SPRING 2017 FINAL CURRICULUM REPORT

June 13, 2017

OVERVIEW

The body of this report consists of two major sections: **Course Proposals** reviewed spring 2017 and **Other Curricular Matters**.

Course proposals approved by the University of Oregon Committee on Courses (UOCC) and the University Senate are effective fall term 2017, unless a specific term is requested by an academic department and stated otherwise in this report.

All changes to course catalog listings, except for minor revisions of course descriptions, are intended to be included in the curriculum report, and are routed through the UOCC to the senate. The UOCC will consider new proposals during each term with the exception of summer and will submit a quarterly report to the University Senate. Information and suggestions for preparing proposals, including policies and definitions governing group and multicultural general-education requirements, are provided under Other Curricular Matters.

Courses Not Taught Report: Courses not taught within the past three years will be indicated for dropping from the curriculum in the spring curriculum report.

COURSE PROPOSALS

Unless indicated otherwise, courses may be taken either P/N or for letter grades. “P/N only” or “graded only” indicates that all students must take the course as specified in the bold print. Separate grading options for majors are bracketed in this report and appear in UO class schedule notes; they are not printed in the *UO Catalog*. **R** after course credits means that the course number may be repeated for credit. “Sequence” after the description means the courses must be taken in numerical order.

DROPPED COURSES

The University Senate agreed in 1998 that the report of the Committee on Courses should include those permanently numbered courses that are being dropped because (1) they have not been taught for three or more years, and (2) the department can provide no reasonable explanation why they have not been taught or whether they will be in the future. The faculty requires that general-education-satisfying courses be offered each year. Other courses should be offered at least every other year to avoid misrepresentation of course offerings to prospective students, and to ensure that required courses are readily available to current students.

Courses may be reinstated within a period of three years, conditional upon the following: (1) there has been no change made to the course, (2) the department provides the term the course will be taught, (3) the department provides the name of the faculty member who will be responsible for teaching, and (4) the department provides a course syllabus with information regarding undergraduate graduate differential for demonstrating mastery if the course is numbered 4XX/5XX.

Dropped courses will be listed in the spring curriculum report.

UOCC Guidelines for approval of undergraduate online / hybrid classes - passed by UOCC 5/25/2017

The goal of these guidelines is to aid proposers in addressing UOCC review of online or hybrid classes. Senate Motion US15/16-22, passed April 6th 2016, states:

- that approval by the UOCC of a new undergraduate online or hybrid class will require a description from the proposer of how classroom time will be replaced with alternative forms of engagement of students with the academic content and engagement between the students and the instructor, and perhaps engagement among the students, as appropriate to the instructional context. Providing students with class presentations (e.g. PowerPoint materials with associated recorded audio lecture) may be included in this category but will not be sufficient to account for all engagement; and
- Already existing undergraduate online and hybrid classes will also be required to follow this model and will be reviewed by the UOCC for equivalence and appropriate assignment of credit hours within the next 3 years.

The UOCC online review task force reviewed proposals for online and hybrid classes to develop guidelines that satisfy this requirement for engagement. While many activities are highly useful in courses, not all interactions constitute engagement i.e. replacing 40 hours of lecture for a 4 credit class. Therefore, proposers should detail how many hours are spent on each of the appropriate alternative forms of engagement, in either written or table format.

The UOCC regards the following as appropriate alternative forms of engagement to substitute for contact hours:

1. Recorded lectures, either synchronous or asynchronous.
2. Instructor moderated discussion boards
3. Synchronous learning platform activity with Instructor
4. Quizzes with Instructor feedback
5. Projects with Instructor feedback
6. Other activities with Instructor direct interaction

The UOCC regards the following non-classroom important activities as typically not qualifying as a hybrid or online substitute consideration for classroom time:

1. Posting of supplemental content materials
2. Announcements
3. Assignments
4. Office hours, online or otherwise

The syllabus needs to describe the online activity with clarity. One sample of each online activity must be provided for review (for example, a link to one recorded lecture, an example of a blog post, etc.). Proposals for courses that will be taught only in online or hybrid classes should supply an online Student Engagement Inventory (SEI) whereas courses that will be taught in both online/hybrid format and in regular classroom setting should provide one SEI for each format, as shown for a 4 credit class in the simplified examples below:

Example 1 for a class that will be taught online only:

Student Engagement Inventory	Hours student engaged	Explanatory comments (if any):
Lecture	0	
replacement for lecture	20	viewing recorded lectures: provide sample
	10	Activities on Instructor moderated discussion board: provide sample
	10	Additional project with instructor feedback: provide sample
Assigned readings	40	x pages total
Project	4	project for class
Writing assignments	35	x writing assignments

Example 3 for a class that will be taught both online and in classroom:

Online interaction	1	1	online quiz taking
Total hours:	120	120	

Example 4 for a class that will be taught both hybrid and in classroom:

Student Engagement Inventory	Hours student engaged in classroom course	Hours student engaged in hybrid course	Explanatory comments (if any):
Lecture /discussion section or lab	30	0	lecture
	10	10	discussion section / lab
replacement for lectures		20	viewing recorded lectures: provide sample
		10	Activities on Instructor moderated discussion board: provide sample
Assigned readings	40	40	x pages total
Project	4	4	project for class
Writing assignments	35	35	x writing assignments
Online interaction	1	1	online quiz taking
Total hours:	120	120	

These guidelines were developed by UOCC following the review of several online course proposals and represent examples of the type of information that helps the committee understand proposed courses. We expect to revise and expand these guidelines as new instructional modalities are proposed.
