in Alton Baker Park is the venue for popular music concerts on warm summer evenings. Museums, theaters, art galleries and festivals, music clubs, and concerts in the parks provide ample diversion.

Eugene is multicultural: The birthday of Martin Luther King Jr. is celebrated with a long list of events. The Oregon Asian Celebration, Fiesta Latina—Cinco de Mayo, the Asian Kite Festival, and the Japanese Obon and Taiko Drum Festival are all held in Eugene, while Springfield hosts the Ukrainian Day festival and Junction City, the Scandinavian Festival.

Eugene is active and athletic: Bodies are in motion hiking, biking, skating, canoeing, rafting, kayaking, running, swimming, rock climbing, and fishing—and that’s just in town. Sailboats and sailboarders zip across the water at nearby Fern Ridge Reservoir, while skiers and snowboarders test the powder at Willamette Pass, about an hour away. When people slow down long enough, they watch the UO Ducks play football at Autzen Stadium and cheer the basketball team at McArthur Court. Track-and-field enthusiasts check out Olympic contenders at Hayward Field, while baseball lovers follow the Eugene Emeralds at Civic Stadium.

Eugene is quirky, colorful, fun, different: A Slug Queen reigns over the Eugene Celebration, a weekend when downtown streets are blocked to traffic for a parade, exotic food booths, music, art, and athletic events; it’s a time for celebrating life in all its diversity. The open-air Saturday Market is a mini-celebration from spring through fall, with arts, crafts, music, and food. Tie-dyed attire is optional.

Eugene is convenient, Part I: All the local fun stuff is within easy reach of campus by foot, bike, or bus. The bus system is free to UO students, and Eugene is bike friendly. Other cities have a rush hour; Eugene has a rush minute.

Eugene is convenient, Part II: The Pacific Ocean—with miles of unspoiled public beaches, rocky cliffs, tidepools, sand dunes, sea lions, and migrating whales—is about an hour’s drive west. The Cascade Mountain Range—with ancient forests and wild rivers, elk and eagles, and hiking and ski trails—is about the same distance east. Portland, home of the Trail Blazers, is about 110 miles north, and the Eugene Airport provides direct service to Portland, Seattle, San Francisco, Denver, Los Angeles, and Reno.

Oregon University System
The Oregon University System (OUS) is governed by the State Board of Higher Education, whose members are appointed by the governor with confirmation by the Oregon Senate. Board members serve four-year terms, except for student members (*), who serve two-year terms. The names of the members follow; expiration date for each term is June 30 of the year shown.

Executive Committee
Don VanLunen, Portland, 2004
(office expires June 30, 2001)
James Lussier, Bend, 2001
(office expires June 30, 2001)
Tom Imeson, Portland, 2003
Leslie Lehmann, Portland, 2003
Jim Willis, Salem, 2001

Members
Herbert Ashkenasy, Albany, 2001
Shawn Hempel, Klamath Falls, 2001
Geraldine L. Richmond, Eugene, 2002
Bill Williams, Medford, 2003
Phyllis Westenbarger, Bay City, 2004
Tin Young, Tualatin, 2002

Administrative Staff
Joseph W. Cox, chancellor, Eugene
Thomas K. Anders, vice chancellor for finance and administration, Eugene
Shirley M. Clark, vice chancellor for academic affairs, Eugene
Robert D. Dryden, vice chancellor for engineering and computer science, Portland

Diane Vines, vice chancellor for corporate and public affairs; secretary, State Board of Higher Education, Portland

The Oregon University System, organized in 1932, provides educational opportunities to people throughout the state. Member institutions are independent elements of an integrated system. Opportunities for general education are distributed as widely as possible throughout the state. Specialized, professional, and technical programs are centered at specific institutions.

Member Institutions
Eastern Oregon University, La Grande
Philip D. Creighton, president
Oregon Institute of Technology, Klamath Falls
Martha Anne Dow, president
Oregon State University, Corvallis
Paul G. Risser, president
Portland State University, Portland
Daniel O. Bernstein, president
Southern Oregon University, Ashland
Sara Hopkins Powell, interim president
University of Oregon, Eugene
Dave Frohnmeyer, president
Western Oregon University, Monmouth
Betsy J. Youngblood, president

Affiliated Institution
Oregon Health Sciences University, Portland

Peter O. Kohler, president
